THE UNION-BANNER

VOL. 4. CLANTON, ALABAMA, THURSDAY, JANUARY 6, 1916. NUMBER 40

REPUBLICANS WANT ROOSEVELT IN 1916 DECLARES THOMPSON

Progressive Leader "No less Republican," He says, and also favors state Bond Issue

Joseph O. Thompson, Progressive National Committeeman for Alabama, is in Montgomery. When asked if he were going to attend the committee meeting in Chicago on January 11th, and also the Perkins dinner, which is to be given to the members of the National Committe at the Blackstone Hotel in Chicago on the evening of January 10th replied, that he of necessity would attend the committee meeting being the Alabama member, and had accepted the invitation to attend the dinner also.

Mr. Thompson smiled when asked if there was to be a repetition of the twelve billion dollar dinner given in New York recently. He said:

"The people of America know Colonel Roosevelt too well for him to be hurt by the talk growing out of the Gary dinner, the influence of plutocratic surroundings, etc. This is the kind of talk that may have been effective a few years ago where it concerned some obscure candidate, but demagogic references to plutocratic and millionaire influence falls flat when applied to a man whose love for the people and whose genuine democracy is so well established as Col. Roosevelt's in all parts of the nation.

"Why, less than a week before the Gary dinner, I was with him in the drawing room at the home of the mayor of a little Alabama town, surrounded by some twenty of the townspeople, ladies and gentlemen, making himself as much one of them as he did at the dinner in New York a few days later where he was surrounded by the millionaires. America at this time needs his type, one who loves his fellow men and sympathizes with them, no matter whether they be millionairs or plain American citizens. They need the man with the big stick who is not afraid to use it—one who can say to Mexico and the warring nations on the other side, 'We have some rights you must respect and our rights are to intervene in such a forceful way as to be effective.'

"Just such force as he used to bring about peace between Russia and Japan. Have our people forgotten that the war between those countries was settled under Roosevelt's administration and through his influence up yonder at Portsmouth? The war between the nations now fighting will be settled on American soil, and just as soon, and no sooner, than some such man as Roosevelt steps in with the big stick and calls a halt.

"The Republicans from all quarters of the nation are beginning the old cry, heard on every hand at Chicago prior to the last convention, 'I want Roosevelt,' and with no Federal office holders to block the game as in 1912, I will be very much surprised if, in response to the cries of 'I want Roosevelt,' the convention assembled at Chicago on June 7, 8, 9 does not on about the third, produce a man who in eloquent language and epigrammatic splendor not review the last Republican convention in all of its errors and calling attention to the fact that at the last general election Roosevelt received over 4,000,000 popular votes, while his opponent, the Republican nominee, received less than 4,000,000, showing that the voters wanted Roosevelt. When that speech is delivered, there will be an enthusiastic outburst for Roosevelt. I imagine I can see the 1,000 delegates rising to their feet and in pent-up feelings, pent up for four long years, cry aloud to the American people, 'We will give you Roosevelt.' The battle cry will be 'The people in 1916 must have what they wanted in 1912. No, Colonel Roosevelt is no plutocrat—he is a democrat in the highest sense of the term, more completely than any other man who has helped to make American history. His standerd of life is embraced in the 6th chapter, 8th verse, of Micah, which he often quotes: '...and what doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God.'"

When reminded that some of this was strange talk for a progressive, Mr. Thompson said that he had never been any less a Republican by having become a progressive. When it was necessary to set up a seperate organization as a revolt against unrepublican action, he joined in the movement gladly. He said:

"I am no hyphaneated American, but am an hyphenated republican, and I hope some way will be found by which the hyphen can be eliminated."

When asked if he believed Mr. Roosevelt would accept the republican nomination, he said he thought undoubtedly he would provided the proper progressiveness was shown in the making of the platform. He said:

"This is merely my opinion, I have no kind of authority for saying so. I just know that he has always responded to the call of duty and will always stand ready to render the highest service to the people when his services were demanded, as they most certainly seem to be now."

—Mr. Thompson said he could not forestall the action of the National Committee of the Progressive Party, but that undoubtedly the leaders on the committee would wish to call the convention at some time after the meeting of the Republican convention, may be on the same day and at the same time and in the same city.

Mr. Thompson was reminded he was on the campaign committee for the bond issue:

"Yes, and I heartily favor the adoption of the proposed amendment. Any amendment to the State constitution is an important measure, and every good citizen should study out the ameendment proposed, carefully and conscientiously, when dealing with organic law of the state

I have studied this question, and am convinced I should vote for its adoption. I do not believe in that kind of politics that stimulates opposition to every good measure which may emanate from those with whom we differ politically. I very much hope all anti-democrats will vote solidly for the amendment, thereby expressing their interest in the affirs of the State and, at the same time demonstrating that they are broad enough to occasionally lay aside partisanship. No man stands higher in the business world than our present Govenor. I have differed with him on many public questions, but he is exciptionally dependable and can be relied upon to handle the bonds of the State to the very best advantage."

TO LAND OWNERS OF CHILTON COUNTY

Thos. M. Hooper, U. S. Deputy Surveyor of the state of Alabama, will be in Clanton for the next ten days or two weeks. Any parties wishing their land lines run according to the government survey can secure his services by leaving their orders with the Probate Judge or W. W. Fox.

DR. V. J. GRAGG

Who retires as County Health Officer for Chilton County, after a very efficient and successful term of three years in this important position.

CHILTON COUNTY HAS A NEW HEALTH OFFICER

Dr. Gragg has been succeeded by Dr. T. J. Marcus

We present here the likenessof Drs. V. J. Gragg and T. J. Marcus, the retireing and incoming health officers, respectively, of Chilton County,

For the past three years Dr. Gragg has filled the office with credit and efficiency. He has zealously guarded the public health of our county during his term, and has made for himself a professional standing of much pride.

The publication during his term of office, of the Chilton County Health Book was a work of great value to our citizens, and the general health of our county. This effort of his alone was an advance step which Dr. Gragg will long receive credit for instituting and carrying out.

His successor, Dr. Marcus, possesses every quality of a trained and efficient man of his profession, and his ability alone is sufficient guaranty that under his managementthe countyhealth office, in all its relations to public health, will receive efficient and just attention and direction.

DR. T. J. MARCUS

Who succeeds Dr. Gragg as County Health Officer, and will guard the public health of our citizens for the next three years.

A LETTER FROM MR. J. N. SCOTT

Editor Union-Banner:—Please allow me space in your paper to say a few words to your readers and the voters. Christmas went off very quiet, and the new year is here, and everybody seems to have the blues, but cheer up boys—while we have some things to regret, we have many to be thankful of. Let us enter the new year with greater vim than ever before, for we have several important things to face this year, and let us have that great desire to be led in the right way. Remember when a mistake is made in an election that the poor man is hurt the worst.

Beware of the bond issue. Who will it help? The grafters, that's all. They claim it is to get the state out of debt, but I can't see it that way, How will the state get out of debt voting a million and half dollars worth of bonds on it? Who is the recommender of this bond business? The people that are furnishing the pie counter, or the people at the pie counter. This should be seriously thought over before voting on any question.

Who recommends cutting power expenses at the pie counter? Is it the people that furnishes the supplies? Do the men at the pie counter agree, and do you know this is how they do it; take out one man and put in three. Our official family is growing all the time. Just think about it—three men to go around and value our property, getting six dollars per day and an auto furnished free to ride in. I will venture to say that I could have hired just as good men to do this work for three dollars per day and furnish their own conveyance. How many of you would like to get two per day? I am one of the Ledger's men—believe that if our affairs had been run economically we would be out of debt and have plenty of money in the treasury. Just think about it Mr. Tax Payer. If we had money in the treasury some one would get it and run off and we would lose it. Hasn't this been the case and the legislators have been going for the poor old tax payers every time and they have gone law power this time when they got the poor old dogs. A man hasn't got anything around him now not taxable but rats, cats, chickens and chinches. But boys you may look out for them next time as they turn the big corporations loose, tax free.

Mr. Voter, study over these things and in the pinch we may be able to change treasury conditions.

Success to The Union-Banner and its many readers.

J. N. Scott.

MT. PLEASANT

Prof. G. R. Lewis and sister who have been spending the holidays with home folks at Marble Valley have returned and opened up school with a good attendance.

Profs. McDonald and Wood were visitors at J. Wiley Foshee's one day last week.

Mrs. J. M. Littlejohn and Mrs. W. G. Culp recently visited Mrs. J. A. Logan.

Oliver Duke of Coosa recently visited at Mrs. Belle Baxley's.

Rev. B. H. Vickers and family spent last Thursday with L. O. Vickers.

Miss. Amye Daniel visited Miss Eula Belle Foshee one day last week.

W. G. Culp and wife spent last Tuesday at J. J. Culp's.

J. H. Duncan and wife spent Christmas day at J. A. Duncan's.

Relius Jones and wife visited at J. C. Jones last Friday night.

Willie Barnett of Thorsby visited at W. M. Pierce's Monday.

Norman Dozier of Elmore is visiting relatives here.

D. J. Melton recently visited at G. W. Melton's.

Mrs. Burnett of Birmingham is visiting her son, B. G. Burnett.

Mr. J. Wiley Foshee has purchased a new Ford car.

Next Saturday has been set aside to meet at the school house to clean up and set out a flower yard. We urge all who would like to have a nice up-to-date school ground to come and help us. If you have any shrubs or flowers to spare bring them.

UNION SPRINGS

The holidays were unusually quiet here.

The belled buzzard was here just before the holidays.

Prof. Mullins' school had a nice Christmas tree on the 24th. The Prof. had presents on the tree for all his pupils, which was very thoughtful of him.

Mr. and Mrs. Jackson of Bibb visited here during the holidays.

Mr. and Mrs. Redding recently visited relatives in Bibb.

Mr. Langston and family visited in Randolph Saturday.

Yes, Mr. Honeycutt's proposed Highway from Jemison to Randolph or from Jemison to Montevallo would be good for this part, while it would add to the big debt, yet the debt is so large we wonder when it will ever be paid, our part of the county had just as well have a share while it is going, still we believe it would have been wise to build highways as the county had money to pay with.

As we enter the new year we find that times are dull, not with standing we often read that prosperity is here, but where is it? Ask the merchants where prosperity is. The best thing we see is that our country is at peace, while the world war rages and the gloom increases, yet, far down the vista fly the new year we see, the dawn of the beautiful Sabbath to be.

MAPLESVILLE

Mrs. J. W. Foshee has been confined to her bed for some time with lagrippe.

Miss Winnie Savage and Mrs. McKreall of Birmingham were in Maplesville last Friday visiting Mr. J. W. Foshee and family.

Miss Etha Nix, a student of the A. G. T. I. at Montevallo, was a visitor in Maplesville last week.

Master Dewey Graham and his mother, Mrs. G. H. Graham, returned from Rome, Ga. last Friday where they visited relatives.

Miss Margie Rainer of Cuba, has recently started to teaching a music class in our city.

Miss Vivian Foshee a student of the Central Baptist school of Tuscaloosa, spent the Chsistmas days in Maplesville.

Practically all of the schools in this part of the county opened Monday.

Our town has not been fortunate enough to escape the grippe epidemic that has been sweeping the state.

We are glad to note the improvement of temperance in this part of the great world recently.

The students of several colleges in different parts of the state returned to their respective duties the first of the week.

NEW SALEM LOCALS.

Health of this community is fairly good at present except Mrs. Bettie Price, but we hope for her to be better soon.

Everything seems to be moving along nicely through here just now.

Rev. W. P. Lowery filled his regular appointment here Saturday and Sunday.

There was a crowd from here took a New Years night ride composed of Misses Lizzie Oden, Precious Caton and Elveria Sundberg and Messrs. Johnie Maddox, J. D. Gentry, P. B. Oden and Hellie Sundberg and they reported a joyous time.

Howard Franklin of Pleasant Grove visited P. B. Oden last Friday.

Miss Elveria Sundberg spent Sunday with Miss Lizzie Oden.

John Henry Maherg attended court Monday.

Misses Lizzie Oden and Elveria Sundberg went to Clanton shopping Monday.

Miss Precious Caton dined with the Misses Pates Sunday.

Miss Region Barrett visited Miss Mary Pate Saturday night.

Success to the Union-Banner and its many readers.

PEOPLES TELEPHONE DIRECTORS MEETING

The Directors of the Peoples Telephone Company met at the court house in Clanton, Jan. 4, W. W. Fox, R. J. Downs, J. Q. Wade, F. A. Gibson and J. N. Dennis being present and L. D. Popwell, our president, acting as our Chairman transacted the following business:

1st. Motion prevailed thet we take up the matter of employing Central operators on Friday, Jan. 7th, at 10 a.m. at the court house.

2nd. By motion it was unanimously agreed that the Secetary-Treasurer be required to furnish good and secure bond in the sum of two thousand dollars ($2,000) said bond to be approved by the board of Directors.

3rd. By unanimous vote it is the sense of the Directors of the Peoples Telephone Company that it is inconsistent with the By-Laws of said Company for any party or individual to own, operate, or rent telephones for profit, in connection with the Peoples Telephone Company and that the Peoples Telephone Company hereby refuse service to any party or person operating or renting telephones for profit,

4th. Motion prevailed that the Peoples Telephone Co. agree to buy any or all Signals or Drops when offered for sale.

5th. By agreement the meeting adjourned to Friday, Jan. 7, 1916, at 10 a.m.

PLEASANT GROVE.

Editor Union-Banner:—Here I come wishing everybody a happy new year, and I am sure everybody will do all they can to make this year the best of all.

Everybody in this neck of the woods are doing just fine.

Rev. M. C. Crumpton filled his appointment Sunday and preached one of the best sermons we ever heard.

The Sunday school is progressing fine under the direction of J. S. Wright, Supt.

The literary school is progressing fine under the supervision of Prof. C. E. Harris, principal, and Miss Rena Childress, asst.

Dr. John A. Pool and Leonard Harris of Thorsby spent the holidays in this part.

Bob Champion visited his brother Rev. J. E. Champion last Thursday.

A bountiful dinner was given on last Thursday by the Misses Childress, to the Macedonia and Pleasant Grove young people. All kind of games were played in the afternoon. At 7:30 all left for the fruit supper at Russes Still.

S. P. Franklin spent last week in Atlanta.

Miss Clara Crumpton is visiting friends here this week.

Miss Etha Nix of Montevallo is visiting home folks this week.

Mr. and Mrs. E. D. Lenoir visited Crayton Lenoir Friday and Saturday.

Claud Hodgens is visiting friends in Birmingham this week.

Herbert Wright was a visitor at Thorsby Saturday.

Prof. C. E. Harris of Clanton returned home Saturday.

Harris Glass of Atlanta is at home again.

Mr. and Mrs. Will Cost are visiting Mr. and Mrs. George Brasher this week.

Miss Pearl Dawson has returned home after a pleasant visit to Mr. Harve Collins.

No Christmas weddings around here this time.

Well, I wish everybody a happy new year and success, and especially The Union-Banner. Let us all join in and help to make it more of a success. It depends upon what we make it, and so let's all work together.

Genuine frost proof cabbage plants now ready for sale at following prices: One hundred plants for 20 cents, lots of five hundred 75 cents. one thousand $1.00 Cash with order.

J. W. Carwile,

12-2-2m adv. Clanton, Ala.

Remember that dollar you owe us on subscription. We have some improvements on foot that are costing us money and we need all there is owing to us. Don't forget us when you come to town.

NOTICE

Patrons of the Peoples Telephone Co. are requested to pay their central fees and post rights not later than January 10th, 1915. Pay same to G. O. Foshee, Secy-Treas., who can be found at L. D. Popwell's store from 10 a.m. to 5 p.m. each day.

Don't forget that now is the time to pay your poll tax.

NOTICE!

I will go away in the next few days and after my departure my accounts will be left in the hands of an officer for collection. I much rather have a settlement in person with all who owe me, and will hope such individuals will take notice and settle at once.

V. J. Gragg

DON'T FAIL TO PAY YOUR POLL TAX BY TUESDAY, FEB. 1st---THE LAST OPPORTUNITY.

PEOPLES TELEPHONE 96.

Here's to 1916.

Keep right on dodging that grouch.

What we don't go after we seldom get.

Begin saving today for your next Christmas shopping.

Talk is cheap—if you can beat the lawyer out of his fee.

Speak up! What shall we do with our grouches?

A dog and a dude make an interesting combination of something and nothing.

The new year brings us at least one relief. It is easier to make a 6 than a 5.

"The Story of the Great Fizzle." For details apply to Henry Ford and his peace pilgrims.

Why smile at the woman who "wears the pants"? Quite often she earns them before she wears them.

This is the season when the weather might be a little more seasonable.

The wise man sees, hears and thinks. The fool is tickled with the sound of his own voice.

Of course there may be a few better towns than this, but it's a cinch there are a lot of them a blamed sight worse. Buck up!

If rags continue to advance in price we'll soon be tempted to toss our editorial trousers onto the market.

When a self made man continually reminds you that he is self made it is me to keep your eye on him and your and on your pocketbook.

When you criticise the policy of this paper just bear in mind that we may be equally critical of your method of handling your own private affairs.

"I only play cards for fun," is the excuse he gives his wife. Of course. That's all the loser ever gets out of it.

Every time we break a leg trying to wriggle from under the crush of delinquent subscribers rushing in to pay up, we wish we had a dozen more legs to break.

Every notice it, old top? Whenever a fellow sits down suddenly on a slippery piece of ice about the only one who doesn't laugh is the gent who does the cussing.

"Charity covers a multitude of poor people with our second hand and worn out garments," warbles a society dame of national reputation. Too bad it can not extend to covering the nakedness prevalent in many high society circles.

If Senator Weeks pushes through his bill for an army of a million men, with five acres of free land for each enlistment, we are ready to enlist in every recruiting office in the country. Some patriotism, that!

From the standpoint of prosterity it is interesting to note that the new lady of the White House is a suffragette while the president is an anti. To be continued.

A real dog will stand up and fight, and get licked, and take its medicine like "some dog," while the cur tucks its tail between its leg and scoots home. And we can't help but think of a noted peace pilgrim who abandoned his expedition secretly on the eve of its collapse.

And as we gaze in admiration upon the wonders of womanhood, so it is when the brightest and the cleanest of nature and the works of man are opened up to us. We see, we admire, and we retain our impressions throughout the years to come.

1916 LICENSE NOTICE

According to a recent ruling of the Attorney General, all State and County license will be due and delinquent on January 1st 1916, instead of February 1st, as heretofore. This is caused by the Legislature failing to make any provision for a number of days of grace in which to procure said license after they became due. The 1916 license are on sale at the Probate office now.

This 28th day of December, 1915.

E. B. DEASON,
Judge of Probate.

Our town may be like the woman. It may be clean, spotless, sanitary and a thing of beauty, or it may wither and decay through neglect and indifference. It may be garbed in the beauties of the handicraft of man, or it may drift along in the tatters of obscurity. It may compel the admiration of other peoples and draw them to our fold, or it may be a place to be seen, and shunned, and forgotten. It is for us to say, for us to write the verdict of our future.

The birth of a new year should see the dawn of a new order of things in this town. It should see every man and every woman striving to make this the brightest and the most attractive spot in this whole section of the state. It should see us striving with might and determination to convert a pleasant country town into a garden spot of beauty, with health, happiness and prosperity as the heritage of our daily life. It can be done if we want to do it.

Broken sidewalks could well be replaced and new ones added where they are needed, and some time could be spent to good advantage on the streets in many sections of the town. It might even be possible to clean up and cart off some of the rubbish and refuse that litters up the streets, and the alleys, and many of the back yards.

And then there are many houses in town that have the appearance of age simply for want of a coat or two of paint. They are good houses, and shelter excellent people, but the visitor from abroad gets the impression that the town is run down and is a good place to shun, and his ideas are passed on to other people, and we lose.

In some places the fences and yards are well kept and present an attractive appearance, but there should be more of them. Every place should be in the artistic class, and then other people would talk and the talk would all be to our credit. Tongues were made for use and people will use them, and it is up to us as to how they use them when we are the subject of conversation.

Take a walk around the business section of town. It will compare favorably with the average town of its size. But it should not simply be on a par with other places. It should be the best of all towns of its class, because our business men have the ability to make it such if some one will take the lead and inaugurate an improvement movement.

Business property could be improved with but little expense, fresh paint would do wonders, and neatly arranged window displays in commercial houses would add a hundred per cent to its appearance.

Notice to Non Residents

The State of Alabama, Chilton County.

In Chancery at Clanton, Ala. 7th District, N. E. Chancery Division.

Annie Killebrew vs. J. C. Killebrew.

In this cause it is made to appear to the Register, by the affidavit of F. B. Collier Solicitor for Complainant that the Defendant J. C. Killebrew is a non-resident of the State of Alabama and resides in the city of Albany, State of Georgia, and further, that in the belief of said affiant, the Defendant is over the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Union-Banner, a newspaper published in Clanton, Alabama, once a week for four consecutive weeks, requiring him the said J. C. Killebrew to answer or demur to the same within thirty days after the 11th day of January, 1916, and failing so to do, a decree pro confesso will be taken against him in said cause.

Done at office, in Clanton, Alabama, this 11th day of December, 1915.

H. M. SIMPSON, Register.

LEGAL NOTICE

Birmingham, Ala., Dec. 1, 1915.

Hon. H. A. Harris, Sheriff Chilton County, Clanton, Ala.

Dear Sir:—No U. S. Internal Revenue License have been issued to your county in December, 1915.

I hereby certify that I have carefully examined the record of the Collector of Internal Revenue and the above is complete and correct.

SAM. P. JONES.

Sworn to and subscribed before me this first day of Jan. 1916.

J. B. MOSLEY,
Notary Public.

NEW BAPTIST CHURCH FOR CLANTON

Instead of a sermon at the Baptist church next Sunday morning there will be an open conference to get the brotherhood lined up for a church building campaign. The main object of this "Get together Conference is to decide whether or not now is the time to push this important work.

This conference is to be informal and open to any and all interested in the move. A hearty welcome will be extended to everybody present.

No special collection.

H. T. Crumpton,
Pastor.

SHERIFF MANGUM OUT WITH FACTS

High Georgia Official Adds His Endorsement of New Medicine.

"Tanlac has certainly helped me, and I recommend it to others for what it has done in my case," said Hon. C. W. Mangum of Atlanta, sheriff of Fulton county.

"I have personally recommended it to a great many people. I know of at least fifteen or twenty families who have bought it on my say so.

"I am seventy years old and have most always been pretty strong and healthy until here lately I have been in a nervous, worn out, run down condition. My stomach was upset most of the time and I digested my food poorly. Most always after eating I would have a full, uncomfortable feeling that would last for several hours.

"After taking the second bottle of Tanlac the fullness and all the disagreeable symptoms disappeared and my condition is now that of a well man. I now eat heartily without any bad after effects, and I sleep well at night.

"Tanlac seemed to be just what I needed to put my system in shape and has toned me right up. Under the circumstances I think it perfectly natural for me to say a good word for it and recommend it to my friends."

Among the large number of prominent men in public life in the south who have recently given Tanlac their unqualified endorsement for the specific aid to them are Hon. McKenzie Moss, Judge of the Eight Kentucky Judicial District; Hon. Moses R. Gleen, Kentucky State Supt. of Printing; George W. Hinton, fofmer Secretary of the Warren County Equity League and S. S. Sheppard, ex-city councilman of Atlanta, and others.

Among those prominent in commercial life who have more recently endorsed Tanlac are Pres. Pegg of the Newpoat Business College, C. C. Cooper, Pres. of the Georgia Cotton Oil Company, Lawrenceville, Ga., H. W. Hill, Bank President of South Pittsburg, Tenn., J. F. Carroll, Cotton Mill Supt. of Chattahoochee, Ga., C. M. Conover, Manager of the office furniture department of Foote & Davies Co., of Atlanta, and many others.

Tanlac is sold in Clanton exclusively by Upchurch Drug Co. adv.

NOTICE OF ADMINISTRATOR

Estate of Jane Hall deceased, Probate Court.

Letters of administration of the estate of said deceased having been granted to the undersigned on the 13th day of December, 1915, by the Hon. E. B. Deason Judge of the Probate Court of Chilton County, notice is hereby given that all persons having claims against said estate, are hereby required to present the same within the time allowed by law, or the same will be barred.

CHAS. T. WALKER,
12-16-4t. Administrator.

OWN YOUR CROP INSTEAD OF OWE IT

Food And Grain Crops Will Make Agricultural South Independent, Says H. G. Hastings

Atlanta, Ga.—(Special.)—The credit system under which the agricultural south works and stays poor is analyzed in a striking way by H. G. Hastings of Atlanta, chairman of the agricultural committee of the Chamber of Commerce, and a member of the executive council of the Southeastern Fair. He does not mince words in talking about the situation.

"Every season during the last fifty years," he says, "there has been trouble in the cotton belt whenever the crop was large and the price low, or the crop short. Each time the cry of hard times goes up, and the reason back of it is that the farmers cannot get enough money to pay their debts out of their so-called cash crop—cotton. It is disheartening because it is so absolutely unnecessary.

"A cotton farmer's debts are largely for food and grain, charged up against him on the merchants' books at two to three times the price that those same items could be produced on his own acres, and usually without serious interference with a crop of cotton as large as he now makes.

"The trouble is that most cotton farmers owe their crop instead of owning it when made.

"The credit way looks the easy way, but it strangles most farmers before they get through life.

"I have said repeatedly in public addresses that no state or section of any country can be prosperous that is regularly dependent on another section for its food supplies. What is true of a state or section is true of the individual farmer.

"The great exhibits of grain, hay and food products shown at the Southeastern Fair held in Atlanta in November, give the lie to the statement that these things cannot be grown here at home successfully and profitably.

"A good big home garden kept planted and rightly tended through the season will produce half of the living besides furnishing an abundance for canning or drying from the surplus.

"When we make our food and grain we will have few or no debts at the store; we will own instead of owe our crops when made, and farm wealth will accumulate in the south instead of farm and crop mortgages."

TESTS OF VARIETIES OF COTTON IN 1915

Press Bulletin No. 82, Alabama Experiment Station, Auburn, Ala.

In 1915 twenty-two varieties of short staple cotton were tested in plots on the Alabama Experiment Station farm at Auburn. The soil is a gravelly loam. The seed was planted May 1 in checks 21 inches by 3½ feet, and the plants thinned to one in a hill.

The fertilizer used consisted of 240 pounds acid phosphate, 160 pounds cotton seed meal and 100 pounds kainit per acre, all applied before planting. Boll weevil appeared too late to do any material damage.

The varieties that made the greatest total value (on the basis of a uniform stand) (seed at $30.00 per ton and lint at 12 cents per pound) are named below in order:

Variety—	Pct of crop picked Sept. 3.	Pounds of lint per acre.	Total value per acre.
Cook 307-6	23.4	491	$70.63
Cook No. 844	39.4	466	66.97
Hybrid (King on Triumph No 18-435	30.7	470	66.92
Cook No. 818	20.2	462	66.13
Modella	16.9	427	61.55
Sunbeam	40.7	416.	60.87
Sure Crop	28.9	407	59.36
Hybrid (King on Triumph No. 18)	41.9	406	59.74
Dixie	25.4	404	59.60
Christopher	26.0	410	59.49
Wood	27.7	400	58.38
Willet's Big Boll	32.2	394	57.59
Cleveland No. 544	33.5	389	57.28
Covington-Toole No. 26	24.1	385	56.23
Wannamaker-Cleveland	44.	385	55.94
Uncle Sam	42.1	382	55.04
Roundnose	36.8	345	49.99
King	69.2	332	48.15
Alexander's 90-Day	64.5	321	47.36
Mebane Triumph	35.6	325	47.09
Trice	77.8	303	45.32
Broadwell	66.8	305	44.69

The four highest yielding varieties were bred up on the Alabama Experiment Station. The hybrid—No. 18-435—is a cross of King on Triumph and has some of the better qualities of both parents. The least productive varieties are the earliest. Modella, Wood, Covington-Toole, Dixie and Cook No. 307-6 are wilt resistant varieties.

For the last nine years the tests at Auburn show that the Cook variety has occurred each year in the list of five most productive varieties; that Dixie, Hardin, Poulnot and Dillon have each occurred twice in this list of most productive varieties.

The five varieties making the largest yield in each of the past eight years are mentioned below in order of productiveness:

1906.	1908.
Cook	Dillon
Cleveland	Gold Coin
Layton	Dixie
Toole	Cook Imp.
Poulnot	Hart
1909.	**1910.**
Cook 206	Cook Imp.
Cook 221	Dillon
Dixie	Hardin
Hardin	Cook (Hall)
Poulnot	Triumph
1911.	**1912.**
Hite	Cook 515
Cook (Stone)	Wannamaker-Cleveland
Cook (Imp.)	Cook 523
Cook 409	Hogg
Cook 458	Poulnot 208
1913	**1914**
Cook 615	Half-and-Half
Layton	Roundnose
Cook 672	Cook 751
Covington Toole	Virgatus
Roundnose	Sunbeam
1915.	
Cook No. 70	
Cook 844	
Hybrid 18-435	
Cook 818	
Modella

BOND ELECTION TO BE ON JANUARY 18TH

The amendment to the state constitution, providing for the issuance of one and a half million dollars of bonds on the state, will be submitted to the voters of the state for their approval or rejection on the 18th of this month.

By mistake the Sheriffs order of election published in last weeks Union-Banner placed the date of the election as January 27th.

Our citizens should study the proposition and be prepared to cast their votes on the 18th for the good of our state.

You've hit the right tobacco

when you fire-up some Prince Albert in your old jimmy pipe or in a makin's cigarette. *And you know it!* Can't get in wrong with P. A. for it is made *right;* made to spread-smoke-sunshine among men who have suffered with scorched tongues and parched throats! The patented process fixes that—and *cuts out* bite and parch. All day long you'll sing how glad you are you're pals with

It's an easy job to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, *but it is impossible* to imitate the flavor of Prince Albert tobacco! The patented process protects that!

PRINCE ALBERT

the national joy smoke

You take this testimony straight from the shoulder, men. You can smoke a barrel of P. A. without a kick! It hands out all the tobacco happiness any man ever dreamed about, it's so smooth and friendly. It's a mighty cheerful thing to be on talking-terms with your pipe and your tongue *at the same time*—but that's what's coming to you sure as you pin your faith to Prince Albert!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Everywhere tobacco is sold you'll find Prince Albert awaiting your cheerful visit. Buy it in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound humidors—and—in that classy pound crystal-glass humidor with sponge-moistener top that keeps the tobacco so fit!

PROGRESSIVE EXECUTIVE COMMITTEE MEETTING

The Progressive Executive Committee of Chilton County is hereby called to meet at Clanton, on Wednesday, Jan. 19 1916, at 10 o'clock a.m.

All white men who are opposed to the policies of the Democratic party are hereby invited and requested to be present and participate in said meeting.

W. H. Gillespie, Chairman
M. D. Foshee, Secretary.

G. T. Brigance of Billingsley was in town Monday.

FREE FLOWER SEEDS

Hastings Catalogue Tells You All About Them

No matter whether you farm or only plant vegetables or flowers in a small lot you need Hastings 1916 Catalogue.

It is filled (100 pages) from cover to cover with useful farm and garden information.

It tells of seeds of kind and quality that you can't buy from your merchant or druggist, seeds that cost no more but give you real satisfaction and a real garden.

It tells how every customer can get absolutely free five packets of easily grown, yet showy and beautiful flowers.

Hastings is both the best and largest seed firm in the South, the only firm that you should buy seeds from.

When you plant Hastings Seeds, you meet "Good Garden Luck" more than half way. Write today for their big 1916 Catalogue. It is free. A postal card request will bring it. H. G. HASTINGS CO., Atlanta, Ga.—(Advt.)

Storm Damages

Unfortunately a terrible storm swept the Gulf Coast some time ago, causing great inconvenience to business and much loss of property, not to speak of the inconvenience to people who live in that section.

The L. & N. Railroad was one of the principal sufferers, probably the largest individual sufferer.

Not only did the property of the Company sustain great damage, causing enormous losses in dollars and cents, but the Company's passenger and freight service was seriously disrupted, thus causing further great loss through loss of business.

This waste of property, caused by influences over which no living human agency has control, was a total loss, taking that much away from the accumulation of human effort.

Like others who suffered from the storm the L. & N. had to replace the waste, and in the interest of service to the people, replaced the waste with as little delay as possible.

To those who witnessed the havoc wrought by the storm there is no need of recounting the details. To those who did not witness it the L. & N. states that the property damage and human suffering were fearful. Many men lost their all.

In replacing that loss the L. & N. had to take the amount of money required from its comparatively small percentage of earnings. And it should be borne in mind that these earnings are fixed by the Interstate Commerce Commission, and the various Railroad Commissions, and only an average sum is allowed for repairs and replacements, whereas this storm wrought far more than the average havoc.

The L. & N. writes of these things to illustrate the many disadvantages under which a modern railroad is operated, particularly in the matter of finance.

However, with characteristic determination to maintain its high standard of freight and passenger service to the people the L. & N. went to work and is now prepared, and has been for three or four weeks, to offer the same service as in the past. The damage has been entirely repaired, and trains are again operating on regular schedules.

But the damage was done, the delay occasioned, and the loss sustained, all of which had to be met by the L. & N. earnings out of prescribed L. & N. income.

Individuals, of course, sustained losses which had to be replaced, but the incomes of individuals are limited only by the limit of individual ability.

ESTABLISHMENT OF ELECTION DISTRICTS.

State of Alabama, Chilton County.

Court of County Commissioners. In the matter of Establishing Election Districts.

Be it remembered that on the 6th day of December, 1915, the Court of County Commissioners of Chilton County being in session and the matter of establishing election districts, as required by law, coming on to be heard and performed by said Court, and it appearing to the satisfaction of the said Court that this Court has examined the registration and official lists of voters as the same is on file in the office of the Judge of Probate of Chilton County, Alabama: And it appearing from such examination and from other available sources of information that there are now in Election Precinct Numbered Four (4), as now constituted, more than three hundred (300) legal voters, it is therefore ordered, adjudged and directed by the Court of County Commissioners of Chilton County, Alabama, as follows:

That election precinct numbered four in Chilton County, Alabama, be and the same is hereby divided into two election districts to be known and designated as follows: Election District Number One of Precinct No. 4, and as Election District Number Two of Precinct No. 4.

That said Election District Number One in Precinct No. 4 shall and does embrace and include all that part and portion of said Precinct No. 4, as now constituted, that is and that lies on the eastern side of the main line of the South and North Alabama Rail Road as now located in and through said Precinct No. 4, And the Court House of Chilton County, Alabama as now located in said Election District Numbered One in said Precinct No. 4 is hereby designated as the place of holding elections in said Election District.

That said Election District Number Two in Precinct No. 4 shall and does embrace and include all that part or portion of said Precinct No. 4. as now constituted, that is and that lies on the Western side of the main line of the South and North Alabama Rail Road as now located in and through sasd Precinct No. 4, And lots numbered One and Four in Block No, 1 and now known as the Masonic Lodge Property, as at present located in the Town of Clanton, on the western side of said rail road, and in said Election District Number Two in Precinct No. 4 be and is hereby designated as the place of holding elections in said Election District.

Adopted December 8th, 1915.

Sheriff's Sale--Real Estate.

The State of Alabama, Chilton County.

By virtue of an order of sale issued out of the Circuit Court of Chilton County, Alabama, and to me directed whereby I, as Sheriff of said County, was commanded to make the sum of Ninety-two Dollars, principal and interest, and Fifteen & 35 | 100 Dollars, costs of suit, the amount of a certain judgment and costs therein obtained at the Aug. 23 Term, 1915, of Justice Court of V. J. Heard, a Justice of the Peace of said County, Alabama, in favor of Middleton & Reynolds, a partnership composed of J. O. Middleton and Grady Reynolds, against Lizzie Collum, I have levied upon and will sell to the highest bidder for cash, at public sale, at the court house door of said county, between the hours of 11 o'clock a.m. and 4 o'clock p.m., on Monday, the 17th day of Jan. 1916, all the right, title and interest of the above named Lizzie Collum, in and to the following described real estate, viz: All her interest in and to the S. E. 1-4 of the N. E. 1-4, N. 1-2 of the S. E. 1-4, Section 7, and the N. W. 1-4 of the S. W. 1-4, Section 8, Tp. 22, R. 13, and 3 acres in S. E. corner of S. W. 1-4 of the N. E. 1-4, and 9 acres in N. W. corner of S. E. 1-4 of the S. E. 1-4 of Section 7, Tp. 22, R. 13, in Chilton County, Alabama.

This 15th day of Dec., 1915.

12-23-3t. H. A. HARRIS, Sheriff.

KING IMPROVED COTTON SEED.

If you hope to make any cotton at all next year you must plant a variety that will produce early and beat the boll weevil.

Hundreds of tests have already shown that that the King Improved Cotton is the best known variety with which to do this.

I have the agency for the King Improved Seed in this section, and will be glad to confer with anyone interested, and furnish you with prices and full particulars as to what this cotton may be depended upon to do.

Call to see me oa write at once in order that you may have plenty of time to get your seed before planting time.

The seed which I handle are direct from the man who originated the King Improved Cotton, and are guaranteed to be straight and unmixed with any other variety.

W. M. WYATT

Now Well

"Thedford's Black-Draught is the best all-round medicine I ever used," writes J. A. Steelman, of Pattonville, Texas. "I suffered terribly with liver troubles, and could get no relief. The doctors said I had consumption. I could not work at all. Finally I tried

THEDFORD'S BLACK-DRAUGHT

and to my surprise, I got better, and am to-day as well as any man." Thedford's Black-Draught is a general, cathartic, vegetable liver medicine, that has been regulating irregularities of the liver, stomach and bowels, for over 70 years. Get a package today. Insist on the genuine—Thedford's. E-70

JAPAN IS "GOING DRY"

Prohibition Wave That Has Swept Russia About to Reach Japan. 'Sake' Omitted From New Year Menu

"Many states in Japan have gone dry recently," writes E. O. Mills, of Fu Kuoka. "The temperance wave has swept Russia and there are distinct ripples in France, and England seems about to begin some sort of a bath.

"Hakata railway station, Fukuoka, went dry, or nearly so, on New Year's day. Anyone living in Japan knows well that the New Year celebration is rank with drunkenness and all its attendant circumstances. Many people who do not drink at any other time think that they must then because 'it is the custom.' But during last summer a temperance society was organized with over one hundred members. So this year the station master was brave enough to leave sake out of the fare. His many callers were served with a favorite drink made from parched grain. We may be sure that none were harmed, and that all could feel that it was a new year worth while.

"The usual excursion for railway employes was held in March. The western Kyushu section met in Fukuoka. Three special trains brought the people for a day, returning in the evening. During the five days 7,500 came. They met in the largest theater, afterwards spending the remaining hours in sightseeing. One splendid feature of it was that for the entire trip sake was prohibited. Being in the railway mission work I was invited. I met the superintendent of the Yushu lines with his wife. Both are earnest Christians. The wives of many of the men were also present. All of the people were happy, and it was a fine example of temperance, for even in the parks none of those thousands of people brought even beer. I was proud of my railway friends, and of the lesson the policemen learned from them.

"The railway evangelist has now worked one year. We have a host of friends. But above all we rejoice in the number of inquirers. There are now about twenty-five of these men, and our work has reached its second stage, that of caring for the inquirers.

"Here in Fukuoka Evangelist Goto teaches Bible two evenings a week at the railway dormitory.

Out of a total of 356,000 Protestant Christians in China, the Mission Yearbook gives 28.4 per cent as Presbyterians, 23.3 per cent Methodists, 10.1 per cent Lutherans, 10 per cent converts of the China Inland Mission, 8.9 per cent Baptists, 7.9 per cent Congregationalists, and 1.4 per cent miscellaneous. The foreign missionaries are given at 5,186 and Chinese workers at 17,879, of whom only 650 are ordained.

The Presbyterian church at Elat, Africa, has a membership of 2,297 and a waiting list over six times its membership. No one can be admitted as a member without a probationary period of at least two years.

The home department of the Japanese government has been gathering statistics of Christians for many years, and the last report of the number of believers of the different churches is as follows: Roman Catholics, 63,087; Greek Catholic, 14,749; Nippon Kirisuto, 18,451; Kumiai, 16,115; Sei Ko Kwai, 15,090; Methodists, 11,763; Baptists, 4,191; other smaller denominations, 12,246; total, 155,676.

Mr. Reuben Price of Route 4 was in our office Monday. He gaye us a high recommendation for the King Improved cotton for beating the boll weevil. Mr. Price has been in boll weevil sections and says the King is the cotton we need here.

DeWITT'S CARBOLIZED WITCH HAZEL SALVE For Piles, Burns, Sores.

"BAPTIST HENS" AND GIFTS TO MISSIONS

In Texas Alone the "Industrious Hen" in Sixty Days Could Produce Eggs Valued at $339,000--World Wide News.

The Baptist Standard calls attention to what the "Baptist hens" of Texas alone could do. The paragraph which follows is calculated to set people to thinking:

"Three hundred and thirty-nine thousand industrious hens could lay by in store all Texas Baptists need in a short time. Any day they might deposit to the account of the work 28,250 dozen eggs, which, at twenty cents a dozen, would be worth $5,650. In sixty days, at this lively rate, they would turn in $339,000. They could then rest a while. Why can't Baptists do as well in their own way?"

In the Ratio of 2 to 70,000.

J. Campbell White says: "We have in North America 24,000,000 Protestant church members and about 14,000,000 or 15,000,000 Roman Catholic members. Added together, these make almost one-third of the population of these two countries. In other words, if we divide our field to be reached in North America by the number of us that ought to be active as Christian workers, each one of us has to reach two persons in order to make North America wholly Christian. Against that every missionary has 70,000 people to reach, or a field exactly 35,000 times the average size of the field of each one of us here at home. Yet some of you, in your thought about your tremendous importance, are wondering whether this country or Canada can get along if you happen to decide to go away."

(Typical Native Christian Worker.)

Five newly appointed missionaries of the Southern Methodist church left recently on their way to the foreign fields. These young ladies, who are under appointment of the Woman's Missionary Council, are: Miss Leila Tuttle, of Lenoir, N. C.; Miss Annette Gist, of McIntosh, Fla.; Miss Ellie Gray, of LaGrange, Ga.; Miss Ruth Brittain, of Guntersville, Ala.; and Miss Olive Lipscomb, of Nashville, Tenn.

At Kansas City they were joined by Miss Hattie Buie, of Wesson, Miss.; and Miss Charlie Holland, of Moscow, Tex., and in San Francisco Miss Laura Edwards of Hereford, Tex., will join the party.

Miss Lipscomb, Miss Tuttle and Miss Brittain go to China; Miss Gist and Miss Holland to Japan, and Miss Buie, Miss Gray, and Miss Edwards, to Korea.

Missionaries, especially those in Korea, are pleading earnestly for picture cards used by the Sunday schools of America. Many of these cards are now thrown aside or destroyed. The Korean people, as well as the people of other oriental nationalities, eagerly seek for these picture cards even though they may illustrate lessons that have been studied in America weeks or months ago.

In China the bones of a tiger are frequently ground up and given to a debilitated person. Diseases of the liver and eyes are treated by giving pork liver. In Kwantung human blood is considered an excellent remedy, and at executions people may be seen collecting the blood in little vials. It is then cooked and eaten.

Of the 45,000,000 Arabic-speaking Moslems in the world, 10,000,000—more than one-fifth of the whole—are to be found in Egypt.

Unconquerable.

The habit of never being whipped, of always keeping up the fight—that is the quality of the great leader. The man who never admits defeat is the man the world has to take into account. Time and again the foes he is fighting may think they have him down. But before they know it he is on his feet sounding the advance. Such a man molds events. He helps create the new heavens and the new earth of the prophet's vision. A mighty force of the universe is the unconquerable soul!

Greetings of the Season

And Thanks For Your Patronage

Greetings of the season and best wishes for a happy and prosperous 1916 to you all! And may you have many such in the years to come!

We thank you sincerely for the liberal patronage we have received during the past twelve months. You have been generous indeed, which is the best of all evidence that the home store is nearest of all stores to your heart.

We have endeavored at all times to serve you conscientiously and acceptably in the past, and the future will see us putting forth even greater efforts to this end. We hope to see you all throughout the new year, which we trust is to be one of many blessings to our people.

Again, hearty greetings from the management and clerks of this store.

WHAT SOME OF THE CORN CLUB BOYS HAVE DONE

The Boys Have Surprised the Men.

By I. B. Kerlin, State Agent in Boys' Corn Clubs ,Auburn, Ala.

Prepared by Extension Service, Auburn, Ala.

Corn Clubs were organized in every county of the State in 1914 and 1915. In 1914 there were 3320 members of the Corn Clubs, making an average yield per acre of 51.32 bushels. The average yield in the entire state was but 17 bushels, hence it will be observed that the average yield of the boys was 34.32 bushels greater than that of the State. It costs a boy an average of 46 cents per bushel to raise his corn, while the cost of the farmer to raise corn is something like 70 cents per bushel, or 24 cents more than it costs a boy. When we estimate corn at $1.00 per bushel we find that the boy made a profit of $27.72, while the average farmer made a profit of only $5.10 per acre, therefore, the average corn club boy made a profit of $22.62 more than the average farmer.

The Boys' Corn Club Work has been conducted in this State for six years, in co-operation with the United States Department of Agriculture, and the College of Agriculture and many other educational forces throughout the State. During this time many great records have been made in corn growing. Alabama has furnished three Champion Corn Growers besides scores of others who have made enviable records.

In 1914, 15 boys made more than 100 bushels to the acre, with a profit ranging from $140.25 to $77.90. Walker Lee Dunson, Alexander City, R. F. D. 6, was again the champion of the State. He not only excelled in corn growing, but proved to be equally as good a cotton and oat grower as well.

Many boys are very enthusiastic over the Four-Crop Club which is conducted in co-operation with the Central of Georgia Railway, the Company offering the prizes and the organization being conducted by the Extension Department, Auburn, Ala. The number enrolled in this club for 1915 was 497. A club like this serves a very great purpose by encouraging the live stock business, because all prizes are pure bred bulls.

Humanity's Responsibility.

To resist the tyranny of self; to recognize the law of duty; to maintain the supremacy of the higher over the lower parts of our nature—this is our responsibility for life and its gifts. —W. E. Gladstone.

Yes; S. S. S. Is Purely Vegetable Nature's Safe Blood Treatment

Known for 50 Years As the Best Remedy for Rheumatism, Catarrh, Scrofula, Skin Diseases.

Scientists have discovered that the forest and the field, are abundantly supplied with vegetation of various kinds, that furnish the ingredients for making a remedy, for practically every ill and ailment of mankind. Medicines made from roots, herbs, and barks which Nature has placed at the disposal of man, are better than strong mineral mixtures and concoctions. Mineral medicines work dangerously on the delicate parts of the system, especially the stomach and bowels, by eating out the lining membrane, producing chronic dyspepsia and often entirely ruining the health.

S. S. S. is guaranteed to be a purely vegetable remedy. It is made entirely of gentle-acting, healing, purifying roots, herbs and barks, possessing properties that build up all parts of the system, in addition to removing all impurities and poisons from the blood. S. S. S. is a safe treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all disorders of the blood. It cleanses the entire system and it's permanent. Get S. S. S. at any drug store. S. S. S. is a standard remedy recognized everywhere as the greatest blood antidote ever discovered. If yours is a peculiar case write to S. S. S. Co., Atlanta. Ga.

FINANCIAL REPORT.

To the Peoples Telephone Co.
Gentlemen:

I beg leave to report as follows:

That it appears from the books of the Secetary-Treasurer that the receipts and expenditures of said telephone Co. for the past year are as follows:

Had cash on hand Dec. 18th, 1914, $397.27.

Received on post right or on maintainance fees, $127.45.

Received for signals or drops sold, $32.50.

Received on central service, $1070.75.

Total cash receipts $1628.97.

Paid out for operators $840.00.
Paid out for house rent $84.00.
Paid out for water works $15.75.
Paid out for Electric lights $53.11.
Paid out for work on lines $174.75.
Paid out for material $194.12.
Prid out to Directors $24.50.
Paid out to Secy-Treas. $34.40.
Paid out for Insurance $10.60.
Total expenditures for year $1431.23.

Leaving a cash balance of $195.74 for the year which shows that the Telephone Company had to use $200.53 more than was collected for said year.

J. N. Dennis.

EASY ON YOUR POCKET

That is the record this Grocery Store has built up during the years we have been feeding the people of this community.

And it is such a self evident truth, and so well known to everybody, that we are not going to say another word in this advertisement.

J. W. LITTLEJOHN

Phone 111.

Money for the Farmers at 6 Per Cent Interest.

The Alabama Rural Credit Association has a plan whereby farmers in this section have an opportunity to secure money on long time loans at this low rate.

Does such a proposition mean anything to you?

See Mr. R. W. Dilday on Friday and Saturday of this week and next week at the Wilson Hotel in Clanton, and learn full particulars about it.

This is the last chance you will have to see him. After these dates the membership for Chilton County will be closed.

Alabama Rural Credit Association

FOR SALE

I have one fine, rich, level red land farm for sale; containing 313 acres, 250 acres in cultivation, on Macadamized road; 5 houses. Have another very rich, leyel red land, farm containing 160 acres, all in cultivation, with 3 good houses on Macadam road. These farms are located in North Alabama, five years from boll weevil. These farms will produce more corn and cotton without fertilizers than we can raise here with it. They sell for 1-2 cash, balance on long term; will accept small farm as part payment. If interested, call to see me at once.

Clerk.

CLANTON ITEMS

On account of prayer service at Baptist church this week the regular meetings of Civic and Suffrage clubs were postponed, will meet next Tuesday, Jan. 11, at home of the President, Mrs. E. M. Pinckard. Meet, Civic 2:30, Suffrage 3:30.

Mrs. J. Hugh Jones, Sec.

R. W. Dilday, special representative of Alabama Rural Credits Association is in Clanton again after spending the holidays in the North.

W. T. Herrod of Plantersville, was in Clanton Wednesday.

C. D. Logan of Centerville was a visitor here Wednesday.

FOR SALE OR RENT

Twenty acres of land having fair buildings, ten acres cleared; 1 1-4 miles of Thorsby depot. adv. 12-23-4t Mrs. Dippery.

Squire A. F. Childress of Thorsby was in town Wednesday.

R. M. Hubbard of Jemison was a visitor at our office on Wednesday.

FOR RENT—2 horse farm located 4 1-2 miles north of Clanton. Will rent on halves. Good four room house and good water. Good land. F. J. Rogers, Clanton, R. 8. adv. 1-6-16-2t

R. E. Jones of Route 1 was a caller at our office on Monday.

E. C. Davenport, an old subscaiber from Jemison, was in Monday and paid his subscription.

Nathaniel Headley, one of our subscribers from near Maplesville came in to see us Thursday last and paid up his subscription for another year.

NOTICE OF SPECIAL ELECTION.

The State of Alabama, Chilton County.

Whereas, I, H. A. Harris, as Sheriff of Chilton County, Alabama, am in receipt of a writ of election issued by the Governor of the State of Alabama, it is hereby ordered that a Special Election be held in every Precinct in the County of Chilton, State of Alabama, on Monday, the 18th day of January, 1916, at which time there will be submitted to the qualified electors of the County of Chilton, the following amendment to the Constitution, to-wit:

"AN ACT

To amend the Constitution of the State of Alabama so as to permit the issuance of bonds for the retirement of the floating debt of the State.

Be it enacted by the Legislature of Alabama, as follows:

Section 1. That there shall be and there is hereby proposed an amendment to the Constitution of the State of Alabama to provide for the issuance of one million, five hundred thousand dollars of State bonds in addition to the outstanding bonded indebtedness of the State for the purpose of retiring and providing for the present floating debt of the State of Alabama, which amendment shall be in words and figures as follows: to-wit, 'In addition to the present outstanding bonds of the State of Alabama the Governor of the State is hereby authorized to issue one million five hundred thousand dollars of five per cent coupon bonds in denomination of five hundred dollars each, which shall not be sold for less than par, the interest payable semi-annually and the principal of which to be due and payable as follows: Ten per cent of said bond issue shall be due and payable January 1, 1920, and ten per cent each first of January following until the entire issue shall be retired. The proceeds from the sale of said bonds shall be used for the purpose of paying the present outstanding obligations of the State, and any surplus shall be paid into the general fund.'

Section 2. (As amended by an act approved September 17, 1915.) That there shall be and there is hereby ordered to be held an election by the qualified electors of the State of Alabama on the 18th day of January, 1916, to vote on the proposed amendment to the Constitution of the State, which election shall be held under the laws and regulations prescribed for the holding of general elections in this State, and the Governor of the State shall by proclamation give notice of such election with a copy of the proposed amendment in similar manner as notices and proclamations are required to be given for general elections, and shall cause the same to be published once a week for eight consecutive weeks next preceeding the election in a newspaper published in each county of the State in which a newspaper is published, and in counties where no newspaper is published the same shall be posted at the court house door in said county not less than eight weeks before said elections."

Approved September 17th, 1915.

Said election to be held in all respects and to be governed by the general laws of the State of Alabama for such elections.

In witness whereof, I, H. A. Harris, Sheriff of the County of Chilton, State of Alabama, have hereunto set my hand, this the 18th day of December 1915. H. A. HARRIS,

As Sheriff of Chilton County, Ala.

12-23-8t. adv.

EVER SALIVATED BY CALOMEL? HORRIBLE

Calomel is quicksilver and acts like dynamite on your livs

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a days work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

Miss M. Muse

We Thank You

We desire to extend our thanks to the public for the generous patronage with which we have been favored the past year. Considering the business depression that has been prevalent throughout the country we feel that our friends have favored us beyond our anticipations or even our hopes. We are indeed more than grateful to you all.

And now let us wish you and yours a prosperous year in 1916, with health and happiness in unlimited measure.

THE UNION-BANNER

VOL. 4. CLANTON, ALABAMA, THURSDAY, JANUARY 13, 1916. NUMBER 41

THE BOND ISSUE FROM A NON-PARTISAN POSITION.

Prattville Progress.

In discussing the state bond issue, it is far from the intention of The Progress to assume a partisan position. If The Montgomery Advertiser had published the comments of The Progress, its readers would have ascertained that it was not a partisan criticism. This is a business proposition and every voter should feel in so casting his vote. Every political and personal friend and every appointee of Governor Henderson, and every enemy should be far from partisan feeling. The office holders of the state should not vote against the bond issue because they are warned that if the state's expenses are reduced that their salaries or office expenses will be cut. They should be guided by a more patriotic feeling.

The editor of The Progress holds Governor Henderson in the highest esteem. There cannot be found in its columns during the last campaign or since a single adverse criticism. His leading supporters in this county are among our closest personal and political friends, and if we wished any favor from this administration we believe we would have their loyal support. The Progress does not believe that any governor is responsible for our state's financial condition, but we do believe that in many cases there have been a useless and extravagant expenditure of the people's money and it should be stopped. The Progress believes that in order to do this the people must come out boldly for retrenchment. This reform must come from the voters. If the state's expenses had been reduced within its income, then The Progress would have advocated a bond issue in order to take care of the state's past indebtedness. The Progress will not as a business advocate a bond issue to take care of the state's past extravagance, the state's present extravagance and the state's future extravagance. The editor of The Progress did vote in local affairs for a county bond issue to build a court house and jail and good roads. This was for permanent assets, for specific purposes and not for past, present or future extravagance. Just whether this money was judiciously spent or whether the editor ever regretted this bond issue is not to be discussed here. The editor is not a citizen of Prattville and did not vote for the bonds for the Prattville waterworks or the county high school. However, this money was for permanent assets, specific purposes and not for past, present and future extravagance. If any of the bond issues had been for higher salaries or other extravagance we would have opposed them, and we are not here contending that all this money was judiciously or economically spent.

Governor Johnston's four years' administration spent $8,476,680.62. Governor Jelks' six years cost the state with a constitutional convention $18,151,284.57. Governor Comer came in power and found money in the state treasury. He advocated constructive legislation and much money was spent in a raise to old soldiers, large appropriations to the public educational fund, in assisting in building rural school houses, in maintaining high schools, in normal schools and college buildings. Comer's administration was too extravagant and the editor of The Progress did not vote for many of the appropriations. Comer's administration spent $20,233,854.53. O'Neal's administration spent $25,978,995.66. The state's income during the O'Neal administration was $24,620,696.56. If O'Neal's administration has cost the state the same as Comer's administration there would now be $4,386,942.03 to pay the state's indebtedness. If it had cost the state the same as the four years Jelks administration there would be more than seven millions of dollars to pay the state's indebtedness. If it had cost the state the same as Johnston's four years of administration there would now be in the treasury $16,144,115.94 to pay the state's present indebtedness. This would pay off all the state's present bonded indebtedness and leave about $7,000,000 in the treasury. Governor Henderson realizing that these heavy expenditures must stop, issued a campaign address declaring in no uncertain words for retrenchment. However, this retrenchment was forgotten during the session of the legislature.

Senator John A. Lusk in his opposition to the bond issue, points out some of the state's extravagance:

Some Recent Expenses.

A home for the governor	$ 46,000
Maintenance direct	8,000
Maintenance out of contingent fund	2,000
Paid special counsel fees	41,339
Special judges	9,367
Special solicitors	6,980
Employes of supreme and court of appeals	75,791
Temporary clerks	30,362
Examination of public accounts	88,878
For public printing	134,022

(For the facts stated above, see the message of Governor Henderson, February 8, 1915). All these expenditures are more than for any similar period before.

"For instance of wasteful extravagance and unwarranted use of public funds:

"Trip of Louis B. Farley to New York September, 1914, on account state, among other items:

Laundry and tailoring	$ 8.10
Hotel Waldorf-Astria, seven days	35.00
Meal and trips	60.25
Tips on trip	16.00
Miscellaneous	16.00

"(The total bill, including these items $217.42). Shades of George S. Houston would flee from such a bill. Mortgage the blood, bone and sinew of the laboring people, city, town and country, to pay such bills.

Trip of O'Neal as governor to Colorado Springs	$325.00
Trip of insurance commissioner attending convention at Washington, September 12-19, hotel bill	69-50
Inoidentals	8.00
Telegrams for governor's office for one year (see auditor's report)	1,205.62

Shall it Continue?

"Is this policy to be continued? Will the next four years show similar wasteful, shameful disbursements of public funds?

"Would good business have surrendered the interests of the state in the railroad litigation? Again on December 21, 1914, the state had contracts running until September 30, 1915, for the hiring of convicts. Among others, the Henderson Lumber company 250 convicts; the Henderson Turpentine company, 100, at $39 per man per month. Times got hard, a panic came on. By a stroke of the pen, Governor O'Neal, just as he was ready to drop his mantle on the shoulders of Governor Henderson cancelled these contracts, and as convicts could not be hired out for scarcely anything in the stress of the time, they were thrown upon the state to feed without return. Three hundred and fifty men at $39 per month is $13,650, and for nine months, December 31, 1914, to September 30, 1915, is $122,850. Are these the contracts Bowman was paid $5,000 to write? State's affairs should not be handled that way. Good business men would not do it.

"The legislature at its first session in 1915, passed a bill abolishing excise commissions. If approved it would have immediately put several very active admirers of certain political figures out of good paying, easy, do nothing jobs, and gone to stop up the deficit about $15,000. It was allowed to lay on the governor's table until after July, and these gentlemen drew their salaries all the time, deficit or no deficit. Thep were not postponed, delayed, held off like the poor school teacher.

Other Expenditures

"During the first session of the legislature of 1915, one or more bills were introducec to abolish the game and fish warden's office, Mr. wallace wanted to hold his job, sent out distress calls over telephone and telegraph lines and presented the bills, amounting to $57.71 to the governor, and they were paid, not held up, and postponed as the school teachers' bill. It was no more a just charge, legally or morally, against the state treasury than a bill for a Chinese Mandarin's supper in Pekin.

"Again after the poople had spent $56,000 for a mansion and home for the governor, Mr. Henderson could spend only one night in it, before he called upon the legislature to appropriate $2,000 to 'repair' the mansion. Then when the legislature met in July he again asked to be reimbursed for still an additional amount of $2,234.11. Governors very nearly as great as any we have had, furnished their own home on $3,000 per annum, and Henderson can't live in a house costing $56,000 on a salary of $7,500 without its being repaired to the cost of the people of $4,234.11. Ye shades of Houston! Again with a private secretary being paid $3,000 per annum, as much as we paid Houston and all other governors down to Jelks' second term a bill must be urged through and approved to make his salary $3,600 per annum. Who pussy-footed, cajoled, lobbled and begged for this increase in hard times?"

Some of the advocates of the bond issue contend that we should have these heavy expenditures, these high salaries, so as to keep in touch with or abrest of the times and not impair the efficiency of the officers. As we contemplate or contend for these heavy expenditures and these high saliaries from the people's money there is another side, another scene or picture. It is an unpretentious home on a farm. As this farmer and his family, free from chilcanery and trusting in their Creator, gather around their fireside to spend their Christmas of 1915, they must sadly realize that they must do without many of the Christmas luxuries of the past. Baby must do without some toys. Son, daughter, husband and wife will not have some of their usual Christmas presents. Their homes and yards must go without any repairs and improvements, for rigid economy must be practiced in every walk of life. Just how the heavy taxes are to be obtained is a problem for the head of the household. This is no imaginary scene or picture. There are many such homes in Autauga county today. In these homes are the hope and safety of this republic, and they should not be forgotten in the administration of our state's affairs.

This is a government "of the people, for the people and by the people"—they shall rule. They will not be crushed by extravagance and heavy taxation. They intend to first reduce expenses before they vote to borrow more money. They realize that a bond issue is a mortgage on their property and their children's property, and can never be paid unless this extravagance is stopped. These two elections, one to permit Birmingham to raise taxes and the other to raise money for Alabama, will cost Autauga county more than $500. The expenses of the members of the new equalization board of Autauga county as credited by the last legislature, if they serve their ninety days, will cost the county about $1,200 and expenses. These will make a raise in Autauga county's expense of nearly $2,000, all of which must come out of the taxpayers. And a threat is made to raise taxes if more money is not furnished. Taxes may be equalized in some cases, but The Progress does not believe that this newly created and appointed board of Autauga county citizens can be forced to a general raise of taxes in Autauga county. For the next two years all values will be much smaller, and an attempt to raise would cause a storm of protest in the county.

Every business man in this section must retrench in his personal affairs and he will demand a retrenchment in our public affairs. This retrdnchment must be forced by the people, and it cannot be forced so long as they vote more money for past, present and future extravagance in our public affairs.

TO LAND OWNERS OF CHILTON COUNTY

Thos. M. Hooper, U. S. Deputy Surveyor of the state of Alabama, will be in Clanton for the next ten days or two weeks. Any parties wishing their land lines run according to the government survey can secure his services by leaving their orders with the Probate Judge or W. W. Fox.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

After two weeks of fun and frolic, the Clilton County High School resumed its former work on Tuesday morning of last week. Something near 140 revived and vigorous boys and girls reported to their respective classes, ready and anxious to begin studying again. Several new pupils were enlisted among the corps of students.

Besides marking the beginning of the second half of this years work, this date brought around to us the first birthday of our high school, which we all have already grown to love and cherish.

Every pupil in school is giving his best time and study to preparing for the mid-term examinations which begin Thursday. From what the teachers say every grade is going to increase after the examinations except the Senior.

The Seniors have been thinking they were "sompen", but since they began reciting spelling they have found that they are not yet quite ready to graduate.

The Freshmen met last Wednesday, and the following list of class officers were elected:—President, Seymour Hayes; Vice-Preeident, Kate McNeill; Secretary, Eunice Hutchins; Historian, Johnnie Plier; Poet, Kate McFee; Reporters, Sibyl McDonald and Clifford Mullins; Musician, Sibyl McDonald.

"Do you think the examinations are coming your way this time?"

And Dick said, "I am not studying about that. I am spending all my time trying to be able to go their way.

Mr. Tinsley had a great number of friends before Christmas, but they have wonderfully increased since then. (Why?) Of course he has bought him a car.

Mr. Wood announces that there will be a basket ball game at the high school grounds next Saturday evening at 2:30 o'clock. Our boys are going to play the Marbury High School boys. The admission is to be 10 and 15 cents. Everybody is asked to come.

Mrs. Wood has very good control over her room. If she merely mentions the corner, John Plier goes to the corner of the room and stays there until he has to be called down. Carlton Golden is somewhat experienced along these lines also.

The Freshman Class is generally very well represented in the campus exercises every Friday evening. Eugene Driver says that answering the roll is some easier than walking the campus, and heretofore he thinks he will ceoose the former, at least for a few days.

The Juniors say that they are not worrying about the mid-term examinations, but when you see them early every morning they look as if they had studied somewhat late the night before.

The Junior Class is keeping a diary of its work now, and there is some class to some of the happenings which they register.

In chemistery the other day Ara Mullins was asked what great physical change took place when water froze. After thinking a minute she answered:—"The greatest change I know of is the price."

The management for this year's annual is doing a great deal of work toward the advertising department of the publication. The business men of the town are responding well when they are asked to help out in this undertaking, and the entire school should be grateful to them for such aid.

ONE MILL TAX CARRIES IN MARION

The one mill tax for school purposes carried in an election held in Marion County on December 22, 1915 by a vote of 964 to 510. This was the third election held in the county for levying this tax. Both of the previous elections gave a majority vote but failed to give three-fifths.

The asseseed valuation of property in the county is four million dollars, sixty per cent of which is owned by corporations and non-residents. The receipts for the tax will amount to $4,000. With the state bonus of $1,000, there will be a total of $5,000 to to supplement the present county fund, increasing the free school term of 73 days in 1915-16 practically one month, or by more than twenty-five per cent during the year 1916-17.

An analysis of the tax shows that of the $5,000 to be added to the fund, non-residents and corporations will pay $2,400, the State $1,000, and the tax-payers $1,600.

Local taxation for school purposes is worthy of the consideration of the friends of education in Alabama as a means of raising revenue for school purposes.

Instead of laying stress on the observance of the numerous birthdays of noted men, the State Department of Education has thought it wise to concentrate the energies and efforts of the pupils in the public schools on the obsevance of four special days in which the citizens of the communities as well as the pupils may take part and derive benefit therefrom.

These four days and the dates of their observance for this scholastic year are "Better Farming Day", November 5th; Clean-Up and School Improvement Day, December 10th; Good Roads-Arbor Day, January 21st; Health Day, February 25th. Two of these days have already been observed and the results derived lend encouragement to the thought that these days may prove the means of furthering community organizations.

It is hoped that all citizens interested in the cause of education will busy themselves to the extent that the two remaining special days of this scholastic year, namely Good Roads-Arbor Day and Health Day, may be observed with profit.

Miss Esther Foster, principal of one of the Dothan city schools fsr a number of yeaas, has been appointed to the responsible position of Field Agent by the Alabama Illiteracy Commission. Miss Foster has assumed active charge of the campaign and is taking advantage of the county institutes now in progress in the State to organize and instruct workers for adult schools to be taught in the spring and summer.

The interest that is being manifested in this work is very gratifying. The State Department of Education has issued a pamphlet containing the results of the fight against illiteracy in Dale County. Great progress has also been made in other counties of the State, notably Shelby. Recently adult schools eave been established at Tallassee, Elmore county, with an enrollment of forty pupils; also at Langdale, Chambers county, and at several other points in the State.

The teachers are practically unanimous in volunteering for work in this, one of the greatest momements ever inaugurated for public good in Alabama. Fortunately the interest displayed is not limited to the teaching, forces of the State, but other sources as well are manifesting interest. This is shown by the recent action of the Ladies' Literary Club of Andalusia in calling a special meeting for the purpose of ascertaining further information in regard to the condition thats exists in Alabama, and especially in Covington County from the standpoint of illiteracy. Othes clubs are also taking up this phase of the work.

The Lowndes County School Improvement Association met in Hayneville on Thursday, December 23d, 1915. The attendance is broof of a splendid school spirit in the county. Forty-five of the fifty-one teachers were present.

A striking feature of the meeting and a commendable example to the teachers of other counties is the fact that every teacher present asfumed an obligation to do active work on Good Roads-Arbor Day, January 21st. One mile of road touching the school property will be worked under the leadership of the teacher. Each teacher will stake off a mile of road, mark it with suitable posters, work it on the day named by the Department of Education, and keep it in good order during the school year.

CLANTON POST OFFICE.

List of letters remaining uncalled for in this office for the week ending Jan. 8th 1916.

LADIES

Rutha Tiggs.
Rosie Horton.
Velma Crow.

GENTLEMEN

Jessie Conele.
Morah Gardener.
Tom Grubbs.

These letters will be sent to the Dead Letter Office Jan. 22nd 1916 if not delivered before. In calling for the above, please say "Advertised," giving date of list.

B. M. ROBERTS, P. M.

SPECIAL TERM OF THE CIRCUIT COURT

A special two-weeks term of the Circuit Court of Chilton County has been called to convene on Monday, February 14th for the purpose of disposing of a number of cases pending on the civil trial docket. Several of these cases were left over from the last term of court, while the balance have been added to the docket since that time.

Circuit Clerk, M. D. Foshee, is getting out subpoenas and summonses in a hurry for the opening of the extra term.

ASSESSOR'S NOTICE

All taxpayers who have not made their 1916 assessments and who wish to avoid the payment of an extra penalty of 10 per cent will please bring in their assessments before February.

Also all dogs should be assessed at once. All assessments must be sworn to.

J. N. Dennis,
Tax Assessor'
Chilton County.

PROGRESSIVE EXECUTIVE COMMITTEE MEETTING

The Progressive Executive Committee of Chilton County is hereby called to meet at Clanton, on Wednesday, Jan. 19 1916, at 10 o'clock a.m.

All white men who are opposed to the policies of the Democratic party are hereby invited and requested to be present and participate in said meeting.

W. H. Gillespie, Chairman
M. D. Foshee, Secretary.

PROGRESSIVE COMMITTEE TO MEET ON THE 19TH

The executive committee of the Progressive party of Chilton county is called to meet on Wednesday, January 19th, at the court house.

The official call by the chairman invites all white men who are opposed to the policies of the Democratic party, to be present and participate in the meeting.

We hope a good number will be on hand as this marks the opening of activities for a most important campaign year.

ILLITERACY COMMISSION

January, 10, 1916.

Supt. W. T. Bean,
Clanton, Ala.

Dear Sir:

The Alabama Illiteracy Commission is greatly in need of funds with which to carry on the work. The expense of the campaign has been met thus far by patriotic citizens interested in the cause. However, all such moneys have been spent and the Commission is now confronted with the responsibility of carrying on the work.

I am appealing to you as a member of the sub-commission of your county, to join in a state wide movement to enlist every teacher in an effort to raise funds for the cause. Will you not assist by issuing a letter to your teachers requesting them to give an entertainment to which an admission fee is charged—at least one-half of the proceeds therefrom to be donated to the state work?

The character of the entertainment can be worked out by each teacher. Something in the nature of a play, box supper, or voting contest would probably appeal to them. I think that it would be wise for you to name a date for the entertainment, leaving it optional, however, with each teacher to hold it at another time if it is thought best. Tuesday, February 22, would doubtless be a very suitable time.

The following plays are laughable, entertaining and can be arranged with little effort: Pumpkin Ridge, The Deestrick Skule, The Deestrick Skule at Blueberry Corners, Scenes at the Union Station. Any one of them may be had, for fifteen cents, from Walter H. Baker, Boston, Mass.

I am presuming that you will enter into the spirit of the movement and suggest that you endeavor to enlist the support of your high school principal in formulating plans. I am sending a copy of this letter to each member of your sub-commission, and will thank you to write, telling me you will cooperate.

Very truly yours,
Wm. F. Feagin,
Supt. of Education.

Don't forget that now is the time to pay your poll tax.

NOTICE!

I will go away in the next few days and after my departure my accounts will be left in the hands of an officer for collection. I much rather have a settlement in person with all who owe me, and will hope such individuals will take notice and settle at once.

V. J. Gragg

PEOPLES TELEPHONE 96.

Pop, girlie, pop!

Make it a year of justice, too.

Leap year, and not a wedding yet!

Ford is back. Now let him subside.

Here's hoping Prosperity don't stumble and break a leg.

Why is a babbling tongue like soft mud? Wise up, and answer it yourself.

When the war is finally ended every mother's cuss will yelp "I told you so."

Be a sport; give your wife her own way. Even at best she probably got the worst of the deal.

The most startling thing we have to report this week is the fact that there is nothing startling to report.

Those U-boats might well be called Do-boats, for they do about everything they run up against.

No spinsters in sight this year. Every one is adorable and of strictly marriageable age.

And the bills of the past year have been duly received, and tucked away, and possibly forgotton. Pay up!

The most prized and priceless of all Oriental rugs are those that fall to pieces while you look.

Press reports inform us that Belgium is still in need of financial aid. So are we. Kick in with the coin.

"Coming events cast their shadows ——" But ring off! We've had too many shadows the past year.

A writer avers that "in the divine symphony of love your soul sings an aria, while——" Oh, bugs!

Locally, we know of no set formula for popping the question in Leap Year. Just brace up and pop, that's all.

Those golden locks Belinda wears will gag you just as quickly as any other hair when fished out of the soup.

It is rumored that our confirmed old bachelors have formed a defensive alliance, and that the answer this year will be "too young to wed."

Our dimpling maidens who prance around with a black splotch sticking on their face should add another dab of mud in honor of Leap Year.

We wish you long life and much happiness in 1916, and it won't be our fault if we don't grab off just a little more than you get.

When a dashing young man begins to tell her of his castles in Spain it generally ends in cooking three meals a day, scrubbing the kitchen floor and making over her last year's dresses.

That settles it—Ford's financial manager is no gentleman and not even a sport. He refused to put up the cash for new gowns for some of the fair dames of the peace party.

"United States Prepared to Act to Stop Killings at Sea," reads a scare head in a daily paper. But who is going to do it, and how are we going to do it, and what are we going to do it with?

Now when a man calls his wife a "she cat," and she whacks him over the head with the rolling pin, how in heck are they to obey the scriptural injunction and dwell together in love and harmony?

"The president's wife is a happy woman," warbles one who would like to be. Bah! Ours has been delirious with joy ever since we popped, and it hasn't created even a ripple on the social waves.

NOTICE

Patrons of the Peoples Telephone Co. are requested to pay their central fees and post rights not later than January 10th, 1915. Pay same to G. O. Foshee, Secy-Treas., who can be found at L. D. Popwell's store from 10 a.m. to 5 p.m. each day.

What of the People?

In all political parties the self constituted "leaders" are casting around to determine who "they" will select to make the race for president and vice president of the United States at the next election.

Senator This and That and Congressman So and So and Boss Somebody Else are getting their heads together in an effort to hit upon some likely person who will be acceptable to "them," and at the same time hoping and praying that the political lightning may strike himself.

The people? Pooh! They don't count. All they are expected or allowed to do is to trail along to the polls and vote as they are told to do. They are not supposed to think, because they are not credited by the leaders and the bosses with possessing any brains, to say nothing of rights.

When the "great ones" of the parties set their seal of approval or disapproval upon this man or that man, do they first go to the people of their districts and ascertain who THEY want for president?

Not a bit of it!

For what do the "people" know of politics! What do they know of men and of the affairs of state? Who are they that they should even presume to have a voice in the selection of a standard bearer for a great political party?

At least, so reason the "great" and the "mighty."

But some day there will come a change. Some day the man of the people will come into his own, and the "great" and the "elect" will bow down to his wishes and crawl for his favor.

Some day this country will be a nation of the people and will be governed by the people, and their will will be a law unto itself.

Speed the day when the people are something more than just "the people."

PROCLAMATION

Whereas, the Legislature of Alabama, at its regular session begun on the second Tuesday in January, 1915, has proposed an amendment to the Constitution of Alabama, as hereinafter set out, and has ordered an election to be held on January 18th, 1916, at which the qualified voters of the State shall vote to determine whether such proposed amendment shall be adopted.

And, whereas, notice of such election, together with the proposed amendment is required to be given by proclamation by the Governor:

Now, therefore, I, harles Henderson, Governor of the State of Alabama, do hereby give notice by proclamation, in accordance with the provisions of an act approved July 27th, 1915, as amended by an act approved September 17th, 1915, that an election will be held on January 18, 1916, in the manner, form and places required by law, at which the qualified voters of the State may vote upon the following amendment to the Constitution of Alabama:

"AN ACT

To amend the Constitution of the State of Alabama so as to permit the issuance of bonds for the retirement of the floating debt of the State.

Be it enacted by the Legislature of Alabama, as follows:

Section 1. That there shall be and there is hereby proposed an amendment to the Constitution of the State of Alabama to provide for the issuance of one million five hundred thousand dollars of State bonds in addition to the outstanding bonded indebtedness of the State for the purpose of retiring and providing for the present floating debt of the State of Alabama, which amendment shall be in words and figures as follows, to-wit, 'In addition to the present outstanding bonds of the State of Alabama the Governor of the State is hereby authorized to issue one million five hundred thousand dollars of five per cent coupon bonds in denomination of five hundred dollars each, which shall not be sold for less than par, the interest payable semi-annually and the principal of which to be due and payable as follows:

Ten per cent of said bond issue shall be due and payable January 1, 1920, and ten per cent each first of January following until the entire issue shall be retired. The proceeds from the sale of said bonds shall be used for the purpose of paying the present outstanding obligations of the State and any surplus shall be paid into the general fund.'

Section 2. (As amended by an act approved September 17, 1915.) That there shall be and there is hereby ordered to be held an election by the qualified voters of the State of Alabama on the 18th day of January, 1916, to vote on the proposed amendment to the Constitution of the State, which election shall be held under the laws and regulations prescribed for the holding of general elections in this State, and the Governor of the State shall by proclamation give notice of such election with a copy of the proposed amendment in similar manner as notices and proclamations are required to be given for general elections, and shall cause the same to be published once a week for eight consecutive weeks next preceeding the election in a newspaper published in each county of the State in which a newspaper is published, and in counties where no newspaper is published the same shall be posted at the court house door in said county not less than eight weeks before said elections."

Approved September 17th, 1915.

In witness whereof, I have hereunto set my hand and caused the great seal of the State of Alabama to be affixed at the Capitol, in the City of Montgomery, on the 30th day of October, 1915.

CHARLES HENDERSON,
Governor.

By the Governor:
JOHN PURIFOY,
Secretary of State.

NOTICE OF SPECIAL ELECTION.

The State of Alabama, Chilton County.

Whereas, I, H. A. Harris, as Sheriff of Chilton County, Alabama, am in receipt of a writ of election issued by the Governor of the State of Alabama, it is hereby ordered that a Special Election be held in every Precinct in the County of Chilton, State of Alabama, on Monday, the 18th day of January, 1916, at which time there will be submitted to the qualified electors of the County of Chilton, the following amendment to the Constitution, to-wit:

"AN ACT

To amend the Constitution of the State of Alabama so as to permit the issuance of bonds for the retirement of the floating debt of the State.

Be it enacted by the Legislature of Alabama, as follows:

Section 1. That there shall be and there is hereby proposed an amendment to the Constitution of the State of Alabama to provide for the issuance of one million, five hundred thousand dollars of State bonds in addition to the outstanding bonded indebtedness of the State for the purpose of retiring and providing for the present floating debt of the State of Alabama, which amendment shall be in words and figures as follows: to-wit, 'In addition to the present outstanding bonds of the State of Alabama the Governor of the State is hereby authorized to issue one million five hundred thousand dollars of five per cent coupon bonds in denomination of five hundred dollars each, which shall not be sold for less than par, the interest payable semi-annually and the principal of which to be due and payable as follows: Ten per cent of said bond issue shall be due and payable January 1, 1920, and ten per cent each first of January following until the entire issue shall be retired. The proceeds from the sale of said bonds shall be used for the purpose of paying the present outstanding obligations of the State, and any surplus shall be paid into the general fund.'

Section 2. (As amended by an act approved September 17, 1915.) That there shall be and there is hereby ordered to be held an election by the qualified electors of the State of Alabama on the 18th day of January, 1916, to vote on the proposed amendment to the Constitution of the State, which election shall be held under the laws and regulations prescribed for the holding of general elections in this State, and the Governor of the State shall by proclamation give notice of such election with a copy of the proposed amendment in similar manner as notices and proclamations are required to be given for general elections, and shall cause the same to be published once a week for eight consecutive weeks next preceeding the election in a newspaper published in each county of the State in which a newspaper is published, and in counties where no newspaper is published the same shall be posted at the court house door in said county not less than eight weeks before said elections."

Approved September 17th, 1915.

Said election to be held in all respects and to be governed by the general laws of the State of Alabama for such elections.

In witness whereof, I, H. A. Harris, Sheriff of the County of Chilton, State of Alabama, have hereunto set my hand, this the 18th day of December 1915.

H. A. HARRIS,
As Sheriff of Chilton County, Ala.

12-23-3t. adv.

Sheriff's Sale, Real Estate.

The State of Alabama, Chilton County.

By virtue of an execution issued out of the Circuit Court of Chilton County, Alabama, and to me directed whereby I, as Sheriff of said County, was commanded to make the sum of One Hundred Thirty-Five & 75 | 100 Dollars, costs of suit, the amount of a certain judgment and costs therein obtained at the Fall Term, 1915, of said Court of said County, Alabama, in favor of A. E. Teel, defendant, against W. B. Bell, plaintiff. I have levied upon and will sell to the highest bidder for cash, at public sale, at the Court House door of said County, between the hours of 11 o'clock a.m. and 4 o'clock p.m., on Monday, the 7th day of February, 1916, all the right, title and interest of the above named W. B. Bell in and to the following described real estate, viz:

That part of the South-East quarter of the South-West quarter, Section 14, Township 22, Range 14, lying west of the Clanton and Jemison Public as it now runs.

This 7th day of Jan., 1916.

1-13-3t. adv. H. A. HARRIS, Sheriff.

Sheriff's Sale, Personalty.

The State of Alabama, Chilton County.

By virtue of an execution issued out of the Circuit Court of Chilton County, Alabama, and to me directed whereby I, as Sheriff of said County, was commanded to make the sum of Fifteen Dollars, principal and interest, and Twenty-Three & 50 | 100 Dollars, costs of suit, the amount of a certain judgment and costs therein obtained at the Fall Term, 1916, of said Court of said County, Alabama, in favor of Smith & Gerald, against W. B. Bell. I have levied upon and will sell to the highest bidder for cash, at public sale, between the hours of 11 o'clock a. m. and 4 o'clock p.m., at Court House, Clanton, Alabama, on the 17th day of January, 1916, all the right, title and interest of the above named W. B. Bell in and to the following described personal property, viz:

One single top buggy, one one-horse wagon, one cotton planter, one double foot plow stock, one single foot plow stock, and one male yearling.

This 7th day of Jan., 1916.

1t. adv. H. A. HARRIS, Sheriff.

FIRST CORN SHOW HELD IN BRAZIL

Presbyterian Missionary in Lavras Helps to Organize and Direct Big Exhibition.

In a letter to Rev. John I. Armstrong, educational secretary for the Southern Presbyterian church, Rev. Benj. H. Hunnicutt, of Lavras, Minas, Brazil, tells of a successful national corn show recently held which was the first of its kind ever held in that country.

By invitation Mr. Hunnicutt was one of the organizers and directors. This show was held in Sao Paulo last month and the exhibit of the school here was considered very creditable indeed. Had its corn been in the competition for the premiums it would have received the larger share. While this is not direct missionary work it is of enough benefit to the country at large to more than justify the outlay of time and energy spent."

EPISCOPAL BOARD OUT OF DEBT

On the 21st of September, the treasurer of the Episcopal Board of Missions was able to declare the final balance for the year ending the first of the month. On that date, $371,000 had been received of the $400,000 asked for the emergency fund. But the balance showed that the real emergency had already been met, even though the fund had not yet been completed,

(Christian Girl in China.)

for the gifts on the regular apportionment were $20,000 in excess of last year; so that as a matter of fact practically $400,000 over and above the previous year's record had come into the treasury, which is now out of debt for the first time in eight years.

What a splendid cause for thanksgiving to God, and for confidence that His Church will carry on the work He has committed to her!

NO PHOTO NO DOPE

That progress has been made in Banka, Netherlands Indies, the past year is attested by the fact that all opium smokers are now registered by the Government and photographed. Any one desiring opium must produce his photograph before he can be supplied. Only registered smokers can get any opium at all and the quantity is gradually diminished. Public gambling in Banka is also abolished the past year, though this means a great loss of revenue.

In Medan, West Borneo, Palembang and Java a rigid crusade has been going on against Japanese prostitution. Public sentiment is much in favor of the suppression of public gambling in Medan. (Extract from letter by Rev. W. E. Horley, Chairman of the Committee on Public Morals, Malaysia Methodist Conference.)

EPISCOPAL

The Board of Regents of the University of South Dakota recently conferred the degree of Doctor of Letters upon Miss Helen Peabody, head of All Saints' School, Sioux Falls. For thirty years she and her sister have been helping to make history by building character in the lives of the church girls of South Dakota—a service which is now graciously recognized by the highest educational institution of that state. Born and bred in missionary surroundings, educated in a missionary school and giving her life continuously to missionary work, in the honor accorded Dr. Peabody the whole missionary enterprise is distinguished and dignified.

The Methodist Church membership in Liberia, Africa, increased last year from 9,633 to 10,799. Nearly two thousand conversions were reported during the year.

THE "ENDLESS CHAIN" DANGER OF CATARRH

S. S. S. the Proper Safeguard.

Catarrh is a "cold" in its chronic form. The air is filled with bacteria which is taken into the mouth and nose through the process of breathing. When the body is in a healthy condition no harm results. But with our modern methods of indoor living and sedentary occupations, the mucous membranes are usually not able to "throw-off" this harmful bacteria, making catarrh a very common ailment. These germs breed and multiply, causing inflammation, the blood rushes to the membranes to fight off the bacilli. When the blood is in a vigorous condition its "defensive" efforts are successful. Otherwise the cold "hangs on"—turns into catarrh.

Catarrh is a chronic inflammation of the mucous membranes. Mucous membranes are the lining on all the internal cavities of the body. Get that—ALL cavities! There is the "endless chain" element of danger.

The only way to treat catarrh is to purify the blood. The surest way to purify the blood is to take S. S. S. Write us for special advice. Swift Specific Co., Atlanta, Georgia.

Prince Albert is such friendly tobacco

that it just makes a man sorry he didn't get wind of this pipe and cigarette smoke long, long ago. He counts it lost time, quick as the goodness of Prince Albert gets firm set in his life! The patented process fixes that—and *cuts out* bite and parch!

Get on the right-smoke-track soon as you know how! Understand *yourself* how much you'll like

PRINCE ALBERT

the national joy smoke

It stands to reason, doesn't it, that if men all over the nation, all over the world, prefer P. A. that it must have *all the qualities* to satisfy your fondest desires?

Men, get us right on Prince Albert! We tell you this tobacco will prove better than you can figure out, it's so chummy and fragrant and inviting all the time. Can't cost you more than 5c or 10c to get your bearings!

Watch your step!

It's easy to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, *but it is impossible* to imitate the flavor of Prince Albert tobacco! The patented process protects that!

Buy Prince Albert everywhere tobacco is sold—in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—in that classy crystal-glass pound humidor with sponge-moistener top that keeps the tobacco in such great trim!

Oval Water Pipes Best.

Oval water pipes are less liable to burst when they freeze than round ones. The reason is that repeated freezings and thawings cause a round lead water pipe to stretch at the weakest points and form bulges, which finally split; but a pipe that starts life as oval may be frozen a number of times without cracking, because each time it gets a little rounder, and not until the strain can no longer be relieved in that way does it form bulges and burst.

Land Always in Motion.

We are apt to think of the sea as something that is constantly shifting and the land as something quite stable. In reality the land is always moving, and science now believes that quite possibly it is moving even faster than the surface of the ocean.

FREE FLOWER SEEDS

Hastings Catalogue Tells You All About Them

No matter whether you farm or only plant vegetables or flowers in a small lot you need Hastings 1916 Catalogue.

It is filled (100 pages) from cover to cover with useful farm and garden information.

It tells of seeds of kind and quality that you can't buy from your merchant or druggist, seeds that cost no more but give you real satisfaction and a real garden.

It tells how every customer can get absolutely free five packets of easily grown, yet showy and beautiful flowers.

Hastings is both the best and largest seed firm in the South, the only firm that you should buy seeds from.

When you plant Hastings Seeds, you meet "Good Garden Luck" more than half way. Write today for their big 1916 Catalogue. It is free. A postal card request will bring it. H. G. HASTINGS CO., Atlanta, Ga.—(Advt.)

Storm Damages

Unfortunately a terrible storm swept the Gulf Coast some time ago, causing great inconvenience to business and much loss of property, not to speak of the inconvenience to people who live in that section.

The L. & N. Railroad was one of the principal sufferers, probably the largest individual sufferer.

Not only did the property of the Company sustain great damage, causing enormous losses in dollars and cents, but the Company's passenger and freight service was seriously disrupted, thus causing further great loss through loss of business.

This waste of property, caused by influences over which no living human agency has control, was a total loss, taking that much away from the accumulation of human effort.

Like others who suffered from the storm the L. & N. had to replace the waste, and in the interest of service to the people, replaced the waste with as little delay as possible.

To those who witnessed the havoc wrought by the storm there is no need of recounting the details. To those who did not witness it the L. & N. states that the property damage and human suffering were fearful. Many men lost their all.

In replacing that loss the L. & N. had to take the amount of money required from its comparatively small percentage of earnings. And it should be borne in mind that these earnings are fixed by the Interstate Commerce Commission, and the various Railroad Commissions, and only an average sum is allowed for repairs and replacements, whereas this storm wrought far more than the average havoc.

The L. & N. writes of these things to illustrate the many disadvantages under which a modern railroad is operated, particularly in the matter of finance.

However, with characteristic determination to maintain its high standard of freight and passenger service to the people the L. & N. went to work and is now prepared, and has been for three or four weeks, to offer the same service as in the past. The damage has been entirely repaired, and trains are again operating on regular schedules.

But the damage was done, the delay occasioned, and the loss sustained, all of which had to be met by the L. & N. earnings out of prescribed L. & N. income.

Individuals, of course, sustained losses which had to be replaced, but the incomes of individuals are limited only by the limit of individual ability.

KING IMPROVED COTTON SEED.

If you hope to make any cotton at all next year you must plant a variety that will produce early and beat the boll weevil.

Hundreds of tests have already shown that that the King Improved Cotton is the best known variety with which to do this.

I have the agency for the King Improved Seed in this section, and will be glad to confer with anyone interested, and furnish you with prices and full particulars as to what this cotton may be depended upon to do.

Call to see me or write at once in order that you may have plenty of time to get your seed before planting time.

The seed which I handle are direct from the man who originated the King Improved Cotton, and are guaranteed to be straight and unmixed with any other variety.

"That miserable pain—don't you want relief?"

Close attention to work is the cause of much Pain and many Headaches. Obtain relief by taking one or two

DR. MILES' **ANTI-PAIN PILLS**

Then tone up the Nervous System by using

Dr. Miles' **Restorative Nervine**

AWFUL SUFFERING.

"I suffered untold agony with neuralgia. I thought I would go mad with pain. A friend of mine advised me to take Dr. Miles' Anti-Pain Pills. I did so and the pain stopped almost at once. Then I commenced using Dr. Miles' Nervine and before long I was so that I did not have these pains any more." E. J. WINTER, 561 E. Platte Ave., Colorado Springs, Colo.

IF FIRST BOTTLE, OR BOX, FAILS TO HELP YOU, YOUR MONEY WILL BE REFUNDED.

TO THE TAX PAYERS OF CHILTON COUNTY

I see the Progressive Executive Committe has been called to meet here the 19th. I hope all the committee will come and as many others as can well get off. I am glad to see the call broad and to all that opposes the policies of the Democratic partyand I hope we will have a good turn out from each beat, regardless of past party affilliations. If tax payers will stop, look and listen, I think they will be allarmed, think of it, the County, so I am informed owes something like $150,000,000. and then some. Your County cannot even pay a manager of election the small sum of $2.00 Small warrants where work has been done for the County by men that need it, over one year old, and still getting older. There is not a single business in the County that was in the condition it is in, that would not be in Bankruptcy. If the County should be entirely turned over to few here in Clanton, what would become of it? Where is the liberties of the tax payers? Who fixes the value of your property? What say so have you about how the money is spent? In fact about all the time you are consulted by the bosses, is just before election when they want your vote.

Have you ever stopped to reink how far a few so called leaders of the Democratic party would go if they had the authority? Who was it that tried to legislate your Commissioners out of office? Who was it that tried to create new officers for you to pay for? Will the taxpayers of this county stop and think for one moment the condition of this county, and state, and nation. Every kind of special tax, license, tax schemers, your taxes doubling every three or four years, and yet every branch of the Government busted. I am sure the majority of the Democrats in this county do not endorse what is being done, and if you will stop and think, you are being burdened just as if you were not a Democrat.

If there ever was a time when the people ought to meet and confer, it seems to me it is now. So if you are opposed to a few running the County, and want the voice of the people to be heard, come out the 19th and let's talk over the matter.

I believe every man in this county is in favor of good roads, and also believe they are in favor of the county paying its debts when due just like any other business.

Respectfully,
L. H. Reynolds.

Passing of Youth.

To me the passing of youth was escaping from torment of passion, strife and trouble into a placid content. My griefs and joys grew less violent. I ceased hunting those who had wronged me, and, in lesser degree, grew calmer in my attachments. Undisturbed by passions I found I could think more clearly, be more liberal and understand better.—American Magazine.

Now Well

"Thedford's Black-Draught is the best all-round medicine I ever used," writes J. A. Steelman, of Pattonville, Texas. "I suffered terribly with liver troubles, and could get no relief. The doctors said I had consumption. I could not work at all. Finally I tried

THEDFORD'S **BLACK-DRAUGHT**

and to my surprise, I got better, and am to-day as well as any man." Thedford's Black-Draught is a general, cathartic, vegetable liver medicine, that has been regulating irregularities of the liver, stomach and bowels, for over 70 years. Get a package today. Insist on the genuine—Thedford's. E-70

HAD NO HOPE OF RETURNING ALIVE

Mrs. Cason Brought to Atlanta Propped Up On Pillows—Gains 35 Lbs. on Tanlac.

In telling of her wodderful restoration to health. Mrs. O. C. Cason, who liyes at Acworth, Ga., a short distance from Atlanta, recently said:

"About six weeks ago I left my home on our farm near Acworth to come to my sister's home here in Atlanta, and I left with only a shadow of a hope of ever returning alive to my home and husband.

"I left Acworth in a comfortable automobile, propped up on pillows, coming through the country. I had almost as much medicine as I had baggage—a box full of all kinds of medicines that had been prescribed for me. I reached here very weak and exhausted and with scarcely enough strength to walk to the door. This trouble from which I had suffered so long had reduced me to almost a shadow, as I only weighed 60 pounds.

"My brother-in-law, Mr. Battle, said, 'well now you have tried everytning else with no relief, now I want you to lay aside your "drug shop" and take Tanlac.' Of course I was willing to try it, for the medicine is the talk of the whole country. Well, he got it for me and I started on my first bottle that day.

"When I had taken about half of the first bottle I began to feel stronger and encouraged. I continued to take it and it is nothing short of marvelous how I improved day by day. My appetite returned and my food seemed to nourish me and agree with me. My skin and complexion began clearing up and I improved in every way possible unnil I am now a well woman, and when I say well, I mean absolutely what I say. I want to tell the whole world that I thank God for Tanlac.

"I weigh 95 pounds now and feel as well as I ever felt in my life. I am going back to my husband and home on the little farm 5 miles from Acworth tomorrow and won't it be a joyful meeting, returning absolutely well and happy—and won't I tell everybody about what Tanlac has done for me?"

"Yes, its just like she says," chimed in Mr. Battle about this time. "Tanlac has simply robbed the grave, and if you could have seen her when she started on this medicine you would say the same thing.

"I didn't know at the time just what her trouble was, but the doctors said she had Pellegra. She may have had it for all I know, but there is one thing certain, she hasn't got it now, or at least you wouldn't think so if yru could see her eat. I told her jokingly the other day that she was eating me out of house and home. I don't guess there ever was a case like hers and there is one thing certain, you can count on us telling everybody about it, because I fully believe she ows her life to this medicine today."

Tanlac is sold in Clanton exclusively by Upchurch Drug Co. adv.

Home Celebration of Wonder Interest

The arrival of a baby in the household completely changes the entire aspect of the future. But in the meantime, during the anxious period of expectancy, there is a splendid remedy known as "Mother's Friend" that does wonders. It is for external use, relieves the pains of muscle expansion, soothes and quiets the nerves, extends its influence to the internal organs and removes to a great extent the tendency to worry and apprehension. It is a natural treatment, safe for the mother, has no drug effect whatsoever and for this reason must exert a most beneficial influence upon those functions directly connected with motherhood. In a very interesting book the subject is freely discussed and a copy will be mailed free to all expectant mothers by Bradfield Regulator Co., 706 Lamar Bldg., Atlanta, Ga. Get a bottle of "Mother's Friend" today of any druggist. Use as directed and you will then know why mothers for nearly half a century have used and recommended this splendid aid to motherhood. Their letters are messages of cheer, that breathe comfort in every word.

It is worth while to know that "Mother's Friend" has been in continuous use more than half a century. Letters are frequently received to say that a young mother learned of this splendid remedy from her mother and from her grandmother both of whom used it with happiest results.

Because of this fact you may rely implicitly upon its safety, its effectiveness and its directness of purpose.

IF YOU WANT A CLEAN SHAVE

or up-to-date hair cut, go to Sims & Glass Barber Shop, across the street from Harry Kanjutzky. The cleanest and most sanitary shop in town. Shower Baths up-to-date.

Evangelization Through The Newspapers

China Imitates Plan Tried With Success in Japan—News From Afar

Doctor Pieter's plan of evangelism through the Japanese newspapers is finding a partial imitation in China. The editor of Ta Tung Po, a Christian weekly, has reprinted his leading articles and sent them to newspapers all over China. Some of these articles are distinctly Christian; others treat questions of the day from a decidedly Christian point of view. Both types have had a surprisingly favorable reception. Five dailies in Shanghai, five in Peking, three in Chefoo, two in Shansi, and one each in Tientsin, Shantung, Chekiang, Chili, Amoy, Canton, Szechuen, Kwangsi, and Manchuria have gladly reproduced articles. The Christian social articles have treated such subjects as "The Root of Morality," "The Home and Its Elevation," "The True Basis of Religious Liberty," "Red Cross Work in Japan," etc. Chinese editors seem to recognize the purposes of the missionaries and to look upon them as their allies in the regeneration of China.

A Chinese Florence Nightingale.

The city of Weihsien in Shantung, was visited by severe floods last September, which did much damage to the city and its suburbs and to the missionary compound. It is reported

(Matron of Virginia school (China) and her son.)

that one of the most efficient and helpful in the emergency was a Chinese orphan girl, who had been rescued in famine times a few years ago.

It was Kwei Lan who seemed to be in all places at the same time, looking after the distressed as they were brought in by scores and hundreds from the nearby villages and laid down to recuperate after their harrowing experiences. It was Kwei Lan who distributed clothing to the shivering flood victims, gave steaming hot food for the starving, hung out wet clothes to dry, bound up the wounds of the injured ones, and in her strong, gentle young arms hushed the wailing of sick babies. Her bright words of cheer, her endless deeds of kindly ministry won for her the lifelong gratitude and affection of the recipients, and caused the missionaries of Weihsien station to christen her the "Florence Nightingale of Shantung."—The Continent.

Chinese Christians in Amoy are leading in the local industrial world. The chairman and other members of the board of management of the Amoy Electric Lighting Co. are Protestants. The most successful organized industry in the city is the Amoy Tinning Co., which is owned and operated almost entirely by Christians. So prosperous is it that in 1913, after making large purchases of land and erecting new buildings, it declared a net dividend of 30 per cent! Its prosperity is shared with the church and it has secured a native preacher to serve as chaplain to the men in its employ.

The latest financial report of the London Missionary society shows that the contributions of the home churches for 1914-15 have been £101,389 as against £104,337 of the preceding year. From Australia the society contributions show an increase of £1100. The native churches of the mission field itself have advanced their gifts by £3000. These figures give encouraging evidence that international convulsions are not injuring mission work in the extent one might have imagined they would.

Fern Was Peeved.

According to an eminent botanist, plants are so sensitive that they resent neglect and are susceptible to kind treatment, showing their gratitude in charming ways. We are therefore the more ready to believe a story told us a day or two ago by a lover of nature. He was watering a fern on a cold morning. He forgot to temper the water. The fern, incensed by the shock, leaped from the pot and bit him savagely in the leg.—Philip Hale, in Boston Herald.

Narrow Teaching.

Those who teach morality, limiting its obligations to duties toward family or country, teach you a more or less narrow egoism and lead you to what is evil for others and for themselves. Country and family are like two circles drawn within a greater circle which contains them both; like two steps of a ladder without which you could not climb any higher, but upon which it is forbidden you to lay your feet.—Mazzini.

"Nobody Home."

The judge did not seem to appreciate the remarks of the lawyer for the defense. (Several years before they had had a fight over the question of religion.) At last the judge interrupted the lawyer and said: "Do you not know that everything you are saying is going in one ear and out the other?" The lawyer turned to him and replied: "Your honor, what is to prevent?"—Burr.

Origin of the Organ.

The origin of the organ is lost in the night of the past. It is generally supposed that the organ, in its simplest state, was a modification of the "Pipes of Pan," or simple hollow reeds of various lengths bound together and so arranged as to be rapidly swept over by the mouth of the player, each pipe graduated as near as might be to some natural "note" of music.

New Fishing Grounds.

Albacore and tunny, fish which until recently have been found only in the Mediterranean in sufficient quantities to form the basis of an industry, are said now to be caught in enormous quantities along the coast of southern California. At San Pedro a fleet of gasoline launches finds profitable employment during the season in catching these fish for the packers.

First Safety Matches.

Safety matches did not come into use until 1852, when a Swede by the name of J. E. Lundstrom started to make these matches at Jonkoping, although his process had been patented eight years previously by another Swede, G. E. Pasch, who, however, never put into practical use his invention.

OUR PUBLIC FORUM

R. C. Duff
On Cotton As Contraband.

Hon. R. C. Duff, one of the highest authorities on International law in the nation and one of the most capable citizens in the United States, when asked to investigate the exporting of cotton and interpret the laws of nations on this subject for the American plow man, said in part:

"Article 28 of the Declaration of London reads as follows: 'The following may not be declared contraband of war: (1) raw cotton, wool, silk, etc.' Great Britain is not only a signatory of the Declaration of London, but in fact called the conference and insisted upon the inclusion of raw cotton on the list of absolute non-contraband. Under this declaration, which was subscribed to by all the maritime nations, we have a right absolutely to ship cotton, not only to neutral ports of Europe, but to Germany and Austria themselves. Humanity shudders at the thought of the death of the splendid Americans who went down on the Lusitania, but humanity would have more cause for shuddering if it could have presented to it in some similarly striking and dramatic way the woe, sorrow and suffering that will be occasioned to multiplied thousands of men, women and children in the Southern states as a result of cotton being forced down to starvation prices.

"The reason why cotton does not command 18 or 20 cents per pound is simply because Great Britain has a naval strangle hold on our shipments and, therefore, on the world supply. England sends her ships of war out into the open seas, captures American cotton, no matter to whom the same may be destined, carries it into British ports, sets up prize courts of her own nomination, which prize courts, of course, are operating in her favor and which, under such circumstances, after whatever delay they elect to impose, assess the damages of the American shipper at whatever price they see fit and then, after having by such process 'bought' our cotton, she avails herself of the extraordinary high prices existing on the continent of Europe, produced in part by her diversion of our shipments, to resell it at a profit. The American shipper has no recourse except to the government. The acts of Great Britain referred to, according to the well-recognized principle of International law, constitute war against the United States.

"This grievance is now of many months standing and the South is about to bring to market another great crop of cotton. Under such circumstances one would expect that our government, without prompting, would know perfectly well how to deal with acts on the part of the British government, amounting to warfare against our trade and country.

"It is not necessary for us to resort to war against Great Britain in retaliation. A simple, adequate and obvious remedy would be for the president to advise Great Britain that unless she respects the law of nations as regards our foreign commerce, he will call on congress to adopt a resolution forbidding the exportation of arms and munitions of war to foreign countries."

EASY ON YOUR POCKET

That is the record this Grocery Store has built up during the years we have been feeding the people of this community.

And it is such a self evident truth, and so well known to everybody, that we are not going to say another word in this advertisement.

Money for the Farmers at 6 Per Cent Interest.

The Alabama Rural Credit Association has a plan whereby farmers in this section have an opportunity to secure money on long time loans at this low rate.

Does such a proposition mean anything to you?

See Mr. R. W. Dilday on Friday and Saturday of this week and next week at the Wilson Hotel in Clanton, and learn full particulars about it.

This is the last chance you will have to see him. After these dates the membership for Chilton County will be closed.

Alabama Rural Credit Association

FOR SALE

I have one fine, rich, level red land farm for sale; containing 313 acres, 250 acres in cultivation, on Macadamized road; 5 houses. Have another very rich, level red land, farm containing 160 acres, all in cultivation, with 3 good houses on Macadam road. These farms are located in North Alabama, five years from boll weevil. These farms will produce more corn and cotton without fertilizers than we can raise here with it. They sell for 1-2 cash, balance on long term; will accept small farm as part payment. If interested, call to see me at once.

C. Reese Mullins made a business trip to Birmingham Tuesday.

Remember that dollar you owe us on subscription. We have some improvements on foot that are costing us money and we need all there is owing to us. Don't forget us when you come to town.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you! it's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels. Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards. Adv.

The "SILENT SMITH"

—Model 8 shows what should **now** be expected **of a** typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the *user* have dictated its construction. The *user* has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.
Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.
Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.
Faster Ribbon Feed—Insures new place of impact for each typeface.
Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

CLANTON, ALA.

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because 50c worth makes a whole pint (128 teaspoonsful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Guaranteed here by Alred Drug Co., Clanton, Ala.

VOL. 4. CLANTON, ALABAMA, THURSDAY, JANUARY 20, 1916. NUMBER 42

POLITICAL MEETING HELD ON WEDNESDAY

A good number of representative citizens met in mass with the Progressive executive committee Wednesday at the court house and showed splendid interest in political affairs for the coming primary campaign.

J. O. Middleton was chosen as chairman of the meeting and M. D. Foshee secretary.

Talks were made by W. Y. Nix, J. N. Scott, W. H. Conway, L. H. Reynolds, W. T. Herrod and George Edwards on matters pertaining to the campaign just opening.

The executive committee met and fixed the date of the progressive primary to be on the second Tuesday in May.

A sub committee was designated to confer with the Republican executive committee in the matter of the factions of the two parties getting together.

FREE SPRINGS.

The "Singing and Fruit Supper" at J. C. Prim's last Saturday night was the best and most thoroughly enjoyed event of the season, in our little community.

Mr. Eugene Bristow of Calera and Miss Ethel Prim attended singing at Mars Hill last Sunday evening.

Our school is moving along fairly well. 'Grippe and bad weather have been holding the attendance down lately.

Mr. and Mrs. Howard Roper, and little son, Jim Howard, visited friends in Jemison Sunday.

Mr. Roper preached to an attentive congregation at the Baptist church while at Jemison.

Prof. H. H. Mullins dined at J. C. Prim's Sunday.

Mr. O. Y. Sims of Fairview visited Mr. and Mrs. Roper last Friday night.

The school improvement association is doing great work for the school and church.

The talk of Mrs. J. M. Heyes in regard to a library and how to secure one, at last meeting of the association was much enjoyed.

The association will give a couple of plays at Free Springs church on Friday night, January 28. This will be a very comic affair, come and laugh till your sides are sore. Admission 10 and 15 cents. "D."

THORSBY NEWS.

Hear the McCords! Music and fun! March 7th.

Examinations are the order of the day at the Institute.

Miss Sabria Summers of Goodwater, Ala., has enrolled at the Institute.

The art exhibit and entertainment given January 7th was a success. The proceeds were a little over ten dollars, which will be used by the Helen Keller Literary Society, in addition to some funds already in the treasury, for the installing of a hollow wire gasoline lighting system in Bates Hall.

The Christian Endeavor Society will hold a Social at the home of Mr. Herbert on Friday evening, Jan. 21st. A business meeting will be held in connection with the social.

Rev. Charles W. Snyder, of New Haven, O., was in Thorsby recently and preached at the Congregational Church Sunday, Jan. 16th. Mr. Snyder came for a short visit to his father, Mr. J. K. Snyder, who has been ill, but is now improving.

The Helen Keller Literary Society elected officers for the second semester last Saturday night. The election resulted in the choice of the following officers:

President, Elmer Williamson; Vice-President, Raymond Carlson; Secretary, Maud Julian; Treasurer, Edgar Williamson; Custodian, Oscar Swanlund.

The second Semester of the Thorsby Institute begins Monday, Jan. 24th. This is a good time to enroll. Students desiring to prepare for either second or third grade teacher's examination in April will find all the classes needed for their preparation, as well as the regular classes of the High school work.

A literary and musical entertainment will be given by "The McCords" under the auspices of the Redpath Lyceum Bureau at Bates Hall Tuesday night, March 7th. Do not forget the date.

MAPLESVILLE

The Maplesville High school is accomplishing good work under its efficient corps of teachers, Misses Durbin and Brock, and Prof. J. L. Johnson. On account of illness in a number of families the attendance has been rather small for the past week, but with the return of fair weather it is certain that the school will resume its normal attendance and that the work will progress in the future as it has in the term just passed.

The forty two club met with Mrs. A. E. Wheeler Saturday afternoon, January 15th, at two o'clock. Three tables enjoyed the game until five o'clock. The visitors present were Misses Pearl Durbin, Grace Brock, Margie Rainer and Mrs. Will Abney. After the games a delicious salad course was served with coffee, and those fortunate enough to attend voted Mrs. Wheeler an ideal hostess.

Miss Margie Rainer, a popular young music teacher of Maplesville entertained the music study club at her studio, Wednesday afternoon, January 12th. A most interesting program was arranged and carried out.

On leaving the guests were served with refreshments.

The club members eagerly await the next meeting, which will be held Wednesday afternoon, January 19th.

The young people of Maplesville met Sunday night and organized an Epworth league. Officers for the work were duly elected and business for the year was discussed.

An interesting feature of next week's program will be a debate. Subject, Resolved; that the older Brother was more wicked than the Prodigal Son.

Affirmative, Mr. W. M. Whiteside, Miss Pearl Durbin, Miss Margie Rainer.

Negative, J. L. Johnson, Walter Moore, Miss Grace Brock.

AGRICULTURAL INSTITUTE

An Agricultural Institute will be held at the Courthouse at Clanton on Saturday, January 22, beginning at 10:00 a.m.

Experts will be on hand to aid us in solving the problems coming with the boll weevil. Among the things taken up will be raising cotton under bool weevil conditions, new crops to replace part of the cotton acreage, a discussion of live stock growing, securing ready markets for our products, the fertilizer question and many other things of mutual interest to each of us.

Farmers, Merchants Business men and all who are directly or indirectly interested in bettering our general conditions are invited to attend this meeting.

All Corn Club and Pig Club members are especially invited to attend. The Diplomas awarded the Corn Club members for their work during the past year will be given out at this meeting.

Come and lets get better acquainted with the future farmers and stock growers of our home county.

W. H. Conway,
County Demonstration Agent.

INTEREST BEARING COUNTY WARRANTS

Editor Union-Banner.

Please allow me space in your valuable paper to explain to the Citizens of this county why injunction proceedings were started in the Courts to test the legality of "Interest bearing warrants" issued in payment of road construction in said County; and to answer charges made that there was politicts in it.

The suit was started, not for a political purpose but a business one, as treasurer of Chilton County, I felt that there was some doubt as to the legality of the warrants, and there has not been a decision of the Supreme Court of Alabama as far as I can ascertain holding that the County can issue interest bearing warrants for road construction, and should they have authority to issue warrants for such purpose I am not advised that they can issue interest Coupons upon the warrants, and should I pay these warrants and interest Coupons out of the Counties moneys and if they were held to be illegal I would be responsible for the payment of them, and not the commissioners who authorized and approved the issueing of the same, but if I get a decision from the Courts which are here for the purpose I have called on them for, that the warrants are legal then I am free from liability, and safe in paying them, and any charges made that the suit was brought for a political purpose is false and untrue.

J. W. Littlejohn
Treasurer of Chilton County.

TEACHERS' INSTITUTE

Program Teachers' Institute of Chilton county to be held at the High School building at Clanton on February 5th, 1916.

10:00 a.m. What should be the teachers' attitude toward consolidation? By Prof. J. W. Moore and J. L. Dean.

10:20 What are you and your community to do with compulsory education? By Prof. J. L. Ray and Prof. J. B. Williams.

11:05 Round table questions read.

11:10 State Library; how shall we best use it? Prof. J. L. Wilson, R. A. Smith and W. T. Bean.

11:35 Grading the efficiency of a teacher. Pror. McDonald.

12:05 Intermission.

12:30 Round table discussion.

1:00 Three minutes impromptu speech on our work by several members.

Committee.

RICHARDS-VANDERVEER

A recent wedding announcement of much interest is that of Mr. Alex Sandlin Richards and Miss Bessie VanDerveer, the marriage to take place at the Methodist church in Clanton, on Friday January 28th, 1916.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

The Orange and Blue Five defeated the Marbury High School basket ball team on the former's ground last Saturday by a score of 29 to 11. The home boys were too fast for the visitors, the latter being outclassed in every form of the game.

This makes the second time that the Marbury High has been defeated by our boys. The other score was 24 to 12.

The features of the game were the goal pitching of Popwell and Smith for the locals. and the playidg of Sims and Dawson for the visitors.

Mr. Marvin Marcus was a visitor to the school last Monday. Marvin was thinking of entering school, but when he saw the examination questions on the board he resigned right then.

The examinations are all the go this week. The teachers are not having to write many long grades; the most of them just consist of one and two figures.

On account of being busy with the examinations this week the correspondents from the different classes have failed to report, and for this reason we are not publishing much news. We will ry to have more next week.

GREAT WORK OF METHODIST CHURCH

First Missionary Sent to China in 1878—Influence of Christianity in Japan.

The Woman's Board of Foreign Missions of the Methodist Episcopal church, South, opened its first work in China in 1878, sending to that field Miss Lochie Rankin, who is still an effective member of the mission. In 1881 work was opened in Brazil by Miss Martha Watts, and the same year Miss Rebecca Toland began Mexican work at Laredo. The society entered Korea in 1898, Mrs. J. P. Campbell being transferred to that field from China.

At the end of the first sixteen years the Woman's Board reported sixteen missionaries, four boarding schools with seven hundred and fifty-eight pupils, fifty-two native helpers, six Bible women, one hospital treating one thousand seven hundred and fifty-one patients, two medical missionaries, and property valued at $600,000.

Twenty years later the Foreign Department of Woman's Work reports forty-seven missionaries, nine boarding schools, forty-three day schools, two thousand and seventy-two pupils, a hospital treating six thousand seven hundred and twenty-four patients, a medical school, a nurse-training school, a kindergarten training-school and property valued at $214,105.

(Virginia school grounds, Huchow, Chinese preacher and family.)

Influence of Christianity in Japan.

A leading Japanese estimates "that there are in Japan 1,000,000 persons who are fashioning their conduct according to the principles of Jesus Christ. Fifty years ago there was no Bible in public circulation; today its circulation is numbered by millions. There has been hardly a hospital or asylum in the land. Christianity has been the pioneer in establishing homes, hospitals, and refuges for the poor, the blind, the fatherless, the insane, the leper, the outcast, and the criminal. Such institutions were practically unknown in old Japan. Revenge was one of the cardinal virtues of Bushido, the moral code of the upper classes; but new Japan praises Christianity for its philanthropic fruits, and the adherents of the old faiths pay to it the tribute of imitation.—Sherwood Eddy.

A Priest of Buddha Converted.

It is stated that U. Po Thit, a yellow-robed priest of Buddha, in the city of Syriam, Burma, has become a disciple of Christ.

Such instances are very rare—for a priest of Buddha, protected and cared for, lives a life of ease. His position is exalted and his followers worship him. Having a knowledge of herbs and roots, U. to Thit will become a doctor and go among his people, healing the sick and preaching Christ.

Five thousand Navajo children are without a missionary, teacher, or physician; and in sections of this reservation aggregating sixteen thousand square miles in extent the Indians are absolutely in heathen darkness.

Bishop J. W. Bashford, of the Methodist Episcopal church, recently reported that he has never witnessed in any Christian college a more remarkable series of revival meetings than that recently held in Peking University. President H. H. Lowry was in charge of the services, and his audiences, composed largely of students, numbered from eight hundred to one thousand.

Unconquerable.

The habit of never being whipped, of always keeping up the fight—that is the quality of the great leader. The man who never admits defeat is the man the world has to take into account. Time and again the foes he is fighting may think they have him down. But before they know it he is on his feet sounding the advance. Such a man molds events. He helps create the new heavens and the new earth of the prophet's vision. A mighty force of the universe is the unconquerable soul!

Humanity's Responsibility.

To resist the tyranny of self; to recognize the law of duty; to maintain the supremacy of the higher over the lower parts of our nature—this is our responsibility for life and its gifts. —W. E. Gladstone.

TAKING THE GOSPEL TO ODD PLACES

In Korea Evangelistic Services are Held in Police Headquarters and in the Market House

"With Bishop Hiraiwa I have just finished a month's itinerating in Korea," writes Methodist missionary F. Herron Smith, from Kongju. "We had splendid meetings and good results everywhere. At Songdo a large congregation met in a school house. At Haiju, more than 200 assembled to hear the gospel message in a theater. The Chinnampo Market Hall was filled at an evening service. Next day we were asked to hold a morning meeting at police headquarters in the same city; and at five o'clock that afternoon a crowd gathered in the Chamber of Commerce to hear about Jesus.

"While in Pyengyang, we had a great meeting in a club house. Here Bishop Hiraiwa addressed the Governor, other high political officials, and many teachers.

"General Terauchi gave a dinner at Seoul in the Bishop's honor. I have never before seen so much interest in religious matters, especially among those in authority."

AMERICANS OFF FOR PERSIA

A group of nine Americans left on a Scandinavia steamer from New York en route for Persia, on Thurs-

(Promising little Sunday School children in China.)

day, August 26th. This party consists of six new missionaries and three furloughed missionaries who are being sent out by the Presbyterian Board of Foreign Missions.

The party included five physicians who will do much to disseminate modern medical science which is so sorely needed and sincerely appreciated in Eastern lands today.

The party goes by way of Scandinavia, Finland, Petrograd, overland through Russia, down across the Caucasus or the Caspian sea into Persia, where they should arrive the last of September.

THE UNREACHED MILLIONS

According to carefully compiled statistics, about twenty million volumes of the Bible, or portions of it, were printed during 1913, and of these about eighteen million were put into circulation. But, "what are these among so many?" Asia alone contains about 934,000,000 people. The total population of the world today is approximately 1,730,000,000. Asia therefore, contains in itself 183,000,000 more people than are to be found in all the rest of the inhabited world. In other words if all the people in the world, Asia excepted, were in the continent of Asia there would still be room for one and a half more times as many people as there are in the United States of America. In British India there are over 312,000,000 people, in China about 400,000,000. When it is realized how many millions of people on the earth's surface are still unreached by the Gospel and do not possess God's Holy Word, the great importance of the work of the Bible Society is slightly comprehended. These facts concerning the population of the world are an urgent call of God to press on and supply the hungering nations with the holy scriptures.

Numbers of wounded soldiers have come home from the war blinded. The Bible Society is able to help these poor sightless fellows to learn to read by touch. It has just sent to Paris a gift of fifty copies of St. Luke's Gospel in French, printed in Braille embossed type, for the use of blind French soldiers.

THE EXPRESS OFFICE AT CLANTON ROBBED

The express office at Clanton was forced open Tuesday night and quite a lot of stuff stolen consisting of packages, whiskey and grips.

The thieves got away with the plunder and it is thought they were fully aware as to the surroundings.

The money drawer was forced open but the safe was not interferred with.

Detectives were telegraphed for and arrived on the next fast train.

Two young men are suspected by the agents.

PROGRAM

Program fifth Sunday meeting to be held with Pilgrims Rest church 1 1-2 miles south of Pletcher, Jan. 29 and 30th.

Saturday 10:15 a.m. Devotional service F. M. Wagoner.

10:30 The moral condition of the country Rev. W. A. Cox and J. I. Bice.

11:00 Sermon by Rev. Buford Lawaence.

12:00 Dinner.

1:15 The spirtual condition of the church Rev. S. M. Adams and Rev. J. D. Deason.

2:00 The needs of the church R. P. Kendrick and others.

Sunday 9:45 Devotional service J. N. Wooley.

10:00 How do our people regard the Baptist High School at Thorsby Rev. M. C Crumpton and others.

10:40 How may we grow in grace Rev. J. A. Pool.

11:10 Sermon by Rev S. O. Y. Rav alternate M. C. Crumpton.

12 Dinner.

1:15 p.m. Devotional service J. J. Stanley.

1:30 Sunday school work W. T. Herrod and others.

We invite all that will to these subjects and come and help to make this a great meeting.

T. J. Deason.

Passing of Youth.

To me the passing of youth was escaping from torment of passion, strife and trouble into a placid content. My griefs and joys grew less violent. I ceased hunting those who had wronged me, and, in lesser degree, grew calmer in my attachments. Undisturbed by passions I found I could think more clearly, be more liberal and understand better.—American Magazine.

Don't forget that now is the time to pay your poll tax.

NOTICE!

I will go away in the next few days and after my departure my accounts will be left in the hands of an officer for collection. I much rather have a settlement in person with all who owe me, and will hope such individuals will take notice and settle at once.

PEOPLES TELEPHONE 96.

Nineteen sixteen is jogging along.

Another week's sins to answer for.

Hail to the fellow who remembers to hail us.

Yes, Willie, you are a gentleman. Now live up to it!

Editorial space is too valuable to waste it on Ford this week.

Every day is pay day at this office. Trot right along and receive our thanks.

Many a rising son will go into eclipse after the June conventions.

When comment is superfluous it of course is superfluous. Read the next one.

The fellow who hides his light under a bushel is putting the bushel to poor use.

Kick yourself as much as you like, but never let the other fellow do the kicking.

An "eminent attorney" is a fellow who lifts your coin without being called a thief.

The wise man picks his steps and rises in life. The fool sinks in the mire of his own foolishness.

If men's shadows were X-ray photographs—Phew! What would everybody think of everybody else?

Between the war and the automobile the unhappy horse is kept continually sidestepping sudden death.

If gasoline keeps on soaring it will soon be so high we will be rid of the stink.

When a youth reaches a certain age he is firmly convinced that the people of his home town are a bunch of Mutts.

An editorial squib writer is a geek who manufactures smiles for everybody but himself.

You bet we are in favor of honest government, but we don't want it to interfere with us. You, too!

The more some women love their husbands the harder they pull the financial leg.

Funny thing happened the other day. A fellow sprung a joke on us that we hadn't heard twenty times before.

Good advice is a valuable stock in trade, provided we make use of it ourselves before passing it along.

A man's worst enemy is often the friend to whom he has refused to lend money.

It is cheaper to pay for your own paper than to wear out shoe leather trotting over to borrow your neighbor's.

With all of the wisdom of this community we surely ought to produce at least one candidate for the presidency.

Did you ever see a scalawag who didn't consider himself a bright, brainy and shining example for his fellow men?

Speak softly, step carefully, act wisely, and you may die happy. And once you are dead you will know more than the rest of us.

If Andrew Carnegie achieves his desire to die poor it will not be because he blew in his millions on a bunch of gadding leg pullers.

Yes, paint is a mighty useful article and much in demand. It is especially valuable in covering wagons, barns, fences and women's faces, and it beautifies everything it touches. Hurrah for paint!

The proposed state bond issue for Alabama was snowed under good and proper Tuesday. Returns from all over the state showed sentiment heavily against the measure.

Poor Old Bald Head.

"Look, mamma," said little Edna, as a man with a bald head and full beard entered the room. "There's a man whose hair has all growed down through his face."

WOUNDED 4 TIMES IS STILL IN LINE

Old Soldier Goes To Memphis Reunion And Marches 3 Miles In Big Parade

"If it had not been for that Tanlac I couldn't have gone to the Confederate Reunion at Memphis on the 8th of October and marched afoot for nearly three miles in the big parade," said Frank H. Kendrick, 4800 Charlotte avenue, Nashville. Mr. Kendrick is one of Nashville's oldest and best known citizens.

As a member of company I, Second Kentucky Calvary, Basil Duke's regiment, General John B. Gordon's command, Mr. Kendrick saw service throughout the civil war, and was wounded four different times.

"During the winter," said Mr. drick, "I suffered intensly with rheumatism and when sprigtime came I went all to peices. I had just about made up my mind that my end was not very far off. It looked like I was on the verge of a general physical decline and I had about despaired of ever walking again. I am seventy years of age, have fought a good fight and paoven my record, and was ready to go. But since I got hold of Tanlac I have set my head to round out ninety years, and from the way I feel now I believe I will do it. Before I began taking this medicine was rapidly losing what little strength and flesh I had, and was so weak and debilitaded it was all I could do to walk from the bed to the chair, and even that required great exertion. I had no appetite at all, couldn't sleep to do any good and was awfully nervous. My flesh seemed to dry and I suffered a great deal with headache.

"I doctored and doctored, but did not show any sign of improvement. I attributed my failure to get relief to my old age and declining physical powers. But I made a bad guess, because after taking Tanlac two weeks I felt better and younger than I had felt in years. I am now on my ninth bottle, and am actually thirteen pounds heavier than I was before I began taking Tanlac. My clothes were too large—now they are too small, and I guess I will have to buy clothes that will fit me more comfortable. To make a long story short—the medicine just seemed to fill me with new life and energy, and put me right on my feet. I have a fine appetite now.

"As I told you before, I can now walk anywhere, and have thrown my cane aside, because I dont need it any more, except for bad evesight. I spent four days in Memphis at the reunion, and just tramped around all over town with the boys. All around were men who gave out during the parade, but at the end I was right there, and didn't feel the bit tired. I just got back a few days ago, and was awfully glad to tell you what Tanlac has done for me. If I had the money I would buy every old soldier a bottle of Tanlac, aecause I believe it would add years to their lives."

Tanlac is sold in Clanton exclusively by Upchurch Drug Co.

NOTICE OF ADMINISTRATION

Estate of John W. Gullahorn Deceased. Probate Court.

Letters of administration of said deceased having been granted to the undersigned on the 18th day of January, 1916, by the Hon. E. B. Deason Judge of the Probate Court of Chilton County, notice is hereby given that all persons having claims against said estate, are hereby required to be present the same within the time allowed by law, or the same will be barred.

H. A. HARRIS
Sheriff, acting as Special Administrator.

Notice Bankrupt Sale— Real Estate

Pursuant to an order made by the U. S. District Court, Northern Division, Middle District of Alabama, in Bankruptcy, I, as Trustee of Jas. P. Morrow, Jr. Bankrupt, will offer to the highest bidder for cash, during legal hours of sale, subject to approval of said Court, on the 24th day of Feb. 1916, in front of the County Court House of Chilton County, in the city of Clanton, Ala., all right, title and interest the bankrupt had in the following described real estate,—subject to a mortgage of Dr. P. I. Hopkins: A house and lot in the Town of Clanton, Alabama, Chilton County, situated west of the line of the roadway of the South and North Alabama R. R., commencing at a point 75 ft. from the NE corner of N 1-2 of Block 5 in said Town of Clanton, as shown by the map thereof; and on the eastern limit of said Block 5; thence running 75 ft. along the said eastern boundrry of said block; thence in an eastern direction 285 ft. thence in a nothern direction 75 ft.; thence 260 ft. to beginning point on Third avenue.

GEORGE STUART, Trustee.
Montgomery, Ala., Jan. 13, 1916.

OUR PUBLIC FORUM

F. C. Howe

On The Advantages of Free Ports

Mr. F. C. Howe, Federal Commissioner of Immigration, who is one of the best American authorities on marine commerce, in discussing the relation of free ports to the development of sea trade said in part:

"Ships will go hundreds of miles out of their way to avoid ports surrounded by a tariff wall. The only way, therefore, for a country with a tariff to compete in the shipping world with a free-trade country is to establish free ports at strategical points along its coast line. Germany has done so, and in a comparatively short period has built up a carrying trade which before the war was seriously threatening England's supremacy. Hamburg, one of the three German free ports, now ranks as the second greatest seaport in the world, its total foreign commerce in 1913 being only $6,000,000 under that of New York.

"The free port would offer great opportunity for financial operations, now made possible by the recent currency act. It would stimulate international banking, and would tend to shift the financial center of the world to this country. And America, by the logic of events, has become the natural center for the world's financing, just as London became that center several centuries ago, when it shifted from the cities of the Netherlands. But the financial center will only move to this country when it becomes a clearing house of goods as well as of money. For credit the world over is created by currently created wealth in transit or change so that our financial expansion is dependent upon the opening up of American ports to the clearance of the wealth of the world. A port should not operate to yield a return on the investment, but to develop the prosperity of the country." In recapitulating the advantages, Mr. Howe brings out the importance of the free port in developing our shipping and linking us with South America, Asia and Africa, and then concludes:

"The most important gain is the direct gain to America. It will cheapen commodities by bringing great quantities of goods to our doors for importation or export, as trade needs demand. It will stimulate the growth of exporting houses, which can hold goods for an indefinite period without payment of tariff dues (often equal to the cost of the article itself) for disposal to meet the trade demands of the whole world. It will upbuild international credit and shift to America an increasing and ultimately a predominant share in international exchange.

"Finally, America is the natural country to be the counter of the world. Its seacoasts face every other continent; it is the greatest of all reservoirs of raw materials and foodstuffs. In iron and steel and standardized production it is in a position to compete with the world. But international trade (and this is always overlooked) must be reciprocal. It cannot be one-sided. And credit balances cannot for any prolonged period be paid in gold. They can only be paid by exchange of wealth."

OUR PUBLIC FORUM

Ralph Peters

On Railway Mail Pay

A controversy has been raging in the columns of the press between the railroads and the Federal Post Office Department over the question of proper compensation for handling the United States mails. Mr. Ralph Peters, Chairman of the Railway Mail Committee, when asked to state the railroad side of the controversy to the American farmer, said in part:

"The railway mail pay question will be settled—and settled permanently and with justice to all concerned—as soon as the American people realize that the whole subject, while seemingly complicated and technical, boils down to a few simple points of fair business dealing which no one need be a rate expert to understand.

"The first is that the Post Office Department weighs the mails, and re adjusts the pay of the railroads, only once in four years. This compels the railroads to carry the increase in the mail tonnage during the intervening years without pay—manifestly an injustice in the case of a rapidly growing business. One consequence has been that last year the railroads carried fully half the parcel post for nothing.

"A second point is this: In addition to carrying the mails, the railroads are required to operate many traveling post offices for sorting and distributing the mails while in transit. But the Post Office Department pays for such post offices only where they occupy whole cars, and pays nothing in the many cases in which it merely requires the use of post office apartments in combination cars, although such apartments differ from the full railway post office cars only in size. More than 4,200 apartments of this character have been fitted up, and are maintained for the exclusive use of the Post Office Department. Failure to pay for them has been an especial hardship to the smaller roads on which the Department does not find it necessary to utilize whole cars.

"One last point: In thousands of instances (though not in all) the Post Office Department requires the railroads to carry the mails back and forth between railroad stations and post offices, but pays them nothing for this extra service beyond the rates covering the rail transportation. The railroads have no choice but to perform this additional service gratis, or refuse to carry the mails at all.

"Now for the remedies the railroads ask: They do not ask to have the mails weighed daily, or to have each shipment weighed and paid for separately, as is done in the case of private shippers. They merely ask to have the mails weighed, and the pay of the railroads adjusted, at least once a year, instead of once in four years. They also ask that apartment post office cars be paid for, at reasonable rates, according to size. Lastly, they ask that the Post Office Department cease to require of them free messenger service between stations and post offices, and either relieve them of this service or pay fairly for it. These are the reforms the railroads ask of Congress. They gladly lay these reforms before the public, confident that they will appeal to the common sense and fairness of American voters."

OUR PUBLIC FORUM

W. D. Lewis

On Co-operative Marketing Plan

W. D. Lewis, president of the Texas Farmers' union in a recent address to the farmers, said in part:

"The Farmers' union is the pioneer force in the campaign for cheap money, warehouse facilities and a financial system adapted to the business of farming. The union has always stood for the best interests of the farmer and, realizing that the task was so monumental as to require the combined efforts of all forces, the Farmers' union blew the horn and called all hands together to build more warehouses and supply cheap money and, as a result, the farmers and business men and the statesmen are now shaking hands over a bale of cotton.

"The Farmers' union stands before the public today proud as a king; glorying in its achievements and boasting of its possibilities of rendering service to the men who follow the plow. The union sounds the bugle call of organization summoning every yeoman to rally around its colors. In business it stands for education and co-operation; in the home it stands for Sally and the babies; in government it stands for constructive statesmanship At the moment it directs the attention of the farmers of the South to warehousing and financing the present cotton crop. Fellow farmers, arise and salute King Cotton, a sovereign in whose reign the prosperity of this state is involved and a ruler whose scepter turns the fleecy fiber into gold. A king at whose loom nature weaves, and an imperial potentate at whose shrine millions kneel and sing his praise. Strike for your home, your family and your country by joining the union and becoming a part of the great economic force that is uplifting this state and nation. The Farmers' union is the plowman's hope. Without organization he can neither help himself nor be helped by others, and through organization he is all-powerful.

"We have just passed through the greatest slaughter in crop prices ever known in the history of the cotton industry. The loss to the southern planter last year was greater than that of the freeing of the slaves during the Civil war, and the European conflict is by no means over. The phantom of low prices that hovers around every cotton field in Texas ought to encourage the farmers to deeds of commercial valor. Look upon the face of your babe in the cradle; look upon the woman who stands by your side, then look your own destiny squarely in the face. Lay aside the petty differences that so easily beset you, awaken from the lethargy of indifference that steeps your senses in poverty and arouse thoughts from their dumb cradles and be up and doing with a determination that wins, and rally around the union, for there is no other road to success except through organization."

MAPLE SPRINGS

There will be a singing at this place next Sunday, Jan. 23rd, at 2:00 p.m. We expect to use the 1916 book Praise and Thanksgiving together with the Gospel Golry.

Everybody come.

FOLEY'S HONEY AND TAR
for children; safe, sure. No opiates

Identified.

The men who give the excuse that they don't care anything about an automobile, but are buying to please their wives, are perhaps the same ones who borrow a boy to take to the circus.—South Bend News-Tribune.

Fortunate Countries.

The lands most free from earthquake convulsions are Africa, Australia, Russia, Siberia, Scandinavia and Canada.

Prince Albert fits your taste!

Meets the fondest wishes of any man who likes to smoke because it has the *right flavor* and aroma and coolness. It's the most cheerful tobacco you ever did pack in a jimmy pipe or roll into a cigarette. And it's so good you just feel you never can get enough. The patented process fixes that—*and cuts out bite and parch!*

Copyright 1916 by R. J. Reynolds Tobacco Co.

Listen: It's easy to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, *but it is impossible* to imitate the flavor of Prince Albert tobacco! The patented process protects that!

When you fire up your first smoke you'll decide that you never did taste tobacco that hits your fancy like

PRINCE ALBERT

the national joy smoke

For it exceeds in goodness and satisfaction the kindest word we ever printed about it!

Men, we tell you this tobacco will be a revelation to you. So, take this information at 100%, get out the old jimmy pipe from its hiding place or locate the makin's papers —*and fall-to!*

Your wishes will be gratified at the nearest store that sells tobacco, for Prince Albert is in universal demand. It can be bought all over the states and all over the world! Toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—that fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such excellent trim.

Cut Your Store Bill Down One Half

Tens of thousands of farmers as well as town and city folks cut down their store bills one-half last year and saved money in spite of generally short crops and reduced wages.

Absolutely millions of dollars were saved and countless families lived better than ever before in the face of the cotton crisis and general business depression.

How were these burdensome store bills cut down? By the real money-saving power of good home gardens, rightly planted and kept planted and tended through the season.

Hastings 1916 Seed Catalogue tells how to cut store bills down; tells about garden and farm seeds of kinds and a quality that cannot be bought from your merchant or druggist. It's full of garden and farm information. It's free if you ask for it. Write for it now. H. G. HASTINGS CO., Atlanta, Ga.—(Advt.)

Primitive Matches.

The first matches of which we have any account were thin splinters of wood about four inches long tipped with sulphur. They were ignited when live coals or other fire were not available by means of a tinder box and its copartner, flint or steel. Fire was first communicated to the tinder by sparks of burning metal struck from the steel by the flint.

Daily Thought.

The cure of heartache is to be found in occupations which take us away from our petty self-regardings, our self-pityings, our morbid broodings, and which connect our life with other lives and with other affairs, or merge our individual interest in the larger whole.—C. C. Ames.

MORTGAGE SALE.

The State of Alabama County of Chilton

Default having been made in the payment of that certain mortgage executed by H. S. Hicks on the 4th day of Nov. 1913 to the undersigned, and under and by virtue of the powers of sale contained in said mortgage, the undersigned will proceed to sell to the highest, last and best bidder for cash in front of the Post Office Door in the Town of Maplesville, Alabama, on the 12th day of Feb. 1916, between the legal hours of sale, at public outcry, the following described real estate to-wit:

E 1-2 of SE 1-4 Sec. 22, Tp. 21 R. 11.
S 1-2 of NE 1-4 Sec. 26. Tp. 21 R. 11.
NW 1-4 of SE 1-4 of Sec. 26, Tp. 21 R. 11.

Said sale will be held for the purpose of satisfying the debt secured by said mortgage, including a reasonable attorney's fee.

This the 17th day of Jan. 1916.

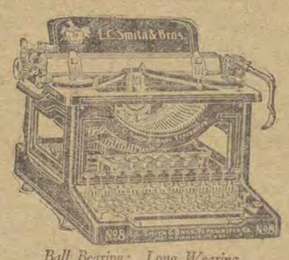
GET RID OF SCROFULA HOW? TAKE S. S. S.

Fifty Years' Use Proves S. S. S. Will Relieve Stubborn Cases.

You have noticed the little festering pimples on the face and body—swelling of the glands—soreness in the legs and arm muscles. These are the symptoms of Scrofula. You may have some of these symptoms, possibly the taint of Scrofula infection. But in either case, it is a dangerous condition. Your blood is infected, impure, and you can never hope to gain perfect health until the impurities are washed from the system. If you feel badly all the time, you must crave health. If you want to feel renewed spirits, the glow of perfect health, bright eyes, clear skin, the knowledge that you are well, you can do so. Cleanse your blood by taking S. S. S. For fifty years it has been the standard blood purifier. It relieves the trouble by nourishing the blood, renewing its strength, and stimulating the flow so that the blood regains its lost vitality, and throws off the poison. Even long-standing cases respond. But you must use S. S. S. Take it for all blood infections. Get it at your druggist's today.



If you need special advice write the Swift Specific Co., Atlanta, Ga.

Kangaroo's Voracious Appetite.

The kangaroo which is noted for its enormous appetite, is said to be able to eat as much grass as six sheep.

The "SILENT SMITH"

—Model 8 shows what should **now** be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the *user* have dictated its construction. The *user* has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each typeface.

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained —ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

Colds

should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

THEDFORD'S

BLACK-DRAUGHT

the old reliable, vegetable liver powder.

Mr. Chas. A. Ragland, of Madison Heights, Va., says: "I have been using Thedford's Black-Draught for stomach troubles, indigestion, and colds, and find it to be the very best medicine I ever used. It makes an old man feel like a young one."

Insist on Thedford's, the original and genuine. E-67

Much Depends on the Way It's Said.

"I don't claim to be a judge of women," said Noyes E. Brewmore, "but when I call one up I can tell by the short, sharp 'hel-lo!' that I am not the most welcome person in the world. But when she drawls out in a soft, purring voice that word 'h-e-l-l-o-a-a-a,' I feel quite assured that I may remort at her domicile long enough to leave a dollar-a-pound box of chocolates."—Kansas City Star.

A Fine Aid For Mother-to-be

We are all greatly indebted to those who tell their experiences. And among

the many things which we read about and are of immediate importance to the expectant mother, is a splendid external remedy called "Mother's Friend." This is applied over the muscles of the stomach. It is deeply penetrating in its influence. Mothers everywhere tell of its soothing effect, how it allays pains incident to stretching of cords, ligaments and muscles. They tell of restful comfort, of calm, peaceful nights, an absence of those distresses peculiar to the period of expectancy, relief from morning sickness, no more of that apprehension with which so many young women's minds become burdened. It is a splendid help. Get a bottle of "Mother's Friend" from your nearest druggist. Ask your husband to get it for you. Then write to Bradfield Regulator Co., 708 Lamar Bldg., Atlanta, Ga., for a very handsome and instructive book. It is filled with suggestive ideas of great help to all women interested in the subject of maternity. And best of all are some letters from mothers that are real inspirations. Write today.

We can go back half a century for letters from women who used "Mother's Friend." And it was this sort of recommendation that extended its use until today it is sold in almost every drug store in the United States. It is considered a standard remedy and one of the most efficient helps known. Directions for using are very easily complied with and it may be used at any time whenever needed.

The Power of Toxins.

One thousandth of a gram of tetanus (lockjaw) toxin is enough to kill a horse weighing 1,300 pounds or six hundred million times its weight. More remarkable still, one-thousandth of a milligram of tubercular toxin will produce action on a man weighing 132 pounds—sixty trillion times its weight.

Wise Habit of Silence.

Give not thy tongue too great a liberty, lest it take thee prisoner. A word unspoken is, like the sword in the scabbard, thine; if vented, thy sword is in another's hand. If thou desire to be held wise, be so wise as to hold thy tongue.—Francis Quarles.

KING IMPROVED COTTON SEED.

The Kind That Produces in Spite of Boll Weevil.

I have the agency for these cotton seed, direct from the man who originated them. They are guaranteed to be pure and unmixed with any other variety.

If you are interested, and want these seed to plant this year, come to see me at once as I am going to close my order in a week or two.

ITEMS OF NEWS FROM MANY LANDS

What Mission Workers of Every Denomination are Doing the Wide World Over.

"Eternal Life Association."

An interesting phase of Christian propoganda in Japan is a reading club called the Eisei Kwai, or "The Eternal Life Association," which has been inaugurated by Dr. Albertus Pieters. Any one can join upon payment of a monthly fee of five sen (a little over two cents). Every member has a right to draw books from the library, the postage outward being paid by the mission, return-postage by the borrower. Something less than a hundred dollars has been invested in a library of excellent books on Christian themes. The catalog registers 270 titles. There are at present 62 members in the reading club and the books are moving briskly, as rapidly as new applicants for literature come in from the newspaper propoganda they are directed to this club.

The showing of the American Bible Society for its ninety-ninth year, within one year of its centennial, is remarkable for a war year or for any year, for that matter. The issues of the society went beyond anything in its history and reached a total of 6,388,717. This surpassed the year previous, when there was no war, by 1,

(Teachers and Bible Women at Hankow, China.)

137,541 volumes, and that surpassed the one before by 1,201,566 volumes. The home field distribution surpassed the previous year by 89,028 volumes and for the foreign alone by 1,048,513 volumes.

The British War Office has found the work of the Young Men's Christian Association among the soldiers so satisfactory that it has donated $75,000 to the association to carry on the work. This is said to be the first gift of its kind from a government. Over a million dollars has been contributed in private gifts for this cause. When two hundred portable buildings, costing $1,500 each, were asked for, the response was pledged for two hundred and fifty.

The Northern Baptist Convention has adopted the following five-year program: A million baptisms, five thousand missionaries, two million dollars for a ministers' and missionaries' benefit fund, six million dollars for endowment and equipment of educational institutions at home and abroad, six million dollars a year for missions and beneficence.

Last year one society circulated 340,000 copies of the Scriptures in Japan. Of these, 220,000 were sold by colporteurs.

Items of Interest.

The Rev. Joseph B. Matthews, of Wilmore, Ky., a new missionary teacher for Malaysia, has just sailed for his foreign field. He is a graduate of Asbury college (class of 1915) where he became a Student Volunteer.

Writing from Cape Town, Mr. W. Watts reports that 300 Dutch Testaments have been distributed to rebel prisoners at Tokai. The men were called up into line and after a hymn and prayer the books were given out. Each prisoner willingly gave a promise to read a portion every day. Arrangements have been made, through the Red Cross society, to distribute Testaments among the sick and wounded on board the hospital ship Ebani.

He Did Not.

Jeff de Angelis met a New York newspaper man. "Do you remember," asked the newspaper man, "one time, while you were playing in Kansas City, you offered $10 for the best original verse for your 'Women' song?" "I do," replied the comedian. "I won that ten." According to the laws of fiction, Mr. de Angelis should have said: "I've been looking for you for years. Here's $1,000 as a retainer. I want you to write me a comic opera." But he didn't. What he did say was: "Well, that's so long ago I guess we can be good friends, nevertheless."

Public Opinion in Russia.

Persigny once said to Napoleon III: "You can do almost anything with bayonets except sit on them." So you can do almost anything with public opinion in Russia except wholly suppress it by sitting on it.—George Kennan in the Outlook.

Olive Trees Live Long.

Olives are declared to be the longest-lived fruit trees, some in Syria having borne abundant crops for more than four hundred years.

CHINESE CHRISTIANS GIVE LIBERALLY

Two Brothers Give Their Home—Old Man Donates Coffin in Which He Was to be Buried.

A beautiful story of Christian generosity comes from China. The story is as follows:

At the village of Tai-ho on the seacoast of Hinghwa, Fukien, in a barren region, frequently devastated by clan flights, there has been a small congregation worshipping for nearly twenty years in the house of a military second degree man, who became an earnest Christian after he was freed from the slavery of opium. He died several years ago and left his property to two sons, the elder of whom became a Christian through the influence of his father's peaceful and triumphant death. The younger wasted his portion in riotous living, and about two years ago, after spending all, he came back home, reformed, and became an earnest Christian.

For some time past the congregation had overflowed the little house, half the people gathering around the door on the threshing-floor. The need of a new church building had been much talked of, but no move was made, except the appointment of a committee.

An old member, very lame, and poor, had had his little house, in which he lived, destroyed by a typhoon last summer. He arose in the congrega-

Temple of Heaven, Peking.

tion one Sunday morning and told the people that the wreck was all he owned in the world, and he would give it for a new church.

Then another veteran, who is blind, told the astonished congregation that he had put all his little savings into a good coffin, in which he had hoped to be decently buried. This he turned over to the building committee. It was valued at over twenty dollars (silver).

The younger brother, who had nothing left but half of the house where they were worshipping, offered his share of the house and threshing-floor. The elder brother immediately gave the remaining half. The house can be sold for three hundred dollars cash. The congregation in a short time added over four hundred dollars to the above three hundred and twenty-five or more.

This occurred with out the knowledge of any foreign missionary. Indeed no foreigner, living in a comfortable house, with an abundance to supply all his needs, could even suggest such sacrifices. Such giving is prompted only by Him who hung upon the Cross. Doubtless there are scores of such groups of Chinese Christians all over the country, and some day they will astonish and shame Christendom with their liberality.

Items of Interest.

In the islands of the West Indies are nearly 5,000,000 unreached by the gospel.

Six thousand children of the Navjo Indian tribe are without church or school.

The Rockefeller foundation has puhchased the Union Medical College at Pekin, China, from the London Missionary society for $200,000, and will make it the nucleus of a plan to spread over China a chain of American hospitals to be managed by American surgeons.

The Methodist Episcopal church has 35,000 members in the Philippines. Its constituency numbers about 60,000. The church maintains there a deaconess training school for nurses.

Valuable Discovery.

Another German scientist has done the world a good turn. He has discovered that this good old world which all love so well that not many are anxious to leave it, will exist for many hundreds of years and then only in extension. We feel better.—Augusee Sentinel.

One's Own Fault.

People influence us who have no business to do it, simply because we have neglected to train ourselves to attend to our own affairs.—A. E. Winship.

Domesday Book.

According to Stone's Chronicle the title of Domesday Book arose from the circumstance that the original document was kept in a place in Westminister cloisters called Domus Dei, or House of God.

Lost Opportunity.

When our physician asked little Alice if she would come and live with him she said, "Doctor, you had me once; why didn't you keep me?"—Exchange.

FRESH NEWS FROM AFRICA

Southern Baptist Missionary Tells of Conditions and Effects of War in Dark Continent.

An interesting description of the way Africa has been effected by the war is given by E. T. McLean, of the Southern Baptist Convention. He says:

We are, or were, sandwiched in between German colonies. Togoland, with a narrow strip of French territory between, is just to the west of us, while Cameroons adjoins Nigeria on the east. The former has been taken by the British, and fighting is still going on in the latter place.

Trade and transportation were paralyzed for a time and have only partially recovered, but this affected the missionaries more than the work. No money has come to the mission from the Board since the war began, and some of the brethren are feeling the pinch very much. The native workers are also affected, as they could not be paid this month. When the war broke out, the government seized all food supplies, and for a time it was difficult to get the necessaries of life; but the situation is easier now.

We in Saki are farther removed from the influence of the terrible struggle, and the work goes quietly on. A few years ago the people were indifferent to the missionary and his

(Kwangju dispensary Bible woman, who is a devout Christian and a fine Bible student.)

message. The chiefs seemed suspicious of the white man's motives and innovations. Now all this is changing. All the chiefs of the town are friendly, and some are bringing children to the missionaries to train. One (the old war chief) has been baptized, which meant giving up his wives, and several other chiefs are showing an interest in our work.

People at home cannot understand the importance of this in a country where the people are so completely ruled by and through their chiefs. The people would not dare to have anything to do with what the chiefs disapproved.

Church congregations are growing larger, indifferences is giving place to a desire to learn and professions of faith in Christ. During the past twelve months fifty-one have been baptized, and a number are now awaiting baptism.

A few months ago we started an open-air Sunday school in a quarter of the town that had not been touched by Christianity. There are now four classes with an attendance of about seventy. This would not have been possible a few years ago, and it shows how opportunities are opening up.

Methodism Leading in Japan.

Rev. W. A. Davis, of Kyoto, Japan, reports that the Methodist church and mission during 1914 had the largest number of baptisms of any church in Japan. The net increase in the mission and in that portion of the Japanese church which is in the territory of the mission and therefore in a way under its care was 212. The number of baptisms, adult and infant, was 375; number of organized classes, 49; preaching places, 72; total membership, 2,678; Sunday schools, 95; officers and teachers, 385; pupils, 5,851.

The Bible in Russia.

The circulation of the Scriptures in Russia during the first three months of 1915 amounted to 200,000 copies; of these 50,000 were sold by colportage, although the number of colporteurs in Russia has fallen from 70 to 55 in consequence of the war. In the same period 34,500 books were given away among soldiers and prisoners, besides 13,000 other books sold at war discount for free distribution.

OUR PUBLIC FORUM

Otto Kahn

On Financial Farm Loans

Every citizen who desires to become capable in business should study banking, and every farmer who wants to see the business of agriculture properly financed should study diligently the financial systems of other industries. All other lines of industry have developed financial facilities adapted to their needs. We have all sorts of financial syndicates authorized by law or custom to deal in a certain line of securities, but in none of these financial channels will farm securities travel without a bonus in the way of an excessive rate of interest or heavy discounts.

The most powerful financial institutions in America are private banks and they are the most important to the financial life of industry. In no line of business does honesty, efficiency and stability make more imperative demands than upon private bankers, whose greatest asset is the confidence of the buying public in his business judgment and integrity. Mr. Otto Kahn of Kuhn, Loeb & Company, when asked to state the relation of the private banker to the business of the nation, said in part:

"One of the most important functions of the private banker is to be the instrument for providing the money needed for the efficient conduct and development of railroads and other industries. He does this by buying securities in bulk from those needing capital, for which purpose he usually associates himself with a large number of other financial houses, great and small, thus forming what is called a syndicate. Having in this way concluded the buying transaction he offers to the public the securities purchased by means of advertising, circularizing and through the facilities of the retail houses included in the syndicate, many of whom employ traveling salesmen. Of course the banker and the syndicate count on a reasonable profit for their services; on the other hand they run the risk of the securities, which they have definitely bought and paid for at a fixed price, remaining on their hands wholly, or in part, if the public, for one reason or another, should be unwilling to buy them. The selling of securities is a highly specialized trade, requiring much experience, organization, machinery and scrutiny. This is one of the reasons why corporations do better in offering securities to the public through bankers than if they offered them direct. The willingness of the public to buy depends upon their confidence in the integrity and the judgment of the banker who makes the offer, and a banker who attempts to mislead the public, or who is deficient in care or judgment, would very soon find himself without customers and, therefore, out of business. In many European countries, the functions of the private banker include the placing of bonds secured by farm mortgages. Bonds of this nature are issued in large quantities by mortgage banks who buy mortgages on farms and other real estate and deposit them as security for their own bonds, which in their turn are sold to bankers. It is to be hoped that similar institutions will, in course of time, be created in America, thus placing the farming industry on a par with other important industries in facilities to obtain capital."

Knocking the Magazines.

The esteemed correspondent of the World who complains of the everlasting and intolerable sameness of the sign painting on magazine covers, neglects to say what he thinks of the same old stuff that has been running inside for years and years.—New York World.

The Leading Nation.

In every age of the world there has been a leading nation, one of a more generous sentiment, whose citizens were willing to stand for the interests of general justice and humanity at the risk of being called by the men of the moment chimerical and fantastic. Which should be that nation but these states?—Emerson.

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no excuse for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its effects from these druggists, you also get at eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 26 to 32 teaspoonsful, because 50c worth makes a whole pint (128 teaspoonsful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Guaranteed here by Alred Drug Co., Clanton, Ala.

A CHARTER FOR CHILDHOOD.

Ohio Codifies Child Welfare Laws, but No Other State Does.

If any one asks what the laws affecting children are in New York state no person in any position can without considerable research answer the question, according to a statement made by Homer Folks at the Eleventh Annual Conference on Child Labor. The only state in the Union where it could be readily answered is Ohio, since Ohio is the only state that has codified its child welfare laws.

A committee appointed last May at the National Conference of Charities and Corrections, with C. C. Carstens of Boston at its head and Edward N. Clopper of the National Child Labor Committee as one of its most active members, is now at work drafting a children's charter that would show how all laws relating to children should be co-ordinated and that could be adopted as a whole or in part according to the needs of the individual state.

The benefits of the children's charter will not be confined to a clearing up of the principles on which the various organizations and committees which are interested in the needs and rights of childhood should base their work. In fact, the friends of the charter are inclined to believe that its greatest value may lie in the simple fact that it will encourage co-operation. The drafting of the charter, which will be in itself a co-operative effort, will teach workers in the various fields to think of their work as a part of a larger whole. The relation, for instance, between the school attendance officer, the factory inspector, the juvenile court worker and the administrator of mothers' pensions will become a practical help to each of them. For the child such co-operation all along the line should mean that the care that is now available for the child who happens to come under the eye of the official or social worker who is fitted to meet his case will be extended to a larger proportion of those who need it.

BOYS ON THE NIGHT SHIFT.

Pennsylvania Now Prohibits It, but Maryland and West Virginia Do Not.

After Jan. 1, 1916, no more young boys will be working on the night shift in the glass factories of the largest glass manufacturing state in the country—Pennsylvania.

This means that West Virginia and Maryland are now the only glass manufacturing states of any importance which permit children under sixteen to work at night. An attempt was made in West Virginia last winter to prohibit night work to children under sixteen, but the bill did not pass. The National Child Labor Committee, which took an active part in the campaign for the West Virginia law, believes that the outcome will be quite

Photo by National Child Labor Committee.

5 P. M., READY TO GO ON THE NIGHT SHIFT.

different the next time, because the glass manufacturers there will no longer fear the competition of Pennsylvania.

"We may not even have to wait until the legislatures meet in 1917 to bring these states into line," said Owen R. Lovejoy, general secretary of the National Child Labor Committee. "If the federal child labor bill which will be introduced into congress early in the next session becomes a law it will automatically establish a sixteen year limit for night work in the glass factories of Maryland and West Virginia. The children now exposed to the serious physical harm likely to come from going out into the air from the overheated glass factory and the cramped positions in which they work, combined with the degrading and coarsening influences which prevail on the night force in the factory, will be protected by Uncle Sam.

"If you could see the boys, as I have seen them, working in a temperature which frequently rises to more than 100 degrees, their shoes cut with the broken glass which covers the floor, holding the mold for the red hot glass or walking endlessly back and forth carrying bottles to the annealing oven, you would realize that the only thing that mattered was to get them out the quickest and surest way—by means of a federal law."

Wanted to Be Hospitable.

When I went to Paris, said Gen Horace Porter, I told my friends that any of them who got within a mile of the embassy must come to see me. The latchstring, I told them, was out; there was always a spare seat in my pew at church. The latchstring was often pulled; the seat in church remained vacant. One of my friends who visited me stopped his subscription to the Christian Observer. He said he didn't want any observers while he was in Paris.

CLANTON ITEMS

A. P. Oslin of Jemison was a visitor to Clanton Wednesday.

Dr. V. J. Gragg and W. M. Wyatt motored to Birmingham Tuesday.

I pay 10c per lb. in trade for hens and 12c for fryers under 2 lbs. Wiley Littlejohn. adv

Mrs. Milton Smith of Birmingham spent Sunday with her mother, Mrs. S. E. Bruce.

Miss Anstis Bruce spent last week in Montgomery.

WANTED—Place on farm to work for wages. Augustus Wilson, Clanton, Ala.

Charles Cooper of Midway was in town Wednesday.

Every real woman is keenly interested in her kitchen. The sanitary equipment of the kitchen is a matter of much importance to the home. The room where all the food is prepared should be kept clean and sanitary. Porcelian or enamel one-piece finks are so easily kept clean and sanitary that they make the kitchen work more pleasant and promote cleanliness. See Ed Driver about having a sink installed in your kitchen.

In future the sheriff's office will occupy both the room which it has heretofore been in, and the room which Mr. VanDeryeer has previously occupied also. The change is a very desirable one, as it gives to the Sheriff's quarters an addition of some much-needed room.

STRAYED—Red or yellow steer, and red heiler, marked swallow fork and under bit in right ear and swallow fork in left, both branded with "O" on right hip. If found please notify W. P. Lowery, Jemison, Ala. R. 2. adv. 1-20

Lem Sims, the young barber, has gone to Norfolk, Va., to enlist in the United States Navy.

Dr. P. I. Hopkins, who for the past month has been taking a spesial course in Eye, Ear, Nose and Throat, will return and be in his office February 5th.

Genuine frost proof cabbage plants now ready for sale at following prices: One hundred plants for 20 cents, lots of five hundred 75 cents, one thousand $1.00 Cash with order.

J. W. Carwile,
12-2-2m adv. Clanton, Ala.

The office of Mr. J. P. Vanderveer and the tax equalization board in the court house has been transferred to the room formerly occupied by the county treasurer's office, which is the first room on the right of the hall down stairs.

FOR SALE—Babcock buggy, and harness in good condition. Will sell cheap. Apply at the Union-Banner office.

Mr. G. W. Edwards of Route 6 came in to see us Wednesday.

NOTICE

We desire to announce that in future our mill will run for grinding purposes on Wednesday of each week. No operation on any other days.

W. G. Culp,
adv. 1-20-1t R. W. Ward.

J. W. Collum of Jemison was in town Wednesday.

Remember that dollar you owe us on subscription. We have some improvements on foot that are costing us money and we need all there is owing to us. Don't forget us when you come to town.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horricle calomel your money is waiting for you.

Big Clean-Up Sale

With the beginning of the new year we desire to clean up our stock of goods and make room for some new lines which are coming in a little later on.

So this end we are placing on sale our entire stock of merchandise at interesting prices for a time.

We have lots of things you need, and if you will just walk right in and see us about them you can save yourself some money in buying from us right now.

MUST QUIT EATING CROP BEFORE MADE

South Must Stop Time-Honored System Of Economic Suicide, Says H. G. Hastings

Atlanta, Ga.—(Special.)—"The people of the south must quit eating their cotton or other so-called 'cash crop' before it is made if they ever expect to accumulate wealth and have the comforts and luxuries of life due them," says H. G. Hastings, agricultural vice president of the Atlanta Chamber of Commerce, and a foremost authority on farm conditions in the southeast.

"The south must stop forever its time-honored system of economic suicide," says Mr. Hastings. "Advance steps were made last year toward a condition of farm independence in the Cotton Belt. They were forced steps, it is true, but they marked an advance just the same, and more bread and meat, more grain, forage and other food and feed stuffs were made in 1915 than ever before, with the result there are tens of thousands of farmers better off than in past years, despite short crops and business depression.

"With higher cotton prices, it is going to be a great temptation to drop back into the old habit of putting cotton, or whatever other cash crop one may be growing, in pawn for bread and meat. We are suffering today from the old system forced on us by conditions following the Civil war, necessary then, but unnecessary now.

"Year after year we have stayed in the same old rut as a matter of habit, eating our crops, so to speak, before they were made, a financially suicidal policy for the farmer, each year putting his nose a little closer to the credit grindstone.

"If the south had not been so rich in natural resources, this system would have bankrupted us long ago. What's the answer? It is home production by each farmer of every dollar's worth of food and grain supplies needed on his farm that it is possible to grow on his own acres. This means good big home gardens; hogs, chickens, cows and something to feed them on through the year."

What Makes White Spots on Nails.

It is now thought that the white spots which frequently appear on finger nails are due to the presence of gas in the substance of the nail. They occur much more frequently during youth and in women, and are usually found in persons of nervous type There is no remedy for them and no means of prevention except the avoidance of injury to the nails.

Oval Water Pipes Best.

Oval water pipes are less liable to burst when they freeze than round ones. The reason is that repeated freezings and thawings cause a round lead water pipe to stretch at the weakest points and form bulges, which finally split; but a pipe that starts life as oval may be frozen a number of times without cracking, because each time it gets a little rounder and not until the strain can no longer be relieved in that way does it form bulges and burst.

We have just installed a Daly Dry Press, and are now ready to fix up your clothes, and make them look like new. Let us have your suit, and fix it up. We guarantee satisfaction. Ladies suits a specialty.

Send us your clothes by Parcel Post, and we will fix them up and return them promptly.

Come in and let us take your measure for a suit. We are agents for the Diamond Tailoring Company of Chicago.

17. How to fit a hog for a show—Carl Wallace, Felix, Ala.
18. Fitting steers for show—Mr. E. Gibbens, Allenville, Ala.
19. Report from the county live stock association.
20. Election of officers.

The meeting will be called to order promptly at ten o'clock, a. m., and every member of the association and every man in Alabama that is interested in live stock should be present.

IN MEMORIAM.

Inasmuch as the inscrutable Providence of God has taken from our midst one of our beloved pupils in the decease of our friend and brother, Stanley Wright, be it resolved by the student body of the Unity-Chilton Baptist High School, and the Sunday school of Thorsby Baptist church:

1. That we have lost a faithful friend and student loved by all.
2. That we deeply sympathize with the bereaved family and commend them to the Father's guiding hand as they walk in this dark hour.
3. That we believe our loss is his eternal gain.
4. That a copy of these resolutions besent the family of the deceased, to both the county papers, and to The Alabama Baptist.

Sincerely submitted,
FELIX EILAND,
J. A. POOL,
VONIE MORTON,
J. L. HARRIS,
LEON STANLEY.

Clanton, Ala.

FREE SPRINGS.

Health in this part of Chilton is omproving some; about everybody is getting over the grip; not much farming done yet.

J. B. Colum of Mt. Pleasant visited at J. C.Prim's Sunday night.

Miss Bessie Glass visited Miss Ethel Prim Saturday night and Sunday.

Messrs. H. H. Mullins, Zeb Colins, Abe Pullins, and W. H. Compton,all spent Sunday afternoon at J. C. Prim's.

Miss Laura Glass visited Miss Ethel Prim Sunday afternoon.

Mr. Clyde Scott and wife visited at T. J. Headley's Sunday night.

Mrs. Howard Roper dined at Mrs. W. H. Rayborn's Sunday.

Mr. W. H. Compton of Siluria visited at Mr. H. Z. Barnes's Saturday night.

I wish to tell our farm women how I save money by making my soap, instead of buying it. I get six cans of lye for25cents; I have a kettle to hold 25 gallons, and put my soap grease inthe kettle and heat it. Then empty five cans of t lhe lye into the hot grease. Begin to pour in the water a little at a time, until the soap is the thicknes I want it. I make 23 galons from less than 25 cents worth of lye, and it lathers as well as soap made from dripped lye. So you see that the 25 cents will thereby save a lot of nickels, and you know a nickel saved is a nickel made. I am sure there are many like myself, who need to save all we can.

GRANDMA.

CLANTON POST OFFICE.

List of letters remaining uncalled for in this office for the week ending Jan. 22, 1916.

B. M. ROBERTS, P. M.

CLAIM PAID

Mr. John Mims of Falakto, was insured only three days in the North American Accident Insurance Company, when he fell off the top of his house and broke his leg. The claim was paid promptly. John Mims was thoughtful to carry that protection; even should every man do the same thing. See J. C. Brown and Insure before it is too late. Your time has money value, and should be protected. The only cost is $10.00 a year.

This policy pays you $25 a week in case of sickness, or in case of accident, and $5,000 in case of death.

Daniel Thompson was a welcome visitor in ourcommunity last Sunday.

J. A. Podie and Elzie Roberts are visiting relatives in Coosa county.

William Robinson and family spent Saturday night at David Robinson's.

J. H. Duncan and wife of Clanton spent Sunday at J. A. Duncan's.

Mrs. Richard Gideon of North Birmingham spent Sunday with her parents, Mr. and Mrs. J. O. Wesson.

W. C. Cotton's mother, after an extended visit with him, has returned to her home.

When a Democrat is making any remarks about any person's education, he should remember that the state has been under the Democratic rule for the past forty-odd years; and that they are responsible for the condition that now exists.

Pay your poll tax by February 1, if you want to vote in any election this year.

CHURCH TO CHURCH CAMPAIGN IS WAGED.

The church to church campaign of the Baptist Unity association which is being made in Chilton and Autauga counties, and which is to continue until its close in Clanton on the 15th, is a work the results of which are already known to be of a lasting betterment for the people in the vicinity where the campaigners have ben heared.

STATE DEPARTMENT OF EDUCATION

The Selection of Competent County Boards of Education.

To the People of Alabama:

The matter of most vital educational concern in Alabama at this time is the selection of competent county boards of education. We have the finest possible law on ourstatute books, but no legislation will enforce itself—in fact, can be but little if any better than those charged with its enforcement. Every large business corporation has a competent body of men generally known as the board of directors, to have charge of the organization, to select officers, to fix responsibilities, and to control the finances. The public school business is the most important in the county because it concerns every home in the county. The stockholders are the people, and the training for efficient citizenship is the great business of the schools. Under the county board law the stockholders will elect a board of directors, directors—that is a county board of education—who should be the most responsible and the most capable men in thecounty. It is the duty of this board to have charge of the school affairs of the county; to to select an executive officer, the county superintendent and his assistants; to disburse all school revenue; to consolidate schools; to erect, repair and equip school buildings, and in fact to have complete control of the schools in the county, including those in incorporated towns of less than 2,000 inhabitants, in accordance with the law The tremendous authority with which the board has been clothed and the fact that they will be voted for in the May primary make it of the greatest public concern that only those be selected who are worthy and well qualified.

In my travels throughout the state and in general correspondence some the officea numberof questions have questions have been asked. I have tried to arrange these questions and their answers in logical order for the information and convenience of the public.

Let me urge you therefore to read every word in this little pamphlet and give full publicity to its contents in order that the children of the state may have the best educational opportunlty possible.

Sincerely yours,
WM. F. FEAGIN,
Superintendent of Education.

Question.—What are the two biggest educational questions before the people of Alabama for 1916?

Answer.—The adoption of the local tax amendment, and the selection of the county boards of education.

Q.—Which should be especially stressed at this time?

A.—The selection of competent county boards of education.

Q.—Why?

A.—These members are to be voted for in the coming May primary.

Q.—Why do you lay so much emphasis on COMPETENT county boards of education?

A.—Because of the enlarged powers and responsibilities which will devolve upon these boards under the new law.

Q.—What are some of these enlarged powers to which you refer?

A.—Practically the entire business management and control of the public schools of the county, including those in incorporated towns of less than 2000 inhabitants; the apportionment of funds to all the schols of the county, including all cities ad towns; the election of thecounty superintendent of education; the erection, repair and equipment of schoolhouses the enforcement of the compulsory attendance law.

Q.—Are not the members of the county board of education to be chosen as they have always been?

A.—No; they are to be elected by the qualified voters of the county at the regular election in November, 1916. They are to represent the entire county, and to assume much of the responsibility which has heretofore devolved upon the county superintendent of education, not only relieving him of much responsibility,but removing from him the necessity of running for office and enabling him to give his full time to the professional demands of his work.

Q.—What kind of person should be chosen as board member?

A.—According to section1 of the law, all members of thecounty board of education of any county shall be persons of good moral character, with at least a fair elementary education, of good standing in their respective communities and known for their honesty, business ability, public spirit, and interest in the good of public education.

Q.—I notice that you use the term "persons," when referring to county board members. Am I to understand by this that women are eligibleto membership?

A.—Your inference iscorrect. A law approved February1st., 1915, states specifically that women shall be eligible to serve on boards of education of incorporated cities and towns, and on county boards of education.

Q.—Why does the law emphasize the qualification of county board members?

A.—For the reason already indicated, that the county superintendent under the new law will be rerequired to give his time and thought to the supervision of schools, to the training of teachers in service, and to the strictly professional duties of his office, leaving to the members of the board who are better versed in the work.

Q.—Would teachers make suitable board members?

A.—Under no condition should a person engaged in teaching be chosen for such a position. The very fact that a teacher would seek such an office would be prima facie evidence that he is disqualified. In the first place he would probably not posess sufficient experience and in the second place it would be inconsistent for him to serveon the board which had the authority to elect him to fix his salary and to pass upon his work. It cannot be too strongly emphasized that the members of a county board of education under the new law,should be the biggest, broadest, and the strongest men it is possible to secure in the county.

Q.—Can persons of suitable qualifications be induced to run for office?

A.—They will of course not be seeking the office, but there will always be those who are big enough, and patriotic enough to acept service when they know there is a service to be rendered that requires such skill as they possess, and when they can be made to feel that the people really need and desire their service.

Q.—Cannot the people be trusted to select suitable persons for mem bers of the boards?

A.—The people can always be trusted if they are properly informed. The danger is that in those counties where wise boards are the most needed, certain designing politicians will scheme to ride into office for the patronage they control. In fact, it is well known that in a few counties of the state certain of the superintendents have already prepared slates to perpetuate themselves in office.

Q.—Whose duty is it to agitate the question of better qualified county boards of education?

A.—Everybody's; inasmuch as the school is a democratic institution and concerns every home and every individual in the county. And inasmuch as every qualified voter in the county is responsible to the extent of his voting influenceand for the further reason that the members selected will control by far the biggest work of public improvement in which the county is engaged or can engage. No individual can do his duty as a citizen and fail toput forth every reasonable effort to secure for his county a board of education that will measure up to the opportunities and responsibilities that the law imposes.

Q.—In the event that a properly qualified board of education is selected, what benefits may we reasonably expect to come to ourschools under the new law?

A.—They are numerous; among them may be cited:

1. An effective and business-like administration of the schools ofthe county by a board of five members elected from the county at large representing no particular section and with no motive except to do their best for the schools.
2. Supervision of the schools by a professionaly trained county superintendent of education elected by the county board, and who will give his entire time to the work.
3. A better teaching force chosen solely upon merit, and retained only so long as they render satisfactory service.
4. The consolidation of small rural schools into central graded schools, with better classified work, better schoolhouses and equipment, and with more satisfactory results.

In fact with more money to be provided through local taxation andwith such direction as the law makes possible, there is no doubt, if the people will only do their duty, in the selection of these boards, that the boys and girls in rural Alabama, as well as those in our cities and towns, will each and all have the opportunity to secure just the kind and degree of education they will most need to fit them for intelligent and productive citizenship.

BETHEL ITEMS.

Health in this community is not very good at present. Many are sick with the grippe.

Some people in this community are having bad luck in losing their hogs. The writer has not learned what the trouble is with them.

Misses Bertha and Mettie Dennis nf near Clanton were visitors at their grandmother's Sunday.

Mr. Fletcher Pyron of Elmore was a visitor at J. B. White's Sunday

Phillip Eiland was a visitor at Mr. Enoch Driver's Sunday.

We are sorry to say that our school teacher, Mr. Zeb Mims, is on the sick list this week.

Mr. O. W. Dennis and wife were visitors at Mr. Jim Dykes's Saturday night and Sunday.

Mr. and Mrs. Dave Mims were visitors at Mr. John Mims'son Saturday night and Sunday.

The bad weather keeps the farmers from doing any work.

LOMAX NEWS.

General health of the community is fairly good at present. Almost all have got well of the grippe.

Miss Maggie Jones spent Saturday night with Miss Ruth Jones.

Misses Molcie Cost and Essie Parker spent Sunday with MissMary Parker.

Mr. A. J. Jones and wife visited at Mr. John Parker's Sunday.

Mr. J. P. Cost visited at Mr. Aldridge's Sunday.

Mr. J. F. Lowery visitedhis son, Johnnie Lowery, Sunday.

WILSON WILL URGE A TARIFF COMMISSION.

WASHINGTON, Jan. 23.—Creation of a tariff commission, it was learned from official sources tonight, has been determined upon by the Wilson administration.

A bill providing for such a commission, will be introduced in Congres in the near future, and President Wilson may discuss the subject in a message to congress.

When former Governor Cox, of Ohio wrote to him some time ago, suggesting that a tariff commission should be created, the President replied:

"The full powers of a tariffcommission are already lodged in the existing organs of the government. Perhaps it would be better if these various powers were asembled in the hands of one bureau department."

OFFICERS ELECTED FOR CHILTON COUNTY FAIR.

A meeting of the Chilton County Fair Association was held recently at the court house, and the following officers were elected for the ensuing year:

W. H. Conway, Presldent.
W. H. Wells, Vice-President.
W. T. Bean, Sec'y.-Treasurer.
M. D.Foshee, Manager.

The members of the meeting declared that they intended to make the 1916 Fair next fall the biggest and best in the history.

The following directors were inattendance. at the meting: E. H Mims, D. B. Lowe, J. M. Smith, W. H. Robinson, and J. N. Dennis.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

COOPERATION PRODUCES GOOD SCHOOLS

Weekly News Letter by Wm. F. Feagin, State Supt. Edu.

The little village of Calhoun, in Lowndes county, is a small community having a school which is the center of interest for the entire neighborhood. Though only a two-teacher school, and in a community which is not wealthy, there has been organized a live progressive school improvement association.

This association meets twice in a month and is remarkable in the fact that the entire community constitutesits membership, and the meetings are well attended. An interesting program is arranged, consisting of exercises by the pupilsand talks by patrons, following which plans are dcisussed for the improvement of the school.

This co-operation on the part of patrons enables the teachers to vitalize the course of study. Through the assistance of the association a small piece of ground has been fenced in for a school garden, and each child has asmall plot for his own. This year the children are studying winter cover crops and winter vegetables.

Co-operation further enables the school to be equipped with patent desks and has been the cause of a constant display of the nation's flag on a large flag pole erected for the purpose. The people are now busy trying to raise money for further improvements.

Of course, a live and progressive school like this is well attended. It is reported that every eligible child in the district is attending school, and a few come from neighboring districts. All of which goes to show that opportunity is ever present for the citizens of a community desiring the advantages of a good school.

The teachers of Alabama are realizing that perhaps the most essential organization for the beterment of of school conditions and the arousing of community interest is a school improvement association.

Since last August 81 schools out of ninety-six in Covington county organized school improvement associations. More than $8,000 has been spent in school improvement work. The schools thus aided are awakening the citizens they serve to a great opportunity of making the school a social center for the community.

Under the new law institutes for teachers are being conducted in the various counties of the state while school is in session. This has resulted in an increased attendance as the following will show:

	1914-15	1915-16
Geneva	63	116.
Bibb	63	98.
Walker	137	195.
Conechu	51	116.

Other counties have shown the increases of from 50 to 75 per cent, and some counties are even doubling their enrollment of a year previous.

There is a marked degree ofthe increased enthusiasm in the institutes being held under the new law, and this is perhaps due to three causes:

1. The three days rest the teachers get from the regular school room work.
2. The teachers receive pay for the time spent at the institute just as if they were teaching.
3. The facts learned and the enthusiasm gathered can be carried back and applied while the schools are in session.

NOTICE!

To all who are due me for medical services:....After this week my accounts wil be in the hands of an officer. ..If you desire to settle with me in person, and without additional cost, see me before Monday, the 31st inst., as it will then be too late.

V. J. Gragg

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

Someone said that a pupil could not make a grad ein a half year, but Erle Pinckard says that he has proved this statement untrue. He says he was in junior at the first of this term, and is now in sophomore. If that is not making a grade in half a year, Erle wants to knowwhat it would be called.

Some of the boys say theyare going to have a harder time keeping up with their plow lines and hame strings than they have been having with their lesons; but some of them say they are going to try it nevertheless.

T. J. McDonald of Mt. Creek has lately enrolled as a member of the junior class. He is a sturdy student and will greatly increase thestrength of the class.

Ruben Lowe said that if he passed his examinations he is going to show the juniors how to study next session. He has passed, so now lets watch him and see what he does.

Joe Kanjutzky and Madge Cooper rae wizards in geometry. Each of them made 99½ on their examinations in this subject.

Feltz Mullins, who has been sick for the past week has re-entered the high school, and is taking his examinations this week, which he was not able to take with the rest of the class.

The Websterian Society meets on next Friday evening. The program will be a debate—Resolved that the United States should maintain a larger army and navy—together with some other numbers.

The junior class held a special meeting Monday evening for thepur pose of deciding on their assessment for the Annual. The proposal made by the class president, Joe Kanjutzky, that each one pay 75 cents, was adopted. The juniors are greatlyinterested in this move, and are going to do their part toward making it a success.

Marvin Marcus has entered the freshman class after passing the entrance examinations. He is going to study art in connection with the regular work.

Tom Sessions says that he wants to take cooking, because he is afraid he will not be able to find a cook that will suit him.

Miss Annie Gragg has stopped her study of drawing, and for that reason has resigned as artist for the Annual.

Miss "Bug"Pipes is having an awful time with her pencil this week. She has to tie it to a fishing cane so she can find it when she loses it.

The ladies' "Inter Se" Club of Clanton held its meeting before the students in the auditorium Monday morning. The club presented Mrs. W. L. Murdoch, chairman of the Alabama child labor committee, who delivered a very instructive and enlightening speech on the subject of child labor.

Several good musical numbers also rendered, viz: Vocal duet—Miss Winnie Reynolds and Miss Roberta Curry; violin solo—Miss Mary Curry; piano solo—Beverley Hester; piano solo—Mr. Tinsley; vocal solo—Miss Roberta Curry; recitation—by Miss Rilla Smith.

DON'T FAIL TO PAY YOUR POLL TAX BY TUESDAY, FEB. 1st---THE LAST OPPORTUNITY.

THE UNION-BANNER

Published Every Thursday at Clanton, Chilton County, Alabama.

UNION PUBLISHING CO.

W. M. WYATT, Editor & Manager.

Subscription price, in advance, per year, $1.00.

Entered April 15, 1903, at Clanton, Ala., as second-class matter, under act of congress of March 3, 1879.

PEOPLES TELEPHONE 96.

Don't forget that now is the time to pay your poll tax.

The tax equalization board of this county, composed of J. P. VanDerveer, J. M. Grant, and C. B. Cox started on their round Wednesday for the purpose of adjusting the tax asesments, and placing land valuations. They went to Beat 1 to start.

The Union State Bank, which has been for a number of years doing a banking busines at Maplesville, Jemison and Thorsby has suspended business, and gone into the hands of the state banking department. It is said that the bank will be able to pay off all its depositors in full.

For the sake of The Clanton Press we wish to explain a typographical error which we made in Judge Reynolds' letter published in theUnion-Banner in it issue of week before last. The Judge said that Chilton County is one hundred and fifty thousand dollars in debt. When the type seter came to that point in the article he got his zeros somewhat mixed up, and made it read one hundred and fifty million dollars in debt. We suppose everybody who read the letter saw through the error, except the Press, and it is for its special benefit thatwe make the explanation herein, as well as to clear Judge Reynolds of the wrongful expression.

NOTICE OF ADMINISTRATION

Estate of John W. Gullahorn Deceased. Probate Court.

Letters of administration of said de ceased having been granted to the undersigned on the 18th day of January, 1916, by the Hon. E. B. Deason Judge of the Probate Court of Chilton County, notice is hereby given that all persons having claims against said estate; are hereby required to be present the same within the time allowed by law, or the same will be barred.

H. A. HARRIS

Sheriff, acting as Special Administrator.

Notice Bankrupt Sale— Real Estate

Pursuant to an order made by the U. S. District Court, Northern Division Middle District of Alabama, in Bankruptcy, I, as Trustee of Jas. P. Morrow, Jr. Bankrupt, will offer to the highest bidder for cash, during legal hours of sale, subject to approval of said Court, on the 24th day of Feb. 1916, in front of the County Court House of Chilton County, in the city of Clanton, Ala., all right, title and interest the bankrupt had in the following described real estate,—subject to a mortgage of Dr. P. I. Hopkins: A house and lot in the Town of Clanton, Alabama, Chilton County, situated west of the line of the roadway of the South and North Alabama R. R., commencing at a point 75 ft. from the NE corner of N 1-2 of Block 5 in said Town of Clanton, as shown by the map thereof; and on the eastern limit of said Block 5; thence running 75 ft. along the said eastern boundrry of said block; thence in an eastern direction 285 ft. thence ln a nothern direction 75 ft.; thence 260 ft. to beginning point on Third avenue.

GEORGE STUART, Trustee.

Montgomery, Ala., Jan. 13, 1916.

MORTGAGE SALE.

The State of Alabama County of Chilton

Default having been made in the payment of that certain mortgage executed by H. S. Hicks on the 4th day of Nov. 1913 to the undersigned, and under and by virtue of the powers of sale contained in said mortgage, the undersigned will proceed to sell to the highest, last and best bidder for cash in front of the Post Office Door in the Town of Maplesville, Alabama, on the 12th day of Feb. 1916, between the legal hours of sale, at public outcry, the following described real estate to-wit:

E 1-2 of SE 1-4 Sec. 22, Tp. 21 R. 11. S 1-2 of NE 1-4 Sec. 26. Tp. 21 R. 11. NW 1-4 of SE 1-4 of Sec. 26, Tp. 21 R. 11.

Said sale will be held for the purpose of satisfying the debt secured by said mortgage, including a reasonable attorney's fee.

This the 17th day of Jan. 1916.

J. E. Bearden,
Mortgagee.

Logan & Logan, Attorneys.

500 for.....75c 1000 for.....$1.25
2000 to 4000, at $1.00 per 1000
5000 to 9000, at 90c " "
10,000 to 24,000, at 75c " "
25,000 and over at 65c " "

We guarantee count and delivery in good condition to your express office. We do not ship by parcel post, express being much cheaper, better and safer. We ship in light corrugated paper boxes, which reduces express charges from 20 to 40 per cent governed by distance and quantity shipped. Our plants are as good as the best, our price as low as the lowest, our service is unexcelled. Please send money with order.

S. M. GIBSON CO., Box 5, Meggett, S. C.

EVERYBODY SEES THE CHANGE IN FATHER

Farmer Suffered Over 20 Years, And Paid Out Thousands in Trying to Get Well.

"My father has suffered from a chronic stomach trouble for over 20 years and has paid out thousands of dollars on medicines and doctors," said G. W. Slayton, a well known farmer who lives near Smyrna, a short distance out of Atlanta.

"We tried nearly everything trying to cure him, and he went off to the springs thinking maybe thewater would help him, but it just looked like nothing would reach his trouble. Then he tried dieting, and living on liquid food until he almost starved—but even that failed to do him any good, and he just kept going from bad to worse.

"I don't guess there ever was a case as stubborn as his, and if there ever was a confirmed dyspeptic, he was one of them. And I guess he would have been one yet if it had not been for this Tanlac.

"The first we heard of this medicine was when my father saw an advertisement in the papers from parties he knew in Tennessee, who were friends of his, and he knew that it was the truth that they said about it—so he got it right away and began taking it.

"Well sir, it acted just like magic—and everybody noticed the change in father—why he is just like a different man, and sits down to thetable and eats like a farm hand. It was only yesterday that he ate pork and turnips for his dinner, and he ate so much we were actually afraid he was overdoing the thing; but he laughed and says nothing hurts him at all now, and that he is hungry and expects to make up for lost time.

"Now, when a medicine will do a thing like that, I think people ought to know about it, and I want to say right now that I would not give one bottle of Tanlac for all of the other medicines and health resorts in the country put together."

Tanlac is sold exclusively in Clanton by Upchurch Drug Co.—Advt.

CHRISTIAN SCHOOL WORK IN CHINA

"Five Schools in Our District," says Rev. Wade D. Bostick, "are run on an Appropriation of $117.

Some of the difficulties of mission school work in China are graphically described by Rev. Wade D. Bostick, who is working in Po Chow under the Southern Baptist convention. Speaking of one of the school buildings in which they are now teaching Mr. Bostick says:

"It is on the street and as there would be disturbances on that account our school committee advised that the front door be closed up with brick. Then I put a small glass window in the end so at present the only light they have is from that and a door. They suggested that I have it plastered to make the room some cleaner and nicer, the plaster only of mud. I put several hands at it and it was all done in one day. I asked when they wanted to move in and they said at once. I asked if they were not afraid of the dampness and they said no.

"I am sure some would say, 'give them better quarters.' And if you would say so to me, I would tell you that I should be glad to do better for them, but let me tell you, that we have for these five schools, including teachers and everything that we are to do for them an appropriation for this year of $117. So I am quite sure you

(Chinese family, Huchow District.)

turn about now and ask how it is that we can run them in any way for that amount. Well, I am glad to tell you that at each place the matrons are bearing a part of the expense, not counting the house."

DUROC JERSEY HOGS PURE BRED

Pigs both sexes. Service boar. Bred gilts. Barred Plymouth Rock Chickens, Thompson strain. Eggs in season.

W. Y. NIX, Maplesville, Ala.

A Secret.

"Hazel, what is a secret?" I asked my little niece the other day. "Oh," she replied, "a secret is for anyone to have no one to know something but you and someone."—Chicago Tribune.

DIXIE

Saturday, January 29th.

World's Series Base Ball Games in Moving Pictures.

Your chance to see the Champions of the World play ball.

DON'T MISS IT

MATINEE AND NIGHT

In addition to regular Program of Pictures.

"That miserable pain—don't you want relief?"

Close attention to work is the cause of much Pain and many Headaches. Obtain relief by taking one or two

DR. MILES' ANTI-PAIN PILLS

Then tone up the Nervous System by using

Dr. Miles' Restorative Nervine

AWFUL SUFFERING.

"I suffered untold agony with neuralgia. I thought I would go mad with pain. A friend of mine advised me to take Dr. Miles' Anti-Pain Pills. I did so and the pain stopped almost at once. Then I commenced using Dr. Miles' Nervine and before long I was so that I did not have these pains any more." E. J. WINTER, 561 E. Platte Ave., Colorado Springs, Colo.

IF FIRST BOTTLE, OR BOX, FAILS TO HELP YOU, YOUR MONEY WILL BE REFUNDED.

We have just installed a Daly Dry Press, and are now ready to fix up your clothes, and make them look like new. Let us have your suit, and fix it up. We guarantee satisfaction. Ladies suits a specialty.

Send us your clothes by Parcel Post, and we will fix them up and return them promptly.

Come in and let us take your measure for a suit. We are agents for the Diamond Tailoring Company of Chicago.

CLEANING, DYEING, ALTERING, REPAIRING.

Clanton Dry Cleaning Company

In rear Sanitary Barber Shop, Johnson Building

W. L. POWELL, Proprietor.

Pay up your Subscription Now.

Couldn't See the Wisdom.

Little Jack was found in the pantry covered with jam. His father said, "I think, my boy, you would better go and show yourself to mother." With a roguish look Jack replied, "No, daddy, I think I betterent."

Friendship.

If a friend of mine gave a feast and did not invite me to it, I should not mind a bit. But if a friend of mine had a sorrow and refused to allow me to share it, I should feel it most bitterly.—Oscar Wilde.

REPORT OF THE TREASURER OF BHILTON COUNTY

OLIVER CHILLED PLOWS

In offering this plow to the trade, we do so feeling that there is none better we can get, and few as good.

Be careful in buying, there is an imitation on the market, and you do not want any except the JAMES OLIVER.

The Oliver Sulky as shown in cut is wonderful in its ability to turn the soil, bury the cotton stalks and grass, and is death to the boll weevil.

We are the only people in Chilton County who pay license to sell Guns, Pistols, Cartridges and Rifles, and we will appreciate your trade.

Clanton Hardware Co.

Clanton, Ala.

TO THE PUBLIC!

I have leased the machine department of Mr. W. H. Goodgame's Shop in lanton, and am now prepared to do all kinds of Repair Work in wood or iron. Steam and gasoline engines repaired; guns, machines and furniture, etc., put in first-class condition.

Mr. Goodgame will be in the shop at all times, ready to do all kinds of wagon and buggy repairing and general blacksmithing.

Give us a trial—We will show you.
Satisfaction guaranteed.

S. A. BLASINGAME

Clanton, Ala.

Want to Buy Beef Cattle

I want to buy up a carload of FAT BEEF CATTLE at once. Call me over the phone, or call and see me at once.

L. H. Reynolds

Clanton, Ala.

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because 50c worth makes a whole pint (128 teaspoonsful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Guaranteed here by Alred Drug Co., Clanton, Ala.

CLANTON ITEMS

Mr. J. Edward Driver of Clanton, and Miss Mamie Logan of Birmingham were married in the latter city last Sunday. They returned to this city where they will in future reside. Many friends here extend to them their best wishes.

L. A. Paterson, of Thorsby came in Wednesday and paid his subscription.

J. P. Rainwater was a visitor to Clanton last Saturday.

TO FARMERS—Plant velvet beans and peanuts, the south's salvation. We have the highest grade seed in any quantity.—ALRED DRUG CO.

J. W. Foshee was in to see us last Saturday.

J. P. Robinson of Route 8 was a visitor at our office last Monday

M. P. Johnson of Jemison was in town Tuesday.

I pay 10 cents per pound in trade for hens, and 12 cents for fryers under 2 pounds—Wiley Littlejohn. ad.

STRAYED—Red or yellow steer and red heifer, marked swallow fork and under bit in right ear, and swallow fork in left, both branded with "O" on right hip. If found please notify W. P. Lowery, Jemison, Ala., Route 2—adv. 1-20-2t.

R F. Holley of Cooper was a visitor to Clanton Tuesday.

P. M. Jones was a visitor here on Wednesday.

Chas. Lucas and W. C. Neal of Thorsby were callers at our office on Wednesday.

Genuine frost proof cabbage plant now ready for sale at the following prices: 100 plants for 20 cents; lots of 500, 75 cents; 1,000 for $1.00. J. W. CARWILE, Clanton, Ala.—adv.

Leon Deason, the 4 year old son of Benjamin Deason, caught on fire, and burned to death one day in last week.

T. J. Dorminey of Stumps Hills, was a visitor at our office on Wednesday of this week. He says he is more of a Republican than ever.

FOR SALE—Babcock buggy and harnes in good condition; will sell cheap. Apply at the Union-Banner office, Clanton, Ala.—adv.

GEORGE JONES KILLED.

George Jones, who was employed by the Alabama Power Company, at Lock 12 on the Coosa River, near here, was killed by a man in Virginia recently. The remains were returned to Maplesville forburial.

Remember that dollar you owe us on your subscription. We have just made some improvements in our printing plant, and are depending on you to help us out with our burden by paying up your back dues. Don't forget us when you come to town.

STANLEY WRIGHT KILLED.

Last Friday Stanley Wright, a young man of Thorsby was run over and killed by a freight train at the depot at that place. Death resulted instantly from his injuries, as his head was severed from his body. He seems to have been playfuly making an effort to catch the train as it was moving, and acidentally fell under the wheels. The deceased was a highly respected young man, and his death is sadly regretted by a large number of friends in his home town.

WANTED—Salesman to look after our interests in Chilton and adjoining counties. Salary or commission. Address The Harvey Oil Co., Cleveland, Ohio.—Adv. 1-27-1t.

NOTICE—I buy scrip and warrants of all kinds. See me ifyou have any to sell. G. O. FOSHEE Clanton, Ala. adv.

NOTICE OF DISOLUTION.

The partnership heretofore existing between W. A. Kemp and T. W. Kemp, under the firm name of Kemp Brothers, at Clanton, Ala., is this day dissolved. The business will be continued by W. A. Kemp, who assumes all liabilities of thefirm and all accounts due the firm are to be paid to him.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you ....sick, and you lose a day's work.....

Calomel salivates! It's mercury. Calomel acts like dynamite on asluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious and headachy, constipated and all knocked out, go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel, and without making you sick, you just go back and get your money.

If you take calomel to-day you'll be sick and nauseated to-morrow; besides it may salivate you, while if you take Dodson,s Liver Tone, you will wake up feeling great, full of ambition, and ready for work or play and safe to give to children. They and it's harmless, pleasant to take, like it.

BARACA CLASS GROWING.

The Baraca Class of the Clanton Baptist church under the leadership of Prof. H. C. McDonald, has outgrown its present quarters at the church, and through the courtesy of the county officials the class now meets ever Sunday morning at 10:30 in the court house auditorium. All are cordially invited to meet with us. J. D MARTIN, Sec'y.

FOR SALE—One milk cow, fresh, price $30; two Berkshire sows, bred and one open gilt; six 4-monthspigs, 5 sows and one male; also one pork hog. Will sell cheap. Earlyspeckle velvet beans, $2 per bu.; Yokahama and early Chinese, $3 per bu.; mammoth yellow soy beans, $2. JESSE A. DAVIS, Clanton, Ala., Route 6. adv. 1-27-4times.

MRS. ROBERTS DEAD.

The first of this week occurred the death of Mrs. J. H. Roberts, the wife of one of the most prominent citizens of Clanton, and a beloved lady among her wide circle of admiring friends and acquaintances. She had been in ill health for quite a long time, and her death did not come as a surprise to those who were aware of her invalidity.

The Coming Baby! Hooray! Hooray!

Nothing else can so completely endear us to the present and the future as the

expected arrival of a baby. But in the meantime the comfort of the mother is of vast importance. There is a splendid external remedy known as "Mother's Friend" which exerts a wonderful influence upon the expanding muscles. They become more pliant, stretch without undue pain, make the period one of pleasant anticipation instead of apprehension. In a series of splendid letters from all over the country mothers tell of the great help "Mother's Friend" was to them. Even grandmothers tell the wonderful story to their own daughters about to enter the state of motherhood. Get a bottle of "Mother's Friend" today of your nearest druggist.

It should be remembered that this splendid remedy is for external use only. Great care should always be exercised in using medicine for internal use. And it may be safely said that by the daily application of "Mother's Friend" there will be such ease and comfort as to rid the mind of the notion that internal medicine is necessary during this momentous period of expectancy. "Mother's Friend" is recommended by a host of women.

Use this splendid help with your own hand guided by your own mind. For a free book of interest and importance to all mothers write to Bradfield Regulator Co., 709 Lamar Bldg., Atlanta, Ga. It relates the personal experiences of many happy mothers, it tells many things that all women should be familiar with; it is a once a guide and an inspiration. Write for this book.

Fortunate Countries.

PIMPLES AND SKIN ERUPTIONS DANGER SIGNS OF BAD BLOOD

First Sign of Blood Disease.

Pimples, scaly itching skin, rashes, burning sensations and Scrofula denote with unfailing certainty a debilitated, weakened and impure state of the blood. The trouble may have been in your blood from birth, but no matter how you were infected, you must treat it through the blood. It is a blood disease. You must use S. S. S., the standard blood tonic for 50 years, if you expect relief. For purifying the system, nothing is equal to it. The action of S. S. S. is to cleanse the blood. It soaks through the system direct to the seat of the trouble—acting as an antidote to neutralize the blood poisons. It revitalizes the red blood corpuscles, increases the flow so that the blood can properly perform its physical work. The dull, sluggish feeling leaves you—the complexion clears up. Even long-standing cases respond promptly. But you must take S. S. S. Drugs and substitutes won't do. Get S. S. S. from your druggist. If you need expert advice write to Swift Specific Co., Atlanta, Ga.

Big Clean-Up Sale

With the beginning of the new year we desire to clean up our stock of goods and make room for some new lines which are coming in a little later on.

So this end we are placing on sale our entire stock of merchandise at interesting prices for a time.

We have lots of things you need, and if you will just walk right in and see us about them you can save yourself some money in buying from us right now.

We have special offers in our lines of womens suits, skirts, waists, coats, underwear and hosiery, and shoes.

Also specials in mens suits, hats, shirts, ties, underwear, hosiery and shoes.

Be sure you come in and see us about your wants. We have anything you need on the farm.

Clanton Mercantile Co.

Clanton, Alabama.

You've hit the right tobacco

when you fire-up some Prince Albert in your old jimmy pipe or in a makin's cigarette. *And you know it!* Can't get in wrong with P. A. for it is made *right;* made to spread-smoke-sunshine among men who have suffered with scorched tongues and parched throats! The patented process fixes that—and *cuts out* bite and parch. All day long you'll sing how glad you are you're pals with

It's an easy job to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, *but it is impossible* to imitate the flavor of Prince Albert tobacco! The patented process protects that!

PRINCE ALBERT

the national joy smoke

You take this testimony straight from the shoulder, men. You can smoke a barrel of P. A. without a kick! It hands out all the tobacco happiness any man ever dreamed about, it's so smooth and friendly. It's a mighty cheerful thing to be on talking-terms with your pipe and your tongue *at the same time*—but that's what's coming to you sure as you pin your faith to Prince Albert!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Everywhere tobacco is sold you'll find Prince Albert awaiting your cheerful visit. Buy it in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound humidors—and—in that classy pound crystal-glass humidor with sponge-moistener top that keeps the tobacco so fit!

CONCORD.

We are to have a school raly at Concord school, District 59, on Friday February 4th., 1916. Prof. C.M. Williams will lecture at 11 o'clock a. m. There will be a dinner on the ground with plenty of lemonade, on hand.

We will have public oral examination of pupils from 8 o'clock to 11 o'clock. All neighboring schools are cordially invited to come and spend the day with us. We will have a basket ball game at noon; in the afternoon we will have a number of talks from patrons and visitors. Everybody who is interested in educating the boys and girls are requested to come and be with us.

F. B. WILLIAMS.

DeWITT'S CARBOLIZED WITCH HAZEL SALVE For Piles, Burns, Sores.

TO THE PUBLIC:

We wish to announce to our friends and patrons that we are now operating the new Barber Shop in the Johnson building, having sold our old shop and purchased the new one.

We have the best, cleanest and most sanitary shop in Clanton, and guarantee you the very best service.

We thank all for their former patronage, and solicit your continued visits to our shop.

WAGONER & SANFORD

FOLEY'S HONEY AND TAR *for children; safe, sure. No opiates*

He Did Not.

Jeff de Angelis met a New York newspaper man. "Do you remember," asked the newspaper man, "one time, while you were playing in Kansas City, you offered $10 for the best original verse for your 'Women' song?" "I do," replied the comedian. "I won that ten." According to the laws of fiction, Mr. de Angelis should have said: "I've been looking for you for years. Here's $1,000 as a retainer. I want you to write me a comic opera."

But he didn't What he did say was: "Well, that's so long ago I guess we can be good friends, nevertheless."

Reading and Thinking.

Reading furnishes the mind only with materials of knowledge; it is thinking makes what we read ours.—Locke.

THE UNION-BANNER

VOL. 4. CLANTON, ALA., FEBRUARY 3, 1916. NUMBER 44

FARMERS MEETING AT COURT HOUSE SATURDAY

Discussion of Velvet Bean as Means of Beating Boll Weevil.

At the request of W. I. Mullins and other business men several of the mechants of Clanton together with a goodly number of farmers met at the court house on last Saturday for the purpose of discussing ways and means of helping each other to better prepare for Mr. Boll Weevil.

Mr. Rye from Covington County was the principal speaker. He gave us much information but very little incouragement toward raising cotton under boll weevil conditions. He stated that from, "Six acres of good land, well cultivated and cared for, planted in cotton, he only made 148 pounds of seed cotton." He also said "That under average conditions and without the bool weevil these six acres would have made four to six bales of cotton."

He advised the extensive planting of the early speckled Velvet Beans with corn to take the place of a considerable part of the land formerly planted in cotton, stating, "That for the past year his entire corn acerage was planted in four foot rows putting two rows in corn and every third row in velvet beans,making a full crop of corn and gathering and selling an average of 1,000 pounds of velvet beans in the pod per acre, which he had no trouble in selling at $17.00 per ton."

Every body present seemed very much interested in planting velvet beans, especially such men as R. W. Scott, of Thorsby; W. O. Durbin of Clanton Route 3, and oters who have been growing the beans. Mr. J. P. Barrett of Thorsby grew from one half gallon of seed planted on very poor land over eight bushels of clean shelled beans.

It was unanimously agreed that the corn yield was not cut down any on account of planting velvet beans in every third row and that the beans were clear gain and added much fertility to the land, it is hoped that every farmer will plant some velvet beans the coming Spring. If you need any seed beans and will write Mr. W. H. Conway, our Demonstration agent for this county, at Jemison, Ala., he wil be able to tell you where you can secure all the seed beans you need that have been grown and matured in our own County. Make up your mind and write him at once for prices on one bushel for every five to seven acres you expect to plant as suggested above.

At the close of the meting all were treated a free lunch of velvet bean products prepared by Mrs. J. Q. Wade, which proved that tre umble velvet bean was as good for human food as for live stock.

We expect to have an article on the velvet beans from the experiment station in an early issue which will be of considerable interst to all farmers in this county.

We hope to see many more such meetings as this one and believe much good will come from such meetings.

We understand that the business men of Clanton are expecting to install an up-to-date Bean Huller,Peanut Picker and feed mill and agree to buy and pay the market price for such products as the farmer has for sale the coming season.

Lets al co-operate in these matters and help each other.

MARS HILL.

Editor Union-Banner:

As it has been quite a while since I saw a leter from this community, I decided to write one myself.

The health of our community is fairly good now, although there has been a number of cases of la grippe and minor ailments.

All are looking forward tothe time when the ground will be dry enough and in good shape for plowing. As January has gone and February has made its apearance, the farmer is aware that the time is near at hand when his seed should be planted. And knowing that a thorough preparation of the soil is first necessary, he is of course anxious to get his plow to going.

Some of our singers, to-wit: Mesrs. T. C. Cofer, Sidney Langston, Walter Scott, Aaron and Lewis Scott, Mike and Noah Moore, Freman and G. W. Scott, atended the singing at Free Springs last Sunday afternoon.

Mrs. Lillie Scott left here on last Wednesday for Warrior, where she is visiting her sister.

Well we are listening for Mr J. N. Scott to strike again. Come on J. N. You give the Demies such a nice dose now and then. We like to see how it acts.

A SCHOOL KID.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

CARD OF THANKS.

Editor Union-Banner:—Please express our thanks to the people of Riderville, for their kindness in the burial of our father, Mr. R. J.Mitchell.

Yours very truly,
MRS. J. C. MERCHANT.

B. M. ROBERTS,
Post Master.

PILGRIM,S REST.

The fifth Sunday meeting was caled to order Saturday a. m. by the pastor. After devotional services the body was organized with Rev. T. J. Deason, Moderator, and R. W. Kendrick clerk.

After organization, the subjects the subjects for discussion were taken up, and dicsused with much interest, making the day very profitable to those who gave their atention to what was said.

Sunday morning, the Moderator, having been called to his home on acount of sicknes, ,Rev. S. O. Y. Ray was elected Moderator in his stead.

The services were opened with a prayer by Rev. J. A. Pool.

At eleven o'clock the stand was filed by Rev. Ray. He preached an excelent sermon from 1 Cor. 15-30, fuly explaining the ordinance of baptism as a memorial service.

Taken together, the two days meeting were very profitable, and all such metings should be atended with the sole purpose of the furtherance of the cause of Christianity throughout the world.

R. W. KENDRICK.

MT. PLEASANT.

Our school is progressing fine. The literary society met on Friday evening. This society has only been organized a few weeks. The name of the society selected last Friday was "The W. T. Bean Literary Society."

J. A. Duncan and family visited C. R. Wells near Unity last Sunday.

Houston Lowery and wife of Salem spen Sunday at Albert Culp's.

Marshal Dozier and wife of Elmore spent Sunday at W. A. Dozier's.

J.C. Jones and wife spent Saturday night at J. H. Duncan's in Clanton.

B. H. Duke and family visited at C. D. Duke's last Sunday.

Mrs. J. Wiley Foshee and son, J. Mac, and Mrs. Tennie Lindsey, spent part of last week with relatives in Shelby county.

A. H. Stephens of Macedonia was at L. O. Vickers' Sunday ..

M. O. Culp and family spent Sunday at A. J.Duncan's.

J. B. Collum and wife visited at Lee Pate's Sunday night.

G. D. Melton and family visited at Rev. W. P.Lowery's Saturday night.

Ruben Riggins and wife spent the day at Lonnie Price's last Sunday.

There wil be a box super at this place Monday night, Feb. 14. Also a cake for the girl geting the most votes as the prettiest girl there.

LITTLE VIEWER.

FREE SPRINGS.

The exercises rendered by the Improvement society of the school last Friday were a sucess in every way.

We are to have a box super and a Valentine party at the school house on the night of Feb. 28th. We want all the girls to bring boxes, and request everyone to have valentines ready to drop into the box that we shal have prepared for that purpose. When the super is over two persons will selected to read these valentines to the public. Of course the writer need not sign the valentine, but be sure and place the name of the person for whom the valentine is intended, where it can be seen by the reader. Come, and if you don't want to have anything to do with the box super, you can have some fun in the valentines.

Mrs. Howard Roper and little son, Jim Howard, are visiting relatives in Maplesville this week.

The singing at this place Sunday p. m. was very good, we especially apreciate the directing of Mesrs. Cofer, Scot and Moore, of Mars Hill; also the playing of young Mr. Freeman Scott. Come again friends. We shall have singing on each first and third Sunday afternons.

BETTER SEED CAMPAIGN WILL BE HELD IN MACON

Tuskegee, Ala., Feb. 2.—In order to stimulate diversified farming among negros in Macon County, Prof. G. R. Bridgeforth, Director of Agriculture at Tuskegee Institute, in co-operation with the white and negro county demonstrtation agents and seed dealers of the town of Tuskegee, will conduct a "better seed corn" campaign throughout the county February 17 and 18, at which time the plan is to place at the disposal of every farmer in the county a little better grade of seed corn.

REGARDING SOME THINGS POLITICAL & ECONOMICAL

Letter by Mr. J. Bice. Discussing These Matters at Length.

Editor Union-Banner:

I have been thinking for some timeof writing a letter for publication. I read so much in the Democratic papers about the returning of prosperity, of course there are some kinds, of prosperity that has returned on account of the war in the foreign countries, which are responsible for times picking up some.

The hard times , or the panic, was brought on by the Wilson administration, prosperity proper has not returned. Just think of the hundreds of thousands of laborers that are yet out of employment, most every kind of manufactoring establishment was closed down when the Democratic Congress passed the free trade bill which will kill any country. Think of the hundreds and thousands fed by charity in our home towns, Birmingham and Montgomery, this we know to be true. of course some have been employed on account of the war and not the return of prosperity, only for the war we would have almost starved and went nacked or half clad then talk to me about voting the Democratic ticket? No never. Of course I don't fall out with my Democratic firinds for voting the Democratic ticket for I have some close friends who vote that ticket but I hope they will soon see their mistake for there is no thinking man but what can see if he will, only let him think of the past two years. I know it is hard for us to give up our old associates but we will look around and see our neighbors out of employment and think of the misery of the people all over this United States on accoun tof free trade, going hungry and cold I say away with free trade, let us vote for the good old republican party the party that gives us protection and prosperity. Think of our own dear state nearly six million dollars in debt and our good old Chilton county knocking on towards two hundred thousand. Where are we at? Can some one tell me? Don't you think it is time to stop and think? Oh, don't think about the name but vote for the old reliable party who has proven to be safe for the nation and will be good for the state and county, it has been tried and proved good for the people(the republican party) and the democratic party has been tried and found wanting. We must have protection, the democratic party are pledged to free trade which will ruin our country. The farmer and the laboring man must have protection, just think of a war tax in time of peace and one hundred million was called for by President Wilson before any war was thought of; one hundred million for revenue to run the government on account of free trade and we have to pay it and if the protection tariff had been let alone we would not need to pay millions for a war tax and no war, but the democrats say that if you have protective tariff you pay it any way but it proves just to the reverse, look at the price of sugar and everything else since we have had free trade. I can't understand why any laboring man or any farmer can vote for free trade for it robs the laborer and helps the rich, it kills all public works of every kind, just think of the farmers that have had to give up the last bite of bread and some have been forced to give np their homes on account of free trade. Away with such rot. Who is President Wilson? Just a good christian baby, and that is all.

Oh they say that if Roosevelt were Preseident we would be in war.; but Roosevelt has too much sense for that. But when he speaks, something must be done, and other the nations know it.

Why vote to starve yourself and children? Why not forget where you live and vote for the party that gives you work to do? Then you can earn a living.

For two years the writer has been idle on account of free trade. I was closed down before any war was ever thought of. I could not have a Santa Claus this Christmas as heretofore, and I guess there were a great number, yes hundreds and thousands of others in the same fix.

Now, think of our state. They want all we have; they will not even let the poor farmerhave adog unless he pays a tax on it, for the rich man to put down in his pocket. We can't have a dog to keep the rabbits from eating up his garden. The old dog is all the true friend we can have, and the Demmies have gone after him. And we are not allowed to make an oath as to our property. And ontop of it all, they wanted to issue bonds so they could have more money to gobble up.

The democratic papers say we havent had time to try the free trade. It seems to me that three years is long nough. It has been too long for me, and I believe for many others also. I believe it would be better for our country and stateto turn the government over to the Republicans. Suppose we try it one more time. It certainily canot be a bit worse than conditions are now. We are brothers and all need the same thing, financially, and I believe we all want to do for the best in politics, as well as in our dealings with each other.

We read in the Democratic papers that they are acknowledging the things we have been accusing them of. Now, let's try another party.

I believe it will be better for us, for ifwe let them stay in power they wil continue to take the money of the people unlawfully. Let us all get together and stop this graft, and put men in ofice that will give us a square deal, and men that will not rob us of our vote, and birthright, and last but not least, our poor old dog that barks and faithfully watches for us at night.

And let's have peace and good will for all men.

Best wishes to the Union-Banner for the coming year.

Yours truly,
J. BICE,
Thorsby, Ala., Jan. 3, 1916.

BEAT NO. 12

Editor Union-Banner:

Please alow me a small space in your valuable paper to say a few words.

The health of the Mineral Springs comunity is not so good, as there has been some sicknes with la grippe. Among those who have been sick we might mention Mrs. Pollie Gore, Mrs. Walter Mims and son, Mrs. D. P. Martin, Mrs. P. G. Robinson, and Mr. M. Gore.

I want to say a few words about a stock law election in this beat. I notice it is going to be held on the 19 of February. I don't know why it was not advertised in the papers, but I have been unable to se it yet; but voters you had beter get busy. Roll up your sleevs like you did last year and year before, only a little higher, ad we wil make the old cow and hogs rejoice on the 19th night when the vote is counted.

Mr. Editor, I have read of sinning against the Holy Ghost as an unpardonable sin; and if voting for stock law isn't it, I can't see why.

Well, boys let's do all we can till the day of the election, and before you vote, think over this thing well. Stock law is like a man dying; he can't come back, and when you get stock law you can't get rid of it. I gues I had better stop for this time.

JUST A VOTER.

TEACHERS ASSOCIATION

A regular meeting of the Chilton County Teachers Association will be held at the county High School building on Saturday, Feb. 5. A splendid program has ben aranged for the occasion.

All teachers of the county are urged to be present at 10 a. m.. The high school boys are trying to prepare for a basket ball game.

CLAUD R. WOOD
Secretary.

LEGAL NOTICE

Birmingham, Ala., Feb 1 1916.
Hon. H. A. Harris, Sheriff of Chilton County, Clanton, Ala.
Dear sir:

No U. S. Internal Revenue License have been issued to your county in January 1916.

Yours very truly,
Sam P. Jones.

Sworn to and subscribed before me this 1st day of Feb. 1916.
J. B. Mosley,
Notary Public.

WIND AND RAIN DOES DAMAGE IN BLOUNT.

ONEONTA, Feb. 1.—A heavy wind and rain storm swept through this part of Blount county yesterday afternon about 4 o'clock, blowing the roof off the pickling plant, and blowing a brick flue off the court house which was recently rebuilt from a wind storm in December, and doing other damage to out houses.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

Erle says that it is utterly impossible for him to keep out of trouble. While he was reading a note the other day Mr. Wood slipped up behind him and said, "Erle I'll take care of that note,you just go ahead and study your lesson."

Not only the Sophomore Classbut also the entire school is bowed down in sorrowin the face of the fact that Guy DeShazo has ceased to cast his talents around the old high school.

Clifford Mullins has become president of the Freshman Class, upon the resignation of Seymour Hayes from that office.

Oscar Jones, the Business manager of the annual is preparing to receive bids on the printing of the publication, which wil be in about a month to the most favorable bidder.

The erroneous report that the high school basket ball team went to Jemison last Saturday and were defeated by the Jemison boys has been scatteredaround over the county. Such a statement, whether made intentionally or not is untrue. Some of the boys of town played a game with the Jemison team, and we suppose they were confused with the high school boys.

Dewey Rockett, being asked by Mrs. Wood to take part in a play to be given in a short time, positively refused; but Mrs. Wood explained that his part was to be that of a woman hater. Then Dewey accepted.

The poets and historians of all the classes are at work on their part of the high school annual.

Miss Bibb's art class is making splendid showing in preparing the designs for this publication.

The girlsare preparing for a game of basket ball with Shelby County High School, whinch is to take place in a few days.

Miss Beverly Hester, who is to graduate in music this year, is writing a song which will be printed in the annual. Miss Ara Mullins, the Senior Class Poet is preparing the words for the song.

Since Frank Palmer, president of the Boys Athetlectic Association, has quit school Arden Allen, who was vice president, has become Chairman of that club. Frank performed his duty as president well,and we are sure that the association will miss him, while at the same time Arden will make a good manager.

The Jemison High School basket ballteam defeated the team of the Chilton County High School in a game at Jemison last Saturdey.

The line up for C C H S was as follows: Forward, Smith and Wyatt; Center, Popwell; guards, Williams and Lowe.

For Jemison High School: Forwards, Fitts and Hubbard; center, Nix; guards, Thomas and Wright.

Referee, first half Roberts; second Harris.

Final score, Jemison High School 18 and C C H S 13.

WHAT ABOUT RAISING PEANUTS THIS YEAR?

Matter Discussed by Autauga Oil and Fertilizer Co. of Prattville.

Clanton, Ala., Feb. 1, 1916.
Editor Union-Banner:

I send leter from the Autauga Oil Mill, on the peanut question, which I believe every farmer inChilton county should read. If we don't mind everybody will have a lot of peanuts next fall, and no market for them at any price at all, except by feeding them to the hogs.

The same thing applies to velvet beans. When you see a fellow out preaching to us one thing to raise that will make us all rich, he is most sure to have some seed to sell.

But print the letter.

R. F. ATKINSON.

Prattville, Ala., Jan. 19, 1916.
Mr. R. F. Atkinson,
Dear Sir:

Yours of the 17th has our atention and we ask that you pardon a rather lengthy letter, for we wish to make our position clear to you. In the first place will say that no business man could, with any degree of safety, make you a price on peanuts or any other comodity, that would hold good a year from date. Then again we have gone into this peanut business very fully, and we are free to say to you that we do not believe that our farmers can depend on peanutsas a cash crop, under the variable conditions that exist today. 75 cents per bushel, or $60.00 per ton is the outside price a mill could pay for peaunts and make anything for them selves, and we do not believe that peanuts can be produced at 75 cents and leave anything for the farmers.

The writer planted ten acres this year as a test and will be able to sell his nuts at $1.00 per bushel, or four cents per pound, and will lose money even at this price, as I did not produce enough nuts per acre, and I am sure that the same will be true another year.

A Mr. Henry Gholson of this county has been planting peanuts for sev eral years, and in 1915 only made 13 bushels per acre. While he got $1.00 per bushel, he will not make anything on his crop.

We may be in error, but as we see it, 75 cents would be the outside price the mills could pay, and unless an average production of 40 bushels per acre was made, the farmer would have nothing but his labor for his efforts. You often hear that 40 bushels of peanuts is a small crop, but from the best information we can gather, a crop of 20 bushels is a high aevrage, especialy where nothing is known as to cultivation.

The question of variety for oil mill purposes seems to be rather a disputed point, but if you people should decide to plant, am sure that the white Spanish would be the best; although some claim the red Spanish are the better. As for us, we think the white the beter kind. The price, owing to the demand for planting, has run the price of all varieties to $1.00 per bushel or better; but ifyou will take our advice you will make an efort to plant peanuts for use on the farm only, or that is the advice we are giving our farmers. Make the farm self suporting, i. e., plenty of corn, oats, cow peas, and what of meat each farm needs, with a little to sell, and then all the cotton you produce. The farmers in Mississippi who have won out in spite of the boll weevil, have folowed the above plan, and divide corn, oats and cotton equaly, 8 acres each, or 24 acres to the plow, which gives them ample time to have a god potato patch, and sugar cane, and some atention to their hogs. When the oats are cut cow peas are planted, the peas picked and the vines turned under, which if followed up, will enirely eliminate the use of fertilizer, unless it is phosphate to hasten the maturity of the crops.

It would be to our advantage in so far as 1916 is concerned, for us to urge the farmers to plant peanuts, but we hope to stay in business for several years, and prefer the good will of our people, to making a tem porary profit.

Hoping that you will pardon this long winded letter, and asuring you that we have the best interest of all our farmers at heart, we are,

Yours truly,
AUTAUGA OIL & FERT. CO.

OLD CHILTON BOY OUT IN STATE OF ARKANSAS.

Whitlow, Ark., Jan. 26, 1916.
Union-Banner, Clanton, Ala.
Dear Sirs:

Please enter my name on your subscription list, and on receipt of paper and price of same wil remit for one year in advance.

Might add that I am a native of old Chilton county and think of the many happy days I have spent there learning to telegraph under Mr. P. C. Smith, who was agent at Thorsby.

I have been from place to place in most every southern state but have never found any place like old Chilton county.

Through the columns of your paper am glad to tell my many friends that I am agent at a nice station situated on the C R I & P and L M Railroads.

This is a fine farming country out here and lots of tember

Arkansas is not such a sorry state as most people think it is that has never seen it. However it can not equal up to old Alabama.

Ivan M. Gibbons
Whitlow, Ark.

DEMPSEY STABS WILSON.

Gadsden, Ala., Feb. 1.—A. J. Dempsey attacked T. J. Wilson with a knife, stabbing him in several places following a quarrel over a garden fence this morning. Wilson will recover. D empsey is under $2000 bond.

TEN CONVICTS ESCAPE.

Knoxvile, Tenn., Feb.1.—Ten state convicts escaped from the Brushy mountain mines at Petros early today by means of a hole dug near the entrance.

DEATH IS INVESTIGATED.

Atlanta, Ga., Feb.1.—The authorities are investigating the death of P. B. McKinney, prominent business man and manager of the Empire State Roofing, who was found dead today at his home on Myrtle street.

PROF. BROWN RESIGNS FROM DOTHAN SCHOOLS

DOTHAN, Feb. 1.—James Vandiver Brown for ten years superintendent of the Dothan city schols, and a prominently mentioned posible candidate for state superintendent of education, has resigned his place in the Dothan schools for the stated purpose of accepting the presidency of the San Marcos, Texas, Baptist Academy, the resignation to be effective May the 1st.

LEAP YEAR

The costum which ordaines that a woman may propose to a man in leap year dates back seven or eight hundred years. An act of the Scot tish Parliment, passed about the year 1228, made it a crime punishable by a fine for an unattached man to refuse to become the life partner of a woman who had the courage to "speak ye mon she liked."

The custom in a milder form is refered to in a work published in 1606 entitled, "Courtship, Love and Matrimony."

"Albeit, it has now become a part of the comon lawe in regarde to social relations of life that as often as every bissextile year doth return, the ladys have the sole privilege during the time it continueth, of making love unto the men, which they do either by words or by looks, as to them it seemeth proper; and moreover, no man shall be entitled to the benefit of the clergy who dothe in any wise treate her proposal with slight or contumely."—From The Peoples Home Journal for February.

PAY YOUR SUBSCRIPTION.

The Union-Banner needs that dollar you owe on your subscription, and we want to ask you very kindly to please come around and settle up. Many have responded to our recent calls, and they have our thanks; but there are many others who are behind. Remember us when you come to town, or a money order would come in mighty nice if you do not intend to come to town any time before long.

NEGRO MUST DIE

York. S. C., Feb. 1.—Israel Good 17 years old, negro. was sentenced to the electric chair at a special term of the county court for attacking a six year old white girl

Good's grandfather was lynched several years ago for killing a white boy.

METHODIST MEMORIAL TO EMINENT DR. HAMMILL

Plans for Its Erection to Be Made at Auburn.

The following report of the Alabama Conference Sunday School Board of the Methodist Episcopal Church, South, was introduced and passed without a single dissenting vote, at the last session of the Conference at Brewton, Ala., Dec. 1915. The day is by the action of the Conference, to be observed by every Sunday School in the Conference and a contribution made toward the completion of the Hamill Memorial Sunday School Building at Auburn, Ala., as a token of love and honor to Dr. Hamill, of Alabama, the great Sunday School leader. A suitable programme will be furnished every Sunday School in the Conference in due time.

Report No. 1, Sunday School Board.

Whereas, the International Sunday School Association has built at Lake Geneva, a Memorial Sunday School Building to the late Dr. Hamill, of the Alabama Conference; and, whereas, the Methodist Episcopal Church, South, has plans under the direction of the general Sunday School Board for the erection of a similar Memorial Building at Cobe, Japan; and, whereas, the Methodist Church at Auburn, Ala., has under construction a Hamill Memorial Sunday School Building to take care of the situation there, which is connectional in nature by reason of the large number of Methodist students from so many states attending the Alabama Polytechnic Institute; Therefore be it Resolved:

First: That it is eminently fitting and appropriate that the Alabama Conference participate in the construction of the Auburn Memorial Building as an expression of our appreciation of this great Sunday School leader, a native of Alabama, and at the tinme of his death a member of this Conference and Board.

Resolved, Second: That, in pursuance of this purpose, the second Sunday in March, 1916, be and is hereby set aside as Hamell Memorial Day in our Sunday Schools throughout the Alabama Conference; and, on this day, or as near thereto as practical, a suitable program shall be observed, which shal not displace the regular lesson, and the collection s of this day shall be forwarded at once to the preacher in charge at Auburn, Ala.

Resolved, Third: That the Presiding Elders and Pastors are hereby urged to enter heartily into the spirit and purpose of this move and to do all in their power to promote the observance of this day in every Sunday School, large and small throughout the Conference.

Resolved, Fourth: That the Executive Committee of the Alabama Conference Sunday School Board is hereby inpowered and instructed to prepare a suitable program and to furnish the same to the Sunday Schools and to prepare what other duties that may be necessary to carry out the provisions of the above.

(Signed) S. U. Turnipseed, Chairman,
E. E. Cowan, Vice-Chairman,
R. J. Haskew, Secretary
J. F. McLeod.

SCOTTY CHESTNUTT

Champion Beau Brummel umpire of all-time and best-dressed arbiter this sdie of the artic circle, has just returned from a fishing trip in Souuth Alabama. Scotty says the fish down there are perfectly harmless and will not bite at all. Scotty is a strong believer in the old adage: "Spare the rod and reel and spoil the child," or All work and no play makes Jack a sissy," or words to that, those are them effects. There are times when he puts the red tie under a few days' suspension, puts on a soft, turndown wool shirt and trousers that bag at the knees and goes off to the woods and streams for a lark. Chess says he is going to stick around Birmingham from now untill the season starts, howevver, and the pay checks start accumulating.—Birmingham News.

FOR SALE—Beat the boll weevil planting early variety Velvet Beans. Special prices made on quanity orders of 50 bushels or more. Write your wants and get price. J. T. Purefoy, The Bean Man, Furman, Ala. Adv.

CLAIM PAID

Mr. John Mims of Falakto was insured only 3 days in the North American Accident Insurance Co., when he fell off the top of a house and broke a leg. Claim was paid promptly. He was thoughtful to carry that protection; and every other man should do the same thing. See J. C. BROWN and insure before it is too late. Your time has money value andshould be protected. The only cost is $10.00 a year. The policy pays you $25.00 a week in case of a sickness or accident, and $5,000 in case of death. J. Watts Moore at Mullins store, is also agent for this insurance. Adv.

THE UNION-BANNER

Publishd Every Thursday at Clanton
Chilton County, Alabama.
UNION PUBLISHING CO.

W. M. WYATT, Editor & Manager.

Subscription price $1.00 per year, payable in advance.

Entered April 15, 1913, at Clanton Ala., as second class matter, under Act of Congress of March 3, 1879.

PEOPLES TELEPHONE 96.

It's politics now. Don't mention any thing else.

Capt. A. T. Goodwyn of Robinson Springs wants John H. Wallaces place as Game and Fish Commissioner of Alabama.

Georgia newspapers are somewhat stirred up over the lynching record of that state for the past year. It does seem that it is almost a startling condition of affairs.

President Wilson will declare before Feb. 25th whether he will be a candidate for the Democratic presidential nomination or not.

The political bee is beginning to buzz right along around the county. We carry a couple of announcments of candidates for office in this issue and ere another week has elapsed we expect to have several more.

Only a few months ago President Wilson bitterly opposed the handling of our tariff matters by a tariff commission. Now he has come across with the idea and probably wil recommend it to Congress. And some of the high ups are wanting to know why.

Some of the Democrat leaders among them Mr. Underwood, have already smelt a rat with Wilson's proposition to appoint a tariff commission. They declare they will not follow the president if he departs from the Democratic path too far

Judge Pearson of the Circuit Court has ruled that the road warrants issued by the Commissioners Court of Chilton County, for the improvement of its public highways, are legal. The case has been carried to the Supreme Court.

4 PERSONS CHARGED WITH HUNTING WILD HOGS.

HALEYVILLE, Ala., Feb. 3.—Are there wild hogs still roaming in civilized Alabama? According to the docket of the County Court of Winston County, there are. O n the docket there appearsfour cases in which the defendants are charged with "hunting wild hogs without giving the required notice." The old law never repealed, so it appears, requires that when a person desires to hunt wild hogs he must first give notice of his intentions to do so to at least three freeholders. These cases will not be tried before July, the jury term of the County Court being set for then.

Demopolis, Ala.—The Western Union Telegraph Company has changed operators at Demopolis. T. W. House, formerly of Florence, relieves H. T. Gilbert, who will go on the road, it is said, as traveling manager for the company.

Huntsville, Ala.—More than 2,500men paid their poll taxes up to midnight last night and qualified for voting in the elections of this year. Over 500 polls were paid on the last day. It is estimated that Madison County's voting strength will bewell over 4,000.

Montgomery, Ala.—T. J. Reynoids, President of a Montgomery bank, presented to the state game and fish department yesterday the mounted head of a deer which he killed during a recent hunt in Florida. It will be placed on exhibition in the department.

Mobile, Ala.—In an able address yesterday before the Mobile Chamber of Commerce and the general public, which was well attended, Stanley M. Rose, trade advisor of the National Bureau of Foreign and domestic Commerce, told the young men of their part in the great work.

Huntsville decided not to recall its commission.

Mrs. Lee lives at Arlington in Wilcox.

POLITICAL ANNOUNCEMENTS

FOR CIRCUIT CLERK

I hereby announce myself a candidate for re-election to the office of Clerk of the Circuit Court of Chilton County subject to the action of the Progressive party in its primary on May 9th., 1916.

M. D. FOSHEE.

FOR COMMISSIONER

I hereby announce myself a candidate for the nomination to the office of County Commissioner for the Fourth District of Chilton County, subject to the action of the Progressive party in its primary on May 9th., 1916.

J. T. ROCKETT.

Paid political adv.

FOR TAX COLLECTOR

I hereby announce myself a candidate for re-election to the office of Tax Collector of Chilton County, Alabama, subject to the action of the Progressive party in its primary on May 9th., 1916.

J. DUDLEY COLLINS.

Paid political adv.

DEFENDANT PAYS $40 A PINT FOR INTOXICANTS

Montgomery, Ala., Feb. 2.—J. C. McKinney paid the City of Montgomery just $40 a pint for two and one-half pints of liquor which were found in his little restaurant on North Court Street. He plead guilty to violating the prohibition laws and was fined $100 and costs.

McKinney contended that his business was selling food and not whiskey, and that he had the liquor for his own use. However, the law says one cannot keep liquor in a public place.

Houston, Texas—Directors of the Texas Company wlil meet in Houston February 29 to make 20 per cent increase in the capital stock of that corporation, says an official announcement from the general offices here. It proposed to increase the capital from $37,000,000 to$44,000,000.

Memphis, Tenn.,—Captain W. L. Staplenton, a widely known steamboat pilot, fell from a gasoline launch near this city last night and was drowned.

Leesburg, Ga.—The Lee County Grand Jury announced here Tuesdaythat its investigation into the lynching of five negroes near here January 20, had proved futile. A number of witneses were examined. In its presentments the jury condemned the lynching.

Annapolis, Md.—Two hundred twenty midshipmen, or about one-fourth the entire membership of the Naval Academy, will be asked to resign because of their failure to pass the half yearly examinations, according to reliable reports here.

La Libertad, Salvador—General Jose Dolores, for years prominent in the political history of Salvador, is dead.

New York—The national aeroplane fund being raised for the development of a country-wide aerial reserve for the National Guard and Naval Militia of the several states, has passed the $350,000 mark, it was announced last night by the Aero Club of America.

Grinnel, Iowa—President Wilson's special train backed into a crowd of 3,000 persons at the railway station Tuesday and knocked down half a dozen children, several of whom fell under the train and between the rails. They were dragged out unhurt before the wheels reached them

Montgomery county is well advanced in its farm work.

More velvet beans will be planted in Alabama than ever before.

Proffessional thieves are robbing Montgomery.

W. L. Wallace, 79, died at Piedmont.

A porter on a train at Piedmont was arrested with 40 pints of whiskey.

John Morgan was elected policeman at Piedmont.

District school for Baptist ministers is in session at Falkville.

Mr. and Mrs. L. G. Dean, of Falkville, have gone to Florida.

Shelby county gave nearly 400 majority against the bond issue with a small vote out.

SHERIFF'S SALE, REAL ESTATE

The State of Alabama, Chilton county.

By virtue of an execution issued out of the Circuit Court of Chilton County, Ala., and to me directed whereby I, as Sheriff of said County, was commanded to make the sum of Eight hundred and 40|100Dollars, principal and interest, and Five and 80|100Dollars, costs of suit, the amount of a certain judgment and costs therein obtained at the Spring Term, 1916, of said Court of said County, Alabama, in favor of Edward Thompson Co. against Thos. A. Curry, I have levied upon and will sell to the highest bider for cash, at public sale, at the Court House door of said County, between the hours of 11 o'clock a. m. and 4 o'clock p.m. on Monday, the 28th day of Feb., 1916, all the right, title and interest of the aboved named Thos. A. Curry in and to the following described real estate, viz:

One half undivided interest in and to the north half of the north-west quarter of section fourteen, township twenty two, range thirten. Except 5 acres on which the church now stands, in Chilton County, Ala.

This 25 day of Jan. 1916 H. A. Harris, Sheriff.

Posted at the Court House door Jan. 26 1916 H. A. Harris Sheriff.

STOCKHOLDERS OF BANK ARE SUED UPON BOND

Suit has been filed in the United States Court against the stockholders of the Citizens Bank of Calera, for $14,216,and attorney's fees, by the United States Fidelity and Guaranty Company.

The suit is for the recovery of money paid by the Guaranty Company to the Treasurer of Shelby County, when the Citizens Bank was taken over by the State last October. In order to indemnify the county against loss, the bank required that bond be taken out by the bank for the amount of their deposit. The Fidelity Company demanded a bond from the stockholders to indemnify them against loss, and it is for the amount of this bond that the suit is entered, the company having paid the County Treasurer the amount of their bond.

LIST OF JURORS SPECIAL COURT

The following is the list of jurors for the special term of Circuit Court which convenes at Clanton, February 14:

Name	Precinct
Dave T. Smith	15

Larger flocks of robbins have appeared about Morgan county towns than for years.

G. W. Shaw and family have moved to Columbiana from beat 8.

Shelby County has 287 Confederate pensioners who were soldiers.

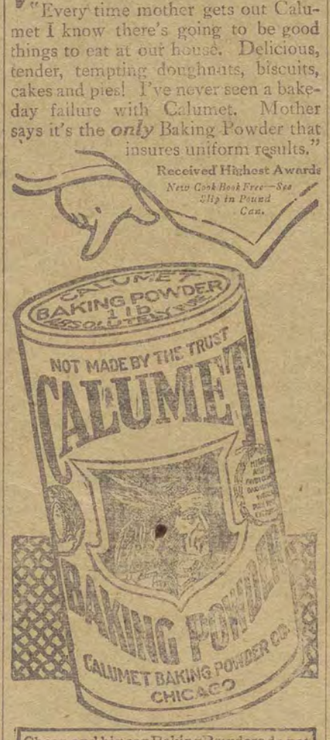
Lambert Gentry killed a big eagle near Centreville, in Bibb county.

Road between Calera and Columbiana is bad in places.

Several thousand bushels of velvet beans were raised in Butler county last year.

A cloud burst damaged fields about Falkville.

Miss Etta Robertson, of Columbiana, was married in Johnson City, Tenn., to S. T. Odell.



Oats look well about Harpersville.

"The Kind Mother Uses"

"Every time mother gets out Calumet I know there's going to be good things to eat at our house. Delicious, tender, tempting doughnuts, biscuits, cakes and pies! I've never seen a bake-day failure with Calumet. Mother says it's the *only* Baking Powder that insures uniform results."

Received Highest Awards
Nette Cook Book Free—See Slip in Pound Can.

Cheap and big can Baking Powders do not save you money. Calumet does—it's Pure and far superior to sour milk and soda.

MRS. ETTA SCHMIDT GAINS 40 POUNDS

Was Always Thin and Delicate Until She Began Taking Tanlac.

Among the many remarkable statements about Tanlac, the medicine that is now accomplishing such surprising results in all the leading cities through the south, none are more interesting than the one given recently by Mrs. Etta Schmidt.

Mrs. Schmidt lives at Chicamauga, Ga., a suburb of Chattanooga, and is a talented musician. Her husband is a prosperous truck farmer, and is well known in that section.

Looking the picture of health and wearing a smile that wouldn't come off, Mrs. Schmidt said:

"I have been a great sufferer from chronic dyspepsia for years and up to the time I began taking Tanlac I was always thin and delicate. When I commenced taking the medicine I only weighed 105 pounds. After taking only five bottles I now weigh 145 pounds, or a gain of 40 pounds, and health seems to be perfect.

"I reaaly never have known just what my trouble was. I slept poorly and my sleep did me little good. I was dreadfully tired most all of the time, and never felt well for a moment. I was also very nervous and easily depressed. My digestion was always poor, and I could scarcely eat anything for fear of bad results that would follow.

"My condition became one of a general rundown nature, and my complexion was bad.

"I became very skeptical regarding the merits of anything and everything in the way of medicines because I had taken so many without any lasting benefit. And, to tell you the truth I had no idea of this Tanlac helping me like it has. Tanlac has certainly helped me, though, and I would not take anything in the world for what it has done for me. I hope others who are now suffering as I was will at least give this medicine a fair chance to prove its worth to them. There is nothing equal to it, for the change in my condition has been wonderful."

Tanlac is sold in Clanton exclusively by Upchurch Drug Co.

W. W. Wyatt is improving his residence at Harpersville.

Thomas Glaze, of Harpersville, has bought a farm near Columbiana.

Jack Martin, 87, confederate veteran, died on Kelly's creek in Shelby

W. A. Lyon, of Columbiana, has changed his politics.

John R. Davis, 45, died near Columbiana.

Some farming is under way in Shelby.

SYMPTOMS

Show the Way to Health

Nature seldom works secretly. When your liver or bowels are not performing their functions properly, certain symptoms always point it out unerringly. If you feel sluggish or heavy, if you have bad breath, pimpled face, dizziness, loss of appetite, inflamed eyes or a coated tongue, it's a pretty safe bet that your digestive organs need attention, and need it quickly. They need it quickly not because of what they are, but because of what they may become. All serious diseases are little ills at first, that could have been stopped if taken care of immediately.

If you have any of the symptoms described above, a dose of the old reliable GRANGER LIVER REGULATOR will put you right at once. It's mighty easy to take, acts painlessly and still does its works thoroughly—and then, too, you can be certain you're safe with Granger Liver Regulator, because it contains no injurious chemicals. Years of use have proven it to be as harmless as it is valuable.

Granger Liver Regulator comes in tin boxes, which keep it at its full strength until the last is used It costs but 25c at your druggist's, and it will give you a comfortable feeling to know it's in the house, ready for use at any minute. Get a box today

Notice Bankrupt Sale— Real Estate

Pursuant to an order made by the U. S. District Court, Northern Division Middle District of Alabama, in Bankruptcy, I, as Trustee of Jas. P. Morrow, Jr. Bankrupt, will offer to the highest bidder for cash, during legal hours of sale, subject to approval of said Court, on the 24th day of Feb. 1916, in front of the County Court House of Chilton County, in the city of Clanton, Ala., all right, title and interest the bankrupt had in the following described real estate,—subject to a mortgage of Dr. P. I Hopkins: A house and lot in the Town of Clanton, Alabama, Chilton County, situated west of the line of the roadway of the South and North Alabama R. R., commencing at a point 75 ft. from the NE corner of N 1-2 of Block 5 in said Town of Clanton, as shown by the map thereof; and on the eastern limit of said Block 5; thence running 75 ft. along the said eastern boundrry of said block; thence in an eastern direction 285 ft. thence in a nothern direction 75 ft.; thence 260 ft. to beginning point on Third avenue

GEORGE STUART, Trustee.

Montgomery, Ala., Jan. 13, 1916.

FREE FLOWER SEEDS

Hastings Catalogue Tells You All About Them

No matter whether you farm or only plant vegetables or flowers in a small lot you need Hastings 1916 Catalogue.

Hastings is both the best and largest seed firm in the South, the only firm that you should buy seeds from.

When you plant Hastings Seeds, you meet "Good Garden Luck" more than half way. Write today for their big 1916 Catalogue. It is free. A postal card request will bring it. H. G. HASTINGS CO., Atlanta, Ga.—(Advt.)

JOHN WALLACE ASKS RE-ELECTION

Montgomery, Ala., Feb. 2.—John H. Wallace, Jr., State Game and Fish Commissioner since the department was created in 1907, has made formal annoucement of his candidacy for re-election by filing a certificate with Judge John Purifoy, Secretary of State, and appointing himself a committee of one to receive and disburse all funds which will be used in his campaign.

RUSSELLVILLE, Ala., Feb. 3—The body of Bud Owens, a farmer of Lamb's Ferry, in Lawrence County, who was shot and killed Monday afternoon was brought here today. Owens is said to have been attempting to make peace between two friends when one of them shot him.

Owens' son ran to the scene and was shot also but not seriously wounded.

MARRIAGES

The following marriage licenses have been issued the past week:

Mr. Elijah Green and Miss Aurora Vancit Smith; Mr. J. W. Kelley and Miss Mattie Belle Andress.

GEORGE T. BRIGANCE

George T. Brigance, a prominent farmer citizen of the southern part of the county, who lived near Bethsalem,died at his home on Wednesday afternoon. He had been sick only about a week with pneumonia.

Montgomery is preparing to organize its juvenile court.

The university will build a concret grandstand on its athletic field.

BEST TREATMENT FOR CATARRH

S. S. S. Removes the Cause.

Specialists have agreed that Catarrh is an infection of the blood. Once you get your blood cleansed of the Catarrhal poisons you will be relieved of Catarrh—the dripping in the throat, hawking and spitting, sores in the nostrils, and the disagreeable breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with some one who had a cold. But the point is—don't suffer with Catarrh—it is not necessary. The remedy S. S. S., discovered over fifty years ago, tested, true and tried, is always obtainable at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If yours is a long-standing case, be sure to write the Swift Specific Co., Atlanta, Ga., for free medical advice. They will tell you how this purely vegetable blood tonic cleanses the impurities from the blood by literally washing it clean.

MORTGAGE SALE.

The State of Alabama County of Chilton

Default having been made in the payment of that certain mortgage executed by H. S. Hicks on the 4th day of Nov. 1913 to the undersigned, and understand by virtue of the powers of sale contained in said mortgage, the undersigned will proceed to sell to the highest, last and best bidder for cash in front of the Post Office Door in the Town of Maplesville, Alabama, on the 12th day of Feb. 1916, between the legal hours of sale, at public outcry, the following described real estate to wit:

"Nervous exhaustion—blinding headache"

Striving to satisfy the demands of everyone is apt to affect the nerves, and continual standing may weaken the Heart.

Dr. Miles' Nervine is invaluable for Nervous troubles, and for the Heart

Dr. Miles' Heart Treatment is highly recommended.

LIVED IN MISERY.
"I suffered greatly from nervousness and headaches. The least excitement gave me dreadful pain. I began using Dr. Miles' Nervine and a few days later started to take Dr. Miles' Heart Treatment. I soon got so much better that I was encouraged and continued taking the two remedies until I was so well that work was no bother to me at all."
MRS. LOUIS ELG,
Idaho Falls, Idaho.

Clanton, Alabama.

WAR! What Is It All About?

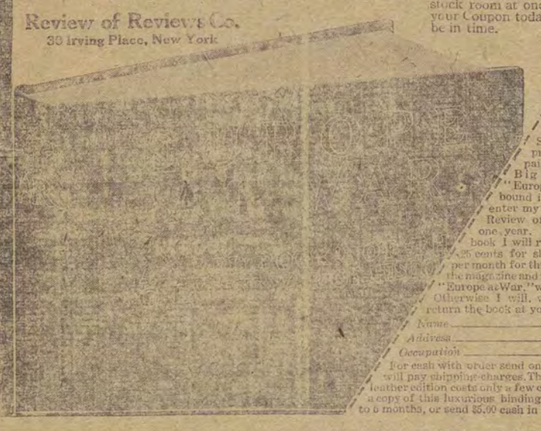
HAS the whole world gone mad over a very foolish and trivial [illegible], cannon rumbling, mailed armor glistening? Has Europe become Fairyland and wanted to show her love for the little brother-Stars? Far aside the curtain of Europe's politics and see the grim and [illegible] game of chess that is being played. See upon what a slim, yet desperate [illegible] the real lives of millions are being sacrificed. Read the history of the past two hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book [illegible] size 10 x 7 inches, [illegible] bound in cloth, containing the [illegible] history of the great events leading up to the present time, over 50 important [illegible] special articles by recognized authorities on the different phases of the conflict, hundreds of [illegible] portraits, [illegible] maps, diagrams, specially drawn war maps, [illegible] records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Previous, past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories more fascinating than any romance, here is a history so vivid, so dramatic, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an ineffaceable impression.

Your War News Clarified

It is not enough to read the daily news reports. Your ability to comprehend conditions and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos and the "Review of Reviews" will do it for you.



Get the Review of Reviews for a Year

Send the Coupon today. It brings the big book, some book, and it's prepaid, absolutely. All we ask is that after you get the book and like it—you send 25 cents for shipping and $3.00 a month for three months to pay for the "Review of Reviews" for one full year.

Send no Money

If the book isn't worth more than you pay for book and magazine together, send it back at our expense. But be prompt. The present fame of this compendium will make these new volumes disappear from our stock room at once. Send your Coupon today—and be in time.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale calomel. Theey all give the same reason. Dodson's Liver Tone is taking it's place.

Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safeand gives better results," said a prominent druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishnessand constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a sponful at night and wake up feeling fine; no biliousness, sick headache, acid stomache or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel to-day and to-morrow you will feel weak, sick and nauseateb. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

COLD WEATHER MAY AFFECT THE FRUIT CROP.

The state is just beginig to get over the coldest spell of weather we have had for some time. In most of the sections the cold was preceded by very heavy rais, with may washouts. The damage to fruit trees is causing uneasiness in some counties, but it is not thought that the season's crop will be affected, as there were but few blooms before the cold.

ANNISTON, Feb. 3.—The cold did but very little damage to fruit in this section, on account of the early season. Few blooms had been observed on the trees.

RUSSELLVILLE, Feb. 3.—The cold wave that struck this section on Tuesday brought a veritable snowstorm late Tuesday afternoon, the snow fell ibliding sheets for several hours. The ground beig so warm, only a light sheet of it lay till today. Some fear that the fruit crop is in danger of damage, owig to the very warm weather forten days preceding the severe cold and snow.

SELMA, Feb. 3.—The rainfall at this city on Tuesday was 1.95 inches. The Alabama river here is risig extremely fast owing to the heavy rains of this week.

OZARK, Ala., Feb. 3.—During clrcuit court, which is in session here this week, one of the cases attracting the most attention was a rediculously small one—a case against a negro for stealing the amount of $1. So much contempt was felt for the prosecution that when the jury read the verdict f nt guilty spectators, white and black cheered.

DEMOPOLIS EARLY FIRE BURNS HALL AND CABINS.

Demopolis, Feb. 2.—Shortly after twelve o'clock this morning fire destroyed the colored odd fellows hall and four cabins on Zion Hill. It is said the hall was innsured. It is not known as to how the fire started.

AUSTRIANS ADVANCE

VIENNA, Feb. 3.—Austro-Hungarian troops advancing into Albania, have crosed the Marti river, 30 miles south of Scutari, it was announced to-day.

THREATEN OIL FIELDS.

WASHINGTON, Feb. 3.—Villista forces are again threatening the rich oil fields in the Tampico district of Mexico.

MRS. ALEX SANDLIN RICHARDS, a lovely bride of last Friday, who before the wedding was Miss Bess VanDerveer, daughter of Mr. and Mrs. J. P. VanDerveer of this city.

HILL-NORTHROP MARRIAGE.

We are in receipt of the following wedding announcement of interest:

"Mr. and Mrs. Chas. C. Northrop announce the marriage of their daughter, Maybelle Emily, to Mr. Robert Alonzo Hill, on Saturday, January 29th, 1916, Birimgham, Ala."

The contracting parties have some friends here and at Thorsby who will be interested to know of their marriage.

Miss Northrop is the daughter of a former resident of Thorsby, and lived there some years ago with her parents.

Mr. Hill is the son of Capt. W. O. Hill, a former resident of Clanton, and remembered by a number of friends here.

After February 15th the newly married couple will be at home at Cullman, where Mr. Hill is engaged in the printing business.

The Union-Banner and their other friends here heartily wish themmuch success and happiness.

TROY, Ala.—This year there was 1,542 poll taxes paid in Pike county. This number is a little above the average. The banner year for Pike was in 1906, when 1,648 were paid.

NEW DECATUR, Ala.—Burglars who entered the plant of the Decatur Cornice and Roofing Co., found nothing at all of value. The cash drawer was rifled and papers were scatered about the office.

ROGERSVILLE, Ala.—Dr. Willingham of the Florence State Normal has announced that the institution will be run for three months in the coming summer. The summer term will begin six weeks before the July examinations. To have the extra session will be a great advantage to teachers who canno attend the full regular session.

DECATUR, Ala., —Twenty-three hundred men paid their poll taxes in Morgan county according to announcement of Tax Collector, Chas. Robertson.

TO TAX SHIPPING.

CHRISTIANA, Feb. 3.—The Norwegian government is formulating a measure imposing a tax on all the shipping.

Now Well

"Thedford's Black-Draught is the best all-round medicine I ever used," writes J. A. Steelman, of Pattonville, Texas. "I suffered terribly with liver troubles, and could get no relief. The doctors said I had consumption. I could not work at all. Finally I tried

THEDFORD'S BLACK-DRAUGHT

and to my surprise, I got better, and am to-day as well as any man." Thedford's Black-Draught is a general, cathartic, vegetable liver medicine, that has been regulating irregularities of the liver, stomach and bowels, for over 70 years. Get a package today. Insist on the genuine—Thedford's. E-70

THOUGHT FOR THE DAY.

Live a little, love a little, as you pass along;
Cheer the hopeless and the weary by a frendly word or sog;
Smile the more whe clouds are lying low upon the misted hills;
Sooth the souls all sadly singing; for love will heal a whole world's ills.
Live a little, love a little, laugh at fancied pain;
Close you eyes ad dream of flowers sweet and fragrant after rain;
Ease the load of burdened shoulders do the very best you can;
Sure, 'tis love that breaks the boulders, love of God ad of man.

Dr. Hopkis has returned from New Orleans where he has been taking a special course in the study of the eye, ear, nose ad throat.

E. V. Joes, brother of Mr. C. Fen Joes, died at Rockford last week.

Dr. Grady Broadhead will engage in the practice of medicie at Radolph. He, with Mrs. Broadhead, have already removed td their new home.

Miss Lurline Harper of Wetumpka has bee visitig relatives in Clanton for the past week.

Dr. ad Mrs. J. R. Powe of Maylene were in attendance at the Richards-VanDerveer weddig last Friday.

Moved!

For the information of our Subscribers Patrons & Friends and the Public in general, we desire to state that the Union-Banner Office and printing plant is now located in the A. C. Smith building, formerly occupied by V. J. Gragg, on the opposite side of the street from our former location.

In our new and more desirable quarters, we are glad to welcome our friends to call on us at any time.

Come to see us, whether on business of just a friendly call, and we will be delighted to show you one of the most up-to-date and best equiped printing plants to be found in any small town in the state.

"THE UNION-BANNER."

BRILLIANT WEDDING OF MR. RICHARDS AND MISS VANDERVEER

Solemnized at the Methodist Church in Clanton Last Friday.

The marriage of Miss Bessie VanDerveer and Mr Alex Sandlin Richards, which occurred at the Clanton Methodist church on Friday evening at 9:00 o'clock, was surely one of thee most elegant that has ever occurred in our city.

Miss VanDerveer was attended by her sister, Mrs. Powe, of Maylene, and by the following girls, several of whom are sority sisters of the bride, as her bridesmaids: Miss Willetta Stringfellow, Reform; Miss Stella Kate Lovelace, Brewton; Miss Lucy Hairston, Fort Deposit; Miss L. E. Morgan, Miss Maud Mullins and Miss Mary Curry

The bride was given in marriage by her father, Mr. Joseph VanDerveer, and preceded to the altar by two little flower girls, Catherine Hays and Myra Johnson.

Mr. Richards had as his best man Mr. W. K. Mullins, and his groomsmen were: Mr. Martin, Mr. Dick Johnson, Montgomery; Mr. Alred, Mr. Renau, a cousin of the groom, and Dr. Powe of Maylene. Mr. Tom Littlejohn and Mr. John VanDerveer were ushers.

Miss Vanderveer's wedding gown was fashioned of white taffeta made en traine, her lace veil being caught with orange blossoms. Her flowers were lillies of the valley and roses in a shower boquet. The bridsmaids wore pink and white taffeta froks and carried pink roses.

A musical programme was given by Miss Emmette Matthews, violin Miss Curry, violin; Professor McDonald, Professor Tinsley, Mrs. Amzi Gowan and Mrs. Middleton. Miss Alice Standfield played the wedding march.

The church was beautifully decoratedin trailing vines, ferns and flowers, the bridal tones of pink and white prevailing. Great white pillows massed in pink and white blossoms closed the aisles.

Mr. and Mrs. E. M. Pinckard entetained at a brilliant reception on Friday night immediately after the wedding. This beautiful home on South Seventh street was most lovely on this occasion with a wealth of southern smilax, palm and ferns. About 100 guests were present and the entire lower floor was thrown open.

The Rev. H. T. Crumpton, pastor of the Baptist Church conducted the ceremony at the Methodist Church, which was used owing to it's capacity and proximinity to the house of the bride.

After the reception at the Pinckard house the happy couple and some friends left in autos for Montgomery where they started on a bridal trip South.

One of the most enjoyable features of the many social functions given for the Richards- VanDerveer bridal party was the stag dinner at which Mr. Hugh Jones complimented Mr. Richards and his attendants Thursday evening at 6 o'clock. Covers were laid for 12 and a very delightful menuwas served. The dinner, cards, favors and central ornamentswere most appropriate for this stag affair. Mr. W. K. Mullins was toastmaster and in his usual inimitable manner caused much merriment. Those present were M. Weil and Dick Johnson of Montgomery, Mr. Renau of Wetumpka, Mr. Richards, father of the groom, from Opp; Mr. Powe of Maylene, Mr. Tom Littlejohn, Mr. Martin, Mr. W. K. Mullins, Mr. Joe VanDerveer and Mr. Alex Richards.

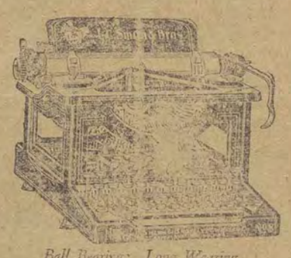
CARNLEY WANTS DEBATE

Montgomery, Ala., Feb. 1.—Challenging his opponents, Messrs. Sam P. Kennedy and Henry P. Merritt, to be present and take care of themselves, J. A. Carnley, of Elba, candidate for president of the Alabama public service commission, will start the political ball rolling in Alabama Thursday night at the Grand theater in Montgomery.

Mrs. Rachel Jones, 79, died in Shelby county.

Dr. T. S. Sheffield, of Columbiana was panfully injured by a horse.

THE VICTIM.



Tommy saw a small tow tug in a large ship, and heard the tug whistle loudly.

"Oh, papa," he cried, greatly excited. "See! The big boat's got the little one by the tail, and it's squealing."—Globe-Democrat.

The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the *user* have dictated its construction. The *user* has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—[illegible] new place of impact for each typeface.

Choice of Carriage Return—[illegible] special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, type bars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

L. C. SMITH & BROS. TYPEWRITER COMPANY
Factory and Home Office, SYRACUSE, N. Y., U. S. A.

H. M. SIMPSON, Register in Chancery.

Today And A Generation Hence

The flight of time makes us think of the future. The baby of today reflects

what greatness may be acquired when he grows up. And any influence that brings relief to the expectant mother is the first and greatest of obligations. There is a splendid remedy known as "Mother's Friend" that has been a safeguard, a helpful daily influence, to a host of women. Applied externally to the muscles they become pliant, they stretch without undue pain, there is an absence of distress, the nerves are soothed by taking away the burden of leaving all to just natural conditions.

We do not know to what extent the comfort and ease of the expectant mother influences the mental development of the child. Its physical nature, however, must be greatly aided. And it may easily be understood why with a restful nervous system, a calm anticipation and a joyous expectancy, there can be none of those harassing disturbances to provoke nervous conditions.

There is in "Mother's Friend" the direct and immediate help that all expectant mothers require. Used by their own hand, guided by their own minds, they learn at once the blessed relief from morning sickness resulting from undue stretching. They experience daily calm and nightly rest. It is indeed "Mother's Friend." Get a bottle today of any druggist. Then write Bradfield Regulator Co., 710 Lamar Bldg., Atlanta, Ga., for one of the most entertaining and valuable little books ever presented. It is worth writing for.

Morrow, Jr., Bankrupt, will offer to the highest bidder, for cash, during the legal hours of sale, subject to approval of said Court, on the 24th., day of February, 1916, stored at the storehouse formerly occupied by the bankrupt at Clanton, County of Chilton, State of Alabama, all the right, title and interest Bankrupt had in and to 99 soda water cases and bottles, $99.00; 30 empty soda water cases, $6.00; 1 carbonater, $250.00; shafting and arms, $5.00; 1 gauge, $10.00; book accounts, estimated, about $200.00. Right reserved to sell separate or as whole. Inventory now on file.

Montgomery, Ala., the 3rd day of February, 1916.

GEORGE STUART,
Receiver.

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because 50c worth makes a whole pint (128 teaspoonsful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Guaranteed here by

Alred Drug Co.

JOHN C. REYNOLDS

Greenville, Ala., Feb. 2.— John C. Reynolds, aged 73 years, died at his home Sunday in the eastern part of Butler county. Mr. Reyand served throughout the war between the States. The deceased was a member of the Christian Church for many years.

Several weeks ago he fell from the loft of his barn, and sustained a broken leg.

Nashville, Tenn—Governor Tom Rye Tuesday refused to honor a requisition from the Governor of Illinoise for W. T. Lyle, against whom was lodged a charge of murdering policeman John G. Burke in Chicago on December 16.

Washington—Republican leader Mann, speaking in the House Tuesday on the urgent deficiency bill, arainged AgricultureDepartment officials and others for what he declared was an "almost stertling extravagence in use of public funds for travelling expenses."

Oklahoma City, Okla.—W. B. Johnson and John Yeager were killed and eleven other laborers injured Tuesday when a work car overturned ten miles north of Oklahoma City on the Edmonton interurban line.

FANT IS CHARGED WITH MARRYING TOO SOON

Montgomery, Ala., Feb. 2.—J. C. Fant is under arrest on a charge of marrying a Montgomery girl before obtaining a divorce from his wife, who now lives in Columbus, Ga. It is alleged that Faunt left his wife and came to Montgomery, where he married Retta Lewis. His trial has been set for February 11 in the Court of Common Pleas.

TWENTY ONE PERSONS TREATED FOR RABIES

Montgomery, Ala., Feb. 2.—Twenty-one persons were treated at the State pasteur department during January, while 33 heads of animals were examined for evidence of rabies during the same period. Investigation showed that nineteen of the animals were afflicted with hydrophobia.

Counties which furnished patients for the department during the month follow: Barbour, 2; Blount, 1; Clarke, 1; Coosa, 1; Etowah, 4; Fayett, 1; Jefferson, 4; Montgomery, 1; Morgan, 1; Perry, 1; Shelby, 2; Tallapoosa, 2.

1,535 POLL TAXES PAID.

The poll tax books in the office of Tax Collector, J. D. Collins, show that up to and including February 1, he collected this year, 1,535 poll taxes. This is a considerable increase over the number who paid last year, but is a few short of the year before.

The fact that this is an election year has probably sweled the poll tax fund quite a bit.

CLANTON ITEMS

We call atteention of our readers this week to an interesting letter from Mr. J. Bice of Thorsby in regard to the present political and economical condition of our nation, state and county. The letter was sent in by Mr. Bice a couple of weeks ago, but owing to our crowed and rushed business we have been unable to publish same before this week.

J. D. Sims of Fairview was here on Saturday, boosting the meting at the court house in the interestof the farmers.

Dr. Gragg has discontinued his medical practice in Clanton, and is going away for a three months review in school, after which he intends to locate in Birmingham. His many friendshere regret that he is to leave Clanton. The Union-Banner wishes him full measure of the success he most justly deserves, wher everhe may see fit to go.

We can repair most anything but make a specialty of reparing Fords. Maddox and Hurtt. adv.

FOR SALE—At a bargain. Practically new Frazier Road cart. Will sell cheap for cash. Apply at The Union-Banner office. adv.

Mrs McDonald, mother of Prof. McDonald, was suddenly stricken by paralysis a few days ago.

Commissioner R. J. Williams of Mulberry poked his head in at our office door Thursday while he was in town Thursday.

Mr. N. A. Kicker is now acting as receiving teller at the Clanton Bank.

H. J. Gilbert, traveling representative ofthe Western UnionTelegraph Co., is in Clanton on business for the Company. Mr. Gilbert was for a long time manager ofthe Clanton office, and has many friends here who are glad to see him again.

Our new linotype machine is almost as big a wonder as Julius Palmers steam clothes pressing machine was when he first installed it.

We beg pardon of our readers for not getting the apper out on time this week. We have been engaged in the ustpendous task of moving our office and shop, and consider that it is doing mighty well to get out not over a day late. We would not have been able to do so but for the great working capacity of our new Linotype machine.

Did you notice the eclipse of the sun on Thursday? It passed unnoticed, except by a few.

FARM WANTED—We have three inquiries from Illinois parties who want Alabama farms. If you have any for sale, write to us at once. American Land Co., Athens, Ga.—ad.

CLANTON TO HAVE A NEW BOTTLING PLANT.

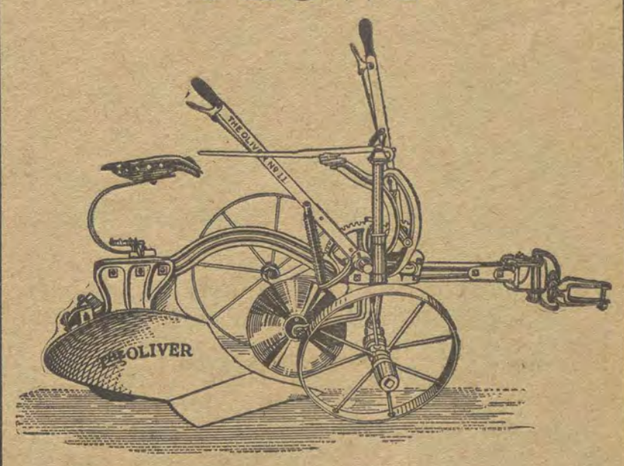
A new company has been formed for the purpose of establishing and operating a bottling works in Clanton, with a capital stock of $5,000.

This company will be known as Clanton Chero Cola Bottling Co. and will manufacture chero cola and all kinds of soda water drinks. The home of this company will be in the new brick building owned by W. W. Fox on 6th street. The principal stockholders are T. N. Pugh, owner of Chero Cola plant at Montgomery, which is the largest bottling plant in the South, J. B. Amphlett, formerly a prominent business man in Michigan, who has been located at Autaugaville, Ala., the past four years, L. H. Amphlett, a young northern hustler, and J. P. Morrow, of Clanton, who needs no introduction to Chilton County, having been in the bottling business here for years.

It is expected to have this plant in operation inside of 30 days.

TO THE PUBLIC:

We wish to announce to our friends and patrons that we are now operating the new Barber Shop in the Johnson building, having sold our old shop and purchased the new one.



We have the best, cleanest and most sanitary shop in Clanton, and guarantee you the very best service.

We thank all for their former patronage, and solicit your continued visits to our shop.

WAGONER & SANFORD

FOLEY'S HONEY AND TAR
stops the cough and heals lungs

OLIVER CHILLED PLOWS

In offering this plow to the trade, we do so feeling that there is none better we can get, and few as good.

Be careful in buying, there is an imitation on the market, and you do not want any except the JAMES OLIVER.

The Oliver Sulky as shown in cut is wonderful in its ability to turn the soil, bury the cotton stalks and grass, and is death to the boll weevil.

We are the only people in Chilton county who pay license to sell Guns, Pistols, Cartridges and Rifles, and we will appreciate your trade.

Prince Albert is such friendly tobacco

that it just makes a man sorry he didn't get wind of this pipe and cigarette smoke long, long ago. He counts it lost time, quick as the goodness of Prince Albert gets firm set in his life! The patented process fixes that—and *cuts out* bite and parch!

Get on the right-smoke-track soon as you know how! Understand *yourself* how much you'll like

PRINCE ALBERT

the national joy smoke

It stands to reason, doesn't it, that if men all over the nation, all over the world, prefer P. A. that it must have *all the qualities* to satisfy your fondest desires?

Men, get us right on Prince Albert! We tell you this tobacco will prove better than you can figure out, it's so chummy and fragrant and inviting all the time. Can't cost you more than 5c or 10c to get your bearings!

Watch your step!

It's easy to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, *but it is impossible* to imitate the flavor of Prince Albert tobacco! The patented process protects that!

Copyright 1916 by R. J. Reynolds Tobacco Co.

Buy Prince Albert everywhere tobacco is sold—in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—in that classy crystal-glass pound humidor with sponge-moistener top that keeps the tobacco in such great trim!

THE UNION-BANNER

VOL. 4. CLANTON, ALA., FEBRUARY 10, 1916. NUMBER 45

THE NECESSITY COUNTY SUPERVISION OF SCHOOLS

Urged in First Annual Report Ever Made by a State Superintendent of Education.

In the first annual report ever made by a state superintendent of education in Alabama the necessity for county supervision was urged in strong language, and this need has been emphasized anew by each successor in office. Supt. Solomon Palmer twenty-five years ago used these words: "We have in name county superintendents, but in contemplation of law and in reality they are mere disbursing officers. The duties prescribed for them in the law look mainly to a faithful application of the school funds. Nowhere is it intimatd that it is their duty to visit the public schools of the county. In fact with such small compensation it is not expected or required by law that county superintendents should devote their time to the visitation of public schools and the instruction of the teachers. Just as intelligent and faithfulsupervision is given to the schools does the cause f education advance in the county. One live progressive and active superintendent will make his influence felt for good in every school in the county. Our public school system will neve accomplish what it ought until competent County Superintendents are chosen who devote their entire time to supervision."

From the time of the above utterance until the present there has been a crying need in Alabama for better supervision of schools. A substantial advance was made some years ago when a law was passed making it possible for a county board of education to employ the superintendent for full time, and to require him to give his services to the work. This plan has been adopted in fifty percent of the counties of the State and has worked well, but the remedy was only partial. Under the law, the county superintendent could practically name the county board of edueation and therefore manipulate and control the public school interests of the county at his own will.

The remedy was deeper and the 1915 Legislature changed the plan for selecting the county board of education, placing the entire responsibility upon the voters of the county. If the spirit of the law is complied with, this board must consist of men of affairs, with business experience and ability, who will manage the school system of the couny in accordance with improved business principles. The superintendent is relieved of the responsibility of this kind and is required to give his entire time and effort to the development of teachers in the work and to the supervision of schools.

These board members are to be nominated in the May primary of the several counties of the State and no friend of education can render any more needed service at this time than to bring to the attention of the sovereign voters of the county tremendous importance of seeing that the school interests of the county are entrusted to five men who possess that degree of intelligence, business ability, and integrity of character that will guarantee the widest possible educational opportunity for the boys and girls of the county.

The school interests of the county are to beabsolutely entrusted to five members constituting the county board of education and the bigger the men the greater the probability that the schools of the county will be administered for the common goodof all.

Illiteracy Campaign in Montgomery.

On Saturday, January the 29th, the Alabama Illiteracy Commission conducted a campaign for funds in the city of Montgomery. The date above mentioned was set aside by the Mayor in a proclamation as illiteracy day, and the movement was indorsed by all civic, commercial and religious organizations of the city. As a result of the campaign a considerable sum was raised.

Teachers to be Paid.

According to a circular from the Department of Education to the various county superintendents, the Governor is making an effort to arrange for the payment of teachers during this week (Feb. 7) for services rendered in the month of January.

FOR SALE—Beat the boll weevil planting early variety Velvet Beans. Special prices made on quanity orders of 50 bushels or more. Write your wants and get price. J. T. Purefoy, The Bean Man, Furman, Ala. Adv.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

MARS HILL

Health of this community is very good at present.

Rev. Sutton Smitherman filled his regular appointment at Mars Hill last Sunday. His sermon was enjoyed very much by all present.

Rev. W. P. Lowery preached at this place Friday night. His purpose at this place was to reorganize the farmers Union. Hope the organization will prosper and therby help the farmers, for if there is a class of people needing help it is the farmer.

Mr. R. A. Barnett of this place visited relatives in Jemison Sunday.

There is going to be a concert at this place on Saturday night, Feb. 12th Every body is invited to come except the fellow with the bottle of whiskey. Prof. O. L. Mims, teacher of the literary school at this place, has been at work on the program for some time and hopes to entertain all who are present.

There is singing at this place every 2nd and 4th Sundays. The class has had a little practice in the 1916 book and find it full of good songs for most all occasions.

Mr. Jim Tucker and Miss Minnie Tucker of Concord visited relatives at this place last week.

TWO CHUMS

UNION GROVE

Please allow me space in the dear old paper to say a few words for the first time in 1916 in regard to the jolly community, Union Grove.

Health here is very good at present although I am sorry to say that one of our school girls, Miss Emma Arledge had to be carried to Birmingham for an opration for appendicitis. We will miss her verv much in Sunday school also in literary school. Hope she will be back again soon with her bright smiles.

We didn't have any Sunday school Sunday last, but had a good sermon by Rev. Honeycutt.

We hope to have a lage crowd with us next Sunday at 9:30 a.m. for Sunday school. We also want a crowd to be with us Sunday afternoon at 1:30 for the singing. Every body is invited to come and bring your song book "Praise and Thanksgiving.

Our Literary school is progressing nicely under the care of Prof. Smith and Miss Ruth DeVore, although part of our boys have stopped out and gone to farming but the girls are holding out faithful. They are progressing with their wrk nicely.

A number of our young people attended the song service at Oak Hill Sunday aftrnoon, some went to Collins Chapel and the remainder staid at home.

Our girls are planning to play a match game of basket ball with Collins Chapel team but haven't got their ball yet.

Mr. and Mrs. Shaw of Jemison visited the latters parents Saturday and Sunday.

Mr. and Mrs. C. H. Robinson of Jemison visited Mr. and Mrs. J. W. Sorrell Sunday last.

Mr. Wash Foshee and son Monroe of Clanton visited W. H. Conway and family Sunday.

Miss Mollie Vinzant of Clanton spent last week with Miss Lessie Vinzant.

With much success to the Union-Banner and its many readers.

LOMAX LOCALS.

Health of this community is good at pesent; no complaint except bad colds.

Mr.and Mrs. Jimmie Williams visited his sister at Fort Deposit on last Friday, and returned Sunday with his mother.

Misses Essie Parker and Ruth Jone attended the singing at Jackson's Chapel Sunday.

Mrs. Thomas Williams visited Mrs. John Parker Sunday.

Jim Williams went to Birmingham last Monday after Mr. Bernie Maddox, who has been in the infirmary for appendicitis.

Claud Teel of Birmingham is visiting at Lomax.

J. P. Cost took a trip to Birmingham last Friday.

Misses Toy and Essi Littlejohn visited Miss Essie Parker Sunday.

MOCK TRIAL.

A mock-trial of a cold blood murder case will be held at Cane Creek next Saturday night at 7:30 o'clock. The defendant is Will Smith. The attorneys for the state are J. E. Barret and Sloan Parker. For the defendant, T. M. Hammond and Carlton Golden.

CHIEF OF POLICE IS SHOT.

ANNISTON, Ala., Feb 6.—While endeavoring to arrest a man named Barnwell late last night, Chief of Police Ferguson, of Jacksonville, was shot and dangerously wounded. Barnwell also was shot, the bullet taking effect in his right arm. The report here is that each man shot the other while Barnwell, who is a cotton mill employe, was resisting arrest.

Ferguson was appointed chief of police at Jacksonville only about ten days ag after the municipal authoroities, it is stated, had experienced considerable difficulty in securing a suitable man for the place. The former chief of police of that place was killed some time ago.

SHOOTS NEGRO TO DEATH.

SELMA, Feb. 8.—While resisting arrest with a shot gun late yesterday afternoon, John Melton, bad negro, was shot to death by patrolman A. S. Williams.

WADE'S WEEKLY LETTER ON DIVERSIFIED FARMING

Irish Potato is a Very Profitable Crop to Grow as a Part of Diversified Farming.

The Irish potato is a very profitable crop to grow as a part of diversified farming if the producer will be judicious and take all natural advantages. The best advantages are extremely early and late production. One should plant for the first potatoes on the market, while the price is high, and new potatoes are in demand. To do this successfully, plant an early popular variety like Irish Cobbler or Triumph and plant them in February. Plant on good well drained rich loam, fertilize with well rotted manure and some commercial fertilizer. Cover them with ridges four or five inches deep and drag the ridges off about the middle of March. When the plants begin to show, apply a light sprinkle of Arcenate of Lead; do not wait until the bugs are on the potatoes before using the light, weak solution of Arcenate because the bugs wil have already deposited their eggs on the under side of the leaves. The poison will not reach the egg and in a few days you will have a crop of bugs that you cannot kill without using enough poison to injure the plants, thus destoying part of the yield. Your success will depend on getting a little Arcenate of Lead there ahead of the bug and about once a week during the growing season apply a light application of the poison being careful not to get it too strong. Do not use Paris Green as it poisons the plants much more than Arcenate and does not kill the bugs any better.

When the potatoes get nearly to maturity do not wait for the vines to die or the potatoes to get entirely through growing. Plow them up just as the bottom leaves begin to turn yellow. You will not get as many potates but the difference will be more than made up in the price. Divide your potatoes into two groupes, putting the large ones from the diameter of a silver dollar and over in one grade and the small and cut potatoes in an other. The first grade is the marketable potato and should be put on the market in uniform one and a half bushel bags. Unless you are going to have early potatoes it will not pay you. The mid- Summer market is always over supplied and potatoes grown at that season are hard to keep for future market, often resulting in total loss.

If you get your crop off early, you can grow a second crop. The small potatoesor the culls from the first crop can be spread out in a cool dry place to season for about three or four weeks, then spread out again in a cool damp place and keep moist until they sprout. Plant these about the middle of July on good moist loam land; cultivate well and fight the potato bug as before. The potatoes grown from this crop can easily be kept through the winter in ordinary dry hills and are ready for best Spring prices. These potatoes make the best seed that can be had. New seed should be obtained fom the Easten States every other year.

It is not the best for any farmer to plant too many acres. He should one or two acres and form an association of one or two hundred farmers and sell together. Remember that extremely early or late potatoes pay best.

JAMES A. WADE,
Commissioner Agri. and Inds.

COUNTY FARMERS UNION.

The Chilton County Farmers Union will meet with Mt. Pleasant Local, No. 329, Thursday and Friday, Feb. 24 ana 25, 1916. Those coming by rail will get off at Lomax. The first day will be public. We hope to have representatives from each Local in the county.

J. M. SMITH,
County Secretary.

Post Master.

SINGING.

There will be a singing at Maple Springs on next Sunday afternoon, Feb. 13, in the new books. Everybody invited to come.

EVERGREEN

There is much sickness in this community now of bad colds and lagripe.

Mrs. W. T. Johnson has been on the sick list for some time but am glad to say she is better now.

On account of the bad weather the farmers haven't done much work yet.

Our Sunday School is progressing nicely under the management of Mr. Powell as Superintendent. In spite of bad weather we have a large attendance every Sunday.

Mrs. Lett and little children have been on the sick list this week.

Miss Clemmie Beaird visited Miss Effie Lett Sunday.

Mr. John Lett attended preaching and Sunday school at Prospects Sunday afternoon.

Miss Effie Lett visited Miss Hildamae Johnson Sunday afternoon.

Miss Jewell Strength spent Sunday with Miss Maud Patterson.

Mr. Joe Wells from near Clanton has been around the world again this week aand last. He has been to Evergreen.

Mr. J. T. Hughes and A. A. Beaird went to Clanton Saturday.

Mr. Ocie Taylor spent Saturday night at Corinth.

Mr. Kinley Williams, a student at Prattville was at home Sunday.

Our literary school is progressing nicely Many have had to stop on account of sickness but we hope to see them all back soon.

Hoping to retad letters from al the communities every week I remain a faithful reader.

ELMORE COUNTY IS DIVERSIFYING NOW

WETUMPKA, Ala., Feb. 5.—That Elmore county is practicing diversification aand stock raising is indicated in Mr. G. H. Parker's gin report.

Mr. Parker reports 20,313 bales of cotton, counting round bales as half bales, ginned in Elmore county, prior to January 16, 1916, as compared with 32,691 bales ginned prior to January 16,1915.

NOTICE

Notice is hereby given that I will be at Kincheon in Precinct No. 6, in Chilton county, in the forenoon of Saturday, Feb. 12, and in the afternoon of th same day at Enterprise, for the purpose of collecting road tax for the year 1916.

M. C. WILLIAMS,
Road Overseer Precinct No. 6.

PINEDALE SCHOOL.

The public is cordially invited to be present at the school building on Saturday night, Feb. 12. The patrons of the school are urgently requested to be present. Something good in store for all.

D. F. CHERRY, Teacher.

ALABAMA GETS $7,750.00 OF ROCKEFELLER MONEY.

NEW YORK, Feb. 8.—The general education board which administers funds established by John D. Rockefeller, today announced the following appropriations to educational institutions in Alabama:

Calhoun Colored School, Calhoun, Ala., $5,000; for home makers clubs among the negroes in the state at large, $2,750.

L. B. POUNDS WRITES CONCERNING FARMERS.

Pletcher, Ala., Feb. 3, 1916.

Editor Union-Banner:—Thinking that perhaps a few dots from Pletcher might not be offensive to the readers of your paper, I will say that perhaps and owing to the beastly weather, and some other things everything and everybody is as blue as blue can be. Hopes and future prospects are as a dead cock in the pit. This may soud like a wail from Jericho, but fi you were a farmer or a renter, perhaps swamped with debt, (as four-fifths of the farmers are) with the present outlook, confronted by the boll weevil proposition, and high prices for guano and everything you have to buy, and nothing to buy it with, fr you can't get anything for what you have to sell. Even our merchants are drying up on the stem as their patrons or customers are without money to buy their goods, and they can't sell on credit with the present and future outlook from the farmers, who compose four-fifths of their patronage. So our merchants are about as deep in the mud as the farmers are in the mire.

Now, sir, as we find it around here so you will find these same conditions prevailing throughout thewhole country. These same paralyzing conditions now exist throughout the length and breadth of the land, so far as the farmer and supply merchant are concerned.

They are real, they are serious, they are appalling. They point to one of the most serious conditions in this country for over half a century.

Ah yes, we know there are some hot air machines that are continually bleating abut good times just ahead. Every big daily paper flings this prosperity dope in our faces every day, under blazing head lines. Because national banks, corporations, syndicates ad munitin manufactories are piling up millions; bcause speculation gambling, graft, and every conceivable kind of exploitation is in active operation, literally drinking up the substance of the land, robbing the farmers and producers, while they continue to dope them with the old fazzled out tune of good times and the rolling waves of prosperity just ahead. Yet the farmer ought to be just rolling in clover; he ought to be carrying a good fat bank account. I am sure it is not for the lack of advice for he sure gets plenty of it; it comes from every quarter, from the tramp, to the President—he is told to diversify, to multiply, make hog and hominy, live at home (even if he has no home) cultivate less land, make more, have more, save more, sell more, keep more, and ad-infinitive galore. Still we have the poor always with us.

Now all sensible people admit that industry, economy, perseverance, good management are all right in their places, and indispensable to a success in any line f business. Yet we find something radically wrong; as said before, seriously wrong.

Well, what are we going to do in the matter, Brother Farmer?

There is one thing dead certain and sure, that what ever is done, we must do it ourselves, for you had as well expect the wolf to look after the interests of the lamb as to look for help and succor from those who are and who have been prying up us and our class for lo these many years. Yes, something must be done and done quickly, or there will be much more to come.

Well there is said to be hope as long as there is life. It is a long lane that never turns.

We have called a mass meeting at Pletcher on the third Saturday in this month for the purpose of considering some steps to be taken. We see the farmers union in Georgia is the Farmers Unin in Georgia are on from a long sleep. We must wake up too. We must fall in line with them and do it soon.

If the editor permits this, I promise to give a series of articles on this all important question of what to do, and how to do it.

Let me say that county politics is important, but is as a gnat on a bull's horn, when compared to this.

Same Old Fogy,
L. B. POUNDS.

NOTICE OF DISOLUTION.

The partnership heretofore existing between W. A. Kemp and T. W. Kemp, under the firm name of Kemp Brothers, at Clanton, Ala., is this day dissolved. The business will be continued by W. A. Kemp, who assumes all liabilities of thefirm and all accounts due the firm are to be paid to him.

W. A. KEMP.
T. W. KEMP.

Clanton, Ala., Jan. 24, 1916.

BOX SUPPER

There will be a box super atPoplar Springs Saturday night, Feb. 12, 1916.

Every body is invited.

NEW SALEM

Editor Union-Banner:

As it has been quite awhile since I saw a letter from this community I decided to write one myself.

Health of our community is fairly good at present although there has been a number of cases of grippe.

All are looking forward o the time when the ground will be dry enough and in good shape for plowing.

Our Sunday school is improving. We have a good attendance every Sunday.

Rev. Lowery filled his regular appointment here Sunday with good attendance.

Mrs. Olive Arnold of Birmingham is visiting her parents here, Mr. and Mrs. A. F. Mims.

Mr. Fred Caton is visiting home folks this week.

Mrs. Mamie Wilder came down Sunday from Birmingham to visit home folks.

Mr. and Mrs. Albert Pate are visiting the formers parents.

Mr. Bill Pierce and family visited D. H. Gentry Sunday.

Miss Bonner Jones and Messrs. Willie Martin andWilbur Sphere of Mulberry took dinner with Miss Hester Robinson Sunday.

Mr. and Mrs. Enoch Cox visited Mr. and Mrs. Tom Childress Sunday.

Mr. and Mrs. Emmett Gentry visited at Enoch Cox's Wednesdaay night.

Jemison, Ala., Feb. 7, 1916.

Editor Union-Banner:—Will you please allow me a small space in the paper to say a few words to the blind and crippled of our county?

I have been blind for five years, and could not see anything with my right eye; I heard of Philip Bowman of Mineral Springs and went to him for treatment. I invite all who are blind or cripple to come and see him, as he will do you good. He has done a wonderful thing for me. I can now see how to travel and stay out of danger. You can find him in the vicinity of Mineral Springs. He has only been treating my eye one week.

Yours truly,
T. M. DRIVER.

FREE SPRINGS.

Health of this community is very good at present.

Our Sunday school has revived, and seems to be making some improvement. Hope it will continue to grow. We all ought to study the word of God more.

Mrs. Gladys Prim and children of South Alabama are visiting at Mrs. J. C. Prim's.

Mrs. Roper has returned from a very delightful visit to Maplesville. Roper is all smiles because his batching is over.

Your correspondent would like to correct a mistake that crept into our letter last week. The box supper and valentine party at the school building to be on Monday night, Feb. 14, instead of Feb. 28. Come on all folks who enjoy innocent fun, and let's enjoy it.

CARD OF THANKS.

Dear Editor—Please give us space to express our heartfelt thanks to our friends and neighbors for their kindness and help to us. May the richest blessings of God rest on every one of them.

B. C. THOMAS & WIFE.

AMPHLETT WRITES ON GROWING PEANUTS

He States There is Money in Growing Peanuts and Gives Proof Why He Knows.

Editor Union-Banner—After reading an article in your last week's paper written by the Autauga Oil and Fertilizer Co. man at Prattville I can't help taking up my pen and let the people of Chilton county know that there is money in growing peanuts and why I know it is so. I had 5 acres of red Spanish peanuts last year that yielded 40 bushels to the acre and it was the poorest year we have had for growing peanuts since I came South. From this 5 acres we baled direct from thepicking machine 3½ tons of fine peanut-vine hay which sold for $60.00, nearly $20.00 per ton. Will any farmer in the South dispute the fact that $60 paid for all labor, seed, picking, and marketing this five acres of peanuts. I sold 200 bushels of peanuts at 75 cents per bushel cash in November giving me $150.00 clear profit on 5 acres of peanuts. The peanut oil mills at Bundridge offered me 60 cents per bushel for these peanuts. Now I happen to know the Gentlemen in Prattville who is trying to discourage the growing of peanuts and have had a personal interview with him in regard to putting in peanut crusher for making peanut oil at Prattvile. I found he had cold feet on the proposition and lacked business nerve to invest money in the new venture. Peanut oil mills are springing up all over the state of Alabama and I believe there will be one in Chilton next fall if the farmers of Chilton county will grow the peanuts. If there is not an oil mill in Clanton there are several near enough who will be glad to buy your peanut crop at a fair price, and don't forget that there is big money in it even if you have to sell for 50 cents per bushel and bale your peanut hay. Now in regard to Mr. Henry Golson who only got 13 bushels to the acre last year. The writer knows Mr. Golson and the facts of the case are Mr. Golson happened to be in a droughtstricken district last year which accounts for his small yield. Mr. Golson is known in Autauga county as the best all around diversified farmer in that county and has made himself comfortable and well off by growing peanuts, soy beans, cow peas, water melons and live stock. Mr. Golson is not a cotton farmer and always has something to sell every time he goes to town and takes the cash home for his products. What we want in this county is more Henry Golson's.

J. B. AMPHLETT
Autauga County Farmer for Years.

MOCK TRIAL

There shall be a mock trial at Collins Chapel, Friday night Feb. 11th, 1916. Defendant Grady Maddox charged with stealing chickens; lawyers fr the defendant O. M. Martin and J D. Gentry; for state H. W. Lowery and D. H. Martin.

Every body come.

MR. H. K. HAYES.

Mr. H. K. Hayes was the son of Mr. Bennett Hayes and was 59 years old at his death. He was a native of North Carolina, and lived there two years before moving to Elmore county, Alabama, where he lived for 45 years.

He became a member of Union church in Elmore county 31 years ago, and there he served his Lord faithfully. Then he helped to constitute Mt.Hebron church and becam a deacon of same 18 years ago. He remained in this church till he moved to Chilton county 12 years ago, at which time he moved his membership to Maple Spings, and here he remained till he died, and was laid to rest in the cemetery there.

Mr. Hayes lived up to his duty in the church. He was liked by all who knew him, and we wish to give his bereaved family our sweetest sympathy of praises.

He leaves a wife and several children, and a number of other relatives and friends who will sadly miss him.

The deceased was sick with pneumonia only seven days when death overtook him, and he was called to the great beyond.

CLAIM PAID

Mr. John Mims of Falakto was insured only 3 days in the North American Accident Insurance Co., when he fell off the top of a house and broke a leg. Claim was paid promptly. He was thoughtful to carry that protection; and every other man should do the same thing. See J. C. BROWN and insure before it is too late. Your time has money value andshould be protected. The only cost is $10.00 a year. The policy pays you $25.00 a week in case of a sickness or accident, and $5,000 in case of death. J. Watts Moore at Mullins store, is also agent for this insurance. Adv.

THE CHILTON COUNTY HIGH SCHOOL NEWS

BY

JEAN WYATT, Editor.

The athletic boys won another distinction in basket ball last Saturday evening when they defeated the "tall five" of the Thorsby Institute. The final score was 23 to14, in favor of the home boys. It is strange to say, but the Thorsby boys as a whole were entirely too tall to do good playing. Such light players on the C .C. H. S. team as Wyatt and Smith could just play around under the Thorsby boys, and the latter could scarcely keep in touch as to where the ball was.

This is the fourth game which our boys have played this season, and they are certainly to be complimented in that they won three of them. The only one they lost was with the high school boys of Notasulga.

On account of the resignation of John Burnett from the presidency of the sophomore class, that grade met the other day and selected a new head for their class, together with other officers as follows: President, Clyde Williams, Secretary-Treasurer, Sadie Gerhardt.

Hub Allen asked a girl to ride with him the other day, but the girl's mother happened along about that time, and told Hub that she had better go along with her.

At the game the other evening someone asked Leon Kemp why he was not taking part in the game, and he replied that it was not from any incompetency, athletically speaking, but that he had torn up his last pair of pants, and was just waiting till the athletic association collected money enough to buy him another.

If anyone wants to know what is in the corner of Mrs. Wood's room, just inquire of Otto Jones; he ought to be able to tell you.

Several school boys and girls, accompanied by Mr. Wood, went to Marbury last Friday afternoon, and witnessed a game of basket ball between the Marbury High school boys and the Baptist High School boys of Thorsby. A similar trip was made on Monday afternoon to see a game between the Marbury boys and those from Elmore County HighSchool.

The C. C. H. S. basket ball team always has someting good in view. They are going to play a game with Thorsby Institute on next Saturday week, and on the fouth of March they are going to Notasulga, and do their dead level best to redeem the game which they lost with these boys on their own ground some time ago.

In the school news last week through a mistake on the part of the printers of The Union-Banner an article from a Jemison correspondent concerning a game of basket ball up here on the Saturday before, was published in that paper. This was a mitsake and was not supposed to be published in the school news.

Several of the poets and historians of the various classes have turned over their work for the annual to the Editor-inChief, Jean Wyatt. All the pupils in school are showing a pofound interest in this undertaking and itis indicated now that the senior class is going to publish an annual which will be a credit to them and to the school.

The school is very glad to have in its midst again, Mr. Briggs Crumpton, who has been just lately cured of a long spell of the grippe which he caught during the mid-term examinations.

T. G. WYATT.
(Paid political adv.)

THE SAD DEATH OF LADY ACCIDENTALLY BURNED.

Mrs. Katie Candler was so badly burned on last Saturday morning, that after a few hours of painful suffering she died.

It appears that Mrs. Candler had lighted the fire and was resting in front of it when her clothing came in contact with the blaze. She was alone at the time, and her feebleness was such that she was not able to exinguish the flames. Her screams attracted the attention of Mr. Popwel, her nearby neighbor, who rushed into the house and did all he was able to save the unfortunate lady, but hewas too late;the fire had already burned the old lady so badly that she soon died.

Mrs. Candler was about eighty years old, and had resided in this vicinity most all of her lifetime. She was the mother of Mr. Will Candler, a prominent farmer of this city.

The remains of he deceased were buried in the Clanton cemetery on Sunday morning. The Rev. H. T. Crumpton preached the funeral at Mrs. Candler's former home.

CIVIL SERVICE EXAMINATION FOR RURAL MAIL CARRIERS.

The United States Civil Service Commission has announced an examination fo the County of Chilton, Alabama, to be held at Clanton, on March 11, 1916, to fill the position of carrier at Verbena, and vacancies that may later occur on rural routes from other post offices in the above mentioned county. The examination wil be open only to male citizens actualy domiciled in the territory of a post office in the county and who meet the other requirements set out in Form No. 1977. This form and application blanks may be obtained from the offices mentioned bove, or from the United States Civil Service Commission Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

Editor Union-Banner:

I have been requested by a number of citizens who live out side of Thors by to call a mass meeting through your paper of all citizens of Chilton county at Clanton next Saturday, Feb. 12 to protest against the new plan of working the public roads. We want all to come and speak out against such unjust methods. A man that is able can pay $5 for a year and the man that is not able to pay$5 in money must work ten days during the year. How unjust!

Yours truly,
J. BICE.

SHERIFF'S SALE, REAL ESTATE

The State of Alabama, Chilton county.

Cut Your Store Bill Down One Half

Tens of thousands of farmers as well as town and city folks cut down their store bills one-half last year and saved money in spite of generally short crops and reduced wages.

Absolutely millions of dollars were saved and countless families lived better than ever before in the face of the cotton crisis and general business depression.

How were these burdensome store bills cut down? By the real money-saving power of good home gardens, rightly planted and kept planted and tended through the season.

Hastings 1916 Seed Catalogue tells how to cut store bills down; tells about garden and farm seeds of kinds and a quality that cannot be bought from your merchant or druggist. It's full of garden and farm information. It's free if you ask for it. Write for it now. **H. G. HASTINGS CO., Atlanta, Ga.**—(Advt.)

A SPY IN THE CHILTON COUNTY HIGH SCHOOL.

Yes, having gained entrance to the Chilton County High Cehool while the teachers institute was in session last Saturday we soon found our way to the Domestic Science room, being guided by the sovory odors issuing therefrom.

A class of young girls in white aprons and caps, under the direction of efficient teachers had prepared a wholesome and appetizing menu for the teachers assembled.

We were told the civic improvement club donated a large portion of the groieries with which the deft hands and fingers of the Domestic Science class prepared the delightful repast. In a few years these little maids will be competent hostesses in their own homes, due to the efficient training they are now receiving in the Chilton County High School.

LIST OF JURORS SPECIAL COURT

The following is the list of jurors for the special term of Circuit Court which convenes at Clanton, February 14:

MRS. G. W. WILLIAMS GAVE UP ALL HOPE

Family Was Told She Would Die and Children Were Summoned to Bedside.

Many wonderful indorements have been given Tanlac, but the statement made by Mrs. G. W. Williams, of Gadsden, Ala., is in many respects, so remarkable, as to be almost incredible. Her cmplete statement follows:

"For nearly fifty years I have had kidney trouble. I also had stomach trouble and suffered frm nervus indigestion. I could take no nourishment except a little sweet milk and would have palpitation of the heart and nervous headaches and terrible pains in my sides and back. I got so weak I had to take to my bed, and I stayed there 18 months. Doctors called two or three times a day, but I kept getting worse and fell off until I was almost a skeleton. I had to be turned in bed, and only weighed ninety pounds.

"My husband spent more than $800 trying to get me well, and finally I got so bad I was told I could live only a few days longer. I believed of course that I was going to die, and told my husband to telegraph to Thomasville, N. C., for my son, and to Atlanta and Birmingham for other children.

"When my daughter in law, Mrs. R. C. Nelson, arived from Atlanta, she begged father to get me Tanlac. He went right down to Vance' Drug Store and got me a bottle. I began taking it, and on the econd day I began to get hungry, and aked for something to eat. They gave it to me, and it agreed with me and I have been eating ever since. After a short time I got so I could eat anything I wanted, and just as much as I wanted.

"After this I improved right along, and it wasn't any time hardly before I was out of bed. It just seemed as if the more Tanlac I took, the better I got, and I have actually gained 48 pounds in weight. I sleep good now and am not nervous any more like I was. Yes, I feel almost as well as I ever felt in my life, and am doing my house work, and mlik the cow and I churn the milk.

"After I got able to go about I visited my daughter, Mrs. Short, at Ensley, Ala., and have just returned from a trip to the store. I don't do anything but talk about Tanlac. All of my neighbors are talking about it too. I think it is truly wonderful as to how this mediciine helped me.

"Every word I have told you is the truth, for I was so near death's door that I told my husband and my children how I wanted to be buried, but fo course I didn't know at htat time but the doctors had told them that there was no use to give me any more medicine.

"I want you to thank Mr. Cooper for me, as I owe my life to this Tanlac. If nayne doubts my word, let them come to see me, or talk to any of my neighbors if they want toknow how low I was. Tanlac is sold in Clanton exclusively by the Upchurch Drug Co. adv.

MORTGAGE SALE.

The State of Alabama County of Chilton

Default having been made in the payment of that certain mortgage executed by H. S. Hicks on the 4th day of Nov. 1913 to the undersigned, and under and by virtue of the powers of sale contained in said mortgage, the undersigned will proceed to sell to the highest, last and best bidder for cash in front of the Post Office Door in the Town of Maplesville, Alabama, on the 12th day of Feb. 1916, between the legal hours of sale, at public outcry, the following described real estate to-wit:

E 1-2 of SE 1-4 Sec. 22, Tp. 21 R. 11. S 1-2 of NE 1-4 Sec. 26. Tp. 21 R. 11. NW 1-4 of SE 1-4 of Sec. 26, Tp. 21 R. 11.

Said sale will be held for the purpose of satisfying the debt secured by said mortgage, including a reasonable attorney's fee.

This the 17th day of Jan. 1916.

J. E. Bearden,
Mortgagee.

Logan & Logan, Attorneys.

Jack Bice, v. p. l., continued to March term.

Frank Collins, a. and b., waived to grand jury; bond $150.00.

What Is Home Without an Heir!

This is a subject that has a place in all minds in all times. And it naturally directs thought as to the comfort of the mother during that wonderful period of expectancy. Mothers who know recommend "Mother's Friend." It is an external remedy for the stretching muscles, enables them to expand without undue strain, assists the organs to crowd against nerves, to pull at ligaments to thus avoid pain.

Thus restful days are assured, peaceful nights are experienced, morning sickness, headache, apprehension and other distresses are among the various things which women everywhere relate they entirely escaped by using "Mother's Friend. And by its effect upon the muscles the form is retained and they return to their natural, smooth contour after baby is born.

This is an interesting and valuable thing to remember. The skin is but a net work of very small blood vessels and connective tissue and by keeping it well lubricated, firm and in strong, vigorous condition it will not get soft. And when the time has passed it will return to its natural shape without the seams and scars that are so liable to be the case if "Mother's Friend" is not used.

Get a bottle of this invaluable aid to expectant mothers. Any druggist will supply you. It is harmless but wonderfully effective.

Write to Bradfield Regulator Co., 713 Lamar Bldg., Atlanta, Ga., for a specially written guide book for women interested in the subject of maternity. It will prove an inspiration. It contains information that every woman should know all about. Write today.

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from any source. These druggists say—"Buy a bottle of this remedy and try it for 24 hours, we guarantee it to relieve Whooping Cough, Severe Coughs, Croup or any Bronchial Affection, and we will refund your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction." This mixture is the best remedy ever used for any of these complaints. You may not take advantage of this guarantee and try this medicine, and get your money back, rather than buy another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money.

In buying this remedy, besides securing the absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because one bottle makes a whole pint (128 teaspoonsful) when mixed at home with simple pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this is positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Guaranteed here by

Alred Drug Co.

Mr. Wash Wilson of Falakto came around to our office Wednesday, and entertained us at length with some of his interesting ideas in regard to matters concerning the political situation in our county, state and nation. We like to talk with a man like Mr. Wilson, and wish to invite all our friends to call to see us when in town and talk awhile with us.

T. L. Tinsley, A. C. Wade, Mrs. J. Q. Wade and Miss Annie Hall Bibb motored to Columbiana Sunday. The party returned aall right, but up to this time their Buick has not got back.

C. M. Hunt has removed his family from Clanton to North Carolina.

"The Funniest Man on Earth."

Come and Bring Your Friends.

King Improved Cotton Seed

If you want them to plant this year, now is the time to place your order.

I wish to announce to all who are interested, that I am going to place an order for KING IMPROVED COTTON SEED for planting, direct with the originator of this splendid early variety of cotton, and if you want any of these seed, now is the time to place your order with me.

Saturday, February 19th, Last Day.

My shipment will be closed on the above date, and I will not handle any orders after then.

The price of the seed will not be over $1.75 per bushel, and if the freight rate wil alow it, I will make a reduction from this price of as much as I possibly can.

If you want any of these seed fill outthe roder blank below and send it to me at once by mail. It matters not whether you have already spoken to me about seed or not; fill out this blank and send to me. I will not order seed for anyone unless I get this signed order from the individual.

Clip the blank below, fill it out and send to me. This will guarantee your receiving the seed you want. And do this before Saturday, February 19th, 1916.

ORDER BLANK.

.....Ala., ...191....

Mr. W. M. Wyatt,
Clanton, Alabama.

Dear Sir:—

I hereby agree to purchase from you ..... bushels of KING IMPROVED COTTON SEED, at a price not to exceed $1.75 per bushel, delivered at Clanton.

I further aagree to receive and pay for these seed when they are delivered to me.

(Signed).....

The "SILENT SMITH"

—Model 8 shows what should **now** be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the *user* have dictated its construction. The *user* has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each typeface.

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

L. C. SMITH & BROS. TYPEWRITER COMPANY
Factory and Home Office, SYRACUSE, N. Y., U. S. A.

404 N. 20th St. Birmingham.

Pains, Rheumatism, Sprains, Cuts, Burns, Etc.
25c. 50c. $1. At all Dealers.

A bad negro has been creating a bit of excitement in thevicinity of Mt. Zion for a day or two. He has been going from place to place, stealing, shooting at folks, and from all report seems to have the real bronchowild west, bad Mike desperado spirit. Officers and citizens are in search of him, and if found, he will no doubt be brought to rigid account for his acts.

Shelby county has received the money it had tied up in the Calera Bank, which failed a short time ago.

Mrs. A. B. Bristow died over at hSelby Springs recently.

Walker county took in 1036 new registered voters.

This is For YOU!

Don't waste a single hour but come right in and bite off a slice of this great BIG BARGAIN FEAST. It is a veritable feast of Bargains for the whole family—for men, women, children and babies—and especially for YOU. Bargains are everywhere, in every department, just waiting for YOU to pick them up. Come on in—the pickings are good.

Here are some of the many things:

Bargains in Mens' Clothing.
Bargains in Womens' Clothing.
Bargains in Childrens' Clothing.
Bargains for the Babies.
Bargains in Farm Tools.
Bargains in Table Linens.
Bargains in Comforters.
Bargains in Bed Spreads.
Bargains in Grocery Department.
Bargains in EVERYTHING.

Everywhere you turn you see bargains.

There is bound to be something you want at this store, and it is a Bargain now. Just how long it will remain a bargain depends on how quick you and the other yous snap them up.

Our prices are always low, but right now they are so small you will need a microscope to find them. But while these bargain prices are so small as to be almost as nothing, the goods are all of our well known high standard of excellence.

Clanton Mercantile Co.

Clanton, Alabama.

GREAT OLD REMEDY FOR SKIN DISEASES

S. S. S. Drives Poison From the System.

Get it fixed in your mind that skin eruptions, Scrofula, Eczema, burning itching skin, and all skin diseases are due entirely to impure blood. If the trouble was on the outside of the skin, by simply washing and keeping it clean you could obtain relief—not even ointments and salves would be necessary. Agree with us in this belief, and you can be restored to health. S. S. S. is a purely vegetable treatment that you can secure from your own druggist—it is a blood tonic that will purify your blood and cause a decided abatement of your trouble, and finally make you well. Fifty years ago S. S. S. was discovered and given to suffering mankind. During this period it has proven its remarkable curative properties as a blood purifier and tonic. Has relieved thousands of cases of disease caused by impure blood, and chronic or inherited blood diseases. You can be relieved, but you must take S. S. S. Therefore be sure. Don't take chances, don't use lotions. Get S. S. S. from your druggist. If yours is a special case, write for expert medical advice to Swift Specific Co., Atlanta, Ga.

Students of the Perry County School will erect a manual trai ing hall.

Judging from the papers the counties of the state all have a supply of candidates.

Western people are buying cut over lands in Washington county.

Lowndes county has registered about 3000 dogs, and hasn't stopped yet.

Wallis Roper of Florence was buried at Columbiana, his old home.

The Republican state convention which will name delegates to the national convention, is to meet in Birmingham on May the 17th. The state convention will also choose nominees for the various state offices to run in the general election in next November.

There seems to be something attractive about the office of commissioner of the Fourth district of Chilton county, judging by the number of candidates in the race for the nomination.

SCRAP IRON.

I buy all kinds of Scrap Iron and Old Brass, and pay the high est cash prices for same. When you come to town oad up all your Old Plows, and Old Stoves and such like, and ring them to me. I am located at the meat market of B. McKee.

Oil Treatment for Stomach Troubles

A simple prescription made up of a combination of [illegible] vegetable oils is producing wonderful results for sufferers from stomach and intestinal troubles. The remedy which is said to have originated in France, where it has been used for years by the peasantry, was introduced into this country by George H. Mayr, a leading Chicago druggist, who cured himself of severe stomach, liver and intestinal troubles by its use. Those who have used it say the first dose is sufficient to convince any one of its remarkable merit, and that within twenty-four hours the sufferer feels like a new person. This medicine which has become known as Mayr's Wonderful Remedy, is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

We want to make The Union-Banner worth your time and attention, and we hope our readers duly apreciate our most earnest efforts togive them a paper of merit. We get the news.

The non-jury term of the county court of Bibb county in sesion Monday. The sesion was held at Blocton, and the docket disposed of was very light.

Perry county is trying to paay off the $800 debt on its county high school.

M. S. Wilson, age 82, died at Columbiana. He was a mason for 60 years.

Ed Summerford a prominent farmer near Falkville was injured Sunday by falling from the loft of his barn. Both his arms were broken, and he was injured in other ways.

"Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes: "For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardui, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured me."

TAKE

Cardui

The Woman's Tonic

Cardui helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts, unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women,—why not you? Try Cardui. E-71

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts As Dynamite on your Liver.

Calomel loses you a day. You all know what calomel is. It's mercury, quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones, and it should never be put intoyour system.

When you feel bilious, sluggish, constipated, and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for 50 cents, a large bttle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take, and is a perfect substitute for calomel. It is guaanteed to start your liver without stirring you up inside and it cannot salivate.

Don't take calomel! It makes you sick the next day; it loses you a days work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and does not gripe. Advertisement.

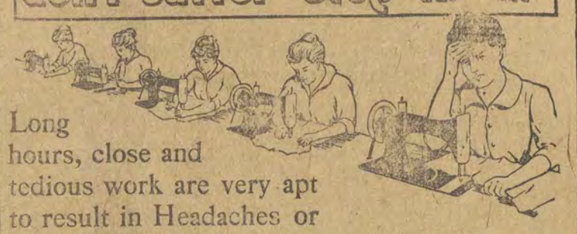
Moved!



For the information of our Subscribers Patrons & Friends and the Public in general, we desire to state that the Union-Banner Office and printing plant is now located in the A. C. Smith building, formerly occupied by V. J. Gragg, on the opposite side of the street from our former location.

In our new and more desirable quarters, we are glad to welcome our friends to call on us at any time.

Come to see us, whether on business of just a friendly call, and we will be delighted to show you one of the most up-to-date and best equiped printing plants to be found in any small town in the state.

Newcastle, Penn.

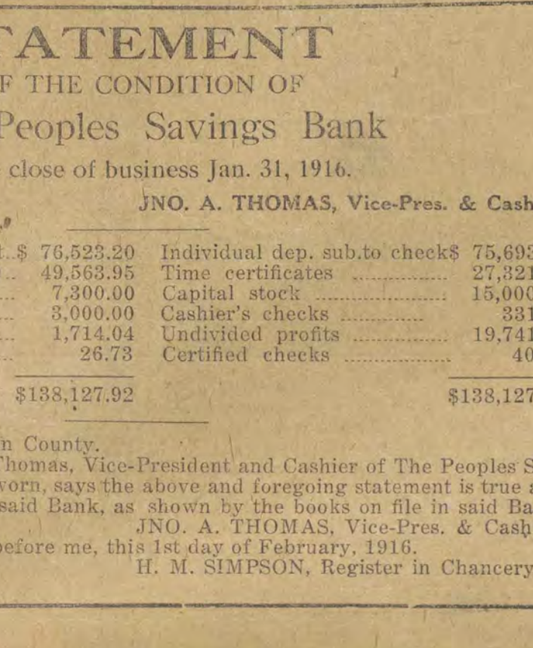
WAR! What Is It All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armour glistening just because Russia wanted to show her love for the little brother—Servia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time; over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an ineffacable impression.

Your War News Clarified



It is not enough to read the daily news reports. Your ability to comprehend conditions and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos and the "Review of Reviews" will do it for you.

Get the Review of Reviews for a Year

Send the Coupon only. It brings the big, handsome book, charges prepaid, absolutely free. All we ask is that—after you get the book and like it—you send 25 cents for shipping and $1.00 a month for three months to pay for the "Review of Reviews" for one full year.

Send no Money If the book isn't worth more than you pay for book and magazine together, send it back at our expense. But be prompt. The world-wide fame of this compendium will make these few volumes disappear from our stock room at once. Send your Coupon today—and be in time.

Review of Reviews Co.

The ministers association of Huntsville has called a mass meeting to be held Thursday evening in the county court house for the purpose of raisoing money to aid the starving Jews in Europe.

M. D. Foshee and Judge L. H. Reynolds were visitors to Columbiana Wednesday.

What do you think of the new system of working the public roads of the county? There is some considerable objection to the plan among the people, and they are wanting a mass meeting to discuss the mater. The meeting is to be at the court house next Saturday.

Prince Albert is such friendly tobacco

that it just makes a man sorry he didn't get wind of this pipe and cigarette smoke long, long ago. He counts it lost time, quick as the goodness of Prince Albert gets firm set in his life! The patented process fixes that—and *cuts out* bite and parch!

Get on the right-smoke-track soon as you know how! Understand *yourself* how much you'll like

PRINCE ALBERT

the national joy smoke

It stands to reason, doesn't it, that if men all over the nation, all over the world, prefer P. A. that it must have *all the qualities* to satisfy your fondest desires?

Watch your step!

It's easy to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, *but it is impossible* to imitate the flavor of Prince Albert tobacco! The patented process protects that!

Men, get us right on Prince Albert! We tell you this tobacco will prove better than you can figure out, it's so chummy and fragrant and inviting all the time. Can't cost you more than 5c or 10c to get your bearings!

Buy Prince Albert everywhere tobacco is sold—in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—in that classy crystal-glass pound humidor with sponge-moistener top that keeps the tobacco in such great trim!

OLIVER CHILLED PLOWS

In offering this plow to the trade, we do so feeling that there is none better we can get, and few as good.

Be careful in buying, there is an imitation on the market, and you do not want any except the JAMES OLIVER.

The Oliver Sulky as shown in cut is wonderful in its ability to turn the soil, bury the cotton stalks and grass, and is death to the boll weevil.

We are the only people in Chilton county who pay license to sell Guns, Pistols, Cartridges and Rifles, and we will appreciate your trade.

VOLUME IV. CLANTON, ALABAMA, FEBRUARY 17, 1916. NUMBER 46.

CITIZENS MASS MEETING AT THE COURT HOUSE

Resolutions Passed and Actions in Regard to Roads, etc.

In response to the call of citizens of Mt. Pleasant, and Mr. J. Bice, as published in the last week's paper, something over five hundred voters met at the court house last Saturday. Mr. Bice called the meeting to order at eleven a.m. He was elected chairman and J. L. Harris was elected secretary.

The following resolutions were passed:

"Resolved that all who are subject to road duty be instructed not to pay the road tax of five dollars, but to work ten days on their own road."

Resolution No. 2. "Resolved that this meeting is opposed to our county being put further in debt by our county commissioners and we hereby ask the Commissioners and Judge of Probate not toissue any more time interest-bearing warrants against our county."

It was moved and carried that the chair appoint a committee of one in each Beat to meet the Commissioners Court on Monday, he 14th, and ask them to repeal said laws.

Resolution No. 3—"Resolved that if the Commissioners should refuse to repeal said law, the Chairman of this Committee, Joe Wesson, be instructed to call a mass meeting of all the people of the county, and ask the Commissioners and Judge of Porbate to meet with them in mass meeting and confer over the matter."

Resolution No. 4—"Resolved that the chair appoint a committee of 5 to investigate the condition of the finances of the county, and to see if there is any law to investigate all the warrants that have been issued, and for what purpose they have been issued. Resolved, further that the comittee be especially instructed to see if there is any way to stop running the county in debt. The above committee to report back here at a meeting to be called by J. Bice, the chairman of said committee."

Under the above resolution the following committee was appointed: J. Bice, Chairman; A. E. Teel; Fonzo Vinson; J. M. Mims; Lee Vickers.

The following letter from Mr. J. Bice to County Treasurer, Littlejohn, was read before the meeting:

Thorsby, Ala., Feb. 1, 1916.

Mr. J. Wiley Littlejohn,
Couny Treasurer,
Clanton, Ala.

Dear Sir: I have heard so many statements about the condition ofthe county treasury, I will certainly appreciate it if you will give me some information.

What amount of interest-bearing warrants has the county issued?

How much does the county owe on its regular current expenses?

How much does the county owe in all?

What amount of debt can the county legaly make?

Thanking you in advance for the above information, I am,

Respectfully,
J. BICE.

The following is Mr. Littlejohn's reply to the above letter, which was also brought out in the mass meeting:

Clanton, Ala., Feb. 12, 1916

Hon. J. Bice,
Thorsby, Ala.

Dear Sir: In reply to your inquiry about the condition of the county treasury, I will state that I am glad to give you any information that I can.

You ask what amount of time interest-bearing warants has been issued by the Comissioners Court. According to my books, there has been registered time interest-bearingwarrants, $137,000.00. The floating debt is about or more than $20,000.- Borrowed money, $2,500.00. Interest on time warrants, $88,000.00, making the total indebtedness of the county which has been registered up, to date, $247,500.00. I do not know how much the county owes, that has not been registered.

The total income of the county is about $33,000.00 each year.

When I can serve you let me know.

Respectfully,
J. W. LITTLEJOHN,
County Treasurer.

It was moved and carried that a copy of the proceedings of this meeting be sent to both our county papers for publication.

Remember that dollar you owe us on your subscription. We have just made some improvements in our printing plant, and are depending on you to help us out with our burden by paying up your back dues. Don't forget us when you come to town.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

EVERGREEN.

Some of the farmers here made a good use of the few pretty days we had last week.

Many of us are mighty bad behind with our work, and it will be mighty hard for us to keep up. A little later on the candidates will be so thick we can't work for stopping to talk with them. But this is one time when it wil not take much talking. They need not tell us what has been done; we can all see for ourselves. Tell your wife to look good before she throws her dish water out, or she may throw it on a candidate.

Farmers here are somewhat at a loss to know what to do about planting cotton. The boll weevil and the high price of fertilizer has made everything look mighty bad to me.

Some time ago I went into the place of business of one of myfriends and asked him how he sold velvet beans. He replied, $4.40 per bushel. I asked him what in the world made the price so high. He said he didn't know, but he reckoned it was the war. Just one week later I was at the same place again and a friend was trying to sell this other friend some of the same beans. When asked what he would give for beans, our first friend said he hardly knew: the market was down. Finally he reckoned he could give $2.00 a bushel.

Yes, it is just such tight times, and the war of course is the cause of it all. And all we can do is juts say I reckon so.

Best wishes to The Union-Banner, and its many readers.

SUBSCRIBER.

MACON MOB HANGS YOUNG NEGRO MURDERER

MACON, Ga., Feb. 12.—Marvin Harris, a 21 year old negro, was hanged to a tree in Twiggs county today after a race between a mob and officersseeking to arrest him on the charge of shooting and killing S. A. Fountain, an aged Wilkinson county farmer near Jeffersonville, Ga., yesterday. The mob formed after Mrs. Fountain had testified at the coroner's inquest that Harris had confessed to her and threatened to kill her if she told.

Immediately after Mrs. Fountain told her story officers started out in search of the negro. Before they could locate him, however, a mob had formed, captured the negro, hanged him and fired a number of shots into the body. Harris is said to have confessed.

HOPI INDIAN UPRISING WAS GREATLY EXAGGREATED

WASHINGTON, Feb. 12.—Indian superintendent at Tuba, Arizona, toda yreported to Coto Sells, Commissioner of Indian affairs, that the trouble caused by the killing of a Navajo Indian recently while resisting arrest had been greatly exaggreated, and that there were no indications of an uprising. Supt. Runke repirted that his investigation disclosed that the victim was a bad Indian regarded as mentally unsound, and that he had made a vicious attack upon the policeman attempting to arrest him.

FAIRBANKS FOR PRESIDENT

TERRE HAUTE, Ind., Feb. 12.—Charles W. Fairbanks was indorsed for the republican nomination for president at the annual meeting of the Indiana Lincoln League of Republican Clubs here today. A resolution endorsing the "principals of peace and preparedness" was adopted.

WESTERN FARMERS ARE INTERESTED IN ALABAMA

MARBURY, Ala., Feb. 10.—Middle and western states farmers have oflate been making inquires as to farm lands in this vicinity. This is owing to the fact that during the spring of 1914 and 1915 there were a number of settlers came from the sections menioned, and their success has induced others to look to the sunny south for homes.

It is true that the mild weather which preceded the late cold spell did, to some extent, force buds on the early trees to swell, but not much damage has been done to the trees in this vicinity.

The roads are again being put in excellent shape in Autauga county, and auto drivers need no longer fear the crossings near Wadsworth or near the Chilton county line at Mountain Creek as trestle structures have been made by the Autauga county authorities.

Marbury merchants are already enjoying a good spring trade. Farmers are making purchases for spring supplies and, as a rule pay ing in cash.

Some cotton is occasionally shipped from this point. Cotton owners are slow to let go their holdings at present prices.

CLANTON POST OFFICE

List of letters remaining uncalled for in this office, for the week ending Feb. 12th, 1916.

LADIES.

B. M. ROBERTS,
Post Master.

PRIZES BY ALA. DAUGHTERS OF CONFEDERACY

Two Medals to be Awarded in Historical Contests.

To Alabama Teachers, Students and Daughters of Confederacy:

The Alabama Division, Daughters of Confederacy, desiring to increase the interest of Alabama students in southern history, has offered a gold medal to the white boy or girl who sends the best answers to historical questions. A loyal daughter, Mrs. Sophie Hertz, has offered a similar medal for the best answers to other historical questions. Confident that this undertaking will meet with your approval, we are relying upon your co-operation for its success.

Sincerely,
DIXIE BIBB GRAVES,
Pres. Ala. Div. U. D. C.

Rules Governing Contests.

1. All Alabama students under 19 years of age are eligible to compete for the Alabama Division medal, and all under 16 years of age are eligible to compete for the Hertz medal.

2. Contestants may secure information from any source while studying these questions, but the answers must be written entirely without help, and in the presence of teacher or committee of local chapter.

3. The principal of each school, or committee of each chapter shall examine papers of contestants, select the best two papers, signing fictitious names to each, and send to Dr. W. M. Swartz, Woman's College of Montgomery, Ala., not later than April the 4th, 1916. At the same time they shall send both the real and corresponding fictitious names of these contestants to Mrs. E. M. Trimble, 536, South, McDonough St. Montgomery, Ala.,writing on outside of envelope, "Historical Contest."

The committee of award are Dr. M. W. Swartz, Chairman, Montgomery; Judge Wm. H. Thomas, Montgomery; Mr. J .B. Baxley, Montgomery.

Questions for U. D. C. Contest.

(All students under 19 eligible—answer any five.)

1. Discuss the Mecklenburg Declaration.

2. Write brief sketches of the following: Raphael Semmes; Wm. L. Yancey; Father Ryan; J. L. M. Curry.

3. Give causes and effects of Mexican War, and Alabama's part therein.

4. Discuss the Monroe Doctrine, its history and application to present-day conditions.

5. Give an account of the Battle of Mobile Bay.

6. Relate some incident of which you have heard, typifying life in Alabama during the war between the States.

Questions for Hertz Contest.

(All students under 16 eligible—answer any five.)

1. What has Alabama done for the Confederate Veteran?

2. Give a brief history of the Crusier Alabama.

3. Explain the terms Mason & Dixon's Line, Squatter Sovereignty, Carpet Bag Government.

4. Tell what you know of the burning of University of Alabama in the year 1865.

5. Write briefly of Miss Julia Tutwiler and Mrs. Amelia Gorgas.

6. Discuss, in not more than 150 words, the "Ku Klux Klan."

To the Presidents, Superintendents and Students of the Schools, Colleges, and University of Alabama, and Daughters of Confederacy:

The Daughters of Alabama, with a desire of stimulating and promoting among the young people of the state an interest in the study of history, especially the history of the War between the States, offer several of prizes for the best answers to historical questions, and best essay. The teachers of the state are earnestly requested to encourage and urge the pupils to enter these contests. The following are the regulations which govern the essay contest.

1. The Lizzie Crenshaw Memorial, a handsome gold watch, will be awarded for the best essay, subject, "The Battle of Shiloh."

2. Contest is open to all children, who are residents of Alabama, and under the age of nineteen.

3. Length of essay not to exceed 1,500 to 2,000 words, written one side of paper, and typewritten if it is possible, though not essential.

4. Preparation for essay may be made at home or elsewhere, with a full use of all references, but essay must be written without references, and in the presence of teacher, or a member of local committee appointed by the President of the local U. D. C. Chapter.

5. The principal of each contesting school shall send, before April 4th, 1916, the two best essays from his school, to Mrs. L. M. Bashinsky, Chairman Lizzie Crenshaw Memorial Committee, Troy, Ala.

6. Each essay must be signed in a fictitious name, the real and fictitious name and name of school and principal, must be sent to Mrs. Key Murphy, Troy, Ala.

7. Essays will be graded by committee upon subject matter, and the style.

8. This watch will be awarded during U. D. C. Convention, the first week in May.

Will you not interest the students of your school in this contest?

ELIZABETH B. BASHINSKY,
Troy, Alabama.

Automobiles repaired. Best tools Maddox and Hurtt repair shop. adv.

"MIDWAY."

In this edition of The Union-Banne you will find my announcement as a candidate for commissioner of the fourth district of Chilton county subject to the action of the Progressive primary.

Owing to the fact that this is the first time I have ever offered myself as a pnblic servant, I feel that it is expedient that I set forth a few reasons why I have done so.

To begin with, I will state frankly that I am not getting in the race for the salary the office pays alone, be- I can earn a larger compensation at my trade.

I have had several years practical experience in construction work, which experience, my friends tell me might be of advantage to the county in the matter of letting contracts, and I know it would be tothe advantage to the county in the mater of receiving work.

For those who are not acquainted with me, will say that I am a native of Chilton county; am now living near the place where I was born and raised.

I have never voted anything but a Republican or Progresive ticket.

Our beat is democratic by a large majority, though not quite as strong as it used to be. When I reached the voting age we had nly about ten voters on our side; we now have about forty.

In conclusion I will thank you in advance for your suport and influence, and wil promise if nominated, that I will exert every reasonable effort to be elected, and if sucessful, my motto will be "to spend the county's money as enteligently and as economically as a good citizen spends his." In other words, I think when the county spends a dollar, a dollar in value ought to be received in return.

With best wishes and kindest regards, I am,

Yours very truly,
CHAS. COOPER.

Mountain Creek, Ala.

P. S. We have never had a commissioner from this end of the county.

ROAD COMMITTEE MET COMMISSIONERS COURT

The committee consisting of one man from each beat in the county, appointed at the mas meeting last Saturday, to go before the Commissioners Court, and ask that they repeal he new road laws of Chilton County, went before that body on Monday as they were instructed to do on Saturday.

The Comisioners heard their plea, and decided to dispose of the proposition in the folowing manner:

The committee was instructed by the Court to prepare petitions for each beat separately, and secure the names of all the persons for and against the new system. The method of working the roads in each beat is to be governed by the majority on the petitions for that beat. If a majority favor the new system in any beat, then such system will be established in that beat and carried out. And likewise, if a majority should be in favor of going back to the old systme, then the old system will be reestablished and carried out in that beat.

The committee was given till on next Monday to circulate the petitions, and make a report back to the Commissioners.

Petitions were prepared at once and sent to all parts of the county. When the beats have been worked thoroughly in regard to both the old and the new ysstems, it is the purpose of the committee to have the petitions returned to the chairman, J. O. Wesson, Clanton, Route 8 who will present them to the Court on next Monday.

J. Bice of Thorsby was here at the road meeting Saturday.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

As every one in school knows, Omar Reynolds is a very startling speller—although not exactly a spelling book. With all of his ginius in Orthography and word-building he has coined a new pronounciation for the word, "cologne",—namely, colog-ne.

Ed Teel was asked to spell the word, "choose" the other day, when he replied, c-h-e-w-s. Ed must have been hungry, or studying about something to eat at least.

Erle Pinckard being asked to write a composition about a bird convention, replied that he was not there at the time, and therefore could not write what happened there.

Mrs. Wood asked Eleanora Teel why she was wearing her cap in school, and Elnora would not tell her. But it was later found that she was wearing it to curl her hair for the party that night.

Joe Kanjutzky said he found the cenret of gravity of the broom which he was carrying on his shoulder while walking the campus last Friday evening.

The only consolation Joe had while performing this undesirable feat was that he was not alone. There were twelve more helping him do the "stunt".

The athletic boys are going to play a game of basket ball with the Thorsby Institute team on the latter's ground next Friday evening.

The athletic girls are all wearing a broad smile this week, because their new goals have come. They are going to get down to work and show the neighboring schools what they can do. Although they have not yet played a game with a foreign team, they are determined to win some fame for the C. C. H. S. yet.

Feltz Mullins says that he is not going to have his "pitcher" put in the annual, because he is so good looking that he does not want to be placed among the other members of the class.

Feltz finally agreed that, although he disliked very much for his "photergraf," to appear near those of other members of the class, yet if each member would promise to pay him fifty cents each he would allow the management of the annual that exalted privilege.

The Senior girls call themselves the joint authors of the following: "There is an old proverb—Two is company and three is a crowd,—so Jean Wyatt thought of this when Miss Hutchens invited him to go to the party to be had the other night. Tom Sessions and George Wyatt were the other two lucky victims."

WEEKLY NEWS LETTER OF COMMISSIONER WADE

The Agricultural Outlook for the Southern Farmer.

The financial outlook for Southern agricultural conditions in the fall of 1916 is the most indefinite that the southern people have faced since the days follwing the civil war. Will the financial skies be bright or will the dark shadows of depression hang heavy over head, with war still raging in Europe and cotton contraband of war; with the country infested with boll weevils and weakened by the depression of 1914 and with fertilizing material scarce and prices high? It is a condition that must be met with courage and judicious determination. Efficiency and economy in all labor and expenditures will be the best policy to persue. Who knows but a few months may find the skies clear and the sun shining pure prosperity. On the other hand, who knows but the clouds may gather and burst into a cloud of adversities. Your wisdom and conduct will be the greatest factor in bringing to you either of these condition. Which will you choose?

If you would be prosperous do not borrow no more money than you oblidged to have; do not buy on credit any more than you can possibly avoid; use commercial fertilizer sparingly applied with the seed as a crop starter and keep your crop growing by frequent, shallow cultivation extending late into the season. Plant plenty of food crops for your family and feed for your live stock. Take care of your cows and heifers and provide good pastures in order that you may have plenty of milk and butter for the family and some to sell. Take good care of the sows and keep the pigs growing. Increase your poultry and make the hens help feed the family and have some eggs and fryers to sell. Make a good garden and try to get a living out of it, you will be surprised how nearly you can do it. Plant plenty of corn, velvet beans, peanuts, cow peas, potatoes and hay. Stay at home and work every day that you can find something useful to do. Go to town only when you carry something to sell. Remember that it is while you are in town that you are either spending money or going in debt while the value of your labor at home is going to waste.

Plant a few acres of good early Kings early or Toole. Do not wait too long to get better coton seed as the bes seed may be all sold while you are getting ready to buy. Plant cotton on good warm well drained upland and the boll weevils will give you less trouble. Keep cotton off the rich bottoms and damp lands and plant these to something else. Damp rich land will no longer make cotton but will make bumper crops of weevils.

You have been told these things before, but southern people should read them every day and the man who puts them into practice will have clear skies next fall while the careless and indulgent farmer may be grouping in the darkness of financial troubles.

J. A. WADE,
Commissioner of Agriculture and Industries.

NOTICE—All persons who still owe me for medical services will please take notice that I have authorized Mr. J. W. E. Gulledge to collect said debts, and the accounts have been placed in his hands for collection.

V. J. GRAGG, M. D.
New Orleans, La. Feb. 5th,1916.

MT. PLEASANT.

Health of everybody here is very good. Farmers can't do much for the cold weather.

Mr. Alvin Bussie and family are visiting in Lomax this week.

Mrs. Ethel Burnett is visiting her sister in Birmingham.

Misses Bertha Pate and Precious Caton of Bice's were visitors at Mr. Fletcher Parker's Sunday.

Gant Robinson visited his brother, Lonzo Robinson, Sunday.

The party given in honor of Mr. Lee Taylor was an enjoyable affair. Miss Precious Caton was awarded a cake as the prettiest girl present.

GOOD ROADS INSTITUTES AROUND OVER THE STATE.

The State Highway Association of Alabama, with the assistance of the United States office of Public Roads, and Rural Engineering, will hold a series of institutes throughout this state beginning Feb. 7th at Brewton. The itenerary for the second week is as follows:

Columbiana, Feb. 21, 1:30 p. m.
Talladega, Feb. 22, 9:30 a. m.
Anniston, Feb. 22, 2:30 p. m.
Gadsden, Feb. 23, 10 a. m.
Ashville, Feb. 23, 2:00 p. m.
Centre, Feb. 24, 10:00 a. m.
Clanton, Feb. 25, 10:00 a. m.
Livingston, Feb. 28, 2:00 p. m.
Butler, Feb. 29, 9:45 a. m.
Carrollton, March 1, 10:30 a. m.
Prattville, March , 1:00 p. m.
Montgomery, March 4, 11:00 a. m.

TALLADEGA MAN IN JAIL CUTS HIS THROAT AND DIES

TALLADEGA, Ala., Feb. 12.—Robert Adams, a white man, committed suicide in the county jail here this afternoon at 2 o'clock by cutting his throat with a razor. Adams was charged with murder in the first degree for killing Will Steadwell on West Street in the city of Talladega several weeks ago. His case had been set for trial in the City Court of Talladega for Tuesday, February 14. Adams claimed self-defense. Saturday afternoon was shaving day for the prisoners and Adams had just completed shaving himself when he committed the fatal act. No one saw him when he cmmitted the act, but his cell mate heard him groaning and went to him to find him in a bloody condition, and reported to the jailer. Adams died a few minutes after being discovered. He was a middle-aged man and leaves a large family.

GROWING COTTON UNDER BOLL WEEVIL CONDITIONS

By invitation of the Chamber of Commerce of Montgomery, Dr. Bradford Knapp, Chief of the Bureau of Farm Demonstration Work at Washington, and his assistant, Mr. J. E. Evans, will address a mass meeting in Montgomery Monday evening, February 28th, at 8 o'clock on "How to Grow Cotton Under Boll Weevil Conditions." The people of this county are invited to be present.

The Division of Rural Affairs of the Montgomery organization, directed by Mr. A. C. Davis, proposes to organize a campaign in every cotton county in Alabama for instruction as to methods to be followed to meet the ravages of the boll weevil and to stimulate interest in the work of the County Demonstration Agent and all other agricultural forces in the State are co-operating with the Montgomery Chamber.

Following the address of Dr. Knapp and Mr. Evans, a meeting will be held in Montgomery on Tuesday in which practical farmers, merchants and bankers will participate. All interested persons are invited to be present at the sessions. Several men who grew cotton successfully in Texas, Louisiana and Mississippi under boll weevil conditions will be present and it is believed that plans will be matured that will result in saving the cotton crop of Alabama.

DEPUTIES CAPTURE STILL

Last Friday night Deputy Sheriffs went out to Beat 16 near Providence church, and captured a lard can booze factory somewhat of the wild cat still species. After performing the usual details attendant upon such raids viz: pouring out quantities of beer some mash etc. the officers returned to Clanton with the lard can. No arrests were made.

ARTHUR WILLIAMS ARRESTED.

The bad negro who did so much mischief in the Mt. Zion community last week was located by Deputies on last Saturday and arrested and placed in jail, to await trial on charges of grand larceny, assault with intent to murder. He gives his name as Arthur Williams.

The negro last week intered the house of Mr. Oliver Mullins and stole a watch, gun, razor and eight dollars in money.

He went on to the house of Mr. Will Plier and started into the house, Mrs. Plier halted him, whereupon he shot at her and fled.

He was at large the rest of the week. Sheriff Harris located him at Maplesville and telephoned marshal Carter to look for him. Carter found the negro at once and held him till the Sheriff's deputies reached Maplesville and took charge of him.

Williams is wanted on a charge of some kind in Tuscaloosa county.

ANDY SHEPPERD IN JAIL

Andy Shepperd, a negro whose home is near Maplesville was placed in jail here Saturday charged with shooting at his wife.

ANOTHER ROUND FROM OUR MR. J. N. SCOTT

A few Interesting Things he has to Say About Politics.

Editor Union-Banner:

Here I come for another space in your paper.

I want to say to Mr. L. H. Reynolds that he was just in time in announcing for Probate Judge; for after I was down town and saw how easy Judge Deason turned around in that chair up in the stand of the court room, it caught my eye. I thought my, my, if I only had that job, how I would make the wool fly! Then what a great man I would be; everybody would have to look up to me, and call me "Judge," and do whatever I said do. But I thought what a busted condition the county is in, and began to wonder where I would get my money for my time. But I thought that as I would be boss, I could issue some warrants and get my time that way.

But again thinking it over, I saw the above would not do, as here is my platform:

I stand for the rule of the people, and all of the officials to be servants instead of bosses; I stand for spending the money of the tax payers just like it was coming out of my own pocket—get all the work done as cheap as we can, cut the salaries of officials down to two dollars a day, just like witnesses in court, then we would get more applications for jobs than we could fill, as no man makes that much on the farm; I stand for a fat treasury; good roads, but pay as we go; I am against issuance of bonds and warrants; but stand for free dogs, as well as free niggers; I stand for good schools five months in the winter time; more hours per day and less teachers salaries; and when school is out let the teacher and pupils go into the fields or somewhere else and learn how to make their living the other seven months: I think this more good than nine and ten months per year, of three and four hours per day in the school room, and he rest of the time spent in recess, dinner, basket ball and holidays.

Now, Mr. Tax Payer, you can see that extravagance is advancing in many ways, and a lot of people are unevenly yoked up together. The ox that has to pull behind has the most of the load to pull, and is in much more strain than the one that goes ahead; but if both traveled evenly together neither one would be in a strain.

As an ox he doesn't know any better; but as people we are to have a greater knowledge, and know better. We are commanded to help bear each other's load, and make the burden just as light as we can.

Some people seem to get the advantage of the other fellow, and seek to keep the advantage always. None but those who cut out one office and establish three others instead. At this rate when will we ever get out of debt?

I figure it about like the boy getting the frog out of the well. We will continue to go down, down, down.

There is no remedy for us except at the ballot box.

I know there are many who do not agree with me, but if I am half right in my platform, dont say a word, for that is above the average standing.

Now, Mr. Reynolds, as I didn't want to see but one man out for the nomination for Probate Judge on the Progreesive side, and you having filled the office one term before, giving you 6 years of experience, and as you filled the office so well, considering the condition of the county and everybody else at the end of your term, and as you got in your announcement first, and having the same confidence in you that I have ever had, believing that you will not turn against your people, I have decided not to announce myself for the job, but will support you for the office.

But I would like to know what kind of a punching you are on this time, and whether you have got any new planks in your platform or not.

Wishing The Union-Banner much success, I am,

Respectfully,
J. N. SCOTT.

Jemison, Ala., Feb. 14, 1916.

FOR SALE—Beat the boll weevil planting early variety Velvet Beans. Special prices made on quanity orders of 50 bushels or more. Write your wants and get price. J. T. Purefoy, The Bean Man, Furman, Ala. Adv.

CLAIM PAID

Mr. John Mims of Falakto was insured only 3 days in the North American Accident Insurance Co., when he fell off the top of a house and broke a leg. Claim was paid promptly. He was thoughtful to carry that protection; and every other man should do the same thing. See J. C. BROWN and insure before it is too late. Your time has money value andshould be protected. The only cost is $10.00 a year. The policy pays you $25.00 a week in case of a sickness or accident, and $5,000 in case of death. J. Watts Moore at Mullins store, is also agent for this insurance. Preparedness is galloping along.

Health hint for today: Keep healthy.

Query of the Ages: Just why does one woman kiss another when so many willing men are waiting to be sacrificed?

Here's an original idea—push it along! The quickest way to get good roads in this community is to present every township official with an automobile. Editors first, of course.

Up in Alaska the mecury has been crawling down to 71 degrees below zero. A few more falls and the darned stuff will get down to where editors are never supposed to go.

No, our farmers will not be sowing tacks in the roads travelled by automobiles. They are buying cars instead.

This is to be a great year politically, but of course it will not be permitted to interfere with baseball or fishing.

Congress has seen a great on the subject of preparedness. Incidentally, of course, the people created the light.

Just an ordinary old tomato can is about the proper thing to tie to that continental army scheme. And even at that it might be rough on the can.

The wise man buys his home paper. The foolish one borrows it from his neighbor and thereby advertises his lack of wisdom.

If the government goes into the business of manufacturing its own war munitions we will at least have the munitions with which to fight if war is forced upon us.

Things do move around the farm these days. When Bill wants to come to town he just lights his cigar, steps into his car, puls a lever, gives a few honks, and alights at the store a dozen or so miles away. Some speed to Bill, you bet!

When you meet a grouch on the street, smile at him; if you se him in church, sing to him; when he is at home, feed him; if he creeps into heaven,— but he won't.

When a member of Henry Ford's peace pilgrim party passes a worthless Confederae $5 bill on an ignorant European waiter and receives good money for his change, the average citizen will be pardoned for blushing for some of his countrymen abroad and wondering who will pull off the next fool stunt to humiliate us in the eyes of the world.

If a show troupe should come along and advertise a free performance the people would jam the hall and line up a hundred deep outside the door. And yet the door of every church is open Sundays and the show is infinitely better than that of any troupe that travels the road.

A friend thought to take a furl out of us the other day by insisting that no spot in heaven is suitable for editors. Exactly right. When an editor gets such hell continually in this world he is entitled to something better than heaven in the next.

Right now is a mighty good time to overhaul that farm machinery, and polish it, and oil it, and get it to running smoothly and without a hitch or a break. The smoother and easier it works the more dividends it will earn during the summer's work.

There are a lots of good things we could say about this town—things that we have said before, and expect to say again. But we would like to hear a few warbles from your own lips. Tune up!

The City of Birmingham has gone another step in the restrictions upon whiskey shipping into its limits. Every package of the goods coming into the City must pay a special tax to the municipality, amounting to fifty cents. This kind of a move may be destined for either of two purposes: to increase revenue for the city, or to decrease the use of liquors by the individuals. It is hard to tell in which direction it will cut the most.

BASKETBALL GAME

The Jemison, High School basketball team defeated the Thorsby Institute five on the latters court, Tuesday by the score of 17 to 12, the features of the game were the goal pitching of Hubbard for Jemison and the good playing of Williamson for Thorsby.

Line up Jemison, Hubbard, Sims and Thomas, forwards, Nix center, Fitts and F. Sims, guards.

Thorsby, Swanland and Gothwright, forwards, E. Williamson, center, Maddox and Williamson, guards.

Referee, Prof. Herbert.
Umpire, Prof. Henson.

PENNIES BIGGER THAN DOLLARS

If you were to travel from Canada to the Gulf from the Atlantic to the Pacific, we doubt if you would find anywhere traits of character more admirable than those possessed by our home people.

And yet even we are not free from many of the vagaries that beset human nature, and especially is this the case in determining the relative value of the penny and the dollar.

Not long ago a warm personal friend dropped a penny in a puddle of soft mud. It was only a penny, worth but one cent, yet our friend promptly dived into the ooze and rescued that penny and restored it to the safety of his pocket. He felt better after the ordeal.

In the back yard of that same friend was a lawn mower of expensive make rusting its life away in the rain when it might just as well have oiled up and put away in a dry place to await the coming of the green grass of summer. The expensive lawn mower represented only an expenditure of dollars, while the penny was cash in the puddle of mud.

Another admirable friend, noted for his acute business acumen, will walk from one end of town to the other in order to save a penny in the price of an article. It is good business. But we have noticed valuablemachinery and impliments belonging to that same man standing out in all kinds of weather, the iron accumulating the rust that ends in gradual disintegration and the wood work rotting from constant exposure. A penny saved and dollars rotting and rusting away.

We know of a certain farmer in this township (a mighty good man, too) who doesn't take his home paper because it costs a few cents a year. He is great on saving the pennies. Yet, on his farm, if you take the trouble to drive by, you will find wagons, mowers, rakes, tedders, machinery and implements of every kind still standing without a particle of shelter, some of them actually in the fields. Rust will soon get in its work and push this expensive machinery on toward the junk pile.

We might go and enumerate cases by the dozens, cases of people known to you all. The story is much the same wherever you go or turn.

The immediate penny is saved at the expense of the dollar of tomorrow. We fish around in the slimy ooze in search of the dropped penny, consuming our time and energy for a paltry cent, when by a little effort and forethought we should be prolonging the life and usefulness of articles that cost many dollars.

The value of a dollar is a hundred times that of a penny, and yet there are times in the lives of us all when we give more heed to the penny that we see than to the dollar that we feel.

But then these are just a few of the vagaries of human nature, and we are all intensely human.

OUR COUNTY DEBT

The Commissioners court of Chilton County in session this week, requested County Treasurer Littlejohn to furnish them with a statement of the entire debt of the county. Below we give a reproduction of this statement as it was given out by Mr. Littlejohn.

"Clanton, Ala., Feb. 14, 1916.
To the Honorable Court of County Commissioners of Chilton County, Alabama:
Gentlemen:--

I beg to submit the following report of the funds:

Now in general fund.....$	6,168.97
Special road fund.....	6,493.43
	$12,662.40
The outstanding registered claims in the general fund unpaid$	17,291.14
Regular road warants....	5,979.35
Road improvement warrants and interest cupons	230,836.22
Total outstanding claims$	254,106.72

Respectfully,
J. W. LITTLEJOHN,
County Treasurer.

The figures in the above report are official, and are undisputable as to the financial condition of Chilton county. The total indebtedness as shown therein differs from the report furnished by Mr. Littlejohn to Mr. J. Bice, and read in the mass meeting at the court house last Saturday, in that a number of claims were registered by the Treasurer between the dates of the two reports.

Some of our people have become confused over the matter of the county debt, by the fact that there is a balance of a few thousand dollars in the treasury. They ask the question Why is it that the county is in debt if there is so much balance in the treasury? Well, the answer is an easy and very simple one to one who knows. The money that the county has on hand is required by a law to be held for specific purposes, and cannot be used for anything else. It canot be applied to the payment of such matters as these outstanding debts, and even if it could, every cent that the county has, it would be as a mere drop of water to the water of the ocean. We would still be over $240,000.00 in debt.

BOB ALDRIDGE HURT

Mr. Robert Aldridge, L. & N. conductor, who lives at Clanton, was seriously hurt by falling from his train near Mountain Creek about three o'clock Wednesday morning.

No one saw him when the accident happened, not even his own crew knowing of it, they did not miss him till the train reached Calera.

The injured man lay on the side of the railroad track from the time he was hurt till the accomodation train from Montgomery picked him up about 7:30.

He was carried on to Birmingham for treatment. It is not thought that his injuries will prove fatal.

J. C. Culp of Route 7 was a visitor Wednesday.

MRS. JOINER HAS GAINED 35 POUNDS

Engineer's Wife Says that Her Health Was Completaly Broken Down.

"I have justfinished my third bottle of Tanlac, and have gained 35 pounds," was the truly remarkable statement made by Mrs. Wilhelmina Joiner, wife of Richard Joiner, the well known engineer on the M. D. & S. Railroad, residing at 115 Third Street, Macon, Ga.

"Before I began taking the medicine my health was so broken, and I was in such a badly run-down condition I couldn't give sufficient nourishment to my young baby—in fact I was completely broken down in every way.

"I suffered from nervous indigestion, and have been in a general run-down condition. In fact, for nearly two years I have suffered from nervous prostration, brought on by this trouble.

"I tried doctors; I tried medicine; I tried nearly everything you might think of seeking relief. It just seemed like the harder I tried to get well the worse I got. Finally my condition got so I could not eat any solid food, of any kind without suffering torture. It just looked like I was on the verge of a physical decline, and sometimes I almost despaired of ever getting well and strong again.

"That is just the condition I was in when I began taking Tanlac, and it wasn't any time hardly after I began taking it before I could enjoy a good night's sleep. Then my appetite returned, and it just looked like I was unable to get enough to eat. I ate just anything that was put on the table, and everything seemed to taste good and to nourish me. And the baby! Why, you just ought to see it. It is just thriving and is getting plenty of nourishment. My complexion has cleared up too, and I have good color now for the first time in years. Befare I began taking Tanlac I was as yellow as a lemon.

"My husband thinks there is not a medicine on earth like Tanlac, and my friends are all talking about how I have improved. I am only too glad to tell you what it has done for me, as it has been nothing short of a blessing in my caase.

Tanlac is sold in Clanton exclusively by Upchurch Drug Co. adv.

CIRCUIT COURT ADJOURNED

The special term of Circuit Court which convened here Monday, adjourned for this week on Tuesday afernoon. All cases set for trial this week were continued till next week, except the Alabama Power Co. cases, which were continued till the next term.

SHERIFF'S SALE, REAL ESTATE

The State of Alabama, Chilton county.

By virtue of an execution issued out of the Circuit Court of Chilton County, Ala., and to me directed whereby I, as Sheriff of said County, was commanded to make the sum of Eight hundred and 40|100Dollars, principal and interest, and Five and 80|100Dollars, costs of suit, the amount of a certain judgment and costs therein obtained at the Spring Term, 1916, of said Court of said County, Alabama, in favor of Edward Thompson Co. against Thos. A. Curry, I have levied upon and will sell to the highest bider for cash, at public sale, at the Court House door of said County, between the hours of 11 o'clock a. m. and 4 o'clock p.m. on Monday, the 28th day of Feb., 1916, all the right, title and interest of the aboved named Thos. A. Curry in and to the following described real estate, viz:

One half undivided interest in and to the north half of the north-west quarter of section fourteen, township twenty two, range thirten. Except 5 acres on which the church now stands, in Chilton County, Ala.

This 25 day of Jan. 1916 H. A. Harris, Sheriff.

Posted at the Court House door Jan. 26 1916 H. A. Harris Sheriff.

J. M. Mahan of Route 5 paid his subscription this week.

"PRACTICE WHAT YOU PREACH"

Here Is a Druggist Who Takes What He Sells.

Mr. I. E. Cothram, the progressive druggist of Alexis, Alabama, writes an interesting letter in which he says, in part: "I have handled GRANGER LIVER REGULATOR for a number of years, have sold it and used it in my family, and can safely say there is none better. Have never had a complaint from a customer."

It's a mighty good sign when a man uses what he sells. But that's only one of the many proofs of the superiority of GRANGER LIVER REGULATOR that have developed during the many years that it has held the confidence of American homes.

In any case of stomach, liver or bowel trouble, Granger Liver Regulator is the best choice. It's mighty pleasant to take, even the children don't mind it. Moreover, it acts soothingly and painlessly, and at the same time puts the system back into tip-top working order.

It's made of time-proven plants, without a single harmful chemical—that's why it's so safe and good. And then, too, it isn't put up in a paper box that gets dirty and lets it lose its strength; but in a sturdy tin box that keeps it clean and strong to the last dose.

Ask your druggist for the liberal 25c can of Granger Liver Regulator, and keep it in your home always. You'll never lack the best "first aid" remedy for both little ones and grown-ups.

J. E. Pate of Route 4 was a visitor to our office on Wednesday.

The Boy is Father to the Man

Old sayings like this are fraught with a most important meaning. And what

will aid the expectant mother in conserving her health, her strength, her mental repose and the absence of vexatious pains is a subject of vast moment. Among the recognized helps is a splendid remedy known as "Mother's Friend." Applied to the muscles it sinks in deeply to make them firm and pliant, it thus lifts the strain on ligaments that produce pain, it lightens the burden on the nervous system, induces calm, restful nights of health-giving sleep and makes the days sunny and happy. Get a bottle of "Mother's Friend" of any druggist and you will then realize why it has been considered true to its name in our best homes through three generations. It is perfectly harmless but so effective that once used it is recommended to all expectant mothers by those who went through the ordeal with surprising ease. By writing to Bradfield Regulator Co., 712 Lamar Bldg., Atlanta, Ga., you can have a free copy of a wonderful stork book that unfolds those things which all expectant mothers delight to read. Write today.

It is mailed free. Among its features are an explanation of the remedy's action, the first pulsations, prefatory uneasiness, date of expectancy, how to be comfortable, and a great variety of topics all bearing upon the one subject of expectant motherhood. Then there are many letters which describe actual experiences, making of it a guide book of great value. Don't fail to write for this book.

King Improved Cotton Seed

If you want them to plant this year, now is the time to place your order.

I wish to announce to all who are interested, that I am going to place an order for KING IMPROVED COTTON SEED for planting, direct with the originator of this splendid early variety of cotton, and if you want any of these seed, now is the time to place your order with me.

Saturday, February 19th, Last Day.

My shipment will be closed on the above date, and I will not handle any orders after then.

The price of the seed will not be over $1.75 per bushel, and if the freight rate wil alow it, I will make a reduction from this price of as much as I possibly can.

If you want any of these seed fill outthe roder blank below and send it to me at once by mail. It matters not whether you have already spoken to me about seed or not; fill out this blank and send to me. I will not order seed for anyone unless I get this signed order from the individual.

Clip the blank below, fill it out and send to me. This will guarantee your receiving the seed you want. And do this before Saturday, February 19th, 1916.

ORDER BLANK.

.....Ala., ...191.....

Mr. W. M. Wyatt,
Clanton, Alabama.

Dear Sir:—

I hereby agree to purchase from you ..... bushels of KING IMPROVED COTTON SEED, at a price not to exceed $1.75 per bushel, delivered at Clanton.

I further aagree to receive and pay for these seed when they are delivered to me.

(Signed).....

The "SILENT SMITH"

—Model 8 shows what should **now** be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the *user* have dictated its construction. The *user* has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each typeface.

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained —ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

ANOTHER MASS MEETING TO BE ON FEBRUARY 26.

To the people of Chilton County:

By the power invested in me by the mass meeting of citizens at the Court House in Clanton, on Saturday, Feb. 12, I, as chairman of the Finance Committee appointed by said mass meeting, to investigate the debt and finances of Chilton county, hereby call another mass meeting of the citizens of the county, to be at the court house thereof, on Saturday, Feb. 26, 1916, for the purpose of hearing the report of said Finance committee, and also for the purpose of acting on other matters that the Committee, or anyone else may see fit to bring before the citizens, relative to the common good, and welfare of our county.

Respecfully,
J. BICE.

Thorsby, Ala., Feb. 14, 1916.

MANY KINDS OF RHEUMATISM, ONE SURE MODE OF TREATMENT

Whether your trouble is Sciatica, Lumbago or the dreaded Articular Rheumatism, the answer is the same. You must treat it through the blood. That is the only way to rid the system of uric acid, purify the blood and revitalize the nerves. If the blood is freed from impurities, Rheumatism must go. This, in short, is the knowledge gained by the laboratories of the S. S. S. Co. These tests have been made for fifty years. They know what Rheumatism is. They know that S. S. S., the remarkable blood tonic, which they originated, will relieve you of Rheumatism. The recovery of thousands of sufferers by the use of S. S. S. is proof that you can be relieved. S. S. S. is a blood tonic—a purifier that restores the blood, and makes it pure as it was before it became poisoned with impurities. S. S. S. gives it strength to drive out these impurities—and with them the Rheumatism. Get S. S. S. at your druggist's. If you need special advice, write Swift Specific Co., Atlanta, Ga.

ABOUT BUYING INSURANCE

To protect the Policy Holders of Alabama, I, as Commissioner of Insurance of Alabama, advise you, if you are thinking of taking out a life fire, accident or any other kind of insurance, to make the agent who solicits your business, show you his agents license, signed by me as Commissioner of Insurance, authorizing him to represent the insurance company that he wishes to insure you in. If he has his license, it is evidence that the company has complied with the insurance laws of Alabama, and is authorized to do business in the State. And I advise you not to accept any rebates as this is positively against the laws of Alabama for an agent to even offer to give a rebate —see Section 4579 Code of 1907; and if it could be found that you had accepted a rebate, your policy might be vitiated.

C. B. SMITH,
Commissioner of Insurance.

CONVICT ESCAPED

Jack Williams, colored, a county convict in the road crew, escaped Tuesday and has not been recovered yet. He was sent up for something over a year, and had been placed under stripes only since about the first of this month.

If its Chilton county news you want, look for it in the Union-Banner. It will be there.

It is being rumored that the Alabama Power Co. will build a power line from Lock 12 into Clanton.

CLANTON, ALA.

UNION GROVE

Dear Editor:

Please allow me space in your valuable pape to say a few words.

It seems as if this place is almost forgotten.

Health here is good at present. We are glad to receive the good news that Miss Emma Arledge is progressing nicely and will be home in a few days, we have missed her very much in school.

Our school is progressing nicely under the care of Prof. R. A. Smith principal, and Miss Ruth DeVore assisant. They are doing all they can to make the school a success. We have only two more months of school this year.

We didn't have any Sunday school nor Singing here Sunday last on account of the bad weather.

I think almost everybody stayed at home Sunday except Miss Nora and Nancy Smith who spent the afternoon with Miss Bessie and Lessie Robinson.

Mr. Jack Robinson visited Mr. JimmieDorminy and family Saturday night and Sunday.

Mr. Reuben Jackson, Akin Mims and Monroe Bensonwere visitors at Union Grove Sunday afternoon.

Mr. E. F. Conway and John Dorminy visited Collins Chapel community Sunday afternoon.

Miss Irene Collum and Hattie Honeycutt visited MissBertha Conwaay last Sunday.

With much success to the Union-Banner and its many readers.

JEMISON

Editor Union-Banner:

Please give me a little space in your paper to say a few words in reply to "Just A Voter" on the subject of stock law.

I will say to commence with that I have studied the stock law and free range system of agriculture from every standpoint conceivable to any mind, and in my honest and candid judgment stocklaw is the best thing for the common farmer especially in this time of oppression. It means that every man take care of his own stock, on his own premises. It don't mean that a man can't fence his own land he can do as he pleases as to that, which is the right that every man ought to have to do as he sees best on his own premises and at his own individual expense. To make a man a deed to a piece of land with all things appertaining thereto and then give every man the privilege to turn all his stock loose on it is not a fair thing. Stock raising is one prong of agriculture and the raising of corn is another, why not fence the stock instead of the corn, especially when the range is as sorry as it is here in Beat 12, and no timber to make rails no money to buy wire fencing we should cut expenses in every way possible and make our stock worth as much as we possibly can, and the way to do that is to care for them in the best way possible. One hog properly treated is worth three half cared for. So it is with the cow one cow well fed and nicely cared for is worth three poorly cared for. These things I know by actual experience.

One thing that is the matter with some folks is they can't turn loose the old way of doing things. Lets come down to brass tacks, honest confession is good for the soul, too many believe things just because uncle Pink said so, they never make an investigation for themselves.

That idea that voting for stock law is a sin against the Holy Ghost is the most absurd thing that I have ever seen in print, now bud come to see me and we will read the bible and I think you can get a more intelligent idea that will be more satisfactory to your mind and not so misleading to the ones who read your articles in our paper. You are only fighting that thing that is best for you and for the community and all that you are going to get out of it is that one day you will be sorry that you opposed stock law and ashamed that you said that voting for stock law was an unpardonable sin.

E. W. HONNICUTT.

Woodrow Wilson has officially announced that he is a candidate for President again, but says he wil not actively work for election.

PARIS, Feb. 16.—Barrel shaped evening frocks that are on exhibition at the fashion shops are the latest in styles for women.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before It salivates you; it's horrible.

You're bilious, sluggish, constipated and believe you need a dose of vile dangerous calomel to start your liver and clean your bowels.

Here's my guarantee. Ask your druggist for a 50 cent bottle of Dodson's Liver Tone, and take a spoonful of it tonight. If it doesn't start your liver and straighten you up better than calomel, and without griping or making you sick, I want you to go back to the store and get your money back.

Take calomel today and tomorrow you will feel weak and sick and all nauseated. Don't lose a day's work; Take a spoonfnl of harmless vegetable Dodson's Liver Tone, to-night, and wake up feeling great. It is not at all harmful, and you can give it to the children any time. It can't salivate, so let them eat anything at all afterward.

LOMAX LOCALS

Health of this section is fairly good at present except bad colds that is caused by the change of the weather.

Mr. A. C. Bussie and family of Dargin are visiting their parents at Lomax.

The singing at Mr. A. J. Jones Saturday night was fine and enjoyed by all present.

The party at Mr. Fletcher Parkers was reported fine.

Misses Essie Parker and Malcie Cost visited Miss Ruth Jones Saturday night.

Misses Malcie Cost and Ruth Jones and Messrs. Phill Parker and Claud Teel of this place attended preaching at Jackson's Chapel Sunday.

Misses Bertha Pate, Precious and Berlin Caton visited Misses Eugenia and Alice Hicks Satuday night.

Miss Elvenia Sundberg spent Saturday night with her brother Mr. John Sundberg.

Mr. J. P. Cost is getting off to Birmingham where he and his daughter will make their future home.

Mr. Herbert Collins who is going to school in Montgomery is visiting his parents, Mr. and Mrs. Alpherd Collins, near New Salem.

Mr. Bernie Maddox who was operated on for appendicitis is back at home and doing fine and we hope he will be able to go back to his work soon.

Mr. Collum who is working at Prattville Junction spent Saturday night with his wife near here.

Come on boys and lets make this paper a success to its many readers.

FLUSHING, N. Y. —William Ey, who claims he has the shortest name in the world, has been married to Miss Mildred M. Mitchell.

HARTFORD, Conn.—Because her teacher had read to the class an intercepted note in which the girl had invited a boy friend to a valentine party, Gladys Stone, 14, committed suicide by drinking poison.

MOUNTAIN CREEK, Ala., Feb. 16. —The graphite mines are running with a full force of men; the company is shipping in car loads to the eastern and nothern points. This industry is a great source of revenue to this section.

Sir, I note that a reader of the New Orleans Item offers for sale, "One half poodle dog." What about the other half?—Art.

French Remedy Aids Stomach Sufferers

France has been called the nation without stomach troubles. The French have for generations used a simple mixture of vegetable oils that relieve stomach and intestinal ailments and keep the bowels free from foul, poisonous matter. The stomach is left to perform its functions normally. Indigestion and gastritis vanish.

Mr. Geo. H. Mayr, a leading druggist of Chicago, cured himself with this remedy in a short time. The demand is so great that he imports these oils from France and compounds them under the name of Mayr's Wonderful Remedy. People everywhere write and testify to the marvelous relief they have received using this remedy—one dose will rid the body of poisonous accretions that have accumulated for years and convince the most chronic sufferer from stomach, liver or intestinal troubles.

Mayr's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfactio:
For Sale by Upchurch Drug Co.

Spring Valley, Minn.

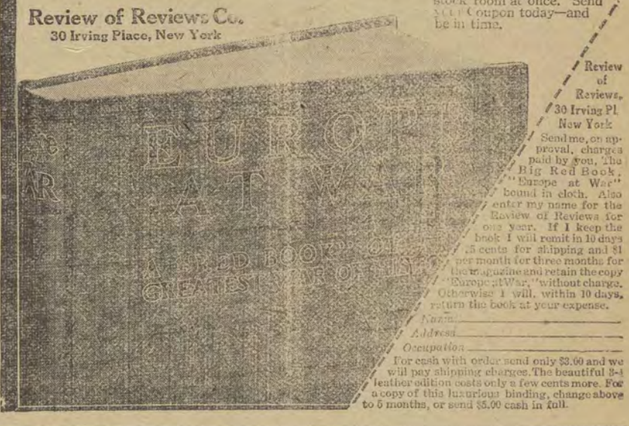
WAR! What Is It All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armour glistening just because Russia wanted to show her love for the little brother—Servia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book and over 300 pages, size 11 x 7½ inches, handsomely and durably bound in cloth, containing the drama and history of the great events leading up to the present time; over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistics, records, copies of official documents, and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Human documents of Destruction graphically tell their own story. Never before was a narrative more vivid, so dramatic, so fascinating, so realistic, so thrillingly told that it leaves an indelible impression.

Your War News Clarified



It is not enough to read the daily news reports. Your ability to comprehend conditions and to discuss them intelligently depends on a true interpretation of the meaning and the which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Human documents of Destruction graphically tell their own story. Never before was a narrative more vivid, so dramatic, so fascinating, so realistic, so thrillingly told that it leaves an indelible impression.

Get the Review of Reviews for a Year

Send the Coupon only. It brings the big Red Book, some book, charges prepaid, absolutely free. All we ask is that—after you get the book and like it—you send 25 cents for shipping and $1.00 a month for three months to pay for the "Review of Reviews" for one full year.

Send no Money If the book isn't worth more than you pay for book and magazine together, send it back at our expense. But be prompt. The present issue of this compendium will not last long. When these few volumes disappear from our stock room at once. Send the Coupon today—and be in time.

This is For YOU!

Don't waste a single hour but come right in and bite off a slice of this great BIG BARGAIN FEAST. It is a veritable feast of Bargains for the whole family—for men, women, children and babies—and especially for YOU. Bargains are everywhere, in every department, just waiting for YOU to pick them up. Come on in—the pickings are good.

Here are some of the many things:

Bargains in Mens' Clothing.
Bargains in Womens' Clothing.
Bargains in Childrens' Clothing.
Bargains for the Babies.
Bargains in Farm Tools.
Bargains in Table Linens.
Bargains in Comforters.
Bargains in Bed Spreads.
Bargains in Grocery Department.
Bargains in EVERYTHING.

Everywhere you turn you see bargains.

There is bound to be something you want at this store, and it is a Bargain now. Just how long it will remain a bargain depends on how quick you and the other yous snap them up.

Our prices are always low, but right now they are so small you will need a microscope to find them. But while these bargain prices are so small as to be almost as nothing, the goods are all of our well known high standard of excellence.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for *Special Instructions* on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. E66-B

Why Prince Albert meets men's tastes all over the world!

The patented process makes Prince Albert so good in a pipe or rolled into a cigarette *that its popularity is now universal!* It satisfies *all* smoke desires! This patented process, which also removes bite and parch, is controlled by us. No other tobacco can be like

PRINCE ALBERT

the national joy smoke

Listen:

It's easy to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, *but it is impossible* to imitate the flavor of Prince Albert tobacco! The patented process protects that!

Men who have stowed away gentle old jimmy pipes for years, have brought them back to the tune of Prince Albert! *Get yours out,* for your confidence never will be abused! We tell you Prince Albert will set pipe free the tenderest tongue!

And smoked in a makin's cigarette, Prince Albert is so refreshing and delightful that it gives you a new idea of cigarette happiness. Any way you fire-up Prince Albert, it will win you quick as a flash—it's so good and so friendly!

Prince Albert can be bought everywhere tobacco is sold—in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors and in that classy pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such fine condition!

R. J. REYNOLDS TOBACCO CO., Winston-Salem. N. C.

"THE BIRTH OF A NATION" COMING TO MONTGOMERY

It will be welcome news to residents of this section of Alabama that D. W. Griffith's mighty spectacle of the reconstruction, "The Birth of a Nation" is to be presented at the Grand Theatre, Montgomery, the week of February 21. A matinee has been arranged for every day except Monday and seats for the entire engagement are now on sale at the boxoffice. Mail orders will be carefully filled when accompanied by self-addressed, stamped envelope and remittance payable to the Grand theatre.

No theatrical offering has ever been the subject of such widespread publicity as has "The Birth of a Nation". It has broken all records in New York, Chicago, Boston, Philadelphia and in the principal cities of the South it has been received with loud acclaim.

With best seats selling for $2 at the night performances and $1 at the matinees, he spectacle played three weeks in Atlanta, two weeks in Nashville and a week each in Norfolk, Richmond, Birmingham and other important cities to the absolute capacity of the theatres.

Sometimes characterized as a moving picture, it is vastly more than that for the services of 50 people are engaged in each presentation. The company carries its own orchestra of 25 pieces and the electrical and mechanical equipment fills two baggage cars. It is the story of the South's suffering during the war and reconstruction periods told in film and music and founded upon "The Clansman". Eighteen thousand men and 3,000 horses are seen in the battle of Petersburg and other historical incidents shown are Lincoln signing his call for volunteers, Sherman's march to the sea, Lee and Grant at Appomattox, the assassination of President Lincoln and the rise of the Ku Klux Klan.

The prices which are uniform everywhere for this wonderful attraction, will be: Nights, at 8:30: Best lower floor seats, $2, other seats, $1.50; $1; 75 cents and gallery (not reserved) 50 cents. Matinees at 3 o'clock, Best seats, $1; other seats, 75 and 50 cents. Gallery (not reserved) 25 cents. In accordance with a strict rule of the company, no seats will be laid away.

WILL OBSERVE BABY WEEK

The Civic Impovement Club will observe baby week, which falls on the first week in March. Each person throughout Chilton County is uged to co-operate. Come and help us. Our slogan is "Better Babies, better mothers, better town." Send us your ideas.

Mrs. HUGH JONES, Publicity Chairman.

Will begin shipping April 20th. J. L. WINSLOW, Thorsby, Ala. Adv. 2-17-8t. pd.

A sad occurence of last Monday night was the death of Mrs. Ward, which happened a short time past midnight. The aged lady died at the home of her son, Prof. H. C. McDonald, who is well known over Clanton and Chilton County as the principal of the Chilton County High School. The funeral services were held at the home at three p.m., Tuesday evening, and the remains were carried to Columbia, Ala., the former home of the lady, for enterment.

FOR SALE—A good second-hand up right Piano at a bargain. Apply to J. R. Mullins, Clanton, Ala.

Join our circulating library, and read the latest and best boks at small cost. Call at the Candy Store for further information.

DECATUR NEGRO SHOT AND KILLED BY WIFE

DECATUR, Ala., Feb. 8.—Dock Turner, a negro, was shot and killed by his wife, Dora Turner, on a prominent business street in Decatur in the presence of a number of people.

The woman fired five shots four of which took effect in the negro's body and the fifth shot cutting the juglar vein, causing instant death. The woman is in the county jail charged with murder.

It is said they quarreled about another negro woman, whom Turner was infatuated with. Early in the night Turner cut his wife on the hand with a knife and it is charged she bought a pistol and went after him bent on killing.

Cheap and big can Baking Powders do not save you money. Calumet does—it's Pure and far superior to sour milk and soda.

CLANTON ITEMS

C. R. Wells of Route 8 was a visitor here Saturday.

Squire A. F. Childress of Beat 9 was a visitor here Monday. He called on us in our new office and was well pleased with our arrangements.

THE UNION-BANNER

VOLUME IV. CLANTON, ALABAMA, FEBRUARY 24, 1916. NUMBER 47.

A FEW WORDS TO THE COMMISSIONERS COURT

The Honorable Commissioners Court of Chilton County, Alabama.

Much criticism has been made of your management of the county's finances, new system of working the roads etc. Mass meetings have been held (knockers without regard to party affilliation are always found there) calling you to account to "the people" for various and sundry things which did not meet their approval.

The County Treasurer furnished a statement of the county's debt including, as I am informed, interest on time warrants until date of payment. Such statement is not correct and you should ask for a corrected statement and give full publicity to same.

This thing of a board of four representatives citizens of the county, elected by the people to attend to matters pertaining to finances etc., meeting together and consuming days, incuring a lot of expense in the way of printing and after deliberating over the proposition, looking at the matter from every angle agree upon a system of road working allow a body of men to meet and protest and make you turn the whole thing looks like "childs play," this puts it mild.

You had no excuse in the world to go into the matter because you had a similar experience some three or four years ago and unless you expected to stand by your work, the county should not have to pay your perdiem.

It is unusual in most counties of the State that a proposition, matters not as to the merit of the case, can not be accepted unless it has been O. K.d by a certain element.

As a tax payer, I submit that it is only just and fair that you pay out of your private funds the expense of arranging for this new system of working the roads, including stationary and printing as well as all that has been paid to enumerators, and of course you should refund what you collected as perdiem.

Yours truly,
H. B. OLIVER.

EXECUTIVE COMMITTEE CALLED

Clanton, Ala., Feb. 23, 1916.

DON'T "BURN OFF" ANY LAND THIS YEAR

In writing the Progressive Farmer once, Dr. Seaman A. Knapp said that one of our great needs in the South is to "use less fire and more sense in dealing with our fields". We have always stood in need of this shrewd councel, but never more than now. With fertilizer higher than evey before in human history, farmers should see to it that every possible ounce f trash, grass, straw and etc., is plowed under and that nothing is burnt.

The Lord's way of making land rich is to get humus on it—set it to growing vegetation and let the decay ing leaves and other matter enrich the soil. And yet when the Almighty offers this help to us, ten thousand farmers in every state come along and reject and spurn His help—"burn off" their lands and so keep them poor in spite of the Lord's effort to add to their fertility.

Let's not "burn off" any land of any kind this year.—Progressive Farmer.

Residence of E. L. Stough, at Red Level, in Butler, was burned, with contents.

Remember that dollar you owe us on your subscription. We have just made some improvements in our printing plant, and are depending on you to help us out with our burden by paying up your back dues. Don't forget us when you come to town.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

OLD CHILTON FARMER NOW IN LOUISIANA

Editor Union-Banner:

Please allow me a few words to my friends in regard to the boll weevil in cotton.

I came to Louisiana six years ago when they thought cotton could not be raised here to amount to anything at all. I planted cotton on my oldest thinnest land, without any fertilizer at all, and made better cotton than those who planted richer land and used fertilizer.

If you want to beat the boll weevil, don't have much shade for them to work in. They will not do much if it doesn't come rainy cloudy weather to keep the sun off. Do not plant any fresh land to cotton; you will make a complete failure if you do. In fighting the weevil, the custom of picking up the squares is not worth any thing at all.

The first year I came here I planted 12 acres to cotton and made 5 bales, with no fertilizer.

A few words in regard to growing peanuts. I see in The Union-Banner that some are wanting a market for this crop.

I have raised peanuts successfully for 12 years. I raise enough to have for my hogs, and for seed another year. I would advise that you plant peanuts and grow hogs, and then hunt a market for your hogs. This is the most paying way I find.

I planted 23 bushels of peanuts last year. I planted 4½ acres in peanuts alone on the 10th of April. By the last of July they were ready to turn hogs on, and I placed 48 head in the patch.

I planted the rest in 17 or 18 acres of corn middles in May, and gathered my corn early. When the hogs had eaten out the 4½ acres, I turned them in the corn field the first of October.

When my hogs were ready for the market shipped 26 head to Baton Rouge, at 7 cents a pound, grogg, which brought me $301.00, cash, loaded on the car at my nearest station. I kept the remaining 22 head for my own home use.

I find that peanuts pay me in growing hogs, besides I get a dollar and 75 cents worth of fertilizer to the acre from them . When if you pull them up for market you loose this nitrogen.

Hope this letter will be of some benefit to my old friends in Chilton county. It is the result of my own experiences, and I know the things I have said here.

Good luck to The Union-Banner.

Yours very truly,
JOHN W. FOSHEE
Dubberly, La., Feb. 14, 1916.

EVERGREEN ITEMS

Everybody here seems to feel good and look very well.

Our Sunday school is progressing nicely under our new Superintendent.

Arthur and Clemmie Beaird are visiting relatives at Mineral Springs.

The working of roads by taxation seems not to take very well in the southern part of Beat 10. On my petition there were 70 who favored the old road system, while those for the new system were left blank.

The school teachers seem to have long faces because they did not get the money that was promised them last Saturday. Well, they can't work always without pay.

As Mr. J. N. Scott seems to be so well pleased with the announcement of Judge Reynolds for Probate Judge, wil also say that it just catches me too. I voted for Reynolds when he was elected before and will do the same thing again, because I have not lost any confidence in his ability.

Someone will get beat in the race for Commissioner, but we are expecting to nominate our little man in the Fourth district, and then in the general election we are expecting to elect him to the office he has asked for.

Boys, stay on your job till this cam paign is completed, and then we all can say that it was well done.

J. M. and Lillie Mae Williams spent last Saturday night at W. S. Bairds.

We will have a meeting here on March the 4th, for appointing our committees for the community fair which we are going to have at Evergreen this fall. All who are interested are requested to meet us at two o'clock, p.m.

Success to the Union-Banner and its many readers.

W. S. BEAIRD.

CLANTON POST OFFICE

These letters will be sent to the Dead Letter Office March 4 1916, if not delivered before. In calling for the above please say "Advertised," giving date of list.

B. M. ROBERTS,
Post Master.

ANOTHER LETTER FROM MR. L. B. POUNDS

Pletcher, Ala., Feb. 14, 1916.

Editor Union-Banner—

Since you are courteous enough to open the way, to give me a say, and many who read my speech for last week, are saying come on with the next load.

Well, here we go; I believe we were talking about the condition and outlook for the farmers, and the country in general. A big subject, a deep problem, a really serious question for I believe everybody agrees (even the fool and politician) that the farmers and farming are the back-bone and foundation upon which all other business of every kind rests, even the gamblers and speculators are dependent on the farmers for food and clothes. And no nation or people on earth can be said to be prosperous when its agricultural interests are operated at a loss or a disadvantage, when the farmer is handicapped or burdened with any general condition that places him out of the pales of common and neccessary privileges, as is now the case, wherein he has no established system, or resort, whereby he can secure the financial aid that he must have in order to operate his business properly and successfully, consequently he is compelled to seek such aid as he may get from local money lenders (who are always invariably tightwads and shylocks) who tie up their victems hand and foot and exact exhorbitant interest that is ruinous to the farmer in the end. But the most common source is a resort to the supply merchant for supplies, or means with which to make his crop.

This latter method is by far the worst of the two, for, as a rule, the supply merchant is dependent on the wholesale merchant and the local banker for the necessary money and credit with which to "run" his customers and they are finally "run" in the hole, for by this method the farmer must pay all the extra expenses attached to this whole round-about way of getting such aid as he must have, in order to farm at all, for which we are informed, he pays an extra charge above cash prices, amounting to an average of 45 per cent. In other words, what he could buy for $100, he pays $145. The figures are taken from an actual compliation of the way the farmer's business is financed in the South, by Mr. Clarence Poe, one of the contributing editors of the Progressive Farmer, and can be found in last week's issue of that paper, in a speech which he recently made before the House of Representatives of South Carolina.

Well, as Mr. Poe asserts all sensible and intelligent people know, that there is no line of business on earth that can survive and prosper under such conditions. Perhaps no other occupation or business except farming could possibly have held out as long as the farmers have done, and they could not have survived as long as they have only because they make a great part of their living at home by their own labor; besides, what they can't get they do without, but they are almost to the end of their cable tow, and those who have been profiting so largely at his detriment have about killed the goose that has been laying the golden eggs.

Well, this brings up the question of who is to blame for these conditions. It is a common shortsighted practice that when things go wrong to curse and kick those nearest to hand, consequently the farmer kicks at the local merchant, while if said farmer was to change from farming to merchandising he would do just as the merchants do; that is, he would try to run his business in the best way he could to make the most of it. So we must look deeper into the problem in order to find the real cause and the source of this cause which ultimately brings about the results that we can all so plainly see and realize.

And when we have properly looked into and analyzed the question you will find that themain trouble lies in the system, or rather the want of system of finance, and he that has never given any study or thought to this phase of the question is simply grouping in darkness until this day as to the real underlying cause of the present conditions, and, until the farmers and others wake up and begin to get to the root and source of the evil will it continue to grow worse and more and more agitated.

All good doctors agree that to affect a cure of any disease or malady you must reach and remove the cause. We have had to much quackery, to many dopes, opiates, and nostrims already.

All business must have an adequate financial system that will meet all the requirements of said business. Farming and agriculture is today and always has been absolutely without a system of finance.

Even under the federal statutes the farmer is outlawed as to banking privileges except in a runabout way which makes him a victim instead of an independent patron. Who is most to blame for this? You may get your bristles up when I tell you that the farmer is more to blame than any one else, for he is the only fellow that can change it; he is the only one that is expected to change it for all others are satisfied as long as they are getting what they want. Next week we propose to tell what to do and how to do it.

L. B. POUNDS.

The L. &. N. is building a new passenger shed at Millbrook, in Elmore.

SEYMOUR ASKS FOR INVESTIGATION

MONTGOMERY, Ala., Feb. 19.—W. H. Seymoure, former chief clerk of the pure food and drug bureau of the department of agriculture and industries, has called on Governor Henderson and requested a complete investigation of his official conduct while in office, together with an investigation of the official conduct of James A. Wade, commissioner of agriculture and industries, and J. H. Craig, examiner of public accounts.

BOX SUPPER.

There will be a box supper at Collins Chapel school house on next Friday night, Feb. 25th. Proceeds of same to go benefit of school. The public is cordially invited.

TEACHERS' READING CIRCLE TO MEET

The Teachers' Reading Circle of Jemison District, No. 2, will meet at Jemison, Saturday, Feb. 26th at 10 a. m.

All the teachers of this district, which includes the teachers of Jemison, Thorsby, Union Grove, Collins Chapel, Mineral Springs, Smiths School, Rocky Mount, Pleasant Grove, Mars Hill, Macedonia, Center Hill, Minooka, Oak Grove and Pates Chapel, are urged to be present.

Reading Circle Book No. 3, Cromwell's "Agriculture and Life", will be used at this meeting.

R. A. Smith,
County Secretary.

LOMAX LOCALS

Health of this community ts fairly good at present. Mr. Rufus Littlejohn's little girl has been real sick but is better now.

Mrs. A. C. Bussie and children and Mr. and Mrs. A. J. Jones of this place spent last Sunday with Mr. and Mrs. Charlie Jones.

Mr. and Mrs. Eavens Chasteen of near Liberty Hill spent last Sunday with the latters brother Mr. Charlie Jones.

Mrs. Janie Gettion, who has been spending the week with friends and relatives here has returned to her home in Birmingham.

Mr. Hill Rotenberry of near Jemison spent Saturday night and Sunday with friends and relatives in Lomax.

Mr. and Mrs. Fletcher Parker visited at Mr. Jimmie William's Sunday.

Mrs. A. J. Jones attended the funeral services of her niece, Mrs. Mamie Williams, at Liberty Hill last Saturday.

Mr. Claud Teel who has been spending a few weeks with friends and relatives here has gone back to Birmingham.

Miss Bessie Wesson and her mother and Mrs. Janie Gettion visited at Mrs. John Parker's last Sunday.

Miss Ruth Jones spent last Sunday with Miss Essie Parker.

Misses Mary Parker, Henry Lee Sanders and Mae Bell were in Lomax Sunday afternoon.

Mr. and Mrs. John Sundberg spent Sunday with the latters parents.

Miss Elvenia Sundberg visited her sister, Mrs. Hollie Price of Lomax last Sunday.

Miss Maggie Jones is spending the week with relatives near Providence church.

Look out boys for the road tax. My advice is that you had better stick that $5 down in your pocket and go on and work the road as you have done.

With best wishes to the Union-Banner and its many readers.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

Mr. Leonard Harris, who has heretofore been attending the Unity Chilton Baptist High School at Thorsby, has lately enrolled as a member of the Junior class. Mr. Harris has made splendid success as a teacher in this county for several years, and the juniors are greatly strengthened by his enrollment.

The Board of Editors of theHigh School News beg to make apology to the readers of the News and to all others concerned for the fact that we are at a loss this time to say anything in regard to Erle Pinckard. It has been some time since we have been forced to publish the News this way, and we are sure that our readers (especially Erle) will be greatly disappointed when this issue comes out. We hope such a case will not happen again soon.

When the Hypatia Literary Society was organized at the first of school it was provided that the officers of that club should be elected three times during this term. A meeting was held last Thursday for the purpose of deciding upon the officers for the third term, and the following list was effective:—President, Vedie Retherford; Vice-President, Kate McFee; Secretary, Conradine Lane; Treasurer, Ola Durbin; Editor, Annie Gragg; Critic, Bessie Davis; Musician, Sibyl McDonald.

The girls basketball team is practicing for a game with the Elmore County High School, which will be played at Eclectic next Saturday.

The Orange and Blue has another cause to be proud of her basketball team. These boys full of eagerness and determination to win went up to Thorsby Friday evening and played a very exciting game with the Thorsby Institute boys, winning the game by the score of 24 to the T. I. 8.

This is the second game our five have played with the Institute this season, the other one resulted in a of 23 to 14 in favor of C. C. H. S. The Thorsby team does some splendid playing and deserve credit for it, but they find themselves scarcely able to compete with the Orange and Blue.

The boys are already making preparation for the organization of a base ball team to represent the C. C. H. S. in the coming base ball season. We are sure that our boys will make a team that will gain as much credit for the school as the basket ball players have gained.

Although there are many dangers to come into contact with while performing a physical experiment, Inez Higgins has dicovered a method by which the most perilous of them may be carried out without the slightest injury to her self or others who may have the rare opportunity of witnessing the procedure.

The school feels complete once more since Mr. McDonald has returned to resume his part of the work here. He was forced to be absent last week on account of the sickness and death of his mother.

TWO SPECIES OF WEEVIL NOT THE BOLL WEEVIL

During the Winter months, two species of weevils are most commonly mistaken by the farmers for boll weevils. These other weevils occur in the stems of weeds where both breed normally and are discovered at this season of the year as the farmers are cleaning up around their fields. Neither of these species breeds in cotton and the boll weevil never enters the stems of these weeds for hibernation shelter.

The Ragweed Weevil.

This insect is much larger in size than the boll weevil. The body is, in fact, nearly twice the length of that of the boll weevil and more generally cylindrical in form. The snout is short, being only about one-third of the length of the balance of the insect's body. The length, including the snout, is usually a little more than one-half inch. The snout itself measures about one-eight of an inch in length. The color is ashy-gray over a nearly lback back ground and the gray appears most distinctly in four stripes running lengthwise of the wing covers.

The eggs of this species are deposited in the stems of the rag-weeds during the early Summer; the grub grows during the balance of the Summer and transforms within the stems to the weevil form. During the Fall and early Winter, the adult insect remains within the stems, emerging in the Spring and beginning the developement of a new generation. There is but one generation in a year.

The Transverse Baris

This weevil occurs in the stems and roots of cocklebur plants. Its life history is quite similar to that outlined above for the ragweed weevil.

The adult baris has a very short, broad body which is only one-eighth to one-quarter of an inch in length. The body is rather flattened vertically. The color is shiny black. The snout is very short andstrongly curved. The adult of this species may occur accidently upon cotton plants but the species does not attack cotton in any way and is not of economic importance.

JUDGE DEASON WILL NOT SEEK HIS OFFICE AGAIN

CLANTON, Ala., Feb. 22.—Judge E. B. Deason, Probate Judge of Chilton County, refuses to offer for reelection, and Judge S. M. Adams is out in a card and says he will be glad to set the pace for Judge L. H. Reynolds to make in his Republican-Progressive attempt to secure the office. —Birmingham News.

EARTHQUAKE FELT IN SOUTHEASTERN STATES

ATLANTA, Ga., Feb. 22.—An earth tremor of slight, but distinct, natur that made itself felt throughout Georgia, North and South Carolina, Virginia and portions of Eastern Tennessee and Alabama was reported early last night as having been felt at about 5:45 p.m., central time, Monday. In no case was any damage reported, and while in some instancs persons hurridly left buildings there was nothing in the nature f a panic.

NOTICE—All persons who still owe me for medical services will please take notice that I have authorized Mr. J. W. E. Gulledge to collect said debts, and the accounts have been placed in his hands for collection.

V. J. GRAGG, M. D.
New Orleans, La. Feb. 5th,1916.

UNION SPRINGS

People in this part were disappointed last week because the Union-Banner failed to put in its appearance.

Farmers are busy notwithstanding times are gloomy. High cost of living holds its own well.

Mr. John W. Mahan of Birmingham came down Sunday to visit relatives and friends, his friends were glad to see him.

Messrs. Honnicutt and Champion are in the lumber business here. Just recently opened up.

Rev. Waldrup has been quite sick but is now better.

It seems we have out a nice lot of candidate on the Republican side, some of them have been tried and proved true.

One thing sure we hope to make some needed changes this year.

It seems the public roads are just thrown away, no one responsible for them, and needing work how bad? We do think our courts after so much experience and discussion on the road question ought not to have allowed roads to get in this present bad condition. Bad roads, high tax and high cost of living coupled with gloomy times makes an unpleasant combination.

There will be a school concert at the New Freeman school building on Saturday evening, March 4th, Prof. H. H. Mullins Principal. Program as follows:

Play, "Two of a kind."
Play, "That Rascal Pat."
Play, "Will you marry me?"
Play, "How she managed it."
A Recital.

A small admission fee is expected, the proceeds will go we presume to the school improvement Club. Open at 7:30 p. m. All invited.

Had a large crowd at the singing Sunday afternoon.

SUFFRAGISTS INCORPORATE UNDER THE STATE LAWS

MONTGOMERY, Ala., Feb. 10.—The Alabama Equal Suffrage Association is a corporation under the laws of the State now. T he Association yesterday filed articles of incorporation with the Secretary of State. The Association will have headquarters at Birmingham and the papers say it will engage in educational work. It has no capital stock. The interested ones are Mrs. Solon Jacob Mrs. Oscar Hundley, Miss Milton Humes, Mrs. F. D. Losey, Miss Amelia Worthington, Miss Mary Partridge, Mrs. Fred Koenig, Mrs. Sidney M. Ullman, Mrs. F. G. DuBose.

WORKER IN A QUARRY KILLED BY EXPLOSION

RUSSELVILLE, Ala., Feb. 19.—Funeral services were held today over the body of Robert Thompson, who was accidentally killed by an explosion at Rockwood near here, on Friday. Rockwood furnishes a large amount of building and crushed stone to the market. Thompson was engaged in this work, and was thawing some frozen dynamite to make an explosion when the accident occurred. The top of his head was in a maner blown off, ond one leg was mangled.

OFFICERS SEARCH FOR THIEF.

MARBURY Ala., Feb. 19—Officers are searching for the thief who entered the William Culver store at Wadsworth, and secured about $300 worth of dry goods. The robber sawed in at the rear of the building, and wagon tracks showed that the goods had been hauled away in the direction of Knight's Ferry. on Coosa River.

MAD DOG BITES TWO

MARBURY, Feb. 19.—A mad dog, belonging to Fred Hubbard, bit the little daughter of Mrs. Billingsley and a colored boy named Thomas Farrins. The dog was followed and by Hardy Thompson. The children were sent to the Pasteur institute for treatment.

MOCK TRIAL

There will be a Mock Trial at Sheep Head, near Gantt Riggin's, Friday night, Feb. 25th.

Will Smith took an appeal. Barrett and Parker represent the state; Hammond and Goldman for the defendant.

STOCK LAW FAILED

The result of the stock law election in Beat 12 last Saturday, showed that the vote was 68 against, and 59 for stock law, making the proposition lose by 9 votes.

MASS MEETING

A mass meeting of the Republican voters of Chilton county is called to meet at Thorsby on the 4th day of March, 1916, at 11 o'clock a. m.

All true white Republicans are invited.

G. W. EDWARDS,
Chairman county Committee.

MARRIAGE LICENSES

The following marriage licenses have been issued by the Probate Judge since our last publication:

Nelson Atchison and Miss Josie Brown.

H. L. Traywick and Miss Sallie Owen.

Colored—Richard Smith and Lela Green; Scott Thomas and Mary Lee.

Geo. R. Moore of West Blocton was in Clanton Tuesday.

Nathan Cook, near Georgiana, had an ld fashioned log rolling.

TRIBUTE PAID TO FIRST PRESIDENT OF THE U. S.

WASHINGTON, Feb. 22.—George Washington's birthday anniversary was generally observed in the national capital today. President Wilson and other high government officials paid tribute to the memory of the Continental leader.

The day was practically a holiday here, with all of the executive departments of the government closed.

The chief celebration was that held at Continental Memorial Hall under the auspicies of various patriotic societies, in which the President, Secretaries Lansing and Daniels and French Ambassador Jusserand took part.

The President was one of the speakers, as were Mrs. William Cumming Story, of New York, President-General of the D. A. R.; James Mortimer Montgomery, of New York, President-General of the Sons of the Revolution, and others.

Varios patriotic societies journeyed to Mount Vernon to place wreaths on Washington's tomb.

CIRCUIT COURT IN SESSION

The special term of the circuit court of Chilton county has been in its second week's session here this week, Judge Gaston Gunter of Montgomery presiding in place of Judge Pearson. No cases of very much importance have been disposed of.

MT. PLEASANT

Spring seems to be near as the peach trees are beginning to bloom.

Mrs. J. C. Culp spent Saturday night with her sister, Mrs. W. Q. Childress, who is sick.

L. O Vickers and wife recently visited at A. H. Collin's.

Mrs. Lizzie Beufield of North Alabama was a recent visitor at G. D. Melton's.

J. A. Culp and wife spent last Sunday at J. C. Maddox.

Wallace C. Edler of Thorsby was a recent visitor at L. O. Vickers.

J. B. Littlejohn and family and D. M. Foshee and family spent Sunday with W. H. Foshee.

R. M. Butler and family spent Saturday night at F. G. Robinson's near Mineral Springs.

Mrs. Mary Maherg of Talladega Springs spent part of last week with her daughter, Mrs. G. W. Melton.

W. G. Culp and wife spent Sunday at J. J. Culp's.

J. A. Logan and family visited at J. M. Littlejohn's last Sunday.

Mrs. Nancy Vickers spent part of last week with friends near Liberty Hill.

S. J. Dupriest visited his son, S. B. Dupriest recently.

David Robinson and family spent Saturday night with relatives near Mineral Springs.

R. F. Sims of Birmingham was visiting around here last week.

Miss Annie Daniel spent Friday night with Miss Eula Belle Foshee.

A. J. Duncan and wife spent Sunday at M. O. Culp's.

R. W. Ward and family spent last Thursday with the formers mother in Clanton.

Mr. Albert Patterson is spending the week at W. H. Foshee's.

W. E. Nix and family spent Sunday at W. C. Cotton.

Mrs. B. G. Burnett has returned from a visit to Birmingham.

The box supper and the beautiful cake cooked by Mrs. G. H. Massey netted the School Improvement Association $16.10. Miss Eula Bell Foshee won the cake.

The Sunday school will be at 10 o'clock next Sunday. Rev. Buford Lawrence will preach at eleven. There will also be singing in the afternoon.

James Travis rural carrier in Butler county, has resigned and moved to Wilcox.

J. D. Sellers Jr., will move from Butler county to Texas.

P. O. West and J. B. Moore of Montevallo registered at the Wilson Hotel Tuesday.

John L. Tompkins, 75, Confederate veteran, died at Tuscumbia.

First Baptist church, of Decatur, will build a new church.

FOR SALE—Beat the boll weevil planting early variety Velvet Beans. Special prices made on quanity orders of 50 bushels or more. Write your wants and get price. J. T. Purefoy, The Bean Man, Furman, Aia. Adv.

CLAIM PAID

Mr. John Mims of Falakto was insured only 3 days in the North American Accident Insurance Co., when he fell off the top of a house and broke a leg. Claim was paid promptly. He was thoughtful to carry that protection; and every other man should do the same thing. See J. C. BROWN and insure before it is too late. Your time has money value andshould be protected. The only cost is $10.00 a year. The policy pays you $25.00 a week in case of a sickness or accident, and $5,000 in case of death. J. Watts Moore at Mullins store, is also agent for this insurance. Adv.

THE UNION-BANNER

Publishd Every Thursday at Clanton
Chilton County, Alabama.
UNION PUBLISHING CO.

W. M. WYATT, Editor & Manager.

Subscription price $1.00 per year, payable in advance.

Entered April 15, 1913, at Clanton Ala., as second class matter, under Act of Congress of March 3, 1879.

PEOPLES TELEPHONE 96.

And what office do you want?

Just why is a mean man? But then, only the mean man can tell.

Yep, election time is trotting right along. It will soon be on the gallop.

A funny man seldom sees any humor in his own product.

A Morgan county citizen opposes dipping cattle for ticks. He says it bruises up the old cows.

Cheer up! At worst this life is just one blissful dream of things we never get.

A wise man ofttimes changes his mind. The fool has no mind to change.

Speaking of the weather reminds us that it continues to be just weather.

Tell every stranger that you meet that this is a good town. In time you may think so yourself.

Smile, and the world giggles with you. Scowl, and you are just a grouch.

Of course your Willie has high ideals, but has he a single practical idea?

Now the brainless boobs are talking again about "corsets for men." Meaning, no doubt, the manless man.

Perseverance is an admirable trait, but without the safety valve of common sense it becomes a menace.

Even if you can't keep your money in your own possession, at least keep it in this town.

"Push and Go" is bully in a kid, provided it doesn't require a push to make him go.

There's a time for work and a time for play, but some people in this town forget to wind the clock.

There are two things a wise man never does but once—twist the cat's tail and tread on his wife's corns.

No, sister, not all men are beasts. There are times when the beast would object to the comparison.

Marriage is a sublime institution, but often the sublimity is left with the parson who ties the knot.

High society finds a deal of comfort in the divorce courts. The press is lavish in its publicity.

The editorial countenance is no indication of the spirit within. Even the wisest of men have resembled the fool.

Hang onto your pennies, boys. The growing scarcity of copper may some day put a premium on the little devils.

It costs from $1 to $5 to see a good show. And it costs nothing to hear a better sermon right in this town. Trot along!

If the revolution in feminine attire cntinues its present speed even the fig leaf will soon be a back number.

Subscribe for The Union-Banner. Don't depend on borrowing it from your neighbor every week. Only $1 a year for all the county news.

It is all right to accuse congress of hunting for pork, but we don't know of a political district in this neck o' the woods that won't grab off all the bacon it can get.

A man will tighten his beit and chase a rabbit all day without a thought of hunger or fatigue. But when his wife wants an armful of wood he promptly sends the kid. Shoe pinch?

If eating sardines and crackers at a country grocery store had anything to do with getting elected, we know one or two candidates who would be safe in the saddle. The joke is a dandy, but we can't afford to tell it.

Some people you hear talk, boast of the "Solid" (Democratic) South. If they could realize the truth, we believe they would find that the very thing of which they proudly boast is the greatest enemy of our people.

Tom Watson says: "We have outlived the animosities of Reconstruction days, and we do not ostracise good citizens for their political opinion, any more than we do for their religious convictions." Old T. E. is as much right in this utterance as he is in the thousands of other gems of thought which he is always handing out to his readers.

COME ON TEDDY

Four republicans have announced for "delegae-at-large" from Massachusetts, declaring that they are for Roosevelt. That is the first practical politics for the former president. —Birmingham Ledger.

Mrs. P. O. Barrett has about recovered from a severe illness.

ABOUT THE SCHOOL BOARD

As The Clanton Press, in its last week's issue, invited us to discuss, or give our ideas about the election of a school board for Chilton County this year, we are glad to make it known how we regard the matter.

We certainly believe in an administration of the educational affairs of the county in a manner fair, honest and impartial to all.

But in order to obtain this, we are not in favor of obliterating all party lines. We believe that if a board of Democrats were elected, they could and would, if they were men—honest true and upright men—look after our educational matters with equal fairness to all. And of course we believe the same thing about a Republican, Progressive, or any other kind of a Board. The thing to do is to elect MEN. And those who vote the Democratic ticket, Republican ticket, or Progressive ticket, each and all have the privilege of using their best judgment in making the selection.

It is the duty of every official, whatever his politics, when, after his election and induction into office, to transact the duties entrusted to him, without regard to politics. And the man who will not do this, is not worthy of the confidence of the people.

If an official does not do this, it is no use to disband the party, and the principles thereof, which elected him. The party is not at fault. It is the man, and the trouble is the fact that he has not proven true and worthy of his trust. Such an official as will do a thing like this is what we want to get away from, and not the party which he belongs to.

The Union-Banner believes in each party putting out its ticket for the educational board just as for other offices, and doing its best to put out and elect men who are broad minded enough, and capable and honest enough to keep the administration of our educational affairs out of th narrows of political prejudice.

Tere are men in either party in Chilton county, whom we would be willing to trust in doing this. And it is the duty of the party to our citizenship to furnish these men to fill our offices.

THE SOLID SOUTH

The following squib in the editorials of the New Decatur Advertiser, brings to our mind an old thought:

"No, President Wilson will not come South. What is the use? The South goes Democratic anyway, why should he worry?"

We have thought of that many times. That is just the way Wilson feels about his campaign in the south—AND IT IS THE WAY HIS ADMINISTRATION HAS FELT TOWARD THE SOUTH ALL ALONG—hence the reason the interests of the South have been disregarded and neglected.

The big fellows up there have been begged and importuned for aid to the southern farmer, and have turned deaf ears to the entreaties. Why? Just because they realize that the South is solid Democratic, and there is no danger of a turn, whether they get any benefit out of the government or not.

They say among themselves that there is no use for us to place our hands in the fire to favor the South, when we know she will vote for us whether or not.

Now, how can we hope for any benefit, protection or anything else from such a state of affairs?

There positively is none.

It is a matter of fact that theofficial, no matter who he is, caters more or less to the man whom he is depending upon for a vote. And the man whose vote is in doubt and most needed is the one who gets the most attention.

Then what is the matter with the South?

Here's what is the matter. It is this fact that she votes solid Democratic, whether she gets any benefit for it or not. It is the fact that the South is blind.

The solid South is in itself the ruin of the south. It is growing neglect among the national officials, even among those of our own people who are intrusted with affairs of government.

If the Democrats at Washington were uncertain of the vote of the South, why then when the south sent up a petition for aid, you would see them begin to bustle around and prepare for some sort of action. Why? Well, because they would possibly win votes by it. But as it is and has been, they are already sure of the votes, and are not moved to action.

The solid south is a menace to us, and we hope and believe it will some day be rent asunder politically speaking.

H. W. Rushton died at Luverne.

Moved!

For the information of our Subscribers Patrons & Friends and the Public in general, we desire to state that the Union-Banner Office and printing plant is now located in the A. C Smith building, formerly occupied by .. V. J. Gragg, on the opposite side of the street frem our former location.

.. In our new and more desirable quarters, we are glad to welcome our friends to call on us at any time.

Come to see us, whether on business of just a friendly call, and we will .. be .. delighted .. to show you one of the most up-to-date and best equiped printing plants to be found in any small town in the state.

"THE UNION-BANNER."

FORMER MAYOR NOW ENDORSES TANLAC

"You Will Hardly Know Me When we Meet," Writes Hon. F. V. Evans to a Friend.

One of the latest additions to the list of leaders of thought and action who have come forward with their unqualified endorsement of Tanlac is the name of Hon. Frank V. Evans, former Mayor of Birmingham, Ala., Ex-State Examiner of Public Accounts of Alabama, and one time Editor of one of the Souths greatest newspapers—The Birmingham Age-Herald.

Writing to a personal friend in Atlanta, Mr. Evans says:

Birmingham, Ala., Feb. 2, 1916

"By the way you will hardly know me when we meet again because I am getting well and strong again. As I told you while in Atlanta last month, I have been suffering a long time with gastritis, as the doctors call it—really a disordered stomach with consequent constipation, pains in theshoulders, headache, belching, heartburn, loss of appetite, loss of sleep and fainting spells. For weeks I could not sleep on my back.

"One week ago, upon recommendation of friends who have tried the medicine, I purchased one bottle of Tanlac and began taking it. Since my second dose I have suffered none of these troubles to which I refer, and realy believe I am going to get perfectly well and strong again. Won't that be wonderful at my age? Well, certain it is that Tanlac is a wonderfuy medicine, and you know that I am not given to 'puffing' mere experiments and am rather orthodox as to materia medica.

"I shall continue the treatment with perfect confidence in the final results.

(Signed) "Frank V. Evans."

Commenting on this splendid endorsement of Tanlac, G. F. Willis, Southern Distributor of Tanlac, said:

"Although the list of prominent endorsers is a long one, I recall a few leading names that lend both dignity and credit to the entire array. Some of them are:

"Hon. C. W. Mangum of Atlanta, Sheriff of Fulton county; Hon. McKenzie Moss, Judge of the Eighth District of Kentucky; Hon. Moses R. Glenn, Superintendent of Printing for the State of Kentucky; Col. Jno. B. Gaines, Editor and Publisher, Bowling Green, Ky.; Mr. C. C. Cooper, President Georgia Cotton Oil Co.; Mr. H. W. Hill, Bank President of South Pittsburg, Tenn.; Mr. J. F. Carrol, Cotton Mill Superintendent of Chattahoochee, Ga.; Hon. S. S. Shepherd, ex-City Councilman of Atlanta, and many others whose names have have heretofore been given to the public".

Tanlac is sold inClanton exclpsively by Upchurch Drug Co. adv.

SHERIFF'S SALE, REAL ESTATE

The State of Alabama, Chilton county.

By virtue of an execution issued out of the Circuit Court of Chilton County, Ala., and to me directed whereby I, as Sheriff of said County, was commanded to make the sum of Eight hundred and 40|100Dollars, principal and interest, and Five and 80|100Dollars, costs of suit, the amount of a certain judgment and costs therein obtained at the Spring Term, 1916, of said Court of said County, Alabama, in favor of Edward Thompson Co. against Thos. A. Curry, I have levied upon and will sell to the highest bider for cash, at public sale, at the Court House door of said County, between the hours of 11 o'clock a. m. and 4 o'clock p.m. on Monday, the 28th day of Feb., 1916, all the right, title and interest of the aboved named Thos. A. Curry in and to the following described real estate, viz:

One half undivided interest in and to the north half of the north-west quarter of section fourteen, township twenty two, range thirten. Except 5 acres on which the church now stands, in Chilton County, Ala.

This 25 day of Jan. 1916 H. A. Harris, Sheriff.

Posted at the Court House door Jan. 26 1916 H. A. Harris Sheriff.

Jack Wilkerson, near Lineville, had an eye accidently destroyed.

Congressman Henry Steagall, of the Third, is a candidate for re-election.

The Boy is Father to the Man

Old sayings like this are fraught with a most important meaning. And what

will aid the expectant mother in conserving her health, her strength, her mental repose and the absence of vexatious pains is a subject of vast moment. Among the recognized helps is a splendid remedy known as "Mother's Friend." Applied to the muscles it sinks in deeply to make them firm and pliant, it thus lifts the strain on ligaments that produce pain, it lightens the burden on the nervous system, induces calm, restful nights of health-giving sleep and makes the days sunny and happy. Get a bottle of "Mother's Friend" of any druggist and you will then realize why it has been considered true to its name in our best homes through three generations. It is perfectly harmless but so effective that once used it is recommended to all expectant mothers by those who went through the ordeal with surprising ease. By writing to Bradfield Regulator Co., 712 Lamar Bldg., Atlanta, Ga., you can have a free copy of a wonderful stork book that unfolds those things which all expectant mothers delight to read. Write today.

It is mailed free. Among its features are an explanation of the remedy's action, the first pulsations, prefatory uneasiness, date of expectancy, how to be comfortable, and a great variety of topics all bearing upon the one subject of expectant motherhood. Then there are many letters which describe actual experiences, making of it a guide book of great value. Don't fail to write for this book.

NOTICE BANKRUPT SALE.

Pursuant to an order made by the United States District Court, Northern Division, Middle District of Alabama, in Bankruptcy, I, as Trustee of James P. Morrow, Jr., Bankrupt, will offer to the highest bidder, for cash, during the legal hours of sale, subject to approval of said Court, on the 24th., day of February, 1916, stored at the storehouse formerly occupied by the bankrupt at Clanton, County of Chilton, State of Alabama, all the right, title and interest Bankrupt had in and to 99 soda water cases and bottles, $99.00; 30 empty soda water cases, $6.00; 1 carbonater, $250.00; shafting and arms, $5.00; 1 gauge, $10.00; book accounts, estimated, about $200.00. Right reserved to sell separate or as whole. Inventory now on file.

Montgomery, Ala., the 3rd day of February, 1916.

GEORGE STUART,
Receiver.

YOUR SUMMER VACATION

"How will I spend my vacation this summer?" Oh, yes, we know you would like to trot off to the seashore, and splash around in the water, and show strangers what a fine figure you have, and annex a coat of fashionable tan, and eat the vile stuff the summr hash houses hand out to you, and all that sort of bunk. But here's a little old fashioned horse sense and it won't cost you even a thank you. Within ten or fifteen miles of this town are many of the finest farms in the country. In the summer time you will find growing on those farms about everything you care to eat. You will find cattle, and hogs, and sheep, and other animals galore. They are good to look at and it won't cost you anything to look. Then you wil find good, honest, intelligent, wholesouled people on those farms, too—people who mean what they say, and don't flatter you to your face and call you a freak hwen your back is turned. They are good people to know and better people to have as friends. Go out and spend your vacation on one of those farms. Feed the chickens and calves, and learn to milk the cow and stick n the back of a horse. Wear a fifteen cent straw hat and ride around on the loads of hay as the farmer is drwing it into the barn. Pick flowers and give your tired lungs a treat by breathing the pure air of the country and the fragrance of fields that are green. Be a real sport, and not an imitation. Get back to nature once in your life if you nver get there again. Get a few friends together, pick out the place you want to go to, and write to the farmer. If he can accomodate you it may cost you but a few dollars and be of inestimable value to your future health. This is just homely language, but darned good human sense. Take it!

Huntsville's new high school building will cost $40,000.

Pay your subscription to the Union-Banne now.

NOTICE TO CREDITORS OF FIRST MEETING

In the District Court of the United States, For the Middle District of Alabama. In Bankruptcy. In the matter of A. C. Headley, Bankrupt, postoffice Clanton, R. F. D. County Chilton, Alabama.

Cut Your Store Bill Down One Half

Tens of thousands of farmers as well as town and city folks cut down their store bills one-half last year and saved money in spite of generally short crops and reduced wages.

Absolutely millions of dollars were saved and countless families lived better than ever before in the face of the cotton crisis and general business depression.

How were these burdensome store bills cut down? By the real money-saving power of good home gardens, rightly planted and kept planted and tended through the season.

Hastings 1916 Seed Catalogue tells how to cut store bills down; tells about garden and farm seeds of kinds and a quality that cannot be bought from your merchant or druggist. It's full of garden and farm information. It's free if you ask for it. Write for it now. H. G. HASTINGS CO., Atlanta, Ga.—(Advt.)

Clanton, Ala.

THE ORDINARY MAN

He kept the middle of the road and
did his level best,
A simple, ordinary man, in common
garments dressed;
The one ambition that he had was
just to keep his brood
Supplied with shoes and clothing
warm and filled with whoesome
food.
He never made a bid for fame, nor
seemed to want to roam.
The only crowd he ever led was just
the few at home.
He never whimpered at his lot, when
extra burdens came;
He never told his weariness or spoke
of being lame—
But trudgd along from day to day
and did the best he could
And seemed content if those at home
his efforts understood.
A simple, ordinary man, who faced
each day of strife
That he might give to those he loved
some happiness in life.
The wishes of his wife and babes too
to him were stern commands;
It kept him straining at the yoke to
meet their new demands.
He had no time for selfish play, nor
days to sit and rest,
Each morning brought the ceaseless
grind, each evening closed a test,
And always as he turned away from
home and shut the door
The pack of burdens on his back
weighed just a little more.
He never sought the joys of fame,
nor brilliant tried to be.
The patch of blue above his home
was all h wished to see.
In simple toil he spent his life, the
simple prizes gained.
A back-street, cozy little house
where love and sweetness reigned
A wife, whoes every word was kind
and very look a smile,
A set of happy little tots that made
each care worth while.
He kept the middle of the road and
did his level best,
He turned his back upon the east
and bravely faced the west,
And all he ever earned or owned to
those he loved he gave.
And to their joys and their desires he
made himself a slave;
This simple, ordinary man, content in
life to do
The common tasks became at last a
hero to the few.

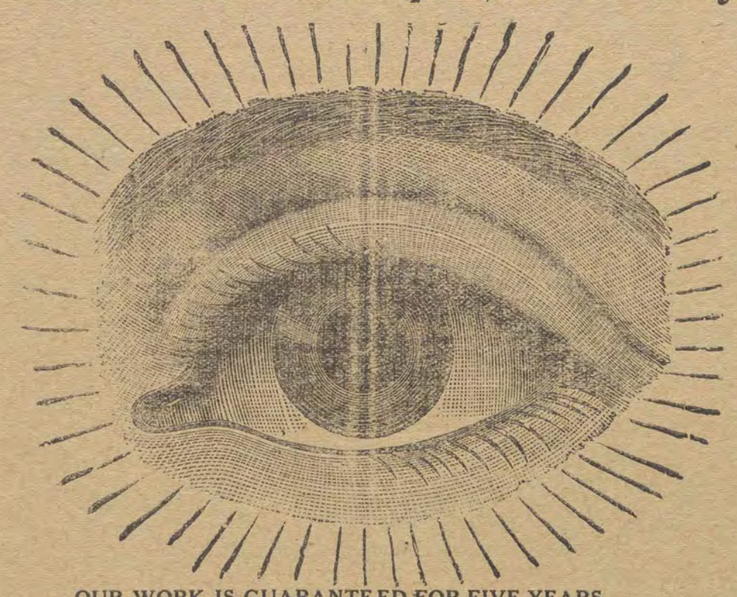
NEW WILSON HOTEL, March 6th and 7th, and Every Ninety Days Thereafter

OUR OBJECT

in making this remarkable offer of $5.00 glasses for $1.00 a pair is simply to introduce our service in your community as well as our TRU-SIGHT LENSES... Our Tru-Sight Lenses have met with great success by mayn persons who are now wearing them and are meting ..with the same ..results wherever they are introduced.

Our New Invisible Bifocals



Will Not Confuse You

You Can See Near and Far With the Same Lenses

REMEMBER

That the above offer of $5.00 eye glasses for $1.00 a pair is for this visit only. Special prices on all other classes of Optical work... Regular prices will prevail after our first visit to Clanton.

OUR WORK IS GUARANTEED FOR FIVE YEARS.

Beware of all persons who call at your home and claim to be representing us, as we do not have representatives, but our specialist at the hotel as we advertise. All orders taken delivered by insured parcel post.

TRU-SIGHT OPTICAL CO.

Address Communications to Main Office
Vandiver Building, MONTGOMERY, ALA.

OUR OPTICAL SPECIALIST

and his assistant have had years of experience and you may rely on them absolutely. We will be pleased to examine all those who have eye trouble or wear glasses ABSOLUTELY FREE. We would suggest, therefore, that you call on them.

TRU-SIGHT LENSES

WILL POSITIVELY RELIEVE ALL PAINS ABOUT THE HEAD AND EYES as well as all other abnormal conditions of the eyes that can be relieved through wearing of properly fitted glasses of quality in most all cases.

Don't Forget the Dates

MONDAY AND TUESDAY
March 6th and 7th.
NEW WILSON HOTEL
OFFICE HOURS: 8:30 A. M. TO 8:00 P. M.
If your time is limited come early and avoid the rush. RECEPTION ROOM HOTEL PARLOR

We would not ask you to permit our remarkable offer to conflict in your mind with other such offers that have been made at Drug Stores and other such places by men who were not responsible nor established anywhere nor do they claim to be; as to ourselves, we are located and established both. We guarantee our work and glasses both for five years in writing and as to the responsibility of our guarantee we wil give bankable references to those desiring same... These glasses we are advertising are the kind that usually sell at most optical establishments at $5.00 and i nsome cases even more. This is the first time to our knowledge that such an offer has been made by responsible people who will stand back of their work and who cannot be branded as fakirs as some have. We will make these prices THIS VISIT ONLY and no more Call and see us and we wil explain how these special prices can be made. You are not oblidged to buy glasses and all EXAMINATIONS ABSOLUTELY FREE.

SENATOR BURTON ANNOUNCES FOR THE PRESIDENCY

COLUMBUS, O., Feb. 23.—Theodore Burton, of Cleveland, former United States senator, filed an announcement with the secretary of state today that he will be a candidate for the presidential nomination on the republican ticket.

BIRMINGHAM PROFESSOR COMMITTED SUICIDE

Prof. A. A. Lyons, Principal of South Highlands School, in Birmingham, committed suicide Tuesday morning by shooting himself in the head with a revolver. It is said that despondency over the recent death of his wife was the cause.

Colds

should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

THEDFORD'S BLACK-DRAUGHT

the old reliable, vegetable liver powder.

Mr. Chas. A. Ragland, of Madison Heights, Va., says: "I have been using Thedford's Black-Draught for stomach troubles, indigestion, and colds, and find it to be the very best medicine I ever used. It makes an old man feel like a young one."

Insist on Thedford's, the original and genuine. E-67

A BOOM FOR TEDDY

The New York Herald Friday morning publishes the following:

"The Roosevelt boom has William Barnes sitting up nights. The Massachusetts situation started the anti-Roosevelt men vigorously on the trail. The Hughes boom is another important factor and the belief is spreading that Justic Hughes will accept a nomination.

FREE SUGAR CLAUSE REPEAL

Legislation repealing the free sugar clause of the Underwod tariff law before May 1, the date on which it would become effective with a resultant annual loss of about $40,000,000 of revenue, virtually was assured Thursday sa a result of the action of the House Democratic caucus Wednesday night.

Several trunks were destroyed in the depot fire at Lineville.

C. E. Howell was made master of the Morgan Masonic conference.

In January three negro children were born in Lamar county and there was no negro death.

Dr. Clarence Rice has moved from Prattville to Tuscaloosa.

J. B. Carlton, of Hodges, in Marion county, has improved his residence, dug two wells and cleared a field.

William Childers has nearly completed his new residence at Hodges, in Marion.

Frank Bond has been re-elected warden of Hale's poor house.

Thieves are raiding lonely stores in Hale.

Forest Allen, of Choctaw county, killed a hog that weighed 595 pounds and had no fine blood in it.

Valuable Health Hints For Our Readers

CATARRH

Just because you hawk and spit and your nose is wet, cold, red, sore and a nuisance, don't merely plug it up. You can't cure catarrh by greasing your nose. Take S. S. S. regularly and you will drive catarrhal poisons out of your blood. The membranes will soon recover and no longer continue to accumulate the mucous that gathers and thickens into catarrh. S. S. S. stimulates the cells of the tissues to select from the blood their own essential nutriment. Rapid recovery from catarrhal inflamation in the stomach, kidney, bladder and all membranes is the result.

MALARIA.

Throughout the country, wherever malaria abounds, are happy, joyful people to whom S. S. S. has given wonderful help in the treatment of malaria after the most sickening torture imaginable.

The gaunt complexion of malaria's victims, the chills and fever, the malarial dysentery that seems to defy all other treatment, the malarial leg, the enlarged liver, the persistent anemia where the blood turns to water and the system wastes away. These are the conditions that S. S. S. so effectually asissts in overcoming, by helping to restore the blood to its natural vigor.

STUBBORN SORES

Sometimes a sore spot becomes indolent. The tissues surrounding it lose tone and are unable to provide sufficient nutriment to stop the drain. It is then chronic. Just saturate your blood with S. S. S. This is quickly accomplished, as S. S. S. is naturally assimilated the same as milk or any other healthful liquid.

Nature acts with marvelous rapidity when given the proper assistance, and S. S. S. so stimulates cellular activity that the parts surrounding an ulcer select from the blood the materials that make new tissue. Thus the sore spot rapidly heals in a natural way.

Local applications for any skin disease will afford protection from without, but have no medical value. Eczema, tetter, acne and all such eruptive diseases should be treated with S. S. S.

POISONED BLOOD.

So many different things contribute to poison the blood and the effect is so startling that the sufferer becomes panic-stricken and is led to use harmful drugs. If you have any blood trouble, get a bottle of S. S. S. and take according to directions.

Don't take anything else. Poisoned blood is bad enough without ruining your bones, joints, teeth and vitals with minerals. S. S. S. so stimulates cellular activity that they reject all poisonous influences and select only those materials in the blood that make healthy tissue. This is why its assistance toward recovery is so noticeable and at times remarkable.

S. S. S. is welcome to the weakest stomach and is assimilated just as readily as the most nutritious food. It has helped to cure a host of sufferers.

RHEUMATISM.

In any form of rheumatism give the blood a good effectual cleansing with S. S. S.

Use this remedy for three days and take a hot salt water bath to open the pores. This relieves the lungs and kidneys and assists S. S. S. to utilize the skin as the principal avenue of elimination.

Avoid salts, calomel and other drastic purgatives, as they absorb the moisture from the walls and membranes of the intestines, weaken the muscular action, produce chronic constipation and thus stagnate the system with rheumatic poisons. Get a bottle of S. S. S. at any drug store. Don't take a substitute.

S. S. S. is purely vegetable and is prepared only by the Swift Specific Co., 271 Swift Bldg., Atlanta, Ga. Write for special booklet on any of the diseases mentioned and if medical advice is wanted, write for that also to address given above. Both booklet and medical advice are free.

Greensboro streets are to be improved.

A turpentine still in Hale will employ about 100 laborers.

Hodge's box factory at York is nearly cmplted.

Congressman O. L. Gray has gone to Washington to assume his duties.

The Needs of the Farm at this time of the Year

We realize them; we know what they are; and we know what kind of merchandise you needto meet them; and we have it to sell.

Just now the farmer has not got time to come to town and stand around all day, look over the whole town, to select what he wants. He must come in a hurry, get what he wants, and go back to his work in a hurry. No time to waste.

That's Where we Win

Because we have just what he needs, right where he can get his hands on it in a minute, and he loses no time. He gets what he wants and is gone back to his work without delay.

This means a whole lots to you. Had you ever thought about it?

No time lost, you get just the article you want, withou any worry or delay—and YOU SAVE MONEY a the prices we are selling at—that is the best part of the deal.

We need not go ahead and name our hundreds of bargains. Our line covers the entire needs of the farmer, and we want to impress you with the fact that when you need anyhing, just come righ here and you will find it. We have it for you, and we are looking for you to come after it.

Clanton Mercantile Co.

"THE BIG BARGAIN HOUSE"
Clanton, Alabama.

FATHER KILLED AND SON WOUNDED IN RAID

HUNTSVILLE, Ala., Feb. 23.—Jack Q. Jamar, for many years well known in Madison county, was instantly kiled, and his son, John Jamar, wounded early today following the confiscation by Deputy Sheriff Leonard Pierce of two wagon loads of liquor that was being brought toward Huntsvile from a boat on the Tennessee river.

The Deputy, working alone, had just arrested Walter Thompson and Harry Fleming, drivers of the wagns, when Jack and John Jamar, who evidently owned the liquor, came up behind in an automobile. Jack Jamar got out and the son continued driving toward town. Pierce claims that the elder Jamar fired at him with a shot gun without warning and he fired back, Jamar being killed.

The younger Jamar returned to the secne after a short time and trouble ensued, Jamar being shot in the shoulder. The liquor that caused the trouble was hauled to the county jail today. It amounted to 1900 pints, the largest quantity ever taken in a raid here.

Sheriff Ward of Bibb has set out 100 pecan trees.

Benjamin Colley and Miss Celestia Dickinson were married at Enterprise.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and cannot salivate

Every druggit in town—your druggist and everybody's durggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteeed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick head ache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lse a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

IS MARRIAGE OR SUFFRAGE TO BLAME?

"If it is true that men are so ill-goverened, so incapable of controlling themselves and their opinions and so incapable of living with other people who do not agree to everything they say, that political disagreement with a wife must lead to domestic tradagy, that is no arguement against suffrage. It may be an arguement against marriage, but it is certainly not an arguement against suffrage."—Dr. Shaw.
SOPHIA COURTNEY JONES,

Remember the golden rule. Have some consideration for your neighbors and shut up your poultry and stock.

The Civic Improvement Club cannot plant and beautify with poultry and stock running at large.

Hiliary Rogers and Miss Mary Adams wre married at Georgiana.

Wilcox has issued 47 auto licenses. That county is 57 in number of autos in the state.

Mrs. Mary McLaughlin, formerly of Camden, died in Mobile.

None of the bids for construction of Camden water works were near the anticipated outlay. No action was taken.

New bridge over the Alabama in West Wilcox is nearly completed.

Baldwin county has appropriated $7000 for farm demonstration work. One citrous company has added $300 to that .

POTATO PLANTS—For sale, the Nancy Hall, Improved yellow bunch yam, dooley yam, and Porto Rica; 1,000 plants, $1.75; 10,000 at $1.50 peer 1,00; seed potatoes used are improved by hill selection, and plants well hardened before shipping. Will begin shipping April 20th. J. L. WINSLOW, Thorsby, Ala.

THE UNION-BANNER

VOLUME IV. CLANTON, ALABAMA, MARCH 2, 1916. NUMBER 48.

THE SUDDEN DEATH OF DR. SAM'L C. MATTHEWS

Prominent Young Physician Dropped Dead in Moment of Excitement.

All of Clanton has hung its head in mourning since last Friday when the news was spread that Dr. Samuel Matthews had died suddenly during the excitement of the burning of his fathers house in the early hours of the morning.

The sad occurrence came as a distinct surprise to the many friends of the deceased, as he had been in his usual state of health even up to the very time of his death.

He was a young man, 28 years of age, engaged in the practice of medicine here for the past year.

By his death, his wife and one child, a year old are left to mourn with the many other friends who join and sympathize with them.

As a member of the Masonic Lodge, Dr. Matthews had attained a high degree, being for some time past a member of the Nobles of the Mystic Shrine. He was also a member of the Order of Improved Red Men. His funeral was conducted Saturday by Rev. Crumpton a the residence of his father. Burial rites were conducted by the Knights Templars, at the grave.

Together with a large number of his brother Masons and Red Men, hundreds of his relatives and friends gathered around his grave to pay their last tribute of love and respect to the honor and memory of a departed friend brother and loved one.

With the token of his fidelity and loyalty to his brothers, and their last pledge of love and honor to him, his body was consigned to its last resting place, till his Great Chieftain shall call his spirit on its last voyage across the hot sands into the blessed regions where peace and glory reigneth forever in righteousness.

EVERGREEN ITEMS

There is nothing strange around Evergreen. We have had some little colds and grippe, but all are up and going again.

We are having good Sunday school at the Baptist church.

Henry Robinson came back to see us again. Everybody is glad to see him come back.

The singing was good last Saturday night at W. S. Beaird's.

Yes sir, Mr. H. B. Oliver seems to have had a right smart jacking up for the commissioners. He seems to think the clod knockers of the county ought not to have any say so in road working, but I am glad to know the people are tired of stiff bosomed men like H. B. Oliver and some others we have in Chilton County dictating nad running every thing just to suit themselves. I think the people that have to work and keep up the roads certainyl ought to have some say so in how we work. I think if Mr. Oliver would just stop and think he could plainly see that the clod knockers have put him right where he is, and I am sure Mr.Oliver has never gone out and worked a day on the public roads since he has been loking to clod knockers for what he owns today. I think we have got just as good men in the sticks as we have around these little stations and some old day if the clod knockers (so Mr. Oliver calls us poor devils) will stand for the right thing like they did in this road business we will knock out some of these stiff bosomed men and we will all have better times in old Chilton.

Success to the Union-Banner and its many readers.

W. S. BEAIRD.

Remember Maddox Taxi Co. when in need of a car.

MAMMOTH YELLOW SOY BEANS

"I know of no plant that extracts more of its composition from the invisible wealth about us than the soy bean. Nor do I know another plant that fills the numerous forage requirments of the Southern farmer as perfectly as it does. As a producer of hay its yield per acre of a high-class article is equal to that of any of our recognized hay plants. It can be relied on to produce a similar yield to that of corn on lands of like fertility.

By laboratory test and subsequent feeding experiments, the hay has proved practically equal to alfalfa, a feed recognized as being in the "A" class of American provender.

The grain contains much higher feeding value than corn; the digestible contents are higher than cotton seed meal."

F. P. LATHAM,

In Progressive Farmer, Feb. 26, 1916.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

CONSOLIDATION IN LAUDERDALE COUNTY

Two years ago there were one hundred rural schools in Lauderdale County. Of that number ninety-six were one-teacher schools and two teachers were employed in each of the remaining four. During the past two years eighteen of these schools have been consolidated. One of them employs four teachers; four employ three; and twenty employ two, leaving only fifty-seven one-teacher schools in the county.

Four transportation wagons are being run; three of them transport pupils from routes four and a half, five and six miles to the Rhodesville school, which has just been enlarged to accommodate the increased enrollment. School officials report consolidation will continu until the number of schols is reduced to sixty.

Lauderdale County has learned that consolidation of schools means efficiency.

Pell City with a population of less than one thousand inhabitants has a city school with an enrollment of 245. This does not include the 250 children in attendance at the mill school and the 75 negroes. During the month of January the city school with 226 enrolled had 205 perfect in attendance. Among the pupils are eight boarders , representing five counties. There are pupils enrolled who travel eight miles to school each day. In fact, practically one-third of the school enrollment is from the incorporate limits of Pell City.

There are five teachers employed and the anticipated increase in attendance for next year makes sure the addition of another teacher to the present force. No doub the remarkable attendance is due in part to the fact that the scohol gives absolutely free tuition to any pupil living in St. Clair County. This liberal offer is made possible by the fact that Pell City pays fifty per cent of all school expenses, relying on the State and County to pay only the remaining fifty per cent. This is evidence that local initiative will produce efficient schools.

The building is unique in construction, plans having been drawn which would the building to be enlarged as required. Within the past eighteen months $4,000 has been expended by the citizens of the town, and only recently through the earnestefforts of the school improvement workers $1,500 additional was raised to complete the building. So remarkable is the school spirit shown that the building is practically free from defacements.

While there are people living within the limits of Pell City who are able to give their boys and girls the opportunity of schooling elsewhere, they have combined their afforts to increase the efficiency of the local school so that their neighbors might have the proper educational advantages. It was realized that by advancing the intellectual invironments the community would be largely enriched from a social and material viwpoint.

Athletics is given due attention, and the basket ball team claims the championship of the county.

At Easonville in the southern part of St. Clair County during the past few years there had been maintained a one-teacher school for a term of seven months, with an assistant employed for four months. The citizens of this community, awakened to better educational needs, desired a longer term and a better teaching force, and so they appealed for help to the county board of education. This body, in order to encourage local initiative, offered to apportion one dollar for every dollar raised by the school up to $900. Easonville now uses the $900 apportioned by the county board and the $900 from local sources, and has four teachers for a nine-month school.

ORDER FORPRIMARY ELECTION

The Executive committee of the Progressive party of Chilton county, in session at Clanton, on January 19, 1916,ordered a Primary Election to be held on May 9th, 1916, for the nomination of candidates for the various offices to be filled at the next November election.

MR. POWELL AND MISS EDWARDS MARRIED

The marriage of Mr. Emmett Powell and Miss Emma Edwards, an event of interest to many friends of the two young people, was solemnized on last Saturday night by Probate Clerk, Thomas Pyron.

Mr. Powell, a promising young man of Clanton, is well known here, having been connected with The Union-Banner force for several years.

His lovely young bride is the daughter of Mr. John Edwards of Fairview, in west Chilton.

The Union-Baner, together with their many other friends, wishes them worlds of happiness together. Long may they live, and prosperity attend them.

NOTICE

I will sell at public auction at my residence near Cooper, Ala., March 9th 1916 the following property:

Three mules 17 head cattle all household goods and lot of sugar cane syrup corn and cotton seed set shop tools and farm tools latest improved and lot of fodder and chickens and turkeys all to go cheap to the highest bidder. Am going to move and want to get rid of them quick.

J. RICKS RUTLAND.

"WHAT TO DO AND HOW TO DO IT."

Mr. Pounds Has Told Us What is the Trouble and How to Remedy it.

Pletcher, Ala., Feb. 19, 1916.
Editor Union-Banner:

Here we come with "What to do and how to do it." It is generally admitted that the greatest present need of the farmer to day is a sufficient and equitable system of finance. This is admitted by men high in official positions, such as Mr. Taft, Mr. Wilson and numerous others of like calibre.

They say we need a rural credit system of long time loans and low rate interest, and each leading political party has promised in their national platforms to enact such laws as will secure the needed relief.

And there is now pending some proposed bills claimed to be for this express purpose of dragging a slow and tortuous course in the house of Congress. But, when we investigate the provisions of those proposed bills we find them so drawn and drafted that were they to become law that so far as the farmer is concerned that his last estate would be worse than the first.

He would still be left in the clutches of the money lender. The national banking interest would still have a strangle hold on the money supply, and when the farmer could get money at all would have to unwind miles of red tape to get it while the banks would reap even greater harvest of gain than he does now. It would simply broaden and extend his faith of operation and entrench and fortify his control of the whole monetary system of thecountry or nation.

The farmer don't want anything like that, while we ask for a fish they offer us a serpent. When we call for bread they give us a stone.

But we must and will have a rural credit system that we can obtain mon ey direct from the government for long time and low interest. The government has supplied money to the national banks for years and years at 1 per cent on government bonds and other securities, corporation bonds and watered stock.

Why not the government issue money direct to the farmer at 3 per cent on real estate securities and non-perishable products.

The fact is no sane man can give a sane reason why it should not or could not be done.

Well, where is the rub? Why has it not been done long ago, for this is not a new proposition. The old green back party urged this very thing; the populist party did the same thing. And yet it has never come to pass nor never will until the right steps are taken which will compel those who make the laws to give us what we need instead of fake and fraud as they are promising to do now.

Well, we have come to the point of how to do it. The farmers cast a vast majority of the votes of his nation, their interest are all he same on this proposition, there are a great many other people who favor the same measure; all organized labor, a good percentage of the mercantile interest would doubtless support the move ment.

Now, the Farmers Union, the National Grange, the Farmers Society of Equity are waking up, getting on the same line. They say their votes are their own and all are adopting resolutions not to support any man for the Congress or Senate of the United States that will not sufficiently pledge themselves to give us a rural credit system by issueing money direct to the farmer without the intervention of national banks or any other "go-between."

Holy Moses! Is the Farmers Union going into politics? Yes, yes Jupiter, they are going into politics good and strong, so is the National Grange and the Farmers Society of Equity, but not into partisan politics for that would be ruinous, but by polling their votes regardless of party or party affiliation; you see they will hold such a tremendous balance of power that any old party will tumble to the demand just when they realize that that is the only way to get there Eli.

So we are now calling on every farmer to wake up, get a move on, join the Union, fill your own place in the ranks of this coming host, for it is to you and your home, your wives and children, to your country and your God that you should fall into line and help push the work along. Remember that "he that is not for us is against ,us" and the man that lags back for any little funny excuse is like dead matter on the wheel.

Remember this is going to be a battle royal; the national banks will fight us to the last ditch, they have the money that they will pour into the campaign by the millions to defeat us, they wil through their subsidised press redicule and make all manner of fun of us, but we have the votes and are learning how to use them; we will throw partyism to the winds and socially support the men that will stand for us; we will make our voting power felt as it has never been felt before.

L. B. POUNDS.

The County High School basket ball team defeated the Marbury High School boys on the latters court last Tuesday evening. The final score was 32 to 13 in favor of the visitors.

Theis makes five games the C. C. H. S. has played this season and have lost only one of them.

COL. LYON THINKS ROOSEVELT IS NOT A CANDIDATE NOW

WASHINGTON, Feb. 23.—Col. Cecil Lyon, of Texas, who is spending a few days here, saw Col. Roosevelt in New York Monday. The Texas Colonel says the Oyster Bay Colonel—they were both members of the Rough Riders in the Spanish-American war—in his opinion, is not a candidate for President; at least the former President did not say so in the conversation they had.

Col. Lyon was formerly the members of the National Republican Cmmittee, and when Roosevelt was President was the administratin's chief referee down in the Lone Star State. Then Lyon flopped over to the Bull Moose party and, in 1912 followed the political lead f Roosevelt when he bolted the Republican party, because he could not snatch the Presidential nomination away from William Howard Taft. Lyon used to be the whole thing in Texas, when he dominated the Republicans there, and if the Bull Moose and the Republican parties should join forces again, the understanding is Lyon will have no difficulty in retaining his power in the amalgamated combination.

Teddy Not a Candidate

Speaking of the poitical outlook, Col. Lyon said: "It's just this way: Col. Roosevelt, in my opinion, is not a candidate for any office, and I honestly believe he does not desire to be a candidate, but"—and the Texas Colonel emphasized the last word—"if the Republican party wants to win the election in November; if it does not want four more years of what we've got, then it had better nominate Col. Roosevelt at Chicago. I'm not saying that Roosevelt is the only man who can beat Wilson. If the Republicans at Chicago, can find some man, not a reactionary, who can win, then I think the man ought to be nominated. If I were a deligate to the Republican National Convention (I was elected the last time but they would not let me in) I would not vote for Roosevelt for the nomination, if the opposition to him was such that he had to be nominated by th delegates from Democratic States. If, in other words, the Republican States, those states which ordinarily elect Republican Presidents, opposed Roosevelt, then I certainly would not and could not vote for the Colonel as the nominee. But I do believe that, if the Republican party wants to make sure of victory in November, it had better name Roosevelt."

The Texan talks very much like Zeb Vance Walser, the Bull Moose Chairman in North Carolina, whoes views were recently given in The News correspondent from Washington. The man from "Tarheeldom" said he was positive the Republicans of his State would endorse Roosevelt.

Comments like these are probably highly encouraging to I. O. Thompson, who some time ago, in an interview given out at Montgomery, announced that he and his followers would endeavor to round up a Roosevelt delegation from Alabama. Since then, however, the Progressives have decided to have their National Convention meet in Chicago at the same time the Republicans are holding theirs. Mr. Thompson may meet with embarrassment in deciding which convention his delegates will head for. A couple of months ago it seemed doubtful about the Bull Moose party having a National Convention.

The understanding in Washington is that Major P. D. Barker, of Mobile, who is the Republican National Committeeman for Alabama, is looked upon by the "old guard" as the controlling figure in the contest to be made in the State to send a delegation from Alabama to the regular convention.

FOR RENT—Store formerly occupied by One Price Store, in Clanton.

WE CAN RAISE COTTON SAYS COMMIS'ER WADE

Take Proper Advantage and Overcome Boll Weevil

From recent observations, it seems that a very limited amount of preparation is being made to get an early start of the boll weevil. There seems to be a lack of self confidence upon the part of many people as to whether or not, it is worth while to try to grow cotton this year. You can still grow cotton in spite of the boll weevil and most of you wil have to do so. Why not start now and clean up the farm; burn around the stumps, dead trees, ditch banks, hedges and prepare the land in good shape for an early crop. If you must run the race, you should start first by all means. We cannot wait for Providence to solve the situation. It is one that we must solve for ourselves by taking every advantage that nature offers and take such advantages at the time they are of the greatest value.

Start early with your preparation, plant an early variety and plant moderately early in the season. Select your best drained soil for cotton and make your rows a little wider than usual. When the cotton comes up begin shallow cultivation. Look for the boll weevil when the cotton is about six inches high and kill all you can find before they infest any squares. If you do this well and keep up frequent shallow cultivation through the spring and summer, the fight will won and the results better than you expect.

Texas, Louisiana, Arkansas and Mississippi have all been up against the same proposition and are still growing cotton.

We have advised you to diversify and grow cattle, hogs, corn, hay and vegetable crops for a living but your chief money crop is cotton. You can and must grow some cotton and you cannot afford to wait until planting time to begin cleaning up and preparing the soil. The advantage is what you want and what you are obliged to have to grow cotton under present conditions. You must have courage and determination. Your interest and that of the country demand it. Cast off the blues and doubts and start now as planting time will soon be here. "Prepare for war in time of peace." The boll weevil war will begin in April, if you are not prepared now, you will have only a short time for preparation.

J. A. WADE,
Commissioner of Agri. and Ind.

MR. BELSER, ATTORNEY, LOCATES IN CLANTON

The latest addition to Clanton's coterie of lawyers is Mr. M. S. Belser, from Montgomery, who announces the opening of offices in the new Johnson Building, over Upchurch's drug store.

Mr. Belser is a very affable young gentleman, and from what we have already learned of him, we are impressed that he is an addition of which our little city will at once and for all time be proud.

We welcome him to our midst, and bespeak for him a success in the practice of his profession here. He has been engaged in the law practice in Montgomery for three years.

Mr. T. J. Hubbard of Jemison, was down to Clanton Monday. While here he filed with the Probate Judge his announcemen as a candidaet for the office of Tax Collector, subject to the action of the Progressive party primary. Mr. Hubbard has held this office before, and no doubt has a good number of friends over the county who will stand by him again in his application for the job.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

Tom McDonald is unable to be with his class this week on account of sickness. Tom is a strong student and the Juniors certainly miss him.

The basket ball boys have received their new suits, and they are certainly "peaches".

The entire school is rejoicing with "Pat" this week because he has purchased him a hair cut.

Mrs. G. W. Mathis, Alabama's representative in the American Bankers Association, delivered a very ineresting as well as instructive address on Southern Farming and Industry in the auditorium last Monday morning. Quite a number of the citizens of Chilton County were present, and gave much acclamation to the well founded thoughts set forth by the talented speaker. One of the most important points she brought out, was the importance and indirct help to mankind of the eradication of the cattle tick.

The school garden question is being agitated this week, and real work in this phase of the school will begin in a short time. This subject is to be under the supervision of Mrs. Wood.

The game with the Macon County High School boys, which was scheduled to be played at Notasulga next Saturday, has been canceled.

The boys have been winning fame for the C. C. H. S. in basket ball playing, but they have some distinguished help in this matter now. The girls went down to Eclectic last Friday night, and after being entertained by the students of the Elmore County High School at a party that night played a very intense game of basket ball Saturday evening. The final score was 22 to 14 in favor of the visitors.

The first half ended with Eclectic scoring 11 to Clanton 5, and in the first part of the second half the general incline of the game was in Eclectic's favor. But after Gragg pitched a foul ball through teh goal, the Clanton girls were incouraged and began to play with new strength. This half ended with a score of 17 for Clanton and Eclectic 3, making a total score of 22 for C. C. H. S. and 14 for th home team.

These girls had not had much practice, and they are certainly to be complimented for their splendid playing, especially Gragg and Callen for their excellent goal pitching.

The line up was as follows:

Forwards, Annie Gragg and Izora Callen; Centre, Libbie McKee; Center guard, Bessie Davis; Guards, Pauline Woodyard and Lucile Smith.

Practically all the material for the annual has been turned in, and work on the printing will begin in a short time.

WHAT IS THE CONFERENCE OF COTTON STATES BANKERS?

Bankers and other busy men dropped their work and traveled from all parts of the South and attended three meetings within four months at different cities to organize and further the work of the Conference of Cotton States Bankers Association, organized at Galveston, Texas, August 14, 1915.

A smaller groupe, as a committee, finished the important organization details at a meeting at Birmingham, Ala., held August 26, 1915. A third meeting, the largest of them all, was held at New Orleans December 6 and 7, and the Conference, now a permanent institution, will hold annual meetings hereafter.

Very briefly stated, the purpose of the Conference is to deal with problems peculiar to the States where cotton, the Souths most important commodity, is grown. Broadly speaking, all of these problems effect the development and prosperity of the Cotton States and everyone in them. Unsolved problems of years' standing regarding loans on cotton, warehousing, marketing, etc., as related to other lines of business are being vigorously dealt with. The diversified crop movement of 1915 which saved the South untold millions of dollars was largely fostered by the Conference.

The present officers are:

Chairman—Joseph Hirsch, President of the Corpus Christi National Bank, of Corpus Christi, Texas.

Secretary—Moorhead Wright, President of the Union Trust Company, Little Rock, Ark.

Treasurer—Oscar Newton, President Jackson State National Bank, Jackson, Miss.

The Vice Presidents are the Presidents of the State Banking organizations of the Southern States.

AN ADDRESS OF JUDGE S. M. ADAMS

To the voters of Chilton County.

The people of this County have a common interest, and should desire one and the same thing as to the County Goveernment, and were it not for an unnatural and unreasonable division that exists, they would be able to come together and adjust any business matter that concerns the County, but the political factions stand in the way of a calm and deliberate consideration of the real troubles that exist.

What are the people to do? Shall we continue this unnecessary and foolish division in order to elect certain men to office? Does it pay the taxpayers, and will you tell us what your reward is? Are you helped by the present political slogan? What are we doing for the young men of Chilton County? Are we not by example teaching them that to vote with certain parties means to vote certain parties in which all the sins of politics belong, is this unreasonble, is i the truth, and if not true will these young men not learn some day that it is not true.

It may be that our young men will not learn this until after it is too late for his future in this County as a public man, but they will most assuredly learn it, and when a young man learns the stubborn facts he will know that all political parties make mistakes, and that all men are liable to err, therefore the political agitation in this County for many years meant nothing good for the people, and has used mainly to elect certain men to office.

I ask once again what has the people received as a reward for this undesirable state of things in Chilton County? I did all that I could since last summer to get the people into one primary, a primary of the voters of all parties, not any special party. I believed then, and I believe now, that such an election would have been satisfactory to a majority of the people, and the County would have been saved from the long drawn out campaign that wil follow the primary in May, and if every man who is asking for office would have been willing to submit his chances to the people in that manner, he would have had the indorsement, not of a faction, but of the whole people, and all this summer and until next November we would have had peace instead of politics, and I am in the race for Judge of Probate hoping that I can help to this end, as well as to be elected, and I will say further, God being my helper, whether I am elected or defeated, as a citizen I willdo what I can to make the successful candidate, who ever he may be, a successful and efficient officer, and under the guidance of the Great Ruler, is it not our duty, and if our politics have in the past been low and unclean, may we not from this good day set the key to a higher tune and when the battle is over be better friends and more helpful one to another, and thus set the pace for our children, for we will soon be no more and permit me to say that I did my best to conduct the Probate's office while I was filling he place according to the foregoing suggestions, and many who voted against me became my friends and supporters, and if there is a good citizen of any party who will prove to me that I did not do my duty I wil retire from the race and I will go a step further and say find any man any where that I ever deceived or wronged, and I will retire from the race.

Sincerely,
S. M. ADAMS.

Clanton, Ala., Feb. 26, 1916.

FOR SALE—Berkshire hogs, cheap; early speckled and yokohoma velvet beans and soy beans $2 a bu; white chinese beans 50 cents a gallon. Jesse A. Davis, Clanton, Ala., Route 6. 3-2-4t.-adv.

REPUBLICANS UNWILLING TO TALK OF ROOSEVELT

Question as to Whether the G. O. P. will Accept Him at Chicago.

WASHINGTON, Feb. 26,—It is an imposibility, almost, to find a leading Republican member of Congress, who is willing to talk for publication, if one tells him his name is to be used in any thing he may say about the Roosevelt movement. Privately, they will admit that there certainly is a developing sentiment in favor of having the Republican convention at Chicago nominate the former Presidnt. Most of the Republicans, however, express the opinion, privately, that a way can be found to head "Teddy" off. If asked what position they would take in the event Roosevelt should win the Republican nomination, they admit as a rule they would be compelled to turn and work for the nominee, for they claim that they will swallow any dose to beat the Democrats in the next contest.

Roosevelt boomers are still busy circulating the report that the Colonel would under no circumstances accept a nomination at the hands of the regular Republican organization, unless it should be demonstrated beyound doubt that there is a strong sentiment for him in the States which will have to be mainly relied upon to furnish the electorial votes necessary to success. In other words their contention is that the Colonel would not care to be put up largely on account of the vote of the Southern Republican delegations.

That is the kind of reasoning, indulged in recently, by Zeb Vance Walser, of North Carolina, Col. Cecil Lyon of Texas, and other rampant supporters of the ex-President, and mentioned in former dispatches to The News. They put out this information just after having made visits to New York to sound the Oyster Bay Colonel.

A man who saw and talked with "Boss" Barnes in New York, the other day, is authority for the statement that most of the "old guard" Republicans feel confident they can prevent the nomination of Roosevelt in their party convention. They realize that they will have a fight on their hands, and if it comes to a pinch they are in control of the National Committee, and that committee has the making up of the temporary roll of the convention. In a case of emergency they could bring the "steam roller" into play, just as they did in 1908, in dealing with contests from the Southern States.

Although Senator Lodge, of Massachusettes, was known as Roosevelt's most intimate personal friend, while the latter was President, the Senator declares to his friends that he will not be drawn into any movement, looking to Roosevelt's nomination at Chicago in June. Mr. Lodge is supporting for the Presidency his colleague, Senator Weeks.

Representative Gus Gardner, son-in-law to Senator Lodge is running for one of the delegates at large from Massachusetts as an open and avowed supporter of Roosevelt for President. Four years ago Gardner indulgd in vitriolic language against Roosevelt, but now he is running as a Roosevelt delegate in company with Mr. Bird, the Bull Moose candidate for Governor several years ago. Bird, in that race for Governor, had for his Republican opponent, Gardner, and the Progressive received more votes than Gardner at the election, which resulted in the re-election of Governor Walsh, Democrat.

In his attacks upon President Wilson and his administration, Representative Gardner is positively insulting and extremely vicious. So intense is his hatred for the Democrats, he scarcely has the respect for the Presidential office a member of Congress is supposed to entertain.

In an interview, given out here, Representative Austin (Republican) of Tennessee, insists that practically all the Southern delegations to the Rpublican convntion at Chicago will go uninstructed. He thinks they should not tie up for any particular candidate, but be free to act for the best interests of their party.—Birmingham News.

MOCK TRIAL

There will be a mock trial at Jackson Chapel, aSturday night of the 4th. Everybody cordially invited to come. Case will be for violating prohibition law. Attorneys for state, Sloan Parker and Cleveland Jackson and for defendant, Carlton Golden and Larenza Sanders.

CLAIM PAID

Mr. John Mims of Falakto was insured only 3 days in the North American Accident Insurance Co., when he fell off the top of a house and broke a leg. Claim was paid promptly. He was thoughtful to carry that protection; and every other man should do the same thing. See J. C. BROWN and insure before it is too late. Your time has money value andshould be protected. The only cost is $10.00 a year. The policy pays you $25.00 a week in case of a sickness or accident, and $5,000 in case of death. J. Watts Moore at Mullins store, is also agent for this insurance. PEOPLES TELEPHONE 96.

Preparedness will be great—when we are prepared.

Oh, Lord! Another revolution brewing in Mexico.

When you hesitate you lose. Keep right on moving.

A "good fellow" doesn't need to tell it as he goes along.

God loves the man who loves his country. Where do you get off?

Our long whiskered Uncle is some busy these days performing the international wiggle.

At any rate, there is no law preventing women telling us men how to vote.

Be good to all of the candidates. It will be hill to most of them after election, any way.

Love is a mighty good thing in the home, but corn beef and cabbage gets there just the same.

We may not be doing any of the fighting, but we are doing a deal of spitting across the pond at the other fellows.

No danger of our congressmen providing for compulsory military service. Congressional service is more in line with their ideas of patriotism.

Speaking of the old time hayseed, it is quite the thing now to pity the poor cuss from the city.

No need to court death now. Get to the European front and it won't wait for a court.

Have you been reading the letter of Hon. J. A. Wade, Alabama's Comissioner of Agriculture, which appears every week in the columns of The Union-Banner? Look it up, read it, digest it and practice it. He gives vital ideas that may mean the saving of dollars to you.

The Union-Banner wishes to state that it is taking no stock in the things which are being said through the paper by Democratic candidates. The space they occupy is paid for by them at regular advertising rates. Our space is open to any man who wishes to buy it, but the things which are said in the advertisements have no connection with the policy of the management of the paper.

Hon. S. M. Adams, democratic candidate for the office of Judge of Probate of Chilton County, has a letter in this iusse of our paper, addressed to the people of Chilton County. While we do not feel disposed here to criticise what the Judge has to say, we do wish to say that we do not join in any of his statements, nor take the position of defendig him. Judge Adams has a battle of his own to fight, and we feel like just leaving the way open for him to wage it himself with the people.

Chances for electing a Republican Congressman from the new Tenth District of Alabama this fall are a bit encouraging. Republicans claim four of the seven counties in the district, which in all is composed of the counties of Fayete, Franklin, Lamar, Marion, Pickens, Walker and Winston. And they say that the other three cannot offset the majority cast in the four. R. P. Hobson and W. B. Bankhead are bidding for the Democratic nomination for the place, and whichever one of them is the winner is believed to have a warm time in front of him if he defeats the Republican candidate.

DR. MATTHEWS RESIDENCE DAMAGED BY FIRE

Fire broke out about one o'clock last Friday morning in the cellar of the residence of Dr. E. A. Matthews, and did considerable damage to the kitchen of the handsome residence before it was extinguished.

It was during the excitement created by the fire that Dr. S. C. Matthews died suddenly. He had gone out to start his auto and go to the fire, and was a few minutes later found dead by his machine.

NOTICE TO CREDITORS OF FIRST MEETING

In the District Court of the United States, For the Middle District of Alabama. In Bankruptcy. In the matter of William E. Christian, Bankrupt, postoffice Maplesville, County Chilton, Alabama.

The aforesaid party having been adjudged a Bankrupt, under the Act of Congress entitled "An Act to Establish a Uniform System of Bankruptcy Throughout the United States," approved July 1st, 1898, meeting of the Creditors of said Bankrupt is called at the office of the undersigned Referee, in the United States Court House, Montgomery, Alabama, on the 6th day of March next, at 10 o'clock, A. M., to make proof of debts, and for the election of a Trustee, and such other matters as are necessary and required by the Act of Congress aforesaid.

MR. J. BICE ANSWERES MR. OLIVERS LETTER

Thorsby, Ala., Feb. 28, 1916.
Editor Union-Banner:

Will you allow me space in your paper to say a few words in regard to a part of Mr. Oliver's letter to the Commissioners, printed in your paper of Feb. 24th. The people have a right to hold mass meetings and to criticise the management of their officers; if I understand correctly the county affairs belong o the people and not to the Commissioners, and when I say Commissioners I mean five and not four, as Mr. Oliver puts it. The Probate Judge is the Chairman and these five compose the Commissioners Court; and I want to say we only criticise the acts of the Commissioners Court and not the men; for I believe their intentions are good. But it is not all good men that make good officers.

We have a right to criticise their acts in regard to the new road law passed by them, and the way they have handled our finances. The mass meeting held at Clanton the 12h of Feb., represented more than a majority of the voters of this county, and th citizens of this mass meeting do not think the county belongs to the commissioners. They were elected by the people, and are sevants of the people and not boss; and they should repeal any law they have made when a majority of the people meet in mass meeting and request it.

Mr. Oliver said in his letter that it looks like childs play; this puts it mild he said. He seems to think the mass meeting very insignificant, and jumps rough sho dupon the commissioners for paying any attention to the people of the mass meeting. He said a board of four representative citizens of the county elected by the people; why did he not say five were elected to attend to matters pertaining to finances of the couny?

We can read what he means between the lines. I have been informed that the commissioners are equally divided on most all matters that comes before them and the Probate Judge has the deciding vote. For instance I have been informed that four men of Clanton had promised to pay a thousand dollars to the high school in Clanton, and I am told they went before the commissioners and ask them to pay it for them or they would have it to pay if they (the commissioners) did not pay it for them. So they took the matter up and Mr. Herrod and Mr. Waldrup voted against paying the debt of the four men, and Mr. Robinson and Mr. Williams voted to pay the debt for them. The vote was tied and Judge Deason voted to pay the debt for them—and here went a thousand dollars of the peoples money to pay somebody's debt, not the county's. I wonder if Mr. Oliver indorses this. I suppose from his letter he indorses all that the commissioners do. He said that the treasurer's report of the debt of the county, including interest on time warrants was not correct. The county now owes more than $150,000 and every one knows the county cannot pay this debt before it comes due. So you know the $88,000 interest will have to be paid, and nothing short of the world coming to an end will stop it. Yes, the county owes over $160,000, leaving off the interest, and I expect by this time the interest is a hundred thousand dollars, or will be when those time warrants are paid. Now Mr. Oliver, we know that this interest is not a debt, only as the warrants comes due, and we know that those warrants can't be and will not be paid before they are due. So you can safely say the interest will all have to be paid.

On March the 11th there will be another mass meeting of the citizens of this county. We invite all to come to this meeting.

J. BICE.

PLEASANT GROVE.

Preaching here on last Saturday and Sunday by Rev. M. C. Crumpton was well atended.

Sunday school is progressing well.

Our B. Y. P. U. meets every Sunlay afternoon at 2:30 o'clock.

The ladies aid society meets on Monday after the fourth Sunday.

Akin Collins and Mis U. L. Jones of Thorsby visited the Mises Wright Saturday and Sunday

Mr. Hankins and Miss Mamie Dawson were at preaching Sunday.

The Franklin gold mine has put in new machinery and is doing good work now. Mr.Prezile of Montgomery has returned again to accept the position of managr of the mine.

Straw berries are in full bloom, but their crops are expected to be short this season.

Pleasant Grove basket ball team is expected to play Union Grove in the near future.

The B. Y. P. U. hope to give another intertainment next month, so we will say to those who haven't had their name inrollled to see Miss Alice Childress and Miss Dulcie Champion the membership committee.

Three people were shot in Alabama third week in January by people who did no know the guns were loaded.

SPENT TWO YEARS IN ROLLING CHAIR

Mrs. Wilson Had Given Up All Hope---Gains 25 Pounds on Tanlac.

For two years I spent all my time either in the hospital, in bed, or in a rolling chair, and during that time I was given up to diey and I don't guess I would be here now if it hadn't ben for Tanlac," said Mrs. E. O. Wilson. Mrs. Wilson is well known in Atlanta, her husband having been employed by The Constitution for a number of years.

"I was a great sufferer from chronic indigestion," continued Mrs. Wilson, "and don't guess anybody ever haad to go through with what I did. I was very weak and nervous, and at times had those dreadful smothering sensations to the point of fainting. I had dreadful headaches, severe pains in my back and over my kidneys, and my joints ached all the time. For two years I had to live entirely on boiled milk, toast and soft boiled eggs, and even that didn't digest well, and would sour on my stomach. I didn't know know what it was to get a good night's sleep. I took one kind of medicine after another until our house was almost filled with empty bottles, but instead of improving I was getting worse all the time. Finally they took me to the hospital for treatment, and I lay there for five long months, but even that didn't make me well. It was taking nearly every cent of my husband's wages to pay my doctor and drug bills—our drug bill alone amounted to $14.00 or $15.00 a month, and one doctor bill amounted to $108.00.

"It looked like everything had failed to help me, and I had about given all hope when one day my husband brought a bottle of Tanlac home with him and asked me to take it. He said he had ben reading and hearing a lot of good things about it, and didn't see any reason why it sholdn't help me. I was confined to my rolling chair when I began taking it.

"Do I look like an invalid now? I certainly don't feel like one, and I have actually gained twenty-five pounds on eleven bottles of Tanlac, and feel as well as I ever did in my life. I can eat anything I want—such things as meat, turnips, hard-boiled eggs don't hurt me a particle, and I sleep as good as I did when I was a girl in my teens. I can get about as well as anybody, and just the other day I walked down town, and I am running around the neighborhood calling on my friends nearly all the time now. I haven't a pain about me. I believe I am the happiest woman in Atlanta, and I think I have a right to be. I think my recovery is almost a miracle, and everybody in our neighborhood thinks the same."

Tanlac is sold in Clanton evclusively by Upchurch Drug Co. adv.

MINERAL SPRINGS

Health of this community is good at present.

Collins Chapel, Union Grove and Mineral Springs schools met in a joint spelling match February 22. Mineral Springs came out victorious by being represented by four when both other schools were spelled down. We are glad to say we have a fine school a this place.

Miss Myrtle Scroggins who goes to school at Sylacauga has been visiting her mother, Mrs. Carrie Scroggins of this place.

Miss Inie Dupriest has been visiting her sister at Lomax.

Mr. Bently Dupriest and wife visitd Mr. S. J. Dupriest Sunday.

Mr. Anison Marcus and family visited Mr. Walter Marcus and family Saturday night and Sunday.

Most all of the girls of this place visited Miss Mary Robinson Sunday.

The mock trial at this place Saturday night was fine. Mr. James Robinson was found guilty of riding a freight train.

Good wishes to all.

CARD OF THANKS

We desire to thank the good people of this community for their kindness and help rendered us during the sickness and death of our beloved wife and mother. May God's richest blessings rest upon them.

J. M. WILLIAMS and CHILDREN

W. A. Gulledge of Verbena was a visitor to Clanton on Wednesday afternoon.

Maternity! The Word of Words

It is written into life's expectations that motherhood is the one sublime accomplishment. And if there is anything, no matter how simple, how apparently trivial it may seem, if it can aid, help, assist or in any way comfort the expectant mother, it is a blessing. And such is a remedy called "Mother's Friend." You apply it over the stomach muscles. It is gently rubbed on the surface, and makes the muscles pliant; this relieves the strain on ligaments, natural expansion takes place without undue effect upon the nerves. And as the time approaches, the mind has gone through a period of repose, of gentle expectancy, and this has an unquestioned influence upon the future child. That this is true is evidenced by the fact that three generations of mothers have used and recommended "Mother's Friend." Ask your nearest druggist for a bottle of this splendid remedy. He will get it for you. And then write to Braddeld Regulator Co., 707 Lamar Bldg., Atlanta, Ga., for a most interesting book of information to prospective mothers. It is mailed free. Write today. It is a book you will enjoy.

It is replete with important and timely topics such as a description of the nerves, muscles and parts involved, the strange mystery of a new baby, the law of contiguity, first pulsations, prefatory uneasiness, a maternity chart, diet list and many other subjects briefly told but of value to all women and particularly so to one who is to become a mother. It is mailed free to all who write for it.

POLITICAL ANNOUNCEMENTS

FOR PROBATE JUDGE

I hereby announce myself a candidate for the office of Judge of Probate of Chilton County, Ala., subject to the action of the Progressive Primary to be held on May, 9th, 1916.

In making this announcement, I am deeply sensible of the great responsibility attendant upon th office and, if nominated and elected, I here and now pledge my most earnest efforts for faithful and efficient service for all the people.

LIVE STOCK ASSOCIATION ORGANIZED AT MT. PLEASANT

The citizens of Mt. Pleasant met on Saturday, Feb. 26, 1916 and discussed the importance of organizeing a Live Stock Association. After which the organization was perfected with enrollment of several members.

We invite all citizens to co-operate with us. The association adopted the Berkshire strain. We wish to encourage each community to adopt a strain that will b best suited their wishes. We have obtained the best information possible, and the highest authorities recommend the Berkshire. Our intentions are to raise a uniform size and color of hogs in order that we may obtain the best market prices in car lots. This organization recommends that every comunity get busy and organize, for the timehas come when we need better live stock. We recommend this move to the serious consideration of all comunities, and urge them to think it over and take action in the mater at the earliest possible time.

Our organization will meet again on Saturday night, March 11, at 7 o'clock p.m., and we invite all parties interested in better live stock. We are going to have some prominent speakers here if possible.

G. H. MASSEY, President.
W. M. PIERCE, Secretary.

SWEET POTATOES

I have a fine lot of sweet potatoes grown from the vines and kept especially for seed (Early Triumph.) The Triumph is not only a splendid eating potato but will make twice as many to the ground as any I ever saw grown. You can get them March 10th and 11th. Price $1.00 per bu.

See write or phone W. D. Spigener,
Clanton, Ala.

THE MASS MEETING AT COURT HOUSE SATURDAY

A number of citizens again met at the court house last Saturday for the purpose of discussing matters pertaining tothe financial conditions of the county. Nothing was more interesting than the way in which the people seem to realize more fully than ever before that this is "a government of the people, by the people, and for the people."

Mr. J. Bice was elected chairman, and Buford Lawrence Secretary.

It was moved by Mr. Melton that the committee appointed at the last meeting proceed toinvestigae the financial condition of the county. It was seconded by Mr. W. C. Burnett, and discussed by a number of parties and pased by a unanimous vote.

Mr. J.M. Mims then moved that the action of the committee be deferred till March the 11th. Seconded and caried.

Mr. L. H. Reynolds moved that we invite Judge Longshore to be with us on Saturday, March 11th, andthe move was seconded by J. M. Mims; unahimously carried.

Sheriff Harris then moved that it was the sense of the meeting that the Progresive Party nominate a full and complete school board for Chilton county. Seconded by Mr. Lewis Robinson, and caried by a unanimous vote.

Move and second that we adjourn was caried.

There will be another meeting of this kind at the same place on Saturday, March 11th. There will be some matters discussed that should interest every citizen of Chilton county. Let everyone come out and show which side of the fence you are on.

J. BICE, Chairman.
BUFORD LAWRENCE, Sec.

Yours For Health

Granger Liver Regulator in your home will mean everything to the health of your family. Years of experience have proven it the very best remedy in all cases of Constipation, Bilousness and general inactivity of the Liver or Bowels.

At the first sign of any of these complaints a dose of Granger Liver Regulator will put you straight and avoid the serious illness that might result if they are neglected. And it's easy to take, mild in its action, thorough in its work and absolutely free of harmful chemicals.

Take a good look at the Tin Box, and point it out to your druggist. He'll gladly sell it to you for 25c, and you'll be glad you got it.

At the Ice Plant *Clanton, Ala,*

J. T. ROCKETT WRITES REGARDING CANDIDACY

Cooper, Ala., Feb. 29, 1916.
Editor Union-Banner:

Please allow me space in your paper to say a few words to the people in regard to my candidacy for commissioner from the fourth District.

First, I want to say that I am and have always been in favor of the general improvement of our rural schools. And I have always been in favor of building good roads as far and as fast as we could without running the county in debt for such purposes. In other words I believe in building roads but I believe in paying cash for it as we go, that is I do not believe in issuing bonds neither do I believe in issueing interest bearing time warrants, but I do believe in strict economy in the management of our county's affairs. And I want to say that I am certainly opposed to the extravagant way that the county's money has been spent, either on roads or for any other purpose.

Now I pledge myself if nominated and elected to do everything that I can to prevent the above named abuses. I will further say that I believe in consulting the people in regard to public matters as we go along and I do believe in trying to carry out the wishes of the people instead of trying to please a few parties in and around Clanton.

Now I feel and believe that I am competent and able to fill the office of commissioner if nominated and elected. Of course I hope to be nominated and I feel sure that if I recive such nomination I, together with our entire ticket, will be elected in November. I feel and realize that there are a set of good men in the field against me, seeking the same honor that I am and I will say that I believe that they are all good clean honst men and I feel sure that any of them which might be elected would fill the office with credit to themselves and to the people who elect them, however, as I am a candidate I ask of you and solicit your vote and influence, and promise you in advance that if you see fit to honor me with the nomination I will strive with all the energy that I can command fair and honorably to bring about the election of our entire ticket in November. And I will promise you that if elected I will not be dictated to nor will I be influenced by no man nor by no set of men other than the people f the county, but I will ever strive to serve the people the best I know how according to my sense of duty towards the people and my conscience, however, if you see fit to place this honor upon some one of my opponents then your choice will be mine and I further promise you that I will also do everything that I can honorably to elect our entire ticket in November.

Thanking you in advance for all courtisies and favors that you may show me I remain yours for the success of our party.

J. T. ROCKETT.
(Paid political adv.)

Ether Jackson of Equality got his leg broken at school.

Mrs. Claud Hall died near Equality.

Coosa commissioners have ordered a steel bridge over Hatchett creek, near where it joins Weogufka.

Coosa county has ordered the completion of the Talladega and Wetumpka road for five miles hrough Nixburg.

The good road from Montgomery to Goodwater will soon be empleted.

Melton Smith was buried with Masonic honors at Center.

Coosa will borrow $9000 for floating debts.

REMARKABLE INTRODUCTORY OFFER

FOR THIS VISIT ONLY — FOR THIS VISIT ONLY

$5.00 Eyeglasses at $1.00 a Pair

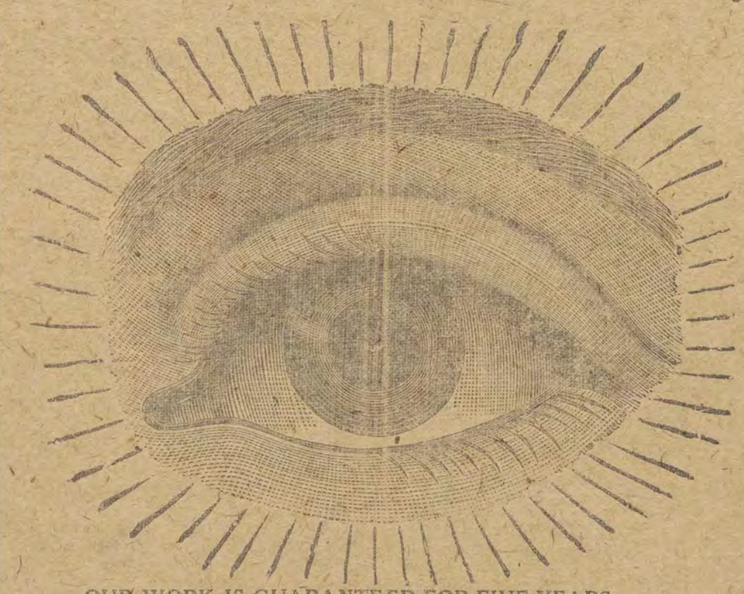
The Tru-Sight Optical Co., of Montgomery, Ala., wishes to Announce that Their Specialist and his Assistant will be in Clanton at the

NEW WILSON HOTEL, March 6th and 7th, and Every Ninety Days Thereafter

OUR OBJECT

in making this remarkable offer of $5.00 glasses for $1.00 a pair is simply to introduce our service in your community as well as our TRU-SIGHT LENSES... Our Tru-Sight Lenses have met with great success by mayn persons who are now wearing them and are meting with the same results wherever they are introduced.

Our New Invisible Bifocals



Will Not Confuse You

You Can See Near and Far With the Same Lenses

REMEMBER

That the above offer of $5.00 eye glasses for $1.00 a pair is for this visit only. Special prices on all other classes of Optical work... Regular prices will prevail after our first visit to Clanton.

OUR WORK IS GUARANTEED FOR FIVE YEARS.

Beware of all persons who call at your home and claim to be representing us, as we do not have representatives, but our specialist at the hotel as we advertise. All orders taken delivered by insured parcel post.

TRU-SIGHT OPTICAL CO.

Address Communications to Main Office
Vandiver Building, MONTGOMERY, ALA.

OUR OPTICAL SPECIALIST

and his assistant have had years of experience and you may rely on them absolutely. We will be pleased to examine all those who have eye trouble or wear glasses ABSOLUTELY FREE. We would suggest, therefore, that you call on them.

TRU-SIGHT LENSES

WILL POSITIVELY RELIEVE ALL PAINS ABOUT THE HEAD AND EYES as well as all other abnormal conditions of the eyes that can be relieved through wearing of properly fitted glasses of quality in most all cases.

Don't Forget the Dates

MONDAY AND TUESDAY
March 6th and 7th.
NEW WILSON HOTEL

OFFICE HOURS: 8:30 A. M. TO 8:00 P. M.
If your time is limited come early and avoid the rush. RECEPTION ROOM HOTEL PARLOR

We would not ask you to permit our remarkable offer to conflict in your mind with other such offers that have been made at Drug Stores and other such places by men who were not responsible nor established anywhere nor do they claim to be; as to ourselves, we are located and established both. We guarantee our work and glasses both for five years in writing and as to the responsibility of our guarantee we wil give bankable references to those desiring same... These glasses we are advertising are the kind that usually sell at most optical establishments at $5.00 and i nsome cases even more. This is the first time to our knowledge that such an offer has been made by responsible people who will stand back of their work and who cannot be branded as fakirs as some have. We will make these prices THIS VISIT ONLY and no more Call and see us and we wil explain how these special prices can be made. You are not oblidged to buy glasses and all EXAMINATIONS ABSOLUTELY FREE.

The Needs of the Farm at this time of the Year

We realize them; we know what they are; and we know what kind of merchandise you needto meet them; and we have it to sell.

Just now the farmer has not got time to come to town and stand around all day, look over the whole town, to select what he wants. He must come in a hurry, get what he wants, and go back to his work in a hurry. No time to waste.

That's Where we Win

Because we have just what he needs, right where he can get his hands on it in a minute, and he loses no time. He gets what he wants and is gone back to his work without delay.

This means a whole lots to you. Had you ever thought about it?

No time lost, you get just the article you want, withou any worry or delay—and YOU SAVE MONEY a the prices we are selling at—that is the best part of the deal.

We need not go ahead and name our hundreds of bargains. Our line covers the entire needs of the farmer, and we want to impress you with the fact that when you need anyhing, just come righ here and you will find it. We have it for you, and we are looking for you to come after it.

Worn Out?

No doubt you are, if you suffer from any of the numerous ailments to which all women are subject. Headache, backache, sideache, nervousness, weak, tired feeling, are some of the symptoms, and you must rid yourself of them in order to feel well. Thousands of women, who have been benefited by this remedy, urge you to

TAKE

Cardui

The Woman's Tonic

Mrs. Sylvania Woods, of Clifton Mills, Ky., says: "Before taking Cardui, I was, at times, so weak I could hardly walk, and the pain in my back and head nearly killed me. After taking three bottles of Cardui, the pains disappeared. Now I feel as well as I ever did. Every suffering woman should try Cardui." Get a bottle today. E-68

AT THORSBY INSTITUTE TUESDAY, MARCH 7, 1916

Mr. and Mrs. McCord give an evening of entertainment and fun and a proper balance of classical music and of the deeper sentiments.

The program opens with a humorous sketch entitled "I Tried So Hard to Be Nice." This is a story of the young husband who, without realizing it, has become indifferent and cross toward his wife. Reading in the newspaper of a case just like his, he decides to begin at once to be a model husband. When his wife returns and finds him so courteous and attentive and the presents begin coming from the florists, candy shop, and the dry goods store she cannot understand it at all. The expected complications result.

Following the opening sketch Mrs. McCord usually sings a group of songs, Mr. McCord playing her accompaniment on the piano. Mr. McCord then gives Irvin Cobb's humorous version of classical music. He also usually gives a character monologue, Jewish or German.

As a part of Mrs. McCord's work she sings and plays the alto part on the violin as an obligato. Her pianologues when she relieves Mr. McCord at the piano are very entertaining and delightfully well done.

The program usually closes with a costumed sketch.

CLANTON WILL OBSERVE BABY WEEK FULLY.

All earnest thinkers of to-day concede the importance of children. The Sir Arthur Newsholm, an advanced authority, says: "The care of the children is an index of civilization, and the infant mortality rate is the most sensitive sign we possess of social welfare."

The committee on baby week, composed of Mrs. Roberta Mullins, from the Baptist Ladies Aid, Mrs. Jim C. Jones from the Civic Improvement, Mrs. N. S. Johnson from the Inter-Se Club Mrs. Spigener from the Meth odist Missionary Society, Mrs. Callen from the Suffrage Association, Mrs. Duncan from the Womens Club, and Mrs. Pinckard, have been steadily at work this week, arranging for the movement. The program so far outlined is as follows:

Sunday, March 5, observed in the churches.

Monday March 6, observed at the meeting of the Methodist Missionary Society.

Tuesday, March 7, observed at the Civic Improvement Club. and at the Suffrage Association.

Wednesday, March 8, observed at the Baptist Ladies Aid Society.

Thursday, March 9, observed at Womans Club meeting.

Friday, March 10, observed at the Inter-Se Club meting.

Saturday, March 11, observed at the court house at 10 a. m. Speaking and adresses at 11. Judgment passed on the better babies, prizes awarded for same merits as used by the county fair plan. Please dress the babies as simply as posible as it avoids much delay, and in this way you expediate. Every one is years and under is eligible. No admission will be charged. Literature has been purchased, and will be distributed free.

Remember Saturday, March 11 is your day and our day, and be sure that we meet you at the court house. We want to help make this nation-wide baby week a sucess.

Two prizes of equal value will be given; one to the most perfect baby in Chilton county, not including the town of Clanton and one to Clanton.

SOPHIA COURTNEY JONES,
Publicity Chairman.

COOPER NEWS

Health of this community is very good at present.

Miss Beatrice Aired of Clanton visited relatives at this place Saturday and Sunday.

Mr. Wilis Taylor was a visitor to Clanton Sunday.

Mr. and Mrs. Walter A. Wyatt have returned from their extended wedding trip to Selma, Marion and other points and will make their future home in Cooper.

Mr. L. B. Self, employe of the L. & N. R R Co., and family have moved from Calera to Coopers.

Messrs. Dewey Rockett and Asbury Rutland, Miss Parson and Miss Bert Robinson motored to Lock 12 sunday afternoon.

Mr. W. T. Patterson and family visited relatives at Verbena Sunday.

Miss Julia Vance who has been working in Clanton for sme time has returned home.

DRAMATIC PERFORMANCE BY VERBENA DRAMATIC CLUB

Th second perfomance at Verbena of "Leap Year in the Village" was given at Verbena academy Tuesday evening with several pleasing additions to the usual program. Tuesday night's performance was presented to an over flowing house. Every seat was taken as was the standing room.

Th door receipts of the performances added to the receipts of the show given at several other towns in Chilton county amounted to enough to almost pay for new desks for the entire school building at Verbena and the remodeling of the enteror of the building.

e Th cast included only one young man and seven young ladies and their endeavors to capture his heart and hand proved quite amusing to the cheering spectators.

Mr. W. A. Gulledge ably played the part of "Mr. Brown" and the only young man in town" and the Flirt was coquettishly rendered by Miss Nat Williamson. The part of the Widow Barnady, who had buried two husbands, was portrayed by Miss Mary C. Gibson. Miss Mary Ellen Baldwin took the part of the fastidious lady, and Miss Kate Deramus was the demure little damsel of the Old School type. Miss Margery Strock was at her best in the roll of the literary young lady, and Miss Pearl Sims attemped to win the young man by domestic accomplishments and winning smiles. Mrs. W. A. Gulledge doubled in the parts of Mrs. Vane, Mr. Brown's landlady and Mrs. Nix, the fastidious lady's mother.

Mrs. J. W. Creel died at Geiger.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you loose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect usbstitute for calomel.

It is a pleasant vegetable liquid which wil start your liver just as surely as calomel, but it doesn't make you sick and can't salivate.

Children and grown folks can take Dodson's Liver Tone because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you feel weak, sick and nauseated to-morrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more billiousness, constipation, sluggishness, head ache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

CARD OF THANKS

W sincerely thank the good people of our community for their faithful help and especially we thank Dr. S. C. Matthews for his faithful service during the sickness and death of our dear beloved husband and father.

May God bless you all.

Mrs. T. H. Caton and Children.

Here's A 'Tip' On Rheumatism Follow It

AN ACCURATE DESCRIPTION

When your arm or your leg feels "all knotted" with rheumatism, when you feel as though your muscles were "tied up with a rope," you are really describing your pains accurately. Rheumatism is a condition of the body when acids and other deposits of impurities are actually "tieing up" the strands of muscles in your body, or strangling the nerves and thus producing the awful shooting pains of sciatica, lumbago, etc. Medical authorities agree that these acid deposits are carried and deposited by the blood in the various parts of the body. It stands to reason, therefore, that local applications such as rubbing with so-called remedies can't do any permanent good. At best they can relieve the pain a little and only for a little while. The only way to effect a real cure is to attack the real cause—the blood. It is cleansed from the troublesome deposits by S. S. S., the reliable blood purifier that is now easing the pains and healing the ills of the third generation. S. S. S. "goes after" the impurities in the blood as relentlessly, as eagerly and as thoroughly as a ferret goes after rats; pursuing the poison into every vein and artery, into every nook and corner of the body, and chasing the troublesome substances out of the system. The blood thus cleansed, carries off the acid and other injurious deposits and "filters" them out of the body through the kidneys. S. S. S. is not a drug. It is a purely vegetable blood purifier. You can get S. S. S. at every drug store. But if in addition you should like to have the advice of the doctors in charge of our laboratory, do not hesitate to write us. You will receive free, conscientious and confidential advice. This is in lin with our policy to make every effort to insure the best results from S. S. S. to every sufferer. Get a bottle at your druggist's today. If you wish special advice, write to Medical Department, Room 45, Swift Specific Company, Atlanta, Georgia.

Puff your way into the joys of Prince Albert!

Go ahead, quick as you lay in a stock of the national joy smoke! Fire up a pipe or a makin's cigarette as though you never did know what tobacco bite and parch meant!

For Prince Albert is freed from bite and parch by a patented process controlled exclusively by us. You can smoke it *without* a comeback of any kind because P. A. is *real tobacco delight.*

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made *three* men smoke pipes where *one* smoked before!

PRINCE ALBERT

the national joy smoke

will do for you what it has done for thousands of men, not only in the States but all over the world! It will give you a correct idea of what a pipe smoke or a home-rolled cigarette should be.

Get this Prince Albert pipe-peace and makin's-peace message, you men who have "retired" from pipe and cigarette-makin's pleasure; you men who have never known its solace! Because you have a lot of smoke pleasure due you quick as you pack-your-pipe or roll-a-cigarette with P. A. and make fire!

Buy Prince Albert everywhere tobacco is sold: in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors and in that clever pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such fine shape.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

MIDWAY

Everything is moving along quite well down our way now, except a few of us all trying to hold our breath to see what is going to happen next.

We have had the bond issue "Fanatics," the board of revenue advocates, and the county warrant promoters, and now we have what is termed the "Equalizing" board. The duty of the members of this board is, (if I understand it correctly) to go over the county and see if the tax-payers have lied in giving in their assessments.

The members of this board will tell you what your place is worth, and if you offer to sell it to them at the price they name, will at once tell you that they are not in the land buying business.

The people of my section are wondering if the big land owners land will be valued at $20 per acre.

We understand that the taxes will be ten cents higher on the hundred this Fall, this extra ten cents we persum will be used in paying these fellows to value your land.

We have also been informed that the old costum of paying tax on sixty per cent of the property value is unconstitutional and that the tax will be on the full value hereafter. If this be true a lot of people will no doubt be surprised next Fall when they find out what their taxes are.

The question before us now is,—Will the board of County Commissioners stand to the "Common" people of the county in this matter or will they do oherwise?

Last Friday the Midway Public school closed with appropriate exercises for the occasion.

This has been the most successful term of school that has been taught here in a number of years.

The teacher, Mrs. Rilla Raines, is justly entitled to an unusual amount of credit and appreciation for her untiring efforts and efficient work in building up the school.

UNION GROVE

Dear Editor:

Let us say a few words in regards to our little community.

Health here is very good except bad colds, but they are not severe. Grandma Dorminey has been on the sick list but is better now.

We were very glad to see such beautiful weather last Monday and Tuesday for the farmers seem to want to be working their soil and preparing for another crop hoping the boll weevils want visit them this year.

This part of the county was visited by a terrible hail storm Wednesday doing some damage such as taking the roofing off of some houses, breaking windows and killing some stock.

Misses Bessie and Lessie Robinson visited in Collins Chapel vicinity Saturday night and Sunday.

Miss Bessie Chandler spent Saturday night with Miss Bertha Conway.

Misses Hattie Honeycutt. and Irene Collum spent Sunday with Miss Mae Dorminey.

Miss Lessie Vinzent has gone to spend this week at Clanton.

Mr. and Mrs. C. C. Conway visited their parents Saturday night and Sunday.

Dr. and Mrs. A. A. Conway spent the week in their old home community.

Mr. Jack Robinson spent Saturday night with Mr. J. M. Robinson and family.

Mr. A. L. Robinson of Jemison visited home folks Sunday.

Mr. P. M. Martin happeneed to the bad luck of getting his arm broken Saturday afternoon, caused by a mule running away with him. Hope he will make a speedy reecovery.

Messrs. Reuben Jackson, Sidney Littleton, and Misses Girtrude Popwell, Mattie Mims and Gladys Littleton of Collins Chapel were out joy riding and visited this community Sunday afternoon.

With much success to the Union-Banner and its many readers.

Laundry agency at the Candy Store. Good service and satisfaction guaranteed.

LOMAX LOCALS

Health of this section is fairly good at present with the exceptions of bad colds.

Farmers are going to work at their crops and gee and haw is all the go.

Mr. Gant Robinson took a flying trip to Jemison and back Sunday night.

Mr. and Mrs. A. C. Bussie of this place spent a few days with the formers parents at Bice Ovens last week.

Miss Essie Parker visied Mrs. Callie Parker Monday.

Misses Elvenia Sundberg and Ester Melton and Messrs. Calvin Johnson and John Henry Maherg were in Lomax Sunday.

Miss Ruth Jones who has been spending the past week with friends and relatives near Liberty has returned home again.

Mr. and Mrs. Charlie Jones and Miss Mary Balon spent last Sunday with the latters parens, Mr. and Mrs. Tim Balon.

Mr. John Sundberg visited his mother last Sunday.

Uncle Dock Wells preached a fine sermon at Jacksons Chapel last Sunday.

Mr. and Mrs. Jack Parker visited the formers parents Saturday night.

The peanut parching at Mr. Bill Jones Thursday night was fine and enjoyed by all present.

Messrs. Phill Parker, Lee Taylor, and Fletcher Parker and Mrs. Callie Parker visited at Mr. A. J. Jones Sunday night and reported a nice time.

Mr. Lonza Robinson and family went to Clanton last Sunday.

Come on boys and girls and lets make this paper a success to its many readers.

Before going on your trip be sure call on Maddox Taxi Co. 2-24-adv.

ENTERPRISE

We are having very good success with our new organized Sunday school. We started off with four teachers and two officers and now we have near one hundred scholars and about seventy-five regular attendance.

Also we want to tell the people that we have a singing Society that meets every second Sunday at 10 a. m. and every fourth Sunday at 9 a. m. We invite all singers and lovers of music to be with us every time they will come. We have about 37 on roll in the Society.

Our Sunday school meets every Sunday at 10 a. m., Rev. S. D. Deloach, President; J. W. Cagle, Secretary; Teachers, W. Y. Keel, W. W. Bishop, Mrs. J. W. Cagle and Miss Bessie Neely.

Our Singing Society officers: S. D. Deloach, President; J. W. Cagle, Secretary.

Organizing Committee, W. Y. Keel, E. A. Deloach and J. W. Devaughn.

Some Items About the County Farmers Union Meeting at Mt. Pleasant Thursday.

The Editor of The Union-Banner enjoyed a visit to a meeting of the Chilton County Farmers Union up at Mt. Pleasant school house on last Thursday. Many things of interest were said and done, a few of which we would like to mention below to our readers.

Mr. W. H. Conway, the county president, and also our county farm demonstrator, was there, with his usual large amount of valuable information for his fellow farmers. Everybody always likes to listen to what he has to say, for it is sure to be good. His ideas about raising hogs, cattle, velvet beans, peanuts and in fact covering every brach of industry that lies within the scope of our farmers are worth money to those who were fortunate enough to hear them. Mr. Conway has got a line on Mr. Boll weevil, and we see that right now. If you will listen to him when he comes to your community, he will tell you the secret of how to get rid of the boll weevil, or else how to live here with him on peaceable terms—one or the other.

And Rev. W. P. Lowery, the lecturer from the Farmers Union in this county, was there, and we believe on this occasion Thursday he must have made the best lecture of all his life. Mr. Lowery, yu know, is in the first place, an interesting man, a good preacher, a good farmer, and an all round fine fellow. His speech put life into the whole occasion, even though h did make it just after those present were filled with the best dinnerner we have most ever seen spread out to he mercy of a hungry crowd of people.

And that just reminds us to tell what a fine dinner we had that day. It was a dandy. You could tell by all those pies, cakes, custards, vegetables, broiled baked, dried, and every oher kind of meats, that the people of Mt. Pleasant community have plenty to eat, and good women who know how to prepare it. The day was cold; but when we fellows got to making away with all those good things out kindly behind the house where the wind could not strike us, we forgot that it was winter time, and for a while afterward we seemed to forget, as Mr. Lowery said, and did not care whether the boll weevil came or went. We sure had plenty for a while.

But back before dinner, there was something else interesting. It was that fellow Ford, the State President of the Farmers Union. Yes, it was him, himself that was interesting. Oh, of course, the many good things he said were also interesting, but he was interesting too. He made a speech of about two hours in length, covering everything from Moses to Woodrow, and form chopping cotton barefooted out in the warm sunny fields to speculating on the fleecy staple in Liverpool. H must most evidently have said it all, and his hearers ecrtainly enjoyed it.

If you ever chance to come across that fellow Ford, don't put him down for what he looks like. Oh,now we don't mean he looks any ways bad; but to just look at him, you wouldn't think he was such a high up fellow as he really is.

Mr. L. B. Pounds of Pletcher was there, and made a splendid speech of much merit. He covered the status of the farmer's condition to-day in very specific ways, nor did he stop at telling what a bad fix the farmer is in; he went further and offered a solution for the muddle. Whether one thinks Mr. Pounds plans are correct and workable or not, he must be accorded credit for the thought and study he has given the subject.

T. J. Dorminey of Union Grove was there, and aside from his patient and forebearing interest in the farmers union, he was having his usual fun out of some candidates who "happened" to drop in during the day just to see what was going on.

Rev. W. S. Cox, a good farmer from southwest Chilton had a few things to say. He is thoroughly in sympathy with the interests of the farmers, as was evidenced by his presence and sentiments.

There never hasbeen a time when the farmers needed to stand togther, and guard the interests of one anothr like hte present. If they are to be organized, it is up to them—and them alone—to perfect the organization. Nobody else is going to do it. And to serve this great and demanding purpose, we see no greater opportunity for any set of persons than that which is held out to the Farmers' Educational and Co-Operative Union of America.

J. H. Anderson of Calera was a visitor at our office Monday. He paid up his subscription while here.

George Murrah of Collins Chapel was here on Wednesday.

FOR SALE—Beat the boll weevil planting early variety Velvet Beans. Special prices made on quanity orders of 50 bushels or more. Write your wants and get price. J. T. Purefoy, The Bean Man, Furman, Ala. Adv.

ONE MORE CHANCE TO SECURE CHEAP MONEY

Mr. R. W. Dilday, representing the Alabama Rural Credit Association, will be in Clanton again next Monday (and that day only) at the Wilson Hotel. His purpose is to lend money to the farmers on long-time low interest plans. If you are interested be sure to call and see him.

Next Monday Only

CLANTON ITEMS

Stanly Thornton of Birmingham was here the first of this week.

That was a nice little snowfall that came to this vicinity on last Sunday afternoon.

Julian Latham of the University of Alabama, was at home a day or two last week.

J. Bice of Thorsby was here Saturday attending the meeting of citizens in the road matter.

When in need of a car don't forget to call Maddox Taxi Co.

J. D. Collins and family, Mr. and Mrs. G. D. Retherford spent Sunday with relatives at Jemison.

"Honest" Tom Littlejohn, who travels around trying to induce our good ladies to use snuff, was in Clanton Sunday.

Did you get any sand in your eyes last Saturday? Well, if you didn't we fail to see the reason why. The whole elements around here was full of the vile stuff, and we began to think before it stopped that somebody had decidedto move the Sahara Desert to Clanton. The wind did blow.

NOTICE—I buy scrip and warrants of all kinds. See me ifyou have any to sell. G. O. FOSHEE Clanton, Ala. adv.

J. Henry Robinson of Cane Creek was a visitor at our office on Monday and subscribed for the paper.

William R. Baker, candidate for the office of Justice of the Peace for beat 4, was a caller at our office last Saturday. He paid up his subscription for another year.

Dr. and Mrs. Wimberly of Reform have been in Clanton with the parents of the latter, since the death of her brother, Dr. Samuel C. Matthews last week.

FOR RENT—Building formerly occupied by Union-Banner office next to court house. Apply to the Union-Banner.

C. D. Foshee has made announcement as a candidate for membership on the school board of Chilon county, subject to the Progressive party primary.

The month of March is to be Church Going Month in Clanton. The pastors are back of the movement and insistently appeal to the people to observe this entire month accordingly. It is a sad fact that the main ones needing the churches influence rob themselves of this exalted privilege, altogether.

We can repair most anything but make a specialty of reparing Fords. Maddox and Hurtt. adv.

Don't forget your subscription to The Union-Banner. We need the money.

Thecurbing which is being done on our main street looks good for Clanton.

FOR SALE—A good second-hand up right Piano at a bargain. Apply to J. R. Mullins, Clanton, Ala.

L. F. Littlefield of Jemison was a visitor here Wednesday.

We have the best tools and know how to work on your car when it gets out of order. Bring it around. Maddox and Hurtt. adv.

EXECUTIVE COMMITTEE CALL

The Executive committee of the Progressive party f Chilton county is hereby called to meet at the court house in Clanton, on Saturday, March 11th, for the transaction of important business matters. All the candidates who are running on the Progressive ticket for the primary are urgently requested to be present.

W. H. GILLESPIE, Chm.
Progressive Ex. Committee.
M. D. FOSHEE, Sec'y.

DR. J. V. HIGGINS, THE RELIABLE WATCH MAN.

ATHENS, Ala., Feb. 25, 1916.

Have you a very particular job of jewelry to repair? A precious, semi-precious, or stone setting of any kind to do? A nice watcht o repair, or any kind of a job that you don't want to risk acobbler, and therefore make it very expensive to you?

If so drop a postal card to Dr. J. V. HIGGINS, Athens, Ala., and you will receive by return mail, a nice box; put the article in the box and send it to Dr. J. V. Higgins, and get a price on the job. If the price does not suit you the article will be returned to you prepaid. You will not be out one cent.

My being a natural born mechanic, and having several years experience, and having worked under the finest workmen in the North, South and West, I am educated to give you only factory-finished jobs.

Here is a testimonial from a lady who had a pearl brooch, containing 56 pearls to repair:

"Oh, that's simply beautiful; just like new. Hope you will get enough work to keep you in Athens. We have been needing a good jeweler for some time. I have had that brooch in my trunk three years and could not get it repaired.—Mrs. M. O. Seamans, Athens, Ala."

Send me your work, and I will appreciate your patronage. All my work is guaranteed. Spectacles and eye lgasses gold soldered, guaranteed to hold for 10 years or no charge.

DR. J. V. HIGGINS,
The Reliable Watch and Eye Man,
Athens, Ala.

THE UNION-BANNER

VOLUME IV. CLANTON, ALABAMA, MARCH 9, 1916. NUMBER 49.

THE ROMAN CATHOLICS HAVE TAKEN CHARGE OF THE DEMOCRATIC PARTY

An Article From The Jeffersonian by its Brilliant Editor, Hon. Thos. E. Watson.

For many years it must have been apparent to all political students, that Tammany Hall, of New York, was the Roman Catholic Church, organized for political purposes.

The head of Tammany is always a Roman Catholic: usually an Irishman.

It has been accused with all sorts of complicity with crime. Its methods, in carrying elections, have been notoriously fraudelent, violent and murderous.

While Tammany calls itself Democratic, it is really papal. It robs the tax-payers and turns over the money to the pope's schools, hospitals and charities.

It never fails to knife a Democratic candidate for the Presidency, if that candidate has refused to make a satisfactory trade for the Roman Catholic vote.

It was under Mr. Cleveland that the Italian pope first landed his ambassadors at Washington.

Under President Wislon they have enjoyed a picnic, such as they never had during any other Administration.

He made a Roman Catholic Knight of Columbus a Collector of Costums, in New York.

He appointed Prof. Monahan to a fat consulship, because Monahan had published a little pamphlet showing how friendly to the Catholics Wilson had been during his term as Governor of New Jersey.

He appointed a postmaster at Newark, the most desirable Federal position in New Jersey, because Tumulty, his Jesuit Secretary, demanded it.

At least 80 per cent of the appointments in Washington have been Roman Catholics.

During his campaign for the nomination, in 1912, Wilson went through the form of dismissing Tumulty from his employment, as private secretary, but even then he appointed him secretary of the Supreme Court of New Jersey.

Immediately after his unworthy dodge had served its purpose, Wilson again took up his Jesuit secretary, and has held him in the closest of confidential relations ever since,

What right has Woodrow Wilson to expect the support of any Protestant?

In what way has he made a stand for American principles against the encroachment of the Italian pope?

What right has he to demand a renomination from the Southern States?

He has considered the entire South as his political property, and has acted upon the belief that, no matter how unjustly and cruelly he used us, we were compelled to vote for him.

With the utmost eagerness, he legalized the New York Money Trust, financed the cotton gamblers who had been denounced in the Democratic platform; he loaned them hundreds of millions of dollars to buy our cotton crop at $30.00 a bale, and he boldly refused to lift a finger in behalf of the loyal Democrats who had voted for him.

He loaned out $400,000,000 of new money, running the presses day and night to create it, and he allowed them the use of this money, at 3 per cent interest, when the Republican Aldrich bill, which was denounced in the Baltimore platform, proposed that the bankers should pay 5 per cent.

According to the Comptroller, John Skelton Williams, the new money which President Wilson loaned to the gamblers at 3 per cent, cost those who got any of it from 20 up to 2,400 per cent.

The coton belt, clamoring for a redemption of the pledge for Rural Credits, as made in the Baltimore platform, was coldly told by Woodrow Wilson, that it could not obtain any help from the Democratic Administration.

By his broken contract and chilly perfidiousness of his conduct, the Southern States lost $400,000,000 directly. How much was lost indirectly, in the failure of merchants and banks, and in the enforced sale of personal property and realty, God only knows.

No content with breaking his promise to the farming people of the Union he laid war taxes upon them: not upon the wealth of the country, but upon its proverty.

At the very time these war taxes had been made necessary by the wild profligacy of the Administration, the national banks had in their vaults $75,000,000 of the people's money, which the government had loaned them for an indefinite period at 2 per cent interest.

What right has any Democratic candidate to expect our support, when he admits that he made a secret deal with the negro leaders, binding him to do as much for colored office seekers as the Republicans had done?

What right has President Wilson to be consideded an honest man, when he makes secret bargains to appoint negroes to high posiions, where they will issue orders, and pass judgment upon white men and white women?

What right has President Wilson to the votes of plain, common people, when they remember hat his very first work, after his inauguration, was to legalize the Aldrich money bill, which was denounced by name in the Baltimore platform?

What sort of man is this, who tears up his contract with the people,treating it as "a scrap of paper," just as the Kaiser did with the treaty which bound him to respect and protect the neutraliy of Belgium?

Did Woodrow Wilson tell the people that he meant to sign the law which would convert 2 per cent bonds into an issue bearing 3 per cent interest, and thus making a gift to the bankers of $140,000,000?

Suppose President Taft had tried to turn $700,000,000 of 2 per cent bonds into new paper, bearing 3 per cent.

Never before, in the history of this Government, or any other civilized government, have such calamities been brought upon the unprivileged masses, as they have suffered from the unscrupulous Adminsitratin of Woodrow Wilson.

He has not been faithful to a single pledge of the Baltimore platform.

He kicked the one-term plank aside, before he had warmed a bed at the White House.

His hurry to give to the great bankers the legalized Money Trust and a bountiful supply of newly created money, was so impetuous as to cause all observant citizens to believe, that he had enslaved himself to he Wall Street money interests, before he and Bryan tricked Champ Clark out of the nomination.

Could he make a promise now that would be more positive than those he made while a candidate?

Did he not expressly endorse the Baltimore platform, and pledge himself to live up to it?

If THOSE promises meant nothing to him, how do we know that any other promises would bind him?

Just as the Roman Catholics have seized the machinery of New York politics, and are using the Democratic party for the purposes of the pope, so they are in complete control of the National Democratic Executive Committee.

In Florida they have issued orders which seek to turn the party over to the corporation interests and the Knights of Columbus.

The Roman Catholics may have just as many secret societies as they like, and vote for the pope in the interest of their foreign church, whenever hey choose to do so, but the Protestants must not organize, even in self-defense.

In Georgia, the same methods are about to be employed.

The primary is ordered for May, when every farmer will be engaged with his crop, while the Roman Catholics of the cities will not be put to any loss or inconvenience to vote for Tumulty's man, Woodrow Wilson.

The South is considered so politically helpless, nobody seems to fear any political resentment from it toward this candidate who has played them so false.

UNION SPRINGS

So much unfavorable weather has retarded farm work in his locality.

Had a large crowd at the singing Sunday afternoon.

Prof. Mullins' school concert Saturday night was quite a success. Attendance was large, music by the Cofer string band.

Rev. Waldrup visited his son near Jemison Friday afternoon.

Interest in the Sunday school here is good, the weekly bible drill is attracting attention. Several in the Junior department are engaged in the drill, while they all do well one in particular, Erman Crumpton, merits honorable mention. His work is just fine, he is just in his teens.

Miss Mae Posey has been quite sick but is now better.

Mr. Champin has withdrawn from the firm of Honeycutt and Champion Lumber dealers, leaving Mr. Honeycutt in charge of the business. His shipping will be over the Southern from Randolph.

We believe the public roads will soon be put in good shape. The people seem to be behind the movement, and if they are interested the roads will be made better and better.

Fools giggle and say we "can't" do away with "can't do" we can do. Woman suffrage will prevail because we can do. Let it come, if we wait for others to do for us nothing will be done Educationally, Musically or Spiritually. Let us do for ourselves.

ORDER FORPRIMARY ELECTION

The Executive committee of the Progressive party of Chilton county, in session at Clanton, on January 19, 1916,ordered a Primary Election to be held on May 9th, 1916, for the nomination of candidates for the various offices to be filled at the next November election.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

SOME ITEMS ABOUT BOLL WEEVIL CONFERENCE IN MONTGOMERY

Valuable Points and Suggestions Gathered by Mr. J. N. Dennis in Attendance.

Following are some of the valuable points brought out at the boll weevil conference at Montgomery by Dr. Bradford Knapp and others who have been actively engaged in work under boll weevil conditions in Mississippi and Louisiana.

The speakers selected to conduct this meeting were only those who had had actual experience in fighting boll weevils and who had succeeded. All of which were practically farmers.

One of the speakers showed that in his home county the production of cotton had decreased from 24,000 bales to about 3,800 bales since the advent of the boll weevil. He said that before the boll weevil came their principal crop was cotton, but now they only planted from six to twelve acres to the plow and that the rest of the acreage was taken up in such crops as corn, hay, oats, pasture and other crops.

Farmers were advised to select their best well drained land for the planting of cotton undr boll weevil conditions and to reduce the acreage to from 6 to 12 acres to the plow, to prepare the cotton land well, plant a good quick maturing cotton on well to May 1st, begin cultivation early and cultivate rapidly.

For the average farmer, cotton, prepared seed bed from April 15th even with the boll weevil present, will remain one of our very best money crops, but, in order to grow cotton at aprofit we will have to grow as near everything we use as possible on our own farms. W cannot grow cotton to buy our flour, meat, lard, feed, hay or othr products which it is possible to grow at home.

These things cost the people in our own county an average of nearly one-half million dollars each year. When we supply and feed our families and live stock on our farms we will not need so much cotton.

One of the greatest helps is to have a good garden, care for same well, plant plenty of everything that we can use, feed and can the surplus and keep he garden at work as nearly the entire year as possiblie.

Give the canning club all the encouragement you can; it helps solve the food problem as well saving doctors bills.

The boll weevil forces bette r farming, closer economy and less credit on a cotton basis. We must live at home and board at the same place.

Immediately after plowing under the stalks we were advised to sow the fresh plowed land to a good cover crop, such as crimson clover, hairy vetch, rape, wheat or oats to keep the lands from washing, to take up and hold the available plant food, which otherwise would be lost before Spring, to furnish some grazing and to turn under and add humus in the Spring before planting our regular crops.

It is important to use an early maturing cotton in order to get a crop set before the boll weevils get so numerous as they usually are by the last of July or first of August.

It is not worth the loss of fertilizer and loss of time to burn cotton stalks after they have been killed by severe frost.

To destroy weevils cotton stalks must be burned before they are killed by frost.

The raising of cotton under boll weevil conditions resolves itself into a race between the quick maturing of the cotton and the multiplication of the boll weevil. Extensive cultivation was advised.

Doctor Knapp advised against going wild over diversification to the extent of raising a lot of perishable crops for which we have no established markets and for which we are unprepared to properly handle and market to an advantage.

We were advised to grow all the food crops needed for our families and for our live stock, to look well to the maintenance of our soil fertility, to gradually increase our live stock and poultry and to grow from six to twelve acres of cotton to the plow.

It was shown that upon an average for the last three years hay produced as good a sale crop in Alabama as cotton, and that under average conditions oats and corn were nearly as good money crops per acre as cotton.

The best time to destry boll weevils was claimed to be the latter part of September and first days of October by a thorough plowing under all green cotton to the greatest depth.

W. I. Mullins, W. L. Popwell, F. A. Gulledge, Charlie Edwards, Robert Wilkins, Will Deshazo, Monroe Foshee and L. H. Reynolds were in Montgomery Tuesday attending the boll weevil meeting.

NEWTON BAKER APPOINTED SECRETARY OF WAR

WASHINGTON, March 6.—Newton D. Baker, former mayor of Cleveland, Ohio, will succeed Lindley M. Garrison as Secretary of War in President Wilson's Cabinet. The President has appointed him for the place and his nomination will be sent to the Senate immediately.

JUDGE L. H. REYNOLDS TO GO TO LOUISIANA

Judge L. H. Reynolds of Clanton has been invited to the state of Louisiana to participate in the campaign in that state in behalf of the interest of the party and its candidates. This is indeed a complementary honor, to the Judge, and will be gratifying news to his many friends and admirers in this county. We all know Judge Reynolds to be a forceful speaker and splendid campaigner, and no doubt he will win honors by his speeches in Louisiana.

CELEBRATES SIXTH BIRTHDAY AT 28.

Prof. .R A. Smith of Jemison celebrated his sixth birthday, Tuesday February 29, with a reception for his school at his home.

About all the studentswerepresent and seemed to enjoy themselves very much.

While in reality he is 28 years of age, Mr. Smith, having been born on February 29, he has had only six real birthdays in all his life.

Riderville, Ala., March 1, 1916.
Editor Union-Banner:

Please allow us a little space in your paper to say a few words in regard to the distruction of the boll weevil.

Ever since the boll weveli flew across the Rio Grand River, people have been trying to get some plan to destroy them. Some have used poison, others have tried machines to catch them. Th committee that met in Montgomery Feb. 28 made some good suggestions to the farmers if they will carry them out, for anything or any suggestion that will help the Southern farmer make more cotton in the boll weevil days will sure be a great benefit to the farmers.

The Editor of the Progressive Farmer says he wont advertise anything through his paper, for he says that people who claim to have anything to destroy the boll weevil do it knowing that it is a fake, or do it through ignorance.

The writer has never advertised through his paper, and we agree with him that all such machines heretofore may have been a fake, but we hope that in the near future our friend Progressive Farmer can drink and believe, for we have a machine now completed that's a success and we expect to have it on the market by he time the boll weevil visits us th's year.

C. REESE MULLINS IN REGARD TO CANDIDACY

Editor Union-Banner

Dear Sir:—I will thank you very much for space in your paper to write of my announcement for the office of Probate Judge of Chilton County which appeared in last week's issue of The Press.

I will say the law does not require me to announce my candidacy in any newspaper, but I simply do this in order to reach my friends that I have been unable to see since having been satisfied by many of them to come out. The law only requires me to file with the Secretary of the Democratic Executive Committee my intention to run, on or before March 1st, which I have done.

I want to say to the people of the county first that I feel myself fully competent to conduct the affairs of the office, and that to the god and welfare of all the people. I am in favor of completing the roads now under construction in order to save what has been done, but after this I would be in favor of putting on the lid unless a majority of the people were in favor of continuing the work by issuing warrants or bonds. I do not think the building of good roads can be a mistake, but I think there can be mistakes made in building them. Simply because we have the right under the law to issue warrants for building roads does not mean to say that we should take the bull by the horns and issue an unlimited amount, or all that we can under the law, and I am opposed to it unless a majority of the people are willing. I think in matters of such magnitude as this the people should have a say. In all this contracting and road building as I see it the Democrats have been absolutely helpless, as a majority of the men in the saddle belong to the opposite party. I believe they were honest, but honest men sometimes make mistakes.

This of course should not have been allowed if there could have been any influence brought to bear to prevent it. These same men were in the majority when the Civil Engineer was employed for the county at a salary of $1,500 a year and expenses while out on the road; and these same men were in the majority when the salary of the equalization board was set at six dollars a day and transportation and expenses. By refeering to the General Acts of Alabama, 1915, on page 414 and section 70, you will find that the compensation of the Equalization Board shall be fixed by the Court of County Commissioners or board of like jurisdiction for the county, and in our case their compensation was fixed by our present board of commissioners. Oh, they say, Deason; well if so, the minority was allowed to rule over the majority, which should not have been allowed. Men are not supposed to be babies. No wonder Mr. Wiley Littlejohn, our treasurer, investigated to see and know what he was doing. No wonder the people of the county are kicking, for how in the name of common sense can we ever have good roads or anything else under such as this. People are not willing to have their tax money spent in a recless manner, and I for one can't blame them.

In the future, should a majority of the people come together on a proposition of building roads and agree on some plan by which to raise money, I for one, would be most positively in favor of letting the contracts to our home people, for if they can take sub-contracts from imported contractors and make fairly good wages, such as they are willing and anxious to get, why not give them the whole job and keep our money at home where it was made and where it belongs. But they say our home people are not experienced in road building What if they are not, with a competent Civil Engineer to show and tell them how to build.

Until the people are given achance to figure out the advantages of good roads, and give their consent to accumulate a debt to build them, I am in favor of continuing the work the under the old law, together with our convict labor. I would be in favor of what we could name a road walker like the railroads have track walkers to go over all the public roads, taking them in rotation and fix the bad places, I mean the little bad holes that you will find on all roads, as well as the highway, that one man can fix in perhaps thirty minutes that are simply dangers or at least very unpleasant to get over. A good man can be employed to look after this for a reasonable salary either by the day or month. It It would be my idea to furnish some way of transportation to carry some tools and perhaps a load of gravel for a mile or two in some cases. This can be figured out at a normal expense and the work dispatched in order to bring at least some relief to all. I hope to live to see good roads in every nook and corner of this county, but I think we should call a halt until we all can get together on this proposition.

Good roads are not all we need. We need better schools and especially in the rural districts, for on this question we all must agree that the educating of the rising generation is the only salvation of this great and God given country of ours. The brutal and bloody war now raging in the East can be attributed to nothing more nor less than ignorance, malice or strife, which has caused every soul in the world perhaps to tremble. Then I must say that I am in favor of better schools and free school books if possible. Our churches should be looked after and better kept, for this speaks well for our county, town or city.

The old soldiers and their widows should be looked after. They should not be knocked out on some technicality. I have lying today in some unknown grave and some at home, who fought all night on the banks of the Chicamauga, in the sleet and rain, barefooted for the Lost Cause, and I want to say to those still living hat I am your friend and will stand by you until I die.

The time it seems to me has come when we should all put our shoulders to the wheels and make a steady pull for the mutual benefit of all. We should not be divided. This is a day of progress, and we must move on with equal rights to all and special favors to none.

I want to say in conlusion that I am no politician. This is the first office that I have ever been a candidate for and I promise a most conservative and careful administration if elected.

Now, as to my opponents, I have nothing to say more than this: They might, if elected, perhaps, fill the office as well as myself, but Judge Adams has had the office once, and the Judge should be willing to practice what he preaches, that having once received a good thing he should then be wiling to pass it around.

Oh, I came near forgetting to say that I don't care if he is "an old hound, I want them to stop kicking my dog around." I remember how I loved my dogs when I was a boy, and I must confess that I like to hear old Rock and Ring open up occasionly yet. Don't tax my dog.

Respectfully,
C. REESE MULLINS.
(Paid political adv.)

CANE CREEK

Editor Union-Banner:

Please allow me space in your paper to say a few words.

Health of this community is fairly good at present. The people are getting along nicely with their work and are planning for a good harvest.

J. Henry Robinson has quit working for G. W. Mahan and gone to work at the saw mill near by.

Mr. Sam Lockheart has resigned the superintending of the saw mill near the gap of the mountain to Mr. Barney Roberts.

Mr. Will Low and family were visitors at Mr. W. C. Giles Sunday.

Misses Carrie Lambert and Nommie Williamson were visitors at Mr. W. C. Giles Sunday.

Messrs. Roy Willis and Henry Mahan (little Henry) were visitors at W. C. Giles Sunday.

A few boys from around here went to the mock trial at Jackson's Chaple Saturday night and reported a good time.

Well, if this escapes the waist basket I will call around again soon.

N. W. Henderson of Jemison was here Saturday at the teachers meeting.

FOR SALE—Berkshire hogs, cheap; early speckled and yokohoma velvet beans and soy beans $2 a bu; white chinese beans 50 cents a gallon. Jesse A. Davis, Clanton, Ala., Route 6. 3-2-4t.-adv.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

On Teusday afternoon of last week the C. C. H. S. boys administered another strong defeat to the Marbury High School boys in a basket ball game on the latter's court. The game was fiercely contested from sart to finish. At no time during the play did the locals have a ghost of a chance to win. They were completely outclassed in every department. Popwell deserves much praise for his efficiency in caging goals. He put them at the right place no matter how many happened to be guarding him. Williams dribbled too fast for the locals to keep in touch with him. A telephone connection would have been necessary to have any direct communication with the boy. He is fast. If you doubt it, ask some of hose who have been playing against him. And Wyatt, the "little man" did excellent playing. It is said that he runs his guard severely. Smith and Lowe played well during the entire game. The score ended with 32 to 13 in favor of the visitors.

This game ended the basket ball season for the boys this year. They have played a total of six games this season, five of which they won by great majorities. The only game lost was the first one they played, which can be accounted for by their lack of practice. During this season which has jus ended, the boys have won a total of 143 points, and lost 93.

John Burnett has returned to school with the glad welcome of all. John has been absent for several weeks on account of undergoing an operation for appendicitis. His class have severly missed him and are glad to have him present again.

Tommy Sessions being asked how far it was to the sun replied that he did not know, and believed that no one else did, for it was an evident fact that nobody had been up there to measure it.

Ruben Lowe reports that the Juniors are catching "pip" in spelling this week. Probably Rube is speaking from a personal point of view.

It seems that campus walking is quite a contest between the boys and girls now. They worked all last week to see which side could furnish the largest number for Friday evening, and the result was a tie—eleven on each side.

The many courious observers of Felston Mullins have always seen in him what they thought to be a contrast to all other beings. His short, wirey, kinky hair, and his really phylosophical way of expressing his transcendental emotions have always been what would necessarily be termed very perplexing characteristics; but the mystery revealed itself the other day when its thertofore concealor was asked if he were an animal and replied, "No." It was the conclusion of those present, that, if he were not an animal, he was of necessiy an insect.

A mass meeting of all the boys in school was held Monday evening for he purpose of deciding whether or not there should be a base ball team for the school this season when much inerest in behalf baseball was expressed. From present indications the baseball team will be something for the outside to stand off and take notice to.

The Girls School Improvement Association for the high school was formed last week. Its membership consists of all the girls in school. The following officers were elected: President, Annie Gragg; Vice President, Kate McNeal; Secretary, Sibyl McDonald;Treasurer, Kathleen Mullins. The time of the meeting of the club will be every Tuesday evening. By the help of Mrs. T. A. Curry, Mrs. Wood and Miss Harris, much good is expected to be done by these ambitious girls.

The girls are now trying to get several games scheduled for the month of March. They have won one game already for the school, and are anxious to show their willingness still further by having a game on their court. A game with the Elmore County High School has already been scheduled to be played here in April.

WINSTON-SALEM, N. C. IS GREATEST TOBACCO CITY

Following are extracts from an address delivered by Col. A. D. Watts, Collector of Internal Revenue for the Fifth District of North Carolina, at a smoker given by The Twin City Club, Winston-Salem, February 4th, 1916:

Some Comparisons

"Winston-Salem is supplying one-fourth of all the chewing and smoking tobacco consumed in the United States, besides exporting vast quantities to foreign lands. This statement is taken from the report of the Commissioner of Internal Revenue for the first quarter of the present fiscal year and from private advices from Washington, as to the second quarter, which ended December 31st, last.

"Your city is making one-seventh of all tobacco products—chewing and smoking tobacco, cigars, cigaretts, and snuff—manufactured in the United States. Your manufacturers are paying on an average about $37,000 a day revenue taxes to the government and the amount is increasing from month to month. When your government building, much the handsomest in the State, was completed last July at a cost of $250,000 your newspapers made the statement that the taxes paid in your city to Uncle Sam for the first eight days of its occupancy would pay for it. Since September, it has taken only a fraction over seven average days collections here to equal its cost. So far this week, Mr. Cranford has taken in $206,428.50. I predic that before 1916 shall have ended your average weekly payments to the government on tobacco will more than pay for this magnificant building, leaving the collections for the other fifty-one weeks as clear profit to the government.

Tobacco Shipments

"Winston-Salem is shipping on an average each week day to all parts of this ocuntry and to foreign lands at least $150,000 of tobactco products.

"In conclusion, Winston-Salem manufactures more tobacco, all tobacco products are taken into this statement, than any other city on earth, little or big. Industrially, she is easy first in North Carolina, population considered, first in America, and I believe in the world; socially, a never faliing delight to her friends."

MARS HILL

Editor Union-Banner:

Please allow me space for just a few words.

Everything is moving along nicely enough in this neck of the woods.

We wish to commend Mr. J. Bice and Mr. Beaird for their reply to Mr. Oliver's letter of Feb., 24. We suspect that Mr. Oliver had a finger in the pie some where. It seems that the people have about learned what they want, and when the county officers fail to give them what they think they ought to have then they are ready to meet in mass meeting and demand of them their rights which is nothing more than what they ought to do. I am heartily in favor of good roads, but not in favor of having a heavy tax imposed and not get the benefit if it on the roads. But, refering to Mr. Beaird's letter, there is a few stiff bosoms that thipk the people ought continually to pay in their money and then stand by and see it used for individual purposes among the few bosses.

I am in favor of the roads being worked the old way and the apportioners inspecting the roads and when not up to what they think they ought to be then do not receive them but report same to commissioners court and thereby force each sverseeor to keep his road up and in good shape before they will be received.

Well Mr. Adams seems deeply interested in the welfare of the people and we like to see him so. In the last clause of his article he can't see where he has ever deceived the people, but when he turned Democratic after being elected by the Populist party it looked kindly like deceiving the people to me, but maybe he thinks the people expected it of him and they were not deceived in him after all.

Success to the Union-Banner and its many readers.

G. W. Scott.

According to averages recently made by the Chairman, the Board of equalization of Chilton county is making about forty per cent increase in the valuations of lands assessed by the owners to the Tax assessor.

CLAIM PAID

Mr. John Mims of Falakto was insured only 3 days in the North American Accident Insurance Co., when he fell off the top of a house and broke a leg. Claim was paid promptly. He was thoughtful to carry that protection; and every other man should do the same thing. See J. C. BROWN and insure before it is too late. Your time has money value andshould be protected. The only cost is $10.00 a year. The policy pays you $25.00 a week in case of a sickness or accident, and $5,000 in case of death. J. Watts Moore at Mullins store, is also agent for this insurance. PEOPLES TELEPHONE 96.

Buck up, work up, and get there!

Yes, a lazy duffer is a man, but—'um!

Pigs is pigs, but some have only two feet.

Just what is a politican? Darned if we know!

"Food for the fishes" is overworked. Let's have a new one.

Even the wisest men have their silly moments—when they propose.

The wise man listenes when others speak. The fool hears only himself.

But, then, when peace is restored the war correspondents can find lucrative employment in digging potatoes.

In this great land of ours all men are equal, but many are not willing to admit it.

Every day sees us draw closer to war. And yet the regularity of our snores is undisturbed.

Universal peace? Huh! One-half the world is scrapping with each other and the rest are scrapping with their wives.

Then, too, preparedness against the vitriolic tongue of the gossip would be a welcome deliverance to many a lacerated soul.

The advent of the tramps, mosquitoes and other pestiferous insects is a sure indication of the approach of spring.

The president says the United States is founded on its sense of humanity. O. K., but it will require some mighty big guns to maintain the foundation.

This angelic world is full of men who extol their virtues, but few are ever willing to admit that they are rotten to the core.

And now the dudes are getting theirs. Owing to the war the cost of violet dye has gone up to $12,000 a barrel.

We have our German-Americans, Sweedish-Americans and numerous othert hyphenaed Americans, but where in heck are our American-Americans?

Of course, if those bad boys across the water keep on throwing pebbles at Uncle Sam the old boy may wake up some day and get rea l peevish about it. And Uncle is powerful frisky when he's peevish.

John W. Baker, one of the oldest subscribers of our paper, came in Saturday and paid up his subscription.

Henry Ford is at it again. This time he is buying whole page advertisements in daily papers in his efforts to block preparedness. Hurrah for prep!

The belligerants call each other liars, and the war correspondents intimate that both sides are lying, and blamed if we don't believe the whole dinged capoodle are just prevaricators.

Alabama has a candidate for congress in the Fourth district named Sonewall Jackson Jennings, and one in the Tenth named Abraham Lincoln Brown. Stonewall is a democrat and Abraham a republican.—Ledger.

The National Housewives' League has hopped into the preparednessarena by inaugurating a campaign for elevating the food question and building up the health of the men in order that they may become physically fit for service. We're a patriot! Pass the honey!

"I am for men," declared Henry George, the noted single taxer. Piffle To our untutored editorial mind there is nothing in this world, on this world or of this world to compare wih the womanhood of our own beloved town. Hurrah for women!

"Elasticity can often be restored to rubber by soaking it in a mixture of one part of household ammonia to two of water," chirps an exchange. This, however, does not include the masculine neck when a pretty ankle is in sight. The m. n. is perpetually elastic.

Abraham Lincoln Brown is the name of the Republican candidate for Congress in the new tenth district of Alabama. We certainly admire the name, and if there is really anything in a name, this candidate of all others, must certainly deserve a seat in the halls of our national assembly. It is said that his chances are good for defeating his democratic opponent in November.

New residence of C. W. Ashcraft at Sheffield is finished.

D. W. Hicks, 85, is ill at Tuscumbia.

A negro man was burned to death in his house at Hull.

THE EDITORS DREAM

It was in the small and silent hours of the night, when all of our people were reposing in the slumber of innocense.

The god of dreams hovored over the editroral couch and spoke in soft and glowing tones of a vacation in the sweet summer times, with a brain relaxed from the tiresome labors of mental toil, and the green slopes of a gentle flowing sream abounding with the finny tribe.

And the god whispered into the editorial ear and this is what it said:

"There are many good people who owe sundry sums on subscription. These people are honest and they mean to pay, but their minds are engrossed in weighter affairs, to the exclusion of t he editor and his needs. But I, the God of Dreams, will lay the hand of wisdom and remembrance upon these good people, to the end that they will all give of their abundant store the little that is justly due. And when each god citizen has handed in the mite that is due, I, the God of Dreams, do decree that when the sunny days are come again the editor shall leave his toil for a week of rest in some far away spot, where mind and heart may regain the strength and courage for better and greater things in the days to come. And the God of Dreams will bestow his benign approval upon all delinquent subscribers who hearken unto his his sage and earnest advice."

If ever a dream comes true, the editor prays that this may be the one. And he has faith that it will be even so.

WHO WANTS WAR?

We infer from a recent statement of the Montgomery Journal that the Republican party in this country is the party that wants war. We honestly believe that if The Journal were pinned down to the truth of its own knowledge and good judgement in the matter, it could not evade acknowledging that such a feeling cannot be acredited with justice to the Republican party. We believe that no political party in America wants war; each one is contending for what it believes the best means of preserving our national honor. Teddy Roosevelt is an advocate of peace and honor, and the Journal knows it. So is Woodrow Wilson, and the Journal knows that. The difference only is in the methods of the two men in pursuing and attaining one and the same end. Now don't the Journal and every other sensible and fair mind know these are facts?

No other crop in recent years has probably grown so rapidly in popularity in the Southern states as the soy bean. As the Mississippi Extension Service says:

"Soy beans seem to be one of the most promising crops before the Southern farmer. Every particle of the plant has economic values, and a great numbeer of commercial products are produced from the seed. It seems that the machinery of our cottonseedoil mills is suited to the manufacture of soy bean oil and meal. The soy bean straw is a good stock feed, and the fertilizer resulting from feeding the plant is of much value. Millions of acres of land hitherto barren and unproductive may be restoed to its virgin fertility by the proper use of his plant and a nominal expense for phosphatic fertilizers."—Progressive Farmer.

The Alabama Experiment station has shown that soy beans are one of the best crops to grow for growing and fattening hogs. Why not plant at least one acre to each farm in soy beans and reduce he cotton acreage that much.

In emphasizing the great value of lespedeza or Japan clover as a hay crop after oats, Mr. R. S. Parker, demonstration agent for Chambers County, well says:

"In over 40 acres of Japan clover sowed on oats, we demonstrated that on the proper soil this crop is more valuable than peas and sorghum after oats, far more easily cured and handled, safe and very valuable to graze on after being cut for hay, reseeds itself for another crop, and does not require the breaking of the land after the oat harvest is removed, thus taking the one rush job out of the rush season, and greatly reducing the cost of hay."—Progressive Farmer.

PARTY HARMONY

We are glad of the out come of the meeting at Thorsby last Saturday. The Republican party and the Progressive party in Chilton county will go into the primary and nominate the same ticket no May 9th—a ticket composed of men selected from the candidates who have already announced or who may announce between now and the expiration of the time limit.

This is just as it should be. We will have a united effort against our common foe, and with happy exultation we trust to march to victory in November, a harmonious and united party for the good of our country, from the smallest unit to the largest.

FREEMAN IN RACE IN TENTH DISTRICT

HALEYVILLE, Ala., March 6.—With the announcement today of N. H. Freeman of Haleyville, for Congressman from the Tenth Congressional District on the Republican ticket, more interest is centered on the fight being waged in the new district. Mr. Freeman was at one time a candidate on the same icket against J. L. Burnett and was defeated by a narrow margin. Mr. Freeman claims the new district is a Republican district and, with the fight being waged between Hobson and Bankhead, he has a good show to win.

Mr. Freeman will wage an active campaign, though he has not, as yet, announced his speaking dates. He disclams any intention of aiding either of the Democratic candidates, but states that he is in the race o win for himself. Mr. Freeman is a prohibitionist, and in the fight between Hobson and Underwood sided with Hobson.

GAINS 20 POUNDS; KEEPS ON CLIMBING

J. M. Easter says people hardly know him since he began taking Tanlac.

Yes sir, it is a fact, the people out this way hardly know me since I began taking Tanlac. I have just finished my third bottle, and have gained twenty (20) pounds. I am going to keep on taking it, and believe I will gain another twenty (20) pounds, which will put me back at my old weight again."

This remarkable statement was made by James M. Easter, a highly respected carpenter, while in Cale's Drug Store at Pratt City, a suburb of Birmingham, a few days ago.

"This medicine has helped me so much, I think every man, woman and child in this town ought to know about it. I had one of the worst cases of stomach uotrble any man ever had, and I had the worst rheumatism anyone ever heard of. Sometimes the aches and pains in my joints would hurt me so bad I would just feel like I couldn't stand it any longer.

"I've been a carpenter for a good many years, and it was mighty hard to be working out in the wind and cold trying to make a living, with pains all over my body, but I just felt like I had to keep on going, because I had to make a living.

"My stomach went back on me completely and I couldn't digest anything No matter how much I would eat, I wouldn't gain in weight, and I was down to nearly nothing. I don't know how much I fell off, but it was considerable and I began to lose heart and think I never would be well again.

"I kept hearing about Tanlac and bought a bottle from Mr. Cale here, and he will tell you the shape I was in when I began taking it. When I came in here the other day I had improved so much he hardly knew me. That's a fact, and he will tell you the same thing himself. Yes, sir, I picked up right from the start and now I can eat and sleep and work as good as any body. I believe Tanlac is the greatest medicine in the world, and I believe it will help anybody that have troubles like mine."

In refeering to the above remarkable statement, Mr. G. G.: Cale, the well known Pratt City Druggist, said: "I sold this medicine to Mr. Easter, and I know it to be a fact that his statement is correct. I have noticed an improvement in his condition from the very first. I consider it one of the most remarkable cases I have ever seen."

Tanlac is sold in Clanton exclusively by Upchurch Drug Co.

MT. PLEASANT

There is a god deal of sickness in this community, but none very serious.

Messrs. L. O. Vickers, J. E. Kelley and A. A. Ayers of this place attended the Republican mass meeting at Thorsby last Saturday.

Mrs. A. J. Duncan spent Sunday night at M. O. Culp's.

Cliver Duke of Marble Valley spent Saturday night at W. A. Doziers.

W. M. Pierce made a business trip to Montgomery one day last week.

J. B. Collum spent Sunday with home folks.

S. B. Dupriest and wiferecently visited the formers parens, Mr. and Mrs. S. J. Dupriest, of Mineral Springs.

Messrs. John, Mack and Dewey Foshee, Aaron andStilrua Massey motored to Calera Saturday and spent the day.

Adie Holley and family recently visited relatives in Coosa county.

Henry Robinson spent part of last week with his brother, D. P. Robinson.

Tom Robinson and family spent Saturday night at R. M. Butler's.

H. B. Duke and wife visited C. D. Duke Sunday.

Our literary school will close with a concert next Friday night. This concert will be free to every body. Prof. G. R. Lewis and sister, Miss Leila Lewis, have done splendid work here, and we wish hem the very best of success wherever tney may go.

NOTICE—I buy scrip and warrants of all kinds. See me ifyou have any to sell. G. O. FOSHEE Clanton, Ala. adv.

D. I. Deramus,Jr., of Verbena was a caller at our office Wednesday.

A Fine Aid For Mother-to-be

We are all greatly indebted to those who tell their experiences. And among

the many things which we read about and are of immediate importance to the expectant mother, is a splendid external remedy called "Mother's Friend." This is applied over the muscles of the stomach. It is deeply penetrating in its influence. Mothers everywhere tell of its soothing effect, how it allays pains incident to stretching of cords, ligaments and muscles. They tell of restful comfort, of calm, peaceful nights, an absence of those distresses pecular to the period of expectancy, relief from morning sickness, no more of that apprehension with which so many young women's minds become burdened. It is a splendid help. Get a bottle of "Mother's Friend" from your nearest druggist. Ask your husband to get it for you. Then write to Bradfield Regulator Co., 708 Lamar Bldg., Atlanta, Ga., for a very handsome and instructive book. It is filled with suggestive ideas of great help to all women interested in the subject of maternity. And best of all are some letters from mothers that are real inspirations. Write today.

We can go back half a century for letters from women who used "Mother's Friend." And it was this sort of recommendation that extended its use until today it is sold in almost every drug store in the United States. It is considered a standard remedy and one of the most efficient helps known. Directions for using are very easily complied with and it may be used at any time whenever needed.

POLITICAL ANNOUNCEMENTS

FOR PROBATE JUDGE

The friends of Mr. B. L. Cobb announce him a candidate for membership on the Educational Board of Chilton county, subject to the action of the Progressive party in its primary on May 9th, 1916.

(Paid political advertisement by B. L. Cobb, Jemison, Ala.)

C. J. Eiland of Cooper was in to see us Wednesday. We regret to state that Mr. Eiland has removed from our county and is now located at Myrtlewood in Marengo.

Scottsboro is preparing for paved walks.

Change in Lighting Rates

Commencing with accounts due April 1, there will be some slight changes for electrical energy. The rate will be as follows:

Under 25 Kwh. monthly consumption 12 cents

Over 25 Kwh. monthly consumption 10 cents.

The rate of 12 cents applies to the first 25 kwh regardless of the amount used; the 10 cent rate applies only to current consumed in excess of 25 kwh.

The minimum charge will be $1.00 with the addition of a fixed charge of 15 cents for each meter.

Bills paid at our office before the 10th of the month in which they become due will be subject to a discount of 10 per cent with the further allowance of the 15 cents charge on the meter.

Wade Electric Light & Power Company.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

"THE HOME OF QUALITY."

The Needs of the Farm at this time of the Year

We realize them; we know what they are; and we know what kind of merchandise you needto meet them; and we have it to sell.

Just now the farmer has not got time to come to town and stand around all day, look over the whole town, to select what he wants. He must come in a hurry, get what he wants, and go back to his work in a hurry. No time to waste.

That's Where we Win

Because we have just what he needs, right where he can get his hands on it in a minute, and he loses no time. He gets what he wants and is gone back to his work without delay.

This means a whole lots to you. Had you ever thought about it?

No time lost, you get just the article you want, withou any worry or delay—and YOU SAVE MONEY a the prices we are selling at—that is the best part of the deal.

We need not go ahead and name our hundreds of bargains. Our line covers the entire needs of the farmer, and we want to impress you with the fact that when you need anyhing, just come righ here and you will find it. We have it for you, and we are looking for you to come after it.

Clanton Mercantile Co.

"THE BIG BARGAIN HOUSE"

Clanton, Alabama.

SATURDAY WILL BE A BIG DAY HERE

People From All Parts of the County Will be Here to Participate in The Several Activities.

Next Saturday is going to be a great big day here.

The Executive Committee of the Progressiveparty of Chilton County is going to have a business meeting, and all candidates are requested and expected to meet with them.

There is to be another meeting of the people in the in the road matter etc.

And there is to be a great big observance of baby week at the court house too. Elsewhere in this paper will be found full particulars of this item.

You ought to come down and enjoy some part or all of the things that are to be done here on that day.

The Thorsby Concert band will furnish music for everybody, thereby adding much interest to the occasion.

HUGHES STILL THE MAN

A steady growth in sentiment for Justice Charles E. Hughes for president is turning attention to the unusual character of the campaign ahead and to the things which the justice might be expected to stand. The demand for Justice Hughes has made such headway in the last two weeks that politicans who have been anxious to discount the spontaneous talk of Hughes in favor of some one of the active candidates, are reviving their expectations.

Their feeling is that, after all, the republican candidate for president may be chosen by the will of the people as represented in the convention rather than by a hotel room conclave.

In the persistency of the uninspired and unorganized demand for Justice Hughes is found much significance as to the essentials that will engage public attention throughout the campaign. If this demand holds it will mean that millions of voters want the issues now roughly classified as "American" decided without going to the extreme of voting for a leading citizen with a big stick.—New York Evening Sun.

BETHEL NEWS

Health in this community is fairly good at present. Farmers are all busy getting ready to plant corn this pretty weather.

Mr. W. C. Presley and family were visitors at Mrs. Amanda Davis' Saturday night.

Walter Calloway was a visitor at Mr. Tim Smith's Saturday night.

Our school at this place will be out Tuesday, March 7th.

Mr. B. D. Dennis and wife were visitors at Mr. Forest Popwell's Sunday.

Mr. Forest Popwell and wife spent the night with Mr. B. D. Dennis Saturday night.

J. J. Killian, who moved from Etowah to Texas has returned to stay.

Scottsboro fair opens October 2.

COLLINS CHAPPLE

Editor Union-Banner:

Will you allow me a small space in your paper to say a few words in regard to the good road system.

There has been much talk about good roads, and I for one am in favor of good roads, but there is but one way to get them and that is for every body to go right in and work them.

It has been said that the road machine was the only thing that could build good roads, but I want to ask all of them to visit this community where we all, from 18 to 60 years old, have taken our stock and this little six horse machine and worked the roads. I say that it is just as good as the machine that has cost us about $38.00 a day to work the same amount of roads that we work in one day with the little machine without a cent of cost to the county. Now there is the difference in road system; one of them costs the county $38.00 per day and the other costs the county nothing. How can a man with any reasonable judgment stand any such thing as that. Can you stand for your money to be gobbled up in any such a way? So you see that the county is in debt about $254,000 and we have only one road in the county and it is not paid for. I want you to tell me what the money has been spent for or show me our value received for it? We have not got anything toshow for the $254,000, if we did have I would not say a word about the county's debt.

If the county would have taken the money that has been paid out for those two road machines and bought these little machines we would have had a machine to every road in the county, and we would have had good roads all over the county.

Now, in conclusion I want to ask all of the tax payers of Chilton county to be at Clanton Saturday, March 11th, and lets see what we can do. We want everybody to be present on that day.

H. C. VANCE.

COOSA IS SPENDING BIG SUM FOR GOOD ROADS

GOODWATER, Ala., March 8.—At the last term of the Commissioners Court, arrangements were made for getting a loan of $9,000 to take care of the warrants that have been issued and which are now outstanding against the county. A large portion of this fund will be used in liquidating road claims against the county.

Much road work has been done during the past year and there are two or three different contracts for grading that are now being put through and at the next term of the court, which will meet on March 22, additional contracts for road grading are to be let out.

A. R. Wright died at Farrill, in Cherokee.

Clenoe and Calista, twin daughters of Mrs. A. A. Jackson, celebrated their seventh birthday at Sheffield.

Woodie Price and Miss Pearl Clark were married at Brookwood, Tuscaloosa.

Two of the thieves that robbed Kiser's store at Tuscumbia have been caught.

SELL TREES

We can offer a good proposition to one reliable man in every county to sell trees as a dealer. Some of our men have been with us over 25 years.

The work is pleasant, permanent, profitable. Outfit free. Cash advanced on orders. Particulars on request. Give three business men as reference.

J. VAN LINDLEY NURSERY CO.,
Box M, POMONA, N. C.

WHAT CAN YOU DO FOR CATARRH?

Ask Yourself the question. How often has the doctor failed, as have ointments, salves, vapours? What you should do.

The easy, common-sense method—that costs so little—that is so quickly and vigorously effective—is often the last resort of many Catarrh sufferers. Why, it is hard to say. One of the specialists of the Swift Specific Company in Atlanta—a physician of standing and national reputation because of his knowledge of blood disorders, made the assertion that if the majority of Catarrh sufferers would buy and faithfully take S. S. S., they could effectually get rid of Catarrh.

S. S. S. goes straight to the seat of trouble, the blood. It spreads its influence over every organ in the body, comes through the veins and arteries, enables the mucous surfaces to exchange acids and irritating substances for red blood corpuscles that effectually cleanse the system and thus put an end to all Catarrhal poison. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood making materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in process of purification.

S. S. S. is made from barks, roots and herbs that are food and tonic for the blood. It stimulates—gives the blood power to throw off poisons. You will soon realize its wonderful influence by the absence of headache, a clearing of the air passages, a steadily improved nasal condition, and a sense of bodily relief that proves how completely Catarrh often infests the entire system.

You will find S. S. S. on sale at all drug stores. It is a remarkable remedy for all blood affections, such as Eczema, Rash, Lupus, Tetter, Psoriasis, Boils, and all other diseased conditions of the blood. For special advice on any blood disease write The Swift Specific Company, Medical Department, Room 11, Atlanta, Ga. Avoid substitutes.

DRAMATIC PERFORMANCE AT HIGH SCHOOL BUILDING

The Verbena Dramatic Club will play "Leap Year in the Villiage" at the County High School Building in Clanton next Friday night, beginning the performance at 7:30 o'clock.

The company is composed of local young people of Verbena, who have already won considerable commendadation with the production.

Those who have seen the performance declare it of much interest and speak highly of the talent displayed by the actors.

It is hoped that Clanton will turnout a large audience to greet the visitors.

FROM MR. JOHN S. DENNIS

Editor Union-Banner:

Please allow me space to say a few words.

I want to say to the voters of this county that I am in the race for Commissioner from he Fourth District, and gentleman, I am on the same plank as I was before. I am no turncoate. I am totally opposed to the county going in debt. I believe in paying as we go, and not put burdens on the people o pay. I believe in giving to the tax payers their part of he ¼ per cent that they have to pay. Divide it out and give every beat its share to work their roads, and see that it is done. I say it is right for them to have it. It is theirs; they have to pay it, and i is their to work heir roads with; and le them have the good of their money.

Gentlemen, his may not suit some one, but it is the way I see it, and I believe it is right. Now is the time to stand for the rights of the people.

I say if you see fit to honor me with the office of commissioner, I will do for you all I can. I hink I know myself, and I will do my best to come out with honor. I am a poor man, and have to ork for a living. I cannot canvass much among you all.

If he other man is nominaed, let's all stand to him, I will see you all as much as I can. Think about the matter and do what you think is the best for us.

Yours truly,
JOHN S. DENNIS.
Clanton, Ala., March 8, 1916.

COOSA WILL VOTE ON COMPULSORY DIPPING

GOODWATER, Ala., March 8.—An election has been called in Coosa to vote on the tick eradication measure. There is a strong sentiment in the county favoring passage of the measure, and it is expected to pass with little opposition.

REPUBLICAN MASS MEETING

The mass meeting at Thorsby Saturday was a success from every view point. Attendance was good, enthusiasm ran high, great unanimity of feeling prevaled.

G. W. Edwards was Chairman and Sam W. Collins Secretary. Good talks were made by the deep thoughted Bosworh, the pleasant Doctor Crowe of Shelby, the earnest Colonel Atkinson of Clanton, the conservative and well known Prof. Moore, the eloquent and fervent Judge Reynolds, the matter of fact Mr. Teel, the champion of the people Mr. Bice, the faithful G. W. Edwards, the well known Mr. Conway and others.

Everything was orderly and gentlemanly. Good feeling abounded. The Progressives and Republicans were united in one solid phalanx under the flying banner of Republicanism. A cheering message was read frm Hon. Pope M. Long. Yes, the people rule.

It was a real love feast.

Member of Ex. Committee.

MARRIAGES

J. J. Adams and Miss Irene Friday.

Sidney Mims and Miss Bevie Bates.

J. F. Folsom and Miss Nora Higgins.

Homer Atchison and Miss Leila Cherry.

Colored—E. B. Dykes and Bertha Price.

W. H. Wilson of Falakto was a welcome visitor here Wednesday.

R. C. Riggins of Route 4 was in town Wednesday.

Summer School at Clanton

Six Weeks Term— From June 5th to July 14th.

Subjects Taught—All branches pertaining to teachers' certificates and high school curriculum. High school students will be permitted to make up subjects.

Faculty—Two Auburn men with masters degrees, with considerable experience, Faculty not yet complete.

Board—Three to three-fifty per week in private homes.

Tuition—Seven-fifty for entire term.

Eight weeks session for sufficient demand.

For further information, address CLAUDE R. WOOD director of session, Clanton Ala.

FARMERS OF BUTLER PUTTING IN GOOD WORK

GREENVILLE, Ala., March 8.—The farmers of Butler county are putting in good work on the farms. Most of the progressive farmers have their land ready for cotton. The grain crop for this year will be large again, and if the weather is favorable a larger crop will be made this year than last. The oat fields in all sections of the county, now show good stands and many of the farmers have completed planting corn.

Cullman county averages six marriages a week.

Milly Forney, 88, a former slave of the Forney family, of Calhoun, died at Jacksonville.

The reactionary and Roosevelt republicans will hold a joint convention or primary in Clay county.

Residence of Mrs. McClendon of Goodwater was burned.

Coosa has a bunch of young men running for probate judge.

Lawrence county is having difficulty in selling cattle because it voted against exterminating ticks.

MR. OLIVER REPLIES TO MR. BICE

Editor Union-Banner:

It seems that Mr. J. Bice in "reading between the lines" of my communication insinuates that I would have the public believe that the four Commissioners are responsible for all wrong doing, Judge Deason being helpless.

No such inference could be drawn by one fair neough and free enough of suspicion to discuss in a sober and friendly manner these issues.

The points I suggested were: That the CommissionersCourt (with their past experience on the same proposition) should not have "passed the law," unless they stood by the act.

And after they passed it, and before giving it a trial repealed the act, was so unbusiness like that in justice to the tax payers of the county they should, out of their own funds, reimburse the county for the expense incurred which, as I am informed, is approximately $400.00.

The next point was that in publishing that the county debt was about $237,000.00 was an error, for it included interest on these time warrants, for 25 years or more. Mr. Bice admits this and that point is settled.

But, Mr. Bice has opened a new field and it looks a little sensational to me; and as I was among the number that opposed the county paying anything to the High School, I want more light.

Now let the public know the names of the "four men in Clanton who had promised $1000.00 to the High School." Your information is authentic, no doubt, or you would not have published so grave a charge. We want the names of the four Clanton parties that were in the thousand dollar deal and in justice to the subscribers to the High School fund in Clanton who paid their subscription out of their own funds, names should be given.

Mr. Bice states further that five and not four compose the court and he "believes their intentions are good" and that "the vote was tied and Judge Deason voted to pay the debt for them".

If Judge Deason did this he could not have good intentions. I could not indorse the standard set up by Mr. Bice—it likes consistency.

Do this Mr. Bice and continue the fight until you have shown them up to the public as their actions deserve.

Yours truly,
H. B. OLIVER.

PUBLIC SALE.

By order of the Board of County Commissioners, I will sell at public auction for cash, in front of the court house, on Saturday, March 18, the following articles:

One water tank and tower complete.

One two horse power gasoline engine complete.

One two horsepower electric motor.

All piping and connections belonging to said outfit.

H. A. HARRIS,
Sheriff Chilton County.

Uses and Abuses of Fertilizers

By Prof. R. J. H. De Loach, Director of Georgia Experiment Station.

1. THE USE OF COMMERCIAL FERTILIZERS—HISTORY.

The First of a Series of Six Articles.

We would not be disposed to try to give a complete history of the use of commercial fertilizers, but only to show how this great industry began and grew in the Southern United States. Generally speaking, the farmers of this generation inherited the habit of applying fertilizers to soils, but have not been taught the underlying principles of the industry.

The use of some kind of manures on soils with crops for the purpose of increasing the yields goes back to ancient times. We know that many ancient people applied animal manures to their soils for this purpose. The Chinese, centuries ago, applied manures of various kinds to their soils and gardens and with phenomenal results. In Von Tshudi's Travels in Peru we find that as early as the middle of the last century notes were being taken on the actual value of Guano by the Peruvians.

Bousingault speaks of seeing fields in Peru on which wheat grew every year for two centuries, and the yield still high and the growers prosperous.

The practice of using mineral fertilizers was introduced direct from Peru to the United States in the year 1846, and was based on such reports as we find above. It had already been used in England before it found its way into the United States, but Peru seems to be the country in which the application of minerals to soils as plant food originated. We do not know this is true, but all evidence points to this. It is of greater interest to us therefore that we know about the customs in Peru.

The First Use of Peruvian Guano.

The first man in the Southern States to use this Peruvian guano was David Dickson, of Sparta, Ga., who saw an advertisement of it in the old American Farmer published in Baltimore. The South has perhaps never had a more successful farmer than David Dixon, who made many millions of dollars farming, and who was a pioneer in many other lines as well as in the use of mineral fertilizers. In the year 1846, the year after it was introduced into the United States, he bought three sacks and used it, and on finding that it paid him, bought it in increasing quantities till the year 1855 and 1856, when he "went into it fully." As is suggested above this is no doubt the first instance of the use of a concentrated mineral fertilizer on cotton in the United States.

The universal success with which Mr. Dickson met in the use of this Peruvian guano led many other prominent farmers to follow his example, and in every reported case, success followed its use. We are constrained to believe that the application of this mineral fertilizer to the cotton and other crops in the South could not possibly have been an accident. Its success was unquestionably based on the actual needs of the soil. A quickly available manure was what the crop needed, and when this was once applied results were evident.

After a time it was found that the Peruvian guano, which contained principally nitrogen, produced too much stalk and not much increase in the yield of fruit, and hence its use was somewhat discouraged for a season.

The First Use of German Potash.

About this time the war between the States began, and at the same time the discovery of the potash beds of Germany, also, the offering on the market of various kinds of mineral fertilizers resulting from the teachings of Von Liebig of Germany, who was at that time the greatest champion in the world of agriculture and its possibilities. As a result the popularity of Peruvian guano subsided and more study was given to the general question of the use of mineral manures, both by farmers themselves and the students of agriculture.

Two great contributing factors to the rise of the fertilizer trade in the South are first the abolition of slavery, and second, the rise of agricultural education. Before the war the question of land was secondary. If growing farm crops in the South "wore the land out," there were plenty of slaves to "take in more land." It was cheaper to take in land than to pay for any artificial manure. In 1862, the Morrill Bill passed Congress, creating agricultural colleges in the various states, after which there began a campaign for improving methods in agriculture. Experiments at public expense were begun on a small scale, and the public was induced to make greater use of plant foods of all kinds, as well as to improve methods of tillage. This, of course, caused an immediate increase in the use of mineral plant foods, and out of which grew demands for great quantities of fertilizers. From this great demand there sprang up fertilizer factories in all parts of the country. All kinds of materials were tried out, some was good, and some was not, but much of both kinds used. The factories had no restrictions and many of them palmed off on the farmers anything that would smell strong and that could be put in sacks. This condition on account of state laws did not last long. We begin the next article by giving a resume of the part taken in the rise of the trade by the states themselves.

"Stop that headache! it's stopping your work"

Appeal for Better Babies in Clanton and Chilton County.

Some thoughts on the subject of Babies that we hope may arouse an interest in the observance of this week that is set aside for the study of the welfare of our little ones.

By Sophia Courtney Jones.

A Modern Lullaby

Rock a bye baby upon the bough,
You get your milk from a certified cow!
Before your egenic young parents were wed
They had decided how you should be fed.
Hush-a-by, baby, on the tree top,
If grandmother trots you, you tell her to stop.
Shun thte trot horse that your grandmother rides
It will work harm to your little insides.
Mama's scientific—she knows all the laws—
She kisses her darling through carbolized gauze.
Rock-a-bye baby, don't wriggle and squirm
Nothing is near you that looks like a germ.

"A nation never rises higher than its motherhood."

"Being a baby is the most hazardous occupation on earth."

"The race marches forward on the feet of little children."

Men and women who have gained large experience in baby-saving work, claim that two-thirds of the babies that die during their first year do so for want of proper care. In this, the 20th century, a comparison of statistics, reveals that the lowest infant mortality occurs in far off New Zealand. They have used our knowledge to promote infant health.

The Universal Film Company will have a representative here on Saturday, March 11th, to take movies for the screen of all the baby contestants and especially the winners.

This nation wide movement, which has the real of everything progressive upon it, is making gigantic strides and Chilton county quick to see the usefulness of service is bearing her full quota of the work. Let every mother in Chilton with a baby, two years or under, enter her baby on Saturday morning at 10 o'clock, at the court house. Your coming will make of the movement a success.

The Best Gift

"The best gift to a baby is a healthy father and mother—physically healthy, mentally healthy, morally healthy. Such a gift is not to be found every day, but it is rather to be chosen than great riches. It is great riches, for, accident or mischance aside, it means efficient life, joyous life, life that is worth while."

Chancellor,
DAVID STARR JORDAN.

How Children Can Help Baby Week

Many little girls that just have their dolls to play with can hardly realize that other little girls and some little boys have real dolls or babies, to care for, and for long hours have to carry the heavy baby around and take care of him, and and sometimes they don't know what to do, when mother is at work and the baby cries, so to these little mothers we sent this message.

This article may just as well be addressed to girls, for I suppose no self-respecting boy would have anything to do with such a sissy thing as "Baby Week." And did you ever stop to think how many boys are ambitious enough to want to be physicians when they grow up, and that there are hundreds more men doctors than women.

But this will be for girls, because boys don't care much about babies, except to tease them, anyhow. And girls, well girls can't help being interested, they are all potential mothers. I am sorry for the girl or boy that hasn't any baby in the house.

I know you will be awful sorry to hear that more babies die every year than people of any other age, and often its because they are not properly fed, the milk isn't prepared or they are given candy or something else to eat by thoughtless little sisters and brothers, or they fall and get hurt, and for many, many other reasons get sick and die.

In New York, in the congested districts of that great city, so many mothers have to go to work they leave the children at home to be taken care of by other children. These children are called "Little Mothers," and so that they can care for the babies properly they bring their little charges to a class and a trained nurse tells them what to do for the baby when mother is away.

They are taught how to bathe the baby and dress him properly, how to fix his milk, and are warned to keep the flies away from the milk bottle, and what has happened? The babies don't get sick near so often, they have less accidents, less colic and the babies have better care.

Now you want to know how you can help. Well, by being careful when you handle the little baby brother or sister not to let them fall or get bumped, or pick up anything that happens to be left on the floor by yourself or anybody else, for babies, you know, love to put things in their mouths, and are apt to pick up such things as matches and pins and buttons nad marbles or suck paint off the toys. And don't give the baby anything to eat unless mother tells you to. One poor little one at the Hillman hospital is dying because it had been fed raw sweet potatoes. Of course you wouldn't do that, but it might be something else you would not think could hurt.

Be sure to think about all we have said and do what you can to make Baby Week a success by telling all the Little Mothers you know to be careful of the baby's health and comfort and help the grown-ups "Save the Babies."

Care Of The Baby

Has the birth of your baby been registered? If not, you should see to it that this duty is performed without delay. It may sometime be of the greatest importance to your child that there be in existance an accurate legal record of his birth, date, place, and parentage. Such a record serves to establish his age beyond question, and through his right to the legal period schooling and freedom from labor. It may also serve to establish hi sright to a disputed inheritance and to establish for him various property or other legal rights which may be in dispute. There are many numerous instances where the lack of this sort of record has been the cause of serious losses of inheritance and of educational and other rights.

In New York City in 1913 the birth records helped to enforce the personal or property rights of more than 138,000 persons.

It is, in most states, required by law that the doctor, midwife, or other attendant at birth shall report he birth to the registrar of births, but as his duty is not infrequently neglected, parents should investigate to see whethere it has been done properly in the case of their children.

The complete regestering of all births is indispensable, not only to the individual, but to the state and nation.

The Federal Government can and does tell us exactly how great is the accession to our population each year by immigration, or intake from foreign lands. At each port of landing immigration inspectors record each arrival and tell us his, or her, nationality, age, sex, destination, and how much money each one brings. But the Federal Government cannot go into the states and cities and establish registration officees and tell us how many children enter each state by birth. This work must be done by each State separately. We have no national bookkeeping to account for the ebb and flow of human life as an asset and a liability or our civic organism. We have no national records to give our sanitarians and students a basis of their prevenive studies. Congress by resolution has urged the States to enact and enforce suitable registration legislation. The State governments must now act.

Most of the States now have adequate laws; their enforcement, however, depends to a large extent upon popular support. This support is assured if individual parents will insist upon the registration of each birth. —Montgomery Journal.

Statistics On Baby Deaths

The number of babies born in Chilton county in 1915 was 549 white; 91 colored; total 640.

Died in county, under two years of age in 1915, 40 white, and 6 colored; total 46.

In the city of Clanton there were born in 1915, 20 white and 3 colored. Died in same year, 3 white and 2 colored, 2 years of age and under.

The fllowing figures show the number of babies claimed by death from the several diseases:

White—1 pharangeal diphtheria; 1 blood poison; 1 cerebral hemmorhage; 1 miningitis; 1 carbolic acid poison; 1 malarial fever; 1 erysipelas; 12 pneumonia; 17 bowel rouble; 4 from cases unknown.

Colored—1 syphilis; 1 scalded; 2 bowel trouble; 1 bronchial pneumonia; 1 typhoid fever.

The above statistics were complied and furnished for publication by Dr. T. J. Marcus, the Chilton County Health Officer.

FARM WANTED—We have three inquiries from Illinois parties who want Alabama farms. If you have any for sale, write to us at once. American Land Co., Athens, Ga.–ad.

G. S. Minor of Route 2 was in Clanton Saturday.

Walter Harper of the Editorial Staff of the Montgomery Advertiser was in Clanton one day las week, getting up dope for Chilton County's page in the state-wide edition of the Advertiser, which is to appear in April.

Jemison, Ala., March 7,1916.
Editor Union-Banner:

There has been some little misunderstanding on the part of some of my friends relative to the clause in my announcement in which I said, if elected, I would give the same service as heretofore. I simply mean that, if elected, I will give the people two rounds at each voting precinct. The commission is now a great deal more than it was when I was collector a number of years ago. I gave them two rounds then and I promise the same service again, if elected.

Deeply realizing the fact that a public officer is truly a servant of the people and, if elected, I promise to serve all the people to the very best of my judgment and ability and where I can serve the tax payers time and expense going to Clanton to pay their taxes I here and now pledge myself to do so.

Thanking the good people for their support in the past, I am,

Yours for he good of the county.
T. J. HUBBARD.

LOMAX LOCALS

Health here is not very good at present Mr. Bill Jones and son Sidney are real sick but we hope for their speedy recovery. We are glad to say that Mrs. Gant Robinson is on the mend.

Mrs. Annie Parker and Mrs. A. J. Jones visited Mrs. Bill Jones Saturday afternoon.

The birthday entertainment given by Miss Ruth Jones last Friday night was fine and enjoyed by all present.

Quite a crowd surprised Mr. and Mrs. John Parker last Wednesday night and had a fine party.

Mr. Gant Robinson entertained a crowd at his home last Saturday night with music.

The entertainment at Mr. Luke Jones Saturday night was just fine.

Misses Essie Parker and Ruth Jones attended preaching at Jacksons Chapel Sunday. Brother Daniel preached one among the best sermons I ever heard on the way that people should live. I think everybody, especially the boys that are just coming to manhood ought to hear the sermon that Bro. Daniel preached there Sunday.

The singing at Jackson Chaple Sunday afternoon wast simply fine and enjoyed by all present.

Mrs. John Sundberg of this place spent Saturday night and Sunday with her parents Mr. and Mrs. Alpherd Collins near Bice Ovens.

Mr. and Mrs. George Jones visited Mr. and Mrs, Sam Powell of Clanton last Saturday night.

Prof. Lewis spent Sunday with Mr. Dudley Smith.

Mr. Shelly Hicks was in Lomax Sunday.

Mr. John Henry Maherg attended the singing at Jackson Chaple last Sunday.

Miss Ella Barrett visited Miss Ruth Jones Friday night.

Mr. A. C. Bussie has moved back to this part of the country.

Mr. and Mrs. Jack Price have moved away from Lomax and are greatly missed.

Mrs. W. T. Arledge of Blount county visited her parents, Mr. and Mrs. A. Bussie last Sunday.

Mr. and Mrs. A. C. Bussie and Mr. and Mrs. Fletcher Parker visited at Mr. A. J. Jones Sunday.

The singing at Jack Parker's Sunday night was fine.

Miss Elma Daniel is visiting her sister in Clanton.

Come on boys and girls and lets make this paper a success to its many readers, we want to read letters from all over the county.

With best wishes to The Union-Banner.

CLANTON ITEMS

Miss Lena Downs was in Montgomery Tuesday on business.

Mr. William Pierce of Mt. Pleasant community was in Montgomery Monday.

Mr. Ed Wagoner and family spent Sunday with Mr. and Mrs. J. L. Gore af Hill Crest one mile south of Clanton.

D. I. Deramus Jr., J. H. Gulledge,, W. H. Conway, Henry Burnett, J. D. Sims, Joe Wesson, Elijah Mims, Jasper Dinnis, J. C. Jones, W. Z. Hodges, Oscar Durbin, J. T. Traywick, J. W. P. Murphy, Joe A. Cleckler and Wesley Hand were in Montgomery Monday attending the boll weevil conference.

Don't forget your subscription to The Union-Banner. We need the money.

J. M. Knight, a civil war veteran, aged 69 years, died at the residence of his daughter, Mrs. D. B. Chambliss Prattville, and interment was made in Oak Hill cemetery.

Rev. I. F. Bilbro and Mrs. Bilbro announce the engagement of their daughter, Miss Ida Berryman Bilbro, and Dr. Frank Walker Young, of Hartford, Ala., marriage to take place in the Methodist church, Clanton, some time in May.

AUTO RENT SERVICE—Car for rent day or night. Headquarters at Clanton Mercantile Co. Call for Alvin Jones.

The Clanton basketball team defeated the Eclectic team by a score of 22 to 14.

Prof. R. A. Smith, principal of the Union Grove school was here Saturday in attendance at the teachers institute.

FOR SALE—Beat the boll weevil planting early variety Velvet Beans. Special prices made on quanity orders of 50 bushels or more. Write your wants and get price. J. T. Purefoy, The Bean Man, Furman, Ala. Adv.

Rev. S. H. Herbert, Principal of the Thorsby Institute, was in Clanton a short while Saturday afternoon.

Miss McMae McNeill of Jemison was in Clanton last Saturday.

W. W. Carleton and B. M. Robers attended Sunday School Convention out at Prospect Sunday.

Mr. and Mrs. Joe Robinson of Birmingham visited relatives here Sunday.

Laundry agency at the Candy Store. Good service and satisfaction guaranteed.

John Oaks, who lives near Montevallo, was here Saturday. He is still cripple from the severe railroad accident he was in over a year ago, but has gotten to where he can walk some.

We can repair most anything but make a specialty of reparing Fords. Maddox and Hurtt. adv.

Miss Bertha Smith was carried to a Birmingham infirmary last week to under go an operation for appendicitis.

FOR RENT—Building formerly occupied by Union-Banner office next to court house. Apply to the Union-Banner.

Notice—I will pay cash 13 cents a pound for fresh country butter on Mondays and Saturdays.
adv. W. W. Carleton.

POTATO PLANTS—For sale, the Nancy Hall, Improved yellow bunch yam, dooley yam, and Porto Rica; 1,000 plants, $1.75; 10,000 at $1.50 peer 1,00; seed potatoes used are improved by hill selection, and plants well hardened before shipping. Will begin shipping April 20th. J. L. WINSLOW, Thorsby, Ala.

"Paint My House, Too"

The spirit of neighborhood improvement fills the very air. The glad, bright colors of spring have replaced the somber hues of winter. Grass is green —flowers are springing into glorious bloom. Nature is providing a beautiful setting. Is your house in harmony—or do the fresh-looking surroundings only serve to emphasize its dullness? Does it complete the picture —is it well painted?

Now's the time of all times to dress up your home in fresh, new colors. The first essential in home improvement is good paint, and the paint that you can depend upon to be good is

Lowe Brothers HIGH STANDARD LIQUID · PAINT

You take no chances, you know exactly what the contents of every can of "High Standard" will do. Forty years of experience and countless exposure tests have made this knowledge definite. Chemical analysis of the raw materials and thorough machine mixing insure a uniform product.

You get in "High Standard" a paint that works easier, and spreads farther than cheaper paints—a paint that hides better and protects better the surface of your building—a paint that does not fade, that holds tight to the surface in perfectly protecting coats—that fails only by gradual wear and leaves a good surface for repainting

It actually costs less to use this better paint and get its perfect protection. It goes so much farther—and it lasts so much longer on the building that its use is true economy. Ask us for an estimate on your paint requirements.

Clanton Hardware Co.

Calomel Dynamites A Sluggish Liver.

Crashes into sour bile making you sick, and you lose a day's work

Calomel salivates! Its mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes in contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for calomel. Take a spoonful and if it doesn't start your liver and straighten you up better than nasty calomel and without making you sick, you just go back and get your money.

If you take calomle today you will be sick and nauseaed tomorrow; besides it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready ofr work or play. It is harmless, pleasant and safe to give to children; they like it.

Judson Strock of Verbena was in Clanton Saturday.

When in need of a car don't forget to call Maddox Taxi Co.

LEGAL NOTICE

Hon. H. A. Harris, Sheriff of Chilton County, Clanton, Ala.
Dear Sir:

No U. S. Internal Revenue License have been issued to your county in February 1916.

I hereby certify that I have carefully examined the record of the collector of Internal Revenue and the above is complete and correct.

Yours very truly,
SAM P. JONES.

Sworn to and subscribed before me this first day of March 1916.
J. B. MOSLEY,
Notary Public.

We have the best tools and know how to work on your car when it gets out of order. Bring it around. Maddox and Hurtt. adv.

EXECUTIVE COMMITTEE CALL

The Executive committee of the Progressive party f Chilton county is hereby called to meet at the court house in Clanton, on Saturday, March 11th, for the transaction of important business matters. All the candidates who are running on the Progressive ticket for the primary are urgently requested to be present.

W. H. GILLESPIE, Chm.
Progressive Ex. Committee.
M. D. FOSHEE, Sec'y.

DR. J. V. HIGGINS, THE RELIABLE WATCH MAN.

ATHENS, Ala., Feb. 25, 1916.

Have you a very particular job of jewelry to repair? A precious, semi-precious, or stone setting of any kind to do? A nice watcht o repair, or any kind of a job that you don't want to risk acobbler, and therefore make it very expensive to you?

If so drop a postal card to Dr. J. V. HIGGINS, Athens, Ala., and you will receive by return mail, a nice box; put the article in the box and send it to Dr. J. V. Higgins, and get a price on the job. If the price does not suit you the article will be returned to you prepaid. You will not be out one cent.

My being a natural born mechanic, and having several years experience, and having worked under the finest workmen in the North, South and West, I am educated to give you only factory-finished jobs.

Here is a testimonial from a lady who had a pearl brooch, containing 56 pearls to repair:

"Oh, that's simply beautiful; just like new. Hope you will get enough work to keep you in Athens. We have been needing a good jeweler for some time. I have had that brooch in my trunk three years and could not get it repaired.—Mrs. M. O. Seamans, Athens, Ala."

Send me your work, and I will appreciate your patronage. All my work is guaranteed. Spectacles and eye lgasses gold soldered, guaranteed to hold for 10 years or no charge.

DR. J. V. HIGGINS,
The Reliable Watch and Eye Man,
Athens, Ala.

THE UNION-BANNER

VOLUME IV. CLANTON, ALABAMA, MARCH 16, 1916. NUMBER 50.

THE IMPORTANCE OF THE SCHOOL CHILD'S HEALTH

Paper by Doctor Marcus, County Health Officer; Interesting; Good.

The American people are proud of their institutions, but of none are they more justly proud than of their system of free education.

In England the free schools, though open to all, are attended only by the children of the poor and lowly. In our own country the children of the best families in the land go to the public schools. This liberal patronage, this lack of class distinction commands for our public schools the interest and the thoughtful consideration of all our people. This for any institution is at once its best guarantee of freedom from pernicious politics and its best assurance of wholesome development.

In the South we are spending more and more moneys. We are building more and better school houses, we are employing more and better teachers in an earnest endeavor to offset the long standing indictment that the preponderant illiteracy of the country exists with us. Against much odds, it is a duty which we are performing willingly and well.

In our efforts to educate the masses let us not forget, however, that the health and the social welfare of the school child is encompassed by problems which multiply in complexities in direct porportions to the increase and congestion in the school population.

Let us make sure that while we improve the minds of these little citizens we neither impose nor permit conditions that would endager the vigor or the integrity of the race. Our democracy can endure in spite of any continued illiteracy—no nation can survive increasing disease and weakness in its people.

Before compulsory education should come compulsory health.

Because of pure air, because of exercise in the open, because of homlier and plainer food, because of a number of things the country school child is, generally speaking, a more vigerous, hardy and resistant youngster than his city cousin.

The rural school reveals conditions, however, which from the standpoint of health and sanitation are far from satisfactory. Frequently the building isunsuitable for proper ventilation, heating, lighting and cleaning. The water closets, or priveys, are often crude and insanitary. Seats and desks are often poor in design and construction. It is here that the common drinking cup and the uncovered water pail still exist in spite of their known dangers. The source of the drinking water itself is often not above suspicion. Here, too, the Hookworm disease abounds. Carelessness in the toilet of the mouth and neglect of the teeth are very common among country school children. There is no question that diseased conditions of the mouth and teeth are responsible for much ill health.

It has been found that a very considerable number of school children are afflicted with impairments of speech, hearing or vision sufficiently pronounced to seriously handicap them in competing with normal children. But this avails the afflicted one nothing, if the defect is not prevented and if it goes uncorrected.

Can you realize the perplexity of the child who tries to listen with ears that can not hear. Can you realize the difficulty of the child who tries to see with eyes that cannot see. Can you think of anythlng more pathetic than an ambitious child, sensitive to all hurts, humiliations and taunts, trying ever so hard to keep up with the class., but always slipping though no reason that the baffled little mind can grasp.

Dr. J. Ross Snyder of Birmingham said that while in the East a few winters ago, a little girl 8 years old was a shy, sacred little creature, and it required some time before he succeeded in making the little one feel at ease in his presence. He asked the aunt who accompanied her if the child ever had been frightened by tales which represented the doctor as the "bloody man". The aunt replied, "Now she is just mean—she's not got good sense no way". It developed that the little girl had been entered in school that year, and after a three-month's trial had been sent home with a note from the prlncipal saying, "We are forced to the conclusion that Mary is not of bright mind. We would advise that she be sent to a school especially prepared for training the simple minded".

And on examination he found the child was deaf, partly blind and had an impediment in speech due to neglected tonsils and adenoids. With all these her mind was bright and active,and to his way of thinking, had more sense than her aunt,her teachers and the board of education, all put together. The very conservation board of education in that town had repeateedly voted that there should be no medical inspection of school children, on the ground that such inspection was too expensive and that it was only a new-fangled way in which doctors were attempting to advocate and to get money for themselves.

So, even today, when a medicalman advocates any measure fashioned along the lines of preventive medicine, some old survivor from the Stone Age is sure to arrise to object—that "These yer doctors is always trying some new trick to put money in their pockets".

Two of the most intelligent and progressive physicians in the town, in which lived the little girl, Dr. Snyder refered to, had offered to inspect the entire school population for the sum of thirty dollars. To deprive the doctors of this enormous wealth, the school board was sending at least one poor tender baby to hell—a hell of mental and phisical anguish.

How many children are there in Alabama who need salvation from similar degredation, we do not know. What we do know is that whenever and whenever intelligent and sympathetic school inspection is made there are always discovered a great many childrn with impending or actually existing impairment. To see the joy and brightness of childhood rekindled in one of these little ones when relief is given, is to be convined that if medical inspection is a trick, it is a same sure trick by which someone other than the child is cheated unles their physical inflrmaties are recognized and corrected. These children either endanger their general health by the extra strain under which they must labor in order to keep pace with the class, or become disheartened and lose all interest in school work. In either case children are likely to grow up into undesirable members of society.

If these children are to be educated or if they are to be saved for usefulness in citizenship or if they are to be prevented from becoming a tax and burden on the state, then medical inspection of the school population

We spend much time and money legislating people into jails, penitentiaries and lunatic assylums. It ocurs to me that the time has arrived ror us to be studying and legislating measures whereby people may keep out of these institntions; otherwise the time will soon come when there will soon come when there will not be enough people left on the outside to guard those on the inside.

From the standpoint of human economics and statesmanship, medical inspection of schol children ought to appeal to all of us as a step in the right direction.

Superintendents and teachers over the entire state are heartily in favor of medical inspection of schools, and wherever such inspectlon is undertaken, they lend ready and intelligent co-operation to the work in hand, any thing like general and sympathetic inspection however is entirely wanting.

Medical inspection of schools began eighty or more yers ago, during the last quarter of a century it has become a world-wide movement; yet there are school boards existing, that petitioned to inaugurate a system of inspection, and still hold up their hands in surprise and exclaim, "Do you think this community will stand for a fad like that".

In the practical application of inspection, however, results have proven much more satisfactory where the inspection is conducted by educational rather than by health authorities.

Very justly has the state appointed officials whose specific duties are to see that each one of her prisoners is physically and mentally capable of performing the work assigned, and to see to it that no prisoner's health is endangered by contagious diseases or by poorly ventilated or dangerously constructed jails.

By virtue of right, by virtue of helplesness, the children of the state appeal for protection, at least equal in degree to that which the state grants her prisoners. Are we the citizens of a great commonwealth, prepared to resist an appeal.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

RESOLUTIONS OF RESPECT

Whereas, on the 25th day of Feb., 1916, God in his infinite wisdom saw fit remove from our ranks by death, our esteemed Secretary, Dr. Samuel C. Matthews, therefore be it resolved, that, in the death of Dr. Matthews the medical profession has lost a true and ethical member, Chilton County Medical Society a faithful and efficient officer and his family a devoted husband and father.

Be further resolved, that, the Chilton County Medical Society extend their heartfelt sympathy to the bereaved family in this sad hour of sorrow and commend them to "One who doeth all things well" and that we cherish his memory in our hearts, and that these resolutions be spread upon the minutes of the society and a copy be furnished each of the county papers, also a copy be sent to the family of the deceased.

T. J. MARCUS, M. D.
S. E. JOHNSON, M. D.
Committee.

JOHN FARLEY CANDIDATE; NOT HIS BROTHER "BOB."

We are requested to state for the information of any who may not already know, that Mr. J. B. Farley, who is in the race for commissioner is John Farley and not Bob. Several seem to have the two confused, and think that Bob is the candidate.

Remember Maddox Taxi Co. when in need of a car.

VITAL STATISTICS FOR MONTH OF FEBRUARY

Total number of births in the county, 48.

The following communicable diseases were reported: Diptheria, 1; varicella, 1; scarlet fever, 1.

The county jail and poor house were inspected as required by law, and found to be in satisfactory condition.

NAMES WILL NOT BE GIVEN PUBLIC SAYS MR. J. BICE

Thorsby, Ala., Mar. 13, 1916.
Editor Union-Banner:

Mr. Oliver asked me to let the public know the names of the four men who promised to pay the $1,000.00 to the High School.

Mr. Oliver should know that this is a mater between the school and the men. The mater that concerns the public, is the Commissioners taking the county's money and paying this $1,000.00 to the school. It is the dirty work of our public officials (the Commissioners) and not the men, we are after.

I don't want to make enemies in this mater, and I will not have their names published. I think it is aprivate affair between them and the school, and I have no business meddling in that mater. I only want the public to know where the money has been going. I have the names written in my book just as they were given to me, but I don't think it proper nor lawful for me to have them published. As to the $1,000.00, it was paid by the commissioners court to the high school, just as I stated in my letter.

So here I will leave the matter to Mr. Oliver, if their intentions were good or not. I have shown up the actions of the comissioners court. Judge Deason voted to pay the debt, as did Mr. Robinson and Mr. Williams; so it is up to the public to say the next thing. Best wishes,

J. BICE.

MARS HILL.

Our literary school closed last Saturday with a nice crowd at the school house to offer the teacher, Prof. O. L. Mims, their congratulations. The day seemingly was enjoyed by all very much. It was spent in games of various kinds. The spelling match in the forenoon was good. It was unanimously voted that Prof. Mims be the Principal of our school next time, with the help of an asistant. Of course that means that all the patrons are well pleased with him as a teacher. The pupils all regretted very much to see their teacher leave.

We have organized a literary society at this place, and hope soon to be able to entertain our people with debates, plays, and such like.

We still have an evergreen Sunday school which i sdue to Mr. N. M.More and his faithful superintending.

The singing at this place was quite successful Sunday afternoon.

Edgar Blankenship of Jemison was present with us.

Some of our people intend to visit Free Springs next Sunday afternoon to attend the singing.

Freeman Scott is still atending the Jemison High Sshool.

NEW SALEM.

Health of this community is very good at present.

Our Sunday school is on the drag for the present, but hope it will improve soon.

Mr. Elvin Sundberg paid us a short visit last week but has returned to Ensley where he has work.

Mr. Herbert Collins, who is attending school in Montgomery, visited home folks Saturday night.

Miss Elveria Sundberg spent Sunday with Mrs. Minnie Cardon and reports a nice time

Mr. John Sundberg and wife spent Sunday with the formers mother.

Misses Bertha and Murid Pate spent Saturday night and Sunday at Lomax visiting friends.

Quite a crowd from this place went to the concert at Jackson's Chapel Saturday night, but the house was too crowded to see much.

The singing at Mr. Jim Catons Saturday night was a success, had fine singing and everybody enjoyed themself.

Mr. John Caton and wife of this place visited the formers parents at Jackson's Chaple Saturday night.

Mrs. Mollie Martin and charming daughter, Gertie, spent Saturday night with Wm. Martin's family.

Mr. Walter Martin has gone to Birmingham where he expects to work a while. We hope him much good luck.

Miss Minnie Lee Johnson spent Saturday night with Miss Precious Caton.

J. N. SCOTT MAKES A REPLY TO JUDGE ADAMS

Jemison, Ala., March 9, 1916.
Editor Union-Banner:

Here I come again for space in the way of an answer to Mr. S. M. Adams.

He seems to be somewhat flustrated over the political situation, and he has a good cause to be. It seems that his plan of consolidation will not work on the people whom he left when he went back into the Democratic party. Now Mr. Adams you know you told us that before you would do that you would suffer your right arm cut off, and went back during your term of office. I am sure if you were back just like you were then, knowing as you do now, you would suffer both arms cut off before you would go back on us. That caused a sore that can never be healed. You had as well do like the prodigal son; just say I left home without any cause, for they gave me everything I ask for, and they yet have plenty at home for all the servants, and to spare, but here I am, drifted off into a Democratic country, and there has arisen a mighty famine and I have spent all of my goods in bad living, and have fain filled my belly with the husks that fell from the Democrats, but no man gave unto me; and I am perished for an office. Be just like the Prodigal. Say I will arise and leave this old Democratic country and go back to the boys that fed me. Say to the boys that you have sinned against God, and in your sight, and I am not worthy to be one of you, but just let me wait on the table and that will be good enough for me.

Now Mr. Adams, this remedy is a kind of a salve, a mixed process of my own, guaranteed to be clean and free from all harmful drugs. The way to apply is to rub from your heels to the top of your head, as many times a day as you choose, right up the spinal cord, and when your backbone gets strong enough to stand the Progressives, then quit.

Mr. Adanms, I want to say that the people of this county have a common interest in the government of the county, and I want to admit that there are unnatural and unreasonable divisions, but who caused it but men just like you, wanting to be boss instead of a servant? What are the people to do; continue this unnecessary and foolish division in order to elect certain men to office?

I answer: Yes, we want to elect certain men and those good ones. I want to answer you, and say that it doesn't pay to elect a Democrat as Probate Judge. If it is done, the only reward is a bankrupt couny. That is the evidence in the case this last time.

Mr. Adams, you want to know what we are doing for the young men, and what about our example in teaching them to vote. My answer to this is that your example seems to show up rather bad, as you have run from party to party till you have run out. You have called for votes from one side o the other till you now feel condemned in it as a sin. If I felt that way I would quit running till I felt better. You must remember that there are two sides to all things. One is good and the other is bad. It has been that way ever since the snake bit old mother Eve.

I expect you too are snake bit, Mr. Adams, the reason you are flustrated over this matter. But if you are, just rub on some of my salve, and it will do you good, as it has many others.

I will have some more to say regarding your letter in a few days.

Respectfully,
J. N. SCOTT.

ORDER FORPRIMARY ELECTION

The Executive committee of the Progressive party of Chilton county, in session at Clanton, on January 19, 1916,ordered a Primary Election to be held on May 9th, 1916, for the nomination of candidates for the various offices to be filled at the next November election.

W. H. GILLESPIE, Chm.,
Progressive Ex. Com.
M. D. FOSHEE, Sec'y.
Clanton, Ala., Feb. 23, 1916.

THE FERTILIZER QUSTION AND RAISING OF COTTON

Commissioner Wade writes on this Matter so Vital to the Farmers.

As a result of the high price of fertilizer, farmers are showing a disposition to plant considerable cotton acreage without fertilizing it. This, in my opinion, is a serious mistake right at this time and under he present conditions. The conditions are simply this; we must produce an early cotton crop to beat the boll weevil and commercial ferilizer will help to mature the crop several days earlier. It helps to make the plants larger, puts on more fruit and matures the fruit better.

The soils of Alabama have been stimulated with fertilizer for years and will not respond to production readily for a few years after fertilizer is left off unless some soil building crops have previously been grown. If you leave off the fertilizer this year, I would advise you to leave the cotton off also. My advise is to cut the acreage of cotton down half, and cut out the wet land and real poor land and use as much fertilizer or more per acre on your best dry lands as you have been using in past years. This will enable you to make larger yields per acre and give you a better advantage of boll weevil and in the end prove more profitable by having cut out the land that has always been a losing proposition under any conditions.

I have always found commercial fertilizer a profitable investment when intelligently used on good well drained soil properly prepared and cultivated. The better the land the more fertilizer can be used and the better the investment is my personal experience and observation unless carried to the extreme.

The scarcity and high price of Potash is causing a great deal of alarm. It is unnecessary to worry over this situation. It cannot be remidied and has never been proven to be a fertilizer necessity except with a few crops and on some of our poorest sandy soils. I certainly would not pay the price for Potash that it is now commanding but would go ahead and use cotton seed meal and Acid Phosphate, dried blood and Acid Phosphate or Tankage and Acid Phosphate.

These fertilizer conditions may not last longer than this year, it may last two years. Certainly here cannot be much change until the European war is over, when Potash can be imported and the munition factories stop paying high prices for Nitrogen and Sulphoric Acid.

The boll weevil is here to stay, and my advice may be worth little to you, but if you lose a crop or two before you get adjusted to the conditions, it will amount to something to you for quite a while. You elected me to the position which I hold, in order that I might advise you for the best and warn you against probable losses. This I am sincerely trying to do. Do not depend too much upon rying to grow cotton under boll weevil conditions without fertilizer until you have had more experience with boll weevil conditions.

JAMES A. WADE.
Commissioner of Agriculture

GOVERNMENT SURVEYOR

From Monday, March 12, for the next 15 or 20 days, Thos. M. Hooper, U. S. Deputy surveyor of the state of Alabama will be in Clanton. Any parties wishing their land lines run according to the government survey can secure his services by leaving their orders with the Probate Judge or Mr. W. W. Fox. 2-16-2t-adv.

A music recital was given in the chapel Friday morning under the direction of Prof. Tinsley. The program was as follows: Piano Solo, by Miss Berverly Hester; piano solo, by Miss Pauline Woodward; vocal solo, by Miss Izora Callen; vocal solo, by Miss Roberta Curry; and chorus by the music class.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

The play entitled, "Leap Year in the Village" given by the Verbena Dramatic Club at the county high school auditorium last Friday night, was a decided success. The players acted their parts well throughout the performance. Half of the proceeds are to be used toward the improvement of the high school building, and the other half will be donated to the Verbena school.

Dr. Darby, Educational agent of the Presbyterian Church, whose home is in New Decatur, visited our school last Monday morning and conducted the chapel exercises.

Leon to Horace: "You are not going out for catcher are you?"

Horace to Leon: (while a number of boys were throwing to him) "No, not if such as these is going to be the pitcher."

All the boys are playing their best trying to prove their ability to be a member of the varsity baseball team for this year.

The contract for the printing of the annual was let by Manager Jones Monday. The Union Publishing Company got the job, having made the most favorable offer. Work on the printing has already begun, and the job is to be finished by or before April 20.

This is the first time any school in this county has ever attempted to publish such an edition as this, and it is certain that it will be one among the best for an institution of this size. The name of the publication is to be the "Cantrolla," and it has been agreed that the succeeding editions will retain the same name.

Real work in the school garden has begun, and according to present indications, much valuable instruction will be given along the lines of horticulture.

Dewey Rockett said that the reason he waited till the last to have his picture taken was so that if he broke the machine, there would still be no delay in getting the rest of the pupils.

The athletic association of the boys has elected Mr. Wood as manager of the baseball team.

MR. VINSON'S VIEWS ON COMMISSIONERS DUTIES

Clanton, Ala., March 13, 1916.
To the voters of Chilton County:

Some time ago I announced myself a candidate for Commissioner from the Fourth District, subject to the action of the Progressive primary to be held May 9th, 1916.

As I am a farmer, and make my living by the sweat of the brow, it will be impossible for me to see every voter in the county, but will see as many as I can, so I am taking this method of stating to you my past politics and some of the principles for which I stand.

I have never voted a Democrat ticket in my life, neither have I ever voted what is termed a "split" ticket, but have always voted a straight Republican or Progressive ticket.

I wish to say that I am in favor of good roads, good rural schools, and for the general improvement of the County, but am bitterly opposed to the county building highways and high schools for a few people and leaving the majority of people in the rural district to do the best they can. Neither do I favor the issuing of bonds or inarest bearing warrants to pay for such, but believe that we should live within our income, and make these improvements as fast as we can but pay cash for it, and not run the county in debt.

I realize that there is a number of good men asking for the same honor that I am, but as I am in the race I insist on you investigating my character and reputation and if you find me worthy of the position for which I am asking, then I solicit your vote and influence, and if not, then your choice will be my choice and I will do all I can, honorably, to elect my opponent together with our entire ticket.

I am respectfully yours,
A. P. VINSON.

The street show is in operation in Clanton this week. It is under the auspices of our volunteer fire fighting department.

Mrs. H. Kanjutzky arrived home Tuesday evening after spending several weeks with relatives in Birmingham and parts north.

MIDWAY

Last Saturday the writer had the pleasure to attend the mass meeting held at the court house, and every one present, (unless it was a few Democrats) seemed to be unusually dissatisfied with the way things have been going the past few years with the county—financially speaking.

It is generally understood that something like two hundred and fifty thousand dollars has been made away with, and we have very little to show for it.

The thing that is worrying the Progressive voters down around Midway is where did the money go?

We understand that five thousand dollars went to the county high school. Of this amount four thousand dollars was appropriated at first, and the other thousand dollars was later paid to make up for a few who failed to pay their subscription to the building fund.

I am very much interested in better schools, and I do not think the money put in the school was a bad investment, the thing that I do not approve of is he manner in which it was done. If he matter had been placed before the tax payers of Chilton county I am satisfied that a majority would have favored it. But I think there are only a few who like to have the "Hog run over them." Most any farmer will give a hungry man a water melon if the man ask for it, but if this hungry man takes the melon of his own accord, the transaction is not satisfactory to the farmer.

As to the road question will say that we have a good road from Clanton to the Shelby county line a distance of about seventeen miles, the road from Clanton to Mountain Creek a distance of about fourteen miles cannot be classed as a good road. I have not been over the road from Clanton to Maplesville lately so I am not in a position to state the condition of same, but will say that if it is not better than the one down our way it ought not to be so expensive.

It seems to me that something like sixty thousand dollars would be a fabolous price to pay for the road work that has been done.

For the benefit of those that are not familar with the cost of road work, I will call your attention to a piece of road work that Dr. Jackson has recently done near Wadsworth. At a cost of $710 the above mentioned party has done the following described work: Built a first class bridge across Shoal creek with concrete buttments, the lumber was all heart cut the same thickness; graded a half mile of road, and the part at the bridge had to be filled in about five feet. The half mile is well gravelled.

Human beings are subject to mistakes and it may be possible that the commissioners and the Judge made a mistake in letting the contract for our road work. It is an evident fact that we, too, made a mis take in voting for a couple of our commissioners. I will not mention the names of the two men, because that I am confident they are as well known as Arm's Hammer soda.

Now I want to say a little more about the Equalization Board.

Very truly yours,
CHAS. COOPER.

FOR SALE—Berkshire hogs, cheap; early speckled and yokohoma velvet beans and soy beans $2 a bu; white chinese beans 50 cents a gallon. Jesse A. Davis, Clanton, Ala., Route 6. 3-2-4t.-adv.

SATURDAY WAS A BIG DAY FOR PROGRESSIVES

Executive Committee Met; Mass Meeting and Public Speaking.

We are proud of the demonstration of the Progressive and Republicans which was evidenced here last Saturday. It revealed the greatest interest and enthusiasm by the people of the county in the important political issues that confront us.

The executive committee of the Progressive party was in session in the forenoon, and transacted a few items of important business.

The date for the closing of announcements for the Progressive primary was set by the committee for April the first.

Instructions were given to the members of the committee for the performance of their duties in regard to the primary election under the new electioin law. The committee in performance of this requirement, will meet on Thursday following the primary, to count the ballot, and attend to the other duties incumbent upon them under the law.

The chairman of the committee, Walter Gillespie, presided over the meeting, and Sam Pate was acting Secretary.

Following the committee meeting, a general mass meeting was held on the orde r of those previously held for investigation into the affairs of the county as administered by the present court of Commissioners. Attorney J. B. Atkinson presided, and Sam Pate was Secretary.

Authority was given the chairman by the meeting to within ten days oppoint a committee composed of members from each Beat in the county to arrange to hire a lawyer to go into the official actions of the commissioners court, and lay same before the people.

Judge Longshore of Shelby county did not arrive to make his speech to the citizens till after noon. But when he did get started, he left no stone unturned. His speech was a masterpiece, revealving his splendid mind and judgment on political matters. A full auditorium listened to him for two hours.

He was followed by Prof. J. W. Moore, L. H. Reynolds, and other local candidates, who had short remarks to make in regard to our county political affairs.

MR. COBB ANNOUNCES IN FAVOR OF SUPT. BEAN

Jemison, Ala., March 10, 1916.
Editor Union-Banner:

I wish to say to the people of the county that if I am elected as a member of the Board of Education of Chilton County I will do all I can to improve the schools of the county. I will always look to the best interests of the people in all matters that may come before the Board.

I indorse the administration of Prof. W. T. Bean as County Superintendent of Education, and if I am elected I will be in favor of him for a second term, as it is customary when an officer makes good to give him a second term.

All the votes I have ever cast have been with the Republicans and Progressives of the county. Inquire of me and my past record, and if you think me fit for the place, I will appreciate your support and influence,

Yours truly,
B. L. COBB.

HOW THE COMMISSIONERS VOTED ON THE ROADS

Jemison, Ala., March 13, 1916.
Editor Union-Banner:

Let me say a few words to those who are harping about the four county commissioners being Republicans, and their being responsible for the condition of the county. I want to tell just how some of those debts came about.

When the Maplesville and Clanton road was on, Mr. Herrod and myself voted against the road, and Mr. Robinson and Mr. Williams voted for it. This tied the vote, and Judge Deason voted for it, which gave three in favor of the proposition, and two against it.

The river dam road was voted in the same way as the Maplesville road, and also the thousand dollars to the high school was voted in the same way. When it comes to a tie vote, two on each side, the Chairman casts his vote to untie, to one side or the other.

To those who are contending that the four commissioners are to blame for these things, you see the Judge cast the deciding vote, which was the balance of power.

The above are facts, and cannot be disputed.

Respectfully,
S. E. WALDRUP.

EAST VIEW.

Farmers here are getting along nicely with their work.

Sunday school here is progressing nicely under the careful management of Mr. John Williams.

Mr. and Mrs. M. C. Culver were at O. W. Denis's last Saturday night.

J. H. Logan and family were visitors at W. J. Denis's Sunday.

C. C. Denis and family were visitors at B. D. Denis's Sunday.

Quite a number of people from in this community went to Clanton on last Saturday to hear the speaking.

J. H. Hayen of Route 7 was a visitor here Friday and subscribed for the Union-Banner.

PEOPLES TELEPHONE 96.

Now, all together! Hurrah for this town!

Here's wasting a passing thought on dear old Mexico.

Cheer up if you can, but perk up anyway.

Fact, brother, experience is a good teacher—when it teaches.

Hang onto the first wife, fellows. The next one might be worse.

Yep! We are a confirmed advocate of preparedness—for the Sunday dinner.

If you would like to know your neighbor's true opinion of yourself, ask his kid.

And yet another week of those golden dreams has passed into nothingness.

Some war, you bet. But the old world still shuffles along at its time honored jog.

About the only time we enjoy seeing a fellow cough is when he owes us a bill.

Of course, mother, you don't want your own dear boy to be a soldier. Send your neighbor's brat instead.

The wise man listens when others talk, but the fool gabbles on whether they listen or not.

Those dinged submarines must be stirring up a hell of a commotion among the other monsters of the deep.

That presidential plum is looking mighty big and juicy to the horde of hungry patriots squatting beneath the tree.

Patience, brother! If you ignore the rest of the kids you can hardly afford tofeel peeved when your own ignores you.

Of course we will not cerry our neutrality to the point of waiving our great and glorious privilege of electing a president in November.

When you see a beautiful maid sailing along the street with head in the air and seeing nothing and hearing less, it is asafe bet she is wondering what sort of a sensation she is creating.

Only a wise man ever admits that he is a fool.

Lower the stars and stripes? Never! Hoist it another notch or two.

Washington has been having its own little war of late, but fortunately the explosives have been nothing more serious than wind.

The optimist breeds golden opportunities. The pessimist is the father of misery.

Baseball and shaggy hair will be ambling along now most any day.

Speaking of short skirts—but we are too darned busy looking to even think of speaking.

Baker is so closely allied to pie that we hasten to announce our eminent satisfaction with the appointment of the new secretary of war. Here's hoping he is not quartered and devoured in the scramble.

IS THE REPUBLICAN OR PROGRESSIVE PARTY TO BLAME?

Democrats are saying that the Republican-Pogressive party is to blame for the condition of the county.

Is this a fact?

We say it is not.

And here is the reason we say so.

Waldrup and Herrod have been voting against these questions that have been coming up , and Williams and Robinson have been voting for them. Deason has been untieing the vote.

Well what caused the passage of the measures?

It was not the vote of Deason altogether, we admit. His vote would not have passed them, had not the votes of Robinson and Williams been with him.

But if Deason's vote alone had passed the measures creating debt, would the Democratic party been held responsible?

And if the vote of Robinson and Williams alone had created the debt, then would the Republican or Progressive party be in the blame?

To both the above questions we say NO, unless the party to which each man belonged endorsed such measures and authorized him to vote in such manner.

Well, what is the trouble, where does the kick come in?

Well here's the rub.

Robinson and Williams are to blame for their part of it, because they did not vote according to the sentiment of the party that elected them, and the promises they made the people.

This is the fact that relieves the Republican or Progressive party from the responsibility.

The Republican party did not uphold Williams and Robinson in their stand in the matter, and therefore cannot be blamed for it

THE CITIZEN AND THE SCHOOL

No matter how exalted or humble a person may be, there is one sacred duty which he owes to humanity and which it is imperatively incumbent upon him to pay. That duty is the protection and the fostering of our public school system.

We are living in an age of education and advancing intellectual development, and the human mind that is deprived of the best advantages obtainable will be hampered and hindered at every step in life.

It matters not how bright nor how acute the infantile mind may be, if that mind is denied the advantages of education then the child grown to maturity will be retarded and humiliated because of its intellectual deficiencies. It will be a living monument to the neglect and the indifference of its parents. It wil be a mark of shame and a blight upon the community that reared it in its ignorance. It will be an object of pity where it should be one of pride.

Education and advantages of intellectual advancement have made America a great country. And America is yet in its infancy.

Our school system should be incouraged and raised to the highest point of efficiency. The instructors should be upheld and given to understand that they have the backing of a united community, and that the community expects satisfactory results.

If our present buildings are inadequate and nev ones are needed, then for the sake of enlightened humanity let us spend the money and get them. Let us make any other improvements or new departures that the welfare of our children require.

We have brought these children into the world, and in their infancy and youth they are helpless. It is our duty to give them an education that will enable them to successfully cope with the intricate problems of existence that will confront them in later life. To do less would be to neglect a sacred duty, to shame the innocent ones for whose very existence we are responsible.

Let us keep our schools and children in mind. Let us study their welfare individually and collectively. Let us leave no stone unturned that will advance their moral and material interests.

For the man who honors his offspring is honred of men.

The Cattle Tick in the South.

The new South ought to engage largely in stock raising. The climate of the South, and in many sections of the South the soil, encourages stock raising, invites capital and rewards intelligent industry.

But the cattle tick must be eradicated. The Federal government is doing all it can in this work. The State governments and the farmers themselves and the railroads ought to co-operate in this work of redemption.

It is foolish to be feeding ticks. What the farmers ought to do is to feed livestock; get them in condition to bring the highest prices in any market.

Improve the grade of your livestock. Put it in proper condition to pay you for the labor and expense of feeding them. Consider your soil and the products of your soil in connection with the markets, and, above all things, now, eradicate the cattle tick.—Home andFarm.

HAVE YOU DONE THESE THINGS

Have you planted a patch of rape for spring hog pasture?

Have you decided to plant lespedeza this spring? Sow broadcast or on oats or rye about the last of February or the first of March.

Have you mended your plows and farm machinery for farm use? Save time and money by doing it now.

Have you cleaned up your orchard, planted new trees, removed all mummies, and cut out the borers?

Have you cleaned up your fence corners and cut the sprouts along the ditch banks?

Have you stopped that wash that will grow larger with every rain? Now is the time.

Have you repaired that leak in the barn roof? Your corn or hay may be rotting.

Have you tiled that wet soggy spot or cut a ditch through it? Now is the time.

Have you hauled out your manure?

Jackson county has five candidates for Probate Judge.

Our Big Spring Opening Day.

CELEBRATES HER 85TH ANNIVERSARY

Mrs. Meaders Wants Everybody To Know That She Now Feels Young And Happy Again.

"I will be eighty-five years old tomorrow, and I want to celebrate my birthday by letting the whole world know what Tanlac has done for me," said Mrs. Malinda Meaders, who is one of Atlanta's oldest and most highly respected citizens. Mrs. Meaders lives at 234 Steward Ave., but she has gone to the home of her daughter, Mrs. Trouton, at 425 Whitehall, to celebrate the happy occasion, and it was here that Dr. E. B. Edler called at her request.

An unusual feature of the occasion was the fact that three generations were present o witneess the signing of this most unusual and ineresting statement—Mrs Meaders signing a written recital of the facts, and her daughter and grandson, J. C. Meaders, signing as witnesses.

"Yes," said the old lady, "I am finishing up my eighty-fourth year, and tomorrow, February 17, I will be eighty-five years old, as I was born February 17, 1831. I have lived to see Atlanta grow to be a big city, and have seen many wonderful things brought about right here in Georgia.

"I haven't been in good health for nearly five years, and have felt bad most of the time. I was sick and nervous and had bad stomach trouble. My digestion was poor and I could not enjoy my meals like I used to. After eating I would feel uncomfortable and have palpatation of the heart, and it would be hard for me to geat my breath. Sometimes I would have awful headaches and dizzy spells.

"I seemed to get weaker all the time. I got very thin and felt that I was going down hill very rapidly. This was the way I felt when they got Tanlac for me, and I feel so much better that I want everybody to know about it. I could see all the difference in the world in my condition after I had finished the first bottle.

"I have now taken three bottles altogether, and feel as well and happy as I did when I was a young girl. My appetite is just splendid now, and I enjoy my meals and am gaining in weight. I feel so much stronger. I can now go about any where I want to, and can sleep good at night. It is one of the best medicines I have ever taken in all my life, and I want to tell suffering people about it."

Tanlac is sold in Clanton exclusively by Upchurch Drug Co.

FOR SALE—Early speckled and yokahama velvet beans at $2 a bu. All kind of cowpeas. R. W. Scott, Thorsby, Ala. 2-10-10t-dav.

FOR EDUCATIONAL BOARD

The friends of Mr. J. P. Dykes announce him a candidate for membership on the scohol board of Chilton County, subject to the action of the Prgressive party in its primary on May 9th 1916.

(Paid political advertisement by J. P. Dykes, Montevallo, Ala.)

FOR EDUCATIONAL BOARD

The friends of Mr. T. J. Dorminey announce him a candidate for member ship on the school board of Chilton County, usbject to the action of the Progressive party in its primary on May 9ht 1916.

(Paid political advertisement by T. J. Dorminey, Jemison, Ala.)

FOR EDUCATIONAL BOARD

I hereby announce myself a candidate for membership in the Educational Board of Chilton County, subject to the action of the Progressive party in its primary on May 9th, 1916.

Your vote and influence will be appreciated.

J. A. MADDOX.

(Paid political advertisement by J. A. Madox, Clanton, Ala.)

FOR EDUCATIONAL BOARD

The friends of Mr. B. L. Cobb announce him a candidate for membership on the Educational Board of Chilton county, subject to the action of the Progressive party in its primary on May 9th, 1916.

(Paid political advertisement by B. L. Cobb, Jemison, Ala.)

Gray hairs are honored by all young people—except squirts.

Ford's wonderful peace pilgrims appear to be gradually slipping back to our shores in both peace and obscurity.

Change in Lighting Rates

Commencing with accounts due April 1, there will be some slight changes for electrical energy. The rate will be as follows:

Under 25 Kwh. monthly consumption 12 cents

Over 25 Kwh. monthly consumption 10 cents.

The rate of 12 cents applies to the first 25 kwh regardless of the amount used; the 10 cent rate applies only to current consumed in excess of 25 kwh.

The minimum charge will be $1.00 with the addition of a fixed charge of 15 cents for each meter.

Bills paid at our office before the 10th of the month in which they become due will be subject to a discount of 10 per cent with the further allowance of the 15 cents charge on the meter.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Gasoline Engine

For Sale at a Bargain. For price and full particulars see or write W. M. Wyatt, at the Union-Banner, Clanton, Ala.

CORINTH.

Farmers here are getting along well withe their work.

We have very good Sunday school here.

Archie Jones, Henry Jones and Mr. Columbus Taylor visited Evergreen last Sunday.

The singing at A.L. Robinson's was enjoyed by all.

Our literary school was out on the 8the of March. We have had a good school taught by Miss Amie Daniels. Miss Daniel did a lot of nice work at the school house. She started a nice flower yard, and we hope to keep it in good shape.

Chilton county officers, and U. S. Marshal Wall arrested Crawford Easteling last week and carried him to Montgomery on a charge of illicit distilling.

Sheriff Allen of Clay county captured a "wild cat" near Lineville.

F. G. Petty, 73, Confederate veteran, died near Scottsboro Buried with Masonic honors.

Quit your politicks and get you some white Leghorn chickens, eggs $1.00 per 15 from young strain large size and heavy layers, baby chicks 10 cents each. Eggs from Silver Laced Wyandotts, $1.50 per 15.

Real good eye glasses and spectacles first quality lenses, 75 cents and $1.50 per pair; good gold filled with first quality lenses, $3.50 the $6.00 and $8.00 kind.. Try a set of Blue Bell telephone batteries and see if they don't last you longer than any any others.

L. D. POPWELL

These seeds are all new and fresh and are particularly adapted to this climate. Now on display and for sale by

ALRED DRUG CO.

"THE HOME OF QUALITY."

The Needs of the Farm at this time of the Year

We realize them; we know what they are; and we know what kind of merchandise you needto meet them; and we have it to sell.

Just now the farmer has not got time to come to town and stand around all day, look over the whole town, to select what he wants. He must come in a hurry, get what he wants, and go back to his work in a hurry. No time to waste.

That's Where we Win

Because we have just what he needs, right where he can get his hands on it in a minute, and he loses no time. He gets what he wants and is gone back to his work without delay.

This means a whole lots to you. Had you ever thought about it?

No time lost, you get just the article you want, withou any worry or delay—and YOU SAVE MONEY a the prices we are selling at—that is the best part of the deal.

We need not go ahead and name our hundreds of bargains. Our line covers the entire needs of the farmer, and we want to impress you with the fact that when you need anyhing, just come righ here and you will find it. We have it for you, and we are looking for you to come after it.

Clanton Mercantile Co.

"THE BIG BARGAIN HOUSE"

Clanton, Alabama.

Summer School at Clanton

Six Weeks Term— From June 5th to July 14th.

Subjects Taught—All branches pertaining to teachers' certificates and high school curriculum. High school students will be permitted to make up subjects.

Faculty—Two Auburn men with masters degrees, with considerable experience, Faculty not yet complete.

Board—Three to three-fifty per week in private homes.

Tuition—Seven-fifty for entire term.

Eight weeks session for sufficient demand.

For further information, address CLAUDE R. WOOD director of session, Clanton Ala.

MOCK TRIAL

There will be a mock trial at Collins Chapel Saturday night, March 18.

Defendant charged with cold blood murder. Attorneys for the defendant are, Herbert W. Lowery and T. Akins Mims, for state, J. Edgar Barrett and Cleveland T. Jackson.

Every body is invited.

NOTICE.

If your letter you wrote has failed to appear in the paper, please just be patient. We are crowded these days of much politics, and have to omit somebody's letter every week. We will get to all of them some time.

PUBLIC SALE.

By order of the Board of County Commissioners, I will sell at public auction for cash, in front of the court house, on Saturday, March 18, the following articles:

One water tank and tower complete.

One two horse power gasoline engine complete.

One two horsepower electric motor.

All piping and connections belonging to said outfit.

DEATH OF MR. DOBBS

Last Wednesday morning about 9 o'clock God saw fit to call Mr. B. F. Dobbs from his home to the great beyond. He was about 66 years of age and had been sick three months, but bore his pains and sufferings very easily. Every thing was done to restore his health, but God knew best.

Mr. Dobbs was not a member of any church, although it seeemed since he had become afflicted and knowing his condition had come in close contact with God and was serving Him, saying he was ready and willing to die.

He will be badly missed in our community, for he was a good neighbor, always ready to help others when they needed help.

He leaves a father, several brothers and sisters, a most devoted wife and a great number of other relatives and friends to mourn his loss. Our greatest sympathy goes especially to his dear wife. But weep not dear ones for he is not dead, asleep only, waiting for the day to meet you at the throne of God and welcome you where there will be no more pains and no more good-bys. Oh! if we all realize our time will come soon or late and be prepared, we would also be ready and waiting to meet the loved ones that have gone on before us.

His remains were laid to rest at Pleasant Grove cemetery Thursday morning. Funeral services conducted by Brother F. A. Gibson.

When our dear ones from us are gone.
We will always love them still;
They leave a vacant place in our home
Which no one can never fill.

SALLIE E. POPWELL.

PINEDALE

Health of this community is very good at present.

Our school is progressing nicely under the management of Rev. J. H. Popwell.

Miss Emma Lee Mims and some more of the young folks around here went to lock twelve Sunday and reported a nice time.

Miss Mary Lowery spent Saturday night with Miss Emma Lee Mims.

Mr. J. M. Dubose will fill his regular appointment at this place the third Sunday.

Five Facts You Should Know

(1) That disease is the result of a disordered condition.

(2) That when we correct the disordered condition, we eliminate the disease.

(3) That the blood is the carrier of poisons throughout the body.

(4) That to successfully treat any disease originating in the blood, we have to treat the blood, as the cause.

(5) That S. S. S. is the most reliable remedy for removing impurities from the blood.

USED FOR 50 YEARS SUCCESSFULLY

S. S. S. is no experiment of today, but is a successful remedy for the blood that has been a blessing to thousands of sufferers for the last fifty years. There is nothing mysterious about S. S. S. It is an extract from native herbs, roots and bark, each known for its peculiar medicinal value. These ingredients combine and act in a beneficial and helpful way with nature. It doesn't matter whether your case of blood trouble is one of the many forms of Rheumatism, or Catarrh, Scrofula, Contagious Blood Poison, chronic skin trouble, or any other form of blood trouble. S. S. S. will go directly to the seat of the trouble; giving the blood a thorough cleansing, driving out the impurities in a natural way, and leaving the blood pure and refreshed, ready to do its full duty in building the tissues up to a normal and healthy state. Begin today on a bottle of S. S. S. and note how soon you will begin to feel relief. We will gladly give special advice and free consultation. If you are in doubt about the nature of your case, write Medical Department, Room 73, THE SWIFT SPECIFIC COMPANY, ATLANTA, GEORGIA.

TWELVE GOOD REASONS FOR RAISING MORE LIVE STOCK

Some of the reasons why corn belt farmers should raise more live stock are the following:

1. Because it will pay.
2. Because the country needs more meat.
3. Because the soil needs more fertilizer.
4. Because the raising and feeding of live stock on the farms enchances soil fertility. Soil fertility is the foundaion of agricultural prosperity, and ayricultural prosperity is the basis of general prosperity.
5. Because neither corn prices nor land values can be maintained without the raising and feeding of live stock on farms.
6. Because live stock utilizes farm waste and turns it into money.
7. Because live stock condenses values on the farm; can walk to the market or shipping point; can be transported and marketed at less expense, and realizes greater net returns than any other farm products.
8. Because the market demands younger animals for slaughter.
9. Because pure-bred stock is selling at relatively low prices, and those who stock up first and stay in longest will reap the greatest rewards in imqroved herds and more profitable returns.
10. Because association with domestic animals on the farm is essential to the right development of the character and practical knowledge and ability of children.
11. Because the presence of live stock inspires a love for the farm and tends to prevent desertion of the farm for the city.
12. Because it is every farmer's sacred duty to leave the farm in at least as good a condition as when he found it, for use by future generations, and this he cannot do without the fertilizing elements furnished by live stock.—Farmers Home Journal.

Miss Hattie Rowell of Atlanta will assist Mrs. Clara Mullins at the Cash Millinery Store this spring and summer.

SELL TREES

We can offer a good proposition to one reliable man in every county to sell trees as a dealer. Some of our men have been with us over 25 years.

The work is pleasant, permanent, profitable. Outfit free. Cash advanced on orders. Particulars on request. Give three business men a reference.

J. VAN LINDLEY NURSERY CO.,
Box 11, POMONA, N. C.

EVERGREEN

Every thing is alright in this community just now, every body fixing land to plant corn just as fast as they can.

Our Sunday school at Floyd church is just fine, 90 present last Sunday. We have got our organ for the church and are going to have singing every Sunday afternoon.

We are glad to say that Mr. Blan and family are visiting in this community.

Mr. B. C. Ledbetter and family are visiting in this community.

J. M. Williams and wife from Enterprise spent last Saturday night at W. S. Beaird's.

Some of the boys from here went to Clanton Saturday to stand the examination for the new Rural Route from Verbena. That is with them like it is with our candidates some one is going to get beat, so they are not going to fuss over it.

Now we are expecting to see after our men who have ask for office until election is over then we expect them to see after us, or at least the welfare of Chilton county to the best interest of the poor working man.

I saw in last week's paper where Mr. G. W. Scott said something about the reply to Mr. Oliver. I want to say that if Mr. J. Bice got such a licking with a personal letter as I did we both read something more than commending, but I answered my letter with much pleasure, so come on boys and lets work the roads the same old way and write long letters and good ones to the Union-Banner.

W. S. BEAIRD.

MARRIAGES

Luther Nations and Miss Roberta Hudman.

Lindsey Cleckler and Miss Dovie Edwards.

O. L. Mims and Miss Glennie B. Thompson.

Colored—Douglass Kitt and Rosetta Parker.

PLAY AT THORSBY.

"Leap Year in the Village", a highly entertaining comedy, will be presented at the Thorsby Institute Friday evening, March 17, at 8 o'clock by the Verbena Dramatic Club. The proceeds of the entertainment will be devided between the schools of Thorsby and Verbena.

The play with several vaudeville numbers has been given at quite a number of towns in Chilton County and all who have attended have pronounced it a success and well worth the admission fee.

Those who are interested in the development of schools in Chilton county are urged to attend.

S. L. GIBSON.

Doctor Gragg, who is taking a post graduate course at Tulane University in New Orleans, was back home for a few days this week with his family. The doctor announces the opening of offices in the Empire Building, Birmingham, about May 15th.

FREE SPRINGS

Health of this community is very good at present. Farmers are beginning to prepare to plant, but we believe this community will not risk too much cotton.

The exercises given by our school on last Thursday night were excellent. The patrons and the teacher were gratified by the splendid presentation of each pupil's part.

The singing at Mr. Tom Splawns last Saturday night was enjoyed by all present. Among those who attended from this community were W. H. Raybon, Clyatt Prim, Miss Ethel Prim and Miss Lexa Brown.

Miss Annie Payne of Siluria was a very welcome visitor to our community Saturday night and Sunday.

Mr. Frank Sims of Siluria was shaking hands with old friends here Sunday.

Next Sunday afternoon is the regular singing afternoon here and we hope that everysinger and lover of music in reach of this place will come.

THANKS

The Verbena Dramatic Club, which presented "Leap Year In the Village" last Friday evening at the Clanton High School, wish to express appreciation for the delightful manner in which the Clanton ladies entertained the Club after the presentation of the play. A delicious luncheon was served and thoroughly enjoyed by the members of the Club.

S. L. GIBSON.

The Coming Baby! Hooray! Hooray!

Nothing else can so completely endear us to the present and the future as the expected arrival of a baby. But in the meantime the comfort of the mother is of vast importance. There is a splendid external remedy known as "Mother's Friend" which exerts a wonderful influence upon the expanding muscles. They become more pliant, stretch without undue pain, make the period one of pleasant anticipation instead of apprehension. In a series of splendid letters from all over the country mothers tell of the great help "Mother's Friend" was to them. Even grandmothers tell the wonderful story to their own daughters about to enter the state of motherhood. Get a bottle of "Mother's Friend" today of your nearest druggist.

It should be remembered that this splendid remedy is for external use only. Great care should always be exercised in using medicine for internal use. And it may be safely said that by the daily application of "Mother's Friend" there will be such ease and comfort as to rid the mind of the notion that internal medicine is necessary during this momentous period of expectancy. "Mother's Friend" is recommended by a host of women.

Use this splendid help with your own hand guided by your own mind. For a free book of interest and importance to all mothers write to Bradfield Regulator Co., 709 Lamar Bldg., Atlanta, Ga. It relates the personal experiences of many happy mothers, it tells many things that all women should be familiar with; it is a once a guide and an inspiration. Write for this book.

Uses and Abuses of Fertilizers

By Prof. R. J. H. De Loach, Director of Georgia Experiment Station.

2. INTELLIGENT USE OF FERTILIZERS IN GERMANY.

The Second of a Series of Six Articles.

All state institutions have fostered the fertilizer trade since its origin in the early fifties. State organizations of all kinds have taken a lively part in the building up of the trade, and in later years the states have taken it for granted that the trade is profitable to farmers and merchants alike, and have therefore framed laws to regulate its manufacture and sale. In every state where fertilizer is sold in appreciable quantities laws have been passed exacting certain requirements of the manufacturer, as to analyses, grades, etc. Besides the trade, over-ambitious, might forget its obligation to the consumer and offer for sale inferior material under the name of fertilizers. We may say without fear of successful contradiction that the states themselves are largely responsible for the rise and volume of the fertilizer trade.

It has long been recognized that Germany leads the world in many lines of science. This is perhaps true in regard to the use of fertilizers in early years. Germany discovered that mineral salts applied to growing crops increased the yields immensely, and gave time and study to the underlying causes, and has suggested to the other parts of the world many valuable lessons on her findings. Von Liebig, through his studies and lectures on modern agriculture, has made known much of the work of Germany in the early history of the use of commercial fertilizers. Liebig says that Kuhlman, a German agricultural scientist, applied salammoniac to a meadow in the years 1845 and 1846, and found that on a hectare (2½ acres) he gathered 8,140 pounds of hay more than on the same kind of meadow where he did not use the salammoniac. He secured this result by using about 200 pounds of salammoniac to the acre.

In commenting upon this Von Liebig has the following to say: "It is quite certain, that in the action of the guano, which produced the crop next highest after the Chili saltpeter, an unmistakable part was played by the ammonia contained in it. On the other hand, however, the experiments with carbonate and nitrate of ammonia show that a quantity of ammonia, or nitrogen, equivalent to that in 20 pounds of guano and employed under the same conditions, was almost without effect."

Fertilizer Experiments In Germany.

A little further along he says: "The most recent observations on the comportment of the soil towards the food of plants show how slight is the knowledge we possess of their mode of nourishment, and of the part which the soil, by its physical condition, plays in it. The comportment of the salts of ammonia, of chloride of sodium, and of nitrate of soda, towards the earthly phosphates in the soil, may perhaps assist us in throwing some light on their action, or one of their actions, on the growth of plants." This statement was made because it was always found that when common salt was added to certain mineral manures, greater yield was obtained, and Von Liebig came to the conclusion that this was due to the relation of this added material to the liberation of potash in the soils.

Only a short time after the war between the states the German potash beds were discovered and by rapid leaps and bounds this material gained in favor with planters as well as experimenters. The necessity for finding a combination to liberate the potash in the soils was now removed and thorough satisfaction was found in the use of the nitrate of soda and the potash salts, and here the industry stood for a long time. Liebig does claim, however, that Tribasic phosphate of lime crept into the formula and was found efficient. This fact is very significant and happened to be discovered by a constant study of the use of the nitrate of soda and potash salts. Liebig thought that these two plant food materials had the power of dissolving phosphoric acid in the form of earthly phosphates, and these in turn added greatly to the yield of farm crops.

Germany's Crop Yields Greater Than Other Nations.

We have here many hints of what afterwards really developed to be facts—namely that the three great elements of plant food that should be applied to the soil for good crop yields are phosphoric acid, ammonia and potash. For many years these three elements have been the essential elements of plant food in a fertilizer formula.

Today Germany applies more mineral salts per acre to her crops than any other nation in the world, and partly as a consequence gets higher yields of farm crops than any other nation. It is significant that these two facts are so closely related, but it must be remembered that Germany has learned the lesson of good tillage—deep plowing, the proper use of vegetable matter in the soil, and the dangerous practice of continuous cropping with any single crop. It is also to be remembered that the lands on which the most money can be cleared without any kinds of fertilizers are the lands that will give greatest profits with fertilizers.

Our Best Club Offer:

From now until the first of April we will give the Union-Banner a year and The Progressive Farmer 6 months, for One Dollar.

Send in your renewal if you are behind and get advantage of this offer.

CLOSING PROGRAM IN BABY WEEK CALENDAR

Health and Prize Contest of Babies at Court House on Saturday.

As a fiting climax to the various celebrations of baby week in Clanton and Chilton county by the different womens and civic clubs, a general meeting of this character was held for all he county at the court house Saturday.

Fifteen babies were registered in the showing and they were the finest of specimens. Dr. T. J. Marcus, the County Health Officer, and Dr. Sam Johnson made addresses to the mothers on different phases of the better baby movement.

The ladies in charge of the show were Mrs. Pinckard, Mrs. J. C. Jones Mrs. B. M. Roberts, Mrs. Spigener, Mrs. Tipton Mullins, Mrs. Pickens, and Mrs. Sophia Courtney Jones.

Mr. P. C. Smith gave a prize box of candy o each mother who presented her baby for the show.

The Thorsby Band assisted the ladies in the event. They played for the ladies in front of the court house before the meeting was opened, and drew a large crowd.

All the past week the womens clubs of the city have been devoting much attention to the better baby movement, making a full and fitting observance of Chilton county's part in the great nation-wide movement.

The city and county is proud of the local interest that was shown by the ladies. Their efforts will certainly grow into much good hereafter. A grea amount of valuable instruction was given the mothers in the care of infants.

Prizes were awarded the babies in the contest, to those making he best averages in health and physical accomplishments.

The speaking was closed by Mrs. Callen, in an earnest plea for pure food for infants. She made a very pointed appeal for tick eradication in the ineres of those babies who are compelled to be nurtured on cow's milk.

At the close of the program Drs. Marcus and Johnson examined all the babies that had been entered in the contest for prizes. Two prizes were offered. One for the best baby in Clanton. and one for the best baby in the county.

Mr. and Mrs. H. L. Olinsky were awarded the prize for the best baby in Clanton; Mr. and Mrs. Sidney L. Gibson of Verbena won the prize for the best baby in the county.

ALPINE.

The most successful school we have ever had at this place closed last Friday. Prof. H. G. Carter was teacher. Superintendent Bean was with usand gave an interesting talk on education. After the lecture the school improvement asociation served a box supper, realizing $8.10 proceeds.

The school met the next morning in club work and had Prof. Bean to talk to them in that line.

We had a nice singing at thechurch Sunday given in honor of Prof. Carter, which was enjoyed by all. We had several excellent leaders from Mr. Carter's home class.

Mr. Carter left Monday for Marble Valley, where he expects to attend a school. We regret his departure, and hope he will return to us some day.

He will probably teach us a singing school this summer.

We have the best tools and know how to work on your car when it gets out of order. Bring it around. Maddox and Hurtt. adv.

SUNDAY SCHOOL MEETING FOR THE FIRST DISTRICT.

A special session will be held with Union Grove Sunday School at the Union Grove church, three miles to the east of Jemison, on March the 26th, beginning at two o'clock, p.m.

2:00 p. m. Devotional exercises by Prof. R. A. Smith.

2:15. The International Sunday School work, by County President, W. E. Thomas.

2:45. How to interest those in the teen-age, by Miss Madge Cooper.

3:00 Reports from the Sunday Schools and marking up the district chart.

3:15. Lecture by Rev. Howard Roper.

The music will be conducted by Prof. Glass. All schools in the first district are requested to send delegates.

J. B. NORTHCUTT.
MISS ADDIE HORSLEY.

COLLINS CHAPEL.

Health of this community is fairly good at present.

We are having some nice weather this week. Plowing and road working is all the go.

We all had a nice time at the singing here Sunday afternoon. We had with us the leaders: Mesrs. Milstead from Texas, J. L. Harris and R. A. Smith.

Simuel Mims was out Sunday with his new Ford.

Tom Rockett of Coopers and J. D. Collins of Clanton were in this community Sunday.

We all think Mr. Rockett is a fine man, and believe he would make us a good Commissioner.

Doctor Robinson and daughter, Bessie, and Lessie Mae Dorminey were at the singing Sunday afternoon.

Messrs. Simuel Mims, Raymond Marcus, Akins Collins and Miss Genie Collins dined with Misses Ada and Flossie Burnett Sunday.

Prof. J. L. Harris went to eat a chicken with J. M. Mims Sunday.

Jack Robinson and Miss Nora Mims and Monroe Benson and Miss Mollie Murrah went to Jackson's Chapel on last Saturday night.

MACEDONIA.

With only slight exceptions, the health of people in this community is good.

Mr. Will Hinton's baby is ill.

Rev. W. W. Robinson filled his regular appointment here Saturday and Sunday.

W. V. Robinson and family of near Mineral Springs spent Saturda night with J. Mat Mahan.

People down here are beginning to farm some. "Gee" and "Haw" is about all you can hear.

Miss Eufaula Mahan has returned home.

Mr. and Mrs. T. L. McKee attended services at the dam Sunday.

The services at the dam were conducted by Rev. Jim DuBose.

NOTICE.

The next general meeting of the Chilton County Association will meet with Center Hill church, two miles west of Jemison, on Saturday before the fifth Sunday in April, 1916. Any one having a subject they wish discussed wil please send it to T. J. Deason, as early as possible. The brethren will take due notice, and govern themselves accordingly.

T. J. DEASON.

Miss Bertha Smith has returned to her home after several days in an infirmary in Birmingham for appendicitis. She is doing well.

Subscribe for The Union-Banner. Don't depend on borrowing it from your neighbor every week. Only $1 a year for all the county news.

UNION SPRINGS.

Chilling winter still lingers with us.

The fertilizer question is at a low ebb in this part.

The people seem to like Mr. Rockett's letter in the Union-Banner well. His idea of not going beyond our income is good. There is nothing like cash, either in the county treasury or at home.

Mr. Redding visited in Bibb County Sunday.

Mr. and Mrs. J. L. Smith visited at Mr. Armstrong's Sunday.

Prof. Mullin's school will close on the 14th. He has taught us a good school; furthermore he is a live up-to date young man, and a true friend to good morals as well as education.

Miss Modene Waldrup, one of the belles of Beat 2, visited here Sunday

Henry Davenport's child was very sick last week.

Mr. and Mrs. Cofer visited at Mr. Crompton's Sunday.

It seems that there is quite an interest in the county educational board. Good! We don't know all the candidates, but we know that Bilingsley Foshee, Cobb and Dorminey are men of merit.

Mr. Vance's letter on the road question was good.

Let us not fail to educate in the home, school and everywhere. The people need it so much. So many think there is nothing to live for except to spit tobacco juice, blow out smoke, eat and sleep.

In last Sunday's lesson we get the thought the ancient worthies will only get earthly promises, and yet how great! Princes in the earth, eternal life. While the offer to us is Heavenly rewards, immortality, etc; some thing better.

Z. J. JONES,

SWEET POTATOES—I have the Triumph, Yams and other varieties of sweet potatoes for sale. 85 cents a bushel at home, or 90 cents delivered. Guaranteed sound. W. O. Durbin, Clanton, R.3. adv.3-16-2t.

AUTO RENT SERVICE—Car for rent day or night. Headquarters at Clanton Mercantile Co. Call for Alvin Jones.

Remember that dollar you owe us on your subscription. We have just made some improvements in our printing plant, and are depending on you to help us out with our burden by paying up your back dues. Don't forget us when you come to town.

LEGAL NOTICE

Hon. H. A. Harris, Sheriff of Chilton County, Clanton, Ala.

Dear Sir:

No U. S. Internal Revenue License have been issued to your county in February 1916.

I hereby certify that I have carefully examined the record of the collector of Internal Revenue and the above is complete and correct.

Yours very truly,
SAM P. JONES.

Sworn to and subscribed before me this first day of March 1916.
J. B. MOSLEY,
Notary Public.

NOTICE—I buy scrip and warrants of all kinds. See me ifyou have any to sell. G. O. FOSHEE Clanton, Ala. adv.

FOR SALE—A good second-hand up right Piano at a bargain. Apply to J. R. Mullins, Clanton, Ala.

FAIRVIEW.

There will be a school entertainment at this place on the evening of March 17th, at eight o'clock. Admission fee will be 5 cents for children and ten cents for adults. Proceeds will be used for the school. Everybody is invited.

MINERAL SPRINGS

Health of this community is good at present except colds.

Our school is still fine, but will be out in about three weeks. We are sorry to see our teacher leave us.

Miss Icie Dupriest visited Miss Eva Retherford Saturday night.

Misses Willie and Inez McKee spent Saturday night with Mrs. T. G. Robinson.

Mrs. Hixie Giles visited Mrs. G. O. Smith Saturday night.

Mr. Archie Dupriest is in Texas now.

Miss Blanch Retherford spent the night with Miss Lilla Littleton Saturday night.

Mr. Stephen Hilyer and wife spent Saturday night at J. M. Dobb's.

Mr. Andrew Davis and family spent Saturday night with relatives below Clanton.

Mr. Riley Blow and wife spent Saturday night with Barney Littlefield.

Mat Davis and wife visited his father Saturday night.

The fruit supper at Mr. J. R. Pearson's Saturday night was enjoyed by a large crowd.

There will be a debate at this place next Friday night, March 17, 1916. Come over and enjoy yourself.

There will be preaching here Saturday night and Sunday by Rev. Archie Baxley.

Mr. C. B. Cox realized the loss of about sixty thousand feet of lumber Sunday morning by fire.

Yes, James Robinson realizes that his father is boss, feeling the effects of a steel square the other day, but he says that he is satisfied for it was a square deal.

Wishing the dear old paper success.

Don't forget your subscription to The Union-Banner. We need the money.

John Patton of Jemison was down to Clanton last Saturday.

We can repair most anything but make a specialty of reparing Fords. Maddox and Hurtt. adv.

J. Stealey Jones of Mt. Creek was here last Saturday.

FOR RENT—Building formerly occupied by Union-Banner office next to court house. Apply to the Union-Banner.

D. M. Apperson of Maplesville was in attendance at the meeting at the court house Saturday.

Notice—I will pay cash 13 cents a pound for fresh country butter on Mondays and Saturdays. adv. W. W. Carleton.

"Leap Year in the Village," a highly enjoyable comedy, was presented by the Verbena Dramatic Club before an appreciative audience at the high school auditorium on last Friday evening. The vein of humor in the play was at times intensive, but pure and wholesome throughout. The characters were all well suited to their parts. The trials of "Mr. Brown" resultant from his being the only available beau, and his many leap year matrimonial proposals, produced situations that were extremely ludicrous, which kept the audaughter. The negro preaching, and singing and dancing were executed by an artist who enjoyed a full share of the applause. "Mother Mine," aroused the deepest pathos. Each of the musical numbers were good. The enertainment in its entirety was a marked success, and Verbena stands justified in the pride hat she evinces over this dramatic talent.

As Clanton's guests, the Verbena party were served light refreshments before and after the entertainment. Thanks to the generosity of the New Orleans Coffee Company, through its traveling salesman. Delicious hot coffee was served, made from one of its well known brands. A quantity of it will be installed in the Domestic Science department of the school.

Squire Waldrup of Jemison was here at court Friday.

POTATO PLANTS—For sale, the Nancy Hall, improved yellow bunch yam, dooley yam, and Porto Rica; 1,000 plants, $1.75; 10,000 at $1.50 peer 1,00; seed potatoes used are improved by hill selection, and plants well hardened before shipping. Will begin shipping April 20th. J. L. WINSLOW, Thorsby, Ala. Adv. 2-17-8t. pd.

"Paint My House, Too"

The spirit of neighborhood improvement fills the very air. The glad, bright colors of spring have replaced the somber hues of winter. Grass is green—flowers are springing into glorious bloom. Nature is providing a beautiful setting. Is your house in harmony—or do the fresh-looking surroundings only serve to emphasize its dullness? Does it complete the picture—is it well painted?

Now's the time of all times to dress up your home in fresh, new colors. The first essential in home improvement is good paint, and the paint that you can depend upon to be good is

Lowe Brothers HIGH STANDARD LIQUID PAINT

You take no chances, you know exactly what the contents of every can of "High Standard" will do. Forty years of experience and countless exposure tests have made this knowledge definite. Chemical analysis of the raw materials and thorough machine mixing insure a uniform product.

You get in "High Standard" a paint that works easier, and spreads farther than cheaper paints—a paint that hides better and protects better the surface of your building—a paint that does not fade, that holds tight to the surface in perfectly protecting coats—that fails only by gradual wear and leaves a good surface for repainting

It actually costs less to use this better paint and get its perfect protection. It goes so much farther—and it lasts so much longer on the building that its use is true economy. Ask us for an estimate on your paint requirements.

Clanton Hardware Co.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts As Dynamite on your Liver.

Calomel loses you a day. You all know what calomel is. Its mercury, quicksilver. Calomel is dangerous. I crashes into your bile like dynamic cramping and sikening you. Calomel attacks the bones, and it should nver be put into your sysem.

When you feel billious, sluggish, constipated, and all knocked out, and believe you need a dose of dangerous calomel, just remember that your druggist sells for 50 cents l a arge bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take, and is a perfec substitute for calomel. It is guaranteed to start up your liver without stirring up inside and it cannot salivate.

Don't take calomel! It makes you sick the next day; it loses you a days work. Dodson's Liver Tone straltens you right up and you feel great. Give it to children because it is perfectly harmless and does not gripe. (Advertisement.)

B. L. Cobb of Jemison, one of the candidates for membership on the Educational Board, was in Clanton Friday.

LOMAX LOCALS.

Rander Jones cut his leg at a saw mill recently.

A crowd from here attended the concert at Mt. Pleasant on Saturday

The singing at A. J. Jones's was night and had a good time. interesting and well attended.

Miss Essie Parker visited her brother near Collins Chapel Saturday.

Misses Essie and Pearl Barrett visited Miss Essie Parker Sunday afternoon.

Miss Ruth Jones visited Miss Lillie Mae Jones Sunday.

Mr. and Mrs. Fletcher Parker visited at A. J. Jones's Sunday night.

Some of the young folks from here attended the singing at Colins Chapel Sunday.

Hill Rotenberry of Jemison was in Lo max Sunday.

Edwin Sundberg of Birmingham visited home folks at Lomax last week.

Calvin Jones of East Chilton spent Saturday night with his parents.

Miss Amie Daniels is at home near here, having finished her school at Corinth.

Harvey Foshee of Cooper was at Jackson's Chapel Saturday night.

Robert Bean and wife of Colins Chapel visited at Fletcher Parker's last Saturday night.

Come on boys and let's make our paper a success and pleasure to its many readers. Best wishes.

THANKS FROM THE LADIES

The clubs of the city wish to thank every one who helped to make of Baby Week a success. Especially do they wish to thank Mr. Smith at the Candy Store who printed the numerous posters placed in public places, and feel deeply gratful to him for taking such lovely interest in this nation wide event. Each mother entering a baby in the perfect Baby contest was complimented by Mr. Smith with a box of candy.

The Ladies also wish to make 'special mention of the courtesy of both the Press and Union-Banner for the unlimited space so generously offered through their respective papers. We do not know how to thank the mothers of Clanton and of Chilton for their loyalty in entering their babies.

POPLAR SPRINGS

The school at this place closed last Tuesday and the Patrons desiring to show their appreciation of the efficient work done by their teacher, Prof. W. C. Scarbrough, met at the school building and spent a profitable day together.

Judge L. H. Reynolds delivered an able address on educational work in the forenoon after which a bountiful dinner was spread by the ladies of the community.

At 1:30 the congregation re-assembled and was entertained for something like an hour by Prof. J. L. Wilson. The speaker especially stressed the inadequacy of the present school system and lastly made an earnest plea for local taxation for school purposes.

The speeches of Judge Reynolds and Prof. Wilson together with the successful work of our teacher during the past session has aroused a genuine educational interest among the patrons of our school.

Mr. George W. Edwards has announced his candidacy for membership on he Educational Board of Chilton county in this issue of the Union-Banner.

Before going on your trip be sure call on Maddox Taxi Co. 2-24-adv.

PRINCE ALBERT

the national joy smoke

is the real tobacco for jimmy pipes and makin's cigarettes

Copyright 1916 by R. J. Reynolds Tobacco Co.

Get a Fresh Start!

For men who got away to a false start on a pipe or home-made cigarettes Prince Albert has a word or two for what ails their smokeappetites!

Forget you ever tried to smoke, for Prince Albert is so different, such a fine flavor, so cool and cheerful and friendly, you'll get a new idea of smoke joy! The patented process fixes that—and cuts out bite and parch!

And this little preachment is also for men who think they're on the right track. All to be said is that the sooner you lay out a nickel for a dime for a supply of Prince Albert, the sooner you'll make a discovery that'll be worth a lot to your peace of mind and tongue!

Get the idea of smoking all you want without a comeback—that's P. A.!

Buy Prince Albert all over the civilized world! Toppyred bags, 5c; tidy red tins, 10c; pound and half-pound tin humidors—and—that classy crystal-glass pound humidor with sponge-moistener top that keeps the tobacco in such fine shape—always!

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made three men smoke pipes where one smoked before!

THE UNION-BANNER

VOLUME IV. CLANTON, ALABAMA, MARCH 23, 1916. NUMBER 51.

COL. ROOSEVELT AND THE PRESIDENTIAL RACE

Ex-President May be Planning to Capture Republican Nomination at Chicago.

NEW YORK, March 15.—The New York Herald prints the following:

"That Theodore Roosevelt is an aggressive candidate for the Republican presidental nomination, and that he stands a reasonably fair chance of getting it, have been brought home with considerable force during the last few days to the Republican leaders of the country.

His refusal to be a candidate in the primaries in Illinoise and Massachusetts means to the Republicans only that Roosevelt will stand a better chance of stampeding the national convention than of winning a great number of delegates in the primary elections. Those who usually express his sentiments declare that, if Justice Hughes declined to be a nominee, Roosevelt is almost sure af running off with the nomination.

"With the nomination convention less than three months off, the party managers are realizing more each day that they are 'up against' a somewhat different situation than has confronted them in many yeares. The only Republicans for whom there seems to be anything like a strong natural sentiment are Justice Hughes and Roosevelt. The leaders—those men who dominated the convention of 1912—do not really want either of them.

"As between the two they prefer Justice Hughes, but they don't know whether, if they turn to him at the eleventh hour, he will accept or decline the nomination. If they let things run along as they are now the party masters believe, and at the crucial moment fail to induce Justice Hughes to be their nominee, they will have Roosevelt on their hands in much more formidable form than he assumed in the last national convention.

His Statement Significant.

"Roosevelt's recent statement from Port of Spain was construed by politicans as his definite announcement that he will make a fight for the nominatioin. In this declaration he made it plain that the people of the country, in his opinion, should choose as their next president, one whose views on the international situation are fixed and heroic."

His are presumed to be both.

Many persons here who have watched developments with a hawk eye, waited for an utterance from Mr. Roosevelt on the presidency, having been led to believe that any statement from him on the presidential situation would be his equivalent of throwing his hat into the ring.

Now it is not doubted here among politicans that he is a candidate, and that other candidates "would better look out." He will return to this country from his West Indian trip about March 23, and his campaign is likely to take definite shape soon thereafter.

His decision to take himself out of all primary elections caused no surprise among politicans. The terrifiic slump in the Progressive vote, as shown by the elections of 1914 and 1915, foreshadowed a very small vote for any primary candidate in 1916.

While the machines are in control of important states, the direct primary system of choosing delegates may prove to be a fly in the "bosses'" ointment. The prairie delegates are not ordinarily as amendable to boss as are delegates chosen by the old convention way.

Hughes Men Still Silent

No one in the last week has come forward with any new statement regarding Justice Hughes' position. A survey of the situation west of Illinoise would indicate that it is about a neck-and-neck race for popular support between him and Roosevelt. It is believed by the leaders that if it were definitely known that Justice Hughes would accept a nomination he would jump rapidly ahead of the field and enlist sufficient strength to enable him to get the Chicago nominiation without trouble.

There is no indication that any Democrat will oppose Wilson for the Democratic nomination. Sentiment among Democrats everywhere seems to favor him. His national defense program has struck a popular cord and the party leaders everywhere assume that he will be renominated practically by acclamation. The only fight in store for the Democrats will come over their platform.

FOR SALE—Early speckled and yokahama velvet beans at $2 a bu. All kind of cowpeas. R. W. Scott, Thorsby, Ala. 2-10-10t-dav.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

LOMAX LOCALS

Health of this section is just fine at present. Farmers are getting along fine with their work.

Mr. Shelly Hicks visited home folks last Sunday.

We are sorry to know that our literary school is out, we were sorry to see Prof T. M. Hammond leave us he has made a great success in his school and we all hope he will come back again.

Quite a crowd of the Lomax boys attended the show at Clanton Saturday night and reported a nice time.

The box supper at Jackson's Chaple Wednesday night was fine in spite of the bad weather.

The mock trial at Jackson's Chaple Friday night was enjoyed by all present.

Mr. J. P. Cost of Pratt City is visiting his old friends in and around Lomax.

Quite a crowd of the young folks gathered at Mr. Fletcher Parker's Sunday afternoon and had a nice time.

Miss Lillie May Jones visited Miss Ruth Jones Saturday p. m.

Mr. and Mrs. Charley Jones and Miss Mary Balon visited the latters parents, Mr. and Mrs. Tom Balon, last Sunday.

Misses Annie Mae Smith and Mary Parker called on Mrs. Annie Parker and her daughter, Essie, Saturday afternoon.

Mr. and Mrs. A. C. Bussie called on Mr. and Mrs. Jack Price Sunday p. m.

Mr. Will Smith was in Lomax last Sunday afternoon.

The singing at Mr. John Parker's Sunday night was fine and enjoyed by all present.

Mr. John Sundberg of this place has gone to Birmingham to get work, we wish him much success in finding work to do.

Mr. and Mrs. Terrill Bussie and Mr. and Mrs. Willie Nix were in this community Sunday.

Mrs. E. S. Chasteen and her two little girls of near Liberty spent last Thursday with the formers parents, Mr. and Mrs. A. J. Jones.

Rev. J. T. Daniel will preach at Jackson's Chaple Sunday at 11:00 o'clock, singing at 9:00. Everybody come and lets make it as pleasent as we can.

UNION GROVE

Health is good here at present except bad colds.

Sunday school at this place is progressing nicely, we wish to have a larger crowd with us next Sunday.

Mr. Reuben Jackson and Julius Smith were visitors at this place last Sunday.

We are glad to have Miss Maud Bratton back in the community with us again.

Mr. C. H. Robinson and family were visitors here Sunday.

The Thorsby basket ball team and Union Grove team played an enteresting game Saturday afternoon which was enjoyed b ya large crowd. The girls of Jemison and the girls of this place played a game last Friday week. The Union Grove girls went to Pleasant grove last Saturday week and played a game out there,we wish to thank the girls out there very much for their kindness.

We are very sorry to say that our school lasts only two weeks longer.

Some of the young folks from here went to Mineral Springs Saturday night.

Miss Bessie Robinson spent Sunday with Miss Bessie Chandler.

Miss Lessie Robinson spent Sunday afternoon with Miss Mae Dorminy.

Mr. Will Vinzant has moved back from Clanton to his old home community.

Dr. A. A. Conway and wife spent Saturday night and Sunday with the latter's parents.

With much success to the Union-Banner and its many readers.

MINERAL SPRINGS

Health of this community is very good at present.

The debate here Friday night was enjoyed by a large crowd.

Mr. P. J. Eikland of Minnesota was the guest of Mr. Jim Collins.

Mr. W. T. Blan and Mr. J. D. Collins were in this community Sunday.

Mr. Edie Smith and wife spent Saturdaynight with Mr. G. O Smith.

Rev. Archie Baxley of Coosa county delivered an excellent sermon here Sunday. We were glad to have him with us.

Mr. Jim Collins is preparing the Springs for an ideal resort this summer.

Some of the young folks of this community went to Collins Chaple Sunday night and report a nice time.

MUSICAL PLAY AT THORSBY MARCH 25TH.

"A Dress Rehearsal for Cinderella" the Musical Farce which was prepared for last Commencement, but not given, will be given Saturday night, March 25th, at 8 p.m. by the girls of Thorsby Institute. Admission 15 and 25 cents.

The play presents a number of High School girls in the act of holding a dress rehersal for a play, "Cinderella" which they are planning to give, when they are surprised by a visitor, who mistakes Cinderella for a real "poor pupil" whom the other girls are mistreating. Many humorous situations develop. The play is a combination of good music, fun and interest. Those who miss it will miss a good time.

The Union-Banner a year; and The Progressive Farmer 6 months, both for $1.00, if you send in your subscription at once.

BICE CAN'T QUIT! WRITES ANOTHER LETTER

Editor Union-Banner:

Please let me have space in your paper for this one more letter and I will promise to not trouble you again soon, as I do not wish to become obnoxious and worry the people with my letters, but I wish to say a few things in regard to Mr. Cooper's letter.

I am glad he has defined himself as to giving the county's money to high schools. I judge from his letter he would have done the same as was done if he had been one of the commissioners as he thinks they did a good thing in giving the $5,000 to the high school. Now Mr. Cooper, you are sadly mistaken when you say if it had been left to the tax payers a majority would have voted for it. At least 90 per cent were against it and are against it now. I believe I am as much interested in good schools as any one. I have some interest in all school bulidings in this neighborhood and I think the $5,000 of the county's money paid for the high school building was a sad mistake and some day will prove it, suppose this money had been divided up amongst the rural schools of the county all could have had a nine months school and the poor farmers would feel good over it and everyone would have been satisfied and it would have put many stars in the crown of the commissioners, but the poor farmer must supplement and then get about five months school, but the state and county can take the money that the poor farmer works for and give o those who are better able to pay for their schooling.

I want to say education means a good deal more than book learning, the most of crimes are committed by people who have book learning. The Bible says "thou shall not steal".

I dont know how many high schools the state has built, but it agreed to build one in each county, lets see what that will cost the state, say the state pays out for each school $15,000 multiply that by 65 and you have $975,000. What a nice sum. Suppose this was donated to our rural schools instead of the high schools, we could have nine months free school every year and would soon wipe out illiteracy that has created so much talk and we would still have all the high schools that are needed for the people. Our high schools as a general thing are not prosperous, and why? Because they do not have pupils enough. It seems to me that our officials, both county and state, are putting the cart before the horse. What need have we for a high school building until we have something to fill it up? First give our children a common school education in the rural schools, then you will have something for the high schools. You are robbing the poor people of a common school education trying to make the rich richer and then crying out illiteracy, saying Alabama is way down toward the bottom of the ladder in ed ucation. Can we build a house before we get the material? Give the money to the rural schools, prepare the pupil for the high school then the high schools will take care of themselves without the aid of the state or county.

As to the county high school in Clanton, we all know it will only benefit Clanton. Before it was built the cry was that it was a free school. I wish some of the pupils would tell us how free it is. I understand you pay $18 for board. You can get board, tuition and laundry in Thorsby for $12, and incidental fee less than at Clanton and we dont get any money from the county or state either.

Now Mr. Candidate, one and all, I am asking you to define yourself on all these questions regarding the county's money. Give us your platform and then if elected stand by what you promise. I for one will vote against and use all my influence against all who favor paying money on high schools or any other new thing that may come up such as building highways etc., until you have the voice of the people.

If I should go to the next Legislature I will introduce a bill to sell every high school building the state has any interest in.

J. BICE.

NEW SALEM

Health of this place is not so very good this week, several have been on the sick list.

Mr. Jim Caton's small daughter, Myrtle, has been on the sick list but is better now.

Mrs. John Sundberg is spending a few weeks with her parents, Mr. and Mrs. Alfred Collins.

Mr. Hubbard Collins has gone to Ensley where he is at work.

Our Sunday school sure is on the drag. Come on boys and girls and lets make it a success.

Miss Virgie Caton spent Sunday with her mother, Mrs. Molie Martin.

We are sorry to say that Mr. Claude Deason lost one of his fine mules Friday night with colic.

Miss Elveria Sundberg has been away the past week visiting friends. She returned Sunday night, we are glad to see her back. She reports a nice time.

Mr. John Caton took dinner with Mr. E. L. Sundberg Sunday.

We are sorry to say that Mr. and Mrs Easterling are going to leave soon for California where their children live, but we wish to welcome Mr. Johnson's family who bought their farm.

Mrs Anna Sundberg visited friends at Strassburg Sunday.

COUNTY TOMATO CLUB WORK

As we haven't the eyes of Argus we take this method to introduce and extend the welcome hand to Mrs. Lida Jones, he head of the Chilton County Tomato Club Work.

Mrs. Jones is not a novice, but is a lady peculiarly fitted for this broad field of endeavor, having served as Missionary of the M. E. Church in this state for fifteen years, and has for some time ben in training in Domestic Science, Home Economy and Sanitation.

Having acted as Librarian and Chaperone in the Woman's College, she is in sympathy with our young girls needs and efforts.

Mrs. Jones will have her office in the front jury room up stairs at the court house.

Her cabinets will be filled with Agricultural and Horicultural Magazines and Bulletins. Home economical devices will be on exhibition in her office at all times. "Uncle Sam" is quite generous and mindful of your needs to establish this bureau of expert information right at our dor.

Our County papers are co-operating in this uplifting movement by giving ample space for articles from this bureau each week.

Write to Mrs. Lida Jones for information pertaining to farm life. When in Clanton drop into her office for latest bulletins.

MAPLE SPRINGS

Health of this community is doing fairly well except Mr. Hewey Hayes, who has been on the sick list for some time but we hope for his speedy recovery.

Rev. M. J. Parrish filled his regular appointment here Sunday and preached a fine sermon.

The singing in the a. m. was a great success.

Mr. Louis Wright and family spent Saturday night and Sunday with Mr. Elijah Devaughn.

Mr. Alphis Wilson and family from Maplesville spent Sunday night and Monday with relatives and friends near Clanton returning home Monday afternoon.

There will be singing at this place Sunday afternoon. Everybody come and bring some body with you and lets make our singing entertaining, also the Sunday school literature will be given out Sunday. We have organized our Sunday school again and hope it to be a great success.

YOLANDE

Editor Union-Banner:

Please allow me space in your dear old paper to say a few words.

Work around this place is better, some coke ovens that have been dead for some time have come to life again and the coal miners of this place enjoyed another pay day once more.

Well boys, getting down to brass tacks, I see where there are a number of candidates for office on the Democrat ticket. I don't see where a Democrat can do anything now with an office of our county and the clerk's desk and safe piled full of bonds and a "busted" treasure. It is not more bonds and highways that the people of this county need to look for, it is more back bone in the court house, and when you get that our county will improve, and then when a man brings a bill in against the county it can be paid off and as the claim holder goes on his way he can say, "Our county is improving." And when you question the judge and find out what he is he will be a Progressive, having used some of J. N. Scott's salve.

I notice Mr. Chas. Cooper had a good article in last week's paper. Come on Mr. Cooper.

With best wishes to the Union-Banner and its many readers.

The Union-Banner a year, and The Progressive Farmer 6 months, both for $1.00, if you send in your subscription at once.

ORDER FORPRIMARY ELECTION

The Executive committee of the Progressive party of Chilton county, in session at Clanton, on January 19, 1916,ordered a Primary Election to be held on May 9th, 1916, for the nomination of candidates for the various offices to be filled at the next November election.

Progressive Ex. Com.
M. D. FOSHEE, Sec'y.
Clanton, Ala., Feb. 23, 1916.

THE CHILTON COUNTY HIGH SCHOOL NEWS.

—BY—

JEAN WYATT, Editor.

Calvin Parrish has re-entered school as a member of the Sophomore class.

Monday was runts' and red-heads' day at the C. C. H. S. Mr. Scott the photographer, came down and took their pictures, which will be printed in the annual.

We are glad to announce that Reuben Lowe is able to be back at school again, after a brief sickness.

Ed Teel says he wishes they would take pictures at the school house every day, so his mother would let him wear his new suit all the time.

The boys are doing much enthusiastic work in the school garden. If they continue to work as they have started, they will very likely have the stumps taken out of it in time to plan a late variety of legumes at least.

The time has finally arrived when every student at the Chilton County High School knows exactly what the teachers mean when they say "twenty-five demerits."

Dr. W. L. Parrish, who is at home for a few days from the study of medicine at Auburn, visited the school garden boys Monday evening.

Elleanor Dickinson, upon being asked to hurry up a little, when at the board replied, "I make good money by being slow. Mamma won't let me help her work because I am slow.

Omar Reynolds is very noted in poly-ticks. But here of late he seems to be especially fond of them. The girls say they found one on his coat the other day.

WEEKLY LETTER FROM EDUCATIONAL DEPT.

Supt. Discusses Need of Trained Teachers in our Schools.

One of the facts brought before the educational leaders of Alabama at teachers' institutes is the lack of trained teachers to carry on the educational work of the state. Real competent, enthusiastic leadership is what the public schools of Alabama need perhaps more than any other one thing. It is impossible for teachers to be leaders when their training is inadequate for them to assume such responsibility. In an institute recently held 130 teachers were enrolled, of this number 57 held third grade certificates, 50 held second grade, while only 14 held first grade and 8 life certificates.

In this county 30, or almost one-fourth of the teachers, had never attended a high school; of the one-hundred remaining 46 had not completed the high school course offour four years, and anoher 20 had attended for less than a year. The average auunal salary in this county is less than $200, and the average length of the term offered to the childen of the county is less than 100 days.

It is impossible o have good schools without good leadership. To be a leader one must be trained for service. This requires time and money When Alabama can pay better salaries and demand real preparation for work, education will move onward and upward in leaps and bounds.

In anther county with 72 teachers enroled, 24 held first grade certificates and 14 held life. In this county the schols run eight months, with an average salary of $61 per month. Needless to comment on the fact that better teachers and better salaries go hand in hand.

More Interest at the Institutes.

The county teachers institutes continue to increase in attendance over those conducted under the old law. The increased enthusiasm is noticeable at the different institutes. No doubt the cause of this increased increased interest is that the institute conductors are endeavoring to meet the needs of all the teachers.

The institutes are divided into primary, grammar grade, and high school sections, which are conducted by specialists in each particular line of work. The instructors, through these departmental meetings are able to discuss school work in a very practical way. These meetings are forty minutes in length, but often the interest is so intense that two periods are given to one subject.

County Teachers Associations

In several counties of the state the teachers have formed themselves into "County Teachers Associations", and these associations meet monthly for the purpose of discussing the live educational problems of the day. The most efficient associations organized are those of St. Clair and Pike conuties, although many other conuties are doing excellent work in this way.

The St. Clair County Association meets monthly in the county high schol building a Odenville. The average attendance is large and the results most gratifying.

The Pike County Association meets on the first Saturday of every month, with an average attendance of about fifty out of a teaching force of eighty two. The normal school and the city school faculties take part in this work and add largely to its successful operation. At the present time a text book dealing with country life and country schools is used as a basis for opening discussions, which are led by two or three teachers.

The results escured, as expresed by one of the teachers of that county are, "to stimulate interest in school in the eradication of illiteracy; in the improvement of school surroundings; betterment of sannitation in the community, and the increased effort on the part of the teaching force to secure better buildings." All parts of the county are represented and the teachers feel that the results justify the expense incurred.

FOR SALE—Berkshire hogs, cheap; early speckled and yokohoma velvet beans and soy beans $2 a bu; white chinese beans 50 cents a gallon. Jesse A. Davis, Clanton, Ala.,

UNION SPRINGS

Mr and Mrs. Ervin were visitors at J. C. Smith's Sunday.

Had a real good singing Sunday afternoon.

Prof. Mullins school closed on the 14th and on the 18 he met his pupils and a goodly number of the community at the Posey Springs and had a nice picnic with a fine fish fry added. It was a pleasant occasion, in the afternoon foot racing was the order of the day. Among the champion runners of the girls we noted Miss Bedie Poe, among the young men Luther Cofer, Prof. Mullins, Elzie Brazwell, Cleveland Martin were in the lead. Prof. Mullins has done fine work here with his pupils, many nice things are said about him, we appreciate his interest and faithfulness.

We note Mr. G. W. Edwards has entered the race for a place on the school board, we regard him as good, a true Republican alright.

Mr. and Mrs. McBride and Hugh Miskelly attended the singing here Sunday afternoon.

Misses Sallie and Gladys Russ visited Miss Amber Nix Friday.

CANNING CLUB WORK FOR COMING YEAR.

The organization of the Girl's Canning Club Work in Chilton county is taking on new life and energy for the coming year. It is confidently hoped and expected that much good will be accomplished, and more interest manifested in the future than in the past.

The work is under the direction of Mrs. Lida Jones, an experienced and well-informed speciallist in this line, from Montgomery county. She will have an office and headquarters in the court house where she will have equipped a handsome display and demonstration room.

This will be county headquarters for the canning clubs, which feature alone will add much to the interest of the work. Mrs Jones says that efficiency among the members is going to be the main thing sought to obtain for the first year at least. Then will come the effort to broaden out the scope and number of members.

From time to time, in fact every week, we hope to be able to carry to our readers, interesting news items about the club, its work, its direction, its members, their accomplishments, and successes.

We are impressed already that the Girl's canning club work this year is going to accomplish things in the right way. And we are with them. We want to see the work succeed, and want to help them all we can in the way of publicity of their efforts and accomplishments.

FROM BEAT 13

The most important question that confronts us as citizens of this great state of ours is education. First we must cultivate the brain, and thereby reach the best moral cord, before we can touch the vital connection that unites the soul with things heavenly.

Then why should we be so neglectful in educating our children and encouraging our neighbors to educate theirs.

It chills the blood in the veins of a legal Anglo-Saxon to visit some of the homes in the rural districts and see the influence of parents, and listen to the awful denunciation of the schools and high class literature. Some are so narrow as to inform their teachers that, to read and write is as much education as they desire for their offsprings to obtain.

"Am I my brother's keeper"? This brings to us the all-important thought of securing by ballot our board of education, upon which depends the future success of our greatest assets—our boys and girls. Who is competent to serve on this board? Our answer would be, as Paul said in Acts the sixth chapter and third verse, "Wherefore, brethren, look ye out five men of honest report, full of the Holy Ghost and wisdom, whom we may elect over this business." Paul might have gone farther to say, nonpartisan men, or men whose lives had not been polluted with the electrical wires of modern politics, or men who are not so narrow-minded as to allow political differences to boss them in the last in the discharge of thisgreat duty.

These five men are not only to sit on this board in the interest of the schools, but they shall have the appointment of the county superintendent of education This responsibility alone makes it more important that these five men be the very best in our county; and when I shall have cast my vote in the primary for this board I will conscientiously believe that I have voted for five of the purest men in my county—men who will not only have my child's interest at heart, but every child even in the remotest districts of the county.

I am so taken and accepted, a democrat, but today we as a people want a board of education,—not an office-seeker on any ticket.

A CITIZEN.

CORINTH

Health here is good at present.

Farmers are getting along nicely with their work.

The singing at Corinth Sunday afternon was enjoyed by all.

Mr. J. A. Jones and Coulmbus Taylor spent Sunday with Henry Jones.

Rev. W. P. Dennis of Coosa county was with us Sunday, we were glad to have him with us.

The Union-Banner a year, and The Progressive Farmer 6 months, both for $1.00, if you send in your subscription at once.

CHM. BIBB GRAVES EXPLAINS 2D CHOICE VOTE

His Article in Alabama Democrat, Regarding the New Election Laws.

Having had numerous requests for an explanation of that portion of the new primary election law having to do with first and second choice voting, the Daily News addressed a letter to Hon. Bibb Graves, chairman of the state democratic executive committee, and author of the law, requesting to furnish for publication an explanation, that would explain.

Chairman Graves' reply was as follows, and is interesting to the prospective voter:

"Dear sir:—In reply to yours asking, 'Does the law require a voter to vote for a second choice?' let me say 'no.' The law does not require him to vote at all, but leaves it with him to choose. He may vote both first choice and second choice; or he may vote first choice and not vote second choice; or he may vote second choice and not vote first choice; or he may vote neither. He can exercise his option on each race, doing differently in each case if he so preferes.

For example: A voter might have only a first choice in the race for probate judge, if so, he would vote no second choice on that, voting only his first choice; he might have both a first and second choice for tax collector, in which case he would vote both first and second choice on that; on constable, if he was so minded, he could vote second choice only; and on some other race not vote at all.

Most of the misunderstandings of the law are because of two things that it prohibits These two prohibited things are:

First, a voter is prohibited from voting twice for the same candidate; if he does vote both his first and his second choice for the same candidate only the first choice vote is counted.

Second, a voter cannot vote what is known as a "single shot." If he votes at all in a particular race, he must vote for the proper number of candidates; he must vote for as many as are to be nominated in that race; not for any more and not for any less. For example: Two justices of the peace and one constable are to be nominated in each precinct. The voter is not required to vote on either race, but if he votes for constable, he must vote for one, and only one. Of course he can vote for one first choice, and for another second choice, but he can't vote for two second choice, nor for two first choice. So, on justice of the peace, if he votes on that at all, he must vote for two; if he votes for more than two, or for less than two, his vote on that race is not counted. However, that would not affect other parts of his ballot. Should he vote two first choice, and a different number second choice, the first choice being right would be counted, and the second choice being wrong would not be counted.

I have gone into detail in the hope of making it quite clear; if I have failed to do so, please let me know and I will try again.

"Sincerely,
Bibb Graves, Chairman."

MIDWAY

Last week I announced that I would have something to say about the Equalization Board.

In speaking of this matter it seems that about all of us agree that the creation of this board was absurd and absolutely unnecessary to say the least of it.

In connection with this matter I feel confident that the most of the people of Chilton county have placed all the condemnation, for this burden of expense, upon the legislature of Alabama.

In writing this article I do not wish to shield the legislative body to any degree whatever, but I do wish to condemn the actions of our commissioners court for going the limit with the expense of the said board of Equalization.

You are no doubt acquainted with the fact that the law states that the members of the equalizaion board may receive a salary of from three to six dollars per day. I will take the liberty to ask the question could not the commissioners of Chilton county employed members of this board at three dollars a day instead of six? Is there one commissioner, or the Judge, that would pay out of his own pocket the sum of six dollars per day for service similar to the service performed by the members of the equalization board?

Abraham Lincoln said during the "Re-Construction Days" that he would deal with the Southern States as though they had never been away from the Union. I take the position that the officials of the county should deal with the county's finances as though they were spending their own money.

In conclusion let us hope that our future officials will be more considerate.

Yours truly,
CHAS. COOPER.

GOVERNMENT SURVEYOR

From Monday, March 12, for the next 15 or 20 days, Thos. M. Hooper, U. S. Deputy surveyor of the state of Alabama will be in Clanton. Any parties wishing their land lines run according to the government survey can secure his services by leaving their orders with the Probate Judge or Mr. W. W. Fox. 2-16-2t-adv.

THE UNION-BANNER

Publishd Every Thursday at Clanton
Chilton County, Alabama.
UNION PUBLISHING CO.

W. M. WYATT, Editor & Manager.

Subscription price $1.00 per year, payable in advance.

Entered April 15, 1913, at Clanton Ala., as second class matter, under Act of Congress of March 3, 1879.

PEOPLES TELEPHONE 96.

Do something yourself!

After, Villa, who next?

Cheer up and stay cheered.

Alas! Peace to the ashes of peace!

Time, tide and war wait for no man

Too proud to fight? Villa won't think so.

Yes, sister, you may sleep in peace. Funston's on the job.

Health, wealth and cussedness are modern triplets.

Uncle Sam, however, still has a few drops of red blood left.

To be sure, we might delegate the Mexican task to Ford's pilgrims.

Even one fleeting smile is worth a whole year of grouch.

Incidentally, it is more profitable to go out and get a thing than to howl because it doesn't come your way.

But, then, preparedness might even be extended to the commercial welfare of this town.

Bullets, like joy riders, never pause to take stock of the damage they inflict.

As our own individual contribution, we'll cheerfully furnish the rope to hang Villa.

Upon second thought, this is even a better town than we had imagined. Tie to it.

But the pessimist, you know, sees an opportunity after the optimist has grasped it.

Soon, however, the poor dove of peace will have no place to even call its roost.

The wise man, you know, is a man among men, but the fool is just only a fool.

Presumably, however, the sun will continue to shine upon us unless it is obscured by the clouds of war.

There is but one fitting fate for Villa and his gang. They should be jerked to hell at the end of a rope.

Women kiss when they meet, men shake hands, and animals rub noses. But what will Villa and the devil do when they meet?

Of course we deplore all of this strife that is robbing the world of its glory, but we decline to let it interfere with our Sunday dinners.

When an old duffer with a million marries a young girl with a pretty face, the devil pronounces his blessing with a wink of the off eye.

Amidst all of the excitement of wars and rumors of wars, don't lose sight of the fact that you can hear a mighty good sermon in this town any Sunday in the year.

We'd just be eternally kicked if we could ride around in an auto like so many of our neighbors are doing. But alas! Those delinquent subscribers who always forget to think!

Advertising is like patriotism in war time. It is irresistible, and draws the people right into your store. It is worth while. Be patriotic Mr. Merchant, by being an advertiser.

Burnett Introduces Bill

Representative Burnett introduced in the House Saturday bills appropriating $50,000 each for the erection of post office buildings at Attalla and Abertville, respectively, in his district. In the last "omnibus" building bill passd by Congress, allowances were made for the purchase of sites in both of these Alabama cities, but the treasury officials have not purchased the land yet, although bids were opened. Ultimately, they will be purchased and Mr. Burnett is paving the way for getting the money for the construction of the buildings.

Mrs. Lida Jones, who will be director of the girls canning club work in Chilton county, arrived in Clanton last week and has already taken up her duties in this connection. She is arranging her office and headquarters in the court house, and invites all who are interested in the canning club work to call to see her.

MINING COMPANY IS MADE A CORPORATION

Articles of incorporation of the Jemison Mining Company, Jemison, Ala., have been filed. The company is captalized at $10,000, and is organized to develop the Honneycutt and Frankland vein of gold ore in the nothern end of the county.

C. P. Ludwig, of Birmingham, an expert mineralogist, is President and General Manager, and George M. Collum, of Jemison, Ala., is Secretary and Treasury of the company.

Miss Alsey Mims, an attractive young lady of Falakto, visited her sister, Mrs. A. J Culver last week.

CALL FOR REPUBLICAN BEAT MEETINGS to be held in each beat of Chilton County, on the 9th day of May 1916, at or near the voting places therein, for the purpose of electing delegates to a delegated convention, to be held in the town of Clanton, Chilton County on the 13th day of May 1916; call for delegated county Republican Convention to be held in the town of Clanton, Chilton County, on the 13th day of May 1916.

The Republican executive committee of Chilton County, assembled this the 4th day of March 1916, at Thorsby, Ala., promulgates the following calls for beat meetings, and delegated county Republican Convention to be held as follows.

The Republicans of each beat or precinct of Chilton County, will on the 9th day of May 1916, at or near the voting places in each respective beat or precinct hold meetings for the purpose of electing two delegates to the Republican Delegated Convention to be held in the town of Clanton, Chilton County, on the 13th day of May 1916, and transact such other business as properly comes before such beat meetings, as provided by law.

The delegates so elected as above provided will assemble in a Republican Delegated Convention in the town of Clanton, Chilton County Alabama, on the 13th day of May 1916, at 12 o'clock M., for the purpose of electing delegates to the Republican State Convention to be held in the City of Birmingham, Ala., on the 17th day of May 1916, and for the purpose of nominating candidates of the Republican party, for Probate Judge of Chilton County, Tax Assessor, Tax Collector, Commissioners Court of said County, Clerk of the Circuit Court, Board of Education, and such other offices as will be filled by election in the year of 1916 general election, and for the purpose of electing delegates to the District Republican Convention, and to transact such other business that properly comes before said convention, and to elect an executive committee of said party.

G. W. EDWARDS,
Chm. of the Ex. Committee of Chilton County.
J. B. ATKINSON,
Sec. Republican Executive Committee of Chilton County.

MOCK TRIAL

There will be a mock trial held at Cane Creek church next Saturday night, March 25th, 1916. It will be a case of murder in first degree. The attorneys who represent the state are H. Carlton Golden and Sloan Parker; representing the defendant are Reuben Jackson and Hubert Lowery

Every body is cordially invited to come both old and young and hear a genuine Circuit Court. Will begin at 7:30.

SLATE FOUND IN CHILTON COUNTY

Enormous quanties of slate have been located in the nothern part of Chilton County, and, it is said that developments will be pushed in the near future. The owners of the land have had tests made by an expert from Whales, Eng., and by the State Geologist and the United States Government.

This slate is said to be as good, if not better, than the Vermont or Mexican slate, which compares favorably with that produced in Wales, Eng., which is said to be the best in the world.

A mock trial will be staged at the court house on Friday night, March 31, by the students of the Chilton County High School.

The case is to be a suit against Thomas Sessions for the non-support of his wife, who is to be represented by Miss Annie Gragg.

The attorneys are Omar Reynolds and Joe Kanjutzky for the plaintiff, and Leonard Harris and Edgar Teel for the Defense.

A small admission will be charged, which will be used by the Boys' Athletic Association.

Further announcement will be given next week.

FOR SALE—One rubber tire phaeton, one rubber tire cozy cab; both in good shape, have been run but very little. Dr. P. I. Hopkins, Clanton, Ala. adv-3-23tf.

Royal Roper and wife of Montgomery are visiting relatives in Clanton.

Watch for Announcement of

Our Big Spring Opening Day.

Letter from Mr. Wyatt Regarding Candidacy.

Clanton, Ala., Mar.20, 1916.
Editor Union-Banner:

Please give me space to say a few words to the people of the county in regard to my candidacy for the office of Commissioner of the 4th district.

I believe every candidate should let the people know just how he stands on the issues that are before us at present, and with which the men who are elected will have to deal.

I want to tell the voters how I am in regard to the duties of the office of Commissioner, which I believe to be the most important; and when I have told my opinion about them, I want everybody to know that I intend to stick to it if I am nominated and elected.

To those who might be concerned, I want to say that I am not in favor of a bond issue for the county for any purpose. Furthermore, I do not advocate the placing of the county in debt in any way or for any purpose. I am particularly opposed to the interest-bearing time warrant system terest-bearing time warrant system of indebtedness which has been used in working our county highways.

In regard to the road working of the county, I believe every man who is taxed to keep up the public roads should be given the direct benefit of it by having the money appropriated to working the own individual road of the man who paid the tax. If I am elected commissioner you can depend on me to stand for this.

I want to see the roads of the county as good as it is possible to have them. But at the same time I believe in exercising the utmost care and particular ujdgment about how to obtain them. I would not favor any method which I could plainly see was to the detriment of the county and in utter opposition to the wishes and opinion of the citizens.

In all things I wish it to be understood that I am one of the plain people, and am in favor of conducting the affairs of the county to their interest.

I have no mud to sling at any other candidate. I simply want the people to know my opinion on the vital questions of the campaign. If I am given the nomination I shall do my best to be elected in November, and if elected then, I do hereby pledge myself to stand for the things I have said, and first, last and all the time, for the rights of the people of the county.

If the party sees fit to nominate one of the other candidates, I will give my support to him and the Republican party in November. I have always stood for Republican principles, and have always voted the ticket till 1912, when I voted the Progressive ticket.

I want to say in conclusion to the voters that it is very important that you look well in the direction which you vote this year. We want to beware of the snares that are laid here and there for the purpose of entrapping the people, and depriving them of their rights. The time has come when the voter knows what he wants to vote for, and it is up to him to guard well his judgment, and be sure he gets what he votes for.

Let me say now that I will appreciate your vote if you see fit to cast it in my favor, and if I am finally elected I shall do all in my power to have every man say that I have not gone back on the people, the party and the county, when my service is ended.

Yours very truly,
T. G. WYATT.

NOTICE TO TEACHERS

All teachers who have any pupils who will take the County Seventh Grade Examinaion will please notify me of the number at once so that I can locate a place for holding the examination convenient to each pupil.

W. T. BEAN,
County Supt. Education.

FOR RENT—One three room house and six acres of land ½ mile from city limits. Dr. P. I. Hopkins. Clanton, Ala. adv-3-23-tf.

Notice—We will buy all your pork and pay best cash prices. Mr. O. O. Roper buys for us in our absense. Gray Brothers, Clanton. adv.

Change in Lighting Rates

Commencing with accounts due April 1, there will be some slight changes for electrical energy. The rate will be as follows:

Under 25 Kwh. monthly consumption 12 cents

Over 25 Kwh. monthly consumption 10 cents.

The rate of 12 cents applies to the first 25 kwh regardless of the amount used; the 10 cent rate applies only to current consumed in excess of 25 kwh.

The minimum charge will be $1.00 with the addition of a fixed charge of 15 cents for each meter.

Bills paid at our office before the 10th of the month in which they become due will be subject to a discount of 10 per cent with the further allowance of the 15 cents charge on the meter.

Wade Electric Light & Power Company.

Colds

should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

THEDFORD'S BLACK-DRAUGHT

the old reliable, vegetable liver powder.

Mr. Chas. A. Ragland, of Madison Heights, Va., says: "I have been using Thedford's Black-Draught for stomach troubles, indigestion, and colds, and find it to be the very best medicine I ever used. It makes an old man feel like a young one."

Insist on Thedford's, the original and genuine. E-67

I hereby announce myself a candidate for the office of Tax Collector of Chilton County, subjec to the action of the Republican and Progressive voters, in the primary election on May 9th, 1916. Your vote and influence will be appreciated.

A. J. CULP.
(Paid political advertisement, by A. J. Culp, Clanton, Ala.

FOR EDUCATIONAL BOARD

By the request of my friends I hereby announce myself a candidate for membership on the educational board of Chilton County, subject to the action of the Republican and Progressive voters in the primary election on May 9th, 1916.

Your vote and influence will be appreciated.

GEORGE W. EDWARDS.
(Paid political advertisement, by George W. Edwards, Clanton, Ala.

FOR CONGRESSMAN

I am a candidate for Congress from the Fourth District, and hereby solicit the support of all Democrats at the primary election to be held on the 9th day of May, 1916.

JOHN W. ABERCROMBIE.
(Paid political advertisement, by John W. Abercrombie, Washington, D. C.)

When in need of a car don't forget to call Maddox Taxi Co.

Mr. I. C. Gafford and wife of Birmingham have been spending the week with relatives and friends near here.

Ponce de Leon Failed; His Prize Is Found

Ponce de Leon, the daring explorer, searched among the swamps of Florida for the Fountain of Youth, which the Indians said would restore power and make people young. He did not find it. Thousands of chronic intestinal, bowel and stomach sufferers have written to Mayr, 152 Whiting St., Chicago, Ill., and have found it. Mayr's Remedy, composed of healing vegetable ingredients from France, has indeed given back the health of youth.

Suffering from indigestion, gases on the stomach, fainting spells, torpid liver, constipation and all the evils of a disordered stomach when there is permanent relief here? Mayr's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if one bottle fails to give you absolute satisfaction.

For sale by Upchurch Drug Co., and all other leading druggists.

WILL IT BE SENATOR BURTON OF OHIO

A prominent southerner now in New York associating with leading republicans of the great metropolis and political center of the United States and the universe, writs to a Montgomery friend that if he wants to get on the republican presidential band wagon that now is the time to jmp.

"If you want to call the 'turn,' and scoop the scoopers as to the republican nominee, as the thing is, and as it is being worked up to," says the writer, "just say it will be Theodore Burton of Ohio."

"I know what I am talking about," he adds, and knowing the writer as we do, we have no doubt he has got a significant "tip," but we are not going to gamble on what the republicans are going o do in their national convention till we hear from the colonel.

There is a man at Oyster Bay who has to be consulted.

If Teddy says "no" to the Ohio "hand-picked" candidate that settles Burton. If he says "yes," gives him his o. k., then we are willing to prophesy, and to bet our good money.

In the meantime we shall indulge watchful-waiting, with all due respect to the opinion of the writer, who is on the scene and ought to know what is going on in the G. O. P., but he may be with the wrong crowd.
From Montgomery Journal.

Probate Judge J. F. Kelton of Blount county was in Clanton a short while Tuesday.

Mrs. C. F. Archer will open a millinery store at Marbury soon.

Miss Brockman is now in charge of the Western Union Telegraph office here.

Rub the dust out of your eyes Brother and read the Union-Banner.

Quit your politicks and get you some white Leghorn chickens, eggs $1.00 per 15 from young strain large size and heavy layers, baby chicks 10 cents each. Eggs from Silver Laced Wyandotts, $1.50 per 15.

Real good eye glasses and spectacles first quality lenses, 75 cents and $1.50 per pair; good gold filled with first quality lenses, $3.50 the $6.00 and $8.00 kind... Try a set of Blue Bell telephone batteries and see if they don't last you longer than any any others.

L. D. POPWELL

RUB OUT PAIN

with good oil liniment. That's the surest way to stop them. The best rubbing liniment is

MUSTANG LINIMENT

Good for the Ailments of
Horses, Mules, Cattle, Etc.
Good for your own Aches,
Pains, Rheumatism, Sprains, Cuts, Burns, Etc.
25c. 50c. $1. At all Dealers.

Easter Sunday

Is a great event for the American woman, and this store is a great place for women who desire to appear to advantage on such occasions---upon all occasions.

We are displaying a splendid array of Spring and Summer Wearing Apparel for women, with especial attention given to your wants for Easter. It is useless for us to attempt a description of them all. You simply will have to see them to even begin to appreciate the the beauty and values of these goods. We WANT you to see them.

Even a Man Likes to be Well Dressed on Easter.

This store is prepared to serve you economically and acceptably in anything for Easter, from a full suit to a 25 cent necktie. No article, no detail, is lacking---and in every instance the price is to your liking. You practice economy to the limit when you buy your spring and summer wear here.

Clanton Mercantile Company

"The Big Bargain House" - - - - Clanton, Alabama.

JUDGE REYNOLDS WRITES A LETTER

Clanton, Ala., March 22, 1916.
To the People of Chilton County:

I have been asked so many times by different ones for my views on the vital questions confronting the people at this time, is the reason I am writing this letter. Yet, it hardly seems necessary for me to state my position, as it seems the people should know where I stand on all public questions before them.

I am now and have ever been opposed to high taxes. I served you six years as Probate Judge and I believe the only vote I ever cast in the Commissioner's Court was when the Commissioners were evenly divided on a resolution to reduce the tax rate in the County from fifty cents to forty cents on the hundred dollars. I voted for the reduction The argument has been made by some that high taxes makes prosperity and builds up the country. Certain officers have said if you, the people, will pay the taxes, we will do the rest, and in most instances they have done the rest.

Some cities have raised the taxes so high that poor people could rent cheaper than own homes hence the home passed into the hands of large property owners; then the landlords raised the rent and the poor man had to pay the price.

Good roads and education are fine things, but neither are asdear to the people as their homes. Europe has the best public buildings and roads in the world, and yet Europe provides no homes for the poor. America furnishes homes for this class, but if our taxes continue to be raisd, the poor will not be able to own their homes and pay the taxes, and the majority of homes will pass into the hands of property Barons, who, in turn, will advance the rent and sift the burden upon the working class. For the past several years taxes have been raised at an alarming rate. Seven years ago our state taxs were two million dollars per year, now they are seven million dollars per year, but nothing more is being done for the people than was done seven years ago. When money becomes the chief object of the office holder, it is farewell to patriotism. The man who takes the largest salary and dose the least he can, is a traitor to the people.

The greatest danger of this increase in taxes is that it enlarges the power of Government and stries down the liberties of the people. I ask you to look back a few years and consider how many of your rigts and liberties have been taken from you and put into the hands of appointed officers. How do you get your jurors? How do you have the value of your property fixed for taxatn? I could mention many other instances in which your fundament rights and liberies have been distroyed. When people are constantly taxed without their consent, and without any benefit to them, they are being robbed by the government. Some people are in favor of raising taxes because the purpose of the raise is good, and not because the result proves for the benefit of all the people The tax burden is by no means wide because the purpose of it is good, the wisdom of the measure must be proved in the result, and the benefits should go to every citizen. We all believe in good roads, but money spent on certain roads benefits only those who live adjacent thereto, or who are in position to use them, and yet money properly expended in the construction of public roads is for a good purpose, but would it not have been vastly better to have expended two hundred and fifty thousand dollars on all the leading roads of the County, than to have used this vast amount, as has been done in Chilton county, in the construction of only a few miles of roads, and which benefits only a comparatively small portion of all the people of the county? The burden of these interest bearing warrants rests upon all the people of the county and their children.

If the increase in taxes continues a few more years, you will be in worse condition than when you had a mortgage on your farm; you could in time pay off the mortgage, but you cannot stop paying taxes until you say good by to your homes.

When I entered the race for Probate Judge I expected to encounter the opposition of those fellows who have bankrupted the county. I did not expect the crowd who had made money out of our county to support me. You often remark that Chilton County has lost a hundred thousand dollars in the last few years, but do you know that when your county loses the money some fellow is always on the spot to find it. When you sell your court script for half its value, you must remember that the fellow who bought it has made one hundred per cent on the transaction, and do you expect that fellow to give up his job without a struggle? When I was elected Judge of Probate twelve years ago, your witness certificates were selling at half price, and if you will investigate you will find that I had not been in office long before the fine and forfeiture fund was pulled out of the hole and witnesses, by walking over to the Treasurer's office, could get spot cash for their certificates. How is it today? The Sheriff under the mandate of the law summons a poor fellow to Court and he has to come, money or no money; he goes to the Clerk, proves his attendance, gets his certificate and then has to sell it for half or less than half its face value. When I listen to the argument of some folks, I wonder if certain Democratic politicians have reached the conclusion that the people of Chilton County have lost their reason.

Just a few months ago, the bellweathers of the Chilton County democracy, were down in Montgomery trying to railroad through the Legislature certain bills abolishing your Commissioners Court, creating a Board of Revenue, to be appointed by the Governor; abolishing your County Court, creating in lieu thereof another Court with its Judge, Clerk and executive officers to be appointed by the Governor. A more treasonable stab at the liberties of the people has never been made. And now the same bunch are attempting to put their treacherous arms around your necks and solicit your votes.

I have lived in Clanton twelve years I admit that it would have been more pleasant for me if I could have agreed with a majority of my neighbors, but I could not, for they are the leaders of the democratic party and are in favor of taking from the people of this county their rights and liberties; they would take from you the right to choose your own officers; they would increase the taxes and spend it for the benefit of the favored few. But the gall and impudence of certain democratic leaders is simply astounding; not satisfied with bossing their own party they would like to dictate the nominees of your own primary. I believe that the nominations belong to the people of the respective parties; the choice must be left to them, and when their verdict is rendered I will be satisfied.

I ask you to consider the amount of taxes paid by you while I was Probate Judge, and compare it with the amount you have paid the last six years. When I went out of office there was about ten thousand dollars in the treasury. The present administration has spent that and all the taxes you have paid for the last six years and sunk the county in debt to the tune of two hundred and fifty thousand dollars. You know who is responsible for the present conditions. If I had not managed the Probate Office according to law the democrats would have found it out for they are always and eternally after Reynolds.

I desire to say in all fairness that a majority of the Democrats here in Clanton do not approve of what their leaders do, but they are handicapped by their desire for party regularity.

I have watched with interest the management of your county affairs, and four years ago when I was asked to go out into the campaign and make speeches for the election of your ticket I promptly did so and also two years ago, and in all of my speeches I made a protest against the way your money was being spent, and expressed my sorrow that any of the officers we had elected had followed the lead of the Democrats and helped to bankrupt the county.

For twenty years I have stood in the forfront of battle exerting my efforts in behalf of the rights of the common people of this county, and against Democratic misrule and oppression. I have watched with sorrow as one of your leaders would go down here, and another there, not strong enough to withstand the siren song of democracy. I have hung my head in shame as I have seen, one by one, our party leaders who unfaithful to the party's trust, would turn their backs upon the people who had honored them, and deliver themselves and the office into the hands of the Democratic party.

Up to now the campaign has been pleasant indeed. I want all of our people, prompted by the patriotic purpose of accomplishing the greatest good to the greatest number, to go into the primary and vote for the candidates of their choice, and I pledge you here and now that the men whom our people nominate shall have my active and hearty support.

Faithfully yours,
L. H. REYNOLDS.

'Healthgrams' On Skin--Flashed to Thousands

One of Nature's signals is an unhealthy skin. It is a scientific fact that the skin indicates the condition of the blood and the blood is the building material for the body and all its vital parts. Unless the blood is nourished and kept rich and healthy, it will eventually react on the organs it feeds and reduce the individual to a pitiable condition. Little do people realize the physical ailments that drain away strength and vitality and that can be traced straight to the poor supply of blood. Pimples, Eczema, Salt Rheum, Rheumatism, Carbuncles, Boils, Catarrh with its obnoxious results and the tendency to easily catch cold, Malaria and scores of other equally serious ailments, are all manifestations of bad blood. For over 50 years S. S. S. has been a mighty remedy for these disorders. Thousands of men and women have been relieved or actually cured by S. S. S. Many of them had spent years and hundreds of dollars for other remedies in a fruitless endeavor to regain health—a marvelous tribute to S. S. S. S. S. S. is purely vegetable and when taken into the stomach is absorbed by the blood, supplying certain elements which stimulate the action of the blood corpuscles and help them drive out impurities and build up the system. With such a tried and true medicine awaiting you at the nearest drug store, will you go on suffering and looking badly when so many others similarly afflicted have turned to S. S. S. and found the meaning of perfect health. Our Medical Department will gladly advise you about your case without cost to you if you wish to avail yourself of this service. Swift Specific Co., Atlanta, Georgia.

FORMER OUTLAW DIES AT HOME IN MISSOURIA

LEES SUMMIT, Mo., March 22.—Cole Younger, famous outlaw of border days, but of late years a devout church attendant and peaceful citizen, died at his home at his home here last night after a lingering illness. He was 72 yeaors old and unmarried.

MACEDONIA

Health of this community is very good at present.

Our Sunday school is progressing nicely at present. Come on all you old people and lets improve the Sunday school, not only by regular attendance and good lessons, but also by a cheerful contribution.

Mr. T. L. McKee went to Clanton Monday on business.

Mr. W. B. Rylant, the man that is grading the highway from Clanton to the dam, made a trip to Clanton Monday.

Mr. Dalton Giles of Cane Creek went to the dam Sunday.

We regret very much to hear of the bad luck that happened to Mr. Flem Jones last Thursday night when fire destroyed his house and all the furniture except two trunks.

Mr. Tom Smitherman is in the fish business now. He found something near 100 shad on one trap one day last week.

Mr. James White is planing a trip to Shelby and Talladega counties the last of this week.

Mr. Henry Robinson is working for Mr. T. L. McKee this year.

Mrs. Nannie Rylant paid Mrs. Zora McKee a call Sunday afternoon.

Mrs. Annie Mahan visited Mrs. Sidney Stephens Sunday.

Mrs. Heath has returned from a visit at Randolph.

Summer School at Clanton

Six Weeks Term—From June 5th to July 14th.

Subjects Taught—All branches pertaining to teachers' certificates and high school curriculum. High school students will be permitted to make up subjects.

Faculty—Two Auburn men with masters degrees, with considerable experience, Faculty not yet complete.

Board—Three to three-fifty per week in private homes.

Tuition—Seven-fifty for entire term.

Eight weeks session for sufficient demand.

For further information, address CLAUDE R. WOOD director of session, Clanton Ala.

OIL MILL WILL CRUSH PEANUTS, IT IS STATED

The Tuscaloosa Cotton Seed Oil Mill announced today that it has discovered that the machinery for crushing cotton seed will handle as well any quantity of peanuts, and that the mill is prepared to exract the oil from peanuts by a new method.

This discovery is said to be of great importance to cotton seed oil men in the South, as well as growers of peanuts, as a ready market for the peanuts will be established without trouble. It is said hat the peanut cake contains as much food value for stock as the cotton seed cake.

BARBER ACCUSED OF KILLING 20 YEARS AGO

TUSCALOOSA, Ala., March 22.—After having escaped the toils of the law for twenty years, Joe Marinor, alias Jones, is under arrest. Marinor, or Jones, was accused of killing the marshall of Dora, Ala., nearly twenty years ago and when arrested by Sheriff Phillips, of Walker county, admitted that he was the man wanted. Jones, or Marioner, has been employed in a local barber shop a long time. He was at work when apprehended.

MT. PLEASANT

These pretty spring days finds the farmers very busy preparing their land for planting.

J. C. Maddox and family recently visited at J. J. Culp's.

Jack Dozier of Elmore spent Saturday night and Sunday with his brother, W. A. Dozier.

C. D. Duke and wife spent last Sunday with the formers parents, Mr. and Mrs. A. D. Duke.

Mrs. Adline Kemp is visiting her sister, Mrs A. J. Wilson.

W. H. Foshee and family spent Sunday at Bud Littlejohn's.

John Littlejohn and family and Henry Eiland and family were visitors at J. Wiley Foshee's Sunday.

Mrs. W. M. Price recently visited her son, Mackey, near Marbury.

Mrs. Lida Jones, the canning club agent of this county, and W. H. Conway gave us a talk on culb work Monday night. Mrs. Jones wil be here again Saturday afternoon at 2:30 to organize a tomato club. Every body is invited to come.

The writer attended the funeral of Lum Smith at Cedar Grove last Friday. He has resided in Birmingham about four years. He underwent an operation and after two days suffering passed away. He was liked by all who knew him. Mr. Smith was working for the B. R. L. & P. Co., and the flowers they placed on his grave shows the high esteem in which he was held. He leaves a widow and three children to grieve for him. His wife will move back to her home place near her father's, Mr. John W. Baker.

Mrs Lizzie Benfield left Saturday for her home in north Alabama, she has ben visiting relatives here for some time.

Mrs. W. E. Nix and Mrs. Terril Bussie spent Sunday with their mother, Mrs W. C. Cotton.

L. O. Vickers recently visited W. J. Morris.

Mrs. J. J. Clup and Mrs. W. Q. Childress are on the sick list, but we hope they will soon be on their way to recovery.

Dewey Foshee, Aaron Massey and Ellie Daniel of this place will debate with Akin Mims Herbert Lowery and Aaron Vines at Cross Roads school house next Thursday night, March 23. Subject, resolved, that, capital punishment is just. The boys of this place have the affirmative side.

Next Sunday morning is our regular preaching day here, and in the afternoon our regular monthly singing. We are expecting L. T. Grant, W. M. Devaughn and some other good singers.

CARD OF THANKS

We wish, through the columns of your paper, to extend to the people of Clanton and surrounding country our heartfelt appreciation for their many kindnesses and for their sweet thoughtfulness in the sad hour of our grief. God alone knows how brokenhearted we are, but the sympathetic tears of our friends and neighbors mingled with our tears of grief, has helped us to look upon our Father's face and say Thy will be done.

Again thanking each and everyone for their kindness and sympathy,

We are sincerely,
Dr. E. A. Matthews and family.

Uses and Abuses of Fertilizers

By Prof. R. J. H. le Loach, Director of Georgia Experiment Station.

3. ROTHAMSTED EXPERIMENT STATION AND FERTILIZERS.

The Third of a Series of Six Articles

The Rothamsted Experiment Station is in England, and is noted for the great work it has done along all lines of agricultural work. It has gone into the laws of soil fertility, has been the first to discover many of these laws, and has all its history been especially interested in working out a plan of farm management by which soil fertility could be maintained at a minimum cost to the farmers.

The Rothamsted experiments began in the year 1837, when Sir John Bennett Lawes began experiments on his private estate. He was a man who loved the soil and to experiment with it. Strange to say, he was a fertilizer manufacturer in a certain sense, as he early discovered a process for transforming bones into superphosphate by the use of sulphuric acid, took out a patent for this in 1842, and built an extensive business which he managed for about thirty years. In 1843 he associated with him J. H. Gilbert, and these two men for more than fifty years conducted extensive agricultural investigations in regard to soils and fertilizers, and feeds and feeding of domestic animals. In 1889 Sir John turned over his large estate, which had now grown so important, and had become so well known in all parts of the civilized world, to a board of directors, and endowed it with half a million dollars

Twenty Years Experiments on Same Plots.

Among many other things that were done, experiments were conducted with fertilizers, mineral salts, and many forms of ammoniates, also with animal manures, to dermine just what soils needed to grow the most crops. For this work plots of ground were set aside, marked off and carefully measured, and then united to the crop with which the investigator wished to work. Small plots could be used for the different kinds of mineral and animal manures, and in each series one plot would be left unfertilized throughout the entire experiments, while the others would have applied the different combination of fertilizers, etc. Careful reports were taken from each end of these plots, and with interesting results. The same experiments were continued for twenty years and more.

Many experiments were conducted with hay, and some of these with the following results The plots that had no manure of any kind averaged in twenty years, 2,38 pounds of hay; the plots which had mineral manure alone, 3,598 pounds; the plots with mineral manure and 400 pounds of ammonia salts, 5,711 pounds of hay; those with mineral manure and 800 pounds of ammonia salts, 6,7 pounds of hay; the plots which received the mineral manure and nitrate soda 6,407 pounds of hay. Considering the very low cost of the fertilizers in comparison to the increased yields brought about by their use, one could not fail to see the value of the manure salts.

Larger Yields Were Always Obtained.

The Rothamsted station was interested in the permanent improvement of land and the part played in this by the use of fertilizing materials. From the many experiments carried out, there was never a doubt of the wisdom of applying plant food to the soil. Larger yields were always obtained, other things being equal, and the fertilization of the soils throughout England and her possessions recommended. It was decided to ascertain the effects of fertilizers on corn. Seven plots were treated as follows:

Plot 1. Unmanured.

Plot 2. Mixed mineral manure, 300 pounds sulphate of potash, 200 pounds sulphate soda, 100 pounds sulphate magnesia, 350 pounds superphosphate lime.

Plot 3. Ammonia salts, comprising 200 pounds sulphate ammonia and 200 pounds muriate ammonia.

Plot 4. Ammonia salts and mixed mineral manures, as Plot 2.

Plot 5. Five hundred and forty pounds Peruvian guano.

Plot 6. Two thousand pounds rape cake.

Plot 7. Fourteen tons farmyard manure.

The results of seven years of experiments follow; The greatest increase in yields was obtained with fertilizers richest in ammonia. The ammonia salts, the guano and rape cake gave the largest increase, which was about four or five bushels increase of dressed corn. In Plot 2, where only the mineral manures were used, the increase was least, while in Plots 3 and 5 it was greater, and in greatest. It seems that the mineral manures needed the effect of the ammonia salts in order to help them become available. There was in every case a substantial increase where fertilizers were used over the plots that remained unmanured.

The great object in giving the above information is to bring to the attention of farmers and business men that the question of fertilizers for the average farm crops is a subject as old as any farm of agricultural education, and Rothamsted did much fundamental work on it. In no case was it found that ammonia salts and other mineral manures, when applied together, were not valuable. Farmyard manure was somewhat valuable by itself, but far more so when ammonia salts were applied with it.

Miss Dovie Roper spent the first of the week with friends in Birmingham.

Victor Marcus, David Vines and Alvin Jones went over (or around) to Rockford Tuesday night.

Today And A Generation Hence

The flight of time makes us think of the future. The baby of today reflects what greatness may be acquired when he grows up. And any influence that brings relief to the expectant mother is the first and greatest of obligations. There is a splendid remedy known as "Mother's Friend" that has been a safeguard, a helpful daily influence, to a host of women. Applied externally to the muscles they become pliant, they stretch without undue pain, there is an absence of distress, the nerves are soothed by taking away the burden of leaving all to just natural conditions.

We do not expect to relate the comfort and ease of the external application in the mental development of the child. Its physical natural be greatly aided. And it is easy to understand why with a restful nervous system, a calm anticipation and a joyous mind there can be none of those harassing disturbances to provoke nervous complaints.

There is in "Mother's Friend" the direct and immediate help that all expectant mothers require. Used by their own hand, guided by their own minds, they learn at once the blessed relief from morning sickness resulting from undue stretching. They experience daily calm and nightly rest. It is indeed "Mother's Friend." Get a bottle today of any druggist. Then write Bradfield Regulator Co., 710 Lamar Bldg., Atlanta, Ga., for one of the most entertaining and valuable little books ever presented. It is worth writing for.

"Sudden pain from over-strain"

Every Housewife or Mother is ever under that Nervous Strain which so often results in Headaches, Dizzy Sensations, Faintness, Depression and other Nervous Disorders.

Dr. Miles' **NERVINE** is Highly Recommended in Such Cases.

IF FIRST BOTTLE FAILS TO BENEFIT, YOUR MONEY WILL BE REFUNDED.

BADLY RUN DOWN.

"I had become greatly run down and my nerves were in terrible condition. I had frequent headaches and became very weak and was unable to do anything. I bought a bottle of Dr. Miles' Nervine. I soon began to feel better, my nerves were quieted. I recovered my strength, and have since recommended Dr. Miles' Nervine to many of my friends who have used it with satisfactory results."
MRS. FRANCES WHITLOCK.
179 Broadway, Schenectady, N. Y.

Our Best Club Offer:

From now until the first of April we will give the Union-Banner a year and The Progressive Farmer 6 months, for One Dollar.

Send in your renewal if you are behind and get advantage of this offer.

A LETTER FROM MR. A. J. CULP

To the voters of Chilton County:

Owing to the neccesity of my attention to my business affairs at present it would be difficult for me to make a canvass among you for your support of my candidacy for Tax Collector of Chilton County, and for your consideration I will try to state my views in regard to same.

For the past ten years I have been serving the people in my community as a country merchant and no person or firm with whom I have dealt can truthfully say that I have ever mistreated them during my business career.

With my experience in business I believe that I am competent to serve the people as a Tax Collector. I believe that it is the duty of all public officers to render every possible service to the people with a minimum expense and that I am willing to do.

I stand for honesty, economy and kindness to all and protection afforded us by the old reliable Republican party.

I solicit your vote and influence with kind regards to all the candidates and hoping for harmonious success in the future for all the people.

I am, yours truly,
A. J. CULP.

W. L. QUINN DEAD BURIED AT SELMA

Selma, Ala.,—The funeral of W.L. Quinn, former member of the city council, and member of the democratic executive committee of this county occurred here Friday. Mr. Quinn died Thursday at the age of 43 years, after an illness extending over the past year.

FEAGIN BEGINS A SPEAKING TOUR.

University, Ala.,—Superintendent of education W. F. Feagin spoke at the university Friday morning in the interests of the local tax amendment and the illiteracy campaign. This is the beginning of a campaign, during which Mr. Feagin will speak at every college and normal school in the state in the interest of these two questions He hopes to get a large number of students to volunteer for summer work among the illiterates.

A FELLOW AND HIS LODGE

Some people are lodge crazy and join everything in sight. They are called "joiners". Others are pessimistic and can see no good in any lodge.

But there is much good to be derived from the membership in any of the legitimate lodges everywhere, provided the lodge habit is not carried to excess.

It creates a spirit of comradeship among the members that is seldom found elsewhere. If a member is in distress or difficulty, his lodge promptly comes to his relief and tides him over the rough places and into smoother waters. If he is sick, they cheer him with their presence, and watch at his bedside, and see that his family does not suffer dnring his incapassity. And in many other ways they are a destinct benefit one to another.

The lodge is the symbol of the brotherhood of man, and its tenets are founded upon the Bible and advocate the elevation of the human race.

The fellow who identifies himself with some good lodge and lives up to its teachings will be a better man and citizen for the few hours he devotes to its meetings.

WHEN A LAD MEETS A MAID

Old heads who forget that they were once young, find much amusement in watching a young lad when he meets a maid on the street. We stood on a street corner the other day and watched an eminent citizen of mature years as he in turn gazed upon bashful and blushing youth

No, we won't tell you of the amusing dignity and decorum of the lad and maid, for we have been guilty of the same antics away back in days that will never come again. But it was amusing to our eminent citizen and we think he was quite as amusing to us. In fact, we are not through smiling yet—at the eminent one.

But the next time you are on the street and a lad and a maid meet face to face, and you suspect that there is a tender feeling between them, just remember the golden days of your own youth, and see not those things that you are not supposed to see.

Ofttimes an innocent smile is a shaft that cuts deep.

MISS KELLER TO VISIT TROY

Troy, Ala., March 17.—Special Helen Keller, the wonderful deaf and blind woman, will lecture in Troy. She will be here on April 10 under the auspices of the Ladies Aid Society, of the M. E. Church. The lecture will be delivered at the city school Auditorium.

NOW WHISTLES AND SINGS ALL THE TIME

Dairyman Says His Wife Is As Bright And Happy As A 16 Year Old Girl and Has Gained 18 Lbs.

"My wife goes about the house now singing and whistling all the time, and no wonder she is so happy, for on just three bottles of Tanlac she has gained eighteen (18) pounds and she is like a different woman altogether," said J. B. Zachry, the well known dairyman of Swords, Ga., in conversation with the Tanlac representative at Jacob's pharmacy, Atlanta, last Saturday.

"I'm here to get a bottle to take myself," we continued, "for it's helped her so much I am sure it will be a fine spring tonic for me to take.

"My wife suffered from indigestion and stomach trouble for a long time, and was in a general run-down condition. She reached the point where she couldn't hardly sleep at all and her appetite went down to almost nothing. She couldn't take interest in anything, was very weak and nervous and seemed despondent all the time. She lost a god deal in weight and her strenth was all getting away from her.

"This is the very shape she was in when she began taking Tanlac. She has now taken three bottles of the medicine and the indigestion has been relieved enirely. She hasn't a pain about her and feels fine in every way She has been gaining weight and strength ever since she took her first few doses and weighs eighteen (18) pounds more today than she did the day she began taking Tanlac. She has the biggest kind of an appetite and eats meats, hot buiscuits and anything else she wants, and everything agrees with her perfectly. She is no longer nervous and dizzy, and sleeps like a baby. She goes about her housework as happy as a sixteen year old girl and smiles all the time.

"I have one-hundred cows to look after and my wife is helping me more with my work than ever before. Tanlac just sems to have filled her with new life, strength and energy, and you don't know how happy we are over her recovery. Its just marvelons how it has acted with her, and if anybody wants to know what we think about Tanlac, they can just see or write me."

Speaking of Tanlac and the work it is doing, Mr. G.F. Willis, southern distributdr of Tanlac, said,

"There is no season of the year in which Tanlac can be taken to better advantage than right now. In the spring time all mankind, after weathering the storms of winter, is in need of an upbuilding tonic. There is nothing more invigrating to a run-down system than Tanlac. It will prove invaluable to persons who are suffering from indigestion or the after effects of pneumonia, la grippe, catarrhal or bronchial troubles. At this particula season my suggestion is that srpeons so affected take the full course of six bottles of the medicine"

Tanlac is sold in Clanton exclusively by Upchurch Drug Co.

COWART WILL APPEAL CASE

Lee Cowart, of Birmingham, chief of the immigration bureau, who was convicted by a jury in the second division of the city court of Montgomery Thursday and sentenced to serve two years in the penitentiary by Judge Alston, on the charge of embezzling public funds, will appeal the case to the supreme court. Mr. Cowart's bond was fixed at $2,500 after he had been sentenced about four o'clock Thursday afternoon. Pending the outcome of the appeal to the supreme court the sentence of two years was suspended by Judge Alston.

Mr. Cowart, while acting in the capacity of state immigration commissioner, was indicted on charges of embezzlement, grand larceny and conversion of public funds. The indictments charged that he took $125 from the funds coming to this department. The jury yesterday convicted Mr. Conwart on count four of the indictment, which says he unwillingly converted to his own use, while trustee or bailee of the state, money to the amount of $50.

The trial of Mr. Cowart was started before Judge Alston last Thursday morning, the verdict being brought in last Wednesday morning after the jury had been out about twelve hours.

POSTPONEMENT OF SUFFRAGE CONFERENCE

The National Campaign Suffrage Conference scheduled for Birmingham on April 5 and 6, has been postponed till next fall so that the presence of Mrs. Carrie Chapman Catt may be assured. Mrs. Catt's whole time is now being given to the campaign states, hence the postponement of all her southern engagements.

TO THE GIRLS OF THE COUNTY CANNING CLUB

To the Canning Club Girls of Chilton County:

Having been appointed to take charge of this work in your county, I take this means of letting you know that I am here and ready to begin organization of the Clubs. As it is late in the year and will take some time for me to visit each district in the county, I will appreciate it very much if you will send me your name and address to Clanton, I will then mail you seed etc., at once and come into your community and organize later.

MRS. LIDA JONES,
Agent Girls Canning Club Work of Chilton County.

1,800 ACRES OF LAND IN TUSCALOOSA ARE SOLD

Tuscaloosa, Ala., March 17.—Special.—B. T. Harper of Tuscaloosa today sold 1,800 acres of land, located about six miles from Tuscaloosa, on the Columbus road, for $45,000. O. O. McDaniel of Coke, Ala., was the purchaser.

ARMY BILL SIGNED

Washington, March 17.—President Wilson today signed the joint resolution authorizing the increase of the standing army to its full strength of approximately 120,000 men.

MOBILE PRODUCTS TO BE EXHIBITED AT BIRMINGHAM MEET

Mobile, Ala., March 17.—At the request of Chief of Immigration E.A. Jones, the Mobile Chamber of Commerce will secure a splendid exhibit of Mobile county products and work of the several industries of the city and county, for exhibit in Birmingham during the visit of the National Association of Real Estate Exchanges. The exhibit, writes Mr. Jones, will be later sent to Chicago, where it will be permanently displayed in the Chicago Permanent Bureau of Industries and National Resources.

CASES AGAINST J. G. OAKLEY QUASHED.

Montgomery, Ala., March 17.—The cases charging James G. Oakley, former president of the Alabama Convict Board for embezzlement Tuesday were nolle prossed in court, it peing stated no proof could be shown that any of the stolen money reached Mr. Oakley. The charges grew out of the defalcation of Theodore Lacy, former chief clerk of the convict board, who is serving sentence aggregating 16 years for embezzlement of $90,000 of state funds several years ago.

AUDITOR'S REPORT FOR 1915 IS READY

Montgomery, March 17.—State Auditor M. C. Allgood late this afternoon received from the printer copies of the 1915 report of the auditor's office. The report shows that Alabama's deficiet at the end of the past fiscal year was approximately $1,100,000 greater than at the end of the preceding fiscal year.

The defiicit on October 1, 1914, was about $800,000, whereas on October 1, 1915, the deficit was approximately $1,900,000. This large increase over the preceeding year was due to the release of a large number of contigent appropriations by Governor O'Neal just before he retired from office.

The report of the auditor is a voluminous document, containing several hundred pages. More space might be given to the figures in the report relating to the state's financial condition were it not for the fact later reports on the condition of the treasury have been published from time to time.

MR. APPERSON WRITES REGARDING CANDIDACY

Maplesville, Ala., March 17, 1916.
Editor Union-Banner:

Will you allow me space in your valuable paper to say a few words in regard to my candidacy as Commissioner of the Third District of Chilton county, subject to the action of the Progressive party in its primary to be held May ninth.

I am fifty-one years old and have been a citizen and tax-payer of this county for twenty-three years.

I am in favor of good schools and good roads as much so as any man in the county, but I say let us pay as we go. If we can't pay, let's not go so fast. It looks good for us to have good roads, nice farms, good houses to live in, but it looks very bad to have a big debt over us and have to tax the people to death to pay these debts.

The boll weevil got half of our last year's crop, and I think the tax commissioners will get all this one from the way they are raising the taxes in this section.

I will say to the voters of the county that it will be impossible for me to canvass the county very much, as I am a farmer and have to work for a living.

I will promise you that if I am nominated, I will fill the office to the best of my knowledge and ability without fear or favor.

I have been a member of he executive committee for sixteen years and have been true to the party all the while.

I have not voted a Democrat ticket since the Grover Cleveland administration, and will never vote another unless there is a revolution. I think that if the democrats get a few more whacks at the state and county we will be ready for Cox's army and the soup trough.

Well, Mr. Editor, guess I had better close for this time. If this escapes the waste basket, I will come again.

Wishing your paper much success,
Yours fraternally,
D. M. APPERSON.

CLANTON ITEMS

City marshal, Gore, has invited a nice bunch of fellows—citizens of Clanton—to meet him at the court house Monday to begin the working of the streets.

AUTO RENT SERVICE—Car for rent day or night. Headquarters at Clanton Mercantile Co. Call for Alvin Jones.

NOTICE— buy scrip and warrants of all inds. See me if you have any to sell. G. O. FOSHEE Clanton, Ala. adv.

J. W. Sorrell of Jemison was a visitor to Clanton Monday.

"Paint My House, Too"

The spirit of neighborhood improvement fills the very air. The glad, bright colors of spring have replaced the somber hues of winter. Grass is green—flowers are springing into glorious bloom. Nature is providing a beautiful setting. Is your house in harmony—or do the fresh-looking surroundings only serve to emphasize its dullness? Does it complete the picture—is it well painted?

Now's the time of all times to dress up your home in fresh, new colors. The first essential in home improvement is good paint, and the paint that you can depend upon to be good is

Lowe Brothers HIGH STANDARD LIQUID · PAINT

You take no chances, you know exactly what the contents of every can of "High Standard" will do. Forty years of experience and countless exposure tests have made this knowledge definite. Chemical analysis of the raw materials and thorough machine mixing insure a uniform product.

You get in "High Standard" a paint that works easier, and spreads farther than cheaper paints—a paint that hides better and protects better the surface of your building—a paint that does not fade, that holds tight to the surface in perfectly protecting coats—that fails only by gradual wear and leaves a good surface for repainting

It actually costs less to use this better paint and get its perfect protection. It goes so much farther—and it lasts so much longer on the building that its use is true economy. Ask us for an estimate on your paint requirements.

Clanton Hardware Co.

Remember that dollar you owe us on your subscription. We have just made some improvements in our printing plant, and are depending on you to help us out with our burden by paying up your back dues. Don't forget us when you come to town.

C.C. Bowles of Mineral Springs was in Clanton Saturday.

Chas. Cooper of Mt. Creek, candidate for commissioner of the Fourth District, was in town Monday.

Montgomery, Ala., March 17.—Special.—Notice of the organization of a $50,000 naval stores compauy in Montgomery county has been received by the secretary of state. The company will be known as the Coley-Owens Naval Stores Company, Inc., and will have headquarters at Local. It will begin business at ouce and will engage in the general naval stores business.

Those concerned are O. M. Coley, W. D. Owens and A. N. McNeil.

DEBATE

There will be a debate at Mt. Pleasant school house Saturday night, March 25, 1916. Subject: Let the nation own the trust. Affirmative, C. N. Eiland; negative, Rev. J. T. Nelson. Everybody come.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before It salivates you; it's horrible.

You're bilious, sluggish, constipated and believe you need a dose of vile dangerous calomel to start your liver and clean your bowels.

Here's my guarantee. Ask your druggist for a 50 cent bottle of Dodson's Liver Tone, and take a spoonful of it tonight. If it doesn't start your liver and straighten you up better than calomel, and without griping or making you sick, I want you to go back to the store and get your money back.

Take calomel today and tomorrow you will feel weak and sick and all nauseated. Don't lose a day's work; Take a spoonful of harmless vegetable Dodson's Liver Tone, to-night, and wake up feeling great. It is not at all harmful, and you can give it to the children any time. It can't salivate, so let them eat any thing at all afterward.

HOUSMAN IS CHARGED WITH SHOOTING PRUITT

Montgomery, Ala., March 17.—Special.—W. A. Housman of New York, was transferred to the Montgomery county jail Friday, charged with shooting Leon Pruitt, a stenographer, last night. Housman will be held on a charge of suspicion until it has been determined whether or not Pruitt will die. Surgeons say Pruitts condition is serious and that the injuries will probably cause death.

Houston shot Pruitt in a dispute over a check given to Houston by Pruett. Housman claims Pruitt allowed the check to be protested. The shooting occurred in a hotel on Commerce street.

GADSDEN IS PLANNING FOR T.P.A. MEETING

Gadsden, Ala., March 17.—Special. Local members of the Travelers Portective Association are making arraugements to entertain the convention of the organization, which will be held here May 5 and 6. About 400 visitors are expected from over the state. The convention met in the Decaturs last year.

2,000 SCHOOL CHILDREN TO MARCH IN PARADE

Anniston, Ala., March 17. Special. It is estimated that there will be 2,000 school children in the parade when the second annual school rally day is held here April 14. Every school in the city, city and rural, will be represented, and the day promises to bring several hundred visitors to the city.

BANKHEAD BILL PASSED

The Senate Saturday passed Senator Bankhead's bill authorizing the Jackson Highway Bridg Company to construct a bridg across the Tombigbee River, at Princes Lower Landing, near Jackson, Ala.

Subscribe for The Union-Banner. Don't depend on borrowing it from your neighbor every week. Only $1 a year for all the county news.

Before going on your trip be sure call on Maddox Taxi Co. 2-24-adv.

THE UNION-BANNER

VOLUME V. CLANTON, ALABAMA, APRIL 6, 1916. NUMBER 1.

G. O. P. PILGRIMAGES TO SAGAMORE HILL

Looks as if Republicans are Making Friends with T. R.

From Globe-Democrat.

OYSTER BAY, N. Y., April 2.—Rapi dchanges are expected to take place in the political situation during the coming fortnight. These developments will probobly reveal other Republican leaders following in the footsteps of Senator Root in making peace with Colonel Roosevelt.

It is felt that because Senator Root who stands out as the dominant leader of the Republican party has seen fit to shake the hand of the Colonel, and call matters square, others in the party who rank below Root, in leadership, will fall in behind him and do the same thing.

It is predicted that the coming week will be a busy one at Sagamore Hill, and several G. O. P. pilgrimages up the winding road to the Colonel's home would not be surprising.

Today the Colonel remained in seclusion. It was the first day he took all to himself since his return from the West Indes.

Recent visitors have come away from Sagamore Hill convinced that a great many of the interpretations placed upon the Root-Lodge-Roosevelt luncheon are erroneous. The theory that the motive of the meeting was interest in Justice Hughes's nomination is scouted as unlikely.The feeling here is that it is preposterous to think for a moment that any concern for Justice Hughes was manifested at that luncheon, and that Colonel Roosevelt is not going to support Hughes, but instead will lend his support to the campaign for preparedness, which in other words is just Rooseveltism. That the Colonel is his own candidate is the view that prevails here, and Justice Hughes is too much of the Wilson type. He has been called a "Whiskered Wilson."

Roosevelt's growing strength and the confusion caused by the burying of the hatchet at the Root-Roosevelt petit dejeuner is believed to be impressing Republicans all over the country with the inevitableness of the Colonel's part in the coming campaign. It is also believed to be an efficious method of scaring off the followers of Justice Hughes. The opinion is expressed colliloquilly, that the Colonel is beating Hughes to the nomination.

In more formal language is couched the belief that Hughes is not acceptable to many regularRepublicans who are possessed by a vague unrest as to what he would do for the party and a fear of what he might do to the party.

These same Republicans, who are also apprehensive of Hughes's shortcomings on the score of preparedness are now being told that Senator Root associating with Roosevelt would prevent the Colonel from becoming as belligerent a President as some of them feel he would be. The probable presence of Root as Secreary of State in the cabinet of Roosevelt is being pointed out as an ideal check on the Colonel.

CLAYTON GLASS CAPTURED

On the same expedition in which they captured the still in Stumps Hills last week, Deputies Gore and Gillespie located and arrested Clayton Glass, who has been wanted by officers in this county for years for a charge of grand larceny. He was brought to Clanton and placed in jail to await further course of the law.

ESCAPED CONVICT CAPTURED

Last week a negro convict known as "Snow Ball," who was serving a sentence with the road convict crew under Frank Fallon, escaped from the gang. He was located Saturday morn ing by City Marshall Gore and Sheriff Harris, who went out to West End where he was hiding and brought him back to jail. He is now back with the road crew under an additional sentence of six months.

OFFICERS CAPTURE STILL AND ARREST OPERATORS

One of the most complete hauls that has ever been pulled off in this county was consummated last Thursday night in the region of Stumps Hils, by Deputies Gore and Gillespie and Revenue Officers Wall and Barker. They went to the hills Monday upon the suspect of illicit operations of parties there, and scouting around till Thursday, they succeeded in locating the wild cat and brought her down, together with the men who had been operating it, viz: Alex Gentry and George Headley. The still and the men were brought to Clanton Friday morning, and immediately carried to Montgomery to answer before the Federal officers. Gentry and Headley acknowledged to having operated the moonshine establishment.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

WEEKLY NEWS LETTER FROM SUPT. FEAGIN

Head of Educational Department will Write Letter Every Week.

School Lunches.

In quite a number of the schools in Alabama, school lunches are being served at noon. While this is largely limited to the cities and larger towns yet the scheme might be adaptable to a number of rural schools. A warm simple whlesome diet is thus insured at a minimum price, usually 5 cents. For this amount one school in Dallas county serves bread and butter, some form of sandwich, and a drink. This idea has a tendency to prevent the school ground from being littered by paper which usually encloses lunches brought from home, and presents an opportunity for the teacher to inculcate the habit of proper table manners. The plan seems to be attracting attention.

Preparedness.

Our country is in a state of tensest excitement, growing out of the tragedy being enacted across the waters and the possibility of being drawn into it. They tell us our country's defenses are "inadequate" and our soldiers are "shockingly undisciplined." The Panama Canal is closed, and our leaders cannot agree upon a national program.

As vital as the question of preparedness may be from a military standpoint, even in the present strenuous times, it is a matter of secondary importance when compared to the opportunity that should be given our boys and girls to prepare for life. Six months of schooling in a building defective both in equipment and sanitation; a different teacher each year; overcrowded conditions and scant supervision are a few of the evidences that we need a new conception of preparedness for our future citizens, for preparedness in the last analysis must always lie in the personality of the "man behind the gun." It is to our boys and girls, in other words, we must look for protection; for civil protection by their votes, and for military protection by their lives, if it need be. It behooves every community, therefore, to take stock of its resources and determine whether it is giving a suitable amount of financial and sympathetic support to the public schools.

If the school is not such as to command the admiration and respect of the children, and its part in their lives is not such as to make them love and respect the institution that presumes to fit them to take their places as American citizens, then the school is not measuring up to the standard of preparedness; nor may we expect the boys and girls who have not learned to keep pride in school which is supposed to fit them for citizenship will take very much pride either in their citizenship or in the country in which the citizenship is spent. In other words, we cannot hope to develop a spirit of patriotism in our schools until these selfsame schools offer such training and such surroundings as the social and economic needs of the time demands.

It is related that when Aaron Burr wished to carry out one of his plots he visited the home of Colonel Morgan, a Revolutionary veteran, and adroitly laid his plans before him and his two sons, holding out promises of rich reward, which of course, were indignantly spurned by the Revolutionary hero. Lest the wily tongue of Burr might persuade her boys, the good wife brought out an American flag stained with the blood of her brother, who had been killed while fighting for his country. With this emblem she pledged forever the loyalty of her household to the United States of America.

In these days of business activity and international srife there is danger that we may become callous to the finer patriotic entiments and our national characer lose those ideals that make possible "Liberty and Union, Now and Forever." Our flag, when regarded merely as a Fourth of July decoration, can never inspire the quality of patrioism that filled the hearts of our Revolutionary veterans. Indiflerence to the flag breeds disrespect for the things the flag represents, while loyalty to the flag will mean loyalty to the principles and traditions for which our forefathers gave their lives.

Let the teachers and school officials see to it that "Old Glory" is visualized, that the Stars and Stripes float to the breezes on every schoolhouse in the land.

CAPITAL CITY MAN TRIES MURDER AND SUICIDE

Montgomery, Ala., April 1.—Julius V. Richards, a cabinetmaker, last night hacked his wife, Elizabeth Richards, to death, with a butcher knife and then cut his own throat. A the hospitals, the attending physicians say that he had a chance to recover. Domestic trouble is asigned as the cause of the tragedy. Richards is 52 years old and has several children.

ORDER FORPRIMARY ELECTION

The Executive committee of the Progressive party of Chilton county, in session at Clanton, on January 19, 1916,ordered a Primary Election to be held on May 9th, 1916, for the nomination of candidates for the various offices to be filled at the next November election.

ANOTHER VIEW OF TEDDY & THE G. O. P.

The Question of What will T. R. do About the Presidential Campaign.

WASHINGTON, April 1.—While Democrats planned to-night for a big national gathering here two weeks hence, to talk about the elections, the Republicans devoted themselves to a consideration of the Republican nomination. Roosevelt had given the latter something to talk about. His friends say liklihood of his nomination has been increased by two event of the past week.

A definite showing of strength on the part of Brambaugh in Pennsylvania.

The get-together luncheon of Mr. Roosevelt, Lodge, Root, et. al., up in New York.

In the optimistic view of the Colonel's friends, the Pennsylvania situation has taken a turn that will keep Penrose too busy in his own state to permit effective campaigning against Roosevelt, while when the time comes the Brambaugh delegates will be for Roosevelt.

As for the meeting in New York, they say, it forecasts arrangements whereby Roosevelt will pick up New England and New York strength.

Will Modify Views.

To gain this strength, politicians believe the colonel will cease emphasizing his views on the recall of Judges; that his social justice planks of 1912 will be turned into less radical demands for more equal industrial conditionsas a means toward national efficiency and that the whole drive of his campaign will be toward a big strong spirit of nationalism, preparedness, and aggressive foreign policy.

But, though Root is thought to have won considerable ground, he is daily uniting and intensifying the opposition to himself.

Senator Gallagher, powerful up in New England, vowed to-day that Mr. Roosevelt never would receive the nomination. He renewed his declaration of loyalty to Weeks and forecasts his nomination. But then he added another name for which he has hitherto shown no affection, which he indicated he would accept before he would Roosevelt. The name was—Hughes.

Democrats are Busy.

Democrats in Washington are oiling he wheels and going over the works preliminary to prying off the well known lid with a whoop within two weeks. The exact date of the opengun is believed to be April 13, when the Common Council Club gets together, ostensibly to celebrate the anniversary of Thomas Jefferson's birth. At this dinner President Wilson is expected to sound Democracy's battle cry for 1916.

Democratic leaders admit that a great deal of oiling has to be done, and several major parts of the works have to be adjusted.

POPLAR SPRINGS

The 10th Annual singing will be had at this place Easter Sunday, April 23. The books to be used are "Praise and Thanksgiving". Everybody invited to come, and bring books and well filled baskets; and spend the day in singing praises to the Lord.

COMMITTEE.

LEGAL NOTICE

Notice is hereby given that application will be made to the governor of Alabama within ten days of date hereof, to pardon James M. Maddox, convicted in the circuit court of Chilton county, May 16, 1911, on a charge of perjury, and to restore his civil and political rights.

JAMES M. MADDOX.
Dated 5th day of April, 1916.

COMPARATIVE INCREASE IN ALABAMA CROPS

Montgomery, Ala., March 30.—Special.—The increased production of corn, wheat, oats, sweet potatoes and hayhas added to Alabama's wealth about $5,000,000, according to figures announced here by the bureau of Markets. The state agricultnrally speaking, is about $10,000,000 better off this year than it was last, despite the decreased cotton acreage.

The comparative prices of five products follow:

Corn—1915, 69 cents; 1914, 80 cents; difference, 11 cents.

Wheat,1915, $1.25; 1914, $1.26; difference, 1 cent.

Oats, 1915, 63 cents; 1914,69 cents; difference,6 cents.

Sweet potatoes, 1915, 57 cents; 1914, 65 cents; difference, 8 cents.

Hay, 1915, $12.40; 1914, $13.80; difference, $1.40.

The comparative crop report for 1914-1915, prepared by Emmet A. Jones, Chief of the Markets Bureau, is as follows:

Corn—production, 1915, 66,300,000 bushels; 1914, 55,488,000; increase, 11,012,000.

Wheat,1915, 1,200,000; 1914, 403,000; increase,797,000.

Oats, 1915, 11,400,000; 1914, 8,580,000; increase, 2,820,000.

Sweet potatoes, 1915, 5,859,000; increase, 1,775,000.

Hay—tons,1915, 362,000; 1914, 288,000; increase,74,000.

Cotton—bales, 1915, 1,050,000; 1914, 1,751,000; decrease, 701,000.

Corn—Total farm value, 1915, $45,747,000; 1914, $44,390,000; increase, $1,357,000.

Wheat—Total farm value, 1915, $1,500,000; 1914, $5,920,000; increase, $1,900,000.

Sweet potatoes—Total farm value, $4,104,000; 1914. $3,808,000; increase, $216,000.

Hay—Total farm value, $4,489,000; 1914, $3,974,000; increase, $4,890,000.

Total increase, $4,890,000.

Cotton—Total farm value, 1914, $55,734,000; 1915, $56,118,000; decrease, $384,000.

FOUR WOUNDED IN LANDLORD'S FIGHT WITH TENANT

Huntsville Ala. April 1.—Capt. Sol C. Capehart, who was mortally injured on Wednesday by a shot inflicted by George Johnson, a tenant on the Capehart place, is still alive, but the attending physicians, Drs. Johnson of New Hope and Holtzclaw of Chattanooga, state the injured man cannot live.

Johnson is in jail, having given himself up. His wounds were not serious, and neither are those of Mrs. Capehart or Johnson's young son, both of whom were wounded in the affray. Captain Capehart is one of the most prominent men in Marshall county and the tragedy has caused wide spread interest.

HEAD OF CONVICT BOARD QUITS POST

Montgomery, Ala., April 1.— A political sensation was sprung Friday when it became known that P. J. Rogers, president of the state convict board,had resigned his position, effective March 31. Mr. Rogers declined to make any statement relative to the reasons for his action saying he preferred Governor Henderson give out the fact even of his resignation.

Brooks Flowers, one of the best known lumber men in the state, was appointed president of the board to succeed Mr. Rogers, the appointment being made public by Governor Henderson Friday afternoon. effective April 1.

Mr. Rogers was appointed president of the convict poard by Governor Henderson and has served with admitted ability and application to duty during his incumbency.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

The mock trial given by the high school students Friday night resulted in a splendid success. Quite a crowd attended, and a neat little sum was realized, whill will be appreciatively used by the C. C. H. S. Athletic Association. Attorney J. Osmond Middleton acted as Judge in the case, which was: Tommie Sessions charged with the non-support of his wife, represented by Miss Annie Gragg. Every witness connected with the case performed well, especially Miss Bessie Davis and Clyde Williams, who were the star witnesses for their respective sides. The attorneys for the state were victorious, who were Omar Reynolds and Joe Kanjutzky. The defendent's lawyers were Leonard Harris and Edgar Teel.

Mr. Edgar Teel has recently taken to entertaining very much the same thoughts as "Bobby" in he funny paper, in fact he somtimes imagines himself to be doing so great things that he is justly called, "Eddie make believe." He emphatically stated the other daythat, "When I have finished the high school, I am going to prepare myself for a great engineer, and go to Europe when the war is over, and rebuild that subverted country, and I will fix it so it will never be destroyed by war or anything else, too you bet."

Mr. Morse, who is a field representative of the Radcliffe Chautauqua Company of Washington, D. C., was at the chapel exercises one morning last week and discussed fully what is and what is meant by the grand chauauqua which will perform in Clanton on April 20, 21 and 22.

FOR SALE—My entire collection of love letters at a reduced price. Either in dozens or car-load lots.
Roberta Curry.

The third and fourh years have been lucky for the last two weeks, for it rained on last Sunday and the Sunday before, rendering the Garden too wet to work in on Monday.

Jim Jones and Hub Allen have contracted for making flower boxes for Mrs. Wood.

Mr. McDonald says that he is depending on the high school students to keep him from sawing wood on the lrst night of the Chautauqua.

There will be no school Thursday and Friday on account of he teachers going to the Alabama Educational Convention at Birmingham

FOR SALE—One pass to the Dixie Theatre, which has served me faithfully, and I desire it to get in kind hands—John Teel.

Clanton to Have a Real Live Chautauqua

The booster club of Clanton has negotiated with the well known Radcliffe Attraction Company of Washington, D.C., for a three day's chautauqua, which is to be held on April 20, 21, and 22.

The "Clanton Boosters" as they are known, is one of the liveliest organizations of its kind in the state. Each member of the club is a "booster" from his heart, and all are doing their utmost to put Clanton on the map in large type, and boost Chilton County in general. In addition to the attractions furnished by Radcliffe, the club is arranging for a special free morning program for each of the threee days. During these three days it is proposed to have a grand mobilization of the county's agricultural, educational and social forces. The committee is not persuing any "watchful waiting policy". The membership of the club consist of men and women who are Clanton's live wires.

Mrs. E. M. Pinckard, wife of Clanton's popular mayor, is president, who is also at the head of the local civic league. Mrs. N.S. Johnson, wife of one of Clanton's leading physicians, is Secretary and Treasurer. Mrs. Johnson is als one of the shining lights of the civic league. Other members of the club are Mayor Pinckard, W. T. Bean, Judge E. B. Deason, Prof. H.C. McDonald, J. Hance Alred, B. M. Roberts, Prof. G. S. Rogers and W. H. Sartor.

At a recent meting the following committee was appointed to see that the chautaqua is a success: (1). Publicity—Messrs Roberts, Alred and Rogers; (2). Auditorium—Messrs Bean, Roberts, and Sartor; (3). Judge Deason, assisted by Messrs Bean and McDonald, is arranging for the special morning programs. They assure all who attend a general good time.

The first day will be known as Agricultural Day. In the morning those assembled will have the opportunity to listen to some of the state's best agricultnrists. In the afternoon and evening the entertainment will be furnished by the Radcliffe Company.

In addition to this there is scheduled an especially attractive feature in that there will be a "wood sawing contest".

Mrs. Pinckard and Johnson are each leading a team of five, known respectively as the "red" and "blues" in the sale of chautaqua season tickets, the side selling the least, on that occasion pay the dire penalty of "saw ing wood" to the great amusement of the winning team.

The second day will be Educational Day. In the morning the best educator ni the state will hold forth;The afternoon and evening of this day will be employed by the Radcliffe attractions.

The third and last day will be colled Boosters Day. There will be appropriate exercisis.

In the morning on Thursday everybody is to "bury the hatchett" and get out and give his neighbor a hearty welcome to Clanton.

The proceeds from the role of tickets is to go towards the heating plants of the school.

CHAUTAUQUA BOOSTER CLUB ELECTS OFFICERS

At a meeting of the Boosters Club on March 29th officers were elected and ways and means discussed in connection wih Clanton's big three day Chautanqua to be held on April 20-21-22. Mr. Wilson T. Morse, a representative of the Radcliffe Attracions Co., of Washington, D. C., presided at the meeting assisting in perfecting this organization and giving experiences to the various committees appointed.

The officers elected and committees appointed were as follows:

Pres., Mrs. E. M. Pinckard; Sec and Treas., Mrs. N. S. Johnson; Publicity committee, B. M. Roberts, J. Hance Alred and G. S. Rogers. Judge Deason is being assisted by Messrs. H. C. McDonald and W. T. Bean in working up an attractive free morning program. Mr. W. H. Sartor, Mr. B. M. Roberts and Mr. W. T. Bean are making he necessary arrangements for a tent in which to hold the Chautauqua.

On he opening night there will be an especially amusing attraction in a wood sawing contest. Mrs. Pinckard is leading a Red team to the front while Mrs. Johnson is leading a Blue team, boh striving to sell the most season tickets to the Chautauqua. The sid e selling the least number of tickets will on the opening night be required to pay the penalty of sawing wood upon the Chautauqua stage. Now is the time to declare your allegiance to one side or the other. Don't persue a "Watchful waiting policy," for if you do you may be too late to get a season ticket.

The Booster Club is being put to a great expense in securing the Radcliffe Chautauqua Co. and it is hoped that the citizens of Clanton will help them to lingnidate the expense by purchasing a season ticket. The proceeds of this great moblization of the communities, Agricultural, Educational and Social forces, are to go towards the heating of the Grammar school. Be a Booster, buy a ticket and help your own.

S. S. BROADUS IS DEAD IN DECATUR

New Decatur Ala., April 1.—S. S. Broadus, head of thirteen banks from Bridgeport to Florence, Ala., called the Tennessee Valley Banks, died this morning at nine o'clock, after several weeks' illness. He was the son of Rev. John A. Broadus, the famous Louisville Baptist minister.

LEGISLATURE MAY HAVE EXTRA SESSION

Dissatisfaction With State Tax Laws is Cause.

Alabama politicians who keep their ears to the ground rather assiduously are much interested in reports that have been heard recently that there is a bare probality that the legislature will be called together for a short extra session early in the fall. Accordnig to reports, the movement to call the extra session comes from several persons who are not satisfied with the way the new tax laws are working, and who want to see the revenue derived more equitably than under the present laws.

There is nothing definite to the report, and it appears that the talk of calling an extra session is being heard in just a few quarters. But it is hinted that the governor is not as strongly opposed to an extra session as heretofore, and that there is a bare chance that the body will be called together for a short session early in the fall.

If an extra session is called, some of the fights of last summer will be renewed, according to the reports. Well informed politicians, however, declare that there is no chance for Governor Henderson to call together the present legislature, and that what ever mistakes that are made by the body will not be corrected until the new legislature is named.

DRY VALLEY NEWS

Dear Editor: Please allow me a space in your paper to say a few words.

Health of this community is very good except Mr. Emmett Scott, who has ben down with pneumonia for several days. But we are glad to say that he is better now.

Messrs John Sample, Haden Killingworth, Baley Edding, Irie Sirells, Erle Cost Emmett Oakes and John Oaks were at Mr. Reynolds' Saturday night and also Misses Dewey Johnson, and Lillian Johnson.

Mr. Ebe Cost spent Saturday night with Mr. John Oakes.

Mr. and Mrs. Will Reynolds of Jemison took a flying trip toward Montevallo Saturday evening.

Miss Dewey Johnson and her sister spent Saturday night with Mises Eunice and Ada Reyuolds.

Mr. Dans Killingsworth of Montevallo has purchased him a new auto, and he and his son, Bernie and Mr. House Comer took a joy ride Saturday evening.

Miss George Killingsworth was a visitor to Mr. Dane Killingsworth Saturday and Sunday.

Misses Essie and Petty Watson went to Montevallo Saturday evening.

Mr. and Mrs. Markes Roberson and daughter visited relatives near Callen Chapel Saturday, returning.

Mr Clint Cost and Mr. Flim Martin visited Mr. Mormon Cost of near Mineral Springs Saturday.

Mr. Orm West and Mr. F. B. Williams went to the singing Sunday afternon at Mt. Nebo.

Mr. John Oakes who has been crippled for a year is doing very well now and he spent the first part of last week with his brothers.

A crowd from Wilton went to the singing at Mt. Nebo last Sunday.

Mr. Lawrence Bean sqent Sunday morning with Mr. Lonzo Oakes.

Hop Killingsworth and Newt Martin have put them down a saw mill near Dry Valley.

I will close, with best wishes to the Union-Banner.

CANE CREEK

Editor Union-Banner:

Please allow me space to say a few words in your valuable paper.

Health of this community is fairly good at present.

Our Sunday School at this place is somewhat dull right now, but we hope to have a good one soon. We are expecting to have all the young boys and girls and a large crowd of men and women at this place next Sunday, with their hearts full of bible and ready to get things started up again. People, it is a shame that we cannot have a good Sunday school here. Come let's try.

A large crowd from here went to the singing at Jacksons Chapel Sunday afternoon.

Miss Mae Williamson has returned home after a weeks visit to her cousin, Miss Adell Williamson.

I hear some of our Cane Creek children are carried away with their fortunes and dreams. Children, God only gnows what is going to happen in the future. Believein God; He is the one to go to about all things, and if you will carry your troubles to Him, He will sure help you.

Guess I will close for this time, and will write again some other day.

LITTLE VIOLET.

WALKER-SNEAD

The marriage of Miss Lena E. Walker to Mr. T. Carson Snead was quietly solemnized at the home of Rev. W. R. Seymoure in Montgomery last Sunday afternoon, in the presence of a few intimate friends and relatives.

Mr. Snead is quite a succesful farmer of Bibb county.

His bride is one of Chilton county's most popular young ladies. She has been teaching in this county for the past few years, and has a number of friends wherever she is known.

Their many friends extend hearty congratulations and best wishes of a happy life.

MORE ABOUT ROOSEVELT AND PRESIDENTIAL RACE

Every Way They Turn They Find Teddy Bobbing Up.

Washington, March 30.—Evidences are multiplying that the managers of the Progressive or Bull Moose party are planning to have their convention nominate Theodore Roosevelt for president, in advance of the action of the Republican convention at Chicago. Republican congressmen, as a rule, are up in the air over the outlook. They are known to be receiving letters from all over the country to the effect that the situaion is alarming. Evidenly, the game is to scare the regular Republicans into nominating Roosevelt, or run the chances of another serions division like that four years ago, when the Democratic party swept the country.

The belief is growing stronger in Washington that a deal is on in Pennsylvania to have Senator Boise Penrose and his political lieutenants fall in behind the Roosevelt movement. It has been rumored for two months, but not until lately has much credence been given to the assertion that, rather than turn up on the losing side, Penrose would be willing to swallow his pride and mount the Roosevelt "band wagon" in order to prevent Governor Brumbough from crushing his power in the Keystone state A Pennsylvania Republican, who is keeping close track of the sitation, says that in spite of the mean, harsh things Roosevelt has said of Penrose, the senator is a "machine" politician, and he is going to line up wherever he can make the best bargain.

Penrose Wants Winner.

The main thing, in the opinion of Senator Penrose and his chief followers, is to tie to the man who is likely to be in a position to run over the Federal patronage.

The same Republican contends the movement in the interest of Brumbaugh is really in the interest of Roosevelt, and Penrose realizes that unless he cuts in and fore stalls the governor, he may wake up in Chicago and find that he has been lost in the shuffle.

What bothers most of the regular Republicans is that there is too much talk about uninstructed delegations to be sent to the national convention. They are beginning to fear this means a majority of the delegates will be free to join in a stampede to Roosevelt. The "old guard" Republicans want them instructedoutright for the candidates who openly admit they are in the presidential race.

Southern Republicans who have been here within the past ten days, bring the news that most of the delegations from that section will be sent to Chicago without instructions.

VAT BLOWN UP BY DYNAMITE CHARGE

Tuscaloosa, Ala., April 1.—The sheriff's office today received news of the destruction of one of Tuscalosa county's new dipping vats in Beat 20, about nineteen miles west of Tuscaloosa. According to information received here, the vat was destroyed by unknown persons with a charge of dynamite. During the last two years, ove 60 vats have been built in Tuscaloosa county and recently the voters voted to pass a law to make dipping of catle compulsory. This is he first instance of any trouble in regard to the dipping of cattle.

MOCK TRIAL

There will be a mock trial held at Bethel School House next Saturday night, April 8, six miles south of Clanton. It will be a horrible cold blood murder case. The attorneys will be young men from Lomax.

H. Carlton Golden and Reuben Jackson will represent the state; and T. Cleveland Jackson and Sloan Parker will represent the defendant.

We cordially invite everybody to come and hear a genuine circuit court which will be conducted in the very latest manner.

The case will be called at 7:30.

DEBATE AT COLLINS CHAPEL

There will be a debate at Collins Chapel on Thursday night, April 6. The subjec is resolved that capital punishment is just for the people of the United States. Affiimative Dewey Foshee and Ellie Daniel; negative, Aaron Vines and Herbert Lowery.

CHILD DIES FROM BURNS RECEIVED IN CORN FIELD

Gadsden, Ala., April 1.—Flora, the 12-year-old daughter of Will Tanner, near Hokes Bluff, while assisting her father to burn corn stalks yesterday afetrnoon, received burns, from which she died this morning. Her father's hands were seriously burned when he tried to save her.

CLANTON POST OFFICE

List of letters remaining uncalled for in this office, for the week ending April 1st, 1916.

LADIES.

D.A. Wilson, Velvie Mims, Vergina Jones, Arres Baker.

GENTLEMEN.

Jim Rushton, Rev. M.J. Parker, J. P. Dutton, Peter Cooper, Jake Eiland J.G. Baker, W.C. Adams.

These letters will be sent to the Dead Leter Office April 15, 1916, if not delivered before. In calling for the above please say "Advertised," giving date of list.

B. M. ROBERTS,
Post Master.

C. REESE MULLINS WRITES TO VOTERS

Clanton, Ala., April 3, 1916.
Editor Union-Banner:

My Dear sir and friend:—As I am a candidate for Judge of Probate, and feel sure that I will not be able to see all the voters in the county before the primary election comes off in May, and feeling it my duty as well as my pleasure to express myself on the political situation as I see it, I will ask you to please publish the following letter.

First I want to say that I am proud to know that I have been a life time Democrat, and I am as proud to know that we have in the county some men who are just as good as myself and perhaps better who have been life time Republicans, we also have quite a number ofgood men in this county who several years ago thought that to organize a third party would perhaps tend to purify the political atmosphere, so they proceeded to do so. First they named it the Farmer's Alliance then the Farmer's Club then the third party then the Progressive party and before they could study up another name their leader had gone back to the Republican party and what has happened? They are gaping for breath and begging the real Republicans and all others that will, to come to their rescue, and if they should succeed, I suppose they will name it the Conglomeration party; But I don't believe they are going to succeed.

The third party in this county has served its day, and perhaps done some good, for most of those men I believe have been honest and meant good but I want to tell you the sun of the third party in this county has set, never to rise again, and I don't believe the conglomeration party will ever be born.

Chilton county, Alabama, and the United States of America, are needing men to-day, and not parties, if you please. To-day we have only the two parties, the Republican party and the Democratic party, and they are nearer together than they have ever been since this great and God-given country of ours has been known to the world. The only difference is the opinion on the tariff question, and the Republican party to-day favors a revised tariff and the Democrats a protective tariff, where the Republicans once favored a high tariff and the Democrats a low. Now on this question we all must agree that the most learned and distinguished men of all this nation have differed for all ages. Some contend that under a Republican president we have better times and some say that under a Democrat we have better times; but I want to say we have good times and hard times under both, and we all know it. I want to be fair. Prosperiy ebbs and flows under different conditions, and no one but God in heaven could pssibly control.

When the war broke out in the East cotton was selling around thirteen cents a pound and this country flourihing like a rose under Woodrow Wilson, one of the greatest men that has ever been born on American soil, a Democrat, and his administation is indorsed by all.

Now if you do honestly think from the depths of your heart that under a Republican president we havebetter times than under a Democrat, I can see some reason for you voting for a Republican president; but I can see no reason on earth for a man voting a republican ticket in this southland of ours. The Democratic party was here before the war, it is here today and it will be here when Gabriel shall place one foot on the land and one on the sea and sound his trumpet as a token that time will be no more.

With the Republican party in Chilton County and in Alabama you must stand alone and you are bound to know this is true, for every office in the state is filled with Democrats, except one or two counties that are mixed up, and this has been so every since the Ku-Klux and the Democrats put out the negro.

Now I want to ask the Progressive party what do your men do when you put them in office? You elected Lige Thomas to represent this county in the legislature, and what did he do? The first shot out of the box you say he helped to create an equalization board for this county to raise your taxes and then your commissioners gives them six dollars per day and transportation to go do it. You can't say Deason done this. Again I want to ask you who you are going to vote for to fill the state officies, a Democrat of course, for there is no other in the race and you can never hope for there to be.

Now in the name of common sense, and all fairness, I can't see what we can promise our selves out side of the Democratic party in Chilton County and in Alabama, for no other party has ever accomplished any thing in this state or ever will. The only thing you can ever hope to do is to give a few designing men in this county an office, that would not give a flip of their finger for you. The Democratic party, composed of your fathers and mine and our grand fathers before, have been flying the flag of Democracy in Alabama and the south long before you and I were born and will be when you and I and the rising generation are lying silent in our graves. I don't pretend to say that the Democratic party has not made some mistakes, but I do claim that they have done all for this south land of ours that has been done, and under their guiding hand we have grown from a dense forest, into fertile fields, good schools, large churches and great cities.

Now we should no longer be divided, but we should place our hands on our hearts and come together, you who have left the grand old Democratic party should come back home, and if it is not what it ought to be then you should help to make it what God Almighty intended that it should be.

I am a Democrat for this reason, that the very foundation of Democracy is based on this great principal Of the people, For the people and by the people and I don't care under what name you may go you are bound to accept this as being absolutely correct. This being the case I want you to ask yourself the question What am I, the echo comes a Democrat. I believe the time has come when the intelligence of he opposing party in this county sees the point and that they are going to get in line with all the other Democratic counties and their state.

Now as to who I am and what I am it is utterly useless for me to attempt to tell the people of Chilton county, for most of you older ones have known me from childhood. I was born on Sept. 12th, 1871, in the north esastern hills of this county, some say "stumps hills," and educated in the public schools of that day and time. My father was a poor man and had not recovered from three long years service in the war when I came along, and for this reason he could not give me a finished education, but he did the best he could and for his sake and for the sake of my old gray haired aged mother, who rocked me in a Democratic cradle, I cannot and will not forsake the principles for which he fought and for which she rocked. I also have relatives, and friends who have relatives that left their homes and loved ones here to go fight for this country, who are lying to day in some unknown grave, having given their lives for the lost cause and for their sake I will never forsake the principles for which they left their homes and fought and died, but on this I must not dwell. Now as to me I am just a man like all other men, full of mistakes, perhaps and imperfections. I don't claim to be a perfect man by any means, if I did I would start out at once preaching the gospel of my meek and lowly Jesus, and I would go where he wanted me to go and I would say what he wanted me to say. Now when a man gets into politics some one is always ready to say that he won't do, that he has done this or that or that he has defrauded some widow woman out of something. You may hear something on me or on some of my opponents, but if you do you should take this up with us individually for things of this nature has nothing to do with the great question at issue. If you will show me a man in this county or any other county that some one would not try to knock in some way I will get out of the race for Judge of Probate and beat Jack Jennings to congress.

When I started out in the world for myself, I made up my mind to take my medicine as it came and if the other fellow got the best of me in a deal I took it for my part and would not even tell my wife, but there are some men in this country when they fail to get the best end of a deal they go around chafing about it to others. If I did not have any more grit in my craw than that I would go home and surrender my pants to my baby boy ang get my wife to make me a sugar tit.

There are a good many other hings I would like to say on the political situation, but I will close for this time and now in conclusion I want to say to the Democrats of this county that in asking at your hands the nomination for Judge of Probate, I don't feel that I am asking you for this on a credit. I feel that the price has been paid.

The testimony can be linked in one after another for the past sixty years or more, the evidence is in and I feel that I am entitled to your most serious consideration. And now I submit my case into your hands feeling that on the 9th day of May, 1916, that your verdict will be that I am your nominee for Probate Judge of Chilton County by a large majority, for which I will be,

Yours most tenderly,
C. REESE MULLINS.

(Paid political advertisement, by C. Reese Mullins, Clanton, Ala.)

MARS HILL

Editor Union-Banner:

I want a little space in your paper to say a few words in regard to the political situation.

Hurrah for Mr. Bice. He hit the note when he said he would not support any man who would give the peoples' money to high schools, and leave the rural schools out.

I have been watching politics for twenty years, and I want to say it is time we look out and see what is going on. There is something dead up the branch. When you see a third ticket in this county, it means something; they are trying to divide the common people so those sharks can get in again. Be careful and don't let anybody side track you.

We want the fellows who are running for the school board to let the people know where they stand on all questions. Mr. Cobb did the right thing about it in his letter.

Didn't Reynolds say a whole lot when he spoke of the fellows who would put their arms around your neck and ask you to vote for them, when they went to Montgomery and tried to have your liberties taken away from you.

With due respect to all the candidates that are running, I want to say that Mr. Hubbard is a fine old gentleman, and he made a good official; but Mr. Hubbard had the office long enough. He told the people if they would elect him the third time, he would never be a candidate again. I say this with all due respect to Mr. Hubbard, for I always stood by him, but I can't do it this time.

I have been wanting to hear from Mr. C. D. Foshee on the school board.

Mr. Editor, I am looking for a great victory this time.

Respectfully,
C. L. LANGSTON.

Jemison, Ala. March 27, 1916.

PARDON NOTICE

Notice is hereby given that the undersigned, convicted at the Spring Term, 1908, of the Circuit Court of Chilton County, for first degree murder and sentenced to life imprisonment, will make application to the Board of Pardons at the May Term, for pardon or parole.

LULA TILLERY

Don't forget your subscription to The Union-Banner. We need the money.

What a Policy of Protection Means

Defense of the Constitution and maintainance of our National Sovereignty.

Butler (Mo.) Record.

The policy of a Protective Tariff means much more than merely giving our industries a chance to thrive and develop. It means a defense of our constitution and our sovereignty quite as much as would guns and soldiery. Hence, it would seem that every patriot should favor a Protective policy of the government—not only this government, but of every government having a constitution to defend and preserve.

On the other hand a policy of Free-Trade, or a Tariff merely to get revenue enough to run the government, is no defense to the constitution, nor to our sovereignty as a nation. Under such a policy the only defense we can offer is war. And we are fast approaching such a condition in this country; for a few more years of a Tariff for a revenue only will so weaken us that we will be in no condition to defend ourselves against either commercial or armed invasion. Of course, right now, the European world-wide war is our only safety; and the principal will not involve us in ruin as quickly as it otherwise would.

This line of thought and reasoning leads to this conclusion: That the Democrats cannot successfully conduct our government for any length of time, even under the most favorable beginnings. The principle of a Tariff for revenue of Free-Trade is false, vicious and unpatriotic, and any government conducted under that policy is certain to become the victim of internal ruin, and hence an easy prey to marauding interests without, aided and abetted by Tory interests within. We do not say our country can not withstand a policy of this kind for a reasonable time; but do say and believe that the philosophy of our Democratic friends reduced to practice and extended over a period, say, of twenty-five years successively, will spell disaster to us as a nation, and make our boasted independence a hollow mockery and our constitution the jeer of he world—a "scrap of paper" to be spat upon by every vigorous nation on the globe.

The power to levy costum duties is the great defensive power of our sovereignty, and much more potent for good than the power to levy armies; for it is effective to prevent war, adn it builds up instead of tearing down the nation.

"Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes: "For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardui, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured me."

TAKE

Cardui

The Woman's Tonic

Cardui helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts, unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women,—why not you? Try Cardui. E-71

Don't you think that you had better send your fine watch, jewelry or specks to Dr. J. V. Higgins, Athens, Ala., before you have a common workman to "monkey" with them?

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you loose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant vegetable liquoid which will start your liver just as surely as calomel, but it doesn't make you sick and can't salivate.

Children and grown folks can take Dodson's Liver Tone because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated to-morrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel, your money is waiting for you.

POLITICAL ANNOUNCEMENTS

FOR PROBATE JUDGE

I hereby announce myself a candidate for the office of Judge of Probate of Chilton County, Ala., subject to the action of the Progressive Primary to be held on May, 9th, 1916.

In making this announcement, I am deeply sensible of the great responsibility attendant upon th office and, if nominated and elected, I here and now pledge my most arnest efforts for faithful and efficient service for all the people.

L. H. REYNOLDS

Paid political advertisement, by L. H. Reynolds, Clanton, Ala.

FOR PROBATE JUDGE

I hereby announce myself a candidate for the office of Judge of Probate of Chilton County subject to the action of the Progressive party in its primary to be held on May 9th 1916.

J. W. MOORE.

(Paid political advertisement by J. W. Moore, Clanton, Ala.)

FOR CIRCUIT CLERK

I hereby announce myself a candidate for re-election to the office of Clerk of the Circuit Court of Chilton County subject to the action of the Progressive party in its primary on May 9th., 1916.

M. D. FOSHEE.

MACEDONIA

Editor Union-Banner:

Please allow me space in your paper o say a few words.

Our Sunday School is still going and we hope that it will continue to improve.

The farmers here are getting along well with their crops..

J. Henry Robinson of his place visited relatives near Mineral Springs Saturday night and Sunday.

May the teachings of the Uuion-Banner shine like blossoms on a pumkin vine, and its circulation ever spread like butter on hot ginger bread. And I will close.

NOTICE TO TEACHERS

The next state examination for teachers will be held at Clanton at the Court House, beginning at 10 a. m. on the third Monday in April, 1916. All applicants should be present by 9 o'clock a. m. for registration except those who intend to file a second grade and taking for a first grade, and they must be present by 2 p.m. Tuesday, and those who intend to file a third grade and take for a second grade must be present by noon Monday.

W. T. BEAN,
County Supt. Ed.

NOTICE TO VOTERS OF CHILTON COUNTY

The new primary election law requires the publication in advance of the election to be held on May 9th, 1916, of a list of precincts and districts of all the qualified voters of the county, as the same appears from the books of the Registrar and the Tax Collector on file in the Probate office. To make this list complete so that it will contain the names of all our citizens who are entitled to vote, it is necessary that:

1. All person of Chilton County who now reside in a different precinct from that in which they registered must, in order o be entitled to vote, be transfered on he books on file in the Probate office, to the precinct where they now reside and such persons are requested to call at the Probate office and have his transfer made so that their names may appear on the published list of qualified voters.

2. All persons who are registered in this County, but who have paid poll taxes in some other County, should call at the Probate office and produce their receipts so hat their names may appear on the published lists of qualified voters.

E. B. DEASON,
Judge of Probate.

CHILTON VS. SHELBY HIGH

The Chilton County High School baseball team obened up the season Wednesday before a large crowd of spectors by playing the nine of the Shelby Couty High, the former being defeaed by a score of 5 to0.

For the first five innings both teams played shut out ball, the score being 0 to 0. In the sixth inning the Shelby High brought in four runs, some of which were caused by costly errors of the C.C.H.S. In the eighth the Shelby team made one more run which brought up their score to five, and Chilton still had not scored.

Wyatt, who was on he mound for the Chilton High proved to be invensible and kept the Shelby boys guessing by his large curves up o the sixth inning, when he was relieved by Rockett whose speed and curves kept the Shelby boys down for the remaining part of he game, allowing only two hits and no scores.

Griffinith for Shelby High allowed only five hits during the game.

Smith was the star hitter for the C. C. H. S., Chilton securing two two-base hits out of five times up, while Wooley for Shelby secured two single hits and one base out of five times up.

Considering the fact that this is the first game that the Chilton County High has played this season, they play ed very good ball. The team gave the pitcher good support from start to finish.

Heard umpired the game which lasted one hour and fifty-five minutes

YOUR STOMACH BAD?

JUST TRY ONE DOSE of MAYR'S Wonderful Remedy and Be Convinced That You Can Be Restored to Health.

Mayr's Wonderful Remedy has been taken by many thousands of people throughout the land. It has brought health and happiness to sufferers who had despaired of ever being restored and who now are urging others who may be suffering with Stomach, Liver and Intestinal Ailments to try it. PEOPLES TELEPHONE 96.

Happy as a lark, thank you!

And here's another grist of wisdom. Read up!

Dove of peace? Huh! Its a buzzard of death.

They're still scrapping over yonder —but what about?

Put sunshine in the home, brothers, and keep it there.

Occosionally, however, a word of truth filters through from Mexico.

Yes, yes, this is a presidential year —but not yours, we fear.

We hope, though that there will be no delinquent subscribers in heaven.

Uneasy lies the head that has no lie to tell. An editor, of course!

Never kill the goose that lays the golden egg, sonny. Keep 'em both.

When you go out shopping you scarcely realize that we are living under a free trade administration.

We might, of course, but we don't. No, we'll never spill that story—its quite to rich.

And now for another summer of hard work and fat bank rolls for our friends and farmers.

Love is a refining influence in any home, but a juicy beafsteak promptly hits the spot.

Callers are always welcome at this office, and trebly so when they ask for a receipt.

In the matter of preparedness we suggest, again, that proper consideration be given to better roads.

Any fool can spend money, but it takes a man to make it, and a wise guy to hang on to it.

You just bet we don't dream of Villa! We read and hear enough of the cuss during the day.

Opportunities? Plenty of them, brother. But it takes eyes and brains to see and to grasp. Shake yourself!

When a stingy dog gets hold of a bone he growls at every other dog in sight—just like some men.

Wilson or any other fellow is bally welcome to the blamed job. We do not want it, wouldn't have it and positively and absolutely refuse to take it.

We expect to meet many preachers and editors when we get to heaven. And we have hopes, at times, of finding a stray doctor and lawyer or two.

Love our neighbor? Of course we do. We even hope the merchant that never advertises succeeds in squeezing through a crack into heaven.

Hunting Villa reminds us of the story of the Irishman and the flea—with apologies to the flea, however, for the comparrison.

The Duke of Manchester says that all women are born actresses. Some he avers, even laugh at treir husband's jokes. But ours don't.

Great times ahead this summer. Everybody but our wife wants to be president, and she is too deliriously happy to give anything else a passing thought.

FARMERS AND DUDELETS

"Oh, he's just a farmer out here in the country."

We stood on a street corner the other day and heard that remark passed by one of the "brilliant" young masculine striplings of our town as he "bummed" the makings from a friend.

The farmer, to be sure, was just a farmer "out here in the country." He wore overalls and drove his wagon into town, but at home his automobile rested snugly in the garage. He owns one of the most valuable farms in this whole section of the state. His home life is ideal and his wife and children have everything they desire. His simple word is as good as his check, and his check would be honored for a sum that might stagger you.

He is a man, a real man, a man whom other men acknowledge to be a man among men, even if he is "just a farmer out here in the country."

But what of the stripling, what of the dudelet?

He is just one of that numerous class who always know everything and never do anything, who amount to nothing and are worth less. He is just a dudelet, and it is doubtful if he ever attains to the "dignity" of being a real dude.

Yes, he is "just a farmer out here in the country," but he is our friend he is everybody's friend, and time may prove him to be a "friend in need" of the poor, vapid, brainless dudelet.

We need a thousand more just like him—this man who is just a "farmer out here in the country", and whom we are proud to know as our friend

Poor, deluded dudelet! May he never be worse!

Easter Sunday

Is a great event for the American woman, and this store is a great place for women who desire to appear to advantage on such occasions---upon all occasions.

We are displaying a splendid array of Spring and Summer Wearing Apparel for women, with especial attention given to your wants for Easter. It is useless for us to attempt a description of them all. You simply will have to see them to even begin to appreciate the the beauty and values of these goods. We WANT you to see them.

Even a Man Likes to be Well Dressed on Easter.

This store is prepared to serve you economically and acceptably in anything for Easter, from a full suit to a 25 cent necktie. No article, no detail, is lacking---and in every instance the price is to your liking. You practice economy to the limit when you buy your spring and summer wear here.

ANOTHER LETTER FROM MR. COOPER

I have read with much surprise and amazement my friend Bice's letter in last weeks issue of the Union-Banner.

To say I am surprised at the meaning Mr. Bice placed upon my letter of week before last, is indeed expressing my sentiments in mildest terms.

I thought that I made my position clear relative to the high school—so plain that the "wayfaring man, tho' he be a fool, would understand it."

I stated in my former article that I did not think the money put in the high school was a bad investment, but, however, I did not approve of the manner in which it was done.

I think the matter should have been referred back to the people for their consideration. It would not have been necessary to hold an election, because that would have been rather expensive.

An expression from the people could have been had in the same manner as it was recently obtained relative to the new and old road law.

I do not think that the commissioners should refer every little thing back to the people, but when it comes to spending several thousand dollars I take the stand that it is right to consult the ones who have to pay the bill before any action is taken.

I am strictly in favor of the advancement of education, and of course I have the interest of the country schools at heart, because the education I have was obtained in a little country school.

Mr. Bice states that if the five thousand dollars had been given to the country schools that it would have made nine months schools all over the county. He does not say for how many years, but I presume he looked on it as being miraculous—just like the widow's meal barrel.

For Mr. Bice's information, I will call his attention to the fact that there are one hundred teachers employed in the county at an average salary of fifty dollars per month; so you see it takes five thousand dollars to pay them for one month's work. Where is the nine months coming from?

Mr. Bice states further in his article that the state pays fifteen thousand dollars per year for the up-keep of the high school. The state only pays three thousand dollars to the high schools each year; so my friend Bice missed it twelve thousand in this case

Mr. Bice also states that board will cost eighteen dollars per month at Clanton for boarding pupils at the high school. My brother has been going to the high school and he obtained board at twelve and one-half dollars per month.

Mr. Bice states further that board and tuition can be had at Thorsby at twelve dollars per month; he also says that the schools there do not receive any aid from the state or county. He wishes to leave the impression that the first class school can be maintained at a total cost of twelve dollars per month.

Why is it that he does not state the facts in the case, and say that there are two religious institutions there and that the religious people contribute largely to the support of the schools.

How does Mr. Bice know that the people of Chilton were against the high school. Since he made such large mistakes in the foregoing instances, the people down this way think that it is possible for him to make other errors.

As previously stated, I am strictly in favor of the majority ruling in such cases.

But I do think when anyone expresses himself publicly that they should keep their remarks within the bounds of reason, and not mis-represent cold facts.

The Press states that the people would make a great mistake if they elected me as their commissioner, because I was in favor of referring matters of importance back to the people. The Press further states that it would have cost twenty three hundred dollars to have gotten an expression from the people. The expression recently obtained from the people relative to the road question never cost twenty three hundred dollars.

I am satisfied that my policy don't appeal to the Press, but nevertheless, if I am elected commissioner, it will be, my plan to refer important matters back to the people.

With best wishes and kindest regards, I am,

Yours very truly
CHAS. COOPER.

LOMAX LOCALS

Health of this community is reasonably good with the exception of Mr. Bill Jones, who is real sick, but we hope for his speedy recovery.

We are having some rain in this section, although the farmers have been busy planting corn, and are getting along fine with their work.

Mr. Grant Robinson and family have moved off to Coosa county and are greatly mised by their many and dear friends.

The singing at Mr. John Parker's Sunday night was fine and was enjoyed by all present.

Mrs. Fox Parker of near Birmingham spent Sunday uight with Mr. and Mrs. John M. Parker.

Jim Johnson and wife and Elijah Johnson and vife from east of Clanton spent Saturday and Sunday with Mr. and Mrs. A. J. Jones.

The birthday party at Mr. Fletcher Parkers given in the home of his brother, Phill, Saturday night was certainly fine and enjoyed by all.

Miss Maggie Jones spent Saturd night with Miss Essie Parker.

An enjoyable and well arran birthday party was given by Mr. fas Littlejohn last Monday night honor of Miss Belle.

Come on boys and girls; let's r this paper a success and of int to its many readers. We love to letters from all over our goo county every wek.

Notice is also hereby given that any voter whose name has been inadvertently or through mistake omitted therefrom and who has paid all poll taxes due and who is legally entitled to vote, shall have ten days from the publication hereof to have his name entered upon said list of qualified voters.

E. B. DEASON,
Judge of Probate
Chilton County, Ala.

UNION GROVE

The school at this place closed Friday, March 31. This has been one of the most successful schools we have ever had.

This was Prof. Smith's second year at this place and the people showed their appreciation of his work and untiring efforts in behalf of the school, by electing him unanimously for another year.

IT is not yet known whether or not he will accept the school for another session.

An ameteur play—"A Wise Man" was staged Friday night by he following cast of characters:—Prof. Wise—Joshua Sorrell; Dr. Graham—Edwy Conway; Billy Blake—Pomp Robinson; Jupiter, a colored servant,—Robinson; Zoie, Prof. Wise's first wife,—Bertha Conway;June Graham—Lessie Robinson; and Roseland Wilson, the reporter,—Bessie Chanbler.

This play will be berformed later at other qlaces over the county.

Prof. Smith will attend school this summer either at the University or a Howard College. He goes to Birmingham Thursday to attend the Alabama Educational Association.

Misses Bertha Conway, Mae Dorminy and John Dorminy and a few others went to Collins Chapel Saturday night.

Misses Bessie and Lessie Robinson spent Saturday night with Miss Ora Shaw.

Misses Mae Dorminey, Bessie and Lessie Robinson atended he singing at Mt. Moriah Sunday afternoon.

We will close with much sucess to the Union-Banner and its many readers.

HENRY FORD LEADS IN PREFERENCE VOTE

Detroit, April 4.—With less than one-third of the voting precincts in Michigan heard from, Uuited States Senator William Alden Smith of Grand Rapids had overcome a large part of the plurality which Wayne and other counties had given to Henry Ford of Detroit in the presidential preference primary yesterday. Returns tonight showed Ford leading by 1619. The vote stod: Ford 23,319; Smith 21,700.

Woodrow Wilson was unopposed on the Demosratic ticket.

FAIRVIEW LIVE STOCK ASSOCIATION

The Fairview Live Stock Associaion was organized with twelvemembers on March 31. They will meet again on the night of April 7.

W. O. Durbin was elected President and J. D. Culp, Secretary. W.H. Conway and J. N. Dennis assisted in the organization.

J.W . Cagle, candidate for the Justice of Peace of Beat 6, was in Clanton Monday an business before the Commissioners court.

NOTES FROM GIRL'S CLUB

There are few things in the county growing any faster than the club work girls. Fifty-eight members last week and one hundred, six this week! How many more next?

We give them all the hearty welcome and urge them to remain with us thoughout the year. So many begin work but drop out when the first discouragement confronts them, and thinking that all members are succeeding but them. In our monthly club meetings, by having a report from each member, we hope to overcome this difficulty, and give encouragement to each and every member.

We are under obligation to Supt. Bean for organizing an enthusiastic club in the Alpine district. It is a combination from which we are expecting results—pigs, corn and tomatoes,three in one.

The Clanton Club was organized Friday afternoon with fourteen members. Miss Margie Murphy was elected President, Edna Lowe, Vice-pres. and Kate McNeill, Secretary.

At Coopers the same afternoon the club elected its officers and perfected their organization. Under the leadership of Miss Jeannette Ledbetter, one of our wide-awake third year girls, we feel sure that we will hear of successful work done by this club.

One girl writes hat her father will give her a canning outfit for a birthday present. What a sensible father! What a fortunate girl to have such a father. How many who work in the country will go and do so? With several canning outfits in each club, our work will indeed be a joy. Sush gifts show cooperation in the homes, which will insure success.

MRS. LIDA JONES, AGT.

The unconsoling part of being a dead hero is the lamentable fact that you never know that you are either dead or a hero. Not for us!

Clanton, Ala.
Clanton, Ala., April 3, 1916.—
Editor Union-Banner:

Will you give me space to answer a fe wquestions that are being asked by the voters of the county?

I am a Republican work and filling. But as the Republican party could not have a primary, I thought it best for us all to go into the Progressive primary to ge the voice of the people.

I believe in honest elections, fair counts and a majority rule.

I think the people should have the right to elect heir superintendent, and if I am elected for a member of the board of education, I will help to appoint a man for superintendent who can get the endorsement of the people. My plan is to let each district meet and endorse the man they want for superintendent; but if some one has a better plan, I will take theirs.

I belive the people in each district should have the right to elect their teachers, and the board of education should employ such persons for them, if possible. I am materially opposed to taking the people's rights away from them in any way.

It was not my own will that I announced for a member of the board, but by the request of my friends, edand for the good I hope to do if I should be elected.

It is well known that it will be no oay for me, but if the people think I am the man for the place, I will do he bes I can; and if hey think I am not the man, I will be satisfied and will help to elect the ticket nominaed by he people.

I am opposed o stunting the common schools to build high schools. I think it should be made possible for every boy and girl everywhere to get a common school education and then do what we can toward the high schools.

Respectfully,
G. W. EDWARDS.

CARD OF THANKS

Editor Union-Banner:

Dear Sir:—Please permit us space in your paper to say a few words in the expression of our thanks to our neighbors and to all who so kindly and liberally assisted us during onr recent time of need. Losing our home ,left us in a bad shape; but friends by their work, money and other needful things have greatly lessened the hardship that would otherwise have come to us.

Gratefully Yours,
J. F. JONES AND FAMILY.

"CENDERELLA"

An Operetta, will be played by the Thorsby Dramatic Club at the county high school auditorium Thursday night, April 6. Admission, adults, 25c. children, 15c. Proceeds will be used by the school improvement association.

DELINQUENT TAXES

Clanton, Ala., April 3, 1916.
The State of Alabama, Chilton County.
To whom it may concern:

The Boy is Father to the Man

Old sayings like this are fraught with a most important meaning. And what

will aid the expectant mother in conserving her health, her strength, her mental repose and the absence of vexatious pains is a subject of vast moment. Among the recognized helps is a splendid remedy known as "Mother's Friend." Applied to the muscles it sinks in deeply to make them firm and pliant, it thus lifts the strain on ligaments that produce pain, it lightens the burden on the nervous system, induces calm, restful nights of health-giving sleep and makes the days sunny and happy. Get a bottle of "Mother's Friend" of any druggist and you will then realize why it has been considered true to its name in our best homes through three generations. It is perfectly harmless but so effective that once used it is recommended to all expectant mothers by those who went through the ordeal with surprising ease. By writing to Bradfield Regulator Co., 712 Lamar Bldg., Atlanta, Ga., you can have a free copy of a wonderful stork book that unfolds those things which all expectant mothers delight to read. Write today.

It is mailed free. Among its features are an explanation of the remedy's action, the first pulsations, prefatory uneasiness, date of expectancy, how to be comfortable, and a great variety of topics all bearing upon the one subject of expectant motherhood. Then there are many letters which describe actual experiences, making of it a guide book of great value. Don't fail to write for this book.

LIST OF THE VOTERS IN CHILTON COUNTY

We are publishing this week, for the benifit of the voters of the county, a list of those in the county who, according o official records, are entitled to vote in elections this year.

The list was complied by he Probate Judge, and is published for correction.

Ten days from the date of publication will be given for these corrections, and if your name is not entered on the list properly, you had better come see the Probate Judge and have it corrected.

It is our understanding that your name must appear on this list correctly or your vote will no be legal.

Don't neglect this as it is a matter of importance.

If your name appears listed in the wrong Beat, it is necessary for you to see the Probate Judge and have it changed to the right place.

Owing to the great volume of the list of voters which we are publishing this week we were unable to publish a number of letters and correspondences which were sent in. We want to ask our writers not to get offended if their leters failed to appear this week. We wanteveryone who has been, and mare too, to write to the paper. Let us hear from you all again next week. Space will be plentiful and we want to fill up with news from every community.

THE EDITOR.

Simpkins Prolific early variety of cotton seed for sale; $2.00 per bushel. Clanton Mercantile Company.

MT. PLEASANT

Mrs. Richard Gideon of Birmingham is visiting relatives here.

Mrs. Ella Jones of near Birmingham is visiting her mother, Mrs. Julizzie Foshee, who is right feeble.

S.B. Dupriest and D.P. Robinson have just returned from a visit to Coosa county.

W. O. Durbin and U. C. Roper attended the stock association a this place Saturday night.

G.H. Massey, W.H. Foshee and W. M. Price have just completed their dipping vat, which is now ready for use.

Monroe Foshee and family spent Saturday night at Lonnie Price's.

T.G. Robinson and family recently visited at R.M. Butler's.

L.O. Vickers and wife attended the school closing at Collins Chapel Friday.

There will be a debate at this place next Saturday night. Subject,—Resolved, that the United States should be better prepared for war. Affirmative, Aubrey Martin and Akin Mims; negative,C.C Scroggins and Ebgar Barrett.

This is a vital subject of the day. Come out and hear it discussed.

The Mt. Pleasant Live Stock Association met Saturday night and adopted their constituion and by-laws.

The association has foureen members, and all will grow berkshire hogs. The members are the ownership of about 25 pure-bred Berkshires and are buying more breeding stock.

Mr. Walter Foshee bought a fancy Berkshire boar from the Ook Grove Stock Farm at Felix, Ala.

The association will meet on the night of April 12. All who are interested would do well to attend this meeting.

LITTLE VIEWER.

Simpkins Prolific early variety of cotton seed for sale; $2.00 per bushel. Clanton Mercantile Company.

TO THE LAND OWNERS OF THE STATE

The tax records in this office show that large acreage of lands and also quite a number of lots in the various towns and cities of the state have been sold to the state from the year 1881 to 1915 for taxes.

As application has been made to purchase some from the state and in order to save the owners of these land and lots trouble and expense in defense of their title, I am taking this method in asking the various Judges of Probate, together with the tax assessors, to check list of applicatins to purchase with the plat book of their counties and where they find these lands being assessed to noify the owners that application hase been made to the state o purchase said land under tax sale of the state (give date of sale and if not redeemed or declared an erroneous sale within 60 days from the date of notice the state will sell to parties making application and that application to redeem is made hrough the Judge of Probate's office of the county in which the propery is located.

Very respectfully,
M.C. ALLGOOD.

RHEUMATISM IS EASILY RELIEVED BY CLEANSING THE BLOOD

S. S. S. Gives Quick Relief by Toning Up the Blood.

Yes, but how? A natural question. The answer is that you must cleanse your blood by stimulating it to healthy, vigorous action, so that it will throw off the germs and impurities that cause Rheumatism. The action of the wonderful blood purifier, S. S. S., is to practically renew the life blood, giving it vigor, stimulate the flow, making it throw out the germs and the poison impurities. The excruciating pains of Rheumatism, whether it is the shooting, stabbing Sciatia, the gripping agony or muscular Rheumatism, or aching arms and legs that break up sleep, will be entirely relieved by S. S. S. Don't use nostrums and drugs. Take the blood bath—Nature's blood tonic, S. S. S. Get it at any druggist's, but insist upon S. S. S. Let us tell you about blood diseases. Send for booklet, "What the Mirror Tells," or if yours is a peculiar case, write Swift Specific Co., Atlanta, Ga., but begin treatment at once.

Uses and Abuses of Fertilizers

By Prof. R. J. H. De Loach, Director of Georgia Experiment Station.

5. FERTILIZERS AND HORTICULTURE.

The Fifth of a Series of Six Articles.

The fruit and vegetable growers are always leaders in the use of plant foods for their crops. This is especially true of the vegetable growers. What they wish is rapid growth in their produce, so that they will get the vegetables on the market in the shortest possible time from the time of planting. This is the secret of success with vegetables, and the only way to meet such conditions is to apply fertilizers in large quantities. In the next paper we shall tell about the "home garden" and how to fertilize it. In the present paper we are to tell more particularly about fruit trees and other horticultural plants.

The relation of apple growing to fertilizers has never been very carefully worked out. We know that the use of fertilizers with fruit trees, and especially apples, pays, but we have not yet worked out the best formulae for the various kinds of trees, nor the amounts which pay best. Brisbin says, in his book on "Trees and Tree Planting," that in planting young trees large quantities of manure should be used in preparing the place for planting. These manures should be rich in plant food elements if the trees are expected to make rapid growth. The best way to increase the plant food in manures is to add to the manures the mineral elements in various forms, and mix with leaf mold and manures. Brisbin also recommends that weeds should not be allowed to grow around the apple trees, as they will take up the plant food which is put down for young trees.

The best method of producing fruit is to keep the field or orchard clean by growing other crops which require constant attention and cultivation. Most farmers and horticulturists fertilize the crops that grow in the orchard, and in this way save the expense of fertilizing the fruit trees again. In many instances legumes are grown as a cover crop, and, incidentally, to furnish nitrogen. The orchard cannot be cultivated too deeply, or injury will result. It needs to be cultivated shallow, and manures or fertilizers applied in reasonable quantities. While it is necessary to put fertilizers near the trunk of the tree, yet the roots scatter pretty well over an orchard, and the plant food that happens to fall further away from the trunk is not lost.

A large crop of apples or peaches takes from the soil much plant food, such as nitrogen, potash and phosphoric acid, and unless this is supplied from time to time, the trees will prove less fruitful and finally bear very little fruit, and what they do bear will be of poor quality. The argument that old trees in pastures bear good fruit is not sound, because conditions prevail in many isolated places this way that cannot be duplicated in the orchard. Many times it is the natural leaf mold, woods earth, droppings from animals, and other materials carrying available plant food that make the fruit on such trees. Besides, such fruit is rarely ever as excellent and delicious as that grown in a well-kept orchard. Fruit, like all other kinds of field and garden crops, must be forced more or less to measure up to a high standard. To force the fruit, and at the same time keep the land fertile, we must apply to the soil as much fertilizer as the crop takes from it.

Fruit trees demand in their growth a fertilizer rather rich in potash and phosphoric acid, but not very rich in nitrogen. It was found that the citrus trees in California at the Riverside Experiment Station grew better fruit and did better every way with a complete fertilizer than with any single plant food element, or any incomplete combination. It was also found that the acid requirements of these trees were more completely supplied with sulphate of ammonia than from any other nitrogen source.

Many of the experiment stations have secured good results from fertilizing orchards, but none quite so good as the Ohio station. F. H. Ballou, in charge of work with apples, says:

"To sum up the results in increased fruit production from the use of chemical fertilizers on the very thin orchard land in southeastern Ohio, taking into consideration all our different plots at the various places covering 60 miles of country, we have the following:

Average per acre, per year fertilized, 100 barrels.
Average per acre, per year unfertilized, 44 barrels.
Gain per acre, per year, from fertilization, 56 barrels.
Cost of gain per barrel, per year, 17.8 cents.

This is the strongest endorsement for the use of commercial fertilizers in orchards that we have yet seen, and shows how it is possible to increase the incomes from an orchard by the wise use of the proper kinds of fertilizers. Prof. Maurice A. Blake of the New Jersey Experiment Station recommends an application of 450 pounds of fertilizer per acre with peaches. Prof. Starnes of the Georgia Experiment Station tried many formulas at the Georgia Station several years ago on peaches, and found that in every case the fertilizers paid.

PROGRAM.

Program for district Sunday school convention of District No. 2 to be held with Pates Chapel Sunday school on the second Sunday in April, 1916.

9:30. Devotional exercises, J. T. Blow.
9:45. Welcome address, Alex Maddox.
10:00. Sunday School hour.
11:00. Preaching hour, Dr. John A. Pool.
12:00. Dinner.
1:00. Devotional exercises, President.
1:15. Report of schools.
1:30. How and why have organized Sunday School classes, Miss Mae Stoddard.
2:00. Special music.
2:10. How can we become better Sunday School teachers, Herbert Wright.
2:40. The duty of the home to the Sunday School, M. C. Crumpton.
3:10. What am I going to do to make my school a better school, by the Superintendant and others.

We urge every Sunday School in the district to send delegates.

J. S. WRIGHT,
District Pres.

PROGRAM.

of the W. M. U. Quarterly Meeting of Chilton County Association, to be held with Pleasant Grove Baptist Church, Saturday, April 15.

10:00 a. m. Devotional service, by Mrs. J. A. Pool.
10:10 We are glad to see you, by Miss Rena Childress.
10:20 Happy to be here, by Miss Alvys Nix.
10:30 The purpose of the quarterly meetings, by Mrs. M. C. Crumpton.
10:40 Roll call of societies.
10:50 Building in His name, by Miss Bamma Wright.
11:00 Entering an avenue of service as a leader of young people, by Miss Dulcie Champion.
11:20 Address by State worker.

Afternoon Session.

1:30 Song: Open the door for the children.
1:35 Psalm 57 recited by the sunbeams of Thorsby.
1:45 Address by State worker.
2:30 Opportunities at Pelham for preparation for service, Miss Lena Franklin.
2:50 Why should I study missions, by Miss Madge Cooper.
3:10 Why should I pray for missions, by Mrs. Bessie Hayes.
3:30 Why should I give to missions, by Miss Vonie Morton.
3:50 Consecration service—"Can the Lord depend on me," led by Mrs. W. M. Scott.

Closing hymn, "Take my life and let it be."

Each church and society is requested to send two or more delegates.

K. N. Vinson was a visitor to Rockford Thursday.

THIN, FRAIL PEOPLE SHOULD TAKE TANLAC

Thousands Report Astonishing Gain in Weight in Remarkably Short Time.

POWERS OF MEDICINE CONCLUSIVELY PROVEN

Men and Women, Old and Young, Benefited Alike by "Premier Preparation."

One of the most noteworthy features in connection with the introduction of Tanlac, and the one that stands out more prominently than any other, perhaps, is the very large number of well-known men and women from all parts of the south who have recently reported an astonishing and rapid increase in weight as a result of its use.

When so many well-known people of unquestioned integrity make statement after statement, each corroborating the other, the truh of sutch satements can no longer be doubted.

Thousands have testified that this famous medicine has completely restored them to health and strength, after every other medicine and the most skilled medical treatment have failed.

One of the most remarkable cases on record is that of Mrs. Charles Peden, of Hutsville, Ala. Mrs. Peden, according to her own signed statement, gained twenty-seven (27) pounds in only a few weeks' time, and her case has created widespread interest over the entire country. She is reported to have received over eight hundred (800) letters regarding her statement since its publication.

Another remarkable case was that of Mrs. O. C. Cason, of Acworth, Ga., who according to her statement was recently brought in an automobile to Atlanta, propped up on pillows, to visit her sister, with no hope of ever returning home alive. Mrs. Cason at that time only weighed 60 pounds, and after taking Tanlac six weeks was on her feet again and weighed 95 pounds—a gain of 35 pounds.

Mrs. Wilhelmina Joiner, wife of a well-known engineer for the M., D. & S R R, whose address is 115 Third street, Macon, Ga., recently said: "I have finished my third bottle of Tanlac and have gained 35 pounds." She further stated that she had suffered nearly two years with nervous indigestion, and that Tanlac has entirely relieved her of her trouble.

Prof. Elmer Morris, a teacher in the public schools of Stewadt county, Tennessee, recently said that, after suffering over a year with serious stomach trouble, during which time he was treated by doctors and went to Dawson Springs, Ky., without getting any relief, he took three bottles of Tanlac, gained 20 pounds and was entirely well. Prof. Morris' address is R. F. D. 1, Dover Tenn.

Dr. J. T. Edwards, a well-known physician of Fayetteville, Ga., recently wrote of the remarkable recovery of T. M. McGough, of that place. Dr. Edwards stated that Mr. McGough, who was one of his paients, has not only been relieved of serious stomach trouble by Tanlac, but that he had gained 17 pounds on the medicine.

One of the most remarkable endorsements ever given was that of Mrs. G. W. Williams, of Gadsden, Ala. Mrs. Williams stated that she had suffered with serious kidney and stomach trouble nearly 15 years and that her condition became such that it was necessary for her physician to call three times a day. Finally she was told that there wash no hope for her recovery, and, thinking that she would die, she had her children, who were residing in other cities, summoned to her bedside. Her daughter, Mrs. R. C. Nelson, of Atlanta, arrived and begged her mother to take Tanlac, which she did. She was soon on the road to recovery. Her own words were: "Tanlac has made me feel almost as well as I ever felt in my life. I went from 90 to 138 pounds—a gain of 48 pounds. I'm doing most all my own housework now, milk the cow and churn the milk."

Tanlac is sold in Clanton by Upchurch Drug Co.

STATE'S TREASURY IS FACING DEFICIT OF $1,433,937.59

Newspaper Estimate, Made on February 20, Proves to be Nearly Correct.

MONTGOMERY, Ala., April 1.—When the State Treasury opened for business April 1, it faced an actual deficit of $1,433,937.59 or just $443,223.66 greater than the estimate of the deficit, which was made by the Montgomery Bureau of the Birmingham News February 20.

Included in the deficit of April 1 was approximately $285,000 for salaries of public school teachers, which the news paper estimate figured would not be included in the actual deficit until the day of April 1. The warrants were sent out Friday and this brought the amount into the deficit prior to April. Were this amount not included, the actual deficit would be $1,148,937.59 or just $158,953.85 more than the estimate of the newspaper.

John Weakley, Chairman of the Recess Committee on Finance and Taxation, estimated in an article on the success of the Legislature in removing the State from debt, that the State would be free of deficit by April 1. He predicted that the State would be out of debt April 1, provided tax collections for the amount on the books were made. The newspaper estimate was made from the actual condition of the Treasury on February 19 and an estimate of collection during the period between that time and April 1, using collections during the same period of the previous year as a basis. The correctness of this conclusion and this method of figuring is shown by the condition of the Treasury Saturday.

Warrants Outstanding

When the treasury opened for business Saturday, there were outstanding and unpaid warrants to the amount of $1,738,144.99 and the total amount of cash in the treasury was $304,207.40, making a deficit of $1,433,937.59. During the day pension warrants to the amount of $275,500 were added to the total deficit, increasing it to $1,709,437.59.

Refering to the burden on the treasury, April 1, the newspaper in the estimate of February 20 said: "The estimate does not include heavy disbursements which must come the morning of April 1. At that time the treasury will be called upon for $500,000 with which to pay teachers, Confederate soldiers and other persons who draw salaries from the State. This will place the State's deficit at $1,489,983.74 the afternoon of April 1." Showing further that the newspaper estimate was as near correct as one could be made at the time, the actual deficit with the warrants mentioned as being due April 1 included is $1,709,437.59 or $219,453.85 more than the estimate.

During the quarter beginning April 1, the treasury will be called upon to arrange for the payment of approximately $150,000 to educational and humanitarian institutions alone, not including public school teachers. This must be done during the period when little money is coming into the treasury. The tax-paying season has passed and the treasury must depend upon money from the convict department, Insurance Department and such odds and ends as may collect funds during the Summer.

In closing the estimate of February 20, the newspaper prediction said: "By October 1—beginning of the new fiscal year—Alabama will have a deficit of more than $1,500,000." It will have a deficit of more than $1,500,000 and indications now are that it will be much more.

Twelve Reasons Why You Should Buy Your Groceries of Us

No. 8.

BECAUSE we treat all customers with equal fairness.

Our grocery business is measured by the golden rule of a square deal for all.

Our prices are square, too.

OLIVER DRIVER

The body of Oliver Driver, aged 41 who died in a local infirmary Wednesday afternoon at 1 o'clock, was sent to Clanton, Ala., Wednesday afternoon at 3:30 o'clock by the Johns Uudertaking Company. He is survived by his widow and several children.

Remember that dollar you owe us on your subscription. We have just made some improvements in our printing plant, and are depending on you to help us out with our burden by paying up your back dues. Don't forget us when you come to town.

NOTICE TO MULE RAISERS

Bring your mares to "Phanco Reyas," a fine young Spanish jack, with size, style and action. A high-bred animal, and one that shows his breeding. Fee $10.00. K. C. MAHAN, Brierfield, Ala. adv. 3-30-4t.

With not a single Republican on any of the Commissions so far appointed by the President, it is easy to figure out the personnell of a tariff commission of his selection.—Ducktown (Tenn.) Republican.

Notice—I pay cash for chickens and eggs delivered in Clanton on Friday and Saturday of each week at standing market prices. Located at Broadheads store. W. J. Pullin. adv.

However else they may feel about infant industries, there is no disputing the fact that our free-trade friends in Congress have greatly taxed their gray matter.—American Economist.

BACK NUMBERS WANTED

If anyone can get us up a complete file of the copies of The Union-Banner for year 1915, and bring to our office, we will pay a liberal price for same. If you happen to have kept all your papers for last year, this is a chance to dispose of them at a good price. If you have only a part of the number, let us know what you have and we may be able to use them.

Here's A 'Tip' On Rheumatism Follow It

AN ACCURATE DESCRIPTION

When your arm or your leg feels "all knotted" with rheumatism, when you feel as though your muscles were "tied up with a rope," you are really describing your pains accurately. Rheumatism is a condition of the body when acids and other deposits of impurities are actually "tieing up" the strands of muscles in your body, or strangling the nerves and thus producing the awful shooting pains of sciatica, lumbago, etc. Medical authorities agree that these acid deposits are carried and deposited by the blood in the various parts of the body. It stands to reason, therefore, that local applications such as rubbing with so-called remedies can't do any permanent good. At best they can relieve the pain a little and only for a little while. The only way to effect a real cure is to attack the real cause—the blood. It is cleansed from the troublesome deposits by S. S. S., the reliable blood purifier that is now easing the pains and healing the ills of the third generation. S. S. S. "goes after" the impurities in the blood as relentlessly, as eagerly and as thoroughly as a ferret goes after rats; pursuing the poison into every vein and artery, into every nook and corner of the body, and chasing the troublesome substances out of the system. The blood thus cleansed, carries off the acid and other injurious deposits and "filters" them out of the body through the kidneys. S. S. S. is not a drug. It is a purely vegetable blood purifier. You can get S. S. S. at every drug store. But if in addition you should like to have the advice of the doctors in charge of our laboratory, do not hesitate to write us. You will receive free, conscientious and confidential advice. This is in line with our policy to make every effort to insure the best results from S. S. S. to every sufferer. Get a bottle at your druggist's today. If you wish special advice, write to Medical Department, Room 45, Swift Specific Company, Atlanta, Georgia.

Summer School at Clanton

Six Weeks Term— From June 5th to July 14th.

Subjects Taught—All branches pertaining to teachers' certificates and high school curriculum. High school students will be permitted to make up subjects.

THE UNION-BANNER

VOLUME V. CLANTON, ALABAMA, APRIL 13, 1916. NUMBER 2.

REPUBLICAN CONVENTION FOR SECOND DISTRICT

Members of Party Confer With Committeemen at Montgomery on Last Monday.

Monday morning at the Chamber of Commerce, the Republican committee for the Second Congressional District, held a meeting at which there was a full attendance, there being only four members absent, three of whom are deceased, and one having removed from the District.

W. B. Jones, A. C. Stratton and J. J. Baker were elected to succeed the deceased members, W. W. Pridgin, T. C. Bringham and J. W. McNeill.

The committe called a meeting for the District to be held in Montgomery on May 16 for the purpose of selecting a delegate and alternate delegate to attend the national convention of the Republicans at Chicago on June 7. It was agreed that the basis of representation at the District convention should be the same as the basis of representation laid down by the state executive committee for the state convention.

Pope M. Long, Republican state chairman, and Oliver D. Street, candidate to succeed P. D. Barker, who has withdrawn as national committeeman, also were here Monday to confer with the Republicans, who were attending the Ditrict committee meeting, and other prominent Republicans who were also here from the Third, Fourth and Fifth Districts. Numerous conferencs were held at the Exchange hotel during the day.

One committeeman stated, after the meeting, that there was absolutely no Roosevelt sentiment among the gathering. In fact sentiment was against the former president. The expression was general among those present that the Republicans of Alabama did not want to have anything of a political nature to do with a man, who four years ago, had done his best to wreck the Republican party.

BOLL WEEVIL SUGGESTIONS BY W. E. HINDS

1. Plan to raise all food supplies, forage, etc., needed at home.

2. Prepare ground thoroughly before planting. Practice deep plowing in fall.

3. Plant cotton when soil and air conditions insure rapid, continuous growth.

4. Provide for rotation of crops and have something to sell each month.

5. Practice frequent, shallow cultivation only, continuing until cotton opens.

6. Pick weevils when abundant, from tops of young plants at time squares begin to form. Later if the ground is moist, or temperatures average below 90 degrees, pick and destroy infested squares, beginning ten days after first bloom appears and repeating every fifth day for six weeks

7 Quicken plant growth by proper drainage, fertilization and frequent cultivation; especially increase humus in soil.

8. Quit using "gin run" seed. Select seed for next planting in field. Pick crop out as early as possible.

9. Quit allowing stalks to stand until spring. Destroy all green cotton as early in the fall as possible, by (a) chopping and plowing under four inches or more of dirt; or by (b) uprooting and burning stalks 3 weeks before frost where impossible to bury them. Use cover crops, clovers and grains especially.

10. Quit depending on advances; get out of debt. Quit moving around and buy a home. Build up the soil. "Use more brain and less brawn."

USED 2 GUNS IN SHOOTING HIS BROTHER

CHATTANOOGA, Tenn., April 9—Shan J. Nelson, a merchant of Shaw, Ga., near here, was killed this afternoon by his brother, Mack Nelson.

While the merchant was whipping his 4-year-old son with a hickory switch, Mack Nelson is said to have protested and provoked a quarrel.

The father told his brother "to go home," and he went home and returned, witnesses say, armed with 2 shotguns. Shan J. Nelson fell dead in front of his store, his body horribly mutilated by the discharge of two guns. His assailant, it is said approached and without warning put a gun to each shoulder and fired. Mack Nelson was arrested and committed to the Walker county, Georgia, jail at Lafayette.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

WEEKLY NEWS LETTER FROM SUPT. FEAGIN

Some Interesting Facts are Shown About Illiteracy at Meeting in Birmingham.

Seventh Grade Examinations.

A number of counties of the state have adopted the seventh grade examination as an inventive toward keeping children in school until the elementary course is finished and as an encouragement to continue their work in the high school. Usually the county superintendent has the cooperation of the leading teachers of the county, who meet as a committee and formulate plans for the examination. This committee selects the questions and divides the county into districts and the examinations are held at the larger schools. The committee holds the examination, but no member is allowed to hold the examination in this community where he or she teaches.

The questions are sent to the several centers under seal, which is broken in the presence of those to be examind. After the examination, to which two days are generally given, this same committee opens and grades the papers and publishes the results. Those who pass are invited to take part in the seventh grade county commencement held at the county seat or at the county high school, and an interesting program is arranged for the occasion.

Better Supervision Needed.

In order to insure that degree of progress desired by the citizens of Alabama in school work one thing is absolutely necessary; namely, competent supervision.

Teachers' institutes have been conducted in thirty-two counties during this scholastic year, and one fact firml yesablished is, where there is a live, wide-awake, progressive county superintendent, the teachers are likewise enthusiastic and energetic. This bears out the statement that under the new law the county superintendent is going to be the greatest educational force in the county; he will be the leader, supervisor, and superintendent IN FACT as well as in name.

No county can hope to have better supervision unless a competent county board of education is elected, who will employ a competent superintendent. It is, therefore, of vital interest at this time that particular attention be given by the friends of education to the selection of a progrssive county board of education. The biggest broadest, most liberal-minded, and most patriotic of those offering should receive the support of those desiring educational progress.

Alabama Educational Association.

At the meeting of the A. E. A. in "ILLITERACY IN ALABAMA—LET'S REMOVE IT," was stressed and the following interesting facts shown:

Of the 71,580,270 persons ten years of age and over in the United States, 5,516,163 cannot read and write.

There is one illiterate in the north and west for every eighty inhabitants; there is one in the south for every fifteen inhabitants.

The proportion of illiteracy among our native born white children in Alabama from ten to fourteen years of age is more than five percent, as against one-half of one percent in the north.

They tell us the minimum to which illiteracy should be reduced in the United States is one percent for native born whites, five percent of negroes and twelve percent for foreign born whites. If we accept this standard Alabama's problem becomes one of reducing native born illiteracy from 9.9 percent to 1 percent, and our negro illiteracy from 40.1 percent to 5 percent. The percentage of illiteracy among our foreign born population is already below the minimum stated above.

There are 641,168 persons in Alabama from the ages of ten to twenty, inclusive, 96,406, or 15 percent, of whom are illiterate.

We have 1,015,070 persons twenty-one years of age and over in Alabama, of whom 266,273, or 26 percent, cannot read and write.

There are 31,661 males of voting age and 33,765 women twenty-one years of age and over who are illiterate, either number approximating the combined adult population for the corresponding sex of our three largest cities—Mobile, Birmingham and Montgomery.

o

Cheering for Theodore Roosevelt as the "superman" capable of directing the American people in their gov ernment through the troublesome times ahead, The Progressives of the State of Maine in convention at the city of Bangor, Thursday, voted to continue their fight upon the standpatters. There were two "keynote" speeches, one by George C. Weber, presiding officer, and the other by a former Congresman, Victor Murdock of Kansas.

ORDER FORPRIMARY ELECTION

The Executive committee of the Progressive party of Chilton county, in session at Clanton, on January 19, 1916,ordered a Primary Election to be held on May 9th, 1916, for the nomination of candidates for the various offices to be filled at the next November election.

FARMERS!

Wait a minute and read what we have got to say to you below.

We have an announcement to make to our readers this week, that means a whole lot to you.

Look at the Farm and Immigration Section of The Union-Banner that is sent out with this issue. How do you think you would like to get this section in the Union-Banner about two times a month?

Well, we have arranged whereby we shall be able to give it to you; and we know you cannot help but appreciate it.

Now listen!

You are bound to admit, when yuo look over this Farm section fo The Union-Banner that it can't be beat for a paper of all round value and interest to you who are raisers of hog and hominy and good old reliable and free tillers of the soil.

Now here. Quit this way of sending your dollar away off somewhere to get your subscription to some little old farm paper, and just send us the dollar and get this splendid Farm papre with the Union-Banner twice a month, ALL for just a dollar.

We feel sure that you who are behind with your subcsription to The Union-Banner, will appreciate this effort of ours to make the paper fully worth your money, and send us a dolar for your back subscription, and also a renewal.

Now don't lay this aside. We aredoingthisinorderto make you feel sure that you are getting your moneys worth.

Now, show us your colors by sending in that dollar.

THE UNION-BANNER
Clanton, Ala.

TO THE CLUB GIRLS

With one hundred and fifty-one members this week; and the season so far advanced we realize that the time for organization is nearly over.

Owing to the fact that I reached the county late and many of the rural schools had closed, it was impossible, as well as not practical, for me to put the work in every community this year. As far as possible we have tried to distribute the work over the county equally.

If there are other girls that have not seen and are interested in the work and desire to join us, I urge you again to send me your name and address at once and I will mail your seed and instructions at once.

It is our earnest desire to give every girl the work that is interested and really wants to avail herself of the opportunity offered.

We will use the club plan exclusively and will arrange so that each girl can affiliate with some club near her home.

Co-operation along any line of work from the home to the highest department of state or nation, strengthens the organization and broadens the individuals connected with it so to do the very best work among you this year we see the nessity for real club work.

I hope the members in each community that have not done so already, will meet as soon as possible and elect their officers and report same to me.

MRS. LIDA JONES,
Agent, Home Demonstration Work
U. S. Department of Agriculture,
Clanton, Alabama.

A car of Weber Wagons was received by Clanton Hardware Company this week. This wagon is well known for its good qualities, and the FIFTH WHEEL is a wonderful improvement. adv.

LEGAL NOTICE

Notice is hereby given that application will be made to the governor of Alabama within ten days of date hereof, to pardon James M. Maddox, convicted in the circuit court of Chilton county, May 16, 1911, on a charge of perjury, and to restore his civil and political rights.

JAMES M. MADDOX.
Dated 5th day of April, 1916.

WADE'S WEEKLY LETTER

Farmers in progressive communities should begin now to organize themselves into marketing associations. The time for marketing perishable products will soon begin and the organizations should be in working condition by the time staple crops are ready for market.

There are many ways such an organization will be benificial. The educational side of marketing can best be disseminated with regard to standard grades, packages and assembling products in car load quantities. Farm and harvesting machinery may be purchased by individuals and some useful machinery may be purchased and owned co-operatively.

The organization consist of a President, Vice President and Secretary who may also act as Treasurer, an executive committee and as large a membership as possible. The expenses of the association should be paid out of a small percentage of the gross sales. Some organizations operate successfully on 2 per cent of the gross sales while others use as much as 5 per cent.

The United States Department of Agriculture has established branch officesin New York, Boston, Philadelphia, Buffalo, Pittsburg, Chicago, St. Louis, Minneapolis and Kansas City to collect and distribute information in regard to marketing conditions. This information can be obtained from either of the above named places by the receiver paying the expense of telegraph messages. Those wishing the information by mail can get it free of charge. The secretaries of marketing associations should keep in correspondence with these offices as the information furnished will be reliable.

The Bureau of Markets of the Alabama Departanent of Agriculture offers its services to the people and can be of valuable assistance, if they will organize themselves into business associations by which we can reach the masses instead of the few.

Better marketing conditions are taking proper form and farmers can facilitate matters and bring such advantageous conditicn to a speedy reality by co-operative organization. Do it now. Do not wait for some one else to start.

J. A. WADE,
Commissioner of Agriculture and Industries.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

Rev. Crumpton Walker, a very refined and talented minister of the Baptist church of Cochran, Ga., and who is a nephew of Rev. Crumpton, pastor of the baptist church here, conducted the chapel exercises at the high school last Monday morning. Rev. Walker is a very gifted speaker as well as minister, and he certainly brought a message to the pupils of the high school, which will help them in later life.

FOR SALE—A full stock of long socks and short pants. For further particulars and demonstration see Erle Pinckard.

Miss Bessie Davis has just lately announced that she is a true Senoir. She passed off her condition on Plane Geometry last week, which made her a sure enough Senior.

Felston Mullins, the dignified Senior from Stumps Hills says—but still, I guess I had better not repeat him this time, for you can't sometimes always tell what he is liable to do.

The game of base ball between the high school team and the Shelby County High School boys was the center of much attraction for quite a number of in and around town.

In the first five innings neither of the teams scored, but in the sixth, on account of some costly errors of the home team, the visitors brought in four runs. During the remainder of the game the C. C. H. S. found themselves unable to score, while Shelby increased their score up to five.

Heard umpired the game which lasted one hour and fifty minutes.

The teachers attended the Alabama Educational Association at Birmingham Thursday and Friday. Mr. McDonald, who is the President of the high school department of the Association, presided over his branch of the work in room 202 of the Central High School.

Mr. Claude Hardy was chosen to fill the chair for the next year.

The Hypatia Society put on a nice program in chapel last Wednesday morning, consisting of readings, papers etc.

MANY STATES FAVOR DU PONT

SENTIMENT FOR HIM CRYSTALLIZES AROUND CONVICTION THAT NATION NEEDS A BUSINESS MAN AS CHIEF EXECUTIVE.

DELAWARE MAN BEGAN AS A MINE MULE DRIVER

New York, Pennsylvania, Tennessee, Alabama, Delaware, Kentucky, Indiana and Others, Swinging to Man Who Has Raised Himself From Mule Driver to Be One of the Most Successful Business Men in the Country.

The rapidity with which the boom for Coleman du Pont for president is spreading is winning favor with laborers as well as businessmen, manufacturers as well as operators, in fact, all those who know Coleman du Pont personally, or are at all acquainted with his ability and his business methods are lending aid to the movement which promises to reveal him as the "dark horse" at the Chicago convention, and secure for him the Republican nomination for president.

According to an article in the Central City (Ky.) Argus, Democrats as well as Republicans are lending aid to the du Pont movement. It says:

"There is sound reason for the du Pont boom in Kentucky, where he began at the bottom as a mule driver in a coal mine, for which he received the munificent sum of fifteen dollars per month. He fought it out with his mine mule, developing those traits of determinaton and patience which a mine mule driver requires, and made good. Step by step he advanced, through every phase of mine employment, finally becoming superintendent. Then, outgrowing this position he went elsewhere. The remainder of his career is history. Sheer ability and an understanding of men has placed him among the captains of industry of the United States, a leader in finance, development and charity. The latter trait has always been out standing in character."

COLEMAN DU PONT.

The regard in which Coleman du Pont is held by his associates is little short of worship. They are spreading this sentiment throughout the country. No stronger evidence of this fact could be given than is contained in the following by Thomas L. Cannon in the Birmingham (Ala.) State Sentinel, a democratic newspaper:

"With decade upon decade of American patriotism bred into his forebears and constantly transmitted to him, the production of the highest type of American manhood in his personality is not surprising.

"Washington at Valley Forge and all through the terrific and unequal struggle for American citizenship did not depend on any one to produce successful results more than he did upon DeNemours, the powder maker.

"With all reverence to LaFayette, it would be no overrecognition to see the kinsman of DeNemours utilize his accumulated powers to serve this republic as its chief.

"Mr. du Pont is the embodiment of success. Experienced in business activities, trained in statecraft, socially equipped to meet the elite of civilization, he could assume any duty with confidence and success.

"Possessing courage and convictions, with force to impress upon all his individuality, he has the lovable gentleness that marks the man of power.

"Able to influence captains of big business, also to sway the less fortunate through an innate sense of the justice, he produces 'the greatest good to the greatest number.'"

LEGAL NOTICE

Birmingham, Ala., April 1, 1916.
Hon. H. A. Harris, Sheriff of Chilton County, Clanton, Ala.
Dear sir:

No U. S. Internal Revenue Licenses have been issued to your County in the month of Macrh 1916.

I hereby certify that I have carefully examined the record of the Collector of Itnernal Revenue and the above is complete and correct.

Yours very truly,
SAM P. JONES.

Sworn to and subscribed before me this first day of April 1916.

J. B. MOSLEY,
Notary Public.

Don't forget your subscription to The Union-Banner. We need the money.

INSTRUCTIONS TO REPUBLICAN LEADERS

The attention of County Chairman, Secretaries and Committeemen of the Republican party in Alabama is directed to an act of the last Legislature, known as the Wittmeir law, on page 622, of the General Acts of Alabama, 1915.

In nominating County tickets and electing delegates to the State and District Conventions it is important that the provisions of this law be complied wih.

Under this law, if a County mass meeting is held to nominate a County ticket and elect delegates to the State and Distrite conventions, such mass meeting can be held legally only on the 9th day of May this year, and must be held at or near a voting place in the county, and must be open to the pbulic.

If a delegated convention is to be held, beat meetings MUST be held at the voting place on the 9th day of May and on no other day, and the delegates elected in such beat meetings to the county convention constitute the county convention, which can be held under the call of the State committee either on the 10th, 11th, 12th or 13th of May, at which time delegates to the State and District conventions must be elected, but such county delegtted convention can, if it wishes, adjourn to a future date to nominate a county ticket. The state committee respectfully recommends and urges all county organizations where primaries are not held by Republicans, to call delegated county conventions, where practicable.

If a primary election is held by the Republicans in a county under the general primary law of the state, it will be held on the 9th day of May by the same officers that hold the Democratic primary, and in that case, the Republican committee of the county can order the delegates to the State and District covnentions elected in the primary, and all candidates for the State and District conventions will hvae to file their names with the Probate Judge of the county and the chairman of the Republican Executive Committee.

The Republicans of the state are cautioned to see that the nomination of their county candidates, and the election of their delegates to the State and District conventions, conform as near as possible to those new and wonderfully constructed election laws enacted by the recent Democratic and universally lamented Legislature of Alabama.

The Republican State Executive Committee of Alabama will render every service it can to assist the Republican, and the ditressed Democrats, too, in complying with many and varied provisions of these laws.

The order of the Republican State Executive Committee of Alabama, at Birmingham, Alabama, February 9th, 1916.

NOTICE TO CREDITORS

Of first Meeting.

In the District Court of the United States, For the Middle District of Alabama.—IN BANKRUPTCY.

In the matter of J. P. Nix, Post Office Jemison, County Chilton, Alabama.

The aforesaid party, having been abjudged a Bankrupt, under the act of Congress entitled, "An Act to Establish a Uniform System of Bankruptcy throughout the United States" approved July 1st, 1898, meeting of the Creditors of said Bankrupt is called at the office of the undersigned Referee, in the United States Court House at Montgomery, Alabama, on the 20 day of April, 1916, next, at 10 o'clock, A.M., to make proof of debts, and for the election of a Trustee, and such other matters as are necessary and required by the Act of Congress aforesaid.

M. S. CARMICHAEL, Referee.
Montgomery, Ala., April 6, 1916.

Simpkins Prolific early variety of cotton seed for sale; $2.00 per bushel. Clanton Mercantile Company. adv.

LOCAL U. S. MARINE MAKES GOOD

In an official bulletin issued by Head-quarters, United States Marine Corps, Washington, appears the name of Jud H. McDonald, of Verbena, this county, as having qualified as a marksman in that most interesting brancho f the government service.

Jud, who is a son of Charles L. McDonald, of Verbena, enlisted in the United States Marine Corps at its Birmingham recruiting station on December 21, 1915, and is now serving at the marine barracks, Port Royal, S C., awaiting transfer to expeditionary duty, where he will have many interesting and exciting experiences, or to a cruising battleship, which will visit strange lands and give the Chilton youth an excellent opportunity to see the world.

Considering the fact that McDonald is scarcely more than a recruit his performance in gunnery is looked upon by Marine Corps officials as little short of marvelous, and they expecth im to break many marksmanship recordsb efore his enlistment expires

HUGHES' POSITION ON PRESENT ISSUES

High Presidential Possibility of Supreme Court Justice.

St. Louis Globe-Democrat.

In the discussions of the availibility of Justice Hughes as a Republican candidate for Pesident, much has been said of the lack of knowledge of his position on the political questions now at issue. Judge Hughes has been a member of the Supreme Court since 1910 and during this time he has been debarred by the traditions of his high office, from public utterances upon political and particular partisan subjects. Nor has the present consideration of his name in connection with the presidency drawn from him any statement of his views, publicly or privately. But the record of his political activity during the years in which he was free, and in duty bound to discuss such subjects, reveal his attitude toward current issues as clearly as if he were speaking now.

How does Hughes stand on preparedness? is naturally the first question asked, it being uppermost in the minds of th people. He answered that question in the campaign of1908 when he said,"It is our constant aim to live in friendship with all nations and to realize the aims of a free government, secure from the interruptions of trifles and waste of war. It is entirely consistent with these aims and it is our duty to make adequate provisions for our defense and to maintain the efficiency of our army and navy. And this I favor." In the light of that time he could have hardly said more. That, with this attitud in 1908, he could now be for anything less than a full and sufficient preparation for events that later developments have made possible, is unbelivable. Justice Hughes' mind is not of the weaker-cock type. On the contrary seuh criticism as has been voiced, has been against his firmness and tenacity of opinion.

Justice Hughes is strongly in favor of protection, "A protective tariff" he said in 1908, "is essential to the interests of our wage-earners," and he urged at that time the appointment of a tariff commiion, "in order to effect whatever readjustment may be necessary to make the tariff schedules consistent with the rinciples underlying the protective policy." In the same campaign, referring to foreign affairs he said, "The Republican party has maintained the national honor, and under its direction, American diplomacy has attained the highest levels of honorable purpose and distinguished achievement."

From such utterances as these, when governor of New York it is not difficult to discern the present views of the Justice of the Supreme Court.

GEORGIA REPUBLICANS PLAN TWO DELEGATIONS.

ATLANTA, Ga., April 12.—Georgia Republicans will send two separate delegations to the national convention in Chicago. Delegates gathered to-day in Macon and Atlanta, each convention claiming to represent the party in this state. There have been no indication that either will instruct its delegates.

The faction which selected Macon for its meeting place is headed by Walter H. Johnson, Chairman of the State Committee, while the members of the party meeting here are led by Henry S. Jackson, National Committeeman.

Local issues are said to be largely responsible for the differences.

o

DOUBLE TRAGEDY AT DOTHAN

DOTHAN, Ala., April 3.—Walter Hart, a farmer living near Cottonwood, cut the throat of his 4-year-old son Sunday afternoon with a butcher knife, and then turned the weapon upon himself, cutting his own throat. Both died a few hours later. Hart is thought to have been insane. It is said that Hart tried to cut his own hroat with a razor Sunday morning but was prevented. In the afternoon while the family and neighbors were sitting in a room with him at his home he took his four year old son in his arms and went into the kitchen. A short while later both were found there with their throats cut. A bloody butcher knife told the story. Hart is survived by his wife and an 8 year old daughter.

W. H Conway of Jemison was in Clanton Wednesday.

PEOPLES TELEPHONE 96.

And again, howdy!

Go to church Easter!

Read up, speed up, and pay up.

Spring, however, will be here when it gets here.

No peace anywhere, you say? To be sure there is—in heaven.

But we repeat, every man has brains—even you.

"Into each life some rain must fall" —and it does.

Something "bully" among the ads this week. Dig it out.

When close pressed Villa might take in his $5,000 bath tub.

Come on with the next hriller. Even our own little war is becoming stale.

Now, really, did anyone emagine that Villa would simply squat down and wait to be captured?

The man who thinks only of self wastes his thoughts upon a poor subject.

Dead men tell no tales, but a living gossip keeps the world in a squirm.

Occasionally, however, some benighted soul forget himself and remembers the Golden Rule.

A brave man lets others do the talking, while the coward toots his own horn.

These are the days when the political orator loves all the world and covets what it has to give.

It will be a crime against nature if the war deprives us of the dyes for our Easter eggs.

What, you wonder, does your neighbor think of you? Your own actions tell the story.

Spread the good cheer to others. It may warp your own face into a smile.

Politely speaking, in the matrimonial market, money is the connecting link between the cradle and the grave In vulgar English it enables a doddering old millionaire buck to buy doll faced chicken for a wife.

Villa has been killed so many times that the public will not believe it when the cuss really does stretch hemp.

There's a fellow we know who is so grouchy he'd growl about the weather if it rained silver dollars. He'd want them to be gold.

Its a fact, we have never set the world ablaze with our editorial genius, but we are a deal too diplomatic to name the prettiest baby, the most beautiful woman or the smarest man in town

The horse never travels faster than its own tail, and the merchant keeps pace usually with the quality and quantity of his advertising. You can always tell.

Every loyal citizen should patronize the home merchant whenever possible. And the loyal merchant should demonstrate his own business sagacity by patronizing the home paper. A rule is not a rule unless it proves itself.

Henpecked? Not a bit of it. We want it destinctly understood that we are master of our own home—when our wife's away.

Who in the world can tell what Roosevelt is going to do? Can he heal the division in the Republican party as easily as he made it four years ago? We are inclined to think not. But we hope the two factions will harmonize and support some good Republican for president. We would have but little heart to start out now on another term of Wilsonism.

LET US BOOST YOU

We want to boost you—yes you, individually. Will you give us the opportunity?

This town needs a booster, and we stand ready to boost the town booster —and the town too. Shall we boost you?

We need some energetic man who will marshall his pluck and determination and round all the rest of us up into one grat aggregation of boosters.

It takes brains to do it, but some one among us possesses the requisite amount of brains.

The town needs him, the whole community needs him, an we never need him worse than we need him right now, when nature has offered us so many opportunities for commercial advancement.

Are you that man?

We hope you are. We want to see you step forward and asume the laudable task. We want to see you succeed. And then we want to boost you because of the boosting you have done for the town.

Simpkins Prolific early variety of cotton seed for sale; $2.00 per bushel. Clanton Mercantile Company.

WHAT THE REPUBLICAN PARTY IS DOING

From the Montgomery Advertiser.

What are the Republicans doing? Who is to be the nominee, and what is the character of the fight against the Democrats?

It is well enough for all good Democrats who wish to see the Democratic party endorsed and a Democratic adminisrtation continued in Washington, to keep a weather eye on the machinations of the Republicans, as they prepare for the great drive next fall. In noting developments it must be admitted that the Republicans show a great disposition to unite and work in harmony even more than was thought possible. Four years in dry pastures have had a chastening effect upon the Republicans; the tariff barons and the pie eaters panteth for a victory as the heart panteth for a brook.

The Republican factions are not calling each other "thieves" and "robbers" or "fanatics" and "anarchists" as they did four years ago. They are not only not reckless as to party divisions, but they are plainly and carefully picking their way toward a reconciliation.

Roosevelt, today is the most likely candidate for the Repubican nomination, yet, he has a long way to go to make his calling and election to the nomination sure. His strength as a candidate, so far, lies largely with the leaders of the Republican party; even Boise Penrose, whom he denounced so bitterly four year ago, is reported to be willing to swing the Pennsylvania delegation to him. And Roosevelt has called into a friendly conference, Elihu Root, a possible nominee, but the man who presided over the convention of 1912 at which the great robbery was committed. William Barnes says of his conference, to which Elihu Root was invited, "Elihu Root must have worn a sardonic smile at the abasement before him of Theodore Roosevelt."

When the views of the delegates already selected are considered, Roosevelt has the worst of it. The delegation already named from his home has a few Roosevelt men, but the delegation, but the delegation as a whole is overwhelmingly against the Oyster Bay man. Still, the delegation practically refused to endorse Root for the nomination and it will go to Chicago, foot-lose and fancy free from all instructions.

Roosevelt has carried none of the Republican primaries, but he refused to allow the use of his name in the primaries which he so vigorously advocated four years ago. The primaries have been carried by nondescript candidate who wil have no possible chance in the Chicago convention. Cummins has a few, LaFollette has a few, Fairbanks, a few and Clapp has a few.

The Republican convention held last week in Missouri shows that Roosevelt will have no walk over for the nomination and that if even the leaders of the Republican party unite on him, he will have to fight viciously in the convention. In the Missouri Republican convention his name was hissed and hooted. He was apparently without friends in that convention. But Missouri has a big German vote, most of the voters are Republicans. Maine, which has selected its delegation, chose men who were not for Roosevelt.

Yet in the face of these facts, and notwithstanding these facts, Roosevelt, right now, is the leading candidate for the Republican nomination.

MISSOURI REPUBLICANS

St. Louis Globe-Democrat.

Compared with the stormy and epithetical meeting of the Democratic party at St. Joseph, the Republican State convention at Excelsior Spring yesterday was as calm and harmonious as a Quaker conference. Apparently the delegates were of one mind. They did their work said their say, and adjourned. And, taken all in all, it was a very good work and a very good say. We might criticise the election of Mr. Babler as member of the national committee, because it very probably removes him from the office of state chairman, which he has filled with efficiency, and in which it would seem he could be of greater service to the party, but we asume he preferred the broader position. The "Big Four," Mr. Hadly, Mr. McKinley, Mr. Niedringhaus, and Mr. Schmoll, are representative Missourians, who have served the party ably and well, and will as capably lead the Missouri delegation to the Chicago convention.

The resoutions condemn the national administration for "weakness, unfaithfulness, and utter disregard of the industrial interets of the people,"denounce the President's Mexican policy, condemn the democratic tariff act, and demand a return to the well-tried policy of protection. The administration of Governor Major is declared to be "the most complete and humiliating failure any administration of the state h— ever experienced," and its acts are condemned in general and in detail. By way of contrast the administration of Governor Hadley is pointed to and indorsed, and Mr. Hadley himself is declared to be "deserving of furtherhonors by the American people." Very properly the delegates to the Chicago convention were uninstructed.

The unanimity of mind in this convention, the total absence of factional struggles, and the confidence displayed in the unity and strength of the party, are the best of auguries for the success of the republican campaign in Missouri.

PROF. ELMER MORRIS GAINS 24 POUNDS

Tennessee School Teacher Says Tanlac is Only Thing That Ever Helped Him.

Of the thousands of letters that have recently been received at the Tanlac office from well known men and women, who have been benifited by this medicine, none are more interesting than the one received from S. R. Luton at Bumpus Mills, Tenn. This letter which was addressed to G. F. Willis, Atlanta, Ga., reads as follows:

Dear Sir: You will find inclosed a tetimonial from Proffesor Elmer Morris, who is one of my customers. Proffesor Morris had a delicacy in expressing himself and granted me the right to give you particulars in his case.

He tells me that he has been a great sufferer from chronic stomach and bowel trouble, and never had been able to get anythng to give him relief. He fell off in weight from 225 pounds to 170 pounds. He went to Dawson Springs, Ky., and when he came back he said he was no better.

I persuaded him to try Tanlac. He weighed on my scales at the time he began taking it and nly weighed 170 pounds. After taking three bottles of Tanlac he gained 20 pounds. When he brought this testimonial to me he had gained four pounds more and weighed 194. He did not want to get back to 225 pounds and decided to quit taking Tanlac.

This man is a teacher in the public schools in Stewart County, Tnn. He lives here in one mile of my store and bought the Tanlac from me. His true postoffice is Dover, Tenn., R. F. D. No. 1. Proffesor Morris' statement is as follows:

"I have just finished my third bottle of Tanlac and have gained 20 pounds, I just weighed 170 and now I weigh 190, and never felt better in my life.

"I have been a great sufferer from stomach trouble for about one year. I tried every Doctor I could get to, and went to a health resort at Dawson Springs, but nothing did me any good. I decided to take Tanlac and found it to be the best medicine I ever tried.

"Yours very truly,
PROF. ELMER MORRIS."

Tanlac is sold in Clanton exclusively by Upchurch Drug Co.

ATTENTION OF VOTERS

The attention of the voters is again called to the list of qualified electors which was published in the county papers last week by Probate Judge Deason.

If your name was not on this list correctly, you had better see that it is corrected, or you may be deprived of your vote in coming elections.

Don't pass this matter by unnoticed. It is important.

This week is the last chance you will have to make corrections.

A Little Blossom To Delight the Home

When it is known that in the near future the home is to be blessed with a new arrival the first thought should be "Mother's Friend." This is an external remedy gently applied over the stomach muscles. It makes them firm and pliant, they expand naturally without undue strain. It removes from the nerves those influences which are responsible for much of the pain incident to the period of expectancy. It is for this reason that much of the distress such as morning sickness is avoided. All prospective fathers should see to it that the expectant mother is provided with a bottle of "Mother's Friend."

If more convenient get a bottle on your way home. Remember that many of our most valuable aids to health and comfort and safety are only such when our knowledge of them is put into action. Begin early to suggest its use and "Mother's Friend" will soon become one of the most helpful influences ever devised for avoiding much of the distress incident to coming motherhood.

The directions are simple. Get it at any drug store It is applied by the expectant mother herself, it penetrates deeply and affords quick and splendid relief in a most gratifying manner and reflects a physical betterment to the nervous disposition of the baby. Don't fail to get a bottle of "Mother's Friend" today and then write Bradfield Regulator Co., 713 Lamar Bldg., Atlanta, Ga., for a pretty little book brimful of information for expectant mothers. It is a delight to read it.

$8000 ESTATE LEFT BY MISS KATE LASSITER

Dr. J. P. Ellsberry, as executor of Miss Kate Lassiter, who for nine years was matron at the Alabama Soldiers' Home hospital, filed the last will of Miss Lassiter in Judge E. B. Deason's probate office March 30.

The deceased makes disposition of the $8000 now on deposit in a Montgomery bank as follows:

To Mrs. Frank Snyder, $1000: to Mrs. Frank Elmore, $1000; to the Arms Society of Norfolk, Va., $1000; to Captain J. M. Simpon, Mrs. Carrie McMasters and Miss Lucy Simpson, $1000, to be divided equally; to Dr. J. P. Elsberry, the remainder of the money and other property except the diamonds which the deceased leaves to a Mobile lady.

Miss Lassiter was employed at the Soldiers' Home for nine years at a salary of $40 per month.

Root Boomed for President.

The boom of Elihu Root for the Republican nomination for the presidency was formally launched in New York last Thursday night when seventy-four prominent members of his party of all political factions, including seventeen delegates to the Chicago convention, issued a statement declaring themselves in favor of his nomination.

Henry L. Stimson signs with R. Fulton Cutting, and on both sides of them are straight organization men of long experience.

There are bankers, lawyers, business men, professional men, ministers headed by Bishop Greer, men who have never been actively engaged in politics before, and men who have laways been active in politics.

BOARDING HOUSE—Next door to Methodist church; nice well furnished and reasonable rates. Mrs. Addie G. Robinson. adv. 3-30-tf.

NOTICE TO TEACHERS

The next state examination for teachers will be held at Clanton at the Court House, beginning at 10 a. m. on the third Monday in April, 1916. All applicants should be present by 9 o'clock a. m. for registration except those who intend to file a second grade and taking for a first grade, and they must be present by 2 p.m. Tuesday, and those who intend to file a third grade and take for a second grade must be present by noon Monday.

W. T. BEAN,
County Supt. Ed.

SHERIFF'S SALE, REAL ESTATE

The State of Alabama, Chilton County.

By virtue of an execution issued out of the Circuit Court of Chilton County, Ala., and to me directed whereby, I, as Sheriff of said County, was commanded to make the sum of Five thousand ninety-one and 13|100 Dollars, and interest since Feb. 22, 1916, and Fifteen and 70|100 Dollars, costs of suit and commission, the amount of a certain judgment and costs therein obtained at the Special Term, 1916, of said Court of said County, Alabama, in favor of The Tennessee Chemical Co. against E. A. Matthews, I have levied upon and will sell to the highest bidder for cash, at public sale, at the Court House door of said County, between the hours of 11 o'clock a. m. and 4 o'clock p. m. on Monday, the 8 day of May 1916, all the right, title and interest of the above named E. A. Matthews in and to the following described real estate, viz:

Lot Number one (1) in Block Number Two (2) West of the L. &. N. R. R. in the town of Clanton, Alabama. Lots Number nine (9), ten (10), fifteen (15) and sixtenn 1(6), in Block Number fifteen (15), East of the L. &. N. R. R. in the town of Clanton, Alabama. One acre in Section 35, Township 22 Range 14, an lying immediately West of the J. M. Morgan lot, in the town of Clanton, Alabama. Fifty-five (55) feet on North side of lot Number six in block number two (2) West of the L. &. N. R. R. in the town of Clanton Alabama and being known as the Warehouse lot and lying and being just North of the Thornton Hotel lot.

This execution is entitled to a credit of $2200.

This 8 day of April 1916, H. A. Harris, Sheriff.

Posted at Court House door April 8 1916, H. A. Harris, Sheriff.

"Work-shop pains and their quick relief"

The constant strain of factory work very often results in Headaches, Backaches and other Aches, and also weakens the Nerves.

DR. MILES'
ANTI-PAIN PILLS
will quickly relieve the Nerves, or Pain, while
Dr. Miles'
Heart Treatment
is very helpful when the Heart is overtaxed.

IF FIRST BOX, OR BOTTLE, FAILS TO BENEFIT YOU, YOUR MONEY WILL BE REFUNDED.

SEVERE PAIN.

"I used to suffer a great deal with lumbago in my shoulders and back. A friend induced me to try Dr. Miles' Anti-Pain Pills and I am only too glad to be able to attest to the relief that I got from these splendid pills. They form a valuable medicine and do all that it is claimed they will do."

Nobby New Shoes for Easter Season.

Everybody will be looking at your shoes on Easter Sunday. Make them envy you by wearing a pair of those nobby shoes we have just received for the spring and summer trade.

They combine about every desirable quality that is ever found in a shoe, and we consider ourselves very fortunate indeed to have the sale of them in this town. We know that you will have the same feeling of eminent satisfaction when you wear them.

Prince Albert will show you the real road to smoke-joy!

Copyright 1916 by R. J. Reynolds Tobacco Co.

PRINCE ALBERT was made to create *tobacco content* where it never existed before! It permits men to smoke *all they want* without getting a sore tongue, without any comeback but real tobacco enjoyment! The patented process by which Prince Albert is made (and controlled exclusively by us) fixes that—and *cuts out* bite and parch!

PRINCE ALBERT

the national joy smoke

comes right to your taste fair and square! And it will do for you what it has done for thousands of men—make pipe or cigarette smoking the cheerfulest of your pleasures!

Prince Albert is to be had everywhere tobacco is sold in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—in that classy pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such fine shape—always!

What we tell you about Prince Albert is a fact that will prove out to your satisfaction just as quickly as you lay in a stock and fire-up!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made three men smoke pipes where one smoked before!

I Know you will not forget

The old reliable Grocer

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile making you sick, and you lose a day's work

Calomel salivates! Its mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a fifty cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for calomel. Take a spoonful and if it doesn't start yoru liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you will be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

CLANTON TEAM DEFEATED BY THORSBY TEAM

The Clanton High School ball team bowed in defeat to the Thorsby team Saturday by the tune of 13 to 5, on the Clanton ground.

"Big Six" Howard comes back after four years absence from the ball field and shows that he is still some artist at the game by pulling off a triple play. Chas. Thomas and Tom Robinson of Thorsby did some fine playing, in fact the whole Thorsby team played rings around their opponents.

Albert Pyron pitched for Clanton and did very well considering the cold weather etc.

E. Shaw was the comodeian of the game pulling off some of Germany Schaffers tricks at times. It was the first game for Thorsby this year and the boys showed up well. It is safe bet though that if there are any base ball honors in Chilton county this year that Thorsby will have them tucked away when the season closes.

The lineup was as follows:

Thorsby—Chas. Thomas, s s; C. Shaw, 1 b; E. Shaw, l f; C. S. Howard, 2 b; Fred Sims, c; M. Collins, c f; T. Sims, 3 b; T. Robinson, r f; R. Smith, p.

Clanton High—Palmer, C, Marcus, Popwell, Parrish, Heard, Wyatt, G., Wyatt, R., Richard, Pyron.

Simpkins Prolific early variety of cotton seed for sale; $2.00 per bushel. Clanton Mercantile Company.

No, there is never anything new under the sun—except our jokes.

FLETCHER O. BAXLEY DEAD IN COLORADO

Succumbs After Long Illness At M. W. A. Sanitorium

The death of Mr. IFetcher O. Baxley, a young man of Clanton, occured at Woodmen Colorado, on Tuesday.

The young man had been ill for several months, in the Sanitorium of the Modern Woodmen of America, whither he had gone for treatment for tuberculosis. His death, though regretted by a large number of friends and acquaintances in Clanton, came without any great surprise, as it has been known for some weeks that his condition was most critical.

The remains will shipped to Clanton at once for burial.

ROOSEVELT MAN LOSES

CHICAGO—Returns from yesterday's preference primary in Illinois show that Senator Sherman will have fifty-six out of fifty- eight delegates in the national Republican convention. Two of the District delegates elected on the Republican ticket have declared themselves favorable to Colonel Roosevelt.

John M. Harlan, who ran for delegate at large "unpledged" but who declared in his campaign that he favored Colonel Roosevelt, was defeated by approximately 20,000 votes.

President Wilson was the only name on the Democratic ballot.

LOST—Single barrel automobile pump, somewhere between Clanton and Mount Pisgah church, or between Mount Pisgah church and Coosa. Will pay liberal reward for return of pump to B F. HIGGINS, Clanton, Ala. adv.

NORTH CALERA

Editor The Union-Banner:

May I have a little space in your paper?. I love the Union-Banner and Clanton my home town, I think it the best place I have ever seen.

While I have been silent yet I have read the paper with much interest and we keep it paid in advance as all ought to do if possible so our kind editor could get a good breath.

Well, I never read a letter on politics when I see Democracy in it, for I am completely disgusted, but I did read C. Reese's letter, which I am sure made every one sick that did, for surely these four years of starvation has convinced every one living, for sveral have been so disgusted that they have killed themselves and their families because of this Wilson administration. The most intelligent men who read and keep up with what is going on know that Wilson could have prevented this inhuman slaughtering in Mexico and would no doubt if he had been a Republican.

Mr. Mullins seems under awful delusions about what the Demmies have done for the people. I don't see one single good thing they have ever done, but my at the heartaches and hardshipes they have caused the poor working class and much other devilment we could call to memory, and I believe our county of intelligent men have seen this thing perfectly clear and those of our men that haven't seen this cruelty heretofore have repented and will prove it at the proper time (at election.)

Our people are too much enlightened these days to be so and so because our father and grand father was so and so. An idiot can see now that we have better times under Republican administration. We have never seen anything but proverty come from this awful Democracy. Many have gone into eternity unprepared, many have starved, many have frozen, many are the hungry children and begging men and boys because of these four years of hard times caused by Democracy. I, for one, am forever disgusted and all the rest of the people are too, and now I believe the thing is going to be stopped when our men get through with it election day.

I want to say to the widow, the oppressed and discouraged be glad and rejoice for your deliverance is close at hand. I feel certain that you will soon be clothed and fed and relieved of your burden that has been so heavy.

Hurrah for the Republicans.

MRS. L. B. MADDOX.
Calera, Ala.

Notice—I will pay cash 13 cents a pound for fresh country butter on Mondays and Saturdays.

A THREE-DAY WHIRLWIND OF THINGS WORTH WHILE

A Three-Day Mobilization of the Community's Industrial, Educational and Social Forces. Attractions Furnished by Radcliff, of Washington, D. C.

First Day—Agricultural Day

MORNING

10:30 O'clock Farmers Institute. Addresses by County, State and National Farm Experts.

AFTERNOON

3:15 O'clock Entertainment by Ellsworth Plumstead, Impersonator.

4:00 O'clock Forty-Five Minutes of Fun and Magic with the Mysterious Milburns.

EVENING

8:15 O'clock Magical Illusions and Prestidigitatorial Performance. By the Mysterious Milburns.

9:00 O'clock A Medley of Impersonations, Grave and Gay. By Ellsworth Plumstead.

Second Day—Educational Day

MORNING

10:30 O'clock Educational Rally. Addresses by Local, State and National Educational Leaders.

AFTERNOON

3:15 O'clock Lecture, "Visions and Ideals." By Dr. J. W. Frizzell.

4:00 O'clock Concert. By the Bessie Leigh Concert Company.

EVENING

8:15 O'clock Concert and Entertainment. By the Bessie Leige Concert Company.

9:00 O'clock Lecture, "Some Twentieth Century Problems." By Dr. J. W. Frizzell.

THIRD DAY

Town and County Boosters' Day and Get Together Day

MORNING

10:30 O'clock Address on Boosting The County and Old Home Town." By State and National Leaders.

AFTERNOON

3:15 O'clock Lecture, "The Almighty Dollar." By Hon. Harold Kessinger.

4:00 Grand Concert. By The Lyric Glee Club.

EVENING

8:15 O'clock Concert and Entertainment. By The Lric Glee Club.

9:00 O'clock Lecture, "The Bishop's Candle Sticks." By. Hon. Harold Kessinger.

DR. J. W. FRIZZELL—Chautauqua Director

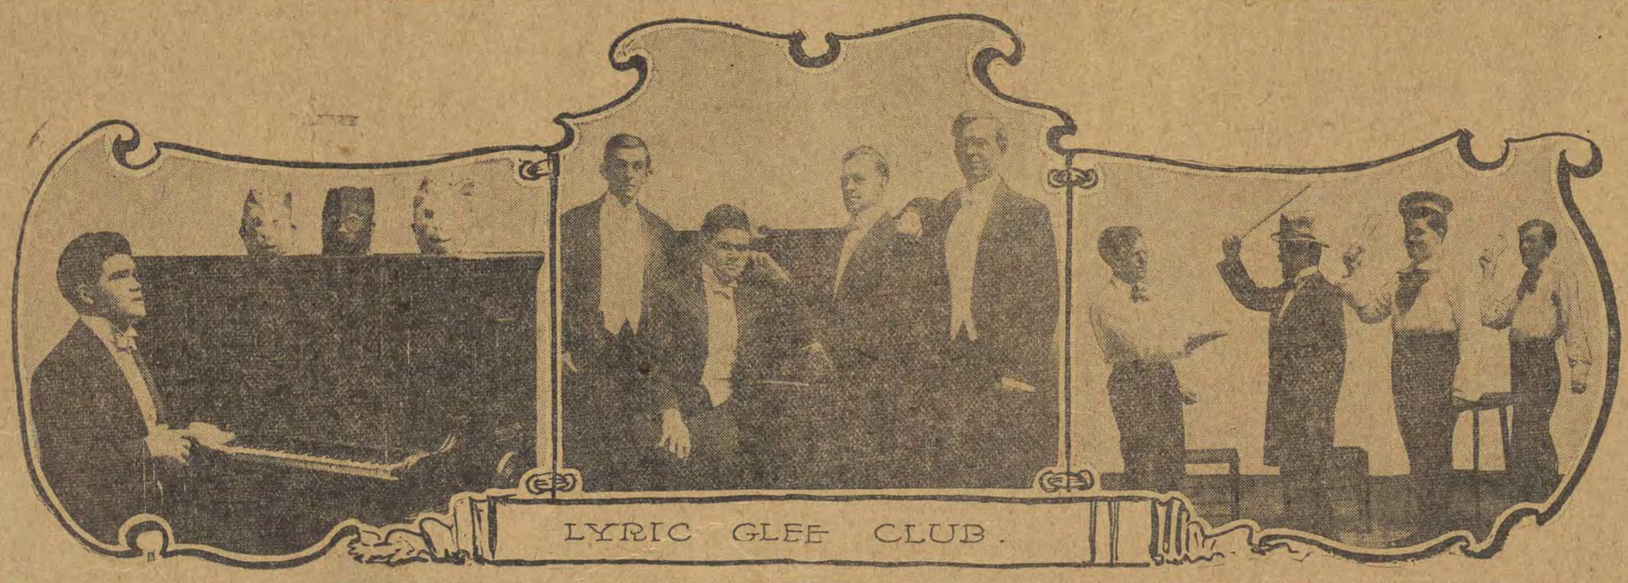
Was formerly pastor of one of the largest churches of the Nation's Capital. He was born in the country and raised on a farm. He is strong in body and vigorous in mind. He has learned much in the school of adversity and hard work. At the age of twenty-one, and without a dollar, he started out to get an education, and kept at it until he received five university degrees, all with high honors. He is a man of strong convictions and positive beliefs. He believes that the world is getting better and in the final triumph of the good. The people of our town will have the opportunity to become well acquainted with Dr. Frizzell, not only through his splendid lectures, but also coming into personal contact with him during the three days of the Chautauqua. To know such a man is a real privilege.

EDWARD COLEMAN—Musician.

To play a single hand instrument well requires talent. To really master more than one is something akin to genius. Edward Cloeman is an excellent performer on every band instrument. He has been director of Rev. Johnstone Meyers, 40 piece band, Immanuel Baptist Church and leader of the orchestra, Christ Reformed Episcopal Church, Chicago. He tours as soloist with some of the greatest badns and kindred organizations in this country testiffy to the recognition his skill has won from leaders in the musical field. His remarkable versatility will be shown in the expert playing of popular airs and operatic selections changing form the plaintive, sweet voiced flute to the roaring saxaphone, the gentle horn, the shrill piccolo or the martial cornet as each instrument is best suited to express the meaning of the varing passages of the composition.

THE MYSTERIOUS MILBURNS—Magicians

Gustave Milburn is a magician and his charming wife is his capable assistant. Together they make an attractive couple, who delight the children and entertain their parents. Among his magical novelties are tricks which puzzle the mind and cheer the heart. What he says is often quite as interesting as what he does. Dexterity, suggestion, mystery and humor make up a program with an irresistible fascination. Slate writing, turning water into wine, and wine into water, the escape from the Russian convict chain, a phenomenal use of billard balls, and other tricsk which nobody explains comprise a program with breathless interest from start ot finish. Mrs Milburn is a charming lady, and adds interest to the entertainment. If you wish to enjoy a magician who has taken up magic with intelligent earnestness and who ranks among the best, don't fail to see Milburn, Magician and entertainer.



MISS BESSIE LEIGH—Entertainer

Miss Leige belongs to the new school of readers. Indeed she is in a class of her own—just natural. Without any attempt to make an impression, she impresses doubly by her charming simplicity and delightful originality. An audience never tires as it listens to this charming little woman, with a face that mirrows all the clouds and sunshine of tradegy and humor. She has had a long experience before the public and has prepared under the best teachers. Bessie Leige is popular in the best sense, popular with the children and parents and she takes the audience into her confidence and sends them home happier, better and wiser.

ELLSWORTH PLUMSTEAD—Impersonator

A little girl described this man as "The fellow who is lots of folks." It was so apt that it was used here to introduce Mr. Plumstead as a man capable of delineating character. When he leves the platform, one feels that he has ben in the presence of a group of people—all different, but each perfectly represented by the many-sided genius of Plumstead. He is from Detroit, Mich., and has been on the stage for many years, always in demand and always stisfctory. In the fternoon he gives some humorous sketches of people we have either met or read about, such as the "boy and the buchwheat cakes", "the English dude" and "the fellow and the girl who compels her sweetheart to wait wlile she puts up her hair." At night his program is given in costume, when he tells about Uncle Ezra singing bass in the church choir. He gives a thriling representation of T. J. Throw-Bridge, "The Vagaband", or describes the worn out actor in Broadway and his observations on his triumphs in the past. His sketches of the silly boy are humorous in the extreme. In fact, Mr. Plumstead can't help being funny. He looks on the bright side of life, and leaves his audience in a happy mood. In addition to this gift, he is an artist in his portrayal of hman eccentricoties.

Season Tickets $1.50

General Admission:

Afternoon 15 and 35 Cents

Evening 25 and 50 Cents.

Except to school children, for whom a season ticket wil be 50c. This applies to anyone attending schol in Chilton County.

No season ticket sold after Chautaqua opens, Thursday morning.

Mrs. E. M. Pinckard, Mrs. N. S. Johnson, E. M. Pinckard, E. B. Deason, J. Hance Alred, H. C. McDonald, W. T. Bean, B. M. Roberts, and W. H. Sartor.

Dr. H. W. SEARS

Dr. Sears is sometimes called the "taffy man." Born in Missouri, he comes by way of Illinois to the lecture platform, bringing with him a rich experience and inexhaustable fund of jokes and withdrawal of an enormous amount of god cheer and good sense. He has the personal magnetism of Henry Ward Beecher adn sometimes the mental turn of Billy Sunday. He is a combination of sense and nonsense. His lectures in the afternon on "Worry" smoothes away the wrinkles, and drives away dull care, while his celebrated lecture on "More taffy and less Etitaphy," given at night, is never forgotten in any community where it is heard. There is an irresistable charm in the man, and an indefinable contagious pleasure in his lectures. He is perhaps, the most popular lecturer on the Southern platform tody, and if you wish a good laugh, hear Dr. Sears.

If you have dyspepsia, indigestion or the blues, the two doses he will give will entirely cure you. Dr. Sears has been on the platform for twenty years, and has lectured in practically every state in the Union. There is no feature in the program that is more popular than the two lectures by Dr. Sears of Waverly, Illinois.

MISS NELL R. WHAYNE—Soporano

We feel fortunate in securing an artist such as Miss Whayne for this Company. Stately and gracious in apperance and manner, she possesses a voice, wonderful in its volume and quality. Her charming personality together with her remarkable voice, makes her long remembered wherever she appears. Miss Whayne was prima donna soloist with the Metropolitian Quartette which toured the United States with the famous Liberati Band. She was one of the soloist at the Minneapolis Fall Festival also at the famous Southern Cotton Palace at Waco, Texas, during the past season, prior to her enggement with Miss Leige.

THE LYRIC GLEE CLUB OF PHILADELPHIA

Four fine fellows, and they are known for their fine voices, clean comedy and witty wisdom. To hear them sing the "Old Church Bell" makes one see the old ivy-covered church and its tal turret and the swinging bell. The notes are so reminiscent that the past rises before one as a dream. From the "Old Church Bell" to "Tipperary" the program is full of charm. "Fun in an Old-Fashioned School" is a bit of comedy which carries the audience back to the dear old yesterdays. Not less interesting is the "White Minstrels," a jolly quartette. These Lyrics and the audience never get enough—always begging for more of the sort of entertainment that cheers, inspires, and amuses. Laughter rings from the audience as music from the strings.

"Oh Look!

I can eat 'em all — they won't hurt me! That's because they're made with Calumet — and *that's* why they're pure, tempting, tasty, wholesome—that's why they won't hurt any kid."

Uses and Abuses of Fertilizers

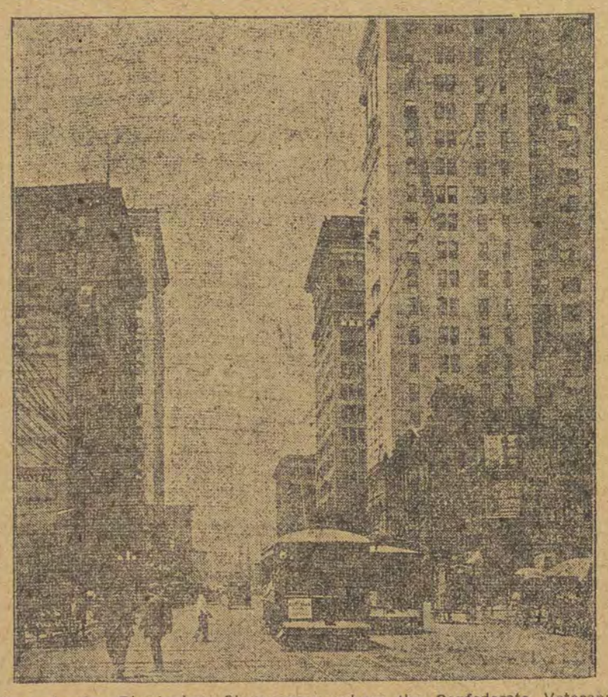
By Prof. J. H. De Loach, Director of Georgia Experiment Station.

6. FERTILIZERS AND THE HOME GARDEN.

The Last of a Series of Six Articles.

A farmer at we used to know quite well always put on his garden plot a sack of guo and three or four loads of stable and other kinds of barnyard manure. His garden covered about one-fifth of an acre, and was good land to begin with. In fact, he had selected a good, rich spot of ground for his garden. he fertilizer he applied amounted to a thousand pounds per acre, and the arnyard manure to about seven or eight tons. Of course, he grew a good arden, as most people do, and yet he often wondered why his garden was somuch better than other parts of his farm. He was a good farmer and mae plenty of everything, and to spare. He knew that he made liberal applicaons of fertilizers and manures to his garden, but was never quite willing tacknowledge that these made all the difference in the yields.

Our gardens re usually the richest spots on the farm, and are so only because we mak them so by fertilization and cultivation. Every acre in the average farm ould be made just as rich if we tried to make it so. We do not consider ifficiently the factors which make fertile land. We do not strive to do ensive farming, but rather make it as extensive as our acres will allow. Wen we wish to make an additional bale of cotton, or bushel of corn, we take more land instead of enriching what is already under cultivation.



Dr. L. H. Baey has given in his book, "The Principles of Vegetable Gardening," some vaable suggestions on the use of commercial fertilizers. "The kind and amont of fertilizers," he says, "are to be determined by several circumstances: (1) The earliness or quickness with which the crop is to be obtained; (2) he intensity of the operations to which the man is committed; (3) the charater of the land as regards tilth and texture; (4) the character of the land a regards richness in plant food; (5) the kind or species of crops to be raised.) Whatever the condition of the land or the nature of the crop, it must be ertilized if the gardener meets with success. Competition in the truck-growng business can be met in no other way than by liberally fertilizing the ground on which the crops grow. Dr. Bailey has wisely said that fertilizers must be applied in excess of the actual needs of the plants. It is impossible o distribute a very small quantity of fertilizers over a large area.

Vegetable are such rapid growing plants that one need not fear that much of the ertilizer will leach out through the soil on account of rain. If it is applied lose to or in the drill row, all of it should be saved. The plants will aborb it before it gets away. The formula generally recommended consists of a complete fertilizer, though the acid phosphate and nitrogen should come fom different sources, even in the same fertilizer applied at any given time. The mixture for gardens should be composed of as many kinds of ingredients as possible, carrying the three fundamental elements of plant food—potash nitrogen and phosphoric acid.

Voorhees ecommends heavy applications of such mixtures to the commercial gard is and to truck patches. He says 1,000 to 5,000 pounds per acre of such mixtre should be applied to asparagus, and as much to beets and turnips; less han that to peas and beans. With any amount an after application has been found profitable. This is sometimes called the second application, which is ot generally a complete fertilizer, but is composed of nitrogen, or one of the otier elements alone. The second application of fertilizers may be composed of ammonia and acid, or other formula to suit the immediate crop.

Garden vegetables need large applications of fertilizer because any check in their growth produces inferiority in quality. It is said by Dr. Bailey that any delay in the growth of lettuce or radishes will generally cause a pungent flavor or sharp taste that is undesirable. It cut down the market value. The way to remove any cause for this is to fertilize well and properly and then cultivate. The turnip is made very inferior when there is a check in growth. The vegetables that are thus stunted seem to revert to the original type from which they were derived, especially with regard to taste, and hence should be carefully looked after in regard to fertilization and cultivation. Fertilizers should be applied to the vegetable garden as early after the spring breaking as possible, as the soil ought to be saturated with rich plant food before the plants begin to grow very much. Then they will grow much more rapidly and make far better vegetables. The second application should be made about the time the young plants are half grown. This is as definite as a statement regarding this practice can be made. For all prize crops, a third and fourth application is made, and with telling effects. No one can deny that the vegetable garden is the one place in which large dividends can be made from the use of commercial fertilizers.

"VETERANS FIRST" IS OFFICIAL SLOGAN CONFEDERATE REUNION IN BIRMINGHAM

View of a few Birmingham Skyscrapers, where the Confederate Veterans meet May 16, 17 and 18.

"Veterans first."

This is the slogan that has been adopted by the entertainment committee of Birmingham, Alabama, for the forthcoming reunion of the Confederate Veterans to be held in Birmingham May 16-17-18. The veterans that bared their breasts to the cannons' merciless fire during the late unpleasantness will be cared for above all other considerations. Everything has been planned and all other propositions set aside in order that the Birmingham reunion, which may be the last ever held here, will go down in history as one wherein everyone exhibited the keenest interest and care of the heroes of 1860-65.

The committees in charge of the reunion have progressed admirably with their work. Only the barest details remain to be lined out to make the Birmingham gathering memorable in the history of Confederate reunions. The hospitality of 1908, when Birmingham welcomed the Confederate hosts, will be greatly excelled by the character of the hospitality and the warmth of greetings to be offered the veterans in May.

Through the kindness of the government of the United States the committee has secured the loan of over 6000 cots, which will be placed in the magnificent buildings at the state fair grounds for the veterans who will accept the care and complete hospitality of the City of Birmingham. The veterans will be provided with every convenience. A commissary in charge of experts in the several necessary departments will be maintained. The camp grounds are accessible by several car lines from the center of the city. It is contemplated that the official camp grounds will be the rendezvous for a majority of the veterans visiting Birmingham.

That every detail looking to their comfort and care will be exercised, was indicated by Morris W. Bush, president of the Chamber of Commerce, who announced that the cool, airy buildings will be arranged so as to be perfectly comfortable for the heroes that are expected. The food will be the best and every function exercised to provide every necessity.

Aside from the magnificent care which will be showered upon the veterans at the camp grounds extensive plans have been arranged for their entertainment. The parade will be composed of automobiles and automobile trucks so that every veteran that cares to may ride during the parade. This will relieve the veterans, many of them feeble, of the cruel necessity of walking during the long parade.

LETTER FROM MR. HUBBARD, CANDIDATE

Jemison, Ala., April 10th, 1916.

Editor Union-Banner:

Please give me space in our paper to briefly address the voters and taxpayers of the county.

I would be pleased to meet in person all the taxpayers of the county, but that will be impossible so I take this method of calling your attention to my claims as a candidate for Tax-Collector.

I am no stranger to you. My past record for several years as your Tax collector is well known to you. You know the way I conducted the business of the office during these years. You know to what extent I was obliging and courteous to the taxpayers.

And I am glad to know there are many who readily testify to the respect and courtesy the people received at my hands. Yes, with pleasure, I point to my home people with whom I have spent my life. I believe they as one man will say I was never unfaithful to you as your servant and Tax Collector, and to the voters and tax payers who have supported me in the past I desire again to tender my thanks and appreciation. I am never unmindful of your votes and support, and I ask you all to go to the Primary on May 9th, and there let your better judgment guide you in selecting a nominee for Tax Collector.

I believe I can serve you, not only as Tax collector, but I believe I can be of some accomodation to you in addition to just merely collecting the tax. You know I have promised to give two calls at each voting place as I formerly did. It has been said that I can't do that, but let me assure you that I can give two rounds, and will do so. The extra round will be entirely at my own expense and not at the expense of the county. I believe in showing every consideration possible to the people in this time of high taxes, and propose to do my part toward lightening every burden that now falls so heavily upon our people, also if I am elected I will keep theoffice open in Clanton as required by law, and any one bringing in their tax to the office will not have to pay a fee for collecting.

Mr. Langston at Mars Hill says I have held the office long enough, but that is for the voters to settle. When I went out of office I had a short letter published which I will have published again:

"Jemison, Ala., Aug. 24, 1909.

"Editor Union:

"Dear Sir:—I wish to take this opportunity to express my gratitude to all the good people of Chilton county that have shown me so much kindness in the past.

For thirteen years I have collected the taxes of the county, which imposed a heavy and grave responsibility upon me, but I am thankful that I have been able to discharge all the duties and meet all the settlements, both with the State and County that were imposed upon me.

Wherever I have gone among the people they have shown the greatest generosity and kindness, and the acquaintances and friendships formed among old Chilton's people, both men and women, will go with me to my grave among my fondest recollections.

And now as I retire after this long period of service to private life to my home and family, I go without malice or envy to anyone, but with gratitude for all, especially to those who were my special suporters, and to those with whom I have been so long and so closely associated in my official duties.

Let me say as a farewell that it is now my greatest wish that all the people may prosper in improvement; that our county and country may continue to push on in the way of better things; that all useless strife and contention may cease; that everyone may improve in all their ways, so they may look on to the end of life with hope and peace when our work in this world is done, that it can be said of each one, "Well done, good and faithful servant," which I have tried my best to do and be, and I leave it with my friends to say how well I may have done my duties in this respect.

"With kindest regards for all, I am

Yours as ever,
"T. J. Hubbard."

I think this letter will explain the question of my being a candidate again.

Every time I have been a candidate I have been solicited by the people to run, and an increasing number have solicited me to run in my last campaigns. When my people call for me I am willing to respond.

Hoping all will go to the Primary and vote for their choice, and if I am the peoples choice I wil appreciate it very much and will ever be true to you. If I am not your choice I will cheerfully abide by the will of the people.

Yours for success,
T. J. HUBBARD.

TWO INSECTS MISTAKEN FOR THE BOLL WEEVIL

By W. E. Hinds, Entomologist, Alabama Experiment Station.

Prepared by Extension Service, Auburn, Ala.

During the winter months, two species of weevils are most commonly mistaken by the farmers for boll weevils. These other weevils occur in the stems of weeds where both breed normally and are discovered at this season of the year as the farmers are cleaning up around their fields. Neither of these species breeds in cotton and the boll weevil never enters the stems of these weeds for hibernation shelter.

The Ragweed Weevil.
(Lixus scrobicollis Boh.)

This insect is much larger in size than the boll weevil. The body is, in fact, nearly twice the length of that of the boll weevil and more generally cylindrical in form. The snout is short, being only about one-third of the length of the balance of the insect's body. The length, including the snout, is usually a little more than one-half inch. The snout itself measures about one-eighth of an inch in length. The color is ashy-gray over a nearly black background and the gray appears most distinctly in four stripes running lengthwise of the wing-covers.

The eggs of this species are deposited in the stems of the ragweeds during the early summer; the grubs grow during the balance of the summer and transform within the stems to the weevil stage. During the fall and early winter, the adult insect remains within the stems, emerging in the spring and beginning the development of a new generation. There is but one generation in a year.

The Transverse Baris.
(Baris transversa Say.)

This weevil occurs in the stems and roots of cocklebur plants. Its life history is quite similar to that outlined above for the ragweed weevil.

The adult baris has a very short, broad body which is only one-eighth to one-quarter of an inch in length. The body is rather flattened vertically. The color is a shiny black. The snout is very short and strongly curved. The adult of this species may occur accidentally upon cotton plants but the species does not attack cotton in any way and is not of economic importance.

MAIL CARRIERS HORSE IS MYSTERIOUSLY KILLED

On last Tuesda as Mr. David Vines, rural mail carrier on Route 5, was making his rounds, his horse happened to an accident that resulted in its death.

At a place where the road working crew on the Lock 12 road had dug a cut, travelers had been forced to depart from the regular course of the road and go across an old field a short way. This temporary road crossed some ditches which had been filled with old rails.

As Mr. Vines horse stepped on the rails on of them in some way flew up and stuck in its body. The driver at once proceeded, as best he could, while the horse pitched and charged, to rmove the stick from the wound. Having finally succeeded in doing o the animal died soon afterward.

Clanton Bank Closed by State Examiner

The Clanton Bank was closed on Tuesday morning by State Supt. of Banks, Mr. A. E. Walker, and the business of the institution was taken in charge by him for closing up.

Many business men and farmers in this county were hurt by the closing of the bank. It has put a bit of check on local business.

It is not yet known what percentage of the deposits the customers will realize when the matters are cleared up.

W. I. Mullins was President of the failing bank and Dr. E. A. Matthews was Cashier.

Editor Union-Banner:

Please allow me space in your paper to say a few words in reply to Mr. C. Reese Mullins' piece in last week's Union-Banner.

He says that Woodrow Wilson is one of the greatest men that has ever been born on American soil, and that his administration is endorsed by all, but he is sadly mistaken as I for one do not endorse it, and if Mr Mullins will go out in the country among the working class of women like myself he will find a lot of people that don't endorse Woodrow Wilson and if they could have put him out of office they would have done put him out and Judge Deason with him and more than that they wouldn't put Mr. Mullins in Judge Deason's place.

Some people don't believe in the women having anything to say in politics, but let me te ll you now that when the men elect a sorry set of officers, national, state and county, the poor woman has her part of the burden to bear.

Does the Ku-Klux and Democrats work together? Guess so from the reading of Mr. Mullins' letter.

Now, Mr. Mullins says he can't see what we can promise ourself out side of the Democratic party. Well I do not see anything for Mr. Mullins out side of the Democratic party or in it as for as an office is concerned, but I can see better times ahead if there is a Republican President and Probate Judge elected. I guess Mr. Mullins is judging the rest of the candidates by himself when he says that all we can do is to give a few men offices that would not give a flip of their finger for us.

Yes, Mr. Mullins the Democratic party has done something for the south. They have just about bankrupt the whole south.

Say Mr. Mullins how does a Democratic cradle look? I would like to know as I have two little boys and if I have made a mistake and got a Democratic cradle to rock them in what will I do?

Mr. Mullins surely must have done some mean things in his past life or he wouldn't have told us to have been expecting to hear about it.

Listen did you hear what he said about the price being paid? Mr. voter wake up and look around you. We women can't vote, but you men can so it is up to you to better our condition or worst it if that could be done.

Respectfully,
MRS, B. L. COBB.
Jemison, Ala., April 8, 1916.

"In a climate where all vegetable matter rots quickly and is washed and lached away by our heavy rains; on lands that lack above everything else humus and nitrogen, the burning of grass, corn and cotton stalks is little short of criminal."—Toia Butler in Progressive Farmer.

You cannot make your land rich by keeping it continually in clean hoed crops depending on fertilizer alone to make the crops aind leaving the land bare in winter.—Prof. W. F. Massey in Progressive Farmer.

FOR RENT—Building formerly occupied by Union-Banner office next to court house. Apply to the Union-Banner.

9 TIMES OUT OF 10

If you'll investigate, you'll find out that in nine cases out of ten a serious illness resulted from the neglect of some seemingly slight disorder of the liver or bowels. It's certainly true that the secret of consistent health lies in stopping the little ills before they become big ones.

It's easy enough to know when your digestive organs aren't working right. A sallow complexion, pimples, bad breath, dizziness, bad taste in the mouth, pains in the back, loss of appetite, nervousness, heavy and drowsy feeling—all indicate that something is wrong that should be stopped immediately.

Of course there are lots of remedies that may be taken in such a case, but the very best of all is GRANGER LIVER REGULATOR, the tried and true remedy for years. It is purely vegetable, being strictly free of all dangerous chemicals. It is easy and pleasant to take, and although it acts safely and painlessly, it is very thorough.

GRANGER LIVER REGULATOR is sold only in large size tin boxes for only 25c. The metal box keeps it fresh and good indefinitely.

Ask your druggist for Granger Liver Regulator, and keep it in your house for your health's sake.

PROGRAM

The fifth Sunday meeting of the Chilton county Association will held with Center Hill church, 2 miles west of Jemison, April 29 and 30.

9:45 a.m. Devotional service, L. A. McGraw.

10:00. The purpose and benefit of the fifth Sunday meeting, Rev. M. J. Parrish.

10:35. The best method to arouse spiritual interest in the churches, Rev. J. A. Pool.

11:10. Sermon, Rev. W. O. Lowery.

1:30. Is the mucic generally used in the churches such as it ought to be, Rev. J. N. Scott.

2:00. How do I understand Matthews 28, 19-20, Rev Buford Lawrence.

2:30. How do I understand 1st Cor. 16, 1-2, Rev. H. T. Crumpton.

Sunday. Devotional service, John Martin.

9:45. Sunday School talks led by J. J. Stanley.

10:40. How is our mission money handled, Rev. W. B. Crumpton.

11:10. Sermon by Rev. H. T. Crumpton.

1:45. Why maintain a Baptist church, Rev. J. E. Champion and others.

T. J. DEASON.

Kodak films and prints developed. For prices write Leonard Gentry, Clanton, Ala., R. F. D. 6.

THE STATE OF ALABAMA
CHILTON COUNTY.

Before me came Jno. A. Thomas, Vice-President and Cashier of The Peoples Saving Bank, who being duly sworn, says the above and foregoing statement is true, and gives the actual conditions of said Bank, as shown by the books on file in said Bank. Jno. A. Thomas, Vice-President and Cashier.

Sworn to and subscribed before me, this the 12th day of April 1916.

J.R. Mullins,
Notary Public.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for *Special Instructions* on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. E66-B

MACEDONIA

The death angel visited the home of Mr. Geo. Smitherman's Saturday night and took away one of his little children.

Weep not for we realize that our loss is heavens gain.

Health of this community is very good at present.

Our Sunday school is progressing nicely. Come on all of you people, both old and young, and lets try to make it better.

Rev. W. W. Robinson filled his regular appointment at this place Saturday and Sunday and delivered a nice sermon ot a large congregation.

Mr. Ross Mahan went to town Monday on business.

MINERAL SPRINGS

There were quite a lot of visitors from Clanton and other places at the Springs Sunday.

L. C. Robinson and family of Thorsby visited relatives near Mineral Springs Sunday.

G. O. Smith and daughter of Mineral Springs visited relatives near Mt. Pleasant Saturday night.

The Correspondent from Mineral Springs visited relatives and friends near Mt. Pleasant Saturday night and Sunday.

T. G. Robinson of this place was in Clanton Monday on business.

E. I. Robinson and sister, Mrs. Scroggins were in Clanton Monday.

FOR SALE—One rubber tire phaeton, one rubber tire cozy cab; both in good shape, have been run but very little. Dr. P. I. Hopkins, Clanton, Ala. adv-3-23tf.

FOR SALE—Berkshire hogs, cheap; early speckled and yokohoma velvet beans and soy beans $2 a bu; white chinese beans 50 cents a gallon. Jesse A. Davis, Clanton, Ala.,

NOTICE TO CREDITORS
Of first Meeting.

In the District Court of the United States, For the Middle District of Alabama.—IN BANKRUPTCY.

In the matter of W.P Headley, Post Office Clanton, County Chilton, Alabama.

The aforesaid party, having been abjudged a Bankrupt, under the act of Congress entitled, "An Act to Establish a Uniform System of Bankruptcy throughout the United States" approved July 1st, 1898, meeting of the Creditors of said Bankrupt is called at the office of the undersigned Referee, in the United States Court House at Montgomery, Alabama, on the 20 day of April, 1916, next, at 10 o'clock, A.M., to make proof of debts, and for the election of a Trustee, and such other matters as are necessary and required by the Act of Congress aforesaid.

M. S. CARMICHAEL, Referee.
Montgomery, Ala., April 6, 1916.

MT. PLEASANT

The weather so far this week is making the farmers wear a smile.

Mrs. J. J. Culp spent Sunday and Monday with her daughter, Mrs. J. C. Maddox. She has been sick for several months and we are glad to see her able to be out again.

Mrs. Ella Jones of near Birmingham spent last week with her mother, Mrs. Julizzie Foshee. She returned home Sunday accompanied by her mother.

Mrs. W. M| Price and little daughter, Mildred, recently visited relatives near Jemison.

W. H. Foshee and wife visited B. H. Jones of Mulberry last week.

Miss Nora Smith of Mineral Springs visited Miss Alvie Dozier Sunday.

Miss Amye Davis spent Saturday night with Miss Eula Bell Foshee.

John H. Jones and wife recently visited at J. Wiley Foshee's.

R. F. Sims of Wylam, a late resident of this community, was here a few days last week. He seems to be well posted on what happens down here. He's a reader of the Union-Banner.

Ed Ward and family spent one day last week with his father, N. G. Ward near Liberty.

Archie Jones and Columbus Taylor of Corrinth were in this community Sunday.

Ganard Smith spent Saturday night with D. P. Robinson.

Mrs. S. G| Murphy spent Monday with Mrs. B. Duke.

Mrs. Jane Milford spent part of last week at W. H. Foshee's.

Prof. McDonald and Supt. Bean will be with us at our school improvement association next Saturday night.. Everybody come and bring some body with you.

The Tomato Club meets at the school house next Saturday evening. Mrs. Lida Jones, the county agent has promised to be with us. Every body is invited to come.

POPLAR SPRINGS

Health of this community is fairly good at present except a few bad colds.

The farmers around this place are getting along nicely with their work according to the bad weather.

Mr. and Mrs. Hardy Jones were visitors at Mr. J. A. Dykes' Wednesday afternoon.

Mr. and Mrs. Oliver Dennis were welcome visitors at Mr. J. A. Dykes' last Tuesday night.

Little Miss Jewel Traywick is spending a few days with Louise Traywick.

There will be an all day singing at this place Easter Sunday. And we all hope it will be the best singing we have ever had at this place.

FOR SALE—Two 1915 Ford cars and one 1913 Ford. Will sell cheap. Apply at Maddox and Hurtt Garage.

LOMAX LOCALS

Health of this place is fairly good at present.

We have been having a good deal of rain but it looks like now we are going to have some nice weather.

The death angle visited the home of Mr. Bill Green Price last Saturday morning and took away his beloved wife. We were all sorry to know that aunt Bettie had to go, but God saw fit to take her away and our Fathers will must be done. We know that she has gone to a home of eternal rest.

Quite a crowd met at Jackson's Chapel Sunday afternoon and organized Sunday school. We want every body to come and take an interest in our Sunday school. We will meet there next Sunday at 3 p. m. to arrange the classes and elect the teachers. We want every body to come, both old and young, and lets make it an evergreen Sunday school.

Quite acrowd surprised Miss Ruth Jones last Sunday afternoon and had an enjoyable singing.

The singing at Mr. I. N. Hick's Sunday night was fine.

Miss Ruth Jones spent Saturday night with Miss Maggie Jones.

Mr. and Mrs. E. S. Chasteen of near Liberty Hill spent Saturday night with the latter's parents, Mr. and Mrs. A. J. Jones.

Mrs. Bennie Williams visited Mrs. John Parker's Sunday.

Misses Nettie Littlejohn and Essie Parker attended the organization of the Sunday school at Jackson's Chapel Sunday.

Mr. Sidney Jones who has been visiting friends and relatives near Birmingham has returned home again.

Mr. Bennie Maddox took a business trip to Jemison Sunday night.

Mr. Jimmie Johnson who has been in Birmingham for some time has returned to his home near here again.

Mrs. Collum of near here is visiting friends and relatives at Shelby Spring.

Messrs. Eddie Canody and John Collum are spending a few days in Birmingham.

It is a fact that Lomax is going right on up as the coaling has started up. There has been two car oads of coal shipped from here already, and we expect to see several more car loads shipped right away.

UNION GROVE

Health of this community is very good at present, and the farmers are all getting along nicely with their work.

Our Sunday school at this place is progressing nicely now but we hope to have a better one in the near future.

Miss Lessie and Mollie Vinzant made a flying trip to Minooka last Sunday nad reported a nice time.

Miss Mae Dorminy spent Saturday night with the Misses Bessie and Lessie Robinson.

Mr. and Mrs. Arthur Littleton spent Saturday night and Sunday with the latters parents.

Miss Bessie Robinson spent last week at Collins Chapel.

Mr. Monroe Benson was a visitor at this place Sunday.

Miss Bessie Chandler spent Sunday with Miss Bessie Robinson.

Mr. James Vinzant made a flying trip to Avondale last Sunday and reported a grand time.

We are all expecting a grand time at the inging at Collin Chapel next Sunday.

NOTICE—I buy scrip and warrants of all kinds. See me ifyou have any to sell. G. O. FOSHEE Clanton, Ala. adv.

Remember that dollar you owe us on your subscription. We have just made some improvements in our printing plant, and are depending on you to help us out with our burden by paying up your back dues. Don't forget us when you come to town.

WHAT CAN YOU ...?

Ask Yourself the question. How ... led, as have ointments, salves, vapours? What you ... and do

The easy, common-sense method—that costs so little—that is so quickly and vigorously effective—is often the last resort of many Catarrh sufferers. Why, it is hard to say. One of the specialists of the Swift Specific Company in Atlanta—a physician of standing and national reputation because of his knowledge of blood disorders, made the assertion that if the majority of Catarrh sufferers would buy and faithfully take S. S. S., they could effectually get rid of Catarrh.

S. S. S. goes straight to the seat of trouble, the blood. It spreads its influence over every organ in the body, comes through the veins and arteries, enables the mucous surfaces to exchange acids and irritating substances for red blood corpuscles that effectually cleanse the system and thus put an end to all Catarrhal poison. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in process of purification.

S. S. S. is made from barks, roots and herbs that are food and tonic for the blood. It stimulates—gives the blood power to throw off poisons. You will soon realize its wonderful influence by the absence of headache, a clearing of the air passages, a steadily improved nasal condition, and a sense of bodily relief that proves how completely Catarrh often infests the entire system.

You will find S. S. S. on sale at all drug stores. It is a remarkable remedy for all blood affections, such as Eczema, Rash, Lupus, Tetter, Psoriasis, Boils, and all other diseased conditions of the blood. For special advice on any blood disease write The Swift Specific Company, Medical Department, Room 11, Atlanta, Ga. Avoid substitutes.

LOST—At my store, one pair of spectacles, large double lenses, nickel frame, with gold filled nose piece, and gold temple on side. Return to my store and get pay for your trouble. L. D. Popwell. adv.

Stop, Listen And Apply This Spring

Use of Manure With Corn and Cotton—Plant Velvet Beans With Your Corn

By LEONARD LETT.

On account of commercial fertilizer being so high this year, every farmer should use all the barnyard manure that he can possibly get hold of and should make the supply go twice as far as he would if commercial fertilizer were at normal price.

That is, do not apply it brodcast as is the custom. Apply it in the drill and use it mostly, with corn. Do not put it directly under the corn, for if it is not well pulverized, it cuts off the water supply from beneath the plant and will naturally make the plant suffer from drouth. A good method is to open a deep furrow in the middle of the corn rows and put it down in this and by the time the corn plants need nitrogen the most, the roots will reach the bedded manure. This will necessitate shallow cultivation, for deep cultivation will cut the plant roots before they get out to this middle. Furthermore, corn is a shallow feeding plant. It has no top root as the cotton plant. Feeding the corn plant from the side or applying fertilizer to the side seems to give more satisfactory results than from putting fertilizer directly under it.

If you expect to use any barnyard manure under cotton this year, don't do it if you are in the boll weevil territory. It will keep your cotton green and tender, late about maturing and the weevil will sure ruin your cotton. Wait and plant cotton the second year on the yard where barnyard manure has been used.

Nitrate of Soda.

It has been my experience that the best time to supply nitrate of soda with cotton is at planting time. Roll the seed in it the day of planting, using fifteen to twenty-five pounds per bushel of seed. This will make the plants come up quicker, have a long healthy shank and will enable you to cultivate quicker and with greater ease. And it will show on your crop the entire year. Do not wait any later than about the time the first blooms come to apply soda, if you are to use it at all. Nitrate of soda will cause the plants to be late in maturing if applied too late. Nitrate of soda used properly and at the right time will pay, even at the high prices.

Plant Velvet Beans.

Every farmer should plant velvet beans this year and do not wait too long to buy your seed. They are cheaper now than they will be at planting time. Do not plant beans without planting something for them to run upon. In corn is the best place to plant them. As to how thick to plant them, this will depend entirely upon the fertility of the soil. It takes good land to grow good anything, but velvet beans will make as much on poor land as any of the summer lebumes or most any other crop.

Also Peanuts.

On medium or good land, I would advise the farmer who is growing them for the first time, to plant them on good land. Prepare your corn lond, laying off rows of four feet. Plant two rows of corn and leave the third row for beans. You can plant the beans at the same time the corn is planted, for they will not interfere with the cultivation of the corn, as they make their growth after the corn has made its growth. Drop two beans in each hill about four feet in the drill, then you can put two hills of peanuts in between each hill of beans thereby growing three crops on the same land at one time. Try this and it will surely work. Velvet beans can be planted right in the drill with the corn in about every other row. Another method used, is to put the corn rows seven feet apart, and a row of velvet beans between each row. It does not make make much difference how they are planted, but whatever you do, plant velvet beans.

The Ship of Sunshine

That's the ship that I want to sail by
When the wind blows free and the spring is nigh
When the year's at its morn and the birds come back.
And the sweet ship sails on the sunshine track
Away, away—oh, let me aboard,
And all my friends there, too.
On the sunshine ship of the living Lord.
Where the springtime skies are blue

Its sails are white as the driven snow
And they're kissed and kissed by the winds that blow
From the apple fields and the vales of song.
And the hills where the dreams dance all day long.
Away, away—oh, let me soar
On that sunshine ship of life
To the islands green with a coral shore
Far back of the world of strife!

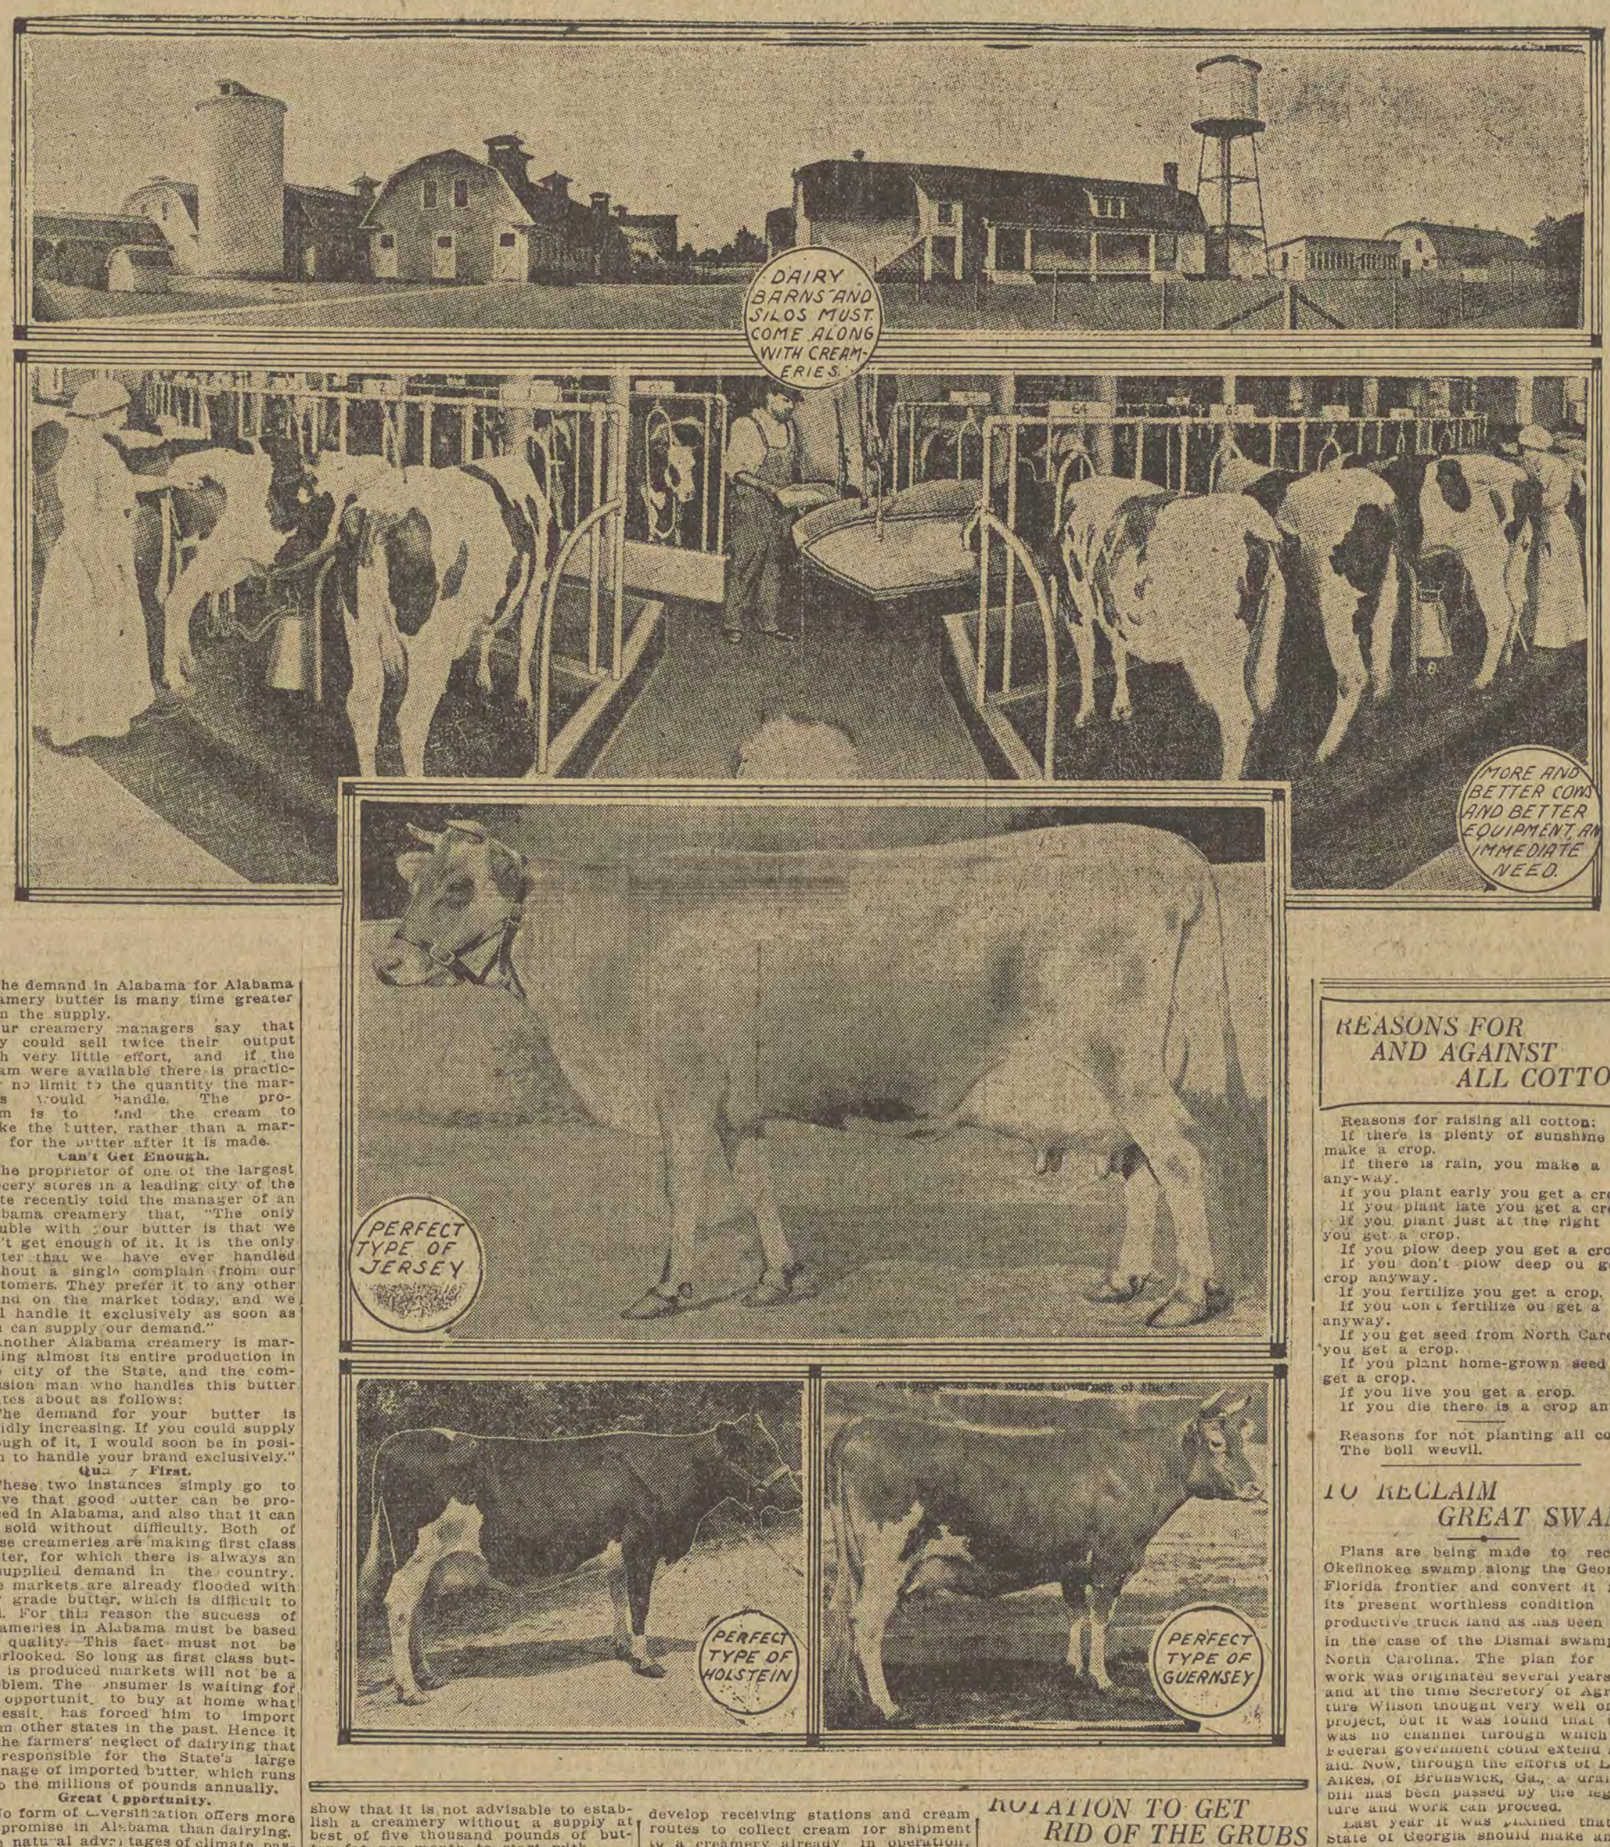
I want that ship, it's the ship for me
The sunshine ship on the laughter sea
The ship whose sails are broad and white
In the wind and the spray of the Guiding Light.
Away, away—oh let me stand
On the great prow where the sea
Is a silver foam round a golden land
And life is a dream-to-be!

RIGHT BACK AT HIM.

"I see you have your arm in a sling" said the inquisitive passenger, "Broken isn't it?"

"Yes sir," responded the other passenger.

"Meet with an accident?"



"No; broke it while trying to pat myself on the back.

"Great Scott! What for?

For minding my own business."

Cows Needed For Our Creameries

By J. P. QUINERLY, Agent In Dairying, Auburn, Ala.

The demand in Alabama for Alabama creamery butter is many time greater than the supply.

Our creamery managers say that they could sell twice their output with very little effort, and if the cream were available there is practically no limit to the quantity the markets would handle. The problem is to find the cream to make the butter, rather than a market for the butter after it is made.

Can't Get Enough.

The proprietor of one of the largest grocery stores in a leading city of the State recently told the manager of an Alabama creamery that, "The only trouble with your butter is that we can't get enough of it. It is the only butter that we have ever handled without a single complain from our customers. They prefer it to any other brand on the market today, and we will handle it exclusively as soon as you can supply our demand."

Another Alabama creamery is marketing almost its entire production in one city of the State, and the commission man who handles this butter writes about as follows:

The demand for your butter is rapidly increasing. If you could supply enough of it, I would soon be in position to handle your brand exclusively."

Quality First.

These two instances simply go to prove that good butter can be produced in Alabama, and also that it can be sold without difficulty. Both of these creameries are making first class butter, for which there is always an unsupplied demand in the country. The markets are already flooded with low grade butter, which is difficult to sell. For this reason the success of creameries in Alabama must be based on quality. This fact must not be overlooked. So long as first class butter is produced markets will not be a problem. The consumer is waiting for an opportunity to buy at home what necessity has forced him to import from other states in the past. Hence it is the farmers' neglect of dairying that is responsible for the State's large tonnage of imported butter, which runs into the millions of pounds annually.

Great Opportunity.

No form of diversification offers more promise in Alabama than dairying. The natural advantages of climate, pastures and feed production are excellent. In fact, men who are in position to know doubt if any State has these in greater measure—undeveloped though they are. Give the dairy cow an opportunity, and she will do for Alabama what she has done for other states. She will build up and put new life in our worn-out hungry soils, and while doing so will pay the farmer a premium for the privilege. Dairying is the small farmer's opportunity in the readjustment that must be made in getting on a basis of "safe farming" under boll weevil conditions.

More Good Cows Needed.

Unfortunately the available cows in Alabama are poor (and usually unprofitable) producers. Real dairy cows are scarce, and few, if any, for sale. Therefore, the prospective dairyman instead of attempting to "buy" into the dairy business must needs start with a few cows and "grow" into it, using, of course, a pure bred bull from high producing ancestors. Too much emphasis cannot be put on this point. It is fundamental. It is perhaps best that the would be dairyman cannot buy a herd at once, for there are many details in the dairy business which must be learned by experience. Experience is not so expensive, or mistakes so disastrous on a small scale. It is evident, therefore, that a large production cannot be expected. It will require time to build up the dairy industry in Alabama.

Cream Before Creameries

While creameries are necessary for the ultimate development of dairying considerable dairy development is even more necessary for the success of a creamery. A creamery is almost certain to fail if its operation is begun before a sufficient supply of cream is actually available to net operating expenses. Government investigators show that it is not advisable to establish a creamery without a supply at best of five thousand pounds of butter fat per month to start with.

To insure this the entire production from six hundred to seven hundred and fifty cows must be depended upon, since the average yearly production of Alabama cows is undoubtedly below one hundred pounds of butter fat. The cost of a small creamery, complete, is about $4,000, and the operating expenses of such a plant are about $2,500 per annum, whether the monthly production of butter be one thousand or five thousand pounds.

Creamery a "Safety Valve."

A losing investment soon becomes a discouraging one, in the case of a creamery it usually fails before enough butter fat becomes available to make it a success. In every section where creameries have been put in permanently and failed, the dairy industry has received a set back which only time can overcome. Such a condition is extremely unfortunate. The market problem is, therefore, difficult to solve in some sections. How can the farmers dispose of their dairy products without a local creamery In many instances there is a local or near-by market for milk, cream and butter that is unsupplied. A creamery cannot compete with these markets, as it must buy on a butter fat basis. Such a market must be supplied before a creamery can succeed. Farmers will sell cream to the creamery only when no other market is available. A creamery is nothing more than a "safety-valve" so to speak, for over production. Fortunately it is possible to ship cream to a distant creamery under favorable conditions.

Many Within Reach.

Thousands of farmers in the State are within reach of a creamery and don't know it. Many towns and cities are agitating creameries when not a few of them should be attempting to encourage individual shipping or develop receiving stations and cream routes to collect cream for shipment to a creamery already in operation. Such steps are practical and advisable because of the very low express rates which prevail on cream. With good connections, it is feasible to ship cream from one hundred to two hundred miles without the cost being prohibitive. In fact, it is more a question of time than distance in shipping cream to a creamery. It must, of course reach its destination in good condition.

There are at present six creameries located in different sections of the State. Their managers and locations are as follows:

A. W. and O. M. Kratzer, Kratzer Creamery, Montgomery, Ala.; H. C. Ferguson, manager College Creamery, Auburn, Ala.; R. W. Barnes, manager Selma Creamery, Selma, Ala.; A. O. Bergin Creamery, at Fair Hope, Ala., Claus Fiesk Creamery at Silver Hill, Ala.; S. C. Oliver, Creamery, at Talladega, Ala.

Any farmer or community having a surplus of cream, or interested in cream production, should investigate the practicability of one of these markets by taking up the matter direct with the manager, or with the State dairy agent, Auburn, Ala.

In addition to these six Alabama creameries there are several creameries in Mississippi and Tennessee that afford a logical market for cream from many Alabama farms.

The great need in Alabama at present is more cream for the creameries already established, rather than more creameries. All those who have the success of the dairy industry at heart must realize this fact, and co-operate in the efforts to build up the plants already established.

No greater calamity could befall this infant industry in Alabama than "overstocking" with creameries. A creamery cannot succeed without cream, and cows are necessary for cream production. It will require time to raise the cows.

ROTATION TO GET RID OF THE GRUBS

Rotations are especially important in avoiding grub injury.

A rotation of oats, clover, and corn has proven very satisfactory in some sections. Ground which is in corn on has a heavy stand of pure clover during the year the beetles are flying, which will be 1917 in the infested area referred to, will ordinarily contain few grubs, since the beetles will not seek such land for laying their eggs. The beetles prefer land in small grains, timothy, or covered with weeds for egg laying. Land which is in oats during the flight of the beetles will contain many grubs, but if clover, which is one of the least susceptible crops, follows, the grubs will scarcely injure that crop.

Aside from this rotation, it is desirable to so arrange the crops that the least amount of land will be in timothy and small grain the year the beetles (1917) are abundant, and the following year (1918) to plant corn on corn ground and use for small grain and timothy the ground which was in these crops the previous year.

THE FIRST GREEN

The first young green of the grass again
Has followed the splash of the first warm rain;
Life is a-bud in the germinal earth--
And, oh, what a world of love and mirth!

The tender blades are above the sod
At the kiss of the first warm rain of God;
Sap is stirring, and hearts know why--
And, oh, for the beauty of yon blue sky!

--Folger McKinsey.

Big Money in Hogs WhyNot Get It Now?

Hogs Are High and Will Probably Remain High For Some Time—Our Opportunity

"Hogs is high."

"They sure is."

Look at the market reports and you see figures like 9 and 10 opposite the hog quotations.

"Yes, hogs is high."

And what's more, the prediction is that they are going higher. The writer talked with a swine man from Chicago the other day who said that he believed June would see hogs at twelve cents.

Now that ought to sound even better than twelve-cent cotton. Twelve cent hogs mean a whole lot more profit to the man who has hogs than twelve-cent cotton means to the man who has cotton.

Under ordinary conditions twelve-cent cotton means a profit of about four cents a pound. Sometimes it is less; sometimes a little more. On a piece of land producing three quarters of a bale to the acre, and figuring the bale at exactly 500 pounds, that means exactly $15 net profit on an acre.

Cost of Making Pork.

Now the cost of producing pork varies far more than the cost of producing cotton. But with some good pasture and some corn raised on the place a man ought easily to produce pork for four cents a pound on a fairly well equipped farm and this four cents should include most of the "overhead" expense that could rightfully be charged to the hogs. This "overhead" expense, of course, varies greatly on different farms.

But figuring at four cents a pound, easily a fair average, twelve-cent hogs would mean eight cents a pound net profit. You can see from this that just one hog on an acre—and he wouldn't have to be much hog at that—would bring more net profit than a bale of cotton if you raised three quarters of a bale to the acre. But with a couple of good brood sows and their litters on the acre you can see that your profits would double and treble the profits on an acre of cotton.

When we begin to figure the difference on the profits between hogs and cotton hogs make cotton look mighty sick. Taken the country over there is more profit and more quick profit on hogs than on any other farm product. Hogs—farm for farm—beat anything else known for making real money for the farmer.

Big Money In Hogs.

It seems as if our people are beginning to realize this big fact. There is surely money in hogs—and big money too—and our farmers are lighting in now and beginning to get some of it. Of course, the cotton crop does not die of cholera, and hogs sometimes do. That is the risk; but a man can never make much big money in anything unless he takes some risk. The smaller the risk the less the profit; that is why the profits on cotton are really so small when you sift them down on a twelve-cent basis.

Hogs make money and they make money fast, and—on the average—they make more money quicker than anything else that has ever been put on American farms. We defy anybody to prove it otherwise. Some men make more money on cattle than on hogs; some make more on fruits; some make more on this, that and the other thing, but striking an average, the hog is the biggest money maker of any crop that the American farmer can grow.

What an opportunity our farmers have now with the possibility of hogs going to twelve cents. What an opportunity! The man who produces pork now is going to cash in as he can cash in on no other crop. Of course, he must raise his grain and forage crops; have sanitary premises and pure water; and he must guard against cholera. But with the right sort of work any farmer who has a fence and two hands can make real money now on hogs.

There never has been such an opportunity since 1909 to make such big money on hogs. Every boy and every man who can possibly keep hogs light and raise feedstuffs for them should get into raising them now.

Pork Will Stay High.

Pork production is short everywhere. The war has paralyzed this industry in Germany, Belgium and France. The foot-and-mouth disease gave it a frightful set-back in the Central West. Many of the Central West farmers, badly hurt by the foot-and-mouth disease, will sell grain this year that otherwise they would have fed to hogs and cattle.

It is our golde opportunity. What advantage will we take of it?

At present prices the production of pork is highly profitable. If hogs should go to twelve cents the profits will be astonishingly big. The prediction is freely made that hogs will continue to be high for the next two years. It seems almost a certainty that they will continue high until next spring.

We can produce pork fast and we can produce it cheap. With our long pasture season and our mild winters we can produce pork at a minimum of trouble and risk. We don't have to watch the little pigs to keep them from freezing as the swine growers do in the Central West. If we provide fairly good pasture, have plenty of pure water, raise our own grain and give good hogs reasonably good care and attention our profits will be large and sure.

Now of all times is the time to raise hogs.

LITTLE THINGS

Little drops of water poured into the milk, serve the million daughter lovely gowns of silk. Little grains of sugar mingled with the sand, make the grocer's assets swell to beat the band Little bowls of custard, humble though they seem, help enrich the fellow selling pure ice cream

REASONS FOR AND AGAINST ALL COTTON

Reasons for raising all cotton:

If there is plenty of sunshine you make a crop.

If there is rain, you make a crop any-way.

If you plant early you get a crop.

If you plant late you get a crop.

If you plant just at the right time you get a crop.

If you plow deep you get a crop.

If you don't plow deep ou get a crop anyway.

If you fertilize you get a crop.

If you don't fertilize ou get a crop anyway.

If you get seed from North Carolina you get a crop.

If you plant home-grown seed you get a crop.

If you live you get a crop.

If you die there is a crop anway.

Reasons for not planting all cotton
The boll weevil.

TO RECLAIM GREAT SWAMP

Plans are being made to reclaim Okefinokee swamp along the Georgia-Florida frontier and convert it from its present worthless condition into productive truck land as has been done in the case of the Dismal swamp, in North Carolina. The plan for this work was originated several years ago and at the time Secretory of Agriculture Wilson thought very well of the project, but it was found that there was no channel through which the federal government could extend state aid. Now, through the efforts of L. R. Aikes, of Brunswick, Ga., a drainage bill has been passed by the legislature and work can proceed.

Last year it was planned that the State of Georgia should make an appropriation to begin the work, but business conditions did not warant such a step. Now, it is understood in Washington that the government is ready to undertake drainage work in the South. In the northern part of Georgia considerable drainage work has been done in five districts to eradicate malaria.

The Okefinokee swamp stretches across the eastern end of Georgia and contains thousands of acres. This land is now worth about 50 cents to $1 an acre. It is estimated that, when it has been properly drained, it will be worth from $100 to $200 an acre. When the Georgia project gets under way it is expected Florida also will begin drainage work.

GETTING EGGS FOR WINTER

In order to have eggs for next winter the spring pullets should be pushed in their growth now by feeding a balanced ration. The ration problem need not worry the farmer who does not understand how to mix the feeds in the right proportions. Grow some wheat, corn, oats, and sunflower seed, and keep these feeds before the flock all the time and the hens will balance their own ration. It is well to feed a little bran, corn meal, and cotton seed meal also.

PARADOX.

"There is only one way that people can live happily——that's together."

"Yes, and there is only one way that people can live at peace—and that's apart."

ATTENTION FARMERS!

SNAPPED CORN AND FEED GRINDER

The Williams Improved Snapped Corn Grinder shown below will not only grind Snapped Corn, but will also grind Pea Vine Hay, Alfalfa Hay, Velvet Beans, and in fact most any cereal with the very best results. It does more, and better work with less power than any other grinder made. Is built in six sizes to meet all requirements.

We will sell these machines to all responsible parties on very reasonable terms, thereby giving the user an opportunity to let the machine pay for itself in a short time.

Cottonseed hulls have advanced $20 per ton. Grind velvet beans, snapped corn, peavine hay and other herbage to take the place of the cottonseed hulls for dairy feed and get a better balanced ration feed than using cottonseed hulls.

The Williams Pat. Crusher & Pulv. Co.,
St. Louis, Mo.
Gentlemen:—
As we are not able to express to you just how much we like the New Ideal No. 1, will only say, if we were going to buy a dozen more mills to grind any kind of Hay, Bean or Peavines, ear corn with or without shuck, millet or sorghum into the best feed meal, they would all be the WILLIAMS THE BEST.
Yours truly,
SESSOMS GROCERY CO.,

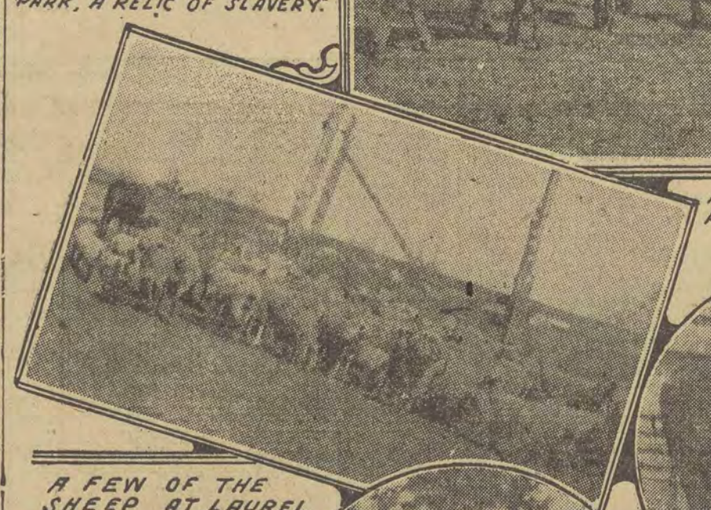
A. D. Summers, of Iowa, and His 25 Years of Work In the South



BY ELEANOR EVINS STEWART

"Now This Gentleman of Our Article Who Came to the Junction from Iowa Some Twenty-five Years Ago, Though He Still Clings to His Final G's and Sometimes Rolls His R's, Has Little Left—Except His Thrift—to Disclose the Land of His Nativity"—The Author

THE MAN WHO "SALTS" THE CATTLE AT LAUREL PARK, A RELIC OF SLAVERY.

A GROUP OF RED POLLED CALVES AT LAUREL PARK

POCHTO SECOND, HEAD OF THE HERD AT LAUREL PARK.

A FEW OF THE SHEEP AT LAUREL PARK.

TERENCE, FIFTEEN-MONTH-OLD SON OF POCHTO SECOND

Fourteen miles from Selma, Alabama, on the direct line of the Southern Railway, or, if you prefer, on an equally direct and far more attractive stretch of perfect, gravelled motorway, is situated Marion Junction, the meeting point of three branch roads of the Southern and a community long and widely famed for its hospitable people, its fine cattle and its unexcelled Johnson grass fields.

An interesting place it is with pretty modern homes, a half dozen or more busy stores, an excellent hotel, a bank, four churches, a flourishing school and its several railroad tracks throbbing with locomotives that give a substantial background to and positive corroboration of the general atmosphere of progress and industry that pervades the place.

Visitors are cordially welcomed and delightfully entertained, friends are importuned to come and to stay, and strangers properly introduced and credentialled, are accorded a wonderful hospitality but the unknown and suspicious-looking individual fares badly. It is said that, as sure as the boll weevil, someone of the Randalls, who as pioneer citizens are ever interested in preserving the law and order in Marion Junction, will look him in the eye with such unmistakable meaning he is glad to exceed the speed limit in the suddenness of his departure. This pronounced proclivity of the Randalls was a prime factor in the election of them to the sheriff's office of Dallas county, it is declared by some of their friends.

He came from Iowa.

To Marion Junction some twenty-five years ago came, at the suggestion of a Randall, Mr. A. D. Summers, an Iowa man, one of the first and one of the best, of those pioneer Western imigrants, who, coming from a great country to a greater, have helped to make it the greatest.

Mr. Summer's attention had been first attracted to the South and his interest awakened in it, by a series of feature articles descriptive of Alabama and other Southern towns, appearing in the Detroit Free Press under the signature of M. Quad. The story of the Demopolis Section, ever an interesting field for the journalist and the agriculturist as well, so aroused the enthusiasm of this young Iowan, that he determined to go there prospecting and if pleased, to remain. A discussion of this decision with an older friend who had been a provost marshal at Demopolis during the Civil War, heightened Mr. Summers' interest, for the ex-soldier declared it to be the greatest country in the world—except Iowa—and as Mr. Summers had determined to leave Iowa, naturally Demopolis was the next choice.

The Land Increased.

Consequently, the young prospector set out for Demopolis, but en route fate, in the person of Henry Randall, whom he met at Selma, intervened, persuading him that Marion Junction with its fertile prairie lands, its marvellous hay fields and its many other agricultural opportunities and advantages, was truly the best place on earth the Demopolis only second best.

The upshot of the matter was that Mr. Summers chose Marion Junction, arrangements were made through an agent for a land owner for the purchase of eighty acres of fine farm land and he returned West to make the necessary preparations for moving to Alabama. Then began a series of unfortunate happenings which might have daunted a less determined man that Mr. Summers. No sooner than he reached Iowa, came a letter from the agent in Alabama, saying that the land owner had decided not to sell less than three hundred and fifty acres and he hoped Mr. Summers would consider that proposition. It was considered affirmatively and negotiations begun. Before they were ended, however, the landowners withdrew their offering, increasing it to five hundred acres. Mr. Summers, still patient and anxious for Marion Junction land, was not to be outdone; five hundred acres he would buy.

Then, while waiting for the final transactions, his household goods packed, ready for shipment, and he and his family inconvenienced by delay, the burlesque ended with a final regretful and apologetic letter from the agent. With the increased demand for these Marion Junction lands, they had become so valuable in the eyes of their owner he had decided not to sell at all and the deal was off.

Finally Got Farm.

Without recounting the details of the troubles and disappointments attending the further attempt at purchasing a Marion Junction farm, it is only necessary to say that at length Mr. Summers succeeded in obtaining, securing, holding a splendid tract of one hundred and sixty-eight acres of fine farm land, one mile out from Marion Junction, the site of his present homestead, to which he came, worked and achieved success, despite struggles and hardships. Those original acres have grown and increased into six hundred, fertile and fair to see, their green, undulating depths variegated here and there with animated touches of red and white and black—cattle, sheep, hogs—and their owner has developed into a recognized stock man and agricultural authority and a power for good in his community.

Past and Present.

The site of the homestead, with all its attractiveness, is an interesting combination of the past and the present. Standing with your back to the farmhouse, and looking away over the sweeping prairie, you see the ancient landmarks of the homesteads of the Randalls and the Forts and the Rasces, and of other early settlers, now become prosperous modern farms. Adjoining these, the great cattle barns and silos of A. B. Moore, the son of another early settler, come into view, topped by the towers of the Junction beyond. Moving your fascinated gaze to the east, you view the old muster ground where a fierce sham battle was waged and in the midst is set a cabin, all that now remains of the home of "Billy" Johnson, a great man in Marion Junction history, who resided there as early as 1818 and who planted there, a handful of the seeds, brought from South Carolina, of the grass that was destined to bear his name through the ages and to develop a fortune-making industry in the Black Belt.

Chose Red Polls.

Mr. Summers' first agricultural efforts were devoted to the growing of this Johnson grass hay and this, with a few acres given to cotton, kept him busily and successfully at work until 1903 when he began the upbuilding of the Red Polled herd that has established his reputation as a cattle man and made his farm, Laurel Park one of the show places of this section. The Red Polls were his choice because of their dependability as a dual purpose cow and because of the attention their color and fine appearance always attracts.

His first purchase was the best pure brew cow attainable, by name, Ruby's Sister and by reputation, the mother of Kim, a splendid son, who became the first sire of the Summers herd. Ruby's Sister succumbed to an untimely death and the next addition of pure-breds to the grades that were already on the farm was Una and Norah, five heifers purchased from a noted Mississippi breeder. These, with Kim, were the foundation of the superb pure-bred Red Polled herd that delights the eye and attracts the presence of stock men and lovers of fine cattle to Laurel Park.

Misfortune.

If any whose eyes shall chance to fall on this is discouraged in his efforts at cattle-raising, he should take heart from Mr. Summers' experience, for in this attempt, as in the purchasing of his farm, there was an unusual number of misfortunes and obstacles. Among other things, ticks were to be contended with—at that time the infestation was at its height and cooperative efforts for relief had not well begun—and there was resultant sickness and death in the herd. Of the first twenty-four calves born, only seven were heilers—save the mark! and four of the seven died.

But He Won Out.

However, notwithstanding accidents and hinderances, the development of this herd has gone slowly, but surely on until today Mr. Summers will show you, with justifiable pride, forty pure-bred Red Polls, perfectly shaped and rounded and as uniform in color as it is possible for nature and their ancestry to make them. Undoubted aristocrats they are, these Red Polls, with their wonderful, unvarying brick-dust color and their docile ways, who may dispute even the Jersey's claim to ancient lineage being possibly the oldest of the English breeds.

Among this herd at Laurel Park are fifteen calves under fifteen months of age, all healthy and well developed; and two particularly noteworthy cows, Lady Jim and Janette McPhee, who took sweepstakes at the last Selma fair for the best types of beef cattle. Una, a somewhat aging matron, who is as plump and shapely and sportive as any show-ring heifer, is pointed out as an excellent illustration of the advantages of cattle-raising in the Black Belt. Like the other cows that are now nursing calves she has not been sheltered this winter and her only feed has been a daily ration of fifteen pounds of hay together with grazing on the abundant mellilotus pastures that nature has rotated with the Johnson grass.

Animals are "Human".

At the head of the herd is Pochto Second whose magnificent proportions and perfect coloring stamp him before one learns of his ancestry and accomplishments an unusually fine animal. For all his dignity and hauteur, Pochto is a humorist and characteristically masculine besides; for in the first instance, he is a proved practical joker and in the second instance, admiration and flattery will reduce him to manageability when other experiments fail. One day recently, when Mr. Summers was standing with his back to Pochto, an object on the ground attracted his attention and he stooped to examine it. There was a sudden gentle, but effectual, push from the rear that bowled him over completely. When he gathered himself together and looked behind him for the cause of the attack, Pochto had meandered some feet away, but he was looking back at Mr. Summers with a mischievous light in his eyes and the nearest approach to a grin that a gentleman of his dignity could allow himself.

If you are skeptical about this story it is because you do not know and understand animals. Those of us who study them for a better acquaintance are made to realize that each of them has an individuality and far more humanity and humaneness than the world at large gives them credit for, an assertion that is borne out by Maurice Maeterlinck, who knows animals and insects as he knows the drama by Ernest Thompson-Seton, by Rudyard Kipling and other authorities.

The Ram Begged.

There is a great herd of sheep, too, at Laurel Park and some prize-winning Poland China hogs. How the initial members of this bunch of sheep were saved to the carm is another animal story. One morning, in the early days of his sheep raising efforts, Mr. Summers, after some untoward happening, decided that he would put an end to this branch of farming and announced that he would dispose of his then small flock—a ram and four ewes—at the Junction the next morning. That afternoon, the ram, which was a pet of Mrs. Summers, wandered about the yard and up to the doorstep bleating so pitifully that the kind-hearted lady interceded in his behalf. The result was that the sheep were not taken to the Junction, but remained on the farm to its present enrichment and charm.

Contrary to the usual custom of our Southern farms, there is no overseer employed to care for the live stock at Laurel Park. Mr. Summer's two sons boys yet in their teens, are doing this work under the vigilant eye of their father, being educated into trained, practical stock men so that when they come to take up their father's life work, they may enter into it with intelligence and informed.

Preparedness.

A curiosity at this farm and one that excites almost as much comment as the Red Polls themselves, is the woodpile, an enormous object, standing beside the farmhouse, reaching to its second story window and covering as much ground as a small cabin. A most unusual and striking illustration of preparedness it is, and surely, with it must have originated the saying a dark person hidden in the depths of such a structure. More than one Ethiopian might find concealment there if one wished a literal illustration.

Still Rolls 'Em.

Visitors, as you already know, are frequent at Laurel Park and recently Mr. Summers was escorting one of them about the place pointing out the things of particular interest and discoursing pleasantly, meanwhile. Now, this gentleman of our article who came to the Junction from Iowa some twenty five years ago, though he still clings to his final "g"s and sometimes rolls his "r"s, has little left—except his thrift—to disclose the land of his nativity. These betrayals of speech however, were not noted by this interested guest, who was vititing Marion Junction for the first time. Having viewed with delight and wonderment the Red Polls and the sheep and the spreading, fruitful acres he was inquisitive.

"Who was the pioneer cattle man here at the Junction?" he asked.

"Frank Bates of Jersey fame." Mr. Summers informed him.

"Why, some one told me that a Yankee tradp came down here from Ioua and started things going."

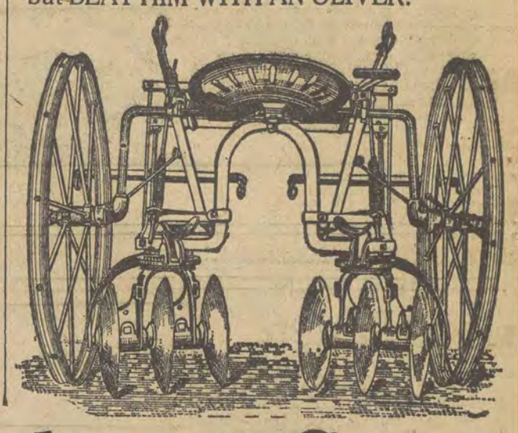
"No, Mr. Bates was the first," Mr. Summers insisted.

"Well this is such a fine farm some Yankee will be coming down here trying to buy it," declared the visitor bent on being pleasant.

Then began, Mr. Summers being secure in his knowledge—and his farm the business of changing the subject, as the scenario artist expresses it.

INCONGROUS.

Stage manager—My dear, I wish you would wear a different gown in the second act.



Rita Ravenyelp—But that is the latest style full dress and I paid $200 for it.

Stage manager—That may be true, but when your husband says: "Woman you are hiding something from me," the audience can't figure what he means.

Buy a Primrose
The One-Adjustment Separator

BEFORE you buy any cream separator, come in and look at this feature of the Primrose. Regardless of how long the Primrose separator runs, one mechanical adjustment is all that is necessary to keep it in perfect operating condition at all times. This adjustment is a simple one for keeping the bowl at the correct height.
The adjustment is made on the outside of the separator by either raising or lowering the bearing containing the hardened steel point upon which the spindle revolves. A slight turn with a screwdriver does the work.
The Primrose is a well-constructed, efficient and durable cream separator. It will mean a saving of $10.00 to $15.00 per cow in your herd every year. It is made in four sizes to separate 350 to 850 pounds of milk per hour, or from about 40 to 98 gallons. Ask for a catalogue giving a complete description, or, come in and look over the Primrose yourself.

Foot-amd-Mouth Disease Stamped Out At Last

But Knock on Wood Lest It Return and Hit Other Sections of Our Country

Well, it is all over—the foot-and-mouth disease that brought weeping and wailing and gnashing of teeth to the stockmen of the Central West and cost the livestock industry of America millions upon millions of dollars.

But now it is ended and everybody is knocking on wood with the hope that it will never return. The secretary of Agriculture of the United States has issued an order that removes all foot-and-mouth quarantines and restrictions against the shipment and movement of live stock. The order signed specifically removes the quarantine from a small territory in Christian County, Illinois, the last area which was under suspicion. Along with the removal of this local quarantine, the various Federal orders restricting shipment of cattle are rescinded, so that dealers can now ship their cattle as before the first quarantine was imposed.

Upon notification that the United States is free from the disease, all foreign governments which have placed embargoes on American cattle are expected to remove these embargoes, so that cattle raisers will then be able to resume shipments to these foreign countries.

Was Vast Work.

The magnitude of the work of eradication and control carried on by farmers, shippers, and the State and Federal governments is shown by the fact that before controlled, the disease had gained a temporary footing in twenty-two states and the District of Columbia. The disease appeared and was controlled in 269 different counties.

The importance to the stock raising industry of eradicating foot-and-mouth disease may be judged from the results of this plague in Denmark, where the disease appeared at about the same time that it broke out in the United States. The area of Denmark is approximately equal to that of the three New England States—Massachusetts, Connecticut, and Rhode Island. It is, however, a great dairying country, and it has been estimated that the losses in milk in one year caused by the foot-and-mouth disease have amounted to approximately one-third of the total cost of eradicating the pestilence in twenty-two states of this country. The Danish authorities were unable to carry out their former policy of slaughter, and were compelled to resort to such measures of control as could be established by quarantines and other restrictions.

Watchful of Future.

As a result of better understanding between the state and national governments, representatives of the department believe that many of the obstacles which confronted the authorities in the past outbreak would not be encountered in dealing with any future occurrence of the disease. The veterinarians, however, will not abate their watchfulness for some time. Examination of animals and animal products offered for import will continue to be unusually strict. The department, moreover, particularly urges all farmers and cattle handlers to notify their state veterinarians and the department of any suspicious cases of sore mouth combined with lameness in their animals. Those in charge of the eradication work are confident that the disease is wiped out, but they wish to use every precaution to detect and control any sporadic cases that may develop in remote districts.

Few men look for an umbrella when greeted by a storm of applause.

GOD'S WONDERFUL CREATURE AND MAN'S FRIEND—THE BEE

S. E. WESSON

"The Anatomy of the Honey Bee" and "Getting Experience With Bees"

By S. E. WESSON

The writer of this series of valuable and practical articles on "Success With Bees" will be glad to answer any questions that you wish to ask him about your bees. He doesn't claim to know all there is to be known about bees, but out of his experience with and study of bees he may be able to help you from time to time. Address all inquiries about bee culture to S. E. Wesson, Farm and Immigration, Montgomery, Alabama

The physique of the bee is a wonderful thing. We see the bee as we do many other things, a thing of body, wings and legs, a strange and moving thing, little examined, little thought about, often feared and even consigned to mystery. But if we knew her a most inviting engaging and marvelous creature.

The Bee's Body.

The outward organism of the bee is divided into three parts a head, a thorax an dthe abdomen.

1—The head consists of the eyes, the antennae, or the organs of sensation. We might call them feelers. And here are also the mouth parts of the bee.

2—The thorax, that part of the body between the neck and the abdomen carries the wings and legs.

3—The abdomen holds the wax-glands and the sting.

4—Studied under the microscope the body wall is simple, being composed of an inner cellular part, a single layer of cells—the hypodermis and also an outer crusty part—the cuticle. This cuticle wears away and wastes from the bee in tiny abrasions and is replaced by other imperceptible growths from the within action of the hypodermis, for that is one of the offices of the inner and living part.

The Head.

5—The bee's head is made up of segments grown together is rather triangular in outline and is flattened. The eyes are of two types, one called simple and the other compound. Of the simple eyes there are three located at the top of the head. The compound eyes are two in number, one on either side of the head. They are called compound because they consist of several little eyes grouped together.

6—The antennae are two slender, many jointed leg-like organs extended from the front of the head. They appear extremely sensitive to touch and they are surely the bee's organ of smell.

7—The mouth parts are an upper lip, a lower lip and two paris of jaws.

8—The thorax is the central portion of the body. As in al insects this carries the wings and the legs. Though it is difilcult to observe, the thorax is composed of three segments of the body so compactly united that there seems to be but one.

There are two pairs of wings. The wings on each side are united by a series of hooks and work in perfect unison.

Each body segment of the thorax bears a pair of legs. Each of the six legs consists of nine parts. Four of these are the leg proper and the other five are the feet.

The Internal Organ.

9—The abdomen of the bee is all that long portion on which are no attachments. It is composed of a series of overlapping segments and bears within two important organs the wax-glands and the sting.

10—The internal organs of the bee are several and deep is their mystery.

(a) The alimentary canal is a very small tube extending through the entire body of the bee. It is somewhat larger in the upper head of the bee, where it begins, then is reduced to a very small, thread-like passage until it passes through the thorax into the abdomen, there is enlarged into a minute, but baglike thing called the honey stomach. Next, it becomes a very small passage out into a still larger sack, which is the bee's stomach in very fact. Then there follows a tiny tube, or tract, which is the intertinal organ.

(b) Bees have salivary glands just as we do. Those in the bee are located in the back part of the head and in the fore of the thorax. The saliva thus is enabled to affect their food and prepare it for digestion, or run down the tongue to soften such hard food particles as may be of no use without it.

(c) The bee's heart is located between the alimentary canal and the wonderful muscles of the back. The heart throbs and the circulating fluid courses through the body just as in ourselves.

11—Men have lungs. Bees have spiracles. These are air sacks situated in the head, thorax and abdomen. Bees do not breath through the mouth. Nature has given to bees certain openings along the side of the body through which respiration is accomplished.

12—Of course, the bee is equipped with a nervous system. This is a number o fthe little masses of tissue called ganglia and lies along the middle line of the body cavity. There are nerve centers in the head, thorax and abdomen.

Getting Experience

Better not try to open the hive till near noon.

Insert the hive-tool under the cover and prize it up gently till the opening is large enough to let in a little smoke. Puff the smoke slowly, not too much. Open a bit wider and puff about twice more. Loosen the top and take it off. Do not be jerky, but move slowly and deliberately. Puff smoke in the top of the frames lightly. Moving the hands too rapidly over the top of the frames, or around the bees, angers them. Proceed deliberately and wateh for nervousness among them.

Treat Them Kindly.

Always stand in the rear of the hive when you are experimenting. After a while you may be able to do as you please. Don't imagine you have to punish the bees with a fog of smoke. Too much smoke infuriates the bees. Treat them humanely and they will soon allow you to handle them without resistance.

Hold what you have in your hand firmly. To drop any tool, or to jar the hive suddenly, or to permit the covers to fall down, any awkward move is likely to cost you an exhibition of bee-temper.

Dont Get Nervous.

If the bees resent your intrusion, do not run. Do not fight at the irritable little creature who may come threateningly up near your nose. When you show fight you may expect a battle. A bee is like a mule, they know when you are frightened. Be steady. Put on a bold face and don't even blink when one of the defenders of the colony's rights comes brushing your very eyebrows. If you dodge, the chances are you will get a sting the next minute.

If the bees are in a very bad humor and you see they are attacking you severely, don't run, or fight, but quietly retire under some brush, or behind some wall, for a brief spell. Then come calmly back, make prudent use of your smoker and close the hive for this time. You can probably have your own way in a day or so without resentment. The bees sometimes are ill because their nursery is filled with young which must have a carefully guarded temperature and cannot stand strangulating smoke.

Go On Bright Day.

Twice a week is often enough for the beginner to annoy the hive. It is better not to attempt to go into the hive on a dark or rainy day. Too many bees are certain to be at home. Between the hours of 10 o'clock and 4 o'clock on bright, warm days approximately half of the bees are in the fields at any given time and the hive may be entered without much harm.

The hive should not be placed too high from the ground. It is also more easily overturned. Have the bees in as convenient a place as possible.

When you have gained confidence in handling them you may safely take out a frame of brood which will have probably a thousand or even more, bees in it and turn it over from one side to the other, or end for end and then stand it down beside the hive while you examine another without even one bee making the least sign of alarm. You may even carry the beautiful creatures into the house and display them to a company of astonished visitors without the remotest liability of harm.

Happy When They Swarm.

Bees are usually in a good humor when they swarm. They may make a big fuss and fly wildly in the air, but that is more an expression of joy than wrath.

Little fear need be entertained that they will be in a stinging fit when you go to hive them. Let them settle well. Then you can safely go about moving them. If they are on a small limb you can probably cut it from the tree and by handling it quietly and not shaking it, take them to any place you desire without disturbing them at all. The writer has clipped off a small peach tree limb on which a small swarm had settled and carried them a mile right down the main streets of a city and lever lost a beee or got a sting. And more than that, these bees allowed themselves to be hung up in the back yard for half a day and then shaken into a hive and never showed any sign of ill temper.

Harvesting Sudan Grass

By H. N. VINALL.

This is the third of a series of articles on the growing of Sudan Grass in the South

The most common way of harvesting the grass for hay is with a mower. It cures readily and can be cut in the morning and raked up that afternoon or the next day if the sun is bright. After bunching, it is placed in cocks, similar to millet, and removed from these cocks to the barn or stacks after it has thoroughly cured. The leaves are retained well, and if it has been cut at the right stage of maturity and handled properly it will make a bright, leafy, sweet hay of the very best quality. Where the corp is desired for seed, it is harvested like the small grains with an ordinary grain binder and allowed to cure in shocks. This method can also be used in making hay in the semiarid regions where good drying weather prevails, so that the grass will cure in the shock.

Cut After Full Bloom

Where the planting is made in cultivated rows, a corn or row binder can be used, but in a majority of cases a grain binder is preferable. In some cases, where the growth is rank, trouble is experienced in getting the reel over the tops of the plants and at the same time cutting a short stubble. The time for cutting is governed to some extent by the fact that several cuttings are expected in most cases, and this makes it most profitable to cut the first time as early as possible, so that the grass will have more time for growth. Sudan grass makes the best quality of hay if cut after full bloom, and when there remains no chance for an additional cutting the hay will be improved by waiting until this stage of maturity is reached. When cut for seed, the first heads should be fully ripe, as the stools will ripen somewhat later than the main stem and there is little loss from shattering.

Can Extend Haying Process

There are very few hay grasses which are injured so litle by standing beyond the proper stage of maturity as Sudan grass. This is due largely to the numerous stools, which, arising from the base, mature successively later than the main stem and always furnish immature stalks, even when the main stem has ripened. There is, in addition, the fact that most of the sorghums hold their leaves well and make the best quality of fodder when the seed has reached the dough stage. This characteristic makes it possible, where necessary, to extend the haying process over a long period without any marterial loss in the quantity of the hay. Such a feature is of great importance to the farmer, since the cutting time for his hay often comes when he is rushed with other work, or his haying may be interfered with by rains and thus prevent him from cutting at the most favorable time

Rotations

Sudan grass, being an annual, can be fitted into any rotation without much trouble. Very little benefit to the soil will result from growing it however, as it is a rank feeder and leaves nothing in the soil for improvement except the decaying roots. It can perform no such office as the legumes, which are known to benefit the soil by the addition of nitrogen through nodules on the roots. It will, however, furnish hay and afford a change in crop, which usually benefits the soil.

Sudan Hay

As stated previously, the hay from Sudan grass is of first-class quality and the yields are quite satisfactory, so that the grass will no doubt be most largely utilized as a hay crop. From the central United States southward it will be possible to get two cuttings, and in favorable instances as many as four cuttings have been secured. From seeding to the first cutting 75 to 80 days are necessary. The second cutting comes on about 45 days after the first one, and the third one is likely to take a little longer--50 to 55 days. This means that the growing season must extend over a period of six months to get three cuttings. By cutting the grass a little each time four cuttings can sometimes be obtained in the same period.

Geneva County Is Shipping Out Live Stock

Geneva, Ala., March 30, 1916.

The writer has read your farm paper with great interest; and the information given therein regarding to other sections of our State led him to make some enquiry relative to the number of cattle and hogs that have been marketed from the several railroad stations in Geneva county.

From enquiry it would appear that there has been two hundred cars of cattle and fifty cars of hogs shipped out of the county this season, and at this time at two points in the county, there are some twelve or fifteen cars of cattle that are being fed, and that will be shipped within the next thirty days, as well as more hogs.

This would indicate that Geneva has been giving attention to other l'nes as well as the production of cotton during the past two or three years; and within the past year the growing of stock has received considerable impetus. There will be some cotton grown here this year; but most of our progressive farmers are turning their attention to live stock; and within another year there will probably be more than as many again hogs placed on the market from this county than there was the past season. Pastures are being made, grass sown, and registered hogs and cattle are to be found in all parts of the county.

Yours truly,
D. O. VAUGHAN.

OSTRACISED.

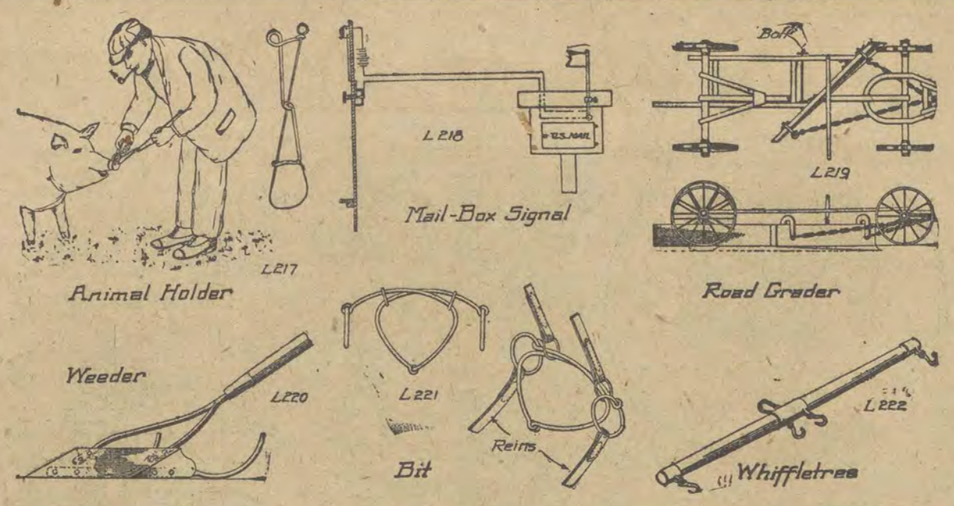
This Bank Aids Farmers To Raise Feedstuffs

How E. W. Gates at Crossett, Ark., president of the Bank of Crossett is trying to better agricultural conditions in Ashley county by inducing the farmers to abandon the one-crop system through interesting them in live stock is told in a letter written by G. H. Norman, cashier of the Bank of Crossett.

Mr. Gates believes that the quickest way to divert the farmers of this county from the one-crop (cotton) system is to inroduce high grade cattle" wrote Mr. Norman. "With this in view he bought and shipped in here 155 head of registered and grade Herefords. We sold as many as we could induce the farmers to buy, and the remainder we placed on a stock farm here. We placed 23 bulls in 15 different neighborhoods in our community by loaning the farmers the money to buy these animals. Quite a number also have been sold and shipped to other points in Arkansas and Louisiana.

Raise Feed and Food First

"There are no supply merchants here and we loan direct to the farmers, nearly 400 of them. Whenever a farmer asks for a loan, we urge that he plant all the feed and food products he can possibly use first and what cotton he can cultivate thoroughly afterward.



"We have gone so far as to tell them that if necessary we would rather have them raise an abundance of feed and food at home and come out behind in their account with us, than to have them sacrifice these crops in order to raise enough cotton to pay us. Should they follow the latter case, it is inevitable that they would have to come back to us for another loan to buy their feed. We know that when the farmers fully realize this condition they will need to borrow but little money to make a crop. We know that the money which under the one-crop system, the would borrow to buy feed for their stock and food for their families they now will put in improvements on their farms, in better implements and in high grade stock, and thus their notes will be better securities.

"There will be a considerable increase in the cotton acreage over last year in this section. However, the increase will about equal the decrease of last year so that the crop in this section will be about normal. I think the safe farming campaign has made an impression and that at least a big effort will be made to raise plenty to eat and to feed."

PLANTING

What are we going to plant this spring,
What are we going to grow in the mind--
Something to help us to smile and sing,
Something to make us a little more kind?
How is our garden of life to be set
In this dawn of the bird and flower--
Not with the hatreds we can't forget,
Not with the passion for power!
How are our hearts for the planting time,
Ready and happy for sun and dew,
And the fellowship of the golden rhyme
And the dreams that are tender and true?

--Folger McKinsey.

More Recent Inventions That Are of Use To Farmers--Use Them

By C. J. LYNDE

Animal Holder

The frame of this holder is made of stout wire bent into the form of a Z with an eye at each end and one at the middle The straight metal rod attached to the wire rope loop passes through these eyes. In the operation of ringing a hog, the loop is placed over the snout and tightened; then the holder is held in the left hand, while the ring is applied with the right.

Mail Box Signal.

A boy with some knowledge of electricity could set up this signal. An electric bell, a battery, and a push button are placed in the house and two insulated wire are run from these to the flag on the mail box. When the flag is "up" the circuit is closed at the mail box and the bell rings when the button in the house is pressed: when the flag is "down" the circuit is open and the bell does not ring. This is the siganl system.

The special features of this device are that it can be used either as a grader or a drag and that it can be attached to an ordinary farm wagon. The slanting bar carries the scraper blade and is attached to a frame which prevents the scraper blade from rocking. When the the device is used as a drag, the scraper bar is removed and the chain is attached to rings on the end of the two long bolts, which hold the side bars together. The side bars then act as the drag.

Weed Cutter.

The blade of this weeder makes a slicing cut because its edge is oblique to its motion. It has two curved arms extending backward which serve to elevate the edge when the handle is depressed. It is used in this position to cut weeds above ground.

Driving or Bridle Bit.

This bit is intended for vicious horse It consists of two curved iron bars which pass through the mouth and are linked behind the jaw. When the reins are pulled, the two bars close on the jaw and compress it. This it is stated masters the most vicious animal.

Whiffletree.

The object of this invention is to provide a whiffletree for plows which takes the place of the usual swingle tree and double tree The advantage claimed for it is that it does not drop when the plow is turned as do the swingle tree and double tree. It can be used also in other kinds of hauling where this dropping is a nuisance.

The time to send money on your boy is when he is young; after he is 24 or 25 years old you cannot do more for him. If he likes farming, make an extra effort and send him through the Agricultural college. You will be more than repaid by his greater success and happiness.

Boll Weevil Sure to Cover Every Mile of Entire Cotton Belt

One by One States Will Make a Fight, But Weevil Will Cover Them One by One —Life History of Weevil and Its Rapid Development in the Cotton Field

By Prof. Brandt LaBoon, Abbeville, Ala.

A great deal is being said, and a little is being done at this time about the boll weevil.

And well may we say something and do much, for this little insect is truly one of the great pests, if not the greatest, in our Southland. Truly the cotton farmer has never had anything to combat with, that is so ravaging to the cotton plant.

Started On Wild Cotton

Before going into this question further, let us first review the history of the Mexican boll weevil in the United States. We call it the Mexican boll weevil because it came into this country from Mexico. It is a native of Central America and has lived there unnoticed on the wild cotton. Wild cotton also grows in Mexico and after the invention of the cotton gin, attention was turned to the growing of cultivated cotton, and as soon as this was done, the weevils found the cultivated cotton more tender than the wild cotton and soon adapted themselves to these cultivated plants.

The weevil spread northward in Mexico and in 1892 reached the Rio Grande river and crossed into the United States at Brownsville, Texas. Texas being a great cotton state the weevil spread rapidly toward the North and East. By 1895 it had reached as far north as San Antonio, Texas and has continued to spread until, at the present time, it has covered practically all of the States of Texas. Louisiana, Oklahoma, Arkansas, Mississippi, the greater part of Alabama, and over forty counties in Georgia.

Where will it stop? Only one answer: When it has reached the foot of the Blue Ridge Mountains on the north and the tobacco belt in North Carolina on the East. It is as surely to cover the entire cotton belt of the South as it has covered the above mentioned states. Alabama fought harder against the weevil than probably any other state had done; Georgia has begun the hardest fight of any state as yet; South Carolina will inaugurate a harder fight than Georgia; and North Carolina will fight harder than any other state. But watch, and if you live long enough, you will see the boll weevil cover the entire cotton belt. This is not fantasy, because all the states have fought against it, and the spread has not been retarded. All that the various states have done, has been of little avail. It has traveled at the rate of about fifty miles a year, while in 1909 it traveled over a hundred miles across the southern part of Mississippi.

Rapid Increase

Now, let us look at the metamorphosis, or life history of the insect. The life history is in four stages: egg, larva, pupa, adult. The mother weevil picks out a square and makes a hole in it with her beak. Here she deposits an egg and pushes it firmly down into the hole and plasters it up with a sticky fluid. Each mother weevil lays from 75 to 150 eggs, and each egg is laid in a separate square. Thus a single weevil will destroy from 75 to 150 squares, for every square that receives an egg is destroyed. In a few days after the egg has been placed in th square, it begins to turn pale and the leafy part to flare outward. The square may drop off or it may hang to the plant.

In three or four days after the egg is laid, it hatches into a small white larva or grub not much larger than the egg itself. It at once begins to feed on the interior of the square which surrounds it and grows rapidly. This is usually about the time the square drops to the ground. In eight or ten days the larva has eaten up all the pollen on the inside of the squares and practically fills the inside of the square. It is now about one-fourth of an inch long and its growing period is complete. It is now ready to change into the pupa.

It some times happens that the mother weevil deposits her egg in a young boll, say one-half inch in diameter or a little larger. The larvae that are hatched out here may not destroy the entire boll, but only one or two locks. The boll is injured, however, and does not produce the normal amount of cotton.

The third stage in the development of the weevil is the pupal. It takes in no food during this period and this is called the resting period. In this stage it begins to take on the appearance of the adult. The beak appears and the small wings begin to grow. The pupal stage lasts about a week and at the end of this time the pupa has changed into a perfect, full-grown weevil, within the square. It next cuts a hole in the side of the shell of the square and comes out. It is now ready to destroy more squares and bolls.

What He Looks Like

The adult weevil is a small gray beetle with a hard body covering. It is usually from one-fourth to three-eights of an inch in length, and is about one-third as broad as long. The mouth-parts of the weevil are extended into a "snout," which is about one-half the length of the body. The color varies from a yellow to a grayish brown or nearly black, but the prevailing color is a gray. The adults that have just come from the pupa are yellowish in color, but soon change to a dark gray.

Eats Only Cotton

The female weevil begins to lay eggs in about five days after it comes out of the square. Climatic conditions have much to do with the length of time it takes to develop from the egg to the mature weevil, but on an average it takes from two to three weeks. Weevils develop more rapidly during the hot summer weeks than they do later on in the fall. Male and females are produced in about the same number. A female will not deposit an egg in a square that has an egg already deposited in it, however, late in the season, the fall, several eggs may be placed in the same square or boll. The female never deposits an egg in a boll as long as squares can be found. The weevil works only during the day and is not active after dark. So far as is known at present, the boll weevil obtains food from no other plant except cotton. If confined in a bottle it may eat other plant substances. During the summer, the average life of the weevil is sixty days, but during the colder part of the year one may live as long as six months.

It has been stated above that the mother weevil lays from 75 to 150 eggs. A conservative estimate is that a single pair of weevils may have a progeny of 12,755,100 during the season from June 20th to November 5th. From these figures we get an idea of the possible destruction of the pest to the cotton plant.

It must be borne in mind that there are many species of weevils and some of them closely resemble boll weevil. Many farmers have mistaken other species for the boll weevil.

Sucks Its Food

We have mentioned above in describing the egg laying of the weevil, one way in which they injure the cotton plant. Every square in which an egg is laid is destroyed, and every young boll in which an egg is laid is injured. Another way in which they injure the crop, is the way in which they obtain food. The adult weevil obtains its food from the tender squares, the tender growing buds of the cotton plant, and even the tender young bolls. The weevil has no biting mouth parts, hence it feeds by "sucking" its food. It thrusts its long "snout" into a tender young square or boll and sucks the juicy substance from the inside. Every square thus fed upon, in a few days falls to the ground, and all tender bolls injured in like manner produce very little cotton, if any.

Many Perish In Winter

The weevil passes the winter in the adult or mature stage, and fortunately a very small per cent of those that go into winter quarters live through the winter. It is not only estimated but has been tested out by experiment that only between 2 and 3 per cent of the weevils entering hibernation survive the winter under normal conditions. Work of the United States Department of Agriculture shows that, in a test under conditions as nearly like those the weevil would encounter in the field during winter, out of 25,000 weevils, 2.82 per cent survived the winter of 1905-6. A similar test was made during the winter of 1906-7 and it was found that out of 75,000 weevils 11.5 per cent survived. It must be emphasized, however, that the winter of 1906-7 was abnormally warm. The most accurate extimate is that less than 3 per cent of the weevils live through the winter.

Where They Hide

As soon as cold weather approaches in the fall, the weevils begin to seek out some place of protection during the winter. Many of them fly away to the woods and hide themselves under the fallen leaves and bark and moss; some hide themselves in the empty cotton burrs, in the grass, under leaves and trash right in the cotton fields; some crawl under trash, weeds, and grass along the edge of the fields and in fence corners; some in Spanish moss hanging on trees: and still others around and in buildings, in haystacks, cornfields, and blackberry patches. In cases it has been found that several thousand weevils per acre have hibernated right in the cotton field. The majority of weevils that pass through the winter successfully do not hibernate in the cotton fields but elsewhere. The weevils remain practically dormant during the winter and take in no food. Over 97 per cent of all that go into winter quarters die naturally, are eaten by birds, or are destroyed by cold weather.

Vast Damage Done

We have mentioned already how many weevils may come from one pair and successive generations during one season. The damage done by the boll weevil has been enormous and is still enormous. When invading territory for the first time, the production of cotton is often reduced one-half. It is estimated that in Texas alone the yearly loss from 1902 was $27,000,000. Conservatively, it is estimated upon the whole, that since the weevil entered the United States in 1892, it has caused a loss of 2,550,000 bales of cotton, worth about $125,000,000.

Weevil Control

In his second article in the next issue of this farm paper Prof. La Boon will take up the history and the practical methods of fighting the boll weevil.

HER SECRET

An old lady, who managed to retain an appearance much younger than her years, with a bright eye and a smooth, healthy skin, although her age was over 70, was asked how she contrived to retain her physical charms. This was her reply:

"I know how to forget disagreeable things.

"I tried to master the art of saying pleasant things.

"I did not expect too much of my friends.

"I kept my nerves well in hand, and did not allow them to bore other people.

"I tried to find congenial any work that came to hand.

"I retained the illusions of my youth and did not believe every man a liar, and every woman spiteful.

"I did my best to relieve the misery I came in contact with, and sympathized with the suffering.

"In fact, I tried to do to others as I would be done by, and you see me in consequence reaping the fruits of happiness and a peaceful old age."

There are many of us who might do worse than begin to try that old lady's code of behavior and see if, after a year of diligently practicing its precepts, we agree with her method of insuring perpetual youth.

PROOF COMPLETE.

Judge Brainard was contemplating giving a dinner to several of his lawyer friends and desired, as the piece de resistance for that function, a large fat turkey. Uncle Billy Jones, an old bow-legged negro, was the general utility man of the village, and to him the judge entrusted the commission of procuring the turkey—it being strictly stipulated that it should be a tame one and by no manner of means one of the wild species.

The day for the dinner arrived, the guests were all seated at the table, when the judge, in carving the fowl, found some foreign particles in its anatomy. Looking at these objects carefully he discovered that they were shot. Quietly collecting a dozen or more, he wrapped them in a piece of paper and placed them in his waistcoat pocket.

The next day Uncle Billy came in the judge's office to collect the money for the turkey.

"Uncle Billy," said the judge, "did I not tell you expressly that I desired a tame turkey and not a wild one?"

"Dat you did, Marse John," said Uncle Billy, shifting his quid to the other cheek, "an' I dun fotch you a tame one jest lak you said."

"Well, Uncle Billy," said the judge, producing the little package from his pocket, "how do you explain the presence of these in the flesh of the turkey?"

"Lordy, Marse John," said Uncle Billy, "dat's easy, dose shot was intended for me!"

The judge "came across" without further comment.

CHANGE IT A LITTLE.

Shall I, wasting in despair
Sigh when other youths declare
That my girl is cold a bit
When they try to make a hit—

When they come and say, Irene
Is the worst frost ever seen
And they marvel I endure
Such a frigid temp'rature?

Nay, I pat fy back and wink
At myself, and then I think:
"If she be not cold to me,
What care I how cold she be?"

Walter G. Doty.

THE ETERNAL QUESTION.

The Ingenue—Do you love me?
The Fiancee—Do YOU love me?
The Wife—Do you LOVE me?
The Old Maid—Do you love ME?

ENGAGED.

The new chorus girl (timidly)—Is the manager in?
"Yes, but he can't see you now. These are his office hours."

Hoosier Combined Cotton & Corn Drill

The HOOSIER cotton drill you buy this spring will do work that is most satisfactory not only this year but years from now.

The HOOSIER combined cotton and corn drill is compact wide-rim, two-wheel machine with a low center of gravity, very popular because it does good work in every kind of soil.

A picker feed wheel gives any desired quantity of cotton to the acre and an agitator bail insures all seed passing to the feed in a steady stream. Three plates for proper corn plantings are also regularly furnished. A drag coverer presses earth firmly over the seed, or, a press wheel can be substituted. Fertilizer attachment furnished when specially ordered.

See the dealer who sells the HOOSIER, or write to the address below for details.

To Farmers of Boll Weevil Sections:-

THE ROBINSON CHAIN DRAG will do effective and rapid work in brushing to the ground boll weevils and punctured squares.
THE ROBINSON CHAIN DRAG is a strong, practical and economical device for getting rid of the most weevils in the QUICKEST TIME and the CHEAPEST WAY. It is used and highly recommended by some of the most successful farmers in Mississippi and Alabama.
THE ROBINSON CHAIN DRAG is the best device known for the use of tenant farmers in fighting the weevil.

THE DRAG DESCRIBED

The Drag is a steel rod that holds a light durable chain, the rod and chain being attached to the beam of the plow stock with a casting arranged so as to be adjustable to the size of plants at the time for plowing. The rod is placed at an angle to the beam and as the plow proceeds down the row the rod bends down the plant over towards the middle between the rows and the chain agitates the plant sufficiently to cause the Weevil and infested squares to fall off into the middle of the row. The attachment is reversible as well as adjustable, up and down, and can be used on either right or left side of the plow below or above the beam.

We do not desire to create the impression among farmers that any device will prevent all the damage the weevil usually causes, unless the approved measures for control be carefully followed.

Write us so we can take care of your order before the growing season starts.

BREEDS OF BEEF CATTLE NO. 1, THE SHORTHORN

A Magnificent Exhibition of Shorthorns at the Last Fair at Meridian, Miss.

The decrease in the number of beef animals in the United States, with the resulting high prices which have prevailed during recent years, has caused greater interest to be taken in the industry, and many men in the South who have never raised beef cattle in the past are taking up this line of work.

Two Classes.

Cattle which are used for the production of beef are divided into two general classes, the strictly beef breeds and the dual-purpose breeds. The former are, as the name implies, valuable mainly for the production of meat, and have been carefully bred and developed in order to produce a maximum amount of beef of high quality. Care has been taken to develop to the greatest extent those portions of the body from which are secured the high-priced cuts of beef. The cows give milk enough for their calves, but not much more.

Dual-Purpose Breeds.

The dual-purpose cattle have been bred to produce females which would yield a good quantity of milk and produce offspring which would be desirable for beef. As the type of animal necessary for the production of large yields of milk is entirely different from that of the beef animals, it has been impossible to produce a breed which would combine these functions and be of superior merit for both purposes. The dual-purpose animal may, however, be a desirable milker and at the same time produce calves which make good, though not superior, beef animals. As there has been a constant tendency for some breeders to incline more to the dairy type of animals, while others prefer to develop the beef tendencies, there has been and probably always will be a wide variation in the type of dual-purpose animals. They are not so uniform in conformation as either the strictly beef or dairy breeds. Most breeders prefer to use cows which approach the dairy type nearer than the beef type and to use a bull of the beef type that had a dam with a good milk record. The off-spring of such cattle necessarily can not be of as uniform type as the breeds which have but one function to perform.

Small Farmer Likes Them.

The dual-purpose cattle are popular with the small farmer who keeps but a few cattle and must depend upon them to produce all the milk and butter needed for the family and at the same time raise calves or steers which will sell readily for slaughter purposes.

The principal dual-purpose breeds in the United States are certain types of the Shorthorn, together with the Red Polls and Devons. Braham or "Indian" cattle are sometimes included under this class.

Five Beef Breeds.

The breeds of beef cattle in the United States are the Shorthorn (sometimes called Durham), Polled Durham, Hereford, Aberdeen-Angus, and Galloway. Each of these breeds has been carefully developed for a long period of years, with the result that individuals transmit their characters very readily when bred to native or scrub cattle. With somewhat frequent exceptions in the case of Shorthorns, the cows of these breeds are not heavy milkers, and in this point lies their success as beef cattle, for the milking tendency is associated with a conformation of body which prevents the animal from yielding the greatest quantity and the best quality of beef. The beef breeds have been bred for the maximum production of beef, and only enough milk is desired to nourish and produce a good, thrifty calf. They are most popular with farmers or ranchers who raise a considerable number of cattle.

The Shorthorn.

The Shorthorn is the most popular of the beef breeds in the United States, as shown by their numbers and by their general distribution over all parts of the country. They have a great range of adaptability and do well everywhere. The milking qualities, combined with the high standard as a beef animal and the gentle disposition, have caused the Shorthorn cow to be termed "the farmer's cow."

The merit of the breed has been proved on the ranges of the West, where the bulls have been used for grading up the scrub cattle of the plains. The Shorthorn crosses well with other breeds or with the scrub cattle, producing from scrub cows calves which develop into fairly desirable beef cattle The grazing ability of the Shorthorn is not so good as that of some of the other breeds, but where grases are abundant and feeds are plentiful there is no breed which will surpass it for beef production. The large milk flow insures a good calf. However, the cows have been criticized to a certain extent by western ranchmen because the large milk flow causes many of them to lose a teat or a portion of the udder, as the calves can not always take all of the milk.

Attain Large Size.

The Shorthorn is early maturing, growthy, and fattens readily. The steers sell readily as feders, and although they have not won as readily as the Aberdeen-Angus in the show ring, they produce very high-class beef, with the thick loin and full hind quarter which furnish profitable cuts.

The Shorthorn is the largest breed of beef cattle. The bulls attain a weight of 1,800 to 2,200 pounds and even more, some of the bulls having attained a weight of upwards of 3,000 pounds. Mature cows usually weigh from 1,300 to 1,600 pounds when raised under favorable conditions. Greater weight in both cows and bulls is not rare, but extremely heavy animals are not especially desired.

The color of this breed may be red, red and white, pure white, or roan. No other breed of cattle has the roan color, therefore this color in any other cattle usually signifies the presence of some Shorthorn blood.

Features of Shorthorn.

In conformation, the Shorthorn is of the true beef type, being wide, deep, lengthy, and thickly fleshed. The great width of the Shorthorns, combined with their depth, gives them a more rectangular form than any of the other breeds, while the wide variation in the distribution of the breed has caused a slightly greater difference in type to be recognized than in other beef breeds.

The Cow.

In the cow the following points should be noted: The horn is usually small and curved forward, with the tips pointing inward, upward, or sometimes downward, and they should be of a waxy, yellowish color. The head should be shapely, with great width between the eyes, short from the eyes to the muzzle, which should be large and flesh-colored, with large nostrils; a black muzzle is objectionable to most breeders. The neck should be short and full, blending well into head and shoulder. The shoulders should be smooth and well covered with flesh, the crops should be full, the heart girth should be large, and the fore flank low. The chest should be wide and deep, with the brisket thick and well to the front. The ribs are usually well sprung and the barrel well developed. In good individuals, the back is broad and the loin is wide, deep, and thickly fleshed The hips are wide and should be well covered with flesh; the rump is long, wide, and level, carrying an abundance of flesh. The hindquarter is better developed in the Shorthorn than in any other breed; it is characteristic in that it is almost straight from the root of the tail to the hocks, and is wide and thick, carrying the flesh well down, thus giving a maximum amount of flesh. The flank is low, the udder is usually well developed, extending well forward, with prominent milk veins. The teats are of medium size.

The Bull.

The bull should possess the same desirable features as the female, without her feminine qualities. He should show masculinity by developing a heavier bone throughout, and greater depth, thickness, and scale. His horns are straighter and heavier than the cow's, but they should not show coarseness.

The Shorthorn has sometimes been criticized because of poor development or lack of fullness in the crops, a high fore flank, and a poorly developed heart girth. They are sometimes rather leggy, although animals of Scotch breeding are usually thick fleshed and low set. There has been a tendency to patchiness near the root of the tail and to rolls on the sides, but the breed is improving in this respect in that the animals are becoming more smooth.

Noted Bulls.

For the benefit of persons desiring information as to the principal lines of breeding in this country, the following has been furnished by the American Shorthorn Breeders' Association:

The ten bulls which have probably done most for the improvement of Shorthorn cattle as a breed in the last 15 years are as follows: Whitehall Sultan 163573, Choice Goods 186802, Cumberland's Last 229822, Avondale 245144, March Knight 188105, Villager 295884, Cumberland 118578, Merry Hampton 132572, Lord Banff 150718, and Whitehall Marshal 209776. The most popular families of Shorthorns in this country at the present time are Augustas, Missies, Victorias, Duchess of Glosters, and Orange Blossoms.

(The Polled Durham cattle will be described in the next issue of this farm paper.)

Beauty and Profit Ih Seed Corn Selection and Testing

By Dr. J. W. Beeson of Mississippi

BY DR. J. W. BEESON, of Mississippi.

Much more depends upon the kind of seed one plants than the average southern farmer realizes. "Like produces like" is a law as true in plant life as in animals. When father and mother are both fleshy, and their parents for several generations back were fleshy, the children are almost sure to be "heavy weights."

The same is true of thinpeople, tall or short, blue eyed or brown eyed. So it is in lower animals. The Hereford male almost always sires white faced calves. The Holsteins produce black and white spotted. A fine milker produces one of similar kind as a rule.

Out of a bushel of seed corn seefi have been selected that produced 93 bushels to the acre and out of the same bushel seed were selected that produced only 42 bushels on the same kind of land other conditions all being the same. This fact alone should prove to the farmer that the right kind of seed is almost half the battle. As a rule, a farmer should raise his own seed corn. If he must buy seed, it should be purchased from a reliable person who raised it in about the same latitude and climate in which it is to planted. Corn that is best suited to Iowa and Illinois is not suited to the gulf states. They have a short growing season and must raise a variety that matures early. In the South we may plant a slow growing variety that takes a longer time to mature and thus produces more.

In other words, plants become acclimated the same as persons or animals. One raised in a hot country would not stand the rigorous climate of the north so well as one raised there. So the northern people have to become acclimated to the South and southern conditions. For the same reasons every farmer should plant seed raised in his section so far as practical, except when he brings in some improved variety; and then it ought to be improved in his own section.

Every farmer ought to have his seed corn patch. It should be the richest spot he can find in order to grow the most vigorous grain. It should be located at some distance from any other corn to keep the pollen from other corn being carried by the wind and causing the corn to cross or mix. I have found plenty of farmers who did not know that the pollen from the tassel must fall on the silk" before there can be any grains of corn. The pollen is the male element and the "silk" performs the function of the female. Thus plants breed as well as animals. This furnishes the farmer the opportunity of breeding up all his plants. With corn it is an easy matter to control it's breeding and thus improve the seed.

Plant the best seed that can be gotten from the most reliable source possible. Purchase it in the ear, if possible, and carefully select the ears. Then shell off a little at each end as the grains on the end will not produce vigorous stalks. Just as the corn in the seed corn plant begins to tassel, before the pollen is formed, go through each row and cut out the tassel from every stalk from which you would not want to select your seed. If you raise the prolific variety, leave tassels only on strong stalks of right height and that have enough shoots to make two or moke two or more ears to the stalks.

Select Seed Corn.

Next year you can doubtless breed it up so you can have enough stalks that will bear three or more ears to pollenize the remainder of the stalks. It will not hurt the stalks that have the tassels cut out. They will produce as much corn as they would if they had their tassels remain, provided there are enough stalks left to pollenize all. The wind will blow the pollen and distribute it.

Before the corn is gathered, go through the field with sacks or baskets and select your seed out of this patch. The seed should always be selected from the field so one can see what kind of stalk the ear came from and how many ears on the stalk, etc. Not only should the best ears be selected, but from the best producers, just as one would want a pig from a mother that always bears a large number and whose sire was also from a prolific strain. The ears should be opened at the end to see if it is well filled to the end ond heavy well filled grains. After gatnering, they should be "shucked" or husked and tied up on strings and hung from a wire suspended from joist or rafter or ceiling to prevent rats from injuring it.

Testing Seed Corn.

Before planting time there should be a test made by sprouting several grain from each ear selected from different parts of the ear all around, including both ends and middle, because the weather might effect one side or end of the ear and not the other. The best way to test seed corn is to take a yard of white domestic, mark it off with a pencil into squares about 1 1-2 inches 1 1-4 inches, by using a yard stick as a rule and marking both ways. Number these squares. Make a box about a foot deep and a yard square. Fill it nearly full of saw dust and wet it. Spread this cloth that is marked into squares over the saw dust; take six grain from each ear taken from different parts of the ear and place in each square. Lay the ears of corn in a row and number them the same as the square in the cloth. Put grains from ear number one into square number one, always keeping the number by the ear to correspond with the number on the square. When all squares are filled with six grains each spread a cloth over these grains carefully and put more wet saw dust on top of this cloth. Set the box in a warm room and in a week or ten days the grains will be sprouted. When the sprouts are about a half or three quarters of an inch long, take off the top saw dust and top sheet. Examine the sprouts carefully and if any grains on a square do not sprout, discard the ear corresponding with that number. If any have very weak sprouts, reject those ears. Grade those that have the strongest, most vigorous sprouts, number one, the next strongest, number two and the weaker, number three. Plant the number one ears first. If they are not enough to do your planting use the next best but do not use the third grade or the ones with weakest sprouts. They will make weak stalks and probably no ears or "nubbins."

This seems like much trouble, but it will pay handsomely. You might earn $25 or $50 or more in a day by seed corn selection according to how much one has to plant. It certainly will pay any farmer to take the trouble to breed up his corn and select the best seed possible. With the best of seed and a well prepared seed bed, half the battle is won in making a good corn crop. Let our southern farmers give more attention to seed corn selection.

EASY TO SEE.

Brown—The boss says that when he was a boy on the farm they had a mule that was just like one of the family.

Jones—Yes, and I know which one.

"They are not built of pieces, and they cannot go to pieces

Silo Talk No. 2

A POLK SYSTEM MONOLITHIC CONCRETE SILO will give you a return of 6 per cent. on $5000.00 for an actual outlay of less than one tenth of $5000.00.

It will continue giving that return as long as you live—and longer. POLK SYSTEM SILOS are one-piece structures with never a flaw. They never call for a penny of upkeep expense. In five years they will clear for you three times what they cost you.

FERTILIZER FACTS NO. 29

The Little User Makes The Price—The Big User Makes The Profit

By reducing the amount of fertilizer used per acre in the cultivation of his corn and cotton crops in 1915, that farmer paid the penalty in reduced yields.

With the exception of the reduced cost in the fertilizer used on that acre, the other costs, land rent (or interest on investment), plowing, planting, hoeing, picking, etc., were the same.

With the reduced production per acre, there came a short crop and a good price. He probably spent $3.00 for fertilizer and made a third of a bale of cotton which brought him $20.00.

The *fertilizing farmer* used MORE FERTILIZER—probably investing $10.00 in fertilizer on each acre—and produced a bale of cotton on it for which he received $60.00. He invested only $7.00 more in fertilizer and made a profit of $33.00 more.

In addition, the *fertilizing farmer* gets three times as many cotton seed from the heavily fertilized acre as does the other from the lightly fertilized field.

The farmer who used only $3.00 worth of fertilizer per acre reduced the crop and advanced the price.

The farmer who used $10.00 worth of fertilizer per acre got the advantage of it and made the profit.

Houston Will Fill Barns, Cribs And Her Smokehouses

Houston county, Alabama, has been practicing diversified farming already to an extent beyond most sections, but the fall of 1916 will see a far greater development and fruition. The indications are now that the barns, cribs and smokehouses will be filled this coming winter with those things which enable Houston county to "feed herself."

Your correspondent has been in different sections of the county recently, talking with many of the leading farmers. I ran up with Mr. H. J. Godfrey who has a fine farm near Sigma, 13 miles east of Dothan. In conversation Mr. Godfrey said: "I am planting about 6 acres of cotton to the plow this year, the balance of my farm of 200 acres will be in oats, corn, velvet beans, peanuts, peas, potatoes, sugar-cane, etc. I have added 15 fine gilts to my stock hogs, and think I ought to have at least 100 hogs ready for the packing plants this fall."

It would do anybody good to stop and see Mr. W. W. Eddins, who has a fine farm of 1,000 acres near Crosby, in the southeastern portion of the county. When Mr. Eddins bought the place the soil was of a very light color and he has entirely changed it during the past three years by planting velvet beans with his other crops; the land is now dark and makes heavy crops. Mr. Eddins plants very little cotton, most of his land is in corn, sugar-cane, peanuts, velvet beans, potatoes and he raises a lot of hogs. He says this kind of farming pays and it apparently does as I understand he does not owe a dollar and he has a big, ten-room, colonoal style house, surrounded with big oaks and magnolias, private waterworks system, and what one does not often see in this country—a 5-acre chicken range. Mr. Eddins sells a lot of eggs and chickens and comes to Dothan about once a week in his automobile with a load of good things to sell.

Imet another progressive farmer, Mr. D. P. Youngblood. Mr. Youngblood has a beautiful farm on one of the big graded roads close to Dothan—does not plant any cotton but raises most everything else, and has a lot of fine Berkshire hogs. His system of farming must pay as last week he bought a nice, big Studebaker car for his personal use.

Houston county has very few negroes and almost no large farms. It is nearly as thickly settled all over as a village, with white farmers on small farms. Perhaps this accounts for the appearance of prosperity one notices in riding around.

Houston county has some magnificent graded roads and is grading more just as fast as negroes, mules, plows picks, axe and shovel can make them. Already the big, graded highways seem to radiate in every direction from Dothan, but they have three more roads in process of construction and only a few days ago let contracts for three more. They are fine roads, too—almost boulevards.

Everywhere you go in Houston now you see pigs, pigs, and more pigs. Pastures are springing up, more forage and feed crops are being planted and nearly every farmer is planning on rasing his own meat and having some hogs to sell to the packing plants.

A mighty revolution is in progress and marvelous as has been the development of Houston county during the past 15 years, I predict that the next five years will see a still greater. I met one of the largest farmers in the county a few days ago and he told me about his crop last year and added: "I have been farming nearly all my life and am just now learning how to farm."

This soil in Houston will make most every Southern crop in profusion and now, with practical diversified farming under headway and the raising of hogs and cattle on a large scale, it looks to me as if this section will soon see an area of great and general prosperity.

Jenkins Brick Co.
City.

Gentlemen:—

I am now grazing stock on a field of about thirty acres of fine oats which, before it was tile drained, I had been unable to plow before about the middle of April. I believe that with good land properly drained I can grow cotton under boll weevil conditions.

Yours truly,
(Signed) T. B. HILL.

The Drainage Will Do the Same Thing For Your Land

A proper Drainage System will prove itself an investment that will pay for itself in 2 or 3 years. Instead of "washing out" the land, the surplus water will drain through the soil.

Covington County "Finds Itself" With Hogs on Small Farms

Covington county, Alabama, is not losing any sleep over the boll weevil.

The year the European war started Covington county produced 35,000 bales of cotton. This last year Covington county produced only about 7,000 bales of cotton.

Now you would think that such an astonishing loss in production—and revenue—would make the folks blue. It did for a while. But Covington county "got wise to itself," as the poets say, and in its loss in cotton Covington county "found itself."

\+ +

Covington county found itself by realizing that the best thing to do was to raise what it needed to eat—and then putting this belief into practice. Before the war Covington county, like most all other counties, had been importing a whole lot of corn. This year Covington county not only did not import corn but she raised a good deal to export to other sections. Covington county not only fed herself but raised something to sell besides.

\+ +

Meanwhile Covington county had thrown open her arms to farmers, saying "Come and abide with us for we will do thee good."

Many farmers from various sections hearkened to the call and Covington county has shown the biggest percentage of growth of any county in Alabama not excluding Jefferson county that has the city of Birmingham. Covington county is filling up with small white farmers and any section that fills up with small white farmers fills up with prosperity. Covington county has not only got the right idea but she is putting the idea into practice.

\+ +

When the crisis came Covington county said, "What shall we do to be saved?"

Lots of other counties said the same thing. Covington county decided that a packing plant would save her. Other counties decided the same thing. Then the skeptics arose. One agricultural publication here in the South, supposed to be progressive, said that small packing plants would pay neither owners nor the farmers. A good many people took this nonsense for the truth and lost their nerve.

Not so, Covington county.. "You can talk that stuff to children," they said in effect, "but you can't talk it to us farmers and business men. We are going to build a packing plant and raise hogs and make it a success."

They were as good as their word, and while other counties in the State hemmed and hawed over the proposition, Covington county went ahead and started to work and early this summer the packing house—the most modern that money and skill could build—will offer a cash market for all livestock, even turkeys.

\+ +

Covington county, once she decided that hogs would save her, went into the business of raising hogs. Today Covington county has hogs scattered from one end of the county to the other, and adjoining counties are raising hogs that will be sold to the Andalusia Packing Plant. Hogs are bringing pastures and in Covington county today you will see more of green than has ever been seen there before. You will see farmers getting ready to make money and to save money and to improve their farms and make Covington one of the real banner counties of the entire South.

\+ +

The people are fast getting out of debt and this present year, all things going fairly well, they will be in better shape than ever before in their entire history. They are putting money into the banks and the banks say that they no longer feel the loss in cotton production.

Not only that, but the movement for hog raising and diversified farming has put a spirit of progress and optimism into the people. They are looking to the future, not with fear or uncertainty, but with the knowledge that they are winning and that they are going to win out right along. They are eager for the future for they want to see their crops come on and their hogs grow and the cash returns for their labor. They have a home market for cattle, hogs, sheep and poultry, and even for corn and velvet beans. But give a progressive farmer a quick market for his livestock alone and he does not have to bother much about the rest as all of his grain and legume crops can be marketed through the stock on the place.

\+ +

Not only have Covington's farmers gone in as strong as possible for swine raising, but Covington is making a big effort to get more farmers to raise hogs. The big land owners have said "Idle land is no good to anybody. We will take our holdings, pool them, and invite the farmers of the North and the South to come in on them and farm them and make their homes with us and prosper and grow with us. We will give these farmers all the time they want to pay for these lands—20 years if they desire. What we want them to do is to come and settle here and make money here and develop their farms and have something and be something. If they come and prosper we won't have to worry about the future for when the small farmer prospers everybody prospers if he has any enterprise at all. What we want is just as many small farmers as we can get and we are giving them every possible inducement to come and farm in the fastest growing county in all Alabama and the county in which the most modern packing plant in the entire South will soon be in operation."

In less than two years the "advancing" business in Covington has passed into the past and a new spirit and a new method are with the people. It is the spirit of work and hope; it is the method of livestock and soil fertility, small farms and small farmers. This spirit and this method will win anywhere—go to Covington and feel it for yourself and see it for yourself.

L. M.

West Dallas Farms Sale of Durocs and Herefords Great Event

"I wouldn't have missed those sales for a whole lot."

Those were the words of M. S. McFadden, Poland China editor of The Swine World in Chicago—and he was talking of a great combination sale in which Duroc-Jersey hogs had a leading part. But then Mr. McFadden is broadminded and he appreciated a great event in the South on his first trip South.

The great combination sale was that of Dunaway and Lambert on their West Dallas Farms at Orrville, Ala., Wednesday and Thursday, March 29 and 30. It was the most largely attended and the most interesting livestock sales ever held in the Central South.

J. E. Dunaway and Joe Lambert, owners of the West Dallas Farms, had been preparing for the event for a long time and it had been widely and wisely advertised. They asked the people to come and enjoy themselves and make themselves at home. They came and enjoyed themselves and made themselves at home. They came in autos, in buggies and many came to Selma on the regular trains and from Selma took the special train to Orrville.

There were many notables in the livestock world there. The Hereford people were represented by R. J. Kinzer, secretary of the American Hereford Association at Kansas City, and the Duroc-Jersey people were represented by Robert J. Evans, secretary of the American Duroc-Jersey Association, at Chicago.

The cattle and hogs were sold by two of the greatest livestock auctioneers in America. The far-famed Col. Fred Reppert, of Decatur, Ind., sold the Hereford cattle on the first day, assisted by Col. H. L. Ingleheart, of Elizabethtown, Ky., and F. D. Hengst, of Louisville, Ky. On the second day, Colonel Ingleheart, who is without a peer as a Duroc auctioneer, sold the Duroc-Jerseys, with the able assistance of Mr. Hengst. The features of the sales were the addresses by Colonel Reppert and Colonel Ingleheart. They were right to the point and right up to the minute and presented the future of the livestock industry in the South in a way that could not be denied.

There were many ladies present for they had been especially invited by Messrs. Dunaway and Lambert. It was a regular reception, Mrs. Dunaway and Miss Virginia Dunaway greeting all the ladies who came to the farms, and giving to all a most cordial and hospitable welcome. At noon on the first day, a big barbecue took place on the grounds. As S. E. Farrish, of Consul, Ala., superintended the cooking, you may know that it was highly satisfying to the palate.

The West Dallas Farms were a revelation to many of the people who came. They saw here what energy and brains can accomplish in diversification and livestock raising in the South. They saw good pastures, nine concrete silos, modern and well equipped barns and hog houses, a fine pecan grove and many acres of fertile and well cultivated farm land. The visitors did not hold back their praise for the progressive spirit and devotion to the livestock industry that had made the West Dallas Farms a reality.

The Hereford cattle made an excellent showing, though just recently they had been taken off the winter pastures and naturally were somewhat thin. Otherwise, the average would have been many dollars higher than it was. The forty-six head sold for $9,115, an average of $199. The Duroc-Jersey hogs, under the master head of A. P. Adair, Jr., made an imposing appearance and stamped Mr. Adair as one of the leading herdsmen of the country. The prolificacy of the Dunaway and Lambert herd of Durocs was presented to the visitors by the sale of fourteen sows with litters at side, which were rugged, thirfty pigs. Fifty-six lots were sold at an average of $51.34.

The complete record of sales follows:

Herefords.

Bull to C. B. Thomas, of Thomaston, Ala., for $300.

Bull to Egbert and Wenneger, of Thomaston, for $315.

Bull to Selca and Glass of Linden, Ala., for $380.

Bull to McQueen Smith of Prattville, Ala., for $300.

Bull to Carlton Brothers, of Thomaston for $300.

Bull to Selca and Glass of Linden, for $200.

Bull to W. E. Boozer of Hugo, Ala., for $200.

Bull to W. H. King of Selma, Ala., for $235.

Bull to Allen Mayhan of Randolph, Ala., for $150.

Bull to Scott Cattle Company, Scott, Ala., for $210.

Bull to W. E. Hugo of Hugo, for $150.

Bull to T. White, of Newberne, Ala., for $170.

Bull to H. P. Matthews, of Marion Junction, Ala., for $115.

Bull to L. P. Ellis of Orrville for $110.

Bull to Marshall Brothers of Selma for $140.

Bull to Pensacola Cattle Company, Pensacola, Fla., for $165.

Bull to R. H. Agee of Selma for $100.

Bull to J. C. Webb and Son, of Demopolis, Ala., for $400.

Bull to L. K. Jones of Dayton, Ala., for $125.

No. 18, sow and six pigs, to S. E. Farrish, Consul, Ala., for $50.

THE EARLY SPRAYER CATCHES THE "WORM"

Thousands of bushels may be added to the peach and plum crop this year if the farmers will begin now to spray for the plum curculio and the disease of peaches known as "Brown Rot." According to the statement of J. M. Beal and R. W. Harned the yield of fruit gathered from sprayed trees is often ten times as much as from those left unsprayed.

By spraying the trees with a mixture of self-boiled lime-sulphur and arsenate of lead, both the brown rot and the curculio, which attacks peaches as well as plums, may be prevented from doing any considerable damage.

The following spraying schedule has been worked out by these specialists:

1. Make the first application about the time the blossoms are shedding, using two pounds of arsenate of lead to fifty gallons of water. The lime-sulphur is unnecessary at this time, as it is of value only for the spores of brown rot, and this spraying is to kill the curculio only.

2. About two weeks later or one month after the blossoms fall, spray with self-boiled lime-sulphur, to which two pounds paste arsenate of lead has been added.

3. About one month before the fruit ripens spray with lime-sulphur but omit the arsenate of lead.

If the spraying cannot be done at the above time it is well to attend to it as near those dates as possible. If three sprayings cannot be given, one will do a great amount of good. Apply when the leaves are dry, being sure to spray under the leaves as well as on top.

To prepare the lime sulphur, place eight pounds of the best stone lime in a barrel and add enough water to start it slaking. Then add eight pounds of sulphur, sifting it in slowly and stirring constantly until a thick paste is formed. Continue pouring in water from time to time, until the slaking is complete and a paste of about the consistency of cake dough has been formed. The heat of the lime is sufficient to keep the mixture boiling for several minutes. Do not allow the mixture to stand after slaking is complete, but add, immediately, enough cold water to make a solution of fifty gallons, and strain through a sieve of twenty meshes to the inch into the spray tank.

To prepare the combined spray mixture, add two pounds of the paste form of lead arsenate to fifty gallons of lime sulphur spray, after working the paste in a small amount of water until it is all in suspension. Although the lime sulphur changes color when the lead arsenate is added, the value of the spray is not affected.

LOVE'S THE MORNING

Love's the morning,
Life's the night;
Love's adorning
Gives us sight,
That wherever faring here
We may see our way more clear
To the rapture and the bliss
Of a lovely world like this

Love's the morning;
Clad in day
'Round the world
He takes his way:
Up and follow, ye who will,
Through the valley, over hill,
Land and sea, his beacon glows
Where the trusting spirit goes

Love's the morning.
See it shine
Till the valleys
Grow divine,
Till the hillsides and the sea
Catch the magic of its glee,
Singing like a music meant
For our gladness and content.

The ships of sunshine flutter
On the great wide seas of air;
No time to moan and mutter
And to cloud your life in care.
To ports of dream and fancy
These shallops of the spring--
Oh, how they sail us onward
With a violet for a wing.

"The Return of The Prodigal Son"

By Jane Minge Nelson, Who Points a Moral

CHAPTER ONE.

He was the youngest of four sons, all country-bred; and no one could understand why he wanted to stray away, except for the hope of amassing great fortune, or gaining sad experiences. So, with these determinations, he abandoned the farm for a boarding house in town.

CHAPTER TWO.

For a while the dense atmosphere of crowded streets fascinated him, and various amusements lured him on.

A mother, growing old, sacrificed her comforts for a temporary residence in the city of B— to be near her boy. She silently longed for the quiet life and freedom of the country: she missed the green peace of the pastures; she hungered for her garden truck. She was eager to hear, once more, the friendly cackling of her hens, and other barnyard noises, so dear to her heart.

CHAPTER THREE.

The continual din of the city, the fussy motor cars were nerve-racking, and her anxiety was great for the boy's future. At last the wheel of Luck began to turn for her. The boy married, and the happy young couple decided to come "back home"—to the rough little cabin, in West Dallas County, Alabama.

CHAPTER FOUR.

Here, together itw the mother, the three camped, and the situation looked wofully discouraging. A portion of the land was rented, but enough awaited its re-birth, and afforded excellent opportunities for a new beginning. With a pair of mules, the "boy" prepared the soil for cultivation, and in fruits of rich reward. Only a small part was planted in cotton—just enough for the boll weevil's inside informatwelve months his efforts have borne tion. Sufficient corn swayed in the bottom lands, with absolute safety that it would support all hands and livestock.

Mounds of hay dotted the fields, and beyond lies a parcel of woodland, well timbered, besides a plenty of fuel. Through the forest trees can be heard Bob White's call, and the grunts of a rapidly increasing pig family break the silence.

In the garden patch there grows long rows of Essex rape and cabbages. Quantities of sweet potatoes have been stowed for winter use, and many bushels of peanuts were gathered.

Rhode Island Reds, guineas and Indian runners inhabit the poultry yard. At milking time Jersey cows with their docile eyes watch the "boy" whose tailor made clothes have been discarded for blue overalls. He performs the daily task of "feeding," good naturedly, and superintends the milking. Products of the dairy are being shipped to adjacent cities, and a critical housewife says, "there are brains behind that butter."

Motor cars, owned by richer neighbors, have inspired new and beautiful roads, and the "boy" has already visions of a Fordett.

CHAPTER FIVE.

A modern cottage is now being erected, but the rough little cabin shall remain, neath the spiritual blue of the sky, for it is here that the boy, as he views from his own threshold the land in which he plunged a plow, realized the true meaning of the word "home."

MORAL.

"Not rich but almighty independent."

W. F. YINGST, State Center, Iowa.

"The Pines" — Home of Hereford Cattle, Hampshire Sheep and Hampshire Hogs. Young Breeding Stock for sale at all times to Southern Farmers. *Patterson & Rouse, Payne's Depot, Ky.*

DUROCS Registered boars and pigs, bred gilts and sows of most noted blood lines. Write for pedigrees and prices.

W. H. KING, Luverne, Ala.

WICKFIELD FARM HAMPSHIRES

CHOLERA IMMUNE—Prolific breeding stock of size, quality and merit. The kind that are good at any age.

For Sale—Spring boars and gilts from famous families, fall pigs from Grand Champion boar "General Wickware;" "The best young boar of the breed."

Free booklet on History and Progress of Breed.

Ship C. O. D. and guarantee satisfacti on.

F. F. SILVER, CANTRIL, IOWA

CARDINAL STRAIN OF DUROCS

Small Herd With Superlative Quality

ORIOLE, the 800-pound junior yearling, first prize at Kentucky State Fair in 1915, is mated with choicest daughters of CARDINAL, TOP COL., DEFENDER, SUPEPBA, and CRIMSON WONDER.

Pigs of both sexes by this great son of FANCY COL., also by CARDINAL and PALS PREMIER, for sale.

Chas. J. Tanner — Labanon, Ky.

BERKSHIRES

How about a big registered Berkshire boar, to head your herd? If you have registered stock it will pay to get new blood. If you breed grades a good boar will add dollars to every pig.

We have them all ages from pigs to year olds, prices from $10.00 to $50.00, they have long bodies, big bone, good heads and as good breeding as anybody's boars.

Give us a trial, we will please you.

FAIR VIEW FARM
PALMETTO, GA.

MOST PROFITABLE GRASS HOG IN THE WORLD

THE HAMPSHIRE HOG has won the title of being the greatest Grass Hog and able to put on more pounds at less cost than any other hog in America. This statement has been proven by experiment test and large feeders for the market. For information and free literature address,

Haw to Stop and How to Prevent Hog Cholera--Plain Facts

By Dr. Howard C. Wilson, U. S. Bureau of Animal Industry

Every case of cholera can be traced back to some other sick hog.

And in the great majority of cases the infection has been carried mechanically in a way that could have been prevented by the owner of the stock. By remembering that the disease does not break out just of itself and is not carried in the air we can be more on our guard against the real carriers of the disease.

Human "Buzzard"

We know the part the buzzard plays as a carrier of hog cholera, and are on our guard against him. But how about the human buzzard? The fellow who has been where there were sick hogs, and then without changing and disinfecting his shoes comes among your hogs with his germ laden feet and gives your hogs the cholera? Guard against this kind of buzzard also.

Watch out for infected streams of water and exposed hogs running at large. I have heard of some cases where farmers were paying 5 cents apiece for all buzzards killed on their plantations. And I am told they do not have to pay for very many until the buzzards learn to keep clear of those farms.

Serum The Preventive

Do not forget to keep all newly purchased stock away from the rest of the herd for from two to four weeks until you are sure they are free from contagious diseases.

I am sometimes afraid that good stockmen are placing too much dependence on copperas, charcoal, etc., as a preventive of cholera. Such mixtures are good to supply needed mineral salts, but they will not protect the hogs against the cholera germs. Only the serum can do that.

Dont Hide It

If you have any suspicion of cholera don't try to conceal it. If it is chalera it cannot be concealed. And the longer you are in finding it out the greater will be your loss. If you can't make a diagnosis yourself call a good veterinarian or your county agent. If it is not cholera you will be repaid by having your mind put at ease. Remember that cholera often shows itself in a chronic form, especially where the germs of the disease have been barbored in the trash on the farm from an outbreak the previous year, It usually attacks the pigs first. Under such circumstances if your pigs become unthrifty, have a slight cough, and their eyes somewhat gummed up, you had better be suspicious of cholera. You may think it is dust or worms but more often it will prove to be cholera Unless you are quite certain it is cholera do not use the "Simultaneous" treatment, use the serum alone. The serum alone can't hurt your hogs. And if it is cholera it will protect your exposed hogs long enough for you to rid your farm of cholera if you try.

Treatment For Worms

Don't keep runty pigs or unthrifty hogs, if they have worms treat them with the calomel and santonine treatment (4 grains calomel and 6 grains santonine to each 100 pounds, weight of hog). Give them god care and feeding and if they don't promptly improve better kill them and burn them up. They will not prove profitable and will take any contagious disease that comes along and give it to your other hogs. Don't give such a pig to some negro. I find many outbreaks of cholera that has been started in just that way, by some negro bringing a sick pig into a neighborhood.

Serum Or Double Treatment

I prefer to use the serum as an emergency treatment to save exposed hogs. And then it is up to the owner to decide whether he shall use the serum alone or the "simultaneous" treatment. The immunity gained from the use of the serum alone treatment may run out after three weeks; it may last three months. If this method is used you can readily see the necessity of thoroughly cleaning up and disinfecting where the sick hogs have been as soon as the disease is stopped. Otherwise later on the hogs are likely to take up the germs harbored on the premises and you may have another outbreak of cholera in the same herd. Of the two, perhaps thorough cleaning up is of more importance than the use of disinfectants. Using disinfectants without cleaning up would sure be a failure. Both are very important. The great advantage the serum alone possesses is that you can't start an outbreak of cholera with it, or injure the hogs no matter what they might be sick off.

The Double Treatment

The advantage of the "simultaneous" treatment is that hogs so treated usually have a life immunity to cholera. The disadvantages are if you have made a mistake in diagnosis nd the hogs are sick of something else you are very likely to give them cholera with the "double" treatment. And if you happen to get poor serum you are likely to have a heavy loss. And what ever method you use you should get rid of the germs on your farm by sanitation and disinfection. Farmers should be informed and equipped so as to properly handle an outbreak of cholera themselves. At least one man in every school district should be so informed and equipped. Put up a sign "Sick Hogs" when you have them on your farm. Burn all carcasses of dead hogs and burn or promply bury deep all other carcasses.

I think it would be a good idea to have a law permitting sanitary officers at their discretion to kill all hogs sick of cholera, just as they have for foot and mouth disease.

Keep Hogs At Home

Do not permit hogs to run at large at any time, especially where there is cholera in the community, not only your own hogs but your neighbors hogs. The State Live Stock Sanitary Regulations provide a heavy penalty for permitting hogs to run at large that have been exposed to cholera. See that it is enforced. Many do not know what losses their carelessness may cause. Those who do know should get busy.

Cooperate with all forces that are trying to educate people along these lines. Help get people out to these meetings. Much can be accomplished by community organizations in creating an interest in hogs and passing out useful information about breeding feeding and marketing of hogs and prevention and control of hog cholera. Each of these local organizations should have one or more members properly informed and equipped to handle an outbreak of cholera.

You know the result if treatment is delayed when cholera breaks out in a herd, whether it happens to be an acute or chornic form of the disease.

A Striking case

In contrast, I wish to mention a case in which Serum was given when the first hog got sick. The State Extension Service at Auburn held a movable school of Agriculture at Sycamore, Ala., where I made a short talk on Hog Cholera. After the meeting Mr. H. L. Bowden, who lives 2 miles from Sycamore told me that he had a sick hog which acted as I had described Hog Cholera. As he had about $400 worth of hogs and the case appeared very suspicious we held a post mortem examination on the sick animal and found a very plain case of cholera in a virulent form. He at once ordered serum and treated his hogs; then burned all trash and litter and spread a thick covering of lime wherever the sicg hog had been. We treated these hogs th 1st of December and a few days ago when I was in that county I learned that Mr. Bowden had not lost a hog, nor was there a sick hog in his immediate community although all of his neighbors were raising a large number of hogs.

Special St. Louis Live Stock Market Report

By A. G. Bray, National Stock Yards, Illinois

We want to make these special live stock market reports from the National Stock Yards, Ills., just across the river from St. Louis, a regular feature of this farm paper. Read them study them, use them. The first of Mr. Bray's semi-monthly reports follows:

Despite the fact of price fluctuations during the past several weeks, at times rather violent and this especially prevelent during the past two weeks in the upward and downward movement of the market, the tradee for cattle shows a general advance all along the line, compared with values in force, say four weeks ago.

Generally speaking, most grades of grown cattle, such as cows, mixed stuff and bulls, prices are 25 to 75 cents per hundredweight higher than at that time. On the other hand, steers are from $1 to $1.50 higher with the strongest end of the latter advance on the better grades of fat steers.

The following quotations will serve best to explain present market conditions thoroughly:

Killing cattle—choice to prime fed steers, $8.25 to $8.65; good to choice fed steers, $7.50 to $8.25; medium to good fed steers $7 to $7.25; canners $4.50 to $4.65; cutters $5 to $5.50; fat cows $6 to $7; lightweight bulls $5.25 to $6; heavyweight bulls $6 to $6.75; common yearlings $4.50 to $4.85; heretics $5.60 to $6.10, with light veal calves at $6 to $9.

Stock cattle—(native division alone) good to choice quality thin steers $6.75 to $7.35; medium to good quality thin steers $6 to $6.75; common to medium quality thin steers $5.50 to $6; common light yearlings $5 to $5.50; young cows $5 to $5.50; good quality stock heeifers $5.50 to $6.25.

In commenting upon the fluctuations that have taken place in the trade recently, it will be well to remember and keep before you that in spite of the general scarcity in receipts and the high first cost to killers, that the slightest opportunity presented will bee taken advantage of by buyers to break the market even though the receipts at the time may not be of normal volume. Take times as this, when prices are unusually high, it in reality requires less in point of numbers to break the market than usual and it will be well to bear this in mind.

As far as the future is concerned, barring, of course, radical action on the part of the buying contingent at times, we can see nothing before us but a good market—a market that is going to prove satisfactory to the grazer and the feeder of cattle for the next three months at least. After this time when the rush of grass cattle is on in earnest there most likely will be a check to the upward tendency of the market, in fact we are rather inclined to look for some weakness in the trade. However, this is merely theory now for there is likely to be various circumstances that will arise that will ultimately change the entire trend of the future markets.

In the hog trade the advance in prices has been little short of sensational during the past four weeks. For the lighter weight hogs there has been an advance of 50 to 75 cents during the interval while the good weight hogs, kinds averaging 160 pounds upwards have advanced $1.15. This department of the market has been affected by similar conditions as those governing the cattle market.

Today's market the basis for comparison follows: Choice heavy hogs topped at $9.92 1-2 with the bulk of the good swine weighing 160 to 260 pounds selling at $9.50 to $9.80;; pigs 120 to 1,250 pounds, $8.75 to $9.50; lighter pigs $7 to $8.50 with rough hogs bringing $8.80 to $9.25.

45 Registered Short Horns 45

At Auction, April 25, 1916

Rodman & Crabb's First Annual Sale

25 Bulls

Herd headers for the breeder of pure breeds. Good substantial bulls for grading up common cattle.

20 Females

Bred cows, cows with calves by side, open and bred heifers.

Mr. R. L. Seale, representative of the American Shorthorn Breeder's Association, regarding this consignment says: "It is a question whether as good a lot of Shorthorns has ever before been offered for sale in the South. They are splendid individuals and their blood lines are as good as in any herd in America. Among them are a number of the type and breeding to use for foundation stock."

Come see our 100 head of Registered cattle. See our car load lot of home raised grade calves in the making for baby beef. They are by a Registered Shorthorn sire and out of common grade and scrub cows, and at five months of age weigh 425 pounds average.

Come see our country in the **Demopolis Section** where hundreds and thousands of acres of alfalfa have taken the place of cotton; where more diversification is in actual practice and where there are more pure bred herds of live stock than any other section of the South.

We will have a big barbecue out in one of the alfalfa fields with good shorthorns grazing all around. You are cordially invited to be with us on April 25th, whether in the market for anything or not. Parties from a distance will be met at station at Demopolis and have free conveyance to the farm.

Garden Calendar For 1916

Issued By Immigration and Markets Bureau

Vegetables	Time of Planting	Depth to Plant	Hills or Drills	Distance Apart	Amount of Seed or Plants Required	Standard Varieties	Average Time for Plants to Mature from Seed	Remarks
Asparagus (Roots)	Nov. 15 to Dec. Feb. 15 to March	6 to 8 in.	Hills	Rows 3 ft. apart; 1½ ft. apart in row	100 roots for a bed 10 x 40 ft.	Palmette Colossal Argenteuil	From roots 1 year after planting	Make soil loose and rich.
Beans (Bush Snaps)	March 15 to May 15 July to Aug. 1	2 in.	Drills	Drills 2 to 2½ ft. apart; drop seed 2 in. apart	1 quart to 100 ft. of drill	Valentine Black Wax Refugee Stringless Green Pod	50 to 70 days	
Beans (Pole, Lima or Butter and Pole Snaps)	March 15 to June July to Aug. 1	2 in.	Hills	Rows about 2½ ft. apart; hills 6 in. apart in row	1 quart for 150 to 200 hills	Henderson's Bush Lima Small Lima or Butter Ky. Wonder Pole	70 to 90 days	Drop from 2 to 3 beans to hill
Beets	Feb. 1 to April 15 July to Sept.	1 in.	Drills	Rows 18 in. to 2 ft. apart; sow thinly	1 oz. to 60 ft.	Eclipse Early Egyptian Detroit Dark Red	60 to 75 days	Have soil loose thin out to 4 in apart in row
Cabbage Plants	Jan. 1 to April June to Aug.	Set plants in ground up to bottom leaves	Hills	Put plants in rows 2 ft. apart and 1 to 1½ ft. apart in row		Early Jersey Wakefield Charleston Wakefield Drumhead	150 to 190 days from seed, according to varieties	Transplant carefully
Carrots	Jan. 15 to April 15 July to Sept.	1 in.	Drills	Rows 18 in. apart; sow thinly	1 oz. to 100 ft.	Danvers Half Long Scarlet Early Half Long Scarlet	60 to 75 days	When about 3 or 4 ins. high thin to about 4 ins. apart in row
Cantaloupe	April 1 to June	2 in.	Hills	4 ft. x 4 ft.	1 oz. to 50 hills	Rocky Ford Eden Gem Hackensack Osage	80 to 90 days	Drop from 3 to 4 seeds to hill
Cauliflower (Seed)	Feb. to May Sept. (transplant when plants are 3 to 4 in. high	Seed in hot beds or boxes about ½ in. deep for early crop	Hills	Plant same as cabbage plants	1 oz. will produce about 2,000 plants	Early Snowball Early Dwarf Erfurt	100 to 120 days	Tie up heads to bleach
Corn (Garden or Table)	March 1 to May 15, July	2 in.	Hills or Drills	3 ft. x 12 to 14 in.	1 quart to 200 hills	Adams' Early Golden Bantom Snowflake	70 to 90 days	Some varieties Field Corn good for late table use
Cucumber	March 15 to April. July 1 to July 15	2 in.	Hills	Rows 4 ft. apart x 2 ft. in row.	1 oz. to 50 hills	Klondike Davis' Perfect Long Green White Spine	60 to 80 days	Drop 2 to 3 seed to hill
Egg Plant	Seeds in beds or boxes in Fed. in open from April to June	Seed ½ in. Plants in ground to bottom leaves	Hills	Rows 3 ft. 1½ to 2 ft. apart in row	1 oz. for 1,000 to 1,500 plants	N. Y. Improved Large Purple Black Beauty	About 120 days	Transplant carefully
Endive	August to October	½ in.	Drills	Rows 18 in. apart; sow thinly	1 oz. to 300 ft.	Large Green Curled	From 80 to 100 days	Cover with leaves or litter to bleach
Lettuce (Seed)	Feb. 1 to April, July to Nov.	½ in.	Drills	Rows 18 in. apart; 8 to 10 in. in row	1 oz. to 3,000 plants	Big Boston Improved Hanson Tennisball	From 60 to 90 days	Thin out and transplant when about 3 inches high
Mustard	Feb. 1 to May. July to Oct.	½ in.	Drills	Rows 18 in. apart; sow thinly	1 oz. to 100 ft.	Giant Sou. Curled Chinese	About 85 days	Thin to 2 or 3 inches apart in row
Okra	March 10 to May 15	1½ in.	Hills	Rows 3 ft. apart; plant 2 ft. apart in row	1 oz. to 50 hills	White Velvet Kleckley's	About 70 days	Soak seed over night and plant 2 to 3 seed in hill
Onion Sets	Jan. to April, Aug. to Nov.	Press firmly 1 in. in soil	Drills	Drills 18 in. apart x 4 to 5 in. apart in drills	1 quart for 50 ft. of row	Yellow Danvers Silver Skin Red Weathersfield	From 90 to 100 days	Soil for onions should be well fertilized
Parsley	Feb. 1 to April Aug. to Oct.	¼ to ½ in.	Drills	Drills 18 in. apart; sow thinly	1 oz. for 150 ft. of drill	Extra Double Curled	From 80 to 100 days	After planting press firmly & keep soil moist
Peas (English)	Jan. to April Aug. & Dec.	2 to 3 in.	Drills	Rows 3 ft. apart x 2 to 3 in. in row	1 quart to 100 ft.	Alaska First and Best Marrowfat	From 60 to 80 days	Climbing varieties usually most prolific
Pumpkins	April 15 to June	2 in.	Hills	6 ft. x 4 ft.	1 oz. to 25 hills	Mammoth Cashaw	From 120 to 150 days	
Peppers	Seed in beds or boxes in Feb. Plant in open from Mar. 20 to April	Seed ½ in deep Plants in ground up to bottom leaf	Hills	Rows 2½ ft. apart by 18 in. in row	1 oz. to 1,000 plants	Large Bell Ruby Giant Small Chili Neapolitan	From 100 to 120 days	Transplant carefully
Potatoes (Irish)	Feb. 10 to May 1, July for 2d crop	6 to 4 in.	Hills	Rows 3 ft. apart x 12 to 14 in. in row	About 1 peck to 100 feet of row	Irish Cobbler Bliss Triumph Early Rose	From 85 to 100 days	Be careful to get seed free from scab
Potatoes (Sweet)	Beds Feb. 15 to March. In open March 15 to May	Seed 2 to 3 in. deep. Put plants in ground up to bottom leaf	Hills	Rows 3 ft. apart by 18 in. in row	2 bu. small potatoes yield enough plants for 1 acre	Nancy Hall Bunch Yam Southern Queen	From 150 to 150 days	May be grown from cuttings when vines begin to run
Radish	Feb. 1 to May Aug. to Oct.	½ in	Drills	Sow thinly in rows 18 in. apart	1 oz. to 100 ft.	Long Scarlet Scarlet Globe Winter varieties	From 25 to 35 days	Thin out when 3 or 4 inches high to 2 or 3 inches in row
Rape	July to Oct.	½ to 1 in.	Drills	Rows 18 in. apart; sow seed thinly	1 oz. to 150 ft. of drill	Dwarf Essex	About 75 days	Rape cooked like turnip greens is an excellent dish.
Spinach	Jan. 15 to April Aug. to Nov.	½ to 1 in.	Drills	Rows 18 in. apart; sow thinly	1 oz. to 100 ft.	Curley Savoy Bloomsdale Perfection Curled	From 50 to 60 days	Very hardy
Squash	April 1 to June	2 in.	Hills	Rows 3 to 4 ft. apart by 2 ft. apart in row	1 oz. to 50 hills	Early White Bush Yellow Crookneck	From 60 to 90 days	Plant from 3 to 4 seed to hill
Swiss Chard	Feb. 1 to April 15, July to Sept.	1 to 1½ in.	Drills	Sow seed thinly in rows 18 in. apart	1 oz. to 100 ft.	Giant Lucullus	From 60 to 75 days	When about 3 in. high thin to 4 in. in row
Tomatoes	Seed in beds Feb. 1 to March. Plants in open April to May. Plant in July for late crop.	Seed ½ in. deep. Set plants out up to bottom leaves	Hills	Rows 3 ft. apart; set plants 2 ft. apart in row	1 oz. to 1,500 to 2,000 plants	June Pink Acme Stone Erliana Ponderosa	110 to 130 days	Prune carefully for large fruit
Turnips	Jan. to Feb., July, Aug., Sept. and Oct.	1 in.	Drills	Sow seed thinly in rows 18 in. apart	1 oz. to 150 ft. of drill	Purple Top Globe Rutabaga White Egg	60 to 90 days	Late fall turnips sown principally for greens
Watermelon	March 15 to April June 15 to July	1 in. to 1½ in.	Hills	5 ft. x 5 ft.	1 oz. to 30 hills	Watson Georgia Rattlesnake Mountain Sweet	90 to 100 days	Light, loamy soil best for watermelons

The following is a garden calender, issued by J. A. Wade Alabama's Commissioner of Agriculture and Emmet A. Jones, chief of the Immigra- and Markets Bureau, it gives the list of vegetables that can be planted each month, a succession of crop combinations for vegetables and a planting table for vegetables. Use it—every week in the year Cut it out and paste it on your kitchen wall where you can look at it everytime you go into your garden.

Planting by Months

January—Cabbage, plants, Onion sets English peas spinach and turnips in open. Cabbage, lettuce, radish, beet Cauliflower and Onion seed in hot beds.

February—Asparagus, Tomatoes egg plants and peppers in hot beds or boxes for later transplanting outside. Sweet potatoes in beds Feb. 15.

February to April, inclusive—Beets, cabbage plants, carrots, cauliflower lettuce, mustard, onion sets, parsley, peas (English), Irish potatoes, radish, spinach, Swiss chard.

March 15 to June 1st—Bush Beans pole or Lima Beans, Cucumber, Table Corn, Okra, Sweet Potatoes, (plants and cuttings), Watermeons.

April 1st. to June, inclusive—Cantaloupe, Egg Plants, Pepper Plants Pumpkin Squash, Tomato Plants.

June—Sow Tomato Seed for late plants, late cabbage, Collard and Cauliflower seed for winter plants.

July—Bush Beans, Pole Snap Beans Beets, cabbage Plants, Carrots, late Corn Cucumber, Lettuce, Mustard, Irish Potatoes, Swiss Chard, Tomato Plants Turnips, Rutabagas.

August to October 1st—Cauliflower, Collard Plants, Endive, Onion Ses, Parsley, Kale, Lettuce, Radish Rape, Spinach, Turnips, Rutaoagas.

October—Endive, Lettuce, Mustard, Parsley, Radish (winter) Rape, Spinach Turnips.

November and December—Asparagus Roots, English Peas, Strawberry Plants Hardy Cabbage Plants, Sow Lettuce and early varieties of Cabbage in cold frames for later transplanting. Beets, Lettuce and radish can be profitably grown in Hot Beds for winter use.

Crop Combinations

If the vegetables listed below are planted in succession on the dates indicated, it is feasible to grow three and in some instances, four crops on the same garden space in one year. The first vegetable listed in each of succession combinations should be planted between February first and 15th.

Onion Sets, followed by cantaloupes from May 15 to June 1, and by rap or leeks in September.

Parsley, followed by black-eyey peas April 1 to May first and by collards or late potatoes July 15 to August 1.

Lettuce, followed by cucumbers May 1 to May 15, and by endive, parsley, or spinach from August 1 to September 1

Cauliflower, followed by collards, tomato, pepper egg plant or cabbage plants about June 1 to June 15, and by onion sets, turnips for salad, mustard, or kale in September and October.

February 10, plant Irish potatoes, followed by watermelons about June 1, and by cauliflower spinach turnips, and winter radishes in September.

March 10, plant table or sweet corn followed by sweet potato plants about June 15.

The sweet potatoes may be followed after frost by onion sets, or winter cabbage and lettuce plants.

English Peas, followed by bush bean April 15 to May 1 and by turnips or rutabagas in July and August.

Beets, followed by radishes April 15 to May 1; by okra in June, and by winter radishes, turnips, onions, or spinach in September.

Cabbage plants, followed by pole or butter beans about June 1st and by kale, or extra early peas in September.

Carrots, followed by mustard April 15, to May 1; by egg plants in June, and by turnips or other greens for salad in the fall.

Radishes, followed by pepper or tomato plants about April 1, and by lettuce in September.

Mustard, followed by English peas for late crop about April 1, and by cabbage plants in August.

SPECIAL PRICES made to large growers on the following seeds: All types of **Cotton Seeds, Corn Seeds, Melon Seeds, Cowpeas, Velvet Beans, Sorghums, Peanuts** and the various **Grasses.** Also **Sweet Potato Draws** and all **Garden Seeds.** All of our seeds are scientific rather than the usual commercial seeds. State type and amounts wanted.

In these varieties, Nancy Hall, Porto Rico Yam, Triumph, Dooly Yam. In the face of the boll weevil, and the fact that diversification of crops lead to better soil, quicker money from the effort made—and the fact that the South should learn to feed herself you should send your order today for the quantity of these plants that you will need to begin with, and the price is $1.50 per 1,000 plants by express.

Dept. 1, Alexander City, Alabama.

$40 More Per Head For High Grade Steers

That it pays to raise good stock is illustrated by the experience of two Utah ranchmen who sent their steers to the same market on the same day. Both run their stock on National forest range under grazing permits, both used the same amount of range per head of stock, and both paid the same grazing fee. One gave close attention to the selection of his breeding cows and used only high-grade bulls. The other made no effort to improve his herd. The owner of the high-grade stock received $40 per head more for his steers than the owner of the common stock.

On some of the National forest ranges the stockmen club together, it is reported, and buy high-grade bulls which are owned as community property. Since the administration of the forests is in the hands of the department of agriculture, naturally there is a desire to encourage the use of good breeding stock and to elliminate the scrubs. In general, the effort is to make the ranges as beneficial to the country as possible.

HABIT.

"Every parent should make a close study of the process of habit formation," says Dr. Anna List, the only phychologist who has heretofore stedfastly refused to rewrite William James' wonderful chapter on that subject. "I have reliable information that children, both male and female, begin the formation of habits quite early in life. Parents who allow their offspring to develop in a natural, desultory manner are maltreating a tremendous responsibility.

"Let me be more specific. One of the families over in the third block west from my apartments has a child—a boy, if I mistake not. This young animal, I am told, took its first step with its left foot. The toes were turned in at an unbecoming angle and the leg was bowed out. A day or so later the process was repeated verbatim, you might say. In the ecstasies of the two occasions not one member of the entire household of father, mother, maternal grandmother and two nurses noted the discrepancies in the technikque of the child's locomotion.

"That one repetition was fatal. A habit had been formed. To this day (and the child is now over three years of age) the unfortunate little human being invariably starts walking with his left foot, toes turned in and knees bowed out.

"I therefore, maintain that it is criminal for parents to allow children to repeat the most trivial act or motion without some variation of detail. Habits are otherwise sure to result."
—H. W. Dee.

Violent—"Was her father violent when you asked him for her hand?"
"Was he? Great guns! I thought he'd shake my hand off."

His Opportunity—Mrs. Yeast—Dear, you were talking in your sleep last night.
Mr. Yeast—Well, I've got to talk some time, haven't I?

Resourceful—"And is your wife a good housekeeper?"
"Oh, wonderful, mother! She can heat coffee perfectly with an electric curling iron."

Candor—He—You used to say there was something about me you liked.
She—Yes; but you've spent it all now.
How Could She? Mistress—Did you see if the butcher had pig's feet?
Maid—No, ma'am, I couldn't—he had his boots on!

Better—"Hearing those high-priced opera singers on the phonograph is almost as good as hearing them on the stage."
"Better. You can shut them off whenever you like on the phonograph."

It Didn't Matter—"I want a loaf of bread."
"White or Graham?"
"Doesn't matter; it's for a blind woman."

Bright Kid—Auntie—Well, Tommy, what have you learned in school today?
Tommy—How to whisper without moving the lips.

Not Worrying—Snappy young wife—To be frank with you, if you were to die I should certainly marry again.
Harassed Husband—I've no objection. I'm not going to worry about the troubles of a fellow I shall never know.

Lent—Mistress—Goodness, Bridget, where is our telephone?
Bridget—Mrs. ones sent over, mum, askin' for the use uv it, and I sint it over, but I had the divil's own toime gittin' it off the wall, mum.

COLE TO THE WALL

"Ivy, why don't you cling to me?"
He cried in whispers thick:
"Oh, Archibald, I will," she said.
"I think that you're a brick."

Mr. Jesse James, postmaster of Bamford, Ala., writes: "I have suffered for eikht years from indigestion, tomach trouble and torpid liber, have spent some $150 for treatment and medicines and through the advice of a friends, I tried 'Vega Cal.' (vegetable calome), which entirely cured me and I gained 24 pounds in two months." "Vega Cal" is sold and guaranteed by all drug tores, 25 and 50 cents per bottle.

I Love my dog!
Listen, and I will tell you why.
Every spring
My wife, my son and my daughter
Have new spring coats.
They visit the stores,
Select,
And the coats come tothem.
I pay for the coats.
Every spring,
My dog
Has a new spring coat.
He does not visit the stores
Or select,
Yet the coat comes to him,
I do not pay for the coat.
That is why I love my dog!

THE UNION-BANNER

VOLUME V. CLANTON, ALABAMA, APRIL 20, 1916. NUMBER 3.

INFORMATION ABOUT INSTITUTE ATTENDANCE

Weekly News Letter From the State Department of Education.

District trustees all over the state are now engaging the services of teachers for the coming year, and the following information relative to institute attendance should be born in mind by both teachers and trustees.

All teachers employed in elementary and high schools supported in whole or in part by public funds, including holders of life certificates are required to attendd for four days, unless excused by the State Superintendent.

All schools in the county are closed automatically during the time the institute is in session.

The penalty for failure to attend the institute is the voidance of the contract of any teacher failing to attend, unless excused by the institute director.

Teachers are required, under the law, to attend the institute held in the county in which they teach, if held while the schools are in session. If the institute is held after the schools are closed, the teachers may attend in any county they choose, subject to the rules of the board of education of the county in which they expect to teach.

Attendance at a teachers' institute during any current year is a condition precendent to employment during the next succeeding year.

Professional study for three weeks at an approved institute of higher learning will entitle such teacher to a certificate of excuse from the State Superintendent.

The four days of required attendance must be full and continuous at one and the same institute.

The uniform fee to be paid by all teachers has been fixed for all counties this year at 75c.

A Remarkable Speech

On "Illiteracy" at the Alabama Educational Association recently held in Birmingham, a number of adult pupils, who had just learned to read and write, were on the program and expressed their appreciation of the efforts made in their behalf.

The speech of G. W. Johnson of Vandiver, Ala., was quite a remarkable effort. He said he had been raised in the woods right after the Civil War, and stated that his own education was neglected; that he married quite young and " raised eleven children, but I had ambition enough to give them ann education, and the way I managed to give them an education, if there wasn't public schools I hustled around and I gave part of my earnings to a teacher to teach them." He also told of Supt. S. P. Williamson of Shelby county coming into his community to organize an adult school and of his decision to attend, and continuing in part as follows:

"I started out and as I started out I thought this, well all this 57 years is past and I have raised eleven children and the baby boy now in the fifth grade and here I am, I can't write my name, and I went on to the school house, Mr. Williamson got things regulated. I told him to write my name. He wrote my name, I begun to make marks around. I improved and in an hour's time I could write my name by heart.

I have been superintendent of the Baptist Sunday School at Vandiver and had to memorize my opening exercises by heart.

No money couldn't buy from me what I have already learned, what a great pleasure it is to me. I would be proud I have learned this, if I just knowd I have twelve months even to live. I trust that we can have another moonlight school in the summer. We are working to that point to try to run a twenty day moonlight school."

A POOR MARRIED MAN

An Amateur play "A Poor Married Man" will be staged by the Union Grove Dramatic Club at Mineral Springs Saturday evening, April 22, 7:30 p.m. Plenty of good music.

Admission 10 and 15 cents. Everybody come.

THORSBY, ALA., R. 1.

MIDWAY

The first big day of the season at Midway will be celebrated on Saturday, April 29.

The following is a list of what we are going to have on the program:

For those who are interest in politics the following distinguished gentlemen will entertain them: Hon. L. H. Reynolds, Prof. J. W. Moore, Hon. S. M. Adams, Col. C. Reese Mullins and Mr. Patton.

These gentlemen are all in the race for Judge of Probate. This will not be a joint discussion, the joint discussion will be pulled off after the primary.

All of the other candidates are requested to be here as all will have the opportunity to let themselves be known.

This gathering promises to be the largest that has been in the country for quite awhile.

The political entertainment will be held in the Midway school building.

For those who are not interested in politics, but would be interested in trading stock,etc., you will find plenty of people here that day who are interested in the same thing. We had several trading conventions here last year with good attendance.

For those who live several miles away and would like to come Friday afternoon we wish to advise that we have a large pasture which you are welcome to ue.

For the young folks we are going to have plenty of music furnished by the Verbena concert band assisted by the Deatsville string band.

The young folks will be entertained on the Midway Pavillion. For those who cannot come during the day we wish to state that the music will remain awhile after night.

The Midway Refreshment Co., will give a nice box of Chocolate to the best looking girl present.

For those who come on the train get off at Mt. Creek, which is only one mile south of Midway.

Everybody and his brother will likely be here, so if you fail to come you will miss a good time.

Bring a well filled basket or if you don't want to be bothered with bringing your dinner you can obtain lunches here at a reasonable price.

Remember the date, Saturday, the 29th of April, the place Midway.

Very truly yours,
CHAS. COOPER.

IN MEMORIÁM

Death has entered the home of our friends, Mr. and Mrs. J. T. Minor, snatching away a sweet little girl and leaving them sad and sorrowing.

Little Katie was 13 years old. She died April 6th in the infirmary at Clanton after an illness of eight weeks.

Little Katie was especially interested in Sunday school work. She was loved by all of her school mates, for to know her was to love her.

Her remains were laid to rest in the Mt. Carmel cemetery. The funeral ervices were conducted by Rev. T. J. Deason.

May God's richest blessings be upon us and the Holy spirit comfort and guide us at all times is the prayer of this body.

Jesus loved your little darling,
Mother, Father, you do too; would your hearts be sad and heavy
If in heaven you only knew
That the rosebud planted here,
Watered by a thousand tears
Blooms today in glory land,
Free from sorrow and from tears.
Weep not mother God has given,
and His will it must be done.
While you sadly miss the loved one,
Remember he also gave his son, who,
while here, blessedlittle children.
"Suffer them to come to me," and
is waiting now to give you each a
home beyond the sea.

HILDA KLINNER,
MARY DEASON.

COLLINS CHAPEL.

Sunday school and prayer meeting are doing nicely now.

The singing at this place last Sunday was well attended and enjoyed by all who were fortunate enough to get in the house to hear it.

The distinguished singer and composer, Prof. J. D. Patton was here, and he was assisted by some of the foremost leaders and singers of our home community and county.

Misses Mollie and Lummie Murrah motored to Birmingham last Tuesday.

Mises Nora, Mattie and Lucile Mims and Mollie and Lummie Murrah went to the Springs Friday night.

Uncle Jack Robinson has returned from Birmingham.

Mesrs. Akin Mims, Monroe Benson, Sidney Littleton, and Reuben Jackson went to Union Grove on Sunday night.

Little Henry Mahan was in this settlement Sunday afternoon.

Walter Benson went to the prayer meeting Sunday night.

A READER.

LOST—Package of deeds directed to E. B. Langston, in letter head envelope of E. B. Deason, Judge of Probate. Finder please return and get reward, to W. M. Adams, Clanton, Ala. adv.

MR. BICE HAS SOME MORE THINGS TO SAY

Thorsby, Ala., April 14.

Editor Union-Banner:

Here I come again asking space in your paper for reply to Mr. Cooper's letter of last week.

Mr. Cooper said he was surprised at the meaning I placed on his letter. He said he thought he made his position clear relative to the High School—so plain that the wayfaring man, tho a fool, could understand it. I think the same thing. Here are the very words he wrote in his letter:

"We understand that five thousand dollars went to the county high school and of this amount, four thousand dollars was appropriated at first, and the other thousand dollars was later paid to make up for a few who failed to pay their subscription to the building fund. I am very much interested in better schools, and I do not think the money put in the school was a bad investment. The thing that I do not approve of is the manner in which it was done. If the matter had been placed before the tax payers of Chilton county, I am satisfied that a majority would have favored it, but I think there are only a few who like to have the hog run over them."

The above are the words of Mr. Cooper, and are the parts of his letter I referred to in my letter. Now Mr. Cooper, I think a wayfaring man, tho a fool, can understand your letter. The thing I want to reply to now is the statement you made in the last of your letters.

Mr. Cooper and I are friends, and both claiming to be Republicans; but the difference is in the way we look at things. Mr. Cooper said in his letter that Bice states if the five thousand dollars had been given to the country schools it would have made nine month schools all over the county. Here is what I said: "Suppose this money had been divided up among the rural schools of the county; all could have had a nine month school." Yes, Mr. Cooper, the widow's meal barrel could have been supplemented so much easier if the rural schools had received the five thousand dollars. Thank you, Mr. Cooper, for your information regarding the number of schools in the county. So much the more this money should have been given to the rural schools. I am not in favor of giving any of the peoples money to high schools, or colleges, universities, or normal colleges. When the peoples money is appropriated to those institutions it is class legislation for the few. I repeat that if this money that goes to those institutes was given for the equipment of rural schools, then it would be equally divided up, and every boy and girl could get a common school education. Say they go to the ninth grade; then if they wish a higher education, those who are able can get it. The poor people cannot go to college, as they are not able to buy books and clothing and pay for board.

Mr. Cooper misquotes me in his letter, when he said that I stated in my article that the state pays fifteen thousand dollars per year for the upkeep of the high school. I said nothing of the expenseseof keeping up the high school. Here is what I said: "I don't know how many high schools the state has built, but it agreed to build one in each county." There is a good deal of difference in putting up a building for a high school, or paying the teachers, or the up-keep as he calls it. Yes, this three thousand dollars that the state pays for keeping up those high schools is paid out of the peoples hard earned money and but a few gets the benefit of it. So you see we all pay our share to the high schools and I know I get no benefit from them.

Let's see what the three thousand for each county will amount to. Say we have 65; multiply this by three thousand and here is the answer: $195,000.00 for one year. Suppose this was added to the rural schools. It would help, but no; it all must go to the high schools, which is surely class legislation. All must pay their share of taxes to run the government and this is the money that is being given to the high schools, and Mr. Cooper thinks it is a good investment.

As a rule all who go to a high school or college are able to pay their own expenses. I say again board and tuition can be had at Thorsby for $12 per month. We have only one religious school in Thorsby Mr. Cooper said. Why is it he does not state the facts in the case and say there are two religious institutions there and that the religious people contribute largely to the support of the schools. The Baptists have a high school for Baptist people. The Thorsby Institute is nonsectarian. People of any sect can go to this school if they desire. I think it is kept up by religious people but it is not run as a sectarian school. Then Mr Cooper said How does Mr. Bice know that the people of Chilton county were against the high school, since he made such large mistakes in the foregoing instances. The people down this way think it is possible for him to make other errors.

Mr. Cooper states in his first letter that he attended a mass meeting at Clanton. If Mr. Cooper was at this meeting he should have known how the people felt about the county's money that was going to the high school. The court house was full of people at this meeting and all standing room was packed full, and the people were asked to sit down or to stoop down and a vote was taken. All who were in favor of the five thousand dollars being paid into the school by the comissioners were asked to stand up,and everyone that was in the house stood up. That is the reason, Mr. Cooper, that I know that ninety per cent of the people were against it. Most every beat in the county was represented at this meeting. I don't believe Mr. Cooper was at this meeting. If he had been he would not say that I have erred about it, and he would not have said that the tax payers would have voted in favor of giving their money to the high school. I did not misrepresent Mr. Cooper in my letter. He said in his letter that he presumed I looked upon it as being miraculous, just like the widow's barrel. Of course the $5,000 is what he refers to. Now Mr. Cooper $5,000 don't look so large to me as you seem to think it does. I have been in public business since I was twenty years old, and that has been forty years ago. My business made it necessary for me to handle large sums of money and the company I worked for was willing to trust me and did trust me, and I never betrayed their trust. I am now working for the same people.

So the five thousand dollars is not so miraculous as you seem to think it was. I never went to a high school, neither a common school. All of my schooling was obtained by a pine-knot fire by night after a hard days work, but I can spell rat, and I know the smell of a skunk when I get close to it.

Best wishes to the Union-Banner, and hurrah for the two ladies who had letters in the paper last week.

Respectfully,
J. BICE.

FROM MR. STANFORD

Lawley, Ala., April 15.

To the Voters and Tax Payers of Chilton County:

I wish it was so I could see you and have a face to face talk with you, but this will be impossible. So I wish to say in a few words what I stand for. I stand for the strictest economy to redeem our county, using the best of judgment in spending the peoples money. Not to put it out in spots, but spread it out uniformly where it will do the most good.

Yours for success,
W. R. K. STANFORD,
Candidate for Comissioner of Third District of Chilton County, Ala.

ALL DAY SINGING.

There will be an all day singing at Pleasant Grove Methodist Protestant Church seven miles west of Clanton, the Fifth Sunday in April. The books to be used will be the old Sacred Harp and Christian Harmony. A cordial invitation is extended to all to come and bring your books and baskets well filled.

SCOTT GIVES AIR TO HIS VIEWS AGAIN

Jemison, Ala., April 4, 1916.

Editor Union-Banner:

Here I come again for a few more words in regard to politics and one thing and another.

The Democrats are getting the air and schoolhouses filled with their old time songs, and they seem to have them keyed up to the tune of "Lord Revive Us Again." On the 20th of March we had speaking at the school house here by Judge for Congress, and Adams and Patton for Probate Judge.

I was surprised to hear Mr. Adams trying to deny that he said he would suffer his right arm cut off before he would go back into the Democratic party. But a lot of good ladies all over this country say they heard him say it.

But the hardest puzzle for me to work out was that he said never voted anything but a Democratic ticket. I have figured it out this way: While he was a candidate on the Republican ticket and hollering come on boys and vote for me, I am a Populist candidate, he must have been voting for some Democrat on the opposite side, if that is true. He must have been a wolf in sheep skins. But since we sheared the wool from him he has been going to Florida to spend the winters.

Well, boys, you ought to have heard those rumbling tones, as they tried to explain all these things. I can almost hear those thrilling words in the schoolhouse yet, behind the ceiling, trying to get out and explain what he meant. But after all I don't think he added much wool to his skin, though he asserted he had been working hard all the summer to get us all in one party. He had been unable to do so and we are all split up. Well, Mr. Adams, I don't object to all being in one party, so I am going to make you a proposition, one that all the Progressives will endorse. It is as follows: When Underwood gets to be President, and stands for high tariff, and the Legislature gets to being economical, and cuts out useless officies instead of creating them; goes to taxing the big corporations and stops skinning the poor fellow; when they fix it so the clerks and officers around Montgomery can't steal the money that is put in the treasury, and you give us a bond for a hundred thousand dollars and a written guarantee on your part that you will never leave us again, then we will let you into the Progresive party, and we will then all be in one party and stand for economy, equal rights, to all and special privileges to none.

Well, boys this is not the time for experiments. We should put into office those who have been tried and found true, as long as they last; then select the best of those who have not been tried. We should lay down all foolishness and stick to the men who have stuck to us, like our Commissioner, Mr. Herrod.

I will close, wishing The Union-Banner much sucess.

Respectfully,
J. N. SCOTT.

THE CHILTON COUNTY HIGH SCHOOL NEWS

—BY—

JEAN WYATT, Editor.

The Orange and Blue nine played the fast team of the Dallas County High School in a double header on the latter's court at Plantersville last Saturday. The first game ended in a score of 4 to 2 in favor of Chilton, but Dallas won the second by a score of 9 to 3.

In the first inning of the first game Cox scored one for Dallas, while Chilton attained nothing. At this moment it seemed as though the C. C. H. S. had a slim chance of winning but Chilton played shut-out ball all of the remaining part of the game. In the next three innings Dallas made no runs, while on the fourth Palmer, Popwell and Marcus brought in three scores for the Chilton players. In the sixth Dallas scored one and Chilton attained the same, making a score of 4 to 2 in the visitor's favor.

Rockett occupied the mound for the visitors in the first game, and Wyatt pitched the second.

Marcus was the star hitter for Chilton, while Teel made a sensational catch from center in the seventh inning with two men on bases.

Allen scored the first run for the Chilton team in the second game, which closed with the final score of 9 to 3, the home boys leading.

The time of the first game was one hour and thirty minutes, and of the second, one hour and fifty-five minutes, each of which was umpired by Pickering.

The Freshmen are all wearing long faces this week because Mary Marrow has announced that she is going to quit school and move from Clanton.

The engraving for the annual has been received by the management of the publication. The entire amount of engraving is about 800 square inches, including the zinc etching and picture engraving. The printers promise that they will have the printing finished in a couple of weeks. The work was supposed to have been finished by April 20th, but on account of a slight delay in the engraving, it will be a little later than this when it is completed.

The annual will be completed in a few days and ready for delivering to all who desire one. In order that we may be able to supply a copy to all who want one, we would like for everybody to notify us sending fifty-six cents to cover price and postage of book, together with their adress to Oscar Jones, Business Mgr., at once.

The entire school is anxiously waiting for the Chautauqua, which is to be held in town Thursday, Friday and Saturday. Everybody seems to have heard "Chautauqua" enough, they are now ready to really see it.

Prof. Tinsley's music class delivered an attractive program in the Chapel last Friday evening.

The high school was well represented at the singing at Collins Chapel last Sunday. The chiefest representatives were: Reuben Lowe, Arden Allen, Jean Wyatt, Feltz Mullins, Hub Allen, Pauline Woodyard and Eleanora Teel.

FROM BEAT 5

Mr. Editor:

I was in your town a few weeks ago, and I find that politics is all the go.

People down here seem to be satisfied with the way the election will go this fall. It looks like Reynolds for Judge of Probate sure, with a full ticket behind him, elected by the largest majority we have ever had. When we look back over the last three elections I do not see how anyone can figure otherwise. Six years ago we lost a part of our ticket, four years ago we carried the county by 250, and two years ago we carried our full ticket by over 500 majority. This time I think we will win by at least 700.

The Democrats have put the county hopelessly in debt, and they are not yet satisfied. Can we never do enough for them? The Democrats outside the town of Clanton are as badly dissatisfied as we are. But the Clanton crowd can whip them into line when the battle begins.

When we country folks get enough we are fully satisfied—and now we have enogh, and some to spare.

In conclusion, let me say, just watch old Beat 5 in the Primary and in the general election.

Respectfully,
J. R. HAMMELL.

Verbena, Ala., March 27, 1916.

MINERAL SPRINGS

R. V. McDaniel preached a good sermon here Saturday night. Quite a large crowd was out to hear him.

Will Gandy was out at the springs Sunday with a crowd of friends in his car.

Jim Simmons, barber, of Thorsby spent last week at the springs.

Crawford Cox and R. Edwins of Brent were out at the springs Sunday afternoon.

The entertainment at Mr. Colins's Friday night was splendid.

Miss Lilla Martin spent Thursday night with Miss Cora Ellison.

Misses Besie and Lesie Robinson spent last Friday with Miss Lilla Littleton.

Misses Jennie Littleton and Willie Wade of Wilton went to the singing Sunday.

Health here is good.

Mr. Mon Collins and Miss Oda Davis were happily maried Thursday night.

Mr. Joe Webb of near Clanton was at T. G. Robinson's Saturday night.

J. Henry Robinson was in this community Saturday night and Sunday.

E. T. Robinson played a trick on his potato patch by planting it in rape seed. We had better play some sort of a trick like that on our cotton patches this year.

Some of our folks went to the singing at Collins Chapel Sunday.

BROWN EYES.

SINGING CONVENTION.

The Chilton County Singing Convention, using the Sacred Harp and Christian Harmony music books will meet at Union Springs Chapel on the First Sunday in May, and Saturday before. All singers, lovers and friends of music of the two grand books are invited. Union Springs is on the Selma road, just south of the new Freeman schoolhouse, near the line of Beats 2 and 14, and those who come by rail will get off at Jemison and please notify the Secretary at Jemison at once.

T. J. JACKSON, President.
Z. J. JONES, Secretary.

FOR SALE—Two 1915 Ford cars and one 1913 Ford. Will sell cheap. Apply at Maddox and Hurtt Garage.

Simpkins Prolific early variety of cotton seed for sale; $2.00 per bushel. Clanton Mercantile Company.

GIRLS CANNING CLUB

Miss Madge J. Reese, the State agent, will be here and deliver an address on the morning of April 20th, Agricultural day during the Chautauqua. Let every club member avail herself, if possible, of the opportunity to hear her, as she will be interesting and instructive. We should grasp every opportunity to inform ourselves upon a work in which nearly two hundred girls in the different communities are interested enough to enroll as members.

The Club at New Harmony school met Saturday afternoon and elected the following officers: Mrs. S. E. Bates, President; Miss Vera Durbin, Vice-President; Miss Allie Durbin Secretary; Miss Rosa Bates, Reporter.

It has a membersip of eleven enthusiastic workers that bespeak for it a successful year. It is very encouraging to see how largely the housekeepers and girls enter into the work for the benifit it will be to them individually in their homes so that they may do teir part in providing for th home during the coming winter. With a pantry well filled with canned vegetables and fruit, a smoke-house with meat and lard and a crib with corn, there will be no actual want in our country even if the boll weevil does get the cotton.

Motto: "To Make the Best Better."

REPUBLICAN DISTRICT CONVENTION

To be Held at Calera Monday, May 15, 1916.

The Fourth District Republican Executive Committee assembled this 10th day of March 1916 at Talladega, Alabama, issues this call for a delegated District Convention to be held at Calera, May 15, 1916, at 10 o'clock A. M., for the purpose of electing one delegate and one alternate delegate to the Republican National Convention to be held at Chicago, June 7, 1916; to nominate a candidate for Congress; to nominat a candidate for presidential Elector; to elect a district executive committee and to transact any other business that may properly come before the Convention. Delegates from the several counties entitled to delegates shall be elected or selected in the following manner: By primary elections held in conformity with the laws of Alabama on the 9th day of May 1916, or by county mass meetings held at or near some voting precinct of the county on th 9th of May, or by county delegated conventions held on the 10th, 11th, 12th or 13th day of May, 1916, and in case of a ocunty delegated convention the delegates for the several pricincts shall be elected at Beat meeting held at the voting place in each pricinct on the 9th of May as provided by law.

That the representation of the counties in this convention shall be one delegate for each one-hundred votes cast for the Republican candidate for Elector in the election of 1908, or majority fraction of one-hundred votes so cast; provided that any county that cast as many as twenty-five votes for Republican Elector in 1908 or 1912 shall be entitled to one delegate.

Upon the basis of official election returns the apportionment of delegates to this Convention is as follows:

Calhoun county, 6; Chilton county, 9; Cleburne county, 3; Dallas county 1; Shelby county, 12; Talladega 3.

That each county may elect as many alternate delegates as they are entitled to delegates; provided that no more than one alternate for each delegate shall be elected or seated in the convention, and alternates shall vote only in the absence of the delegate for whom such alternate was elected.

That immediately after holding a county Primary, County mass meeting or county delegated convention, the Chairman and Secretary of the Republican County Committee in the case of a primary election, and the chairman an secretary of the county mass meeting or delegated convention as the case may be, shall make and certify to the list of delegates and alternates elected in said county, and immediately forward to CHAS. R. BARKER, Secretary, Fourth District Republican Executive Committee, Annistn, Ala., such list or credentials of the delegates and alternates from the several counties.

That this call shall be printed in some newspaper in the district, and that one copy shall be mailed by the secretary of this committee to each member of this committee, and one copy to the chairman and one copy to the secretary of each county executive committee in the district.

FRANK L. VANCE, Chairman
Fourth District Republican Executive Committee, Talladega, Alabama.
CHAS. R. BARKER, Secretary
Fourth District Republican Executive Committee, Anniston, Alabama.

CORINTH

Health of this community is very good at present with the exception of bad colds.

The farmers are getting along nicely with their work.

Our Sunday School is progressing nicely.

The singing at Corinth Sunday morning was enjoyed by all present, and the singing at Rev. E. A. Norri's Sunday evening was fine.

We wish to thank the people of Mt. Pleasant for the kindness shown to visitors.

Corinth will meet with Salem church next Sunday p.m. in the singing society. All singers and lovers of music are invited to be present and bring your new song books, Praise and Thanksgiving.

Long Time Loans to Farmers on Improved Real Estate

On real estate security in Chilton County, owned by farmers. I can procure long time loansfrom clients who have ample money to lend, at less tha 8 per cent interest. Applicants should bring their land papers with them.

Wm. M. ADAMS, Clanton, Ala.

Publishd Every Thursday at Clanton
Chilton County, Alabama.
UNION PUBLISHING CO.

W. M. WYATT, Editor & Manager.

Subscription price $1.00 per year, payable in advance.

Entered April 15, 1913, at Clanton Ala., as second class matter, under Act of Congress of March 3, 1879.

PEOPLES TELEPHONE 96.

SIGN YOUR NAME

We wish to call the attention of the writers to the paper to the fact that under the law we cannot publish articles pertaining to politics unless the name and address of the writer is published with the letter as it appears in the paper. Only last week we received a letter, with the signature of "A Democrat" but we could not publish it for the name of the writer was not given. If "A Democrat" will kindly let us know who he is, and authorize us to sign his name to his article, we shall publish it in the paper very willingly. Don't forget this when you are writing to the paper.

UNION SPRINGS

Everything quiet, everybody busy.

By the way, Mrs. Cobb and Mrs. Maddox sure had stirring letters in last week's Union-Banner. Such letters will make somebody sit up and take notice. Yes, and woman suffrage is coming too, let it come. This great time of the turning point in nations is bring wonders in both church and state.

Mr. Weeks the Randolph photographer was here last week.

The annual communion season of the church of God was held near here Sunday night at 7:30. It was well attended and was an impressive time and was observed at the same hour by thousands of christians all over the world it being the anniversary of the institution of the Sacramental supper, that added to its impressionness. All christians were invited. The invited ones were to judge for themselves as to whether they were christians or not. No particular human creed was recognized, just the Bible only.

The rain Sunday afternoon somewhat interfred with the singing here still it was a very good time, had several visitors from Center Hill.

Mr. Newt Atchinson of Ensley was here Sunday.

We are pleased to report Mrs. J. L. Smith who has been very sick is improving.

We extend a cordial invitation to all the people in the surrounding country to attend the inging convention the 1st Sunday in May and bring their books and great big baskets or boxes filled with refreshments for the people at noon. Come and let us make it the peoples singing.

Mr. B. L. Cobb was on our mail route part of last week. Mr. Cobb you know is a candidate for a place on the board of education. We consider him all right and would be pleased for him to represent this part on that board. He has already made it known just where he stands. We think each part of the county should be represented, and not meaning a thought against any other candidate we think this part would be satisfied with Mr. Cobb.

On April 26th Mr. Stephens, one of the I. B. S. A. lecturers will address the people in this part on some Bible subject, for one day only.

Z. J. JONES,
Jemison, Ala.

JUDGE GASTON GUNTER

Judge Gaston Gunter, an announcement of whose candidacy for Judge of the Fifteenth Circuit appears elsewhere in this issue, was born in Montgomery County in 1874. He attended the public and high schools of Montgomery and then graduated from Yale University. He was admitted to the practice of law in 1895.

Judge Gunter is a member of several of the prominent fraternal orders.

He has served as a member of the Board of Education of Montgomery County; was elected alderman, then President of the City Council, then Mayor of the City of Montgomery; and in 1911 was elected Judge of the City Court of Montgomery which position he now holds, but which is abolished from January 1st. 1917 along with all City Courts of the State.

As Juge of the City Court he presides over the equity, civil and criminal divisions, doing all the business of that court. The City Court is always open for civil and equity cases, and, as may be imagined the volume of business is very large. Judge Gunter has been on the bench almost continously since early in January, with several weeks of work still before him. For this reason he has not been able to make a personal canvass of the circuit.

However, his high legal ability and his fairness as a judge have caused numbers of his friends to bestir themselves in his behalf. Practically every lawyer of the circuit who knows Judge Gunter is openly for him, in addition to which he has a great many warm personal friends throughout the circuit who are wroking for him.

COMMISSIONER WILLIAMS MAKES HIS STATEMENTS.

Thorsby, Ala., April 13, 1916.
Editor Union-Banner:

As you have seen fit to assail me through the columns of your paper (as to how the people were fooled) Now if you think just before the election is the time to stir up political strife, as to myself I do not think so, but it seems to me that that is what it takes to satisfy you. You say I was used as a tool by the Democrats, you know that such statements are false. I may have made some mistakes, as most men sometimes do, but then, if I have, they are mine and not the Democrats. When you state that I was influenced by the Democrats in my official duty you are false Union-Banner. I believe that any fair minded person will say that you were played upon by a Democratic paper and to get out of it you had to assail some one and you just as soon assail me as any one. I will say that have done what I have thought best for the interests of the county in my official duty. You have seen fit to assail me in every way, in my opinion for no other reason than a selfish mode, for a few rotten politicians now seeking office. They are going over this county misleading the people concerning the Maplesville road. Now Mr. Reynolds when you were Judge of this county didn't you and the Commissioners work the county convicts trying to build a road from Clanton to Maplesville, and isn't it a fact that you worked this road by my place? Now why is it that you are going over this county saying so much about the highway coming by my place. If you were on the right route then we must be on the right route now. Now is it not a fact that if I were in line with you you would not have said a word about this road? It looks like the time has come when some people wants office if you are not in line for them they can't say enough hard things about you. Isn't it awful when politic gets to that lower a stage in Chilton county? While I am forced to write this letter in selfdefense I want to ask Brother Waldrup some questions. Brother Waldrup, isn't it a fact that when we Commissioners came back from Montgomery where we had been before the committee that you and Mr. Herrod both voted for the Maplesville Highway? As to the donations to the County High School, you opposed to making it any donation. Didn't Mr. Herrod favor giving the school $500? I hate that I was forced into this measure at this particular time, but it seems that the Union-Banner's policy with the few office seekers is to stir up strife in our party just before election. I long to see the day when we can have a clean political campaign in our party in Chilton county. I want to say to the people of this county after all the deadly blow to me of that most wisest and truthful of papers, The Union-Banner, and a few rotten politicians that I am still with the people of this county.

Now as to my being gone to the Democratic party of this county, it is false and I don't believe there is a little two-by-four news paper or office seeker in this county to drive me from my political faith, no I am not that weak, but thank God I am strong enough to defend my rights against such classes.

Now, I want to say in conclusion that I feel like we have got some of as nice men as there is in the county asking us for the various offices of the county and if we will go to the polls the 9th day of May and nominate these men, that I feel in November the victory is ours, for united we stand; devided we fall. It is very much to my regret that such as this occured at this particular time. Now as I want justice in this matter I am sending a letter to each of the county papers. I hope that this will not have to occur again.

Yours truly,
R. J. WILLIAMS.

LEGAL NOTICE

Notice is hereby given that application will be made to the governor of Alabama within ten days of date hereof, to pardon James M. Maddox, convicted in the circuit court of Chilton county, May 16, 1911, on a charge of perjury, and to restore his civil and political rights.

JAMES M. MADDOX.

FOR JUSTICE OF PEACE

I hereby announce myself a candidate for the office of Justice of the Peace of Beat 4, subject to the action of the Progressive primary on May 9th, 1916.

J. E. EASTERLING.
(Paid political advertisement, by J. E. Easterling, Clanton, Ala.)

I hereby announce myself a candidate for the office of Justice of the Peace of Beat 4, subject to the action of the Progressive primary on May 9th, 1916.

W. R. BAKER.
(Paid political advertisement, by W. R. Baker, Clanton, Ala.)

FOR CONSTABLE

I hereby announce myself a candidate for the office of Constablie of Beat 4, of Chilton County, Ala., subject to the action of the Progressive and Republican voters in the primary election on May 9th 1916.

C. D. DUKE.
(Paid political advertisement, by C. D. Duke, Clanton, Ala.)

A BRIEF PLATFORM

I advocate and shall legislate for:

1st.—Official places to be filled by election when it can be done, and not by appointment.

2nd. For peace, and not war, when war can under any reasonable circumstances be averted.

3rd. Better Rural Schools, buildings and equipement, and teachers.

4th. Less Appropriation for Universities, Colleges and Normal Schools and their equipement; and more to the District, City High Schools and Rural or Common Schools.

5th. Individually I am for National Prohibition but am willing to accept local option, provided laws be enacted that will prohibit, and not a mere play at prohibition.

6th. A minimum tax rate on all proprety not held for speculative purposes; but a maximum tax rate, upon all property held solely for speculative purposes.

7th. A fair, just and equitable legislation in the interest of every one, especially protecting the interest of the Great Body of the Common People; Farmers, Mechanics, Miners and all labor and operatives and poorer Masses, Special acts to be advocated, only when to do so, will conserve the interest of the masses interested.

9th. Less Expenditures to National Parks, Great Highways and Subways; and more expenditures upon the Common Roadways and Ordinary Highways.

10th. A proper care of the Old Soldiers whether North or South, with strenuous efforts to create no more by a mad rush to arms and war.

Never held office. Am poor and need the place; but not like the masses need me.

Your vote solicited.

STONEWALL J. JENNINGS,
Candidate for U. S. Congress from Fourth District.
Calera, Ala.
(Paid political advertisement, by S. J. Jennings, Calera, Ala.

AGENT WANTED.

Women wanted full time salary $15 selling guaranteed hosiery to wearer; 25c an hour spare time Permanent; experience unnecessary International, Box 122, Norristown, Pa.

FOR JUDGE 15th JUDICIAL CIRCUIT

Two to be nominated.

I hereby announce myself as a candidate for Judge of the 15th Judicial Circuit, subject to the action of the Democratic primary to be held on May 9th 1916.

GASTON GUNTER
(Paid political advertisement, by Gaston Gunter, Montgomery, Ala.)

STONEWALL J. JENNINGS

I hereby announce myself a candidate for United States Congress from the Fourth District of Alabama, subject to a majority of the voters, whether expressed in the various Primaries on May 9th, or in the General Election in November next 1916. If elected, I promise a clean administration in the interest of the masses; in Prohibition, Progressiveness, Equity, Justice and good Government. Your vote and influence solicited.

ADMINISTRATOR'S NOTICE

Letters of administration, with the will annexed, upon the estate of Alex Cross, deceased, having been granted to the undersigned on the 1st day of April, 1916, by the Hon. E. B. Deason, Judge of the Probate Court of Chilton County, notice is hereby given, that all persons having claims against said estate, will be required to present the same within the time allowed by law, or that the same will be barred.

W. M. NIX, Administrator
adv. 4-20-3t.

C. R. Wells of Route 8 was a visitor to Clanton Saturday.

LOST—Single barrel automobile pump, somewhere between Clanton and Mount Pisgah church, or between Mount Pisgah church and Coosa. Will pay liberal reward for return of pump to B F. HIGGINS, Clanton, Ala.

CALL FOR REPUBLICAN BEAT MEETINGS to be held in each beat of Chilton County, on the 9th day of May 1916, at or near the voting places therein, for the purpose of electing delegates to a delegated convention, to be held in the town of Clanton, Chilton County on the 13th day of May 1916; call for delegated county Republican Convention to be held in the town of Clanton, Chilton County, on the 13th day of May 1916.

The Republican executive committee of Chilton County, assembled this the 4th day of March 1916, at Thorsby, Ala., promulgates the following calls for beat meetings, and delegated county Republican Convention to be held as follows.

The Republicans of each beat or precinct of Chilton County, will on the 9th day of May 1916, at or near the voting places in each respective beat or precinct hold meetings for the purpose of electing two delegates to the Republican Delegated Convention to be held in the town of Clanton, Chilton County, on the 13th day of May 1916, and transact such other business as properly comes before such beat meetings, as provided by law.

The delegates so elected as above provided will assemble in a Republican Delegated Convention in the town of Clanton, Chilton County Alabama, on the 13th day of May 1916, at 12 o'clock M., for the purpose of electing delegates to the Republican State Convention to be held in the City of Birmingham, Ala., on the 17th day of May 1916, and for the purpose of nominating candidates of the Republican party, for Probate Judge of Chilton County, Tax Assessor, Tax Collector, Commissioners Court of said County, Clerk of the Circuit Court, Board of Education, and such other offices as will be filled by election in the year of 1916 general election, and for the purpose of electing delegates to the District Republican Convention, and to transact such other business that properly comes before said convention, and to elect an executive committee of said party.

G. W. EDWARDS,
Chm. of the Ex. Committee of Chilton County.
J. B. ATKINSON,
Sec. Republican Executive Committee of Chilton County.

FOR SALE—Early speckled and yokahama velvet beans at $2 a bu. All kind of cowpeas. R. W. Scott, Thorsby, Ala. 2-10-10t-dav.

Acts Like Dynamite Upon Your Liver.

Calomel is Quicksilver and Acts As Dynamite on your Liver.

Calomel loses you a day. You all know what calomel is. Its mercury, quicksilver. Calomel is dangerous. It crashes into s ur bile like dynamite—cramping and sickening you. Calomel attachs the bones and it should never be put in the system.

When you feel bilious, sluggish, constipated, and all knocked out, and believe you need a dose of dangerous calomel, just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take, and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside and cannot salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to children because it is perfectly harmless and does not gripe. (Advertisement.)

NON-RESIDENT NOTICE

The State of Alabama, Chilton County.

In Chancery at Clanton 7th District N. E. Chancery Division. Nellie Blair vs. Warren C. Blair.

In this cause it is made to appear to the Register, by the affidavit of Nellie Blair that the Defendant, Warren C. Blair, is a non-resident of the state of Alabama, and that his residence is unknown and further, that in the eblief of said affiant, the Defendant is the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Union-Banner, a newspaper published in the County of Chilton, once a week for four conecutive weeks, requiring him the said Warren C. Blair t answer or demur to the same within thirty days after the 18 day of April, 1916, and failing o to do, a decree pro confesso will be taken against him in said cause.

Done at office, in Clanton, Ala., this 18th day of April, 1916.

H. M. SIMPSON, Register

SHERIFF'S SALE, REAL ESTATE

The State of Alabama, Chilton County.

By virtue of an execution issued out of the Circuit Court of Chilton County, Ala., and to me directed whereby, I, as Sheriff of said County, was commanded to make the sum of Five thousand ninety-one and 13|100 Dollars, and interest since Feb. 22, 1916, and Fifteen and 70|100 Dollars, costs of suit and commission, the amount of a certain judgment and costs therein obtained at the Special Term, 1916, of said Court of said County, Alabama, in favor of The Tennessee Chemical Co. against E. A. Matthews, I have levied upon and will sell to the highest bidder for cash, at public sale, at the Court House door of said County, between the hours of 11 o'clock a. m. and 4 o'clock p. m. on Monday, the 8 day of May 1916, all the right, title and interest of the above named E. A. Matthews in and to the following described real estate, viz:

Lot Number one (1) in Block Number Two (2) West of the L. &. N. R. R. in the town of Clanton, Alabama. Lots Number nine (9), ten (10), fifteen (15) and sixtenn 1(6), in Block Number fifteen (15), East of the L. &. N. R. R. in the town of Clanton, Alabama. Here's A 'Tip' On Rheumatism Follow It

AN ACCURATE DESCRIPTION

When your arm or your leg feels "all knotted" with rheumatism, when you feel as though your muscles were "tied up with a rope," you are really describing your pains accurately. Rheumatism is a condition of the body when acids and other deposits of impurities are actually "tieing up" the strands of muscles in your body, or strangling the nerves and thus producing the awful shooting pains of sciatica, lumbago, etc. Medical authorities agree that these acid deposits are carried and deposited by the blood in the various parts of the body. It stands to reason, therefore, that local applications such as rubbing with so-called remedies can't do any permanent good. At best they can relieve the pain a little and only for a little while. The only way to effect a real cure is to attack the real cause—the blood. It is cleansed from the troublesome deposits by S. S. S., the reliable blood purifier that is now easing the pains and healing the ills of the third generation. S. S. S. "goes after" the impurities in the blood as relentlessly, as eagerly and as thoroughly as a ferret goes after rats; pursuing the poison into every vein and artery, into every nook and corner of the body, and chasing the troublesome substances out of the system. The blood thus cleansed, carries off the acid and other injurious deposits and "filters" them out of the body through the kidneys. S. S. S. is not a drug. It is a purely vegetable blood purifier. You can get S. S. S. at every drug store. But if in addition you should like to have the advice of the doctors in charge of our laboratory, do not hesitate to write us. You will receive free, conscientious and confidential advice. This is in line with our policy to make every effort to insure the best results from S. S. S. to every sufferer. Get a bottle at your druggist's today. If you wish special advice, write to Medical Department, Room 45, Swift Specific Company, Atlanta, Georgia.

From New York Herald.

"Theodore Roosevelt and Justice Charles E. Hughes are still leading the field in the race for the Republican presidential nomination. Justice Hughes apparently leads Roosevelt in popular sentiment. Neither has the support of any great element in the national organization. No one viding he believed he could be elect-vet knows whether Justice Hughes s no doubt that Roosvelt would, prowould accept a nomination. There Hughes would take a nomination ed,

peg upon which hangs the entire sitthat if it were a certainty that

"The Hughes attitude is still the ing men in the organization assert the battle would be all over. There is a widespread and growing belief that the justice will accept if an undivided party call comes to him.

"It is difficult to measure the demands for the two men. Of the twenty-seven states and territories which have thus far chosen delegates, fourteen are classed as states with strong Hughes sentiment. Eight are classd as strong Roosevelt states. In Florida, Illinois, North Carolina, Oklahoma and South Carolina it is stated that Roosevelt and Hughes sentiment are both conspicious.

Hughes Popular in Missouri.

"The states in which Hughes sentiment is noted, and not Roosevelt drift, are Connecticut, Kansas, Maine, Missouri, New Hampshire, New York, Tennessee and Wisconsin.

"The majority opinion among prominent Republicans is that unless the Republicans become convinced during the next six weeks, that Hughes will accept, the nomination is likely to be captured by Roosevelt. Meantime the Progressives in many states are whipping their organization into shape.

"No one will know until after the Republican convention settles down to business in June, whether Roosevelt will be an independent candidate or not. The possibility of running on a third ticket may be used as a big stick over the Republican convention. Most Republicans believe it will not be used, unless the Republicans affront Roosevelt and his Progressive party. The nomination of Justice Hughes would bring the support of Roosevelt. That is about as far as anyone cares to go at present.

Root Feeling Is Growing

"Among business men throughout the country the Root feeling is growing. He is described by them as one who is eminently fitted to cope with all the difficult international problems which are bound to arise in the next few years. He is set down as conservative, who would encourage tranquillity in business.

"At the same time enterests of about the same character are pinning their faith in Senator Burton. At the present moment, leaving Hughes and Roosevelt out of it, Senator Burton would appear to be the natural favorite in the betting.

"There seems to be no expectation that any of the favorite sons is likely to become much more formidable than he is at present. These include Chales W. Fairbanks, Senator LaFollette, Weeks, Cummings, Sherman, Borah, and Ford and Du Pont."

LETTER FROM A CHILTON BOY IN THE U. S. ARMY.

Dear Editor:

I will try and interest your readers with a letter from the army of my experience.

I enlisted in the army at Columbus, Ohio, August 11th 1913. I stayed there one month and then was sent to the 29th U. S. Infantry joining them at Fort Niagra. We then went out on manuevers on Indian reservation which was settled by the Comache tribe, and we had a sham battle there that lasted for two days.

I enjoyed myself fine when we were at Fort Niagra. We were just two miles from Canada. We could go over there in a row boat.

We then came to relieve four companys of our regiment at Fort Jay, New York. We all liked Fort Jay fine because it was just across the river from New York City, and we had a government boat that run from one side to the other every thirty minutes, and we enjoyed ourselves greatly. We had a nice hall and all of the boys attended dances every Thursday night of each week. I think that was just about the prettiest place I have ever seen. We had quite a number of prisoners, about three hundred I guess, and all they had to do was to keep the place clean. We stayed there quite awhile and it was getting time for us to have our target practice and there was no range at Fort Jay so two of the companies went to Albany N.Y. to a rifle range used by the national guards. We were up there one month. I made the grade of 202 out of a possible 300. We then went to Snyder Lake and camped over night. It went pretty hard with me because I was not used to sleeping in a tent.

We then went back to Fort Jay to relieve the other two companies so that they could use the range, and when they had completed their firing and came back we started on manuvers for three months through the Adirondack mountains. We would march about 16 miles a day and then camp for the night by some little town and the band would give a concert every night and they were enjoyed by lots of people. We always had a good time at all of our camping places because there would be lots of nice girls and we would have some dancing, and I sure did enjoy myself, but it got pretty cold on us before we got back to our quarte rs. I guess you can imagine some of the boys getting hay and straw to make their bed as warm as possible. When we got back to Fort Jay we had marched 500 miles and everybody was feeling fine. Of course we are not out in the field all of the time,such trips as these are only made once a year and every Regiment of the U. S. army is supposed to make them.

When we arrived back at our headquarters we had news that we were going to be sent to Very Cruz Mexico. I didn't know what I was going to down there but what ever Uucle Sam said do I would have done, but they sent some Marines down there and the trouble was stopped and you bet I was tickled. Then there was a rumor about my regiment going to the Phillipine Islands, but some way or other that was all false, but I would enjoy going over there as a person would see lots of the world.

We were at Fort Jay almost two years before we moved again. We started from New York City March 17th, 1915 and sailed to Colon Panama. We were two weeks coming down, but it took us just a little longer than it really would but we had a storm or two and then we would not go so fast. There was about 1000 soldiers on the boat excepting officers and their families which would make about 1200 that came down on one boat not naming the horses and wagons and our belongings, I guess you are wondering how we all got on but there was room for that much more.

Our boat arrived in the afternoon and they gave all the men permission to go and visit the city. I didn't like it at first when I heard them people talking their language I didn't know what they were saying, but now I have learned quite a little bit of Spanish and French. This is a very beautiful place and I think every one would like it.

We have an easy time here as there is nothing much to do.

We have drill at 8 o'clock a.m. and that lasts until 9:30, then we have permission to be away from our quarters all the afternoon and until the following morning. I think that just as easy a time as any one would wish to have.

Panama City is near here but I don't think it is as good a city as Colon because there are not very many American people in Panama City, but there are several in Colon.

We have lots of sport hunting and fishing and there are all kinds of game down here from an elephant to a leld mouse, and then every Sunday afternoon we have a base ball game.

We have just returned from a ten days trip in the jungles of Santa Rica mountains, and we had a fairly good time excepting some little rain that made our trail hard to travel. I don't think that any of you boys would like one of hem ten day trips like I have just made, but I am used to them and don't mind it one bit.

Myself and three of the boys went out fishing and had the best of luck catching 22 weighing four pounds and over each.

I am sure you would be surprised to see an alligator about six feet long crawling up in your front yard

(continued next week)

N. Y. TRIBUNE COMES OUT FOR T. ROOSEVELT

NEW YORK, April 12.—Uuder the caption, "Col. Roosevelt for President," the Tribune will print the following editorial tomorrow morninfi:

Col. Roosevelt and no "pussy-footing." The Tribune likes this candidate and this issue. It regards Sena tor Root, its favorite so long as he had a chance of nomination, as now practically eliminated. It cannot interpret any more hopefully the failof the "oxygen treatment," which his candidacy received, in the shape of the manifesto, with seventy-five signers.

The party thinks that Mr. Root wouuld not be so likely to win as either Col. Reesevelt or Justice Hughes, and it wants him as secretary of state in the next Republican administration, since it cannot have him as president.

Country Needs Roosevelt.

We are for Col. Roosevelt, because we believe the country needs him, and no one else wil quicken the pulse of the nation as he will quicken it. No one else will stir the conscience of the people as he will stir it. No one else will inspire patriotism as he will inspire it. No one else personifies the issue which the Republican party must make as he personifies them. No one else presents so effective an antithesis to Wilson as he.

If we are Americans, real Americans, the colonel is our man. While timid politicians were consulting the census books and counting the German vote, he spoke, and the country hearkened. He is the leader in the fight for Americanism, and we don't believe in changing leaders when we are going to the front.

We are for Col. Roosevelt in spite of the fact that we were against him four years ago.

Tribune Swallows Its Pride

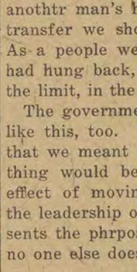
No one fought him harder than we. No one will fight harder for him. It has not been easy to put aside our pride, our sense of resentment at what occoured in 1912, and the hundred other things that tend to keep alive in the divisions, but we have put them aside and are putting them aside because we feel that they have no plyace in acrises like this.

We come out for Col. Roosevelt as a Republican newspaper, intending to remain Republican, and we feel thing, not only for the nation, but that in doing so we are doing the best for the Republican party.

We might have preferred another leader, but there is no other leader. Justice Hughes might have spoken if he had been free to speak. Indeed, we feel sure he would have spoken, and for Americanism, had not silence been imposed upon him, and then we should have preferred him. But the plain fact is that he did not speak—that he could not speak.

Represents Purpose of Nation.

If the justice should be chosen leader, in the fight for wothier nationalism, he would haveto take the torch that Col. Roosevelt has thus far born. He would havt to acctpt an issue that meant its most only in anothtr man's hands. Surely in the transfer we should loise our stride. As a people we should feel that we had hung back, that we hadn't gone the limit, in the true American way.



The governments of Europe would like this, too. They would conclude that we meant to temporize. Something would be lost of the moral effect of moving straight on under the leadership of the man who represents the phrpose of this country, as no one else does or can.

ORDER FORPRIMARY ELECTION

The Executive committee of the Progressive party of Chilton county, in session at Clanton, on January 19, 1916,ordered a Primary Election to be held on May 9th, 1916, for the nomination of candidates for the various offices to be filled at the next November election.

W. H. GILLESPIE, Chm.,
Progressive Ex. Com.
M. D. FOSHEE, Sec'y.

DOES YOUR STOMACH TROUBLE YOU?

MAYR'S Wonderful Stomach Remedy will change that Long Face!

And One Dose Has Often Dispelled Years of Suffering.

Mayr's Wonderful Remedy can really be termed WONDERFUL. No matter where you live—you will find people who have suffered with Stomach, Liver and Intestinal Ailments, etc., and have been restored to health and are loud in their praise of this remedy. It acts on the source and foundation of these ailments, removing the poisonous catarrh and bile accretions, taking out the inflammation from the intestinal tract and assists in rendering the same antiseptic. Sufferers are urged to try one dose—which alone should relieve your suffering and convince you that Mayr's Wonderful Remedy should restore you to good health. Put it to a test today. Send for booklet on Stomach Ailments to Geo. H. Mayr, Mfg. Chemist, 156 Whiting St., Chicago, or better still, obtain a bottle from your druggist.

For sale by Upchurch Drug Co., and all other leading druggists.

Eight weeks session for sufficient demand.

For further information, address CLAUDE R. WOOD director of session, Clanton Ala.

MINERAL SPRINGS

Editor Union-Banner:

Please allow me space in your paper for a few words.

People up this way are very busy farming now, but not too busy to talk politics.

I notice that Mr. Hubbard had a very long letter in the paper last week asking the people to support him for tax collector, also one showing how willingly he turned the office over to his successor and how much he appreciated what the people had done for him. This was all very appropriate, for he certainly should have been grateful to them after they had kept him for thirteen years and had principally raised and educated his family. I have been reliably informed that he faithfully promised the people that if they elected him the third time he would never ask for the office again. Is this a breach of promise or has he just forgotten? I am afraid he is too old to fill the place now, I am not sure that he is even qualified for the position for when he was collector back when the work was much easier and simpler than it now is it was generally understtod that he had to get his son to do the work. I do not like to help elect a man to an office and then it be filled by another.

We know who has been collector for the past four years. Mr. Collins was elected and has done the work himself. He has never had to hire anyone to do any work on account of his incompetency.

As to the courtesies, no one could be any more courteous and render any more assistance to the tax payers than has Mr. Collins.

What do you think of Mr. Hubbard's second round proposition? This does not appeal to me as as worthy of any consideration for we will be compelled to meet him on the first round to make our asesments because the assessor will not make but one round, but if it is not convienient for us to pay then we can, when ready to pay, do as I have done before just write Mr. Collins asking the amount of my taxes and he will gladly, as he has heretofore done, notify us of same and allow us to pay by mail which is far more convinient than to have to meet the collector on his second round and therefore probably lose a days work.

Every voter up this way is for Collins because he has faithfully discharged the duties of his office and is undoubtedly entitled to a second term.

Yours truly,
M. GORE.

The sunshine of Virginia is in them!

AND you know well enough what *that* means, if you've ever smoked a Virginia cigarette.

"The tobacco man's tobacco" is what Virginia is called. One reason is because Virginia gives to a cigarette the one quality no other tobacco *can* give—*"character"!*—that zest and life that makes a cigarette satisfying.

Sun-goldened, lively, mellow Virginia—that's Piedmonts! ALL Virginia! There's "character" aplenty in Piedmonts.

Have you been wondering why your cigarette is shy of taste? Why it is just merely "a smoke"? It's because it lacks *"character"!*

So try Piedmonts—*today!*

Liggett & Myers Tobacco Co.

Note:—35c a lb. is the duty which foreign-grown tobacco pays. Now add ocean freight. All that is expense—pure *waste*, because it adds nothing to a cigarette. On the contrary, it subtracts something—it means over 1c. worth of quality must be *taken out* of every 5c. package of cigarettes of foreign-grown tobacco. Piedmonts pay *no duty* — because they're Virginia tobacco, grown right here in the U.S! Your every penny goes for quality. So, Piedmonts *can* and *do* give you *better quality*.

The ALL Virginia cigarette—

Piedmont

H. B. Oliver of Verbena was in town Saturday.

Elsewhere in this paper there will be noticd the formation of a new law firm in Clanton. Mr. M. S. Belser who recently moved to this city announces that there will be associated with him Messre. Tilley & Elmoe of Montgomery. The style of the firm will be, "Belser, Tilley & Elmore." Offices will be maintained both in Clanton and Montgomery.

The new firm will be composed of Messrs. Morgan S. Belser, John S. Tilley and Ludlow Elmore. Mr. Belser graduated from the University several years ago. Aftr practicing law in Montgomery for three years he recently moved to Clanton. Mr. Elmore who is a graduate of the University of Virginia comes from the well known family of Elmores of Montgomery. He has practiced law in that city for a number of years, during a part of which time he served as Judge of the Recorders Court. Mr. Tilley is a graduate of Harvard University. For several years he has been engaged in the practice of law in Montgomery, during which time he has acquired an enviable record as a public speaker. Mr. Tilley will probable be remembered by a great many people of Clanton where he recently visited in behalf of Judg Gaston Gunter, candidate for Circuit Judge.

FOR SALE—Berkshire hogs, cheap; early speckled and yokohoma velvet beans and soy beans $2 a bu; white chinese beans 50 cents a gallon. Jesse A. Davis, Clanton, Ala.,

LOST—Black cravanet overcoat, in Clanton or on speedway between Joe Wesson's and Jowers livery stables. J. Tom Jones, Clanton, Route 1.

CLANTON, ALA.

PINEDALE

Sunday school here is still moving along well.

Rev. J. M. Dubose filled his regular appointment here Sunday.

Mrs. J. R. Thompson is visiting her son, G. P. Thompson, near Temple church.

Maunel Mims and Sam Thompson were visitors to Stumps Hills on the past Sunday.

Miss Rena Heflin visited Misses Leila and Lizzie Driver last Sunday.

Miss Myrtle Thompson is visiting at her uncle, J. M. Thompson's this week.

Oscar Littleton and wife of Lock 12 visited at Jim Littleton's last Saturday night and Sunday.

Robert Rhodes of Maddox Chapel attended prayer services her Sunday night.

Prof. D. F. Chery has returned to his home from a six weeks course at Troy State Normal College.

Mr. and Mrs. Melchar visited at R. W. Heflin's last Sunday.

Hugh Headley is in Birmingham this week on business.

Rev. Simpson Collins will fill his regular appointment at this place on next Sunday and Saturday night.

Simpkins Prolific early variety of cotton seed for sale; $2.00 per bushel. Clanton Mercantile Company.

Colds

should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

THEDFORD'S BLACK-DRAUGHT

the old reliable, vegetable liver powder.

Mr. Chas. A. Ragland, of Madison Heights, Va., says: "I have been using Thedford's Black-Draught for stomach troubles, indigestion, and colds, and find it to be the very best medicine I ever used. It makes an old man feel like a young one."

Insist on Thedford's, the original and genuine. E-67

LOMAX LOCALS

Health of this community is fairly good at present, no complaint except bad colds.

Farmers are getting along nice with their work. Some of us are planting cotton, but it is with little hope of making a success on account of the boll weevil.

The surprise party at Mr. Fletcher Parker's Saturday night was fine and enjoyed by all present.

The singing at Mr. Johnson's Sunday night was well attended and enjoyed by all present.

Part of the young folks from here attended the singing at Collins Chapel Sunday.

People around here report good luck at fishing on the creek now.

Fox Parker of Birmingham spent Saturday night and Sunday with his parents, Mr. John M. Parker and his wife of this place.

Leonard and Perry Bussie of Blunt county spent part of last week with friends around Lomax.

Mrs. Allie Wright spent Sunday and Sunday night with her parents, Mr. and Mrs. Bill Jones.

Our Sunday school last Sunday was fine in spite of the bad weather. We want to meet there again nextSunday afternoon at 2 p. m. Everybody will please bring their song books and we will sing until time to start Sunday school.

Come on all you writers and let's make this paper a sucecss.

POPLAR SPRINGS.

The farmers here have been making good time of the pretty weather of the past week. Some have planted cotton, and many others are ready for planting.

Mrs. Augusta Ray has been seiously sick for some time. We are glad to state that she is improving

The letter of Mrs. Maddox in the last week's paper was very fine.

Mrs. A. D. Scott visited Mrs. M.C. Culver Friday afternoon.

Mrs. M. C. Culver, Mrs. J. A. Dykes and daughter, Libbie, visited Mrs. A. D. Scott Saturday afternoon.

IN MEMORY

of Sister Artey Gray, wife of Jerman Gray, who departed this life on April 13, 1916. She leaves six children and a host of other relatives and friends to mourn her loss. She was 73 years old and was born near Coopers, where she lived and died. She was a member of Chestnut Creek Baptist church from the early years of her life until death. Her suffering was of short duration.

NOTICE TO MULE RAISERS

Bring your mares to "Phanco Reyas," a fine young Spanish jack, with size, style and action. A high-bred animal, and one that shows his breeding. Fee $10.00. K. C. MAHAN, Brierfield, Ala. adv. 3-30-4t.

MRS. GRIGGS GAINS TWENTY-FIVE POUNDS

Widow was in bad Health for years—Couldn't care for her children.

"I have taken three bottles of Tanlac and my condition is so much improved that I don't feel or act like the same woman. I don't know how much weight I have gained, as I haven't weighed lately, but I feel sure that I have gained twenty-five pounds." This remarkable statement was made by Mrs. Malissia Griggs, a highly respected widow lady, who lives at 311 Oriel Street, Nashville, Tenn.

Mrs. Griggs according to her own statement, has been a widow for five years, and is humble ciriumstances with two children to provide for. She also states that after her second baby came four and one-half years ago, she has been an invalid, and after losing her husband has been making her home with her sister, and has been entirely dependent on them as she was unable to work on account of poor health. She now states that after taking three bottles of Tanlac she feels strong enough to do most any kind of work and she expect to try and get a position and help provide for her children. She has lived in Nashville for nine years, and is highly respected.

Continuing, she said: "I suffered extreme nervousness for five or six years caused from indigestion and stomache trouble. After eating it seemed that my whole system would rebel and become upset. My heart would flutter and seem to almost stop beating. I would have swimming of the head and seemed to be turning around, my food would sour and ferment in my stomache and I would have to manage to throw up before I could get any relief at all.

"I was almost a nervous wreck. I couldn't sleep some nights even as much as one hour. If I dozed off, I would awake in a fright, scared half to death. Many nights I would get up and down unable to sleep at all. At times my flesh would become numb and tingle like needles piercing it. No one but my sister knows how I suffered. My eyes would get effected at times and dark spots would appear before them and last sometimes for hours.

I saw Tanlac advertised so much and praised by so many people here in Nashville that I decided to get a bottle and see if it would help me. Before I had taken half of the first bottle I noticed my nerves getting more quiet and I began to sleep better. Noises of different kinds which use to upset me so did not seem to bother me. My stomach began to improve and I got so I could eat right along.

"I have taken three bottle, and as I told you before, I don't feel like the same woman, and I believe I have actually gained twenty-five pounds. Tanlac is a grand medicine, and I am going to take another bottle although I sleep well and my indigestion is nearly gone.

Tanlac is sold in Clanton exclusively by Upchurch Drug Co.

SAM P. KENNEDY

PRESIDENT OF THE ALABAMA PUBLIC SERVICE COMMISSION.
(Formerly the Railroad Commission)
VOTE FOR HIM FOR RE-ELECTION AND ENDORSE EFFICIENCY.
Paid Political Adv., By Sam. P. Kennedy, Auditor.

FROM MR. C. D. FOSHEE

Billingsley, Ala., April 14.
Editor Union-Banner:

Please allow me space in your paper to say afew wards to the people as to how I stand concerning the school question, which I consider one of the most important questions now concerning the liberties of our children.

I don't favor the school laws. It gives the Board too much power. Think for a moment; five men having the entire control of the schools of the county. Where are the peoples rights? No, I can't favor any law that takes the peoples rights away from them and places it in the hands of five men. I believe each and every school should have the right to elect its own teacher and not the Board. I believe as to consolidating districts, that it should be left to the people of those districts. I believe in good rural schools as much as any man. I do not believe in taking the money of the rural schools and giving it to the high schools. I believe in giving to each and every child its part of the public money.

Now as the peoples rights have been taken away from them in so much that they can't elect the Superintendent of education I will stand for the man for that place who can get the indorsement of the people. I believe that the people ought to rule, and if I am elected as one of the board, I pledge you my word and my honor as a man, that I will stand for the people to rule on those important questions.

Now I want to say to the voters of the county that they are to be the judge in selecting this board and if you see fit to nominate me I will work for election, and if you see fit to nominate someone else I assue you that your choice will be my choice and I will do all I can to elect the ticket that the people nominates, their choice will be my choice.

Yours for the people to rule,
C. D. FOSHEE.

OAK HILL.

There will be an Easter exercise at Oak Hill Sunday, the 23rd. Bring your dinner and spend the day with us. J. B N.

VOLUME V. CLANTON, ALAMAMA, APRIL 27, 1916 NUMBER 4.

ROOSEVELT AND AMERICAN ISSUES

From The New York Sun.

Does Col. Roosevelt want the presidency again?

Every small-caliber man will instantly answer, "Yes of course he does; he just yearns for it."

That is not likely to be the answer, however, of any man who fairly and honestly asks himself whether a seven-years' President, with a record of masterful achievement, is anxious to imperil such a career by a new term of four years, with the certainty that he can do no better and the possibility that he may not do as well. No man with proper pride in what he had done, and in the value that posterity will give it, is likely to seek public service again for a selfish reason. Such a reason would lead away from the presidency, or any other office, rather than toward it. Keeping out involves no risk; getting in does.

It is usually a waste of effort to try to convince people—especially opposing people—of another man's motives. Ignorance, prejudice or the consciousness of their own purposes in similar circumstances form a sealed door against a generous interpretation. The man of small thoughts and small deeds never gets beyond his own horizon in considering the motives of others. Argument with him is useless.

Hence one after another of the great leaders of our country have had to suffer silently during their career much contemptuously petty misrepresentation particular from those whom they clothed with the very power that is later used against him. Our Caesars, too, have had their Brutus.

In my mind, Col. Roosevelt is the one living American who does NOT need the presidency to secure his place in history or to lead the thought of his country and typify its ideals and patriotism. Every reason that should appeal to a man of fifty-seven years so full of things done stands out boldly as a protest against assuming the great burdens of the presidency once more. I sincerely doubt that it makes a particle of difference to him whether or not he is nominated by the Republican National Convention in June.

He does not need the nomination to demonstrate his controlling influence in shaping the nation's best thought. Eighteen months ago he began writing the only platform with which the Republican convention that meets next June can win. The job is now done, while the so-called "regular" statesmen of that party are still knocking about from pillar to post in a visionless, spinless effort to find a way to oppose Wilson and offend nobody. Bless their little, vote fearing souls! The ballot box is the one cross to which they cling. Leaders of the people? Not a bit of it—just weak chasers after the expedient thing to do and one day of title.

The name of the candidate, whoever he may be, will not be associated in history with the defeat of Wilson next November, except technically, or with the awakening of the country to the peril of lukewarm patriotism. The only victory possible for the Republican party next November will be as much of a roosevelt victory as was the vote of 1908, when Taft was nominated and elected solely becausehe stood in the public mind for Roosevelt policies. That tremendous vote was an indorsement by the people of the Roosevelt era in our national policies—was made to feel that the power of the government was superior to its own; and that a "square deal" in business was the only foundation for any success that one could be proud of.

The new era upon which our people are determined this nation shall enter is as distinctly Rooseveltian as were the seven years that the Colonel was in the White House. All that the Republican convention can do—is to rewrite and reiterate the Roosevelt interpretation of our national ideals, rights and duties, and stick closely to the text, "Fear God and Take Your Own Part."

Little politicians will rattle around in convention halls at Chicago and elsewhere like peas in a pod, and regard their belated advocacy of preparedness and patriotism as the product of their own minds. Poor, self-deluded fools! Can they not realize that their utterances of to-day and of convention day next June are but the weak echoes of Roosevelt's voice, the mere mumbling by pigmies of a giant's corageous and inspiring words? Not a man of them that will know, down deep in his heart, that with that voice stilled or muffeled by doubting words in platform, the soul of the struggle against Wilsonism will have gone; that neither their own party or the country will listen for an instant, with any thought of approval next November, to a syllable that departs from the lines of national duty already laid down by Col. Roosevelt. Let the convention modify or evade in the slightest the doctrin the Col. has preached the past two years, and its candidates will return in November to the nothing they set out from!

How little they count for in the long run of years—those men who think that when they rob others of title—the title of public office—they rob them of their all. Why, they just steal trash, as one who robs your purse. The real, the enduring thing lives on, in words and deeds, despite their petty, vengeful plottings, and makes real men great and esteemed when title-loving, title-denying small men have been forgotten.

Let them run amuck in their feather-headed way if they will, and confer with deadly profoundity in clubs, corporation law offices and gilded Fifth avenue apartments. Their brief, meaningless, deedless authority will pass away like an April shower, and shortly none will ever know they existed, or tortured their minds with their own foolish rivalries for power, and their silly thoughts that titles, not purposes, make the man.

The new period that is opening in our national life—the higher, broader purposes and responsibilities we are to face as a nation—will stand in history as another Roosevelt period—a new and greater service to hiscountry by the man who as president did so much before. It has not been necessary for him to bear a title to vision the nation's destinies before others could see so far ahead and so clearly, to arouse it to its dangers and its duties while others silently watched it drifting aimlessly. I do not know, no one knows, whether the convention in June will tender him his old title; but the little politicians who for a brief moment will have the passing power to do so, need have no thought that what they do or fail to do will have much place in history. Only what the Colonel does will count there—and he needs no other title.

FOR MONUMENTS
—AND—
GRAVE STONES
SEE OR WRITE
J. M. SMITH
THORSBY, ALA., R. 1.

FROM MR. R. A. MILLER

Clanton, Ala., April 26, 1916.

As it is impossible for me to see all the voters of the county I have decided to write one letter before the final day, May 9th.

I have asked for the office of Tax Collector because I need the job and what it pays. I have had the misfortune to lose one eye and on account of the weakness of the other cannot do a great deal of manual labor, sepecially during the summer months, and so now if you wish to help a friend in need make a cross mark before my name on May 9th.

If any one doubts my needing the office more than either of my opponents just make a visit to our homes and I am sure you will be convinced.

If you see fit to nominate me I feel sure I can be elected in November and I promise you that I will faithfully discharge the duties of the office and will at all times do any thing I can to favor the tax payers of the county.

I further promise that if elected I will not ask for this office again, for I do not thinki it fair for one man to have all the pie, for there are lots of good men in our county that would appreciate a part of it, and since the average life of man is about 35 years only two could have any chance to hold office in one generation if they served eight years each, for aman is supposed to be twenty-one before asking for office.

I have always tried to do the right thing by my fellowman, and I do not believe that the man can be found that will say that I have tried to wrong him in any way.

If you see fit to help me by speaking to a friend and doing what you can for me I assure you of my appreciation.

Respectfully yours,
R. A. MILLER, Jr.

If you want to go somewhere and get back without having to walk, call on the old reliable Lee Maddox to carry you in his "gitney-Ford". adv.-tf.

THE PROGRESSIVE EXECUTIVE COMMITTEE

As required by law, the Executive Committee of the Progressive party of Chilton County is hereby called to meet at the court house in Clanton on Thursday, May 11th, for the purpose of counting the vote, and declaring the results of the primary election of May 9th. All members of the comittee in the various Beats will please take notice and govern yourselves acordingly.

W. H. GILLESPIE,
Chairman.

M. D. FOSHEE, Sec.

BARNES ASSAILS T. R. AND SAYS HE WILL FIGHT HIM

NEW YORK, April 12.—William Barnes, formerly chairman of the Republican State Committee, in a statement issued here Monday, attacked former President Roosevelt and denied a published report that he would not oppose the nomination by the Republican party of Roosevelt for the presidency.

"This year," Barnes asserted, "the periodical candidacy of Mr. Roosevelt for president of the United States is based upon Americanism, and such sporadic support as he is receiving comes from his declaration in behalf of proper national defense.

"Mr. Roosevelt is not responsible for nay natural phenomena, nor has he a patent on the obvious. That his country should be properly defended, as it is not defended now, is not open to debate."

Says T .R. Inspired Story.

In a characteristic statement Barnes left no doubt of his belief that Col. Roosevelt had inspired the story that Barnes had talked of the colonel's chances of being nominated at a recent gathering of Harvard men. He gave to reportes the names of men who were at the dinner so that his denial of the Boston story could be confirmed.

"There is a principal of Americanism, however, which is foreign to Mr. Roosevelt's temperament," Barnes' statement reads. "It is respect for the rights of others. No man of real self-respect does other than respect the rights of others. This is Americanism in time of war, or in time of peace; in time of prosperity or in time of want. It was Christ's vision of human development. In this aspiration American institutions were conceived. In Mr. Roosevelt's code there is no place for this great truth.

"It is not remarkable, therefore, that, simultaneously with the arrival yestedray of Roosevelt in Massachusettts where a primary is about to be held, a statement should appear that at a recent Harvard dinner, I stated my belief that there was likelyhood of Mr. Roosevelt's nomination and that I would not contend against such an outcome. This is characteristic slander upon my knowledge of political conditions as well as upon my character.

Predict T. R.'s Defeat.

"Opinion is vigorous against this nomination and thereis no likelyhood of its success.

"The story was, for the purpose of its author, well timed in order to attemp to obscure the action of the Republican State Cmmittee of New York last Saturday which passed unanimously a resolution declaring its opposition to the nomination of Mr. Roosevelt."

Commenting upon Barnes' statement the Sun will say tomorrow:

"The statement of Mr. Barnes that opinion is vigorous against the nomination of Mr. Roosevelt is based upon information brought to Mr. Barnes by trusted lieutenants from various sections of the state, and his friends justification for the movement which are pointing to this information as Mr. Barnes inaugurated last week to throw Frederic C. Tanner out of the chairmanship of the Republican State Committee.

"After a careful polling of the delegates from this state to the RepublicanNational Convention Mr. Barnes and his friends have reached the conclusion that with any sort of management of the campaign on the part of those opposed to him, Col Rosevelt cannot possibly get more than twelve votes out of New York's eighty-seven.

"Barnes and his friends have taken the view point that the best way to prevent Roosevelt from getting the nomination, is tc work for the nomination of Elihu Rcot.

It seems that the Speaker has been sounding out public sntiment in his lectures and speeches by mentioning the names of the different prospective nominees, and Roosevelts name always brings cheers where the other names do not.

Whether Mr. Clark is right or not, Mr. Roosevelt will be a dangerous man to the Democrats, for there is something about Roosevelt that takes with the people.

He can be completely snowed under in one campaign, and come back like a rubber ball—just as he can make impulsive blunders that would ruin the public career of any other man, and the people do not hold it against him.

Then, too, his position toward the warring European nations is clear-cut and positive—he has not wobbled on the spindle and catered to both sides.

The American people admire a fighter, and Roosevelt is a fighter.—The Jeffersonian.

ALL DAY SINGING.

There will be an all day singing at Pleasant Grove Methodist Protestant Church seven miles west of Clanton, the Fifth Sunday in April. The books to be used will be the old Sacred Harp and Christian Harmony. A cordial invitation is extended to all to come and bring your books and baskets well filled.

List of Candidates on the Progressive Ticket of Chilton county in the Primary of May 9.

Arranged similar to the ticket showing how the first and second choice vote will be expressed.

Clanton, Ala., April 26, 1916.
Editor Union-Banner:

At a request of a number of voters I am inclosing a list of the candidates to be voted for by the Progressive and Republican voters at the Primary Election on May the 9, 1916.

This list does not constitute an official ballot, but is arranged similar to the ballots that will be used at said Primary Election, and is offered in order that voters may become familiar with same and that they may understand how to vote this first and second choice.

To vote for any candidate for your first choice, make a cross (X) to the left of the candidate's name on the ticket, under the words first choice, and if there are more than two candidates running for the same office and you wish to vote for a second choice you will make a cross (X) to the right of the candidate's name and under the words second choice. However we cannot vote a first and second choice for the same candidate.

You will also note that for County Board of Education it will be necessary t vote for FIVE, and for Justice of the Peace it will be necessary to vote for two. Trusting that this may contain the information desired, I am,

Yours for the rule of the people,
J. N. DENNIS.

JAMES M. MADDOX.
Dated 5th day of April, 1916.

THE CHILTON COUNTY BOARD OF TRADE

A live Commercial Organization that will benefit Chilton

The Chilton County Board of Trade has been organized, and so far it looks like it means great things for our county.

Nothing could find a more deserving cause to work for and a more needed field of developement to take action in than a good live organization for the commercial advancement of Chilton county.

It is our hope that the Board of Trade just being organized will come into the full realization of the opportunities, and the proper conception of its duties, and forewith move on into the full performance of its good actions.

Every citizen is, by virtue of his citizenship called upon to lend aid and encouragement to the move.

FROM MR. CALLOWAY

Cooper, Ala., April 26, 1916.
Editor Union-Banner:

As some of the candidats for educational board have been giving their views, and as some of the voters over the county have asked their ideas along school lines, beg to give some of the things I think would go to the improvements of the schools of the county. I do not like the new law, for I think it takes away one of the rights of the voters, who I think have enough common sense to elect their Superintendent, therefore I think it wrong. I advocate better rural schools and allow the state appropriation of $2000.00 only to go to the high schools. I also believe in appropriating the funds in such a way that the suppliment will be equalized, and not the patrons in one district have to pay say $1.00 and in an adjoining district have an absolutely free school. I think this an unequal appropriation. I also advocate so long as the law has fixed it that way employing a superintendent as near the minimum salary ($1000.00) as possible coupled with the efficiency. I believe in having a superintendent of the entire schools of the county and see to it that he puts his time during the school term to visiting and overseeing the schools. I understand the larger city schools are out of the jurisdiction of the boad any way.

Regarding the compulsory school law I cannot say I oppose it if it did not take so much money to put the operating machinery in effect. Think of it the law provides that the county boards may appoint as many as five attendance officers in the county which shall receive as much as $3.00 per day for services and can work as many days as the school term lasts. Now I do not agree with this law at all and shall use my influence against employing these agents if elected.

Again if elected I will go into office pledged to no man for the place of Superintendent, for I think this is a position that should have the most careful consideration of the board. I believe in consolidating schools where practical, but do not believe in compelling pupils to go too great a distance to schools if it can be avoided.

Understand I do not fight High schools or higher institutions of learning, for I think they are a necisity, but the law provides so much money for the unkeep of the High school and so many dollars for the rural schools, and my motto is put the cash where it belongs, and not take rural cash and transfer it to high schools.

Another thing and I close that is I shall insist if elected on the superintendent going into as many communities and calling meetings of the patrons and getting all information he can regarding the kind of teacher or teachers that will best fit into their communities before recommending them for contracts with the board.

If you feel that you can give me your support I will appreciate it very much and will do my best to be elected in November, but should you see fit to nominate someone else I will do my best to help you elect him. I belong to no slate.

Yours for the success of the party.
L. A. CALLOWAY.

REPUBLICAN DISTRICT CONVENTION

To be Held at Calera Monday, May 15, 1916.

The Fourth District Republican Executive Committee assembled this 10th day of March 1916 at Talladega, Alabama, issues this call for a delegated District Convention to be held at Calera, May 15, 1916, at 10 o'clock A. M., for the purpose of electing one delegate and one alternate delegate to the Republican National Convention to be held at Chicago, June 7, 1916; to nominate a candidate for Congress; to nominat a candidate for presidential Elector; to elect a district executive committee and to transact any other business that may properly come before the Convention. Delegates from the several counties entitled to delegates shall be elected or selected in the following manner: By primary elections held in conformity with the laws of Alabama on the 9th day of May 1916, or by county mass meetings held at or near some voting precinct of the county on th 9th of May, or by county delegated conventions held on the 10th, 11th, 12th or 13th day of May, 1916, and in case of a ocunty delegated convention the delegates for the several pricincts shall be elected at Beat meeting held at the voting place in each pricinct on the 9th of May as provided by law.

That the representation of the counties in this convention shall be one delegate for each one-hundred votes cast for the Republican candidate for Elector in the election of 1908, or majority fraction of one-hundred votes so cast; provided that any county that cast as many as twenty-five votes for Republican Elector in 1908 or 1912 shall be entitled to one delegate.

Upon the basis of official election returns the apportionment of delegates to this Convention is as follows:

Calhoun county, 6; Chilton county, 9; Cleburne county, 3; Dallas county 1; Shelby county, 12; Talladega 3.

That each county may elect as many alternate delegates as they are entitled to delegates; provided that no more than one alternate for each delegate shall be elected or seated in the convention, and alternates shall vote only in the absence of the delegate for whom such alternate was elected.

That immediately after holding a county Primary, County mass meeting or county delegated convention, the Chairman and Secretary of the Republican County Committee in the case of a primary election, and the chairman an secretary of the county mass meeting or delegated convention as the case may be, shall make and certify to the list of delegates and alternates elected in said county, and immediately forward to CHAS. R. BARKER, Secretary, Fourth District Republican Executive Committee, Annistn, Ala., such list or credentials of the delegates and alternates from the several counties.

That this call shall be printed in some newspaper in the district, and that one copy shall be mailed by the secretary of this committee to each member of this committee, and one copy to the chairman and one copy to the secretary of each county executive committee in the district.

FRANK L. VANCE, Chairman
Fourth District Republican Executive Committee, Talladega, Alabama.

CHAS. R. BARKER, Secretary
Fourth District Republican Executive Committee, Anniston, Alabama.

ADMINISTRATOR'S NOTICE

Letters of administration, with the will annexed, upon the estate of Alex Cross, deceased, having been granted to the undersigned on the 1st day of April, 1916, by the Hon. E. B. Deason, Judge of the Probate Court of Chilton County, notice is hereby given, that all persons having claims against said estate, will be required to present the same within the time allowed by law, or that the same will be barred.

W. M. NIX, Administrator
adv. 4-20-3t.

Vote for
JOHN PATTON, Jr.
DEMOCRAT

In the primary on May the 9th, 1916.
He promises a clean, able honest administration.
He believes that the people should rule.

PEOPLES TELEPHONE 96.

If you trusted a man in whom you had confidence, and he proved a traitor to you, would you call yourself fooled?

Still with the people of the county. Well, it is a sad fact that he was not with them when voting on those road warrants.

We are glad Mr. Williams still contends for the principles of the party. In spite of all that has been said or done, he cannot help but see the utter failure of the Democrats in the management of our affairs of government.

It dosn't require any great long argument to convince the people that they were fooled when they elected Mr. Williams as Commissioner. They are already convinced. A blind man could see that.

It is as plain as the nose on your face.

Mr. P. M. Long, whom many delighted citizens heard at Thorsby and Jemison last Saturday, promised to come back to our county after the primary and speak at various places on political questions. We want our people to look for him, and hear him when he comes.

Mr. Williams says he did what he thought best for the county.

Well, lets see about that.

Why did he not tell the people when he was a candidate that he was going to vote to put the county 250 thousand dollars in debt to build a highway?

Oh, you say he did not think it was the best then.

Well, he must have changed over somewhere along the journey from candidate to official.

Yes, either that, or else he told the people he was in favor of one thing when he meant another.

Well, if he changed, why, how and where did he do it.

The Union-Banner told you a few weeks ago how it was done.

We are still of the same opinion.

In his speech at Thorsby last Saturday Hon Pope M. Long spoke for a united Republican party for the good of our country and a return to the good old times of peace progress and prosperity.

Mr. Long stressed the fact that the division of 1912, which let the Democrats into power is healed, and the Republicans and Bull Moose will present a solid front this year in opposing the common foe.

The Clanton Press goes after the Editor of The Union-Banner as if it thought the readers of the county papers would enjoy seeing a hair pulling controversey between us two little jack leg editors. We don't think this is so. People around here have a chance to enjoy greater amusement than that.

But we would like to offer The Press some consolation in regard to our politics.

It matters not whether you call us Progressives, Republicans, Bull Moose or whatever you call us, the people know when they hear the name mentioned that in our local and county affairs it means a government in which the people have a voice, a government on principles of equal rights and justice to all, an administration of economy and fairness. They know that in national affairs it means that Americans can stand up as Americans all over the world, and be recognized, and not have to drag the stars and stripes behind them in the dust. They know it means protection and prosperity for the common people and not starvation and hunger.

When you mention the very name of Democracy, the masses of the people see a national crisis staring them in the face. They see oppression, depression and stagnation on every hand.

They know that here in our own county it means discrimination against the rights and privileges of the people of the county, to the benefit of a circle of ruling and ruining few in Clanton.

Now the Clanton Press knows that it makes no difference what you call the parties, the above are the things for which the people accept them.

A CORRECTION.

In the letter of Mr. Bice last week the type setter made a very bad mistake, causing Mr. Bice to say the very thing he did not say.

In that part of his letter where he recounted the incidents of the mass meeting at the court house, and said: "All who were in favor of the payment of the five thousand dollars were asked to stand up" it should have been all who opposed the payment of the five thousand dollars were asked to stand up, and everyone that was in the house stood up.

SUPPORT YOUR PAPER

We can't help but appeal to the people of the County, and urge and ask you to lend us your support in making The Union-Banner better with every succeeding issue.

The other day we were at a meeting at Thorsby, and a good loyal Republican was there soliciting subscriptions to a paper away up in the North somewhere. It was a good paper and every man who subscribed for it will enjoy it; and we believe it was a good act for every one who subscribed.

But when we looked upon the many quarters that were being gathered up there and sent afar off, to the support of a foreign paper, we could not help but think why it is that some of these same men would pay their money out for that paper, and neglect their own home county paper.

Here is The Union-Banner, striving and fighting ceaselessly and eternally for the rights and privileges of your home your county, your children and your whole civic existence, and the only reward it gets many times is to have the man who ought to help and assist us by at least giving us his subscription, turn a deaf ear to our pleadings, and send his dollar off somewhere for some paper that could never have the interest in him and help him and his county half as much as his county paper.

We trust that some day these men will awake to the fact that this paper is a great value to the county and its citizens, and turn to us with that wonted support and encouragement which they can not help but see is justly due us.

THE BOARD OF TRADE

A Board of Trade has been organized for Chilton county. It is but the placing in the structure of Chilton county, a block that has been omitted since the foundation of our commercial life was laid—and a block upon which the support of a most important part of our county and community progress rests.

We hope the Board of Trade will furnish full and ample support for all responsibilities that rest upon it and which heretofore have had no support.

Organization is the key that unlocks and discloses success to any community in any endeavor. Our civic, religious and moral institutions must have organized co-operation or they can never be heard and recognized. Even more than these does our commercial advantages need to be thrown together and pushed by one organized body, having the same accord, and seeking the same attainments.

Chilton county stands more in need of an organization like the Board of Trade hopes to be than any other one thing we could mention.

Let our citizens meet the proposition half way, and help in its success. By so doing we all will be mutually benefited.

Mr. Williams says the statements that he was used as a tool by the Democrats are false.

Well, Mr. Williams if you didn't get your ideas of voting for the county warrants from the Democrats, we don't know where in the thunder they came from. You did not have them when you were asking the people to vote for you or at least you said you didn't have them, and I know you haven't since found any reason among your own party for voting debt on the county.

But we all know it has for a long time been the aim of the Democrats to put the county in debt to build a highway, and since you took the stand you did in your campaign, and changed your policies when you got into office, we must confess that it looks very much like something led you to take sides with the Democrats in this county debt matter.

If there is anybody in doubt about the stand The Union-Banner has taken in the Commissioners court matters, we do not have to ask you to believe our argument alone in the matter. Look at what is said by some other citizens in their letters this week. They are with us, and so are about 95 per cent of the people in the county.

Where is the ancient origin of the county debt movement to build highways through Chilton county for autoists of Birmingham and Montgomery? Who was it that a few years ago got up the great agitation to have the county issue bonds to build roads? Guess you can answer the above question all right.

Well then that same few are the same few who are now and have ever since the time they tried to issue bonds, favored putting the county head over heals in debt—just that few and no more.

When a fellow comes out on the stump to get elected to an office, declares his opposition to putting the county in debt, but goes on into office and begins voting directly in line with the plans of that few, what are you going to say?

Can you help but think, honestly, anything but that he has been worked on by the same little crowd that wanted so long to put the county in debt, and caused to change his views to suit their notions?

It is just for us to believe that such is the case or, to believe that all the time he was telling the people how he stood while seeking the office, he did not tell his true mind and intentions

These two solution are the only ones we can see.

POLITICAL ANNOUNCEMENTS

Such tobacco enjoyment

as you never thought could be is *yours to command* quick as you buy some Prince Albert and fire-up a pipe or a home-made cigarette!

Prince Albert gives you every tobacco satisfaction your smoke-appetite ever hankered for. That's because it's made by a patented process that *cuts out* bite and parch! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Copyright 1916 by R. J. Reynolds Tobacco Co.

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made *three* men smoke pipes where *one* smoked before!

PRINCE ALBERT

the national joy smoke

has a flavor as different as it is delightful. *You never tasted the like of it!* And that isn't strange, either.

Buy Prince Albert everywhere tobacco is sold in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—that corking fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such clever trim—always!

Men who *think* they can't smoke a pipe or roll a cigarette *can smoke* and *will smoke* if they use Prince Albert. And smokers who have not yet given P. A. a try-out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!

NON-RESIDENT NOTICE

The State of Alabama, Chilton County.

In Chancery at Clanton 7th District N. E. Chancery Division. Nellie Blair vs. Warren C. Blair.

In this cause it is made to appear to the Rigister, by the affidavit of Nellie Blair that the Defendant, Warren C. Blair, is a non-resident of the state of Alabama, and that his residence is unknown and further, that in the eblief of said affiant, the Defendant is the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Union-Banner, a newspaper published in the County of Chilton, once a week for four conecutive weeks, requiring him the said Warren C. Blair t answer or demur to the same within thirty days after the 18 day of April, 1916, and failing o to do, a decree pro confesso will be taken against him in said cause.

Done at office, in Clanton, Ala., this 18th day of April, 1916.

H. M. SIMPSON, Register

From now until November we all have time to think and make up our minds as to how we would like to be started out on another four years of Wilsonism in this country. In our opinion it would be a mighty bad pill to take.

CALL FOR REPUBLICAN BEAT MEETINGS to be held in each beat of Chilton County, on the 9th day of May 1916, at or near the voting places therein, for the purpose of electing delegates to a delegated convention, to be held in the town of Clanton, Chilton County on the 13th day of May 1916; call for delegated county Republican Convention to be held in the town of Clanton, Chilton County, on the 13th day of May 1916.

The Republican executive committee of Chilton County, assembled this the 4th day of March 1916, at Thorsby, Ala., promulgates the following calls for beat meetings, and delegated county Republican Convention to be held as follows.

The Repuolicans of each beat or precinct of Chilton County, will on the 9th day of May 1916, at or near the voting places in each respective beat or precinct hold meetings for the purpose of electing two delegates to the Republican Delegated Convention to be held in the town of Clanton, Chilton County, on the 13th day of May 1916, and transact such other business as properly comes before such beat meetings, as provided by law.

The delegates so elected as above provided will assemble in a Republican Delegated Convention in the town of Clanton, Chilton County Alabama, on the 13th day of May 1916, at 12 o'clock M., for the purpose of electing delegates to the Republican State Convention to be held in the City of Birmingham, Ala., on the 17th day of May 1916, and for the purpose of nominating candidates of the Republican party, for Probate Judge of Chilton County, Tax Assessor, Tax Collector, Commissioners Court of said County, Clerk of the Circuit Court, Board of Education, and such other offices as will be filled by election in the year of 1916 general election, and for the purpose of electing delegates to the District Republican Convention, and to transact such other business that properly comes before said convention, and to elect an executive committee of said party.

G. W. EDWARDS,
Chm. of the Ex. Committee of Chilton County.
J. B. ATKINSON,
Sec. Republican Executive Committee of Chilton County.

At the time of the campaign in which Mr. Williams was elected, the very question of putting the county in debt to build roads was brought up, and on one particular occasion Mr. Williams was asked by an audience how he stood on the matter.

Mr. Williams arose and told them that of course the county was already at that time in debt some, which could not be helped, but he told them that if he were elected he would pledge himself to use his best efforts to keep the debt from getting any bigger.

Well, did the people expect him to do what he said?

Well did he do it after he was elected?

Then were the people fooled?

Answer these questions, then look around and see where you are at, and you will know why The Union-Banner says the people were fooled when they elected Mr. Williams as commissioner.

The people of this country are looking for a man of the type of the great and beloved William McKinley to place at the head of this government for the next term. Such a man would soon make America again truly American, and cause our good old name and glorious old flag to be once more honored and respected, and hailed up and down this broad land with reverence and loyalty.

SHERIFF'S SALE, REAL ESTATE

The State of Alabama, Chilton County.

By virtue of an execution issued out of the Circuit Court of Chilton County, Ala., and to me directed whereby, I, as Sheriff of said County, was commanded to make the sum of Five thousand ninety-one and 13|100 Dollars, and interest since Feb. 22, 1916, and Fifteen and 70|100 Dollars, costs of suit and commission, the amount of a certain judgment and costs therein obtained at the Special Term, 1916, of said Court of said County, Alabama, in favor of The Tennessee Chemical Co. against E. A. Matthews, I have levied upon and will sell to the highest bidder for cash, at public sale, at the Court House door of said County, between the hours of 11 o'clock a. m. and 4 o'clock p. m. on Monday, the 8 day of May 1916, all the right, title and interest of the above named E. A. Matthews in and to the following described real estate, viz:

Lot Number one (1) in Block Number Two (2) West of the L. &. N. R. R. in the town of Clanton, Alabama. Lots Number nine (9), ten (10), fifteen (15) and sixtenn 1(6), in Block Number fifteen (15), East of the L. &. N. R. R. in the town of Clanton, Alabama. One acre in Section 35, Township 22 Range 14, an lying immediately West of the J. M. Morgan lot, in the town of Clanton, Alabama. Fifty-five (55) feet on North side of lot Number six in block number two (2) West of the L. &. N. R. R. in the town of Clanton Alabama and being known as the Warehouse lot and lying and being just North of the Thornton Hotel lot.

This execution is entitled to a credit of $2200.

This 8 day of April 1916, H. A. Harris, Sheriff.
Posted at Court House door April 8 1916, H. A. Harris, Sheriff.

FOR CONGRESSMAN

I am a candidate for Congress from the Fourth District, and hereby solicit the support of all Democrats at the primary election to be held on the 9th day of May, 1916.

CHILTON COUNTY SINGING CONVENTION.

The Chilton County Singing Convention met at Collins Chapel on the third Sunday in April and spent the day in singing praises to God. We were called to order at 9:30 by Vice-Pres. James Franklin, after which A. H. Glasscock, J. M. Dye, and J. D. Patton directed twenty minutes each. Prof. Patton directed four songs and gave a lecture on "The Importance of Letting Love Control the Human Soul." It was a splendid address and was good advice indeed.

We then had a sermon by Rev. Lowery, which led up to the noon hour, when a bountiful dinner was spread.

We were again called to order at 1:30 by Vice-President with song.

W. E. Milstead, H. C. Collins, C. F. Hull, J. B. Hammond, and J. D. Patton were the directors for the afternoon.

were the directors for the afternoon.

We had one very fine temperance or prohibition song sung as a trio by Messrs. W. E. Milstead, R. A. Smith, and J. L. Harris.

Organists for the day were J. M. Dye, J. B. Hammond, and Miss Genie Collins.

As a whole the singing was a succes from start to finish. We had a full class of singers, and a full house of listeners.

We wish to thank the good people of Collins Chapel for their kindness and willing suport of the convention.

F. IVEN POPWELL,
Secretary.

Do you know that since this country has been dabbling around down in Mexico, there have been more men butchered and slain by those bandits and outlaws than there were killed in legitimate battle during the Spanish-American war? A good leader of the American forces, which we already have, and a commander-in-chief, capable of some generalship could have gone into Mexico, raised the voice of this country against that turbulent chaos down there, and let them know that we were speaking to be heard and heeded in the interest of humanity, and not to be jeered at, and very soon the thing would have been quieted.

We trust no one in Chilton county is so busy in politics that he has no time to speak a good word for the Board of Trade. Help the Board of Trade wherever you go.

FOR SALE—Two 1915 Ford cars and one 1913 Ford. Will sell cheap. Apply at Maddox and Hurtt Garage.

SYMPTOMS

Show the Way to Health

Nature seldom works secretly. When your liver or bowels are not performing their functions properly, certain symptoms always point it out unerringly. If you feel sluggish or heavy, if you have bad breath, pimpled face, dizziness, loss of appetite, inflamed eyes or a coated tongue, it's a pretty safe bet that your digestive organs need attention, and need it quickly. They need it quickly not because of what they are, but because of what they may become. All serious diseases are little ills at first, that could have been stopped if taken care of immediately.

If you have any of the symptoms described above, a dose of the old reliable GRANGER LIVER REGULATOR will put you right at once. It's mighty easy to take, acts painlessly and still does its works thoroughly—and then, too, you can be certain you're safe with Granger Liver Regulator, because it contains no injurious chemicals. Years of use have proven it to be as harmless as it is valuable.

Granger Liver Regulator comes in tin boxes, which keep it at its full strength until the last is used It costs but 25c at your druggist's, and it will give you a comfortable feeling to know it's in the house, ready for use at any minute. Get a box today

SQUIRE WALDRUP ANSWERS MR. WILLIAMS

Mr. Williams in his letter last week asked me if Mr. Herrod and I didn't vote for the Maplesville Highway.

Now Robert you know that we were just to extend the grade that was already started from Maplesville over the Walker Hill. This is all we agreed to do and then we backed out and rescinded the act and Judge Deason took out the ads for bids to do the work.

Herrod tried to get you to give $500 to the high school instead of $1000, hoping thereby to save the county $500.

I regret to have to write this letter, but you asked me the question and so I write this in answer.

I think I have given it correctly just as it happened and if not, I am open for correction.

But I will say Mr. Williams that I am astonished at your letter from start to finish.

Yours respectfully,
S. E. WALDRUP.
Jemison, Ala., April 26, 1916.

ORDER FORPRIMARY ELECTION

The Executive committee of the Progressive party of Chilton county, in session at Clanton, on January 19, 1916,ordered a Primary Election to be held on May 9th, 1916, for the nomination of candidates for the various offices to be filled at the next November election.

W. H. GILLESPIE, Chm.,
Progressive Ex. Com.

M. D. FOSHEE, Sec'y.
Clanton, Ala., Feb. 23, 1916.

Election Officers for Primary on May 9th.

E. B. DEASON,
Judge of Probate.
J. P. GORE,
Acting for M. D. Foshee,
Clerk Circuit Court.
H. A. HARRIS,
Sheriff.

MIDWAY

In order to keep the ball rolling I guess I might just as well roll off a few more lines for the benefit of my friend Bice at Thorsby.

The sacred text states that it is as easy for a camel to go through the eye of a needle as it is for a rich man to go to Heaven, so it seems that it is about as hard a job for me to make Mr. Bice understand my position relative to the high school as it is for the camel to go through the eye of the needle. But nevertheless, I am going to exert every effort possible to make the case clear to him, even though I have to use every word in the English vocabulary to do so.

With these introductory remarks I will now endeavor to lay the case before him, hoping that his correct thinking facilities will at last be reached.

Realizing that upon the shoulders of the rising generation the burden of the country will soon rest, it behooves each and every one of us to exert every effort possible to prepare the rising generation for the task that they will soon bear. Education is the preparation that will be the most beneficial to the rising generation. Education not only in books but in the various lines of industry.

It is now stated that our county is over two hundred and fifty thousand dollars in debt raying nothing of the money that has been collected in during the past few years, take it all together I suppose over three hundred thousand dollars have been spent.

Looking at the situation as it really is, I am still of the opinion the money put in the school is the best investment made.

It has been recently stated in public gatherings that the county payed as high as six thousand dollars per mile for road work. If this statement is correct, can we attribute the extravagence to anything other than dense ignorance, realizing that the most expensive road work in the county should not have cost over two thousand dollars per mile.

I am greatly in favor of good roads, but I do not favor throwing away money on them in such large sums

I am more in favor of the rural schools now than any other kind because they are in need of more attention right now.

We recently built a new rural school in my settlement, and I am perfectly willing to allow any one the privilege to ask my neighbors the following questions: Who took the most interest in building the Midway school building? Who was the only one in the district who would risk his money on buying the land for the school building before the money was raised for building the house? We have a first class rural school which we are all proud of.

I am in favor of good roads and schools, but I do not favor running the county in debt, neither would I consent to spending large sums of the counties funds without referring the matter to the ones who pays the bill.

My friend Bice now states that he never meant the state paid fifteen thousand dollars for the upkeep of the county high schools that he had reference to the money the state paid out for buildings. Next Saturday the Midway Refreshment Co., is going to give to the best looking girl present a nice box of chocolate candy, and in addition to this present we will also give Mr. Bice a nice box of chocolate if he will show us one instant in the state where the state paid out any money on building the high school buildings.

Surely Mr. Bice knows that the state does not erect the buildings. It seems that he just wishes to "Back up" a little.

Mr. Bice reaches another fabulous sum by multiplying sixty-five counties by three thousand dollars. If he will take up division now and divide the $195,000.00 by the number of rural schools in the state which is about six thousand he will find that each school would receive about thirty dollars per year. Not such a big thing after all. Mr. Bice seems to want to make a mountain out of a mole hill, hence my reason for mentioning the real facts.

Mr. Bice also seems to lose sight of the fact that we do not have any control over the legislature of Alabama. The state appropriates three thousand dollars per year for the high schools, if we have the high school we get the three thousand dollars per year, if we do not have it the county does not get it yet the tax payesr have to pay it just the same.

I am running for commissioner on the grounds of efficiency. I feel that I can be of service to the county owing to the fact that I have had quite a lot of practical experience.

I am a tax payer of the county, and I would like to see the tax money properly spent and not gobbled up like it has been done recently.

I would be glad to talk to every progressive voter in the county relative to my case, but it will be impossible for me to do so. I have just commenced work on a two story brick building in the town of Verbena, which work is taking up my time.

Will appreciate your support and influence in the Primary, and will promise if elected that I will endeavor to never give you cause to regret having supported me.

A warm welcome awaits everyone at Midway Saturday.

With best wishes, I am,
Yours very truly,
CHAS. COOPER.
Mt. Creek, Ala., April 26, 1916.

BAD STOMACH?

ONE DOSE OF

For sale by Upchurch Drug Co., and all other leading druggists.

Mr. Hubbard Withdraws as Candidate for Tax Collector

Jemison, Ala., April 24, 1916.
Editor Union-Banner:

Please give me space in your paper for the following statement.

I have, after mature consideration decided to withdraw from the race for Tax Collector. This may be a surprise to my friends, but I find that the friends of Mr. Collins are my friends and my friends are Mr. Collin's friends. And as Mr. Collins had only had the office one term, I thought it would probably be best for me to retire and so let mine and his friends be perfectly free as they were friends to us both.

I sincerely thank the many who have promised me their support. I appreciate the efforts of my friends in my behalf.

In retiring from the race I promise to loyally support the nominee and will be with you until the end, so I retire with good will to all and malice toward none and if ever the people need my service I am ready to respond to their call, and in retiring I wish to say to my friends that in taking this step I will feel better satisfied.

Yours for party success,
T. J. HUBBARD.

ALL DAY SINGING

There will be an all day singing at Providence church, Beat 16, on next Sunday. Everybody come.

WALNUT CREEK

There will be an all day singing at this place on the first Sunday in May. Everybody invited to come.

Shall we keep up the spirit of boosting that was being agitated here last week at the Chautauqua? Yes, of course we shall. Well, get on the wagon for the Board of Trade.

William Callen, age 21, the invalid son of Mr. W. T. Callen died the first of the week and was buried in the Clanton cemetery.

Our discussions of the record of Mr. Williams and Mr. Robinson as Commissioners, is not purposed to drive them from the party, nor for any reason, other than to impress the people with the importance in this election of selecting men to manage our affairs, who will represent in deed and in truth the people as they want to be represented.

It is our argument that the above named gentlemen did not represent the people as they were elected to do, and we want to warn the voters now, to be careful of your interests, and know what you are voting for next time.

Public Speakings

Judge L. H. Reynolds, Prof. J. W. Moore and others will speak at the following times and places in the interest of

EVERYBODY IS INVITED ESPECIALLY THE LADIES

(Published by Prof. J. W. Moore and Judge L. H. Reynolds, Clanton, Ala.)

Cigarettes were born midst Virginia's sunshine!

AND cigarette tobacco to be good certainly needs the mellow sunshine of old Virginia.

Here's one reason why Virginia is known as "the tobacco man's tobacco": because Virginia gives to a cigarette the one thing no other tobacco *can* give—that noticeable liveliness called "*character*."

Sun-goldened, lively, mellow Virginia—that's Piedmonts! ALL Virginia!

No wonder Piedmonts *satisfy* smokers. No wonder Piedmonts give smokers that "*character*" they want—every whiff.

You ask for Piedmonts today and *see!*

Mr. R. A. Miller, an old Chilton citizen, who now lives out in New Mexico, was here for a few days the past week on a visit to relatives and interested in some business maters.

W. R. K. Stanford of Lawley, candidate for commiioner from the third district, was in Clanton a few days this week.

Subscribe for The Union-Banner. Don't depend on borrowing it from your neighbor every week. Only $1 a year for all the county news.

Dr. V. J. Gragg is in Clanton for a few days, having finished a special course at Tulane University, New Orleans. He is making preparations to open offices for practice in Birmingham by May 15.

J. A. Wilson of Maplesville was in Clanton Tuesday.

Mrs. John A. Pool of Thorsby was here Tuesday.

Miss Annie Werness of Thorsby was a visitor to Clanton Tuesday.

Miss Clara Soberg of Thorsby was in Clanton Monday.

M. C. Willinams of Billingsley was in Clanton Monday on business.

PARDON NOTICE

Notice is hereby given that the undersigned, convicted at the Spring Term, 1908, of the Circuit Court of Chilton County, for first degree murder and sentenced to life imprisonment, will make application to the Board of Pardons at the May Term, for pardon or parole.

LULA TILLERY

FOR SALE—Two 1915 Ford cars and one 1913 Ford. Will sell cheap. Apply at Maddox and Hurtt Garage.

MINERAL SPRINGS

Health of this community is very good at present.

Some of the folks are planting cotton seed this week.

Mr. Loyd Butler spent Saturday night with T. G. Robinson and wife.

Mr. D. P. Robinson and wife spent Friday night with S. J. Dupriest.

Misses Ada and Flossie Burnett, Nora and Mattie Mims of Collins Chapel were at the Springs Sunday.

Miss Bessie Robinson, Bessie Chandler and Mae Dorminy of Union Grove were at the Springs Sunday.

Some of the girls of this community are at the Chapel picking berries this week.

Mr. Ben Glass and family spent Sunday with Mrs. M. P. Robinson.

Mr. M. A. Killgore and wife were the guests of M. P. Robinson Sunday.

Mr. T. G. Robinson went to Lock 12 Monday on business.

The tomato club demonstrator, Mrs. Jones, was in this community last week.

W. D. Burnett of Billingsley was in Clanton Tuesday.

The office and demonstration rooms of Mrs. Lida Jones, the manager of the girls canning club work of Chilton county, wil in future be in the building just back of the court house which was formerly ocupied by The Union-Banner. The place is being renovated to suit the new usage.

Mr. and Mrs. E. W. Danforth are the proud parents of a fine new baby boy recently arrived at their home. His name is Julius Wesley.

Lawrence Francis Gerald, Jr., is the name of the three weeks old son of Mr. and Mrs. L. F. Gerald.

FOR SALE—Berkshire hogs, cheap; early speckled and yokohoma velvet beans and soy beans $2 a bu; white chinese beans 50 cents a gallon. Jesse A. Davis, Clanton, Ala.,

In conection with the office of Mrs. Jones in the old Union-Banner building, the Civic Improvement Club is preparing to maintain a rest room for ladies visiting Clanton.

W. H. Conway of Jemison was in Clanton Monday.

T. J. Hubbard of Jemisaon was a caller at our office Monday. Mr. Hubard has been a candidate for the nomination for Tax Assessor, but he has withdrawn from the race.

R. N. Wilkins of Billingsley was at our office on Monday morning.

J. Sterling Moran of Washington, D. C. was in Clanton Monday.

FOR SALE—Several cows with young calves. Will sell or trade for yearlings. W. D. Spigener, Clanton, Ala. adv. 4-27-2t.

On April 15, taken up at my place one small red mare mule, age about 12 years. Owner call at J. T. Atchison's, Maplesville, Ala., Route 1.

Kodak films and prints developed. For prices write Leonard Gentry, Clanton, Ala., R. F. D. 6.

Subscribe for The Union-Banner. One Dollar a year.

Colds

should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

THEDFORD'S

BLACK-DRAUGHT

the old reliable, vegetable liver powder.

Mr. Chas. A. Ragland, of Madison Heights, Va., says: "I have been using Thedford's Black-Draught for stomach troubles, indigestion, and colds, and find it to be the very best medicine I ever used. It makes an old man feel like a young one."

Insist on Thedford's, the original and genuine. E-67

MISS TOKSVIG HONORED.

Miss Ligne K. Toksvig, Carnell University, New York State, was awarded the Guilford esay prize by the University faculty last week. Her essay was a Danish theme, "Children of Lilith." The prize was $150 and is the highest literary prize given by the University. Miss Toksvig was born in Denmark. She came to this country in 1905 and her parents, Mr. and Mrs. P. K. Toksvig, are living at Thorsby.

"PLAY AT THORSBY"

"A Count of No Account" is the title of a play which will be staged by the Thorsby Dramatic Club, at Thorsby Institute, on Saturday evening, May 6th, at 8 o'clock.

It is a farce comedy in three acts which promises to be the hit of the season.

LEGAL NOTICE

Notice is hereby given that after the expiration of two weeks from this date application will be made to the Governor of Alabama to relieve I. O. Retherford, J. H. Williams and H. C. Cox from paying the forfeiture taken against them in the Circuit Court of Chilton County on the 23 day of May, 1914.

This April 26, 1916.

MIDDLETON & RELNOLDS,
Attorneys.

MILLINERY

Miss Minnie Muse

Has the pretties and cheapest line of millinery ever shown in Clanton, also ladies spring suits, shirt-waists, from 50 cents up. Childrens dresses 50 cents, also a new line of corsets; the best $1.00 corset ever shown in the town. Wash skirts, $1.00. Call and see her before you purchase elsewhere.

CLANTON, ALA.

SAM P. KENNEDY

PRESIDENT OF THE ALABAMA PUBLIC SERVICE COMMISSION.

(Formerly the Railroad Commission)

VOTE FOR HIM FOR RE-ELECTION AND ENDORSE EFFICIENCY.

Paid Political Adv., By Sam. P. Kennedy, Anniston.

MT. PLEASANT

Health of this community is very good at present.

Mrs. W. A. Dozier is visiting relatives in Coosa county this week.

D. P. Robinson and family spent Sunday with relatives near Mineral Springs.

J Wiley Foshee and family spent Sunday at Saginaw.

Rev. B. H. Vickers and wife were visitors at B. H. Duke's last Sunday.

A. J. Duncan and wife attended the singing at Poplar Springs Sunday.

Mackie Pierce and wife of Mulberry spent Saturday night with the former's parents, Mr. and Mrs. W. M. Pierce.

Mrs. Belle Baxley and chidlren are visiting relatives and friends at Talladega Springs.

A. J. Duncan and L. O. Vickers went to Thorsby Saturday afternoon to hear Pope Long preach.

Rev. W. H. Wilson will preach at this place next Sunday at 11o'clock.

A. D. Holley and family are visiting relatives in Coosa.

"ALL TANGLED UP"

A play entitled "All Tangled Up" will be staged at the high school auditorium Friday night, April 28.

A first class play together with good music.

Admission 15 and 25 cents. Proceeds will be used by the Domestic Science Department.

AN APPEAL

The third year of the Unity-Chilton Baptist High School closes next Tuesday night. The work of these two years, brethren, leaves your president in a hole over a thousand dollars. The work is the work ordered by the association. I have done the work as well as I could under the circumtances, trusting the brethren and the churches. I am now in need of some money. I owe obligations here, and have to move to a new field. They trusted me; I trusted the churches and brethren. This appeal, which is humilating to make, is made to see whether any of the churches or brethren realize that the obligation is theirs and that the honor of the association is at stake, to that extent that they are willing to bear the burden with me, or shall I and mine bear it alone? Due credit receipt will be sent for any amount on this salary.

Fraternally,

JOHN A. POOL.

FOR SALE—Improved early triumph sweet potato plants for delivery now. One to three thousand $1.20; three to ten thousand $1.10; ten thousand and up $1.00 per thousand. J. D. BRYNE, Bay Minette, Ala. adv 4- 28-4t.

CLANTON, ALABAMA

This, the 3 day of April, 1916.

E. B. DEASON,
Judge of Probate.

May 2

MINOOKA.

Dear Editor—Please allow me a word in regard to our ladies improvement society at Minooka.

We organized March 3rd with three members, and meet twice a month at Minooka school house. We have had some splendid good times together and have discussed some very important subjects such as planning and working a garden, raising poultry, the eradication of flies and mosquitoes.

We also have a crochet class taught by Mrs. Bertha Howard. The ladies of our community are getting interested in our work and we receive new members at each meeting. We now have thirty enrolled.

Next Saturday afternoon, April 22, the ladies improvement society will entertain the children at Minooka school house at an Easter egg hunt.

With best wishes to the Union-Banner.

MRS. CORA BROADHEAD.

MR LONG'S SPEECH.

Hon Pope M. Long, the Chairman of theRepublican State Convention, is a powerful thinker on the great questins that are prominent in the minds of our leaders of thought and action today. His treatment of the foreign policy of the Wilson administration in his speech at Thorsby last Saturday could not be surpassed in completeness and accuracy of estimation. He summed up the situation in a short form and made it greatly impressive to his hearers.

FOR SALE—Two 1915 Ford cars and one 1913 Ford. Will sell cheap. Apply at Maddox and Hurtt Garage.

CLANTON, ALA., APRIL 27, 1916

His Majesty the Hog--and His Country

Coburn Tells of His Real Greatness and What He Does For This Fair Land of Ours

BY F. D. COBURN

The pig is a quiet inoffensive Christian sort of animal, symbolic to a greater extent of the peaceful virtues for which our nation is so conspicuous than is the roving, piratical eagle. The snout inverting the soil is a symbol of peace and industry. The hog is a thirty animal, turning into good account everything that comes his way.

Without the hog, Chicago would be a prairie village, Kansas City a barren hill and Omaha a ferry crossing. If the sow were taken away, the banks would close and the wheels of commerce cease t oturn. Hog pay the taxes, clothe the family, send the children to school and make possible the development of new homes. They have provided the food for the Anglo-Saxon race. The pig puts ten bushels of corn in a space of less than a bushel measure, and in so doing, quadruples the value of the grain. In him we have an automatic combined machine for reducing the bulk in corn and enhancing its value.

The hog is a condenser; he is a manufacturer of hams hash and headcheese, lard, illuminating oils, hair and tooth brushes, liver pudding, glue buttons, bacon, bristles, bologna, fertilizers, fats knife handles, whistles soaps, saddle covers and sausage.

Resembles Man.

The longer I live the more firmly I am convinced that in many respects the pig and man are more nearly alike than any other two animals. Like man, for instance, the lovelier attributes of the pig, likewise his cheerful obedience, cannot be developed in any way as well as through the stomach. Treat him like a gentleman and he thrives. If he thrieves, it is in his power to make generous contributions to your own thrift. Abuse, coluness, indifference and attempts to drive will not deprive his better nature of its most agreeable aspects. The hog should be fed as carefully as men feed themselves. The popular idea that disabled queensware, broken bottles, empty cans and tin covers are appreciated or profitable diet for swine is a fallacious idea.

Dishwasher Diet.

In many parts of our country a great injustice to the hog is done by imprisoning him in a pen devoid of vegetation, putting a ring in his nose and confining him to a corn diet. His stomach rebels and the ring brings him no joy. On the corn he can have as many courses as he likes, but every one is corn, corn, corn, corn for vegetables, corn for meat, corn for dessert; corn all the time and every time. On some farms however he is allowed the luxury of the dishwasher.

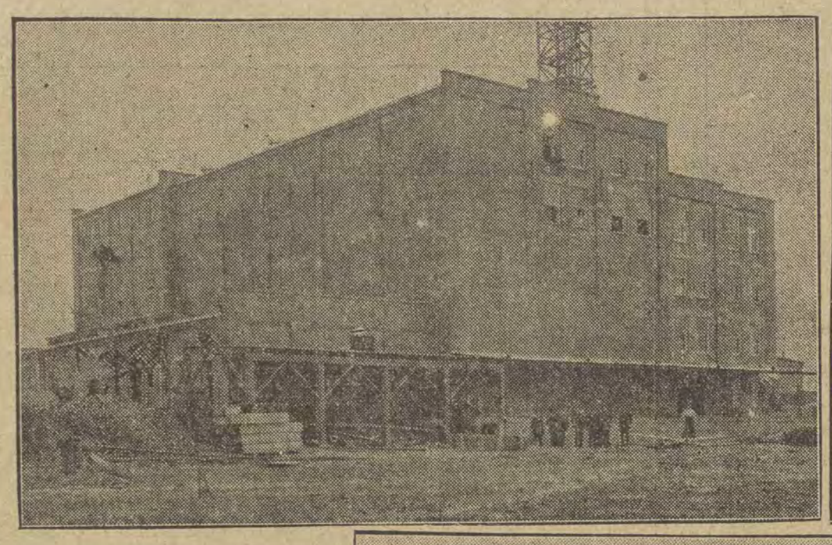
Important, Alive or Dead.

Notwithstanding his enviable place in importance as a living animal it is when he is dead that he attains to the high noon of his power, for it is then that we see him the dictator of commerce, the umpire of exchange and the arbiter of fortunes. Money kinds tremble at his coming and weep at his going, while fluctuations in the values of his products shake the centers of the monetary world. The United States is the msot logical place in the world to raise high class hogs. In no other country are the conditions of climate, soil and food more congenial to the hog's health and wholesome development, and the hog is nowhere found so developed except among a high order of people, such as Americans. High-class swine are unknown and impossible among low-class people.

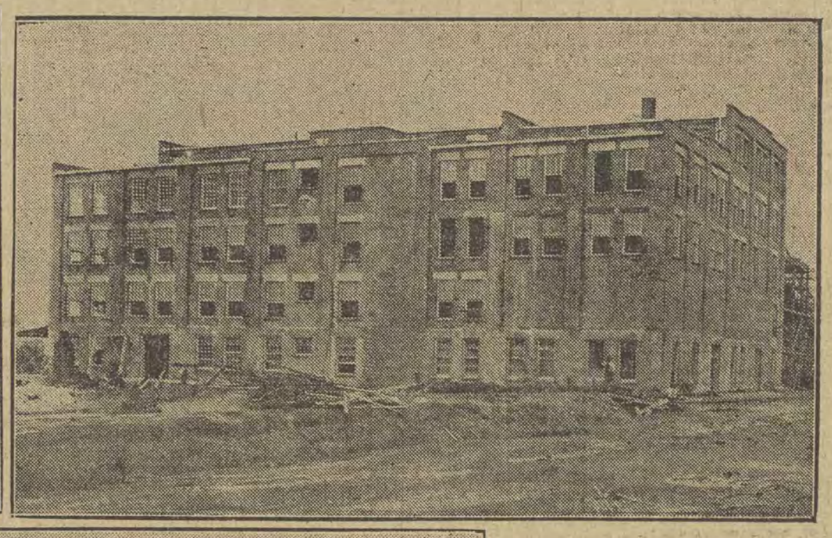
Vegetarians Meet Defeat.

Vegetarians have ever been defeated by meat-eating people in the world's history. The Boths that over ran Spain, the Mohammedans that conquered the vegetarian Buddists of India, the Normans that made their names feared all the way from England to Greece, were meat-fed men, and now the descendants of these latter control an area sixty times greater than their own island. It is upon his backbracing bacon that the battling millions of the Old World are sustained at this hour.

Love American Bacon.



How much more our kin beyond the seas yearn with an unappeasable yearning for our pigs' product than they do for gold is indicated in a measure by the quantities of it they have bought in a year. We are told from time to time by the wise ones that our bacon is too fat; yet about 339,000,000 has come here in a single recent 12-month for 500,000,000 pounds of American bacon. Some who would pose as epicures and still others as scientists or censors, declare our pig's anatomy infested with trichina and other disagreeable, unwholesome and pestiferous parasites, microbes, and worms, but in spite of these defects 210,000,000 pounds of American hams were called for from abroad in 365 days and for these rump ends, nearly $26,000,000 were paid over the counter. We sold foreign buyers in a year 741,000,000 pounds of straight lard for the trifle of $60,000,000. Along with the foregoing they took 166,000,000 pounds of pork in pickle, worth over $15,000,000 besides some that was fresh and some alive, with more or less lard-oil making for the year a total in value about $132,000,000.



Ahead of All Others.

The cattle and cattle products we export amount to a good deal and we hear much of them but as a matter of fact alongside of each dollars' worth of these that we have been selling abroad, we have sold about $1.63 worth of what the pig produced.

This total was about 62 per cent. more than the combined values of all the cattle, horses, mules, feathers oleo cheese, eggs butter, hair vinegar, horn combs, whiskey, glue, root beer fowls, peanuts, sugar beets, mutton and sheep sold to foreigners within the same period.

Boll Weevil Brings New Packing Plant in South

How It Was Built And Who Built It

Take off your hat to Andalusia and the Andalusia territory.

While others have talked Andalusia has acted.

The Andalusia spirit is the spirit of "do and talk afterwards."

What has the Andalusia spirit done? Why, it has built at Andalusia, Alabama, the most modern packing plant in the entire South and what is probably the most modern packing plant in the entire United States.

You open your eyes as if to doubt. But the proof is there—no packing plant in America is more modern than the one that Andalusia has built for the livestock raisers of the Central South.

None is more compact, none was more carefully built, none provided more carefully for using everything in a hog "except the squeal."

÷ ÷

Today the Andalusia Packing Plant stands completed and ready to open. Its opening will be the most significant event that has taken place in recent years in this part of the South. It will mark the period of new endeavor in the Central South—the beginning of a real livestock industry and diversified farming. It will defeat the boll weevil in all that territory that uses the Packing Plant. It means a remarkable increase in the production of hogs and sheep and cattle, the building of hundreds of miles of fence, the clearing of many thousands of acres of land, the building of barns and sheds, the erection of new homes, the seeding down of many acres to permanent pasturage, the building up of the soil, the making of new bank accounts, and the bringing into the Andalusia territory of many hundreds of farmers from other sections.

÷ ÷

All of these things have not come yet—but they are on the way and the Andalusia Packing Plant will hasten their coming. It has put a new spirit into the people of the entire territory. It has taken out of their minds the fear of the boll weevil, for hogs raised by the small farmer are a more profitable crop than cotton. Land that was in stumps is being cleared up and put into pasture. Land that had been planted to cotton is being put into corn and pasture. Land that cannot be fertilized with commercial fertilizer on account of its present price will be built up through Nature's way—livestock.

The people are optimistic and hopeful. They feel that now their efforts in livestock raising will count in dollars and cents—that hogs, cattle, sheep and poultry will be "cash crops" just as cotton used to be a "cash crop" before the boll weevil struck it.

÷ ÷

And so the Andalusia Packing Plant has brought a new belief and new endeavors into the whole Andalusia territory. But how did it come about? This part of the story is interesting and it throws a light on the situation that should enable other sections of the South to see their problem in a clearer light.

When the boll weevil struck the Andalusia territory cotton production went all to smash. The production in Covington county, in which Andalusia is situated, was cut down to a fifth of normal. Such a blow as this went right to the vitals of business in that whole territory.

"What must we do to be saved?" was the question that the farmers and the business men asked themselves and each other.

This was the question that other sections asked also.

It was a vital question and had to be answered quick.

÷ ÷

The people of the Andalusia territory got together to answer it. The business men, like the business men of every other place, were dependent on the success of the farmers. Of course business men in all places have not recognized the truth of this as keenly as did the business men of the Andalusia section. But it is a fact that must be recognized in full sooner or later everywhere, no matter how large or how small the community.

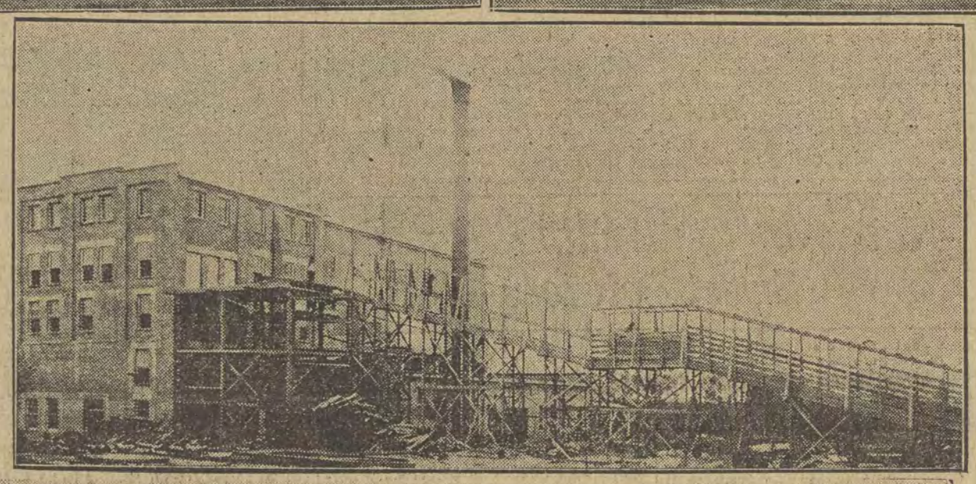
The people got together and surveyed the situation. The boll weevil had come and he had come to take permanent lodging. Corn could be raised; it was the natural section for velvet beans and soy beans. And yet these crops, as good as they are, were of doubtful value alone on account of doubtful markets and on account of soy beans and velvet beans being new crops.

The solution to the problem, it was decided, must be found in corn and forage crops fed to hogs, and later to cattle and sheep as the livestock industry developed. Hogs are a big money crop anywhere. Hogs mature quick and enable the farmer to turn over his capital quick.

÷ ÷

Hogs and a packing plant in which to market the hogs were the solution to the situation that confronted the Andalusia section. There was no doubt that the farmers would produce all the hogs possible if an immediate home market were given them.

One afternoon the leading spirits go together at Andalusia and then and there decided that they would build a packing plant. Packing plants had been talked of elsewhere and the pessimists had arisen and, with their eyes on the past instead of the future wailed "Packing plants always fail in the South." One of our agricultural publications printed the same wail, not realizing that conditions had changed wonderfully all over the South in the last five years.



But the Andalusia folks paid no attention to this sort of talk. One afternoon, as we have said, they met and decided to build a packing plant and make it the most modern packing plant that could be built.

÷ ÷

Today the packing plant is ready to do business. It represents an expenditure of $125,000 and it is paid for. Furthermore arrangements have been made for capital to run it.

It stands just on the edge of Andalusia, a brick and concrete representation of the new era in the Central South—the era of livestock and getting away from the one crop system No more modern packing plant stands anywhere. Here hogs, cattle and sheep can be handled just as efficiently as in any of the largest packing plants in the country.

When the hog is killed at the top of the "run," he descends down the four floors "by gravity," aided by the most modern machinery, and when he goes into the pickling barrel all of him has been accounted for—the meat, the hide and hair, the bones, etc., and even the grease that exudes in transit from the top of the "run" to the pork barrels and the ham curing apartments below. As in the great packing plants at the Union Stock Yards at Chicago, all of the by-products will be utilized.

Views of the Andalusia Packing Plant—and the men who made it.
From left to right these men are: D. A. McArtan, J. L. Knox, M. Milligam, O. L. Benson, T. G. Conner, A. C. Darling, S. B. Milligan, T. E. Henderson

As they say there, "They use everything but the squeal."

÷ ÷

We might go into detail about the conveyors that carry the hog along under the quick hands of an experienced cutter; the chilling, scalding and cleaning, the cutting up of the carcass, the compact arrangement for getting the meat into the curing process and the utilization of the by-products. But details do not give a good idea of the compactness and efficiency of a modern packing plant. And no matter how many times you go through one, there is always something interesting to learn about and wonder at. The writer visited the Andalusia Packing Plant with a hog man from Chicago to whom the vast Union Stock Yards are a familiar sight. The Chicago man was deeply interested and declared that he had neither seen nor heard about a more modern plant in the entire country.

÷ ÷

The Andalusia plant is complete and its facilities for handling the stock in the pens are complete. There will be no lost motion in handling the stock either outside or inside the plant. The arrangement of the whole is for the quickest and most efficient handling of the capacity of the plant which is between forty and fifty cattle and about five hundred hogs per day.

÷ ÷

The plant was designed by C. L. Brooks, secretary of the Moultrie Packing Plant at Moultrie, Georgia, which has been a success despite blue predictions of well meaning but misguided folks. The builder of the plant is R. V. Labarre, of Birmingham. T. G. Connor is its manager, and the very best superintendent that can be found will be on the job when the wheels start.

The president of the Andalusia Packing Company is T. E. Henderson, one of Aldalusia's ablest and most successful business men. The two vice-presidents are S. B. Milligan of Andalusia and J. J. Johnson of Geneva. A. C. Darling, the long-headed head of a big wholesale grocery house is assistant secretary. The board of directors is composed of T. E. Henderson, S. B. Milligan, J. J. Johnson, A. C. Darling, O. L. Benson, J. L. Knox, C. S. O'Neal, Dr. T. Q. Ray, D. A. McArtan, R. G. Wood, D. R. Gantt, D. H. Morris, Jr., A. S. Douglas, W. S. Harlan, E. L. Moore and Dr. S. W. May. There are a number of stockholders among the business men and farmers and everybody in the entire Andalusia territory is working for the success of the packing house.

The directors are not looking forward to immediatee profits. They say that if the plants runs for two seasons without showing a direct profit they will feel that it has done well. The profit everybody is looking for is a great stimulus in hogs, sheep and cattle and cattle raising and diversified farming, the coming in of new people, the clearing up of the land, the putting of money into the pockets of the farmer. The people of the territory know full well that if their farmers prosper everybody will be just that much better off. Immeriate profits from the packing plant were not considered in the plans. More live stock and more grain and forage crops and more cash in the community is what the packing plant is expected to bring and what it will bring, of course.

÷ ÷

Already there has been a remarkable increase in hog production. Many of the farmers have bought pure-bred hogs with which to make a good start. The aim of the packing plant directors is to have every farmer market to the plant at least five hogs every month. They are urging the people to have at least five every month and not to market all the hogs in the spring and fall. Five or six good brood sows on each farm will make this easily possible if the fair per centage of the first litters are raised and bred.

There is no limit set on the territory from which the Andalusia Packing Company will draw. Farmers a hundred or a hundred and fifty miles away are asked to follow this plan of having five hogs each month to market to the packing plant.

The plant is everything that a packing plant should be. The big, progressive business men and farmers who have built it have the capital to run it. In fact, it is Alabama's foremost achievements since the diversification campaign in 1915 and it deserves the support—by stock shipments—of farmers over a wide territory.

We will go still further and say that it deserves the support of meat buyers. Why send money west for meats when they will be produced at home? Money spent for home meat will be kept at home for circulation among home people. Thus a packing plant like the one at Andalusia not only offers a market for livestock to the farmers, but gives the meat buyer an opportunity to spend his money where he has a chance of seeing some of it again in the course of business. Money that goes West for meat, mixed feeds, butter and eggs is gone for good. Of course, we do not begrudge the Central West its money, but we need a little more of it ourselves. The way for us to spend our money in the Central West is for pure bred live stock. What we buy on the hoof in the Central West will return us profit. But what we buy in salt and brine is a losing investment in life necessities.

Horses To Be Scarce For Years

(From The London Times)

The wastage of the war will mean a scarcity of horses for years to come. The deficiency will not be confined to this country nor to the belligerent nations, but will be general in all horse-breeding and horse-using countries. Even were it to end at once, the war would already have decimated the studs of the world, for the neutral, as well as the combatant territories, have been drained to an extent unparalleled sinse the breeding of horses became an organized industry. This aspect of the war has a direct and double bearing upon farming. It has already reduced the supply of animals of all types below normal requirements, and further reductions are threatened, and undoubtedly will occur, if hostilities be prolonged.

Farming, perhaps, feels the lack of horses more acutely than any other industry, now that motor vehicles have acquired the ascendancy on the streets and roads, but the farmer has left to him the comforting knowledge that he alone can restore the supply to the normal level. No one can deprive him of the advantages of a market, the requirements of which will be insufficiently supplied for some years to come. The existing dearth of horses will no doubt give an impetus to the process of substituting motor for horse power, but when full allowance is made for the diminished needs of the future, there remains a bright prospect for the man who breeds a class of animal serviceable either for draught or saddle purposes.

The farmer was never presented with a better opportunity for turning the mares in his working teams to good account, alike to himself and the nation. Every mare of a suitable type should be put to the stud this year, and there is evidence of such an intention in the high prices that were paid for working mares at the Islington and other sales in the early spring. Horse-breeding brings a slow return to those who rear the young stock to maturity but it is not necessarily exacting either in capital or in labor.

Apart from the service fee—and if the owner of the mare be a member of a local horse-breeding society this need not be high even for a stallion of proved merit—there is little outlay until the foal is weaned. The mare can continue to do her allotted share of work on the land except that it would be wise not to overtax her energies particularly in carting operations in the spring, while a little indulgence in food and leisure when she is nursing her offspring would also be prudent. Although the breeder who does not possess facilities for the rearing of young stock might have to sacrifice a porton of the profit accruing from his enterprise, he need not be deterred on this account from breeding as many foals as posible. There is always an appreciative market for young stock of good breeding and promise from the time of weaning onwards, and in the next few years the demand will probably be greater than ever.

There might be some hesitation in advocating the breding of horses on an extended scale if it were conducted as a separate enterprise, but managed as an adjunct to other pursuits, as it usually is it offers exceedingly liberal prospects for those who produce a useful type of animal As far as the market is concerned it seems to matter little whether the farmer breeds for the collar or the saddle. The supply of riding horses has been the more severely depleted, and a rich reward will await the man who can help in replenishing the saddle horse, but the outlook is bright for draught animals also, and the farmer may consider himself fortunate who includes in his working teams a class of mare which, when suitable mated will be capable of breeding a type of foal for which the market will be impatient long before it has attained maturity.

Be on Guard Now;--Is Duty of Every Man

Epidemic of Cholera Now Would Ruin Wonderful Opportunity That Has Come to South

The South can thank its lucky stars that it never got the foot-and-mouth disease that devasttated so many herds in the Central West.

If the foot-and-mouth disease had got into the South it would have ruined the livestock industry and it would have ruined it beyond recovery for many, many years.

But now, while we have been so fortunate as to escape, we should use every precaution against any trouble among our stock. Any serious trouble at this time would give our rapidly growing livestock industry a blow that might stagger it.

Not that there is much danger from the foot-and-mouth disease. The government reports that it has been stamped out of the Central West and that now no section is under quarantine on account of it. Should a case happen to break out now and then it is reasonable to presume that the government would instantly put that section under quarantine and slaughter the anected herd or herds.

What we must watch out for now is cholera in our hogs and blackleg in our cattle. Watchfulness and care will prevent any trouble this spring and summer and this fall we will have begun to reap some of the profits from our livestock and to realize that we we can become a truly great livestock people.

Some years ago they tell us, there was a considerable boom for the Berkshires in this territory. The Berkshires became well established and there were large numbers of small herds beginning to develop. Then along came cholera, many of the herds were wiped out, and that gave the Berkshires a set-back from which they have not fully recovered unto this day.

Of course in those times we were not in shape to prevent and check cholera as we are today. Then we had received but little education and training in sanitation. Today we know better how to prevent cholera and how to check it if it does get into a community. But let us now take extra precautions for we cannot afford to have cholera doing much damage.

Now is the time to begin looking to the pens and old wallows. Clean out and disenfect the pens. See to it that the hogs do not breath in a lot of dust Nothing is worse for a hog than the breathing of dust. Dirt and dust hold cholera germs. Look to the wallow Clean out old wallows, for in them cholera germs often lurk. See that the hogs have clean water. Pure water is not hard to get in this country and the first essential in the successful raising of any kind of stock is plenty of pure water.

Take these precautions and others that common sense demands. Some folks think that just because a hog is a hog he should be treated as a hog. That is a wrong idea. The hog demands sanitary quarters, sanitary food and pure water just as much as any other animal—more than some. As he is liable to disease, so extra care should be taken to prevent him from getting disease.

A hog will thrive under sanitary conditions and good feeding and then again he will be just as filthy as you allow him to be. It is the duty to every farmer and every breeder to give the hog a square deal and to provide him with clean, disenfected pens, pasture that is free from much dust and then plenty of pure, running water.

Now of all times we should watch our herds. Let's get through this summer without any serious outbreaks of cholera and the hog business is firmly established. If cholera gets into a community let us get a veterinarian at once, kill and burn the cholera hogs, and vaccinate the whole herd, either giving the single or double treatment as the veterinarian thinks best.

Let's take all precautions and act at once if cholera strikes. Quick action in event of cholera will likely save ninety per cent of the herd and a loss of ten per cent will not seriously hurt the owner.

Precaution—sanitation—that comes first. Then it is quick action in case cholera strikes.

We cannot be too careful. Let every farmer who has hogs be on the watch Let him keep watch for his neighbor too. In such cases one man is certainly "His brother's keeper." If cholera gets on a neighboring farm and the owner delays, go to him and impress it upon him that he owes it to the community to get a veterinarian and serum and as quick as possible.

Public sentiment for sanitation and public sentiment for quick action in case of cholera is what will help us to prosper in the industry. The same public sentiment is needed to prevent blackleg in cattle.

We have started strong. With the present prices of hogs, and with these high prices likely to continue for some time, we have a splendid opportunity to make big profits with hogs But we must take every precaution We simply cannot afford at this time to have any outbreaks. It would be the killing the goose just before she is going to lay the golden egg.

Good people, take this to heart. Talk to your neighbor about it. It means a great deal to us this summer—more than it has ever meant before—to prevent blackleg and cholera. In this prevention lies our salavation as a livestock country—and many thousands of dollars in profits besides.

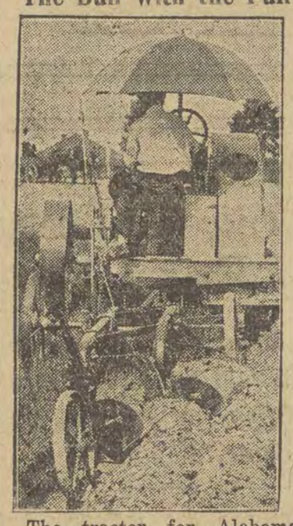
Let's carry through our stock in good shape and "get the money." Now, if ever, is our golden opportunity to realize from livestock. Shall we let carelessness rob us of this opportunity?

Henry County Going In Strong For Cattle and Hogs

Henry county is getting ready to make a hard fight on the boll weevil. The farmers realize that hereafter they cannot rely altogether on cotton as a money crop. Nearly every field of corn is planted in velvet beans for cattle and hogs. The early speckled is the kind generally used. More than four thousand acres of Spanish peanuts have been planted for the oil mill.

Robert Newman, W. T. Dawkins, M. V. Capps and M. Sachar have already bought the machinery for a peanut oil mill. The mill will have two expellers and will be run by a one hundred horse power crude oil engine.

The construction of suitable buildings will start in a few days. There is no question but what the men behind this mill will make it a success. Mr. Newman, who is one of the leading bankers of this section, says that there is more money in peanuts than there is in twelve cent cotton without boll weevil conditions, and under boll weevil conditions there is no comparison. Conservative farmers estimate that forty bushels of peanuts and one ton of hay can be grown per acre in this section. The peanuts can be grown with less expense than cotton, because they do not require as much fertilizer and hoeing. The two cotton seed oil mills at Headland will also be prepared to crush peanuts and a large acreage will also be planted there.



The farmers of the county are preparing better pastures and are growing more hogs and cattle than ever before. The eradication of the cattle tick will be completed this season and this has given a new impetus to the cattle industry. The Henry County Livestock Association was organized about two months ago with more than sixty members. Walter Oates, of Headland, and W. F. Murphy, of Abbeville, are president and secretary respectively. Already there are about fifteen Shorthorn, Angus and Hereford bulls in the county and more will be purchased. Walter Oates, of Headland, has a splendid herd of Shorthorn cattle, while McRae Brothers, of Shorterville, have an excellent herd of Angus cattle. Every animal in both herds is of the best breeding and registered.

Henry county has more hogs than ever before. Many farmers have registered boars, and some have also pure bred sows. Y. R. Wood, Stokes Bros., S. B. Wood, H. C. Holmes and John Knowles and the Southeast Alabama Experiment Station have Duroc-Jerseys of the most approved blood lines, while Walter Oates has splendid Hampshires and Will Barnes' excellent Poland Chinas. The cotton acreage has been materially reduced and the use of fertilizer has been restricted. The farmers are practically through planting cotton and are using early varieties to combat the boll weevil.

Henry county is going to win her fight against Billy Boll Weevil.

Community Honors Pioneer Farmer and His Wife

MR. AND MRS. DONALDSON.

There was quite a celebration at Curtis, Alabama, not many days ago, when the entire community and folks from other communities paid honor to one of the Central South's most stalwart farmers, "Uncle Dock" Donaldson.

Mr. Donaldson was the founder and promoter of Curtis and the occasion of the celebration was his sixty-third birthday. The photograph produced herewith is one of Mr. and Mrs. Donaldson—real people doing a real work and making the world a little bit better and solider.

Here at Curtis, Alabama, Mr. Donaldson has his own gin and saw mill and here he raises much cotton and many head of cattle and hogs. He has 200 head of hogs in his herd and half that many cattle and still today his surplus of corn is about 5,000 bushels.

Mr. Donaldson is very popular in Coffee county and Covington counties, where he has spent the most of his life, and the large gathering of friends that laid aside work to go out and celebrate his birthday bespeak his popularity. Besides the immediate neighbors there was a large crowd from both Elba and Opp, friends and relatives that met at the old home to help celebrate this occasion. Dinner was spread on tables under some large shade oaks in the yard, and just preceding dinner Rev. D. P. Lee, pastor of the Opp-Elba churches, made a very appropriate talk on the subject of celebrating birth anniversaries.

An event like this shows that many of our people do honor to a man who improves his community through soil building and business building; and it shows that at heart our people like the simple social pleasures where there is genuine friendship and genuine words of encouragement.

Means of Controlling Rot In Sweet Potatoes

The control of diseases in the field and in the storage bins will enable sweet potatoe growers to extend the marketing season and to dispose of a greater portion of their crop at the higher prices which prevail in the winter. At present many growers, especially the smaller ones, sell their entire crop at digging time when prices are low, while those who store their potatoes lost heavily from the various storage rots.

Farmers' Bulletin No. 714, a new publication of the United States Department of Agriculture, offers suggestions for the improvement of this situation by protecting the stock from disease, both in the field and in the storage bin. Five field diseases—stem rot, black rot, foot rot, scurf and root rot—are described and directions for their control given. They are caused by fungi which invade the plants and their roots and infest not only the plants but the soil, itself and may be carried to new areas and plants by insects, farm animals, infected implements, drain water, wind, or diseased roots or tubers. The fungi are also often spread in banure used as fertilizer.

Seed Selection.

The means of securing healthy crops, therefore, must be the exclusion of the germs from the fields and from the seed and fertilizer used in the growing of the potatoes. The methods used in the prevention of these disases include the treatment of the seed, the hotbed and the field.

The seed potatoes must be carefully selected the year before at digging time from hills which are known to contain healthy plants. This may be determined by splitting the stem of the plants and examining the interior for indications of rot. The seed potatoes themselves should be examined again before planting for evidences of disease. Where slip seeding is used, equal care must be taken that the cuttings are made from disease-free plants.

Disinfection of Seed.

The seed potatoes should be disinfected just before bedding by immersing them for five or ten minutes in a solution made by dissolving one ounce of corrosive sublimate in eight gallons of water. This destroys any spores which may adhere to the seeds. Following this treatment the potatoes should be rinsed in warm water and dried in the sun.

The hotbed is often the source of infection. Thorough disinfection, every year should be practiced. The framework and the ground around it must be thoroughly soaked with a solution of formaldehyde or copper sulphate. Where formaldehyde is used, it should be used in the proportion of one pint of formalin to thirty gallons of water. With copper sulphate, one pound should be used with twenty-five gallons of water. The operation should be repeated after twenty-four hours. The soil for the hotbed, preferably sand, must be taken from some place where potatoes have never been grown; if possible, from some high place in the woods, removing the upper six inches of soil and using only the subsoil. Care should be taken to see that infection is not carried in the wagons, implements and tools used. Where stable manure is used on the hotbed, it should not be from animals that have had access to decayed or diseased potatoes. Such potatoes, if fed at all, should be thoroughly cooked first.

The disinfection of seeds and hotbeds may prove ineffective if precautions are not taken against infection in the field. Sweet potatoes should be grown in new ground, or ground which has not produced tubers for several years. This can be accomplished by adopting a suitable crop rotation. Most of the sweet-potato diseases do not affect other crops.

New Colony To Be Formed In Florida

By Haviland H. Lund, Secretary of the Forward-To-The-Land League

To the immigrant woman, probably widowed by the war, who arrives in this country with only the vaguest idea of how she is to obtain a livelihood, the Forward-to-the-Land League will offer a definite solution for her problems.

The Florida Colony.

The average European immigrant woman knows farming. What better suggestion could be made to her than that she take a holding in a Forward-to-the-Land League colony and immediately start to capitalize her knowledge? We have already started one colony in Florida. The Apalachicola Northern Land Company, which controls approximately 200,000 acres of land along the Apalachicola Northern Railway line in Liberty county, Florida, has presented its land for holdings and solicited the cooperation of our league in disposing of them.

The Social Spirit.

I do not believe in individual pioneers, but I do believe in colony pioneers. There is no use in giving some land at a moderate price, which they can minipulate, and say "Here is your chance, for which you should be very grateful."

They won't stay. They won't do it. The social spirit inherent is stronger than the moral sense applied. You must send out other people with them, interested in the same thing, so that the power of mutual interests is there to bind them together and hold them. You've got to provide the social life, on the other side, to meet them when their working hours close. You've got to give them the church life, the community existence—everything they are likely to miss from the city.

For example, Mr. A. Roberts of the Y. M. C. A. has agreed to send a rural secretary to the new colony to take charge of the social and recreational life. Dr. P. P. Claxton, United States Commissioner of Education, promises to send a man from Washington to organize the modern rural school. Dr. L. S. Cofer, chief of the division of foreign and insular quarantine and immigration, United States public health and marine hospital service, Washington, D. C., is going to send down to Florida an expert on sanitation to inspect the colony.

The Equipment.

The prices for forty-acre farms are graded from $1,750 to $1,500. The farms are equipped and improved. Fencing is provided for each tract and buildings—that is, one three-room house, a barn, outhouse and well. The equipment is to consist of one horse, mare or mule, one cow, a wagon, a set of harness and a plough and harrow. That's not so bad to commence with, do you think? Any one taking title to a farm should have from $500 to $1,500 cash. It is our intention to apply the profits derived from the property to carrying buyers who have a smaller sum of money than $500, in order that the latter class may get financially started and soon be in a position to purchase their farms."

Safe Investment.

If church and welfare organizations, as well as individuals, desirous of helping people to help themselves would give them a financial start by loaning the first payment, they would be investing in a safe philanthropy. Also they could be assured of the safe investment of their money. If the person or persons, for whom they had made the effort, failed to "make good" the contract provides that the number of acres paid for may be sold and the invested capital thus restored. That should make the experiment a safe venture for an individual putting in his money on his own account or on behalf of another. Particular attention is going to be paid, in all the colonies, to those forms of agriculture suitable to women. They will be stimulated to raise the things that their housewifely knowledge will turn into finished products. I know of a farm where the owners raised only things suitable for pickling. When the growing time was over the man and his wife turned their attention to pickling. Specializing in this way they achieved a highly profitable success.

For Children.

Gardening and chores are first-class work for children, and therein is solved the problem of the widow who is thinking about a livelihood and the accompanying desperate need to keep her children with her. Provision in our plans has also been made for the bachelor woman or lone mother who does not want to live on the land she tills. There is to be a big club house fitted up with small apartments on the upper floor. Here they can do cooperative or individual housekeeping as they like. The ground floor is to be provided with an auditorium, a men's clubroom, a swimming pool, gymnasium, tea garden and playground, nursery and playroom, a lodge room, kindergarten, cafeteria, boys' club, fire department, lockers and a library. The mothers can combine forces in the hiring of an expert to take charge of their children while they are at work. One mother farmer cannot afford a nurse; but twenty can.

The School.

The modern rural school at Yuma, Ariz., is the type chosen for our school. It is built around an open patio, which makes the entrance of light possible on both sides of the rooms. Don't let me convey the impression that this scheme is available exclusively to women. The man needs the opportunity as much as the woman. I do feel, however, that it offers a peculiar chance for the immigrant woman whose knowledge of the soil is innate. And why not offer them something, as they are casting about for an opening that will afford a definite plan of campaign and is financially as safe as anything can be?

A woman came to me one day and asked, "How much do I need to start a little farm with you I had $1,500 saved up, and a man he got me to put it into the bank and the bank failed, and now I have no money."

That's the way it goes. These poor creatures come over here, they are credulous, somebody gets them to put their money in the bank and then the bank goes and fails on purpose and their money is gone!

I want to repeat that any person or organization working on behalf of the immigrant coming to the Land of Opportunity after the war cannot do better than to loan them a little money to start fair on the land which they understand. Then the efforts expended in showing them the way to a livelihood and the saving of their earnings will not be lost in exploded banks and land shark schemes.

THE TWO URCHINS.

Representative Gardner in an address in Providence on preparedness, said:

Before the looming danger of invasion the pacifist and the preparedness chap are, respectively, like Willie and Johnny.

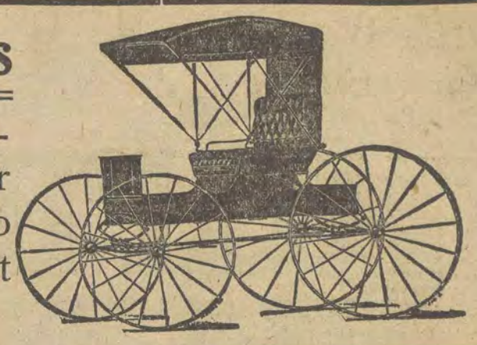
"Willie and Johnny had been very naughty and were sent to bed by their mother. As they lay side by side footsteps were heard—it was now evening—and the two culprits realized that their father was mounting the stairs. They turned pale.

"'I'm goin' to fold my hands as if I'd been prayin' said Pacifist Willie, 'and then I'll pretend to be asleep when he comes in.

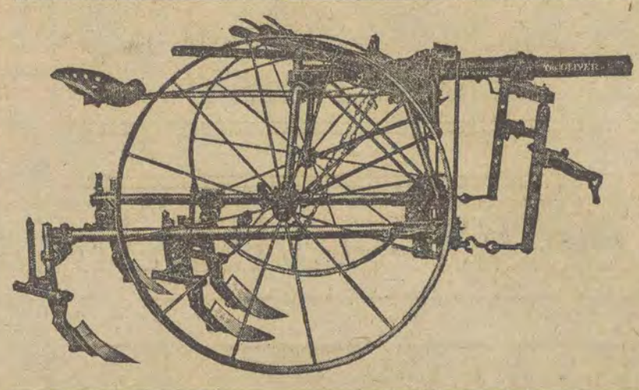
"But Preparedness Johnny was already bustling swiftly about the room. "'I'm goin' to put no my pants" he said, 'and line 'em with a newspaper.'

AND THEN SHE BLUSHED

A party of strangers were visiting at the college. It was in the late fall and the air was crisp and cold. One of the members of the party, a charming young woman, was escorted through the grounds by a learned but very much preoccupied professor. Suddenly two members of the track team accountred for their sport, passed them.



"Its dreadfully cold," remarked the young woman, with a dainty shiver, as she gazed after the runners, "to be without stockings."



The professors mind, deep in contemplation of the fourth dimension, was attracted by the sound of the girl's voice.

"They why," he asked absently, "did you leave them off?"

Cattle Wanted in "Free" Areas But Can't Be Had

A cry has gone up from the tick-free territory for grazing cattle—calves, heifers, young stuff, to put on the pastures this spring and summer for the market this fall.

It is a profitable business, for pastures are cheap in this neck of the woods and a little corn along with the pasturage does wonders in the way of profits on young stuff in the course of a few months.

The demand for feeders in the tick-free territory is insistent, but the trouble is that the supply can't get to the demand. In tick infested areas there are numerous hundreds of "knot-heads" and other cattle beating about through the pines rustling for a living. But the regulations prevent these cattle from being shipped into tick-free areas unless they are dipped under inspection in the infected areas before shipment.

Unfortunately tick-eradication has been slow work in some of these sections that produce large numbers of scrub cattle. There are but few vats and so the cattle cannot be cleaned and then sent into tick-free territory for a re-dipping before being put on pastures.

The situation is hard on the buyers in the tick-free areas and equally hard on those who would sell in the tick infested areas. It is pocketbook evidence of the necessity of carrying on a harder fight on the tick and getting rid of ticks once and for all

Mississippi has decided to end the whole thing at one time and has passed a State-wide tick-eradication act Let Alabama and Georgia wake up to the necessity of doing the same thing No reason why contented tick infested territory should be a drawback to itself and to more progressive areas that are tick free.

Get Rid of Lice on Hogs By These Tested Methods

The farmer should frequently examine his hogs about the ears, flanks and inside of the legs to see if they are lousy.

Lice are common pests among swine and vigorous and persistent treatment is required to eradicate them. They may be readily seen traveling among the bristles, particularly in the parts just mentioned. The eggs, or "nits" are small white oval bodies, attached to the bristles. Dipping does not as a rule destroy the vitality of these eggs. Swine should be dipped frequently in order to kill the lice that hatch out of the eggs after the previous dipping. These lice are blood-sucking parasites and by biting the hog and sucking the blood they cause a great deal of skin irritation. Furthermore, they act as a drain on the vitality of the hog, through the loss of blood which they abstract. When lousy the hog is usually restless and rubs on posts and other convenient objects. The coat looks rough and harsh. This pest is transmitted from one animal to another by direct contact, or by contact with infected bedding or quarters.

Dipping Swine.

To free hogs from lice they should be dipped two or more times at intervals of about two weeks. Several dippings may be required before complete eradication is accomplished. Do not fail at the same time to clean and disinfect thoroughly the sleeping quarters.

Coal-Tar roPducts.

Coal-tar products of the kind ordinarily sold as stock dips are commonly used to treat hogs for lice. For use they are diluted with water in accordance with directions supplied by the manufacturers.

Dipping Vats.

Dipping vats are made of various materials, but the most durable is cement. The vat should be set in the ground at a convenient place where there is good surface drainage away from the vat. A suitable size for a vat in which to dip hogs is 10 feet long at the top, 8 feet long at the bottom, 1 foot wide at the bottom and 2 feet wide at the top. It should be deep enough so that the hogs will be completely immersed in the dip and will not strike the bottom of the vat when they plunge. If possible, the vat should be located so that a 2-inch drain pipe may lead from the bottom of the vat to facilitate emptying and cleaning, otherwise it is necessary to pump or dip out the contents of the vat in order to clean it. Do not use old filthy dip, but clean and recharge the vat before dipping again if the dip has become very dirty or if it has stood a long time in the vat. The end where the hogs enter should be perpendicular and the entrance should be on a slide. The other end should slope gradually, with cleats to provide footholds for the hogs for emerging after dipping. A dipping vat is very useful wherever a large number of hogs are kept.

Hog Wallows.

Some farmers favor hog wallows; others are strongly opposed to them. Filthy hog wallows are a source of danger. Hogs wallowing in or drinking contaminated water are likely to contract disease. However, there are many advantages to be derived from wallows. A cool bath is very soothing to a hog during the hot weather. It cleans the scurf from the skin and protects the hogs from flies.

Crude oil, sufficient to form a thin layer on top of the water, may be poured into the wallow about every 10 days. This will tend to keep the hogs free from lice and other skin parasites. If the skin becomes irritated from the oil, its use should be discontinued. Small quantities of coal tar are sometimes added to the water in hog wallows, but there is an element of danger in this practice, as poisoning may result from the absorption of phenols by hogs which lie in the wallow more or less continuously.

On some of the larger hog farms concrete wallows are becoming popular. The cement hog wallow should be located in a shady place and made so as to contain from 8 to 10inches of water. A 2-inch drain pipe, as recommended for the dipping vat, should be placed in the bottom of the wallow to permit its being cleaned out.

Other Methods.

In many cases a farmer is not financially able to build a concrete hog wallow or a dipping vat. If this be the case, the dip, properly diluted according to directions, can be applied with a spray pump or sprinkling can, or else rubbed on every part of the hog by means of a brush or a swab of cotton waste. Care should be taken not to apply the dip stronger than directed.

Another method of controlling lice is to tie gunny sacks or similar coarse cloths around a post and saturate the sacks frequently with crude oil. The sacks should be tied at a proper height so that the hogs may rub against them.

Change Pastures Frequently.

Swine can be raised when they are confined in limited quarters if the quarters are kept clean, but they will do much better and stay in better health if they have plenty of pasture. Divide the pasture into convenient areas, so that the hogs can be shifted from one pasture to another. This not only provides fresh pasture, but affords an opportunity to disinfect the pastures by plowing and reseeding or exposure to the sun and weather. Intestinal worms, which are rather common in swine, are contracted from feed, water and ground which have been contaminated by the droppings from infected hogs. Frequent change of pasture is one of the best means of reducing worm infestation to a minimum. Hogs, however, should not be allowed to run at large on open range, as this favors the spread of hog cholera.

Young sub (to coquette)—If you don't answer me one way or the other—yes or no—I'll hang myself at your garden gate.

Coquette—You mustn't do that. Father doesn't like young men hanging about the place!

GOD'S WONDERFUL CREATURE AND MAN'S FRIEND—THE BEE

S. E. WESSON

Putting In The New Queen Bee

By S. E. WESSON

S. E Wesson is anxious to accomplish the big work of getting people to realize the pleasure and profit in bees for we are in a natural bee country. He has worked with and studied bees for many years, finding them in many ways the most wonderful of all God's creatures He does not claim for a minute that he knows all there is to be known about bees, but he will be glad to answer any personal questions as best he can out of his experience. Address all questions on bee culture, to S. E. Wesson, Bee Editor, Farm and Immigration, Montgomery, Alabama

---

First be sure there is no other queen in the hive If your bees are in old fashioned gums you can rarely ever be sure of this. If you have thought enough of your bees to put them in patent hives, you can always, though not every time, easily tell where the queen is To do this you merely have to remove the cover of the hive use a little smoke to quiet the bees, then take out each frame of brood one by one and examine its company carefully. If the queen is not found on one of the frames which you take from near the center of the hive, you must continue to look on the others until she is found.

Do Not Be Afraid.

When you find her, you must catch her Do not be afraid to take hold of her She will not sting you She never stings except to sting another queen. If you want to rid yourself of her you may kill her. But if you care to do so, you can cage her and probably use her elsewhere. If she is as old as three years, four at the most, you had as well destroy her. She will not be of any more service.

When you have removed the queen and all the brood frames are in place again, you make a space between two of them, preferably as near the middle as you can and insert the cage containing the new queen in the opening thus made. Each queen cage contains careful instructions for introducing a new queen. Follow just what you are told to do.

Close the entrance to the hive. If there are many of the bees out in the fields this better not be done till late in the day. But close the hive so the bees will all remain at home and get acquainted with their new queen. After a day and a half the hive may be opened for the bees will have let the new queen out of her cage by eating the candy out of the small hole in the end of the cage where you have taken out the cory when you put the cage into the hive. Now the cage can be taken out of the hive, the brood frames arranged correctly and the entrance left open for the bees will go right on with their work.

This is no hard thing to do. Anybody can do it. Every cage containing a new queen has a card of directions for it. It is simple. Pou may get a sting, but that is no cause for alarm. A new and vigorous queen is a necessity many times. Idle bees, weak colonies, poor honey stores, ill beas, nearly all the irregular behavior of some colonies may be traced to the queen at the head of the institution. You must learn to look after the small details. Study the peculiar features of each hive. Know what you have and what you are doing and why it is so.

Good Queen Necessary.

Queens usually cost from 75 cents to $5 each, according to what you want. Good breeding stock, entirely equal to all the best ends of the ordinary bee keeper, does not cost more than a reasonable sum. If you want fancy stock, imported pedigrees, romantic colonies, you must expect to pay for it. But if you want utility, strength and practical worth, your bees will look almost as well as the royal families and do just as good work for you anl yet hey will not cost you one-half as much.

I advise you to get bure-bread stock No matter what variety you may decide you want to keep. Get pure stock. In fact the variety is not near so important as the quality of that variety and the thoughtful attention you give them.

Put queens in early so they will have a full season to give attention to the needs of the colony. Don't wait till too late. Let them have time to get their reign and government well under sway. Anytime—from April 1st to August 15th will do for re-queening, but the earlier you look into the matter and get your new queens the more you will profit by it.

Cannot Stop the Boll Weevil, But Can Beat Him With These Methods

By Prof. Brandt LaBoon, Abbeville, Alabama

In his last article in this farm paper, Prof. Brandt LaBoon gave a complete history of the Mexican boll weevil since he entered this country and most everything that is known about him and his destructive work. In this article Prof. LaBoon takes up in a most practical and helpful way the only known methods of successfully combatting the weevil. Be sure to keep his two articles.—Editor's Note.

This brings us to the question of protection, and we are better able to combat the pest after we know the habits and life history. The first work done by the government in studying the weevil and means of possible control was at Victoria, Texas. Here field experimental work in direct connection with laboratory investigations was begun. The first public boll weevil convention was held at Victoria, Texas, in 1895, and in 1903 the Texas Legislature offered a reward of $50,000 for the discovery of a remedy for the boll weevil. Since the first convention in Victoria, other conventions have been held in Dallas, Shreveport and New Orleans. The Federal government and some of the State governments have made appropriations for investigations and devising means of control. Some means have been devised which we will mention and discuss briefly further on.

It seems to conservative minds that much of the money spent in the so-called boll weevil fighting has been spent uselessly. In spite of all that has been done and said since 1895, when the first convention was held, the weevil has continued to spread at the rate of about fifty miles per year. All the money that has been spent and all that has been said and done relative to preventing the spread of the boll weevil seems in a large measure to have been fruitless, for in spite of it all, the spread has not been retarded. Much has been written in the newspapers and agricultural papers in every State infested, and the government has issued several bulletins relative to the boll weevil.

It is well to know the life history of the boll weevil, its food, where and how it spends the winter, how it migrates, and everything possible about it, but when it comes to control, and growing cotton profitably in spite of the pest, the man between the plow handles is the one who will have to do the work. We have been studying the weevil for nearly twenty years and have learned a great deal about it, and methods have been worked out by which we may grow some cotton under boll weevil conditions. All of this information has been put in print and may be obtained by the farmer free of charge, so whatever is done from this time on must be done by the man at the plow.

Let us now discuss some of the principal preventive measures and methods of control. They will be discussed in the following order: (1) Cultural methods; (2) early maturity of crop; (3) destroying old stalks and trash in fall; (4) destruction of weevils in hibernating places; (5) diversification; (6) topping plants; (7) insecticides, (8) control through quarantine; (9) special devices; (10) reducing acreage in cotton.

Cultural Method.

By cultural method we mean the best care that can be given the cotton during the growing season. The ground should be well broken and pulverized before the crop is planted. Frequent, shallow cultivation should follow from the time the plant comes up until the first bolls begin to open. Fertilizer containing plenty of phosphoric acid should be used. The oftener the plant is cultivated properly, the faster it will grow and reach maturity. This is necessary since the weevil does but little, if any, damage to the larger bolls. Cotton should never be cultivated deeply and close to the plant, as this causes it to shed. Many successful farmers in the infested sections cultivate the cotton crop as many as ten or twelve times during the growing season. Steady, persistent work is necessary.

Make Crop Quick.

Probably the best means of combatting the boll weevil is to use early maturing varieties of cotton. The growth and maturity of the plant should be as rapid as possible. There are few weevils that get through the winter alive. These must have time to multiply in order to produce large numbers. The main purpose in getting the plant matured as early as possible is to set as many bolls as possible before many generations of weevils have come forth. The weevils begin to attack the young squares as soon as they have been out of the pupa about five days, and since they do not attack bolls as long as there are squares for them to ravage upon, it is of prime importance to get as many bolls matured early as is possible. Now, those that get through the winter alive have to wait until the cotton begins to put on squares before they can begin to lay eggs. There are very few to begin with in the Spring, and if a large number of bolls can be secured before many new weevils have had time to develop then we have the chance of some cotton. The earlier bolls escape the weevil and if we can get enough of these, we have a crop. Some of the things that tend toward an early maturity of the plant are: The use of varieties that set bolls early; liberal use of phosphoric acid; thorough preparation of land; rapid cultivation; and early planting. Among some of the standard early varieties are the Triumph, Cleveland Big Boll, Cook's Improved, Toole, and King.

Destroy the Stalks.

Since the amount of damage done each year depends largely on the number of weevils that get through the winter alive, all old stalks, trash, and any kind of rubbish under which they might hide should be destroyed if possible. It has been found by examinations made over and over again that there were over 1,000 live weevils on each acre in old cotton fields. These can practically all be destroyed by the farmer. It is recommended that the cotton be picked as rapidly as possible and as soon as the cotton is out, to cut and burn the stalks. In infested places no top crop is ever secured; hence by the middle of October all the cotton that is actually made will be open. This should all be picked out just as early as possible and the stalk destroyed. This destroys the food of the weevil, and millions of them die. This also destroys young weevils in the squares, and leaves no place for eggs to be deposited for a late generation. If the stalks are not thus destroyed, they should be cut and plowed under just as early in the fall as possible. This not only destroys all weevils on the stalk, but it also destroys those on the ground under hay and trash. Since many of them leave the cotton fields to hibernate, it is a good plan to clean up hedge rows, clean out fence corners, and burn all trash possible anywhere they might find hibernating places. Old sorghum fields and corn fields furnish good winter quarters. These should be plowed during the fall in order to destroy all weevils that might take shelter there.

Diversification.

The destruction of weevils in hibernating places has been discussed in the above paragraph, hence we pass on to the fifth method, that of diversification of crops. It has been proven that the boll weevil never does as much damage on land where cotton follows some other crop as where cotton follows cotton. This is due to the fact that the weevil never goes far from its hibernating quarters in the spring. We cannot hope to buy corn, oats, hay, meat, molasses, and many other things that we can raise at home with the boll weevil present in our cotton fields, and pay for these things with cotton as we have depended on heretofore. In the presence of the boll weevil, we must diversify, we must raise different kinds of crops in order that we will not have to buy at high prices the supplies we can raise at home.

Feed Ourselves First.

Make our farms self sustaining and if we do not make much cotton, why, we will not have to buy much. If we make our farms self supporting, what cotton we make, let it be much or little, will be clear profit. We have heard this story over and over about making the cotton crop a surplus, but very few farmers have ever done it. Those who have, have prospered. The weevil may yet prove a blessing rather than a curse. It may teach us to feed ourselves instead of letting our Northern and Western neighbors do it.

One of the leaders in the Alabama boll weevil fight said in an address recently that one of the biggest plantation owners in Mississippi had said that he was glad the weevil came, for now some of his people were raising their own food stuffs, having a cow and a hog a piece on the rented land and growing some grain and hay for feed and growing a garden to supply the table. The speaker said that right now every landlord in the boll weevil section should get his tenants to reduce to five acres of cotton to the mule and to cultivate steadily. That the cotton planter must feed himself first.

There is no use trying to fight the boll weevil if feeding ourselves does not come first. If we will go to work and stay with our renters and help them feed themselves and make cotton with five acres to the mule, then we will make more money than we have made without the weevil. It is not a hopeless proposition by any means, but it is one we cannot trifle with. To make cotton successfully in spite of the weevil, the landlord and tenant must get together as never before and plan out the work and stick to the plan.

Another remedy which might be of some avail to fighting the weevil is to top the cotton. This, however, decreases the cotton crop as often as it increases it. It may cause the lower and middle branches to develop their fruit more rapidly. This method has not been tested out quite satisfactorily yet.

Use of Poisons.

Insecticides have been used to poison the weevils on the young cotton plants before the squares are large enough for the weevils to infest. Some of the weevils surviving the winter, spend a short time eating these young parts of the cotton plant and at this season only is it advisable to use a poison. The particular poison recommended is arsenate of lead. This is put on in a powdered form and is forced into the growing tips of the plant with a "powder gun." The powder should be applied at the rate of about 2 1-2 pounds per acre. A Louisiana experiment showed in 1909 that cotton treated with arsenate of lead yielded 71 per cent more cotton than similar cotton not treated.

Try to Retard Spread.

As we said in the outset, there is no hope of preventing the weevil from covering the entire cotton belt, but the disturbance of economic conditions is so great that every precaution should be taken to keep the weevil out of uninfested areas as long as possible. Nearly all the cotton States have enacted measures, relative to the prevention of the spread of the weevil, in the form of quarantines. Many articles of shipment have been included in the quarantines, but all that is necessary to include is cotton in the seed, baled cotton, cotton seed meal, cotton seed hulls. These are more apt to carry the boll weevil than any other articles of commerce.

Special Devices.

Among the special devices in the control of the weevil, is some means of jarring or "scraping" the weevils off the stalks as the plow passes along. In Mississippi the tenants tie pine brushes to the singletree. When these pass over the stalk of cotton, the weevils are brushed to the ground and covered up by the plow. When the young square has been punctured by a weevils and an egg deposited therein, it falls to the ground within a short time. If unmolested, the egg which has hatched into a larvae, develops into an adult weevil within the old square. Dr. W. E. Hinds has devised an implement that, when run between the cotton rows, drags all the fallen squares to the middle and theer they are exposed to the hot sun. Here in the sun, the square is soon hardened and dried, the egg does not hatch, or the larvae cannot get sufficient food from the dried square, and consequenuy thousands of weevils are thus destroyed.

Reduce Acreage.

Reducing the acreage in cotton will tend to keep the weevil down and will have wholesome effects otherwise. With the boll weevil present we must and cannot depend on cotton entirely.

Old Method Gone.

In summing up, let us say that we must make up our minds that we cannot follow our old regime of farming under the boll weevil conditions. In the first place, we must reduce our cotton acreage and grow more livestock and food stuffs. Make our cotton crop a surplus, let it be great or small. Plant early maturing varieties, cultivate rapidly, plant legumes, destroy hibernating places, use special devices explained above, regard quarantine regulations, and study the experiences of the States that have been infested longest.

LAZYTOWN LOCAL NOTE

There is rumor of another house being built on Musket Ridge. There are already several buildings there; also a house or two. The world is growing so fast it will soon be so a person cannot chase a rabbit a hundred yards without it running under somebody's house

$463 Profit From One Duroc Sow In Two Years

By Charles J. Tanner, Lebanon, Ky.

To induce a farmer or hog raiser to purchase a registered Duroc sow at three to four times the price he has been paying or receiving for one of common blod, it is necessary to show him a prospective profit on his investment. This can best be done by giving him the practical facts and figures of what you or some other breeder has accomplished.

In nine cases out of ten, he will say that he, as a beginner and having no reputation in Durocs, could not hope to accomplish what you, having experience, and being well identified with the breed, could do or have done. To disprove this theory, the writer will set forth his entry into Duroc circles, as a perfect stranger, both to the breed and the Duroc fraternity.

Father Had Pure Breeds.

In my youth I was reared on a farm, on which my father had none but pure-bred stock; cattle, horses, hog poultry, and even the dog and cat, were pure-bred. Hence it was natural in later life, when my environment justified the pursuit of livestock raising, that I should be imbued with the desire to handle only the best.

Like many of your readers, I could not for a long time summon sufficient courage to pay the requisite price, but raised a mixed lot of hogs, and being a good feeder, generally turned off a couple of bunches a year, which realized what I then considered a nice profit.

Decided To Start.

One day I read in a local paper where a breeder of Durocs with whom I had a casual acquaintance was going to hold a public sale of his registered hogs at our county seat, so I made up my mind to attend, and if I could pick up what appeared to be a suitable animal as a nest egg, for $50, I would embark in the pure-bred business. I consoled myself to the extravagant outlay yith the thought that if I realized no returns from the animal except pigs to sell at market price, I would enjoy the satisfaction of being able to point with pride (when my visiting friends came in) to my registered sow and her pure-bred progeny.

Got "Cold Leet."

After a stirring address by the eloquent auctioneer, the first pig was driven into the ring. It was a gilt about five months old weighing about 125 pounds. Hardly before she had made the circuit of the ring, somebody said $50 and she went by leaps and bounds to the $135 mark, and was knocked off quickly at that price the auctioneer remarking "Too cheap." The next and the third were litter sisters and they quickly went the way of the first only a little higher. I think the three averaged $138 each.

I began to get cold feet and my hopes of acquiring my nest egg at this time went glimmering, for I reasoned, if these little pigs bring such prices, what will the big brood sows cost when they come in. As the auction progressed, the bidding was not so spirited, and many useful animals were knocked off at from sixty to seventy-five dollars. Under the magnetic influence of the auctioneer and the enthusiasm of the crowd, I expect I would have exceeded my proposed limit of fifty dollars and bought one of these sows; but I thought if those little pigs are so eagerly snapped up at such prices as realized, these big sows must have the cholera or be in some other danger of early demise or they would pay more money for them. So I came away from my first hog auction without making a bid.

Reason for Prices.

I met several acquaintances there who were Duroc owners and in mingling with them after the sale, I found out the cause of the great variation in prices. The fashionable blood lines of the pigs, rather than any excess in quality, caused the breeders present to grab them up; and the big sows were mostly in pig by a boar, which though of good blood and individuality, was untested in the show pen and hence an uncertain quantity as a sire and would have no prestige to help the sale of his little as future progenitors of the breed.

Confused Again.

One of my acquaintances who was a breeder and exhibitor of saddle horses had purchased a well developed gilt, which he said was of excellent blood lines, for $60. She was in pig by this unknown boar, and he offered to turn her over to me with out profit. I liked the sow, but was so confused in my mind on account of the great variation in prices that I concluded best to wait until I could read up and converse with those familiar with pedigrees so could start with the right sort.

Finally Bought.

About eight weeks subsequent to the sale, I visited my horseman friend to breed a mare to one of his stallion and about the first thing I saw was the red gilt with eight mighty pretty pigs, seven gilts and one boar. In referring to them he remarked they were mightily in the way around the horse barn and he would like to sell them to me and woul dtake $75 for the bunch, F. O. B. county seat. I bought them and sent them to my farm.

Gave Friend a Pig.

A neighboring farmer was raising grade Poland China and had frequently boasted to me that he had paid $10 for his herd boar when he was a little suckling pig. He frequently came over to inspect my stock and express interest in their development, and when I weaned the pigs, he importuned me to sell him the boar, as I could not use it on its mother or litter mates. I would not price the pig, for I knew my old friend considered $10 a fabulous price for one of this age, and the sale standard set in my mind, was considerably higher than that; so I sent the pig to him one day with compliments. He insisted on giving me in return one of his choice grades of about the same age, or possibly a week or so older, and told me if I would give it the same care and attention as I did my red ones that it would grow away from them. Having no futher interest in grades, I gave it to my tenant and told him to feed it the corn crib if he wanted to and all tit-bits from his house slop so as to make it as good as possible by killing time for his meat.

An Object Lesson.

Said tenant built it a pen under a big apple tree in his garden and proceeded to carry out the program I had allotted him. When my gilts were eight months old and weighed 250 pounds average, this fat pig weighed but 225 pounds. My Durocs which had had unlimited range and been fed a good protein ration had a great deal more stretch, frame and bone, while the pampered pig, while fatter, lacked size and development, hence weighed less.

This object lesson cemented my conversion to Durocs, also my farmer neighbor, who later purchased foundation herd at advanced prices from me.

Net Profit $175.

After my sow weaned her pigs, the breeder who had originaly sold her at his auction, bred her to a prominent boar he then owned, without cost to me, as I purchased a boar pig of fashionable blood lines from him for $50 for subsequent use on my gilts. The ownership of this boar and my good development of him proved a good investment, as I sol dall of my seven gilts when in pig by him, (and every one to farmer acquaintances) for $40 each and incidentally made new converts to the breed, for none had ever before raised any but grade pigs. The gilts averaged 250 pounds each when sold at eight month sold, and I estimated had cost six cents per pound to grow, or $15 each. Figuring neither profit nor loss, on the boar I had given away, I realized a net profit on the first litter of $175.

Second Litter Profit $188.

The second litter the sow farrowed eleven, but owing to negligence was not provided with a suitable farrowing pen and overlaid six, saving but five to maturity, three sows, two boars.

I sold the boars at six months old for $35 cost to raise $18, net profit, $17. Two of the sows brought $125 when bred, weighing 300 pounds each. They cost to six cents a pound to raise, $36 profit $89. The best sow I retained in the herd and refused $100 for her when 300 pounds weight so will figure a profit o. $82 or to sum up, the net profit on the second litter was $188.

Third Net Profit.

Third litter she raised eight. As I had but little demand for boars, I castrated the three males and together with two of the gilts (which did not conform to the stand and I had set for breeders) fed them out for butchering, so will figure no profit on the five, assuming they cost as much to feed as they were worth for meat. The three remaining gilts were sold when weighing 500 pounds for $140 cost to feed $42 net profit on the third litter $98.

After breeding the old sow, I farmed her out on half share in her produce. She raised nine pigs this litter which sold at a farm auction for $152. My half of this, all profit, was $76. I then sold the old sow for $60, losing $15 on initial cost, which latter must be deducted. There is also a debit to the account of interest at 6 per cent. on the $75 investment for two years which is $9, and feed of the sow for 18 months which is approximately $50.

Total Business

To recapitulate:

First cost of sow and pigs	$ 75.00
Interest for two years	9.00
Feed of sow	50.00
Profit on first litter	$175.00
Profit on second litter	188.00
Profit on third litter	98.00
Profit on fourth litter	76.00
Proceeds of sale of sow	60.00
Total credit	$597.00
Less debit	134.00
Net profit	$463.00

It will be observed that the profit decreased after the second litter was partially due to the fact that I had subsequently purchased better animals at advanced prices, and the first acquisitions suffered by comparison and did not command the prices.

Can Pay $300 Now.

From the modest beginning of $75 for a sow and pigs, I have schooled myself to paying as high as $300 for a single sow, and the higher priced ones in most instances return the greater profit. But of course, to so do, cannot be sold to the average new beginner until he is educated to the point where he rejects any but the very best.

Up and Doing With Live Stock In Southeast Alabama

By George D. Stovall

I write this thinking probably it would be of interest to some of the many readers of Farm and Immigration. There has never been a time that our people were so enthused over the prospects of breeding cattle and swine, also poulary.

These products find a staple market every day in the year with profitable prices and we have learned that we can raise an abundance of feed stuff of all kinds, such as oats, corn, peavine hay, peanuts, velvet beans, alfalfa, bur and sweet clover and in fact every known feed crip can be grown probably cheaper here than any other part of the country. It has been proven by many of tour Demonstration Farms and Experiment Stations that pork can be produced for less than three cents per pound finished for the market. Also beef cattle and dairy products can be produced at a less cost in Southeastern Alabama and West Florida, than any other section of the country.

This applies to where proper methods and pure-bred animals have been used with the elimination of the cattle tick and the absolute control of hog cholera, the two being our greatest draw backs. There is no excuse for the people of this section, with thousands of acres of cheap lands, not to make this the greatest cattle and swine growing section of the United States.

We have organized a Pure-Bread Swine Association in Dale county with Mr. B. L. Andrews, president and B. F. Faust, secretary. When we get in running order, it will be of untold benefit to the live stock men of this section. The Sunny Dale Berkshire Farm was the first to establish a pure-bred herd. What it lacks in number it makes up in individual merit.

Pike, Barbour, Houston and Henry have also organized. Covington, Coffee and Geneva are not to be left out for they too are up and doing things in the live stick line. The farmers of lower Henry over on the river, have organized a Sweet Clover Club. Sam M. Dunwoody is president. Sam is a hustler when it comes to live stock growing. He has a herd of eighty-five pure-bred Red Polls. Mr. Homer Alford has a feautiful herd of ninety head pure-bred and graded Herefirds. He bought part of his foundation stock from L. F. Sessions stock farm in Dale. Mr. T. Blacwell, Mr. J. McNair and Dr. Yarbrough, also river farmers, have herds of pure-bred cattle.

GEORGE D. STOVALL.

Clopton, Ala.

Now good reader, write us and tell us what progress hogs. cattle and pastures are making in your section. Let's tell folks what other folks are doing. Write to Editor, Farm and Immigration, Montgomery, Ala.

Facts on Planting and Harvesting Soy Beans

(BY E. P. CARTER, Washington, N. C.)

Weight, 60 pounds to bushel.

Best kind to plant, Mammoth Yellow. (Other kinds are Tar Heel Black, Wilson Black and Hollybrook.)

Planted with ordinary corn planter.

Planted one bean to a hill, about 3 inches apart in four foot rows. Takes 1-2 bushel to plant acre.

Cost of planter about $10.

Preparation same as for corn. Plant very shallow; just deep enough to be covered—say about 1-inch deep. Plant about May or June. Can plant as early as April.

Some North Carolina farmers plant after oats and get 25 bushels per acre. One crop will yield about 40 bushels on good farm; 25 bushels is an average crop.

Should be cultivated well and frequently to keep ground stirred and to prevent grass. Ordinary cotton or corn cultivator will do the work. Cultivate shallow.

Grow from waist to shoulder high. Bloom in August and September. Mature about same time whether planted early or late. Ready for harvest about November 1st. Must harvest before frost as beans will pop open if frost-bitten. Harvested with wheat or oat binder. Cut when pods begin to turn brown. Shock like wheat, so rain won't damage. Then thresh with wheat or oat threshing machine with concave teeth taken out. About 20 per cent beans wasted in threshing. Turn hogs in field to get benefit of wasted beans. Hulls and stalks baled and make good hay. Seventy-five bushels a day of shelled beans is an ordinary day's work. Harvesting must not begin until late in day, after dew has dried.

Small farmers cut with rice hook and lay on ground to dry. This is dangerous, because a rain would spoil beans.

Beans are great land builders, because roots contain so much nitrogen. Sandy clay soil makes more beans than black soil, but plant grows better in stiff land. On sandy land plant in 3-ft. rows. On poor land 2-foot rows. Good cotton land will make good soy bean land. Vary width of rows according to character of land just as in planting cotton.

When beans are once tried, a farmer will never quit them, because they not only enrich the land, but loosen and mellow the soil.

Five years ago 5,000 bushels raised in Hyde county, North Carolina, this year 125,000 bushels.

Soy beans at $1 a bushel are better than cotton at 10 cents a pound.

No country under the sun ever amounted to much without livestock.

Turn the hogs loose on the boll weevil.

Be a hog farmer so you won't have to worry about boll weevils.

Is your county still bearing the disgrace of having cattle ticks?

Why talk about "our civilization" when we have still got flies and mosquitoes?

QUESTION

What's old Sin a-doin' here
In this spring-time of the year,
Clean-time, green-time, when earth's breast
Turns to places of sweet rest
For the violet's light to glow
And the daffodil to grow?

What's old Sin to do with this
Vernal ecstacy and bliss?
Put him out! He don't belong
To this world of love and song.
Chase him till he falls down dead
And bright angels smile instead.

What's old Sin that he should be
Round when Spring-time, bare of knee,
Lifts her flashing arms and swings
Blossomed fingers, skips and sings,
Hops and warbles in the sun,
Bubbling over with her fun?

Chase him off and let him know
Spring's no place for Sin to grow,
All so pure and clean and white
With its soul of anchorite.
And its seraph song and smile
Breathing sweetness all the while.

NEW WAY TO GIVE MEDICINE

To Stock.

Don't get old and wormy.

Don't lose strength with age.

Don't get eaten up by mice and rats.

Don't have to be hunted up and dosed out at feeding time (often in the dark) as do other remedies, for after being placed in the feed box or Holder, it is always where stock can get it as they need it. If your dealer will not supply you, write us.

Stock Lick It— Stock Like It

This book is free to Southern Farmers

"Cows and Cash"

That's what the author of this book says is the crying need of the South

MR. SAMUEL E. BARNES of Knoxville, Tenn., the author of the book, through long study of the problems of the Southern farmer and planter, has been able to point the way to a steady cash income and greater profits.

He doesn't theorize: he talks facts.

He says that what the South needs is more dairy cows.

He points out the advantages of a cream crop that brings in cash every week or month, along with a cotton or tobacco crop that brings income only once a year—or sometimes not at all.

He tells what kind of cows to get, how to feed and care for them, and how to market their product.

Just fill out the coupon or send the information requested on a post card, mentioning this paper, and the book will be mailed, postage paid.

The De Laval Separator Co., 165 Broadway, New York

Please mail me, postage free, a copy of your book on Southern Dairying. I keep____ cows. I sell cream, make butter, sell milk *(cross out whichever you don't do)*. The make of my Separator is_____, used____ years.

45 Registered Short Horns 45

At Auction, April 25, 1916

Rodman & Crabb's First Annual Sale

25 Bulls

Herd headers for the breeder of pure breeds. Good substantial bulls for grading up common cattle.

20 Females

Bred cows, cows with calves by side, open and bred heifers.

Mr. R. L. Seale, representative of the American Shorthorn Breeder's Association, regarding this consignment says: "It is a question whether as good a lot of Shorthorns has ever before been offered for sale in the South. They are splendid individuals and their blood lines are as good as in any herd in America. Among them are a number of the type and breeding to use for foundation stock."

Come see our 100 head of Registered cattle. See our car load lot of home raised grade calves in the making for baby beef. They are by a Registered Shorthorn sire and out of common grade and scrub cows, and at five months of age weigh 425 pounds average.

Come see our country in the **Demopolis Section** where hundreds and thousands of acres of alfalfa have taken the place of cotton; where more diversification is in actual practice and where there are more pure bred herds of live stock than any other section of the South.

We will have a big barbecue out in one of the alfalfa fields with good shorthorns grazing all around. You are cordially invited to be with us on April 25th, whether in the market for anything or not. Parties from a distance will be met at station at Demopolis and have free conveyance to the farm.

Col. Cary M. Jones, Auctioneer

The Hereford--and His "New Richmond," Col. E. H. Taylor, Jr., of Kentucky

Winning Aged Herd at Atlanta

Imported Renown, Great English Bull Now In America.

This is the second article on breeds of beef cattle. The next article will deal with the Polled Hereford.

The Herefords rank next to the Shorthorn in numbers in the United States.

Their popularity is constantly increasing, especially where cattle are raised under range or adverse conditions. As a "rustler" the Hereford is surpassed by no breed of beef cattle and they excel the Shorthorn in this respect. They have been reconized as a breed which responds readily to a favorable environment as well as being able to thrive under adverse conditions where other breeds would not do well. On scant pastures and on the range where water holes are far apart, the Hereford has shown its merit. The bulls are active, vigorous prepotent and very sure breeders.

Formerly the Hereford was criticised because of a light hind quarter, but the breed has improved wonderfully in overcoming this defect during the last two decades. The breed is somewhat less rangy, come compact and heavier fleshed than formerly. While the Hereford cows have been criticised because of their scanty milk flow, they usually produce enough to raise a good calf. As a breed they have a beter heart girh, stronger constitution and can withstand adverse conditions beter than the Shorthorns. They are early maturing and fatten readily in the feed lot.

The weight of Hereford cattle is practically the same as that of the Shorthorn. Mature bulls weigh from 1,800 to 2,200 pounds or more, while good cows weigh from 1,200 to 1,600 pounds. It is not unusual for mature animals of either sex to weigh more than stated here. The conformation of the Hereford is such that he looks smaller than a Shorthorn of equal weight.

A Beautiful Animal.

In color the Hereford is red with white markings. The white markings usually consist of a white face and head, the white extending along the top of he neck and shoulders, a white throat and dewlap, and white on the underline. Frequently, however, no white is found on the neck or top of shoulders. White is sometimes found on other parts of the body and, while it is permissible it is not desirable. A pure-white face is usually preferred althought many pure-bred animals show spots about the face and especially some red around the eyes. The red color of the body varies from a light red approaching yellow in color to a very dark red approaching black. Neither the light-red nor the blackish-red color is desirable, a rich deep red being the most popular. The hair is usually of medium length with a curly tendency, although short-haired animals are common.

Constitution and Endurance.

The general conformation of the Hereford is the same as that of the Shorthorn, except that the rectangular form is not quite so pronounced and the prominent bones are more smoothly covered. The form is low, compact, and blocky, with well-sprung ribs, broad loin and wide hips, without the prominent hip bones of the Shorthorn and with a more rounded and bulging quarter, although developed to a lesser degree in this respect than the Aberdeen-Angus. The head is broad and short with large nostrils and large muzzle and mouth, which are indications of a good feeder. The horn is long and somewhat coarser than the Shorthorns, white in color with waxy tips and curves, upward and backward, or outward and forward and occasionally they are drooping. The horns of the bull are straighter and heavier, and usually grow outward, frequently growing forward, backward or downward, but seldom growing upward. The neck is short, thick and bends well with the shoulder. Great width, depth and length of chest and a fullness of the crops give the Herefords their constitution and endurance which the breeders have been careful to preserve. The loin is full and deep and the rump and hind quarter are usually well developed, carrying a large amount of flesh. This portion of the body has been greatly improved within recent years and the tendency to roughness and patchiness has been reduced until the breed now stands out as one showing extreme beef type with smoothness of form and much quality. For these reasons, combined with their rustling abilities, the Hereford has become the most popular breed for improving range stock.

Do Well in South.

The Herefords do well in the South as the heat here seems to bother them no more than it does in the corn belt. They seem to be especially adapted for use on the larger plantations, where animals are not given extremely good care and where the production of beef alone is desired. Two or three crosses on the native stock of the South produce a good beef animal that matures early and fattens out well and brings good profits to the farmers.

Colonel Taylor's Great Work.

Within the last two years a new Richmond has come into the Hereford field in the person of Colonel E. H. Taylor, Jr., of Frankfort, Kentucky, and his leadership has been a great work for the Herefords in the South and in all parts of the country.

Pinning his faith in the Herefords as the best of all breeds of beef cattle, Colonel Taylor has one-half a million dollars invested in his Hereford farms. In May, two years ago, he woke up the country by paying $12,400 for Woodford, 500000, regarded as one of the most magnificent bulls that the breed has produced and not one of whose "get" was sold for less than $1,000.

Later, Colonel Taylor felt that the Hereford breed in this country would be strengthened by an infusion of fresh blood from England and so he bought in England a herd of the best bulls and cows that England could give. In this herd was Imported Renown, the reserve bull of the great English show "The Royal" and regarded by Colonel Taylor as the finest bull in all England. A photo of Imported Renown is reproduced above.

Colonel Taylor's work has been a splendid inspiration to Hereford breeders all over America and his influence in the South already has been widely felt.

Success With Pure-bred Southdowns In South

By Yancey Swearingen, Shorter, Ala.

I have been breeding Southern sheep for the past sixteen years and find them well adopted to Alabama pastures.

We usually fence some of the forest land on the place or pine thickets and woods, and call them pastures. On such places if too many are kept, of course they do not do so well. Like other stock, they must have something to eat, but they are always on the go and will keep up on pasture that other stock would starve on. We need to study pastures more and to work them so as to keep feed growing and not briers and weeds.

My sheep go on permanent pasture of a mixure of bermuda grass, bur and white clover and lespedeza the first of April and have the run of this until oats are cut the last of May and June. They are then turned in on the oat stubble for about three weeks or until the land is sowed in peas. They are then put back in the permanent pasture to remain until August, when they are put on ground peas after the hogs have gathered the nuts. From here they go to the ay fields after the pea hay has been cut off in Ssptember. Next in the corn fields where they have velvet beans and peas after the crop has been gathered. Next on the cotton fields to stay until the oats and bur clover are large enough to graze, which is usually about December, and, although the winter until April they have oats and clover. I find this the best system of pasturage I have tried and the sheep are always fat and healthy.

Likes Southdowns Best.

I have not tried any other breed except Southdowns. This is the smallest of the mutton breeds. They are hardy, good hustlers and easy to handle. They are also close and compact in form, short legged and get so fat on good pasturage that they would almost carry a peck of shelled corn poured on their back without waste.

They are good mothers, giving a fine flow of milk for their young, and my flock has produced 160 per cent. plus of lambs for the past two years.

The foundation of my flock was purchased in Kentucky, Tennessee and Ohio, and all were registered. They have stood our climate well, but those from the altitude of eastern Kentucky suffered more in becoming acclimated than those from the lower western side. I preferred the Southdowns for fear the larger sheep would not stand our southern sun so well when kept up to a high standard. Southdown lambs, well cared for, will dress forty-eight to fifty-four puonds at five to six months of age, and no meat is so wholesome and well suited for summer use as mutton. The only trouble I have ever had with my sheep was stomach worms, a few years ago, and I have eradicated them by the gasoline treatment and the system of pasturage outlined above.

Our farmers ar making a mistake by not raising more sheep. There is more profit in good sheep than any other animal raised on the farm. I think the discouragement in raising them has come about by keeping sorry unprofitable ones.

The above is Mr. Swearingen's success with sheep. Are you raising sheep If so write us a letter and tell us how you are doing with them. Write Editor Farm and Immigration, Montgomery, Ala.

Winter Pastures Cut Costs in Hog Raising

For cutting costs in hog production, winter pastures have recently proved their worth at the Mississippi A. and M. College Experiment Station. Dr. E. M. Ranck, who has charge of the hog department has just finished an experiment which showed the practicability of pasturing pigs even during the winter months.

A patch of emmer, or what is commonly called speltz, was planted last fall on a patch that had been used previously for a soy bean pasture. On December 23rd, a sow was placed on this emmer patch, on which was placed a modified Mississippi colony hog house, and on the 27th of December she farrowed eleven pigs. From the second day after farrowing until the 28th of January the sow and ten pigs (one having died) received a mixture of 4 1-2 pounds each of corn, chops and shorts. From January 28th to April 1st, the feed was increased to 5 pounds, making a total of 453 pounds each of corn, chops and shorts, which had an actual market value of $1.75 per hundred. The rent on the pasture, labor for attendance, etc., was estimated at $3. The interest on the investment, estimated at $50 for the sow, $50 for the boar and $50 for equipment at 6 per cent for six months (we must estimate for three months previous to the time of farrowing) was $4.50, or $23.34, which was the actual cost of raising ten pigs to the time of weaning. These pigs at that time weighed 582 pounds, and cost $2.33 each, or approximately 4 cents per pound. As they are pure bred pigs they have an actual selling value of $15 each, and are extremely growthy and vigorous.

An experiment of this kind could have been conducted just as well on a patch of rye or oats, or wheat, as at the same time we were conducting this experiment, using emmer as a grazing patch, we were also pasturing small fields with these other products. The only advantage that we noticed during the severe winter was that the emmer seemed to stand the freezing weather with less injury than the other crops. Pure water and a mineral mixture were available at all times for the sow and pigs, and means were provided for some of the feed to be placed in small troughs in such a manner that the pigs could get some without interference from the mother, and we nowced that they started to eat out of their troughs when they were five days old, and started to eat the green succulent pasture after they were six days old. During the experiment we experienced three snow storms, and several freezes, and during which time the colony house above mentioned was the only shelter provided for them. Specifications for this colony house can be secured by writing to the Experiment Station.

The sow suckled the pigs and was in good breeding condition at weaning time and was bred five days after weaning the pigs.

Clean up the premises and keep the cholera away. Far better to keep from getting it than trying to get rid of it once your hogs get it.

You can get rid of tin cans without tying them to the tails of dogs.

RIVERSIDE DUROC HOG FARM

FOR SALE—125 March and February pigs by Superba Star No. 68191 and Defender's Wonder 1st. 20 fall gilts and six fall boars by Superba Star. The best blood lines. Every pig guaranteed.

Montgomery, Ala.

"They are not built of pieces, and they cannot go to pieces

Concrete Satisfactory For Watering Troughs

Nothing contributes to the health and thrift of farm livestock more than an abundant supply of pure water. Since such troughs last indefinitely they are proving not only more satisfactory than other kinds of watering troughs, but cheaper in the long run.

In making water proof concrete such as is used in water troughs, and tanks, it is best to use a very wet mixture. The formula commonly used is 1 part cement, 2 parts sand, 4 parts gravel. Add water until the mixture will pour off the shovel. On the present day farm concrete has many uses. Fence posts, feeding floors, and walks made of crete will last indefinitely.

Use good materials—clean sand and gravel, with not over five per cent of loam, clay, or other foreign matter.

Use a reliable brand of Portland cement, free from lumps.

Use clean water to mix.

Place in forms within 30 minutes after mixing.

Keep wet and allow to "cure" 30 dayls, protecting from the sun during the curing period.

BIG TOWN PEOPLE

This is the time of he year twhen we
Begin to think of flower and tree,
And of the garden that we know
The comforts of the summer time
When all the lovely blossoms blow
And birds disport in song and rhyme
And hearts with love and gladness glow

Each year our little gardens seem
So sweet with avenues of dream
That lead us often very far
From all the daily fret and jar
Until we [illegible] part
Of something sweeter than we are—
An essence of the human heart
That love has healed of wounds and scar.

I thing the dearest garden grows
Within our dreams—for there the rose
Is planted and is 'tended to
By love, who knows just what to do,
And how to nourish and to cheer
Each plant she wants to train and rear—
Each human plant, like me and you
And friends and neighbors far anr near.

We all are part, indeed I guess
Of some great garden more or less,
Which God has planted—flower and weed—

What Common Sense Calls on You to Do at This Time?

Rid your community of tin cans; they are brteders of mosquitoes, are unsightly and dirty. Bury them, burn them. Do not haul them off and dump them on the public roads near your neighbor's farm. Remember, nobody wants them. Offer a blue ribbon to the child that can bury or destroy the greatest number of cans.

Burn and cut all weeds on public roads and in house yards and sidewalks, each farm home being responsible for the roads in front of their property. Tall weeds and grasses breed mosquitoes and are very unsightly and ugly. Discuss with property owners the cultivating (by children) of vacant lots, either as flower or vegetable gardens, or as play grounds.

Paint up, inside and out; whitewash fences and farm buildings. Have business houses wash windows, replace old awnings. Remove all unsightly signs and advertisemtnts. Repair fences, remove all old dilapidated sheds, barns, machinery and vehicles.

HOG CHOLERA ON WANE OVER COUNTRY

Hog cholera seems to be on the wane; for the total losses of hogs from disease last year in the United States is estimated at 6.6 per cent. of the total supply, as compared with about 10 per cent. a year age 11.9 per cent two years ago, 11.0 per cent. three years ago, 8.9 per cent. four years ago, 4.5 per cent. five years ago, and 4.5 per cent. six years ago.

The development and decline of the epidemic may be observed from these figures. Durnig the past year losses still amounted to or exceeded 10 per cent. of the supply in Ohio, Indiana, Arkansas and Florida.

Hoosier Combined Cotton & Corn Drill

The HOOSIER cotton drill you buy this spring will do work that is most satisfactory not only this year but years from now.

The HOOSIER combined cotton and corn drill is compact wide-rim, two-wheel machine with a low center of gravity, very popular because it does good work in every kind of soil.

A picker feed wheel gives any desired quantity of cotton to the acre and an agitator bail insures all seed passing to the feed in a steady stream. Three plates for proper corn plantings are also regularly furnished. A drag coverer presses earth firmly over the seed, or, a press wheel can be substituted. Fertilizer attachment furnished when specially ordered.

See the dealer who sells the HOOSIER, or write to the address below for details.

Harvesting Sudan Grass and Seed Selection

This is the last of a series of articles on Sudan grass that many of our farmers are trying out with success.

Feeding Value.

That Sudan grass is palatable has been demonstrated on numerous occasions, but so far no feeding experiments have been carried out to determine its digestibility. It has been reported by farmers, however, that cattle have done well when fed on the hay. Numerous analyses of the grass have shown it to be about the same in chemical composition as Johnson grass and timothy hay. The per centage of protein decreases from the heading period until the seed is ripe, but the value of the grass for hay is no doubt as great about blossoming time as at any previous stage. This comes from the increase in yield as well as the improvement in digestibility. Nearly all immature forage is inclined to be laxative and probably does not remain in the digestive tract sufficiently long to permit the complete assimilation of the food elements.

Soiling and Silage.

Sudan grass is suited admirably for use as a soiling crop, since it makes a large yield and is very palatable in the green state as well as when cured for hay.

No trial of Sudan grass as silage has as yet been carried out, but judging from its palatability and its succulence it would be excellent for this purpose, especially in mixtures with legumes. A mixture of Sudan grass and cowpeas or soy beans could be grown for silage as well as for hay. Its use for silage will no doubt be very limited, owing to the ease of making it into hay and the fact that there is little waste in feeding it.

Pasture.

No pasture tests have yet been completed, but Sudan grass seems to lack several of the essentials of a good pasture: First, it is an annual and the ground would necessarily be soft and considerable injury from trampling would result, since it does not form a turf; second, livestock pasturing on it would no doubt pull out quite a number of plants; and finally, being a sorghum, it may, in some cases, be a carrier of prussic acid, which is quickly fatal to cattle when occurring in considerable quantity.

Seed Production.

Probably in no other feature is Sudan grass any nearer perfect than in its seed habits. It produces seed freely in a loose, open panicle, which is carried well up by the stem, so that it can be harvested easily. The seed is retained well, and thus the loss from shattering is much less than in other wild forms of sorghums. The seed does not break from the rachis with a scar, but carries a portion of the rachis branch with it. Fields have been left standing long after the seed was ripe, and except for that eaten by birds, little was lost

Harvesting is accomplished most economically with an ordinary grain binder. When the seed is practically mature, Sudan grass can be cut and bound like grain and left to cure in shocks. It may, then be hauled directly to the threshing machine or stacked in the same manner as grain. The threshing machine used for wheat and other small grain will thresh and clean the seed perfectly if it is well matured when harvested. If cut too early the seed will be chaffy, and there is likely to be some loss from being blown over in the straw when it is threshed.

A clover huller has also been used in some cases with success. Seed threshed in a clover huller is apt to be more thoroughly freed from the glumes than when threshed in a grain thresher. The weight of the seed varies from 30 to 40 pounds per bushel, but good seed will weigh about 40 pounds to the bushel and can be seeded without trouble through the ordinary type of grain drill. The yields are such that seed growing at present prices is extremely profitable.

The seed of Sudan grass resembles Johnson grass very closely, except that it is larger and more plump. It is only through a critical examination that they can be distinguished and this fact emphasizes the importance of growing the two grasses separately. The adulteration of Sudan grass seed would be an easy matter, but the chief danger doubtless lies in accidental admixture through the production of seed on fields infested with Johnson grass. To avoid this it would be advisable when the seed becomes abundant to use only that produced in the North beyond the Johnson grass area. It is likely that in time, as the demand becomes more permanent and the farmers are educated to ask for seed from a section of the country known to be free from Johnson grass, there will be definite areas devoted to Sudan grass seed production

Summary.

Sudan grass came from Khartum, Sudan, in 1909.

While it looks somewhat like Johnson grass, it is taller, more erect and has a broader leaf.

It lacks entirely the underground rootstocks of Johnson grass.

Two or three cuttings can be obtained from it under favorable conditions.

The yields vary from 1 to 8 tons of cured hay per acre.

Its seed habits are good, and large returns are now being secured from the seed produced.

The seed of Sudan grass resembles very closely that of Johnson grass; therefore, farmers should use seed only from regions free from Johnson grass.

It promises to fill a long-felt want for a hay grass in the South, and will likely replace millets as a catch crop in the Central and Eastern States.

It does not do well in sections having a high altitude, because the nights are generally cool.

Baby Beef Clubs Started In Mississippi

To add impetus to the work of the baby beef clubs in Mississippi the Illinois Central Railroad Company offers to give five pure bred beef calves as prizes in each county along its lines in which the work is carried on this year. Dr. Frank W. Farley, director of the baby beef clubs, states that this, together with other agencies, insures a splendid showing for 1916. This announcement has just been given out by C. A. Cobb, assistant State agent of farm demonstration work, and director of boys' clubs.

According to Mr. Cobb, preparations are under way to put on a demonstration in the county and State fairs this fall that will be a credit to both Mississippi and the entire South. The plans of the organization, which have just been completed for distribution, are as follows:

The purpose of the organization is to create and promote an interest among boys and girls of the State for more and better beef cattle; to teach them the art of cattle raising; to inspire them with thrift and fill them with a love for farm life.

Any boy or girl living in the State who is between the ages of ten and eighteen years is tntitled to active membership in the club.

Plans of Organization.

The Mississippi Baby Beef Club shall consist of local, county, and State clubs. The local clubs shall make up the county club, and the county clubs shall make up the State club. The Superintendent of Education, the Demonstration Agent, the Home Science Agent, the Principal of the Agricultural High School, and the High School Agriculturist shall constitute the Executive Committee. The Executive Committee of each County Baby Beef Club may, if it is deemed wise, formulate rules and regulations to suit local conditions. However, such rules and regulations as may be set forth by the Executive Committee shall in no way conflict with the rules and regulations of the State Club. Each County Baby Beef Club shall hold an annual or semi-annual Baby Beef Show and Contest at such time and place as the Executive Committee shall see fit. The State Baby Beef Club shall hold an annual show and contest at the Mississippi State Fair. Prize winners of the various county shows shall enter their calves in the contest at the State Fair. Scrub calves are not eligible to enter and compete for prizes in the State contest.

Rules For the Club.

1. Each member of the Baby Beef Club must obtain at least one good grade or pure bred calf and provide sufficient feeds with which to feed said calf.

2. Each calf must be weighed at the beginning and at the end of the feeding period by the County Agent or some one recommended by the Executive Committee.

3. Each calf shall be owned and fed by a member for at least six months previous to the State Fair.

4. Each calf must be over six months and under twelve months of age at the beginning of the feeding periods.

5. Each member of the Baby Beef Club shall feed and otherwise personally care for this calf, according to directions outlined by the Executive Committee and the Agent in Animal Husbandry.

6. Each member of the Baby Beef Club shall make a report on the first of each month, and also a final report previous t the County Show and Contest, to the Superintendent of Education, and the Agent in Animal Husbandry on blanks supplied by the Agent in Animal Husbandry.

7. Each member of the Baby Beef Club must exhibit their calf at the County Baby Beef Show and Contest.

8. It shall be the duty of the prize winners of the County Show and Contests to exhibit their calves at the State Show and Contest.

Contest Regulations.

In awarding prizes at the County Contest the following basis will be used: Individuality, 40 per cent; rate of gain, 15 per cent; economical production (based on cost of feeds and care), 25 per cent; best kept record and written account of raising the calf, 20 per cent.

In the State Contest prizes will be awarded as follows:

1. For the best individual calves in the several classes, which will be determined by a competent beef cattle

2. For calves most economically produced, based on cost of feeds and care. For the largest and most economical gains.

3. For best written history of how calf was produced.

No boy or girl will be allowed to enter the County and State Baby Beef Shows and Contests and compete for prizes who has not fed and cared for his or her calf or who has not made monthly and final reports.

THE GARDEN

It would do the average big town man a lot of good if he had to put in about twenty minutes walking over ployed fields to his noon-day meal, like the country dweller.

A big proportion of seed catalogues is disposed of in town to people who never raise anything.

I know lots of city men who brag of their prowess as camp cooks, but if their wives asked them to cook a thing at home, they would plead utter ignorance.

When the bi gtown dweller goes into the country he is amazed at all the effort that is being expended in raising things to satisfy the demands o the human stomach. The neormous institution of agriculture, he realizes for the first time, is based on the good digestion of the world. Every time a doctor ordtrs a patient to eat less, some farmer loses money.

Country dwellers are getting so sophisticated that about the only thing they will stop and start at in town nowadays is a city dweller having his hands spruced up by a lady manicurist in a basement barber shop.

The immigrant first hits a big town and generally stays there. For the good of the nation, immigrants should be landed in some peaceful farming community where the first thing to confront them would be the sign: "Hired Men Wanted."

The operation of buying and getting rid of tickets, takes up a large part of the big town dweller's life. There are theatre tickets, baseball tickets, lecture tickets, milk tickets, ice tickets and tickets for half-soled shoes. A week's supply of tickets of all sorts for big town dwellers would make a sidewalk of pasteboard, three feet wide. from Algona, Iowa to Tie Siding, Wyoming, provided anyone cared to walk between those points.

Big town dwellers are the real worshipers of eloquence. Out in the country, folks would rather hear the corn grow.

It is rather disconcerting to the big town dweller to go to the country to spend his vacation and find the farmer and his family are spending their in town. The old idea that a farmer always has to be on the job in summer, is no longer in effect. Almost any farmer can steal a week or two out of July or August now without having his neighbors discuss the question of taking him to an insane asylum.

—Arthur Chapman.

TICK ERADICATION DAY IN LA. SCHOOLS

Tick eradication Day was celebrated in al the public schools of Louisiana on Thursday, April 20th.

Governor : all issued a proclamation naming that day for the celebration and the State Superintendent of Education directed every teacher to devote one hour on that day to explaining the subject of tick eradication to the pupils in his or her class.

For the information of the teachers the State Sanitary Live Stock Board issued 120,000 circulars which the Superintendent of Education distributed. In these circulars twelve brief reasons were given why Louisiana should eradicate ticks without delay. It is estimated that in this way about 400,000 school children learned something of the importance of getting rid of the tick

The celebration of Tick Eradication Day, it is believed, will do much to aid the campaign which is in full swing throughout the State Systematic dipping has been satisfactorily started in a number of parishes In a large number of other parishes, preliminary work is in progress and it is believed that he road will be opened for systematic work in them

RICHEST COW IN THE WORLD

Now that a majority of the milk markets are buying their supply on the butter fat basis, it is with more than a passing interest that we note the Register of Merit record of the Jersey cow, Merry Maiden of Innesfells 307454, owned by Dr. J. F. Thompson, of Portland, Maine.

The milk of Merry Maiden averaged 8.13 per cent fat for 365 days. This is the world's highest butter-fat average for a year's record. Her lowest monthly test was 7.13 per cent, made in the sixth month of her test, and the highest was 10.05 per cent, made in the twelfth month. The highest per centage of fat for a single milking was 11 per cent.

Merry Maidtn started test at four years four months of age, under the supervision of the Maine Agricultural College.

The final results show that she produced 560.4 pounds fat or 659 pounds, 85 per cent butter, from 6,896.5 pounds of milk.

You think, perhaps, you do not count,
That you're so little here
No hope on you shall ever mount,
No smile replace the tear.
But in our little, God sees all,
And in His perfect whole
We have our mission and our call
In mind and heart and soul.

It's all right to keep the flies out of the house, but why not destroy their breeding places?

Candidates For Office

Why not make your face as familiar to the voters as your name? In this way you will leave no doubt as to your identity in the voters mind. Our cuts print clear, and clean.

Jenkins Brick Co.
City.

Gentlemen:—

I am now grazing stock on a field of about thirty acres of fine oats which, before it was tile drained, I had been unable to plow before about the middle of April. I believe that with good land properly drained I can grow cotton under boll weevil conditions.

Yours truly,
(Signed) T. B. HILL.

The Drainage Will Do the Same Thing For Your Land

A proper Drainage System will prove itself an investment that will pay for itself in 2 or 3 years. Instead of "washing out" the land, the surplus water will drain through the soil.

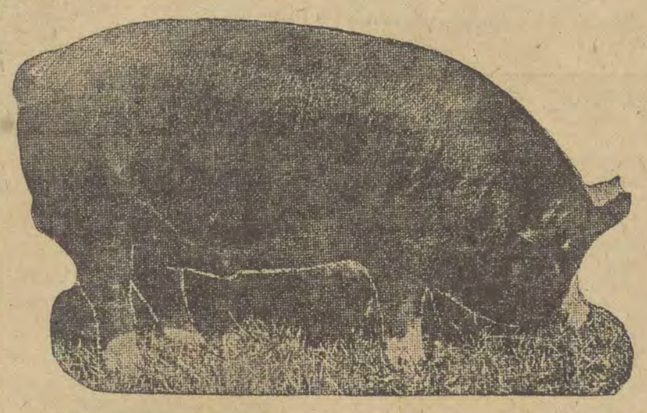
Berkshires In the South and What Georgia's Live Wires Are Doing

By W. D. Scott, Berkshire Man



A prominent breeder, a man of experience and one who knows conditions recently said there are more good Berkshires in Georgia than any state in the South. That Georgia Berkshire breeders are rapidly coming to the front is no secret.

The Berkshire the hog with the ham the standard for centuries will long continue to be the standard by which other breeds are judged. As porkers their flesh is of the highest quality containing a larger proportion of finer lean and fat than any other section.

As breeders they aren't surpassed for prolificacy and are careful mothers and good sucklers.

As grazers they certainly have no equal and will thrive on good pasture and make the largest returns for food consumed. They are of uniform size and color and adapted to Southern conditions. They will fatten at any age and will readily mature into a 600 to 900 and in some cases to a 1,000 pound hog.

Their winnings in the live stock expositions and at the international have surpassed other breeds, showing their ability to win as a meat proposition as well as a thing of beauty.

I am just in receipt of a letter from H. I. Tear of the Hickory Flats, Berkshire Farm, telling me of his beautiful Berkshires and the rich blood lines. While Mr. Tear is not one of our most constructive, he has gone out after the right kind of foundation stock and is producing the kind that help to make Berkshire history. He has just purchased of Scott Farm, Arlington, Ga., a son of Oak Lawn Huntress O. H. F. and she is certainly one of breeding sows in America. She is a combination of championship bloodlines of two continents, carrying the blood of Dansfield Haymaker one of the most noted board of England. She is out of Imported Dansfield Sophia, grand champion show sow of the famous Biltmore herd and was sired by a Masterpiece boar with an enviable show record. She too has a line of winnings that run several times into the grand championship class. With this boar at the head of his herd, he can rest on his laurels feeling that he has as good as there is in America.

Fair View Farm, Berkshires, Palmetto, Ga., with big Tom Tatum at the helm, is one of Georgia's most noted Berkshire hog and seed farms, it is not necessary to give a detailed description of either Bob or his hogs, for they are both well known and are both of the Big Type. Did you ever see him? He is one of these big, open hearted jolly good fellows, without much hair to comb, but a big face to wash. I never saw him mad but once and that was when he went to the barber shop to get a shave and asked the barber if he could shave him without taking his collar off. "Certainly," said the barber "and I can also cut your hair without taking your hat off."

This was too much for Bob, but he soon got back on his old smile and was ready to talk hogs to everybody again. He said he was going to send me a photograph but I guess the camera bursted, for he said he was afraid it would.

Country Place Berkshires, Commerce Ga., C. J. Hardman and Brother, has a fine herd of long-bodied, well-bred Berkshires headed by Artful Rival, pronounced by L. E. Frost, of the Berkshire World, as the best son of Lees Artful Premier 12th. This boar is mated to sows of the three greatest families in America, Masterpiece, Lord Premier and Priemer Longfellow. They are grown out on pasturage and are given enough concentrated feeds to develop them into the right kind. This is one of the best arranged and equipped farms in the state; they also breed Angus and Jersey cattle and Shropshire sheep.

Melton Farm, Berkshires, W. D. Nelson, Hepzibeth, Ga., are doing fine. Mr. Nelson is known among Georgia breeders as one of the most honest men a good breeder of hogs and is growing them under conditions that bring vigor, health and quality. He is a great believer in long ranges and plenty of room. He will always be known among breeders as one who never violates his obligation and if we had more of his kind there would be less complaint among purchasers of pure-bred live stock.

I. W. Jarman, at Porterdale, Ga., is probably one of the best-known breeders in the South. He was the first president of the Georgia Berkshire Association and made one of the best showings of Georgia-raised Berkshires of any Southern breeder. He has been a great factor in making Berkshire popularity in the South. He has not only owned and showed some of the best Berkshires ever produced on a Southern farm, but has been a factor in putting load after load of Hereford cattle and Percheron horses over Georgia. Jarman's name always couples with letter live stock and better agriculture for Georgia.

Zelobee Stock Farm, Buena Vista, Ga., the home of the grandson Berkshire herd of the South.

The foundation stock for this herd was purchased at the dispersal sale of the Abingdon Farm herd, the greatest herd of Berkshire hogs in the South and Zelobee Farm is keeping up the standard of the stock which they purchased.

I could go on and on and enumerate hundreds of other breeders in Georgia for our last secretary's report shows more than seven hundred breeders in Georgia with 487 more Berkshires registered in 1915 than in any previous year. I will try to mention some of the most prominent Alabama breeders later.

TURNIP RAPE SEED NOT WINTER RAPE

Two hundred thousand pounds of turnip rape seed, or enough to sow approximately 50,000 acres, have been imported from Argentina and Japan and are being sold as winter rape. The seed specialists of the United States Department of Agriculture there fore are again cautioning farmers to avoid the purchase and seeding of turnip rape, which is not winter rape and is not suitable for the forage purposes for which winter rape is grown

The seeds of turnip rape are smaller and have a more deeply pitted surface than those of winter rape. The young plants are easily distinguished by the difference in habit of growth and the character and color of the leaves. Winter rape produces a definite stem with the leaves occurring along it at intervals. Turnip rape does not produce a definite stem, the leaves all growing in an apparent whorl at the surface of the ground. The leaves of wineer rape are thick and succulent free from hairs, and covered with a greyish bloom. The leaves of turnip rape are thinfi hairy and bright green like those of the garden turnip.

Persons purchasing rape seed may submit samples to the Seed Laboratory U. S. Department of Agriculture, Washington, D. C., for determination as to whether the seed is that of the turnip rape or winter rape. Samples of both turnip rape and winter rape seed, fro comparison, will be sent on application to the Seed Laboratory.

Sell Rooster and Produce Safe Eggs

To be in position to furnish the Northern markets with fresh eggs this summer, farmers will do well to adopt the slogan, "Swat the Rooster" as soon as the breeding season is over.

It is estimated that many millions of dollars may be saved on the eggs marketed in the United States this year by getting rid of the rooster about the last of May or first of June.

The health department of the United States government has recently issued an order condemning every case of eggs found, to be over 5 per cent bad. This means that unless infertile eggs are produced, the loss from bad eggs this year will be greater than ever before, because it is almost impossible to ship fertile eggs to a distant market without a high per cent of them spoiling. The roosters are responsible for this loss, and it can be avoided by killing or selling them for table use or confining them. Infertile eggs will keep twice as long as those from hens that have been mated, and there is an especially high demand for them in the cities during hot weather.

OF COURSE

Catterson—Do you think it pays for a man always to deceive his wife?

Hatterson—It may not always pay, old fellow, but it's the only honorable thing to do.

HUMPS AND MUMPS

When Willie saw a camel
He marveled at the humps
"It is," he said to Saml,
"A funny place for mumps."

"Do you have to put a scarecrow out in the cornfield to keep away the birds?" asked the city man.

"Oh, no," replied the farmer, taking another pull at his pipe. "My wife's out there every day, hoeing."

The "Old Red Sow" on The Warm Gulf Coast

By Elmer R. Sly

(BY ELMER R. SLY.)

Until a comparatively few years ago the attitude of a considerable proportion of Southern farmers was that of a man who is in the habit of swimming a river to get a drink. With the most varied resources lying all about him, he was perpetually importing from less favored portions of the country much of what he required for daily consumption.

The "Rooter" Still Here.

Hog breeding is a case in point. The old piney woods variety that has been immortalized in innumerable jokes was perhaps the most conspicuous animal in the South. Even today he remains upon the scene, though he is now playing a minor part in the drama of the Souths' newer achievements. Science and experiment have so thoroughly demonstrated that the Gulf Coast section is ideally adapted to hog raising economically, if the right breeds are selected that there is really no excuse for the piney woods specimens remaining upon the scene at all, except as a stuffed curiosity.

Increase In Durocs.

It is undoubted that in coming importance the hog raising industry in this section, as throughout the South generally, the Duroc-Jersey will hold the leading place. The hold the breed has already taken upon the affections of the farmers in this section is remarkable. Two years ago, for instance, there were probably not fifty head of registered Duroc-Jerseys in Mobile county, and not a larger proportion in the adjoining counties; today in Mobile county alone there are several herds of three times that number.

Most Prolific.

Should there be any who are still in doubt as to the excellent points of the Duroc-Jersey, especially in this climate, a few figures will bring conviction. In the first place, it is a matter of statistics that the Duroc is the most prolific breeder of all. Thus, out of 4,314 Duroc litters recorded the average litter was 9 1-8. The Poland Chinas came next, with the Tamworths, the Ohio Improved Chesters, and the Berkshires, in the order named. Other things being equal, surely this ability to breed prolifically is a most important consideration.

Fill the Pork Barrel.

And other things are in favor of the Duroc-Jersey. Among other things, they stand in highest favor in the estimation of packers. It is a matter of fact that 75 percent of all the hogs killed in the big slaughter houses are either pure Durocs or are hogs in which Duroc blood predominates. For general marketing purposes they are, therefore, most profitable, naturally. It must be remembered that packers are not interested in what an animal weighs, but in what he will dress. Now, a well raised Duroc-Jersey will cut out from 80 percent to 90 percent meat, which is 30 or 40 percent more than the piney woods variety will yield.

First Essentials.

While the Duroc-Jersey is peculiarly adapted to this warm climate, there is none the less reason why anyone raising them should take the matter up scientifically. The first essential is to be sure of his grade, for it has been fully demonstrated that well-bred Durocs, as of any other breed, gain 30 percent more in weight on the same feed than would hogs of inferior blood.

Scientific feeding is, of course, absolutely essential to secure the best results, as well as to conserve economy in raising, for a well-balanced ration will accomplish much more in a given time than will indiscriminate feeding, while the bulk of feed required, and, consequently, the cost, will be much less. It is not how much a hog can eat as how much he can assimilate that counas.

Learn How to Feed.

In this climate, Durocs can be grown at an expense of from three cents to three and one-half cents per pound, if correctly fed. And, by the way, there is no reason why each individual farmer should find out for himself what has already been learned about scientific feding. By merely sending a 2-cent stamp he can get from the experimental station at Auburn the most interesting and instructive bulletins on what and how to feed. These bulletins embody the results of experiments extended over years.

Don't Overstock.

It has been a general experience that Durocs, like other breds, are most profitably raised in comparatively small bunches—say of not over twenty. Among any given number there are apt to be at least one or two deficient in vigor, and if these run with a numerous herd, they stand a poor chance of getting their share of feed. If a man does not intend to use grazing feeds for his hogs it will be better for him to raise no more than he can feed from his table. And there is such a thing as being overstocked for Durocs breed so prolificially that it often happens that the raiser finds he has miscalculated the amount of feed required, and, therefore, has to make unexpected provision for an expensive emergency.

Get One At Least.

However, there is no reason in the world why every rural dweller in this entire section, whether he be an orchardist, a trucker, or a farmer, should not have at least one registered Duroc on his place. From the very nature of its productions, this section is destined inevitably to become thickly settled with small holders. If each of these had but one or two registered Durocs the aggregate number would be large; and this would mean, as a consequence, the establishment of a market where each raiser could dispose of his hogs to advantage.

Co-Operative Work.

Intelligent co-operative effort always pays, and in nothing more than in hog raising. Individual raisers in any one community should bred at the same time, as by so doing they can secure cheaper collective freight rates, and everyone should study the markets closely with the view to advantageous collective marketing. Further, any given community should go in for one breed, for in this way their hogs have a uniformity of color and appearance that combine to secure an appreciably higher grade and selling price. The color of the Duroc has a double advantage in this respect, as it matches the color of the best strains of other livestock, such as the shorthorn and Hereford cattle.

Everyone who has had the pleasure of inspecting some of the up-to-date livestock farms in the North and West must have been struck with the fine effect of this uniformity of color. On many farms, not only is the livestock of reddish cast, but the barns, implements and running gear of vehicles are of the same color.

Sanitation Necessary.

In purchasing registered Durocs with the view to going into the hog raising seriously, whether on a large scale or small, the first thing to do, of course, is to start with all the knowledge available. The matter of feeding, as has been intimated, should be given first attention, after the selection of the breed, though it will take some years for any community to educate its members thoroughly in this matter.

Next in importance is the rigid adoption of sanitary measures. The old notion that the hog is indifferent to cleanliness has been exploded completely. He is as clean as the grower will let him be, and cleanliness is a prime factor in his profitable raisng. Unless one intends to provide plenty of good water, clean and well-kept surroundings, and perfect sanitation, he should stay out of the business religiously. Not why will he not succeed, but he will become a source of danger to his neighbors.

As a double precaution, everyone should use disinfectants freely. By adopting safeguards, cholera itself is preventable; at any rate, anyone can keep it from originating on his place, and he can go a long way toward preventing its importation, for cholera is spread by actual contact only, and not through the air, as was once supposed. When this, or any other diseases, makes its appearance it is one's duty to communicate the fact instantly to the farm demonstrator or the state veterinarian, and to adopt the most infected herd. Not to do so is as grossly culpable as to set fire to a stringent measures for isolating the neighbor's barn.

Mississippi Soon to Be Rid of Cattle Tick

With the passage of tick eradication laws in nine more counties, Wilkinson, Neshoba, Lee, Pontotoc, Union, Tippah, Tallahatchie, Carroll, and Sunflower, there will be not more than twenty-six counties left in Mississippi to be brought into line by the new law requiring tick eradication over the entire State, beginning January, 1917. The news of these new victories in the war on the cattle tick has just been given out by Dr. E. Barnett, of the Mississippi A. and M. College.

"The ticks must go, and go quickly," is now the slogan of the farmers in three-fourths of the counties of the State and with the help of the new State-wide tick eradication law Mississippi will likely be he first "all white" State n the present tick zone.

Following this rapid eradication of the tick comes an equally rapid improvement in the cattle industry. In the areas of the State already released from quarantine large numbers of pure bred dairy and beef cattle bulls are being brought in to "grade up" the native stock.

Mississippi farmers are no longer willing to waste their wealth feeding the tick, while it destroys their prosperity. Beef cattle from tick free territory sell for much more a pound than the price brought by ticky cattle, besides the great amount saved through the eradication of tick fever among both beef and dairy cows. Tests recently conducted by the United States Department of Agriculture show that even when the fever is not present the flow of milk from a badly infested cow may be reduced as much as 42 per cent.

In other places as well, such as outhouses, refuse piles, etc. In these places, from which no manure is taken to spread on the fields, considerable saving may be effected through the substitution of borax for powdered hellebore. Applied at the rate of 0.62 pounds per 8 bushels of manure borax is as effective as powdered helebore in killing the larvae but costs less than half a cent for each bushel of manure treated. In larger quantities, however, or when the manure itself is spread at a greater rate than 15 tons to the acre, some damage to crops may result. Large quantities of manure are often used by market gardeners and others and there is always danger of carelessness in applying the borax. The use of the more expensive but safer helebore is therefore recommended for the treatment of manure. Borax is recommended for all other refuse in which flies may lay eggs.

A Public Duty

Scientists who have been working for years to eliminate the fly are convinced that the use of one or the other of these simple measures is a public duty wherever manure and refuse exist. Sanitarians, however, strongly advise the removal of refuse heaps or other unnecessary rubbish or breeding places for flies. In breeding places which cannot be thus disposed of—such as manure or stables—the daily use of powdered hellebore will keep the flies from breeding in these favorite breeding grounds. The best results are obtainable in a community where everyone cleans up his premises, traps or kills the flies, and systematically treats the manure and other breeding places with powdered hellebore.

The fly is not only a nuisance to human beings and live stock; it spreads disease and filth and is a menace to public health which cannot be tolerated in the face of a demonstrated remedy.

Mrs. Yeast—A woman of Stoughton, Wis., a few days ago used a telephone for the first time in her 91 years.

Mr. Yeast—First day she hadn't found the "line busy," I suppose.

TWELVE HUNDRED BABIES DIED

ENORMOUS LOSS OF LIFE IN LARGE CITIES.

Twelve hundred and ten babies died in the city of St. Louis in 1915 and half of the deaths were caused by ignorance on the part of those who had the care of them.

This is the startling statement made in an editorial of the St. Louis Post-Dispatch in issue of March 2, 1916, and continuing, the paper said that much of that ignorance can be removed.

Mothers can learn without cost how to care for their children by writing for a copy of a booklet that has just been published and called "Healthy Babies," says the National Druggist, published in St. Louis, in the March, 1916, issue, and this journal says this booklet can not fail to remove much of that ignorance and hence will tend to save many human lives.

It gives suggestions to prevent underfeeding and overfeeding, when and how to wean the baby, the care of the bottle, how to avoid the petty troubles like chafing, prickly heat and numerous other subjects are treated in such manner as to be easily understood by every mother.

Any mother can secure a copy of this valuable booklet free by writing the C. J. Moffett Medicine Co., 1315 1st Ave, Columbus, Georgia. The Moffett Company are the manufacturers of "Teethina," a preparation for children that has had a most successful sale since 1877. Write for a copy today, a postal card will do.

Goose Raising Profitable In Small Numbers

The Toulouse and Embden are the most popular breeds of geese.

The Toulouse is the largest breed, the adult gander and goose weighing 25 and 20 pounds respectively, while the standard weights of the Embden are 20 and 18 pounds.

Geese can be raised in small numbers successfully and a profit on many farms where there is low, rough, pasture land containing a natural supply of water. The market for geese is not so general as for chickens, but the demand and prices are especially good in sections where goose fattening is conducted.

Management.

Geese need only a house during cold ir stormy weather, when an open shed should be provided. One gander is mated with from one to three geese and the matings are not changed from year to year unless they prove unsatisfactory. When mated, they are allowed to run together in flocks. Toulouse and Embden geese will breed when about 2 years old. The females are usually kept until they are from 12 to 14 years old, or as long as they lay well. Sex is difficult to distinguish, especially in young geese. The gander is usually somewhat larger and coarser than the goose and has a leaner, longer neck and a larger head.

Large boxes, barrels, or shelters are provided as nests for geese, or they are allowed to make nests on the floor of the house. The eggs should be collected daily and kept in a cool place. The first eggs are usually set under hens, while the last ones which the goose lays may be hatched either under hens or under the goose if she "goes broody." If the eggs are not removed from the nest where the goose is laying, she will usually stop laying sooner than if they are taken away. The period of incubation of goose eggs varies from 28 to 30 days. Moisture may be added after the first week by sprinkling the eggs or the nests with warm water. Goose eggs hatch slowly, especially under hens, and the goslings are usually removed as soon as hatched and kept in a warm place until the hatching is complete.

Feeding.

Geese are generally raised where they have a good grass range or pasture, as they are good grazers and usually pick most of their living except during the breeding season. Goslings should be fed a mash of two parts shorts and one part corn meal by weight, changing at the end of three weeks to equal parts shorts and corn meal with 5 per cent each of beef scraps and grit. A fattening ration may be made of a mash of one part shorts and two parts corn meal by weight with 5 per cent of beef scraps fed in the morning and a feed of corn at night.

Adult geese should be fed for eggs about February 1, or so that the goslins will be hatched by the time there is good grass pasture. In feeding for eggs give a mash of equal parts by weight of corn meal, bran, and middlings or low-grade flour with 10 per cent of beef scraps, in the morning, and a feed of corn at nikht. A constant supply of drinking water should be provided. If geese need grain when not laying, the beef scrap should be left out and the corn meal increased in the ration to three parts.

Get Rid of Flies With Powdered Hellebore

A safe and effective weapon against the typhoid or house fly has been found in powdered hellebore.

Flies lay their eggs chiefly in stable manure. Powdered hellebore mixed with water and sprinkled over the manure, will destrop the larvae which are hatched from the eggs. Since powdered hellebore is readily obtainable, this puts in the hands of everyone a remedy for one of the pests that has been found dangerous as well as troublesome. Powdered hellebore, however, will not kill adult flies which must be swatted or trapped.

It has long been known that flies breed in manure but previous methods of destroying the larvae there by the use of strong chemicals have been open to the objection that the treatment under some conditions lessened the fertilizing value of the manure or actually injured vegetation. This is not true of powdered helebore.

Experiments have shown that the hellebore is entirely decomposed in the course of the fermentation of the manure and that even in excessive quantities it does no harm except to the larvae it is intended to destroy. Chickens picking in manure treated with it suffer no ill effects.

How To Use It

One-half pound of powdered helebore mixed with 10 gallons of water is sufficient to kill the larvae in 8 bushels, or 10 cubic feet, of manure. The mixture should be sprinkled carecully over the pile, especial attention being paid to the outer edges. In most places hellebore is obtainable in 100-pound lots at a cost of 11 cents a pound. This makes the cost of the treatment a little less than seventenths of a cent per bushel of manure. A liberal estimate of the output of manure is two bushels a day per horse. The money involved is, therefore, trifling in comparison with the benefits to the individual and the community from the practical elimination of the disease-spreading fly.

They Breed Everywhere

Although fresh manure is the favorite breeding spot, flies lay their eggs

Mr. W. P. Talbot, manager of Tameny Hall, a fishing resort, Geneva, Ala., writes: I have tried Calomel, Quinine and other remedies for malaria and biliousness without effect; tried Vega-Cal" (vegetable calomel), which gave relief. Think it a God-send to the people. "Vega-Cal" is sold and guaranteed by all drug stores, 25 and 50c per bottle.

Chicken Dollars and Sense---IX.
House Location, Fencing, Water Supply

Convenience, Efficiency of Labor and Safety Determined by Plan of Plant

After deciding what type of house you are to build it will be necessary for you seriously to consider just exactly how you are to place these houses upon the farm. f course a southern exposure is best. Bear in mind that the house must be placed, if possible, where the hens can get some shade. No hen can do her best work in the summertime if she is to be subjected continuously to the direct rays of the sun and has no place to get away from them

The average chicken house will prov to be a pretty hot place upon a ver hot day. For this reason if you lo cate your house near or under shad trees, you will be most fortunate. On the other hand, I would very strongly advise against locating a poultry farm upon a place where there were no trees available for shade. Furthermore, do not locate your house where there is no soil covering, such as grass or other growing green stuff. It would be very foolish to avoid this because green stuff forms a very important item of food. Why buy it when you can raise it on the ground wheree the chickens are running about?

Fences Not Always Necessary.

I have found that with the 14-foot square house that I have described, there are no fences necessary to divide the individual flocks, belonging to each house. Whether or not a fence is necessary to surround the entire place will depend a very great deal upon where you are located. If your farm is close to the residence of other people, you will have to arrange to keep your fowl on your own land by building a fence.

People are in the habit of building very high fences. I have found that a 5-foot fence will keep any well-fed chicken at home. It is best to build this fence without any top board or other thing that is distinctly visible to the chicken's eye. The reason for this is that if a chicken can aim at a top board, it will be able to fly up to the top of any fence whether 7 or 10 feet high. But if you will take just the ordinary chicken wire and string that around without anything conspicuous on the top edge. I believe your experience yill be te same as mine, and a 5-foot fence will prove all that is necessary. If you build a 5-foot fence a 2-inch by 3-inch post is amply sufficient to hold it up. If you build a higher fence you have got to use a 2-inch by 4-inch post. All these items begin to figure very heavily in the cost of laying out a plant, and should, therefore, receive your very serious consideration.

Prsonally I would not care to locate a poultry farm where there were neighbors on either side of me who had chickens kept in a desultory fashion. My reason for this is that I would be afraid of disease breaking out amongst the fowls of my neighbors and spreading to my own flocks.

Another important consideration to be borne in mind in placing your poultry houses about the farm is the question of distance from residence. Chicken thieves are just about as plentiful today as they used to be. I like to have the chicken houses so located about the place that none of them are particularly isolated from the residence. My experience has been, an isolated house usually is visted by chicken thieves whereas a poultry house in easy hailing distance of the residence will not be bothered. Of course, chicken stealing is more prevalent in some neighborhoods than others, but I contend that the isolated chicken house is a very great temptation to some people, and is an invitation to disaster to the owner.

Storing The Grain Supply.

In the matter of the grain storehouse it is well to bear in mind that stocking up large quantities of grain is not always an economical matter even if it can be purchased at a lower price if bought in quantities. There are two factors that operate to reduce the saving effected by buying grain in extra large quantities. These factors are rats, and the detrioration of the feed itself. Some means must be devised to make the granary ratproof. ne of the best ways I know is to have it double floored and double walled, and between the two layers of the floor or the wall to have one-inch mesh bexagonal poultry netting. No rat worthy of the name can bore a hole through such a fortification.

In the matter of storing grain, you must be particularly careful when it comes to corn—new corn especially. New corn is very apt to heat and mildew. It is also very apt to develop a fungus (germ) which will cause bowel trouble in young chicks. In the warm weather and in the early fall. I do not think it is advisable to buy corn, esecially if cracked, and, to store it in large quantities. Wheat, on the other hand, can be kept very nicely, and if bought when in proper condition is a good purchase in large quantities, provided a saving can be effected. Ground feeds will keep rather irregularly—corn-meal is subject to even more deterioration than cracked corn. Wheat bran will keep a long time if kept dry. I would not advise keeping gluten meal or oil meal on hand for any considerable time. Wheat middlings is something like flour; it can be kept if kept properly.

Exceptions to The Rule.

As a general proposition, therefore, I would not advise the prospective poultry farmer to build a large granary excepting to keep feed for a long period such as six month. The exceptions to this, I believe, are whole wheat and corn on the cob, if for the latter you will build a regular old-fashioned corncrib, having lots of ventilation.

One of the most important things to thing about in laying out your plant is the water supply. How are you going to get the water to the chickens, and how much labor is this going to involve? A hilly farm is a great drawback when it comes to the matter of lugging water about. An egg is about 85 per cent water and everybody should realize how important a proper and sufficient supply of fresh water is to the chicken at all times of the year. In the summer time it must be prevented from getting overheated, and, therefore, unpalatable; and in the winter time it must be prevented from freezing.

A lot of thought has been given to the question of water supply. I have seen farms that have a pipe system, known as the drip system. It seeks to elliminate the necessity for carting water to the individual flocks. I personally do not favor it, and for the following reason; The greatest bugbear in the chicken business is contagious disease—and the greatest cause for the spread of any contagious disease is the drinking water. I do not, therefore, favor any method of watering chickens that will not necessitate a thorough cleansing every day of the receptacles from which the birds actually drink. Now if the chicken house is pipe and the water drips into the drinking pans, it may be so devised that it is possible to disinfect the drinking pans every day. But here is the point—it will not be obligatory to move those pans every day, and consequently, the disinfecting will probably be neglected sometimes, and those sometimes will eventually end in being one of the wrong times—just the time when some chicken gets sick and the disease spreads through the whole flock. I realize that it involves more labor but after a great many years of experience, and after having studied the causes of contagious disease on chicken farms, I unqualifiedly give my indorsement to a method for watering the chickens which requires the vessels to be taken in each day and replenished at which time they should be disinfected.

Therefore, I recommend any of the good drinking fountains of eight to twelve-quart size that are to be found upon the market—I use the kind that come apart for cleaning—and I consider that the best way to water your chickens is to have two sets of such vessels, so that the attendant can take a full vessel to a flock and take away the vessel that is there. This will make the work just half, because otherwise the labor of gathering the empty vessels would be one operation, and returning them full would be a second operation. By the method I suggest, a full vessel is simply put in the place of an empty vessel at one operation.

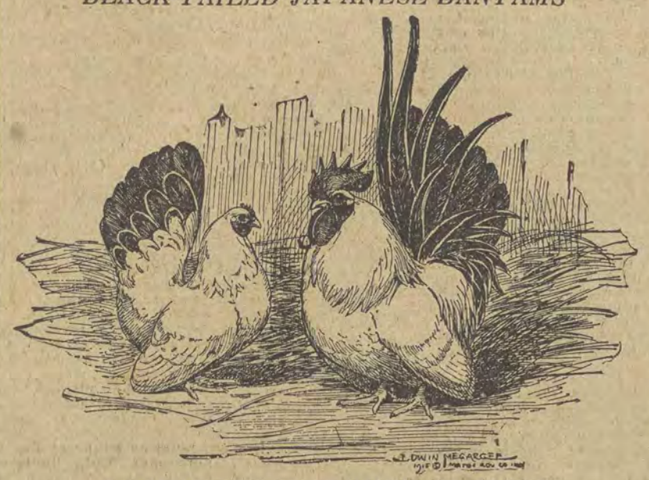
It would be advisable to have the vessels numbered, having two vessels for each number. Be careful to make a practice of putting the same vessels with the same flocks each time; therefore replace No. 1 by No. 1 and No. 8 by No. 8 and so on; then if any disease should be present, unobserved, in any one particular flock, there would not be the danger of spreading to another flock by giving the second flock the drinking vessel which the first flock had had. I want to emphasize this point particularly. It is a simple matter, but most important things are simple.

One of the many things that the poultry farmer must take into consideration is the question of litter supply. Litter is a very important thing, both to baby chicks and to laying fowl. Litter is one of the items upon which a deal of money can be spent or saved. Some poultry farmers get their littler for nothing; others have to pay out very good money to buy straw. It is not too much to say that in locating our poultry farm you should have an eye to where you are going to get yur litter, and how much it is going to cost you. I do not believe that ordinary hay amounts to very much in the long run as litter. It has not got enough resistance. Dead leaves make a beautiful, fine appearance for the first few days, but they break down very soon into a fine dust, and this is not good. Besides, you would have to keep on adding new leaves interminably.

Planer Shavings Excellent Litter

There are two form of litter which I consider the best; they are straw and coarse sawdust, or chips, usually called "mill planer shavings." Personally, I prefer the mill planer shavings and if I were going to buy any litter at all, I would not hesitate to put my money into the mlil planer shavings. They can be bought for 25 to 35 cents a bale in carload lots, laid down at your station. Of course your locality will influence that. A bale is sufficient to cover about fifty or sixty square feet of floor space, and if the poultry house is properly built, that quantity of litter will be good for four months.

These mill planer shavings are great things. They have a sufficient amount of rosin, or turpentine, in them to act as a mild insecticide, and help to drive the lice away or, rather, keep them away. They will absorb considerable of the moisture from the droppings of the hens and will wrap themselves around the droppings. They are porous enough to alloy these droppings, which fall among them to dry, and dry chicken droppings, are no danger to the health of the fowl nor to the cleanliness of the house. It is damp chicken droppings that are both foul in smell and dangerous to the heaith of the fowl, because the dampness is a lodgment for germs. Everything considered. I strongly recommend the coarse mill planer shavings and I would advise any poultry farm to look up the matter. A carload usually contains over 300 bales Of course this a very large number for anybody to purchase, but I believe that any live man should be able to induce a number of persons in his locality to go in with him and buy enough for a year's supply, tackling the livery stables, men who keep cows as well as other chicken farmers.



Diversificatino will always win out.

Give the boy a chance with a hog.

Every time a mixed feed mill is started in this territory, it means that much less money going west for feeds.

How much are you going to can this summer? Can all you can can.

BLACK-TAILED JAPANESE BANTAMS

A JAPANESE FEATHERED ODDITY.

BY EDWIN MEGARGEE

The Black-Tailed Japanese Bantam, as its name implies, had its origin in Japan, as some of its odd characteristics would clearly indicate. The almost uncanny ability of the Japanese in producing both weird and beautiful creations is well known. Witness the dwarf cedars, the Phoenix fowl, the odd and beautiful varieties of gold fish and their quaint spaniels, which are all so greatly admired. Therefore it is not to be wondered at that they should, from unpromising material, produce this wonderful little breed of fowls.

Just what steps were taken to create and fix the type cannot be told. Inquiries sent to the government authorities in Japan elicited the very meager information that they produced by crossing a number of the native breeds of bantams.

The Japanese breed these birds in many combinations colors, but of these the varieties which breed true to type are the pure white, pure black and the black-tailed white, which is the subject of the illustration. Through the white and black varieties are bred somewhat in America the black-tailed is far better known here.

These miniature fowls present a very charming and quaint appearance. Their ridiculously short legs, their flowing tails, carried aloft like a banner, and their long wings, with tips brushing the ground, make an extraordinary picture and one which appeals to all lovers of the odd and beautiful.

When properly bred the Black-Tailed Japanese Bantam possesses the following points:

The head is large, the eyes prominent, the comb fairly large, single, with five points. Wattles and earlobes medium in size and smooth in texture. Neck short and gracefully curved The wings long, broad and drooping. The back very short, the breast full and round, the body short and deep with short fluff. The shanks very short, giving the bird a crouching appearance.

In the male the saddle feathers are very abundant, the tail very large and carried so upright that it almost touches the back of the head. The sickles are very long, pointed and slightly curved.

In both sexes the body color is white, the tail black and white in the male and black in the female, as shown. Cocks should weigh 26 ounces cockerels, 22; hens 22; pullets, 20.

As utility poultry these little Japs are without value, though breeeders of bantams claim that what their bodies lack in size they make up in tenderness and flavor. A small flock of these dwarfs may be kept in very limited quarters at little or no cost, at once serve as pets for children and adults and regularly contribute dainties to the table.

FACTS for FARMERS and other folks.

Weights and Measures

Weights, measures, etc., in this collection vary somewhat, but they are accurate enough for the majority of problems on the farm.

Atmospheric pressure equals 14.7 pounds per square inch, also equals 33.947 feet head of water.

One cubic foot of water weighs 62.4 pounds.

12.4 cubic feet of air weigh 1 pound.

1 barrel contains 31 1-2 gallons.

1 cubic foot contains 7.48 gallons.

1 gallon of water weighs about 8 1-3 pounds.

1 pint of water weighs about 1 pound.

Pine weighs about 35 pounds per cubic foot.

Oak weighs about 45 pounds per cubic foot.

Concrete weighs about 150 pounds per cubic foot.

Sand weighs about 120 pounds per cubic foot.

Stone weighs from 135 to 200 pounds per cubic foot.

17 cubic feet of clay weigh about 1 ton.

18 cubic feet of gravel, in bank, weigh about 1 ton.

27 cubic feet of gravel, dry, weigh about 1 ton.

Lime weighs 75 pounds per bushel.

The area of a circle is 3.1416 times the square of one-half the diameter.

Household Measures.

1 teaspoonful equals 1 fluid dram.

1 dessertspoonful equals 2 teaspoonfuls, or 2 drams.

1 tablespoonful equals 2 dessertspoonfuls, or 4 teaspoonfuls.

2 tablespoonfuls equals 8 teaspoonfuls, or 1 fluid ounce.

1 common size wineglassful equals 2 ounces or 1-2 gill.

1 common size tumbler holds 1-2 pint.

A small tea cup is estimated to hold 4 fluid ounces or one gill.

1 pound of sugar is equal to about 1 pint.

How to Preserve Eggs.

A practical and inexpensive way of keeping eggs reasonably fresh for several months is of value on the farm as well as in the city. It is possibit to put down eggs in the spring months when they are plentiful and have them keep for months, almost as fresh as when put down.

The material used is water glass (sold in drug stores as sodium silicate). It has no chemical action on the eggs, but simply keeps the air out.

Use one gallon of water glass and nine gallons of water. One quart of water glass will make enough liquid for a five-gallon crock packed full of eggs. Place the eggs in the crock and opur the solution over them until they are covered, and leave packed in this manner until eggs are to be used.

The eggs should be absolutely fresh. It will not do to have them three or four days old. They should be put down the day they are laid.

No fear need be felt about the use of eggs preserved by this method. Water glass has nothing harmful in it. When taken out of the solution, the eggs should be washed in clear water.

Letters That Show How One Bank Aids Farmers

Not many days ago H. G. Hastings president of one of the largest seed houses in the South, noticed through an advertisement, the cooperative spirit shown toward the farmers by the First National Bank, of Seale-Alabama, of which Judge H. T. Benton is president.

Mr. Hastings wrote to udge Benton for further information about the bank's work. Judge Benton's reply to Mr. Hastings was as follows:

Judge Benton's Reply

I have yours of the 20th. inst. for which I thank you. The presence of the Boll Weevil has caused this Bank to advocate the cutting down to ten acres to the plow, all the cotton to be planted by our customers. We are making contracts containing this stipulation and providing for the planting of the former cotton acreage outside of these ten acres in corn, velvet beans, peanuts, soy beans etc., which contract contains a provision that we buy the entire production at the market price next Fall.

In order to turn these products into something salable, the people who own this Bank with some others are now erecting a Peanut Oil Mill which will also make cotton seed oil. In the same plant with this Oil Mill we will have the most complete Feed Mill that money will buy. From this plant we expect to be able to turn out cottonseen oil and meal, peanut oil and meal, velvet bean meal, coy bean meal and oil and the finest mixed feed that can be produced.

After we get our plant in operation we confidently expect to see the farmers become as prosperous as they deserve to be and to realize that right here in Russell County, is "The Garden Spot of the World."

I have curiosity enough about me to have a desire to know, what you think of our project.

Mr. Hastings' Reply

To this letter Mr. Hastings made the following reply, gleaned from his long experience and wide travels:

I wish to thank you for your very full letter of March 23, and to express my approval of your general course in meeting the conditions which you doubtless find yourself up against due to boll weevil.

My greatest regret is that it has taken a scourge like the boll weevil to force us, and by use of the word us, I mean the South, into a common sense system of farming, as against our old practice of one croppism.

As The Lord Intended

In the latter part of your letter you expressed what has been in my mind for many years, and I have frequently said that a system of diversified farming honestly followed as a general practice would make the Southeast what the Lord intended it should be, the richest agricultural section in the United States. During my lifetime I have traveled practically all over the United States as well as several foreign countries and nowhere have I seen a section or country with greater potential assets in the way of climate, soil, crops, etc., than has the South East. Enough money has come into us in the last 25 years to make us fabulously wealthy, but our comparative poverty has been the inevitable result of that money passing out, usually in advance of its coming in, for food and grain supplies, that should and could have been produced at home.

Question Or Markets

There has been great deal of talk here in Georgia for the last two or three years about the lack of markets for diversified products. It seems that you are going at both ends of this problem, first by making contracts encouraging the production of these diversified products, and second, providing a market for them.

There are great number of angles to the production and market proposition, but I have always contended that if you can get community production, the market question will largely solve itself, for with community production of hogs, cattle, corn, or any of the staples, the existence of the local market or the local buyer for the general market will be justified. This is exactly what we have in cotton at the present time, and it is the fact of the community producion of cotton that justifys the existence of the local cotton buyer in practically every town during the cotton marketing season.

Money In Farmers' Pockets

The grain markets of the West are handled on the same basis; in the states of Ohio, Indiana and Illinois, where the farmer raises hogs or cattle the local stock buyer exists, just as the cotton buyer exists here in Georgia and Alabama.

We feel that your general plan is a splendid one, and with the feeds which you propose to manufacture, you will in the course of time bring about live stock industry, as well as production of crops to make these feeds from, and we miss our guess if at the end of a five or six years period you do not find more money in the pockets of the farmers or in the bank to their credit than you ever saw during the most prosperous days of unrestricted production of cotton.

We could go on and on talking baout the different phases of this general problem, but we believe that you are getting right on brass tacks in the matter, and that out of your present project will come a full diversified development that will not only benefit the farmers in your neighborhood, but yourselves as well.

Nearly twenty years ago the writer began hammering away on this diversified production problem, at least to the extent of home needs on each farm. He has been in a masure discouraged a great many times, and he has seemed to be plugging at a huge inert mass in the farm population of this country. Now, however, he begins to feel that in a measure all these years of hammering on this subject every chance he got have not been wasted.

If in the future, you happen to think of it, the writer will be very much interested in knowing how you came out with your experiment along this general line.

Farm Pigeon Clubs In Town and Country

(BY ANNIE M. PHILLIPS, Cuba, Ala.)

The day is not far distant when squab raising will become as great as the chicken industry of the South and I see no reason why the boys and girls should not take hold of the great field of opportunity that awaits them and raise squabs as well as corn and tomatoes. There is a great deal being said about the corn and canning clubs all over our State, but there is nothing I see just now that is more needed than the organization of a Pigeon Club. An organization of this kind would mean much to the boys and girls on the farms and in the towns, who wish to enter the business for pleasure as well as profit.

Homer pigeons are the best money makers I know today. I have been in the pigeon business for six years and have made big money for the time spent on them. For anyone entering the business, I would advise them to use the straight breeds; do not cross. My advice to beginners is: "Walk before you run." Start with a few pairs of mated birds bought from some reliable company or breeder, and then match the birds, and expect to make a success with them. Be sure you have mated pairs banded, anything else would mean a failure. Do not keep all the youngsters you raise for breeders, but cull them out and keep only the largest and best. It is a good plan to color band the youngsters the same as the old pairs, so you will not mate up nest mates.

old, separate them from the breeders and put them in a loft of their own.

Squab raising pays big when run on a business basis, but never when gone into in a haphazard way. Squabs in New York are now bringing $4.50 to $6 per dozen. Situated near Los Angeles, California, is the largest pigeon farm in the world. The output of squabs from this plant averages thirty dozen a day and in June and July it runs up to fifty dozen per day. During two or three of the summer months, when the demand is not so brisk, the surplus squabs are put in cold storage until winter. What Los Angeles is doing in raising squabs, we can do also. So let's get to work.

If we start the right way, success is ours. Put heart, muscle and nerve into it and you may have the independent business of a self-sustaining squab plant and "be your own boss." If you do, you will realize that American destiny for which our fathers labored.

ANNIE M. PHILLIPS,
Homer Pigeon Farm, Cuba, Ala.

MOON OF APRIL

Moon of April, moon of April,
You have come and I have been
In the magic of your beauty,
In the mystery of the sheen;
Such a night, and such a splendor,
And so delicate and frail,
And so lovely and so tender
Were your footsteps in the vale.

There are nights of lonely phantoms
There are nights of sylvan shadows
And the nocturne of the rills;
Moon of April you have brought them
With your silver footsteps dancing
In the shadows of the drew.

You are slender you are fine;
There's a little star below you,
And the night is deep with wine;
And the music of the sea, dear,
And the voice of winds of night,
Join the harps of fairy tinkling

Vote For A Judge Who Has Won His Endorsement

JUDGE J. B. BROWN

of the Court of Appeals.

of Cullman, who is a candidate to succeed himself as Judge of the Court of Appeals. Was elected by the people in 1914, and has made a record of not having a single reversal by the Supreme Court, of any case wherein he wrote the opinion of the Court. Do you think this record entitles him to a full term? If so your support and influence will be appreciated.

(Paid advertisement authorized by J. B. Brown, Cullman, Ala).

To Farmers of Boll Weevil Sections:-

THE ROBINSON CHAIN DRAG will do effective and rapid work in brushing to the ground boll weevils and punctured squares.
THE ROBINSON CHAIN DRAG is a strong, practical and economical device for getting rid of the most weevils in the QUICKEST TIME and the CHEAPEST WAY. It is used and highly recommended by some of the most successful farmers in Mississippi and Alabama.
THE ROBINSON CHAIN DRAG is the best device known for the use of tenant farmers in fighting the weevil.

THE DRAG DESCRIBED

The Drag is a steel rod that holds a light durable chain, the rod and chain being attached to the beam of the plow stock with a casting arranged so as to be adjustable to the size of plants at the time for plowing. The rod is placed at an angle to the beam and as the plow proceeds down the row the rod bends down the plant over towards the middle between the rows and the chain agitates the plant sufficiently to cause the Weevil and infested squares to fall off into the middle of the row. The attachment is reversible as well as adjustable, up and down, and can be used on either right or left side of the plow below or above the beam.

We do not desire to create the impression among farmers that any device will prevent all the damage the weevil usually causes, unless the approved measures for control be carefully followed.

Write us so we can take care of your order before the growing season starts.

Robinson-Erhart Co. Selma, Ala.

SNAPPED CORN AND FEED GRINDER

The Williams Improved Snapped Corn Grinder shown below will not only grind Snapped Corn, but will also grind Pea Vine Hay, Alfalfa Hay, Velvet Beans, and in fact most any cereal with the very best results. It does more, and better work with less power than any other grinder made. Is built in six sizes to meet all requirements.

We will sell these machines to all responsible parties on very reasonable terms, thereby giving the user an opportunity to let the machine pay for itself in a short time.

Cottonseed hulls have advanced $20 per ton. Grind velvet beans, snapped corn, peavine hay and other herbage to take the place of the cottonseed hulls for dairy feed and get a better balanced ration feed than using cottonseed hulls.

Bonifay, Fla., 2-8-16.

The Williams Pat. Crusher & Pulv. Co.,
St. Louis, Mo.

Gentlemen:—
The No. 1 Mill bought of you for the Bonifay Milling Company of which I am vice president, has been running for several months and giving good satisfaction.

We are crushing snapped corn, velvet beans, hay, peas in hull and, etc. As to capacity, we have never tried it out, we usually get ten to fifteen tons per day but do not crowd the mill, I would advise any one wanting a mill to buy a Williams.

Yours truly,
Bonifay Bargain House,
Per A. J. Miller.

No.	Hopper Opening	Aprrox. Cap. 10 hrs.	Horse Power	Capacity per hr. on Alafalfa	Weight

Should Make Market For Brown Alfalfa Hay

By B. R. Taylor, Alfalfa Grower

Alfalfa can be grown and profitably grown on practically every farm in Alabama. There may be some requirement in the growing of the crop not satisfied by any one soil, but in the great majority of classes some simple treatment will correct it.

The greatest difficulty met by the growers in Alabama is to secure the pea green color demanded by the consumers. For this reason it is a more profitable crop for the raisers of live stock than for anyone else. The consumer in this case nevers know whether the stock was fed on green or brown alfalfa hay. It is very difficult indeed to cure it anyway but brown in Alabama on account of the humid atmosphere and frequent rains.

The pea green alfalfa has gotten the lead in the markets due to its being produced so extensively on the irrigated farms of the west, which were practically the only source of this hay for many years. The Alabama raisers are new comers in the field and are confronted by a big problem in diverting the buyers to the local hay. The local hay is openly discriminated against in the market and many producers find a great deal more difficulty in disposing of this product than in producing it. At the same time, western hay of no better quality or righer feering value is moving rapidly and at fair prices, from four to ten dollars a ton above the local hay.

Chocolate brown aflafla hay commands a premium of one dollar a ton over pea green in the markets on the Pacific slope. The growers there were confronted by the same problem that the Alabama growers have to face and they devised a means of curing the hay which eliminated the risk of losing the quality of the hay. They known that they are going to have hay of good quality, no matter whether it rains or not.

The chocolate brown alfalfa hay is cured in the barn. It is cut and raked up as fast as possible. As fast as it is raked up, it is hauled to the barn, still green and full of sap and put in the mow, being well spread out and packed down. When the mow is full, all doors and windows are shut up and the alfalfa allowed to heat. The result is that the heat breaks down the ribres f the alfalfa and renders them mre digestible. Being in a closed place and well piled the hay will not mould or mildew greatly, but will become chocolate brown colored and is more palatable to the stock than the green hay. The amount of alfalfa produced in Alabama will be greatly increased if the markets will just take chocolate brown hay at a price which is emmensurate with its value as a feed.

With alfalfa and corn all classes of stock can be satisfactorily fed and these are most always the cheapest feeds to buy. Alfalfa hay is equal to wheat bran for feeding, pound by pound and is usually from five to ten dollars lower in price. As a pasture it is very important to the stock-growers and will provide excellent pasture for all classes of stock. It is dangerous for the amateur to pasture alfalfa with cattle or sheep due to the danger of bloating, but to one taking the ntcessary precautions of not pasturing when it is wet with rain and dew and of filling the stock with some dry fodder before turning on the alfalfa, there is little danger. The labor consumed in pasturing alfalfa is less than in any other way of handling it.

The importance of having a market for local grown alfalfa hay is of much importance to the stock raiser because he should plan to have sufficient for his stock and ought to have a market for any surplus he may have. A market for the chocolate brown hay would mean that all Alabama farmers would cure their hay in this way and both farmers and consumers would get hay of the highest feeling value and it would mean that more local alfalfa would be grown, keeping the money which now goes to the west for alfalfa at home, and giving many Alabama farmers a new source of income.

By curing alfalfa to get the pea green color, Alabama farmers are trying to beat the western farmer at their game. By curing chocolate brown hay they can have a game of their own which will beat the western farmer on account of the cost of transportation.

B. R. TAYLOR.

New Organization to "Prepare" American Farmers For Conditions After War

Left to right, top: Clarence Poe, Clarence Ousley, Herman W. Danforth. Bottom: Frank L. McVey and John Coulter.

To prepare American farmers for changed conditions after the European war, the National Agricultural Organization Society, of which these men are prominent officials, has just come into being. Its chief aim is the formation, affiliation and federation of co-operative societies among farmers. It will give them aid in marketing their products, and will supply instructors and lecturers upon co-operation. It will also send organizers into communities where there are no adequate farmers' organizations, and will give expert auditing aid and legal services.

MADISON, WIS., April 22.—To prepare American farmers for changed conditions after the European war, the National Agricultural Organization Society has come into being. Its chief aim is the formation, affiliation and federation of co-operative societies among farmers. It will give them aid in marketing their products, and will supply instructors and lecturers upon co-operation. It will also send organizers into communities where there are no adequate farmers' organizations, and will give expert auditing aid and legal services.

Headed by Frank L. McVey, president of the University of north Dakota, the general committee consists of Gifford Pinchot, of Milford, Penn.; John Lee Coulter, dean of the college of agriculture, the University of West Virginia; H. W. Tinkham, farmer, of Warren, R. I.; Charles McCarthy, chief legislative reference library, Madison, Wisconsin; Clarence Poe, farm journal publisher, Raleigh, North Carolina; Millard R. Myers, farmer, editor American Co-operative Journal, Chicago, Illinois; Grant H. Slocum, farmer, general manager of the Gleaners, Detroit, Michigan; Herman W. Danforth, farmer, president of the National Council of Farmers' Co-operative Associations, 3,000 farmers' grain elevator companies in the middle west; and Clarence Ousley, planter director of the extension department the Agricultural and Mechanical College of Texas.

The new organization, or the N. A. O. S., as its promoters call it, will also make surveys into the land tenure systems of the United States with a view to "working out better, more equitable and fairer systems" of land settlement. It purposes to encourage and co-operate with state and federal educational institutions and agricultural departments in efforts for rural reorganizations and betterment..

The National Agricultural Organization Society will not seek to supplant or compete with any existing farmers organization of good repute, according to Secretary Charles W. Holman. It will offer its services to such and will endeavor to strengthen them.

The N. A. O. S. comes into existence as a result of several years' work on the part of agricultural leaders. It is an American adaptation of similar societies operating successfully in Scotland, Ireland, England Finland and in British South Africa. It was given its parenthood when it was created last December by the delegates who attended the third national conference on marketing and farm credits in Chicago. The committee has selected temporary national headquarters in the Washington building, Madison, Wisconsin, where a corps of experts is daily handling co-operative problems for farmers. This work has begun under the direction of a co-operative committee. Charles W. Holman is secretary; Miles C. Riley, counsel, and Charles A. Lyman, general organizer.

Borrowing For Necessities Is Economic Slavery

There is only one kind of debt that an honest and sensible man should go into and that is the debt that brings him money to engage in business or increase his business or to buy property or to improve the property that he already has.

This is the kind of debt that our people need to go into. The Iowa, Illinois and Wisconsin farmer is able to borrow money at 5 and 6 per cent and does borrow heavily. Most of the prosperous farms in these three states are mortgaged. They have been mortgaged to buy improved machinery and more and better livestock so that the farm yields and profits would increase on the farms.

From time to time you hear a lot of silly talk about "mortgaged farms". The most progressive and profitable farms of this country are those carrying mortgages—mortgages made so that the farm production would increase from year to year. These farm mortgages at five and six percent have enabled the Central West farmers to buy more land and have more stock and raise more grain and build up pasture and the soil itself. This kind of debt means progress, improvement and the increase of production and profits.

Both down with us it is a bit different. Some of the mortgages being taken out now are for permanent improvements, but most of those in the past have been for supplying immediate needs. Too many, alas far too many of our people have been borrowing from season to season to buy the necessities of life. The man who has to borrow money to buy something to eat or wear, for himself and his family, nothing more or less than an economic slave and this is slavery of the worst sort.

WHEAT AND OATS ON THE PRISON FARM

We have received the following interesting letter from J. H. Kennedy, prison sergeant, who is much interested in the work of the convicts under him on the prison farm in Montgomery county, Alabama. Mr. Kennedy's letter follows:

"I am sending you some samples of wheat and oats that we have been growing on the State farm here at prison No. 4.

As an experiment, we planted twenty-one acres in wheat. The prospect for a fine yield is as good as could be at present. It is heading out and well formed. In fact I have never seen finer wheat in the famous wheat belt on the tablelands of Middle Tennessee. Of course it is early yet and one cannot tell what the final outcome will be. A late freeze or frost on it in the present stage would prove disastrous.

We have about four hundred acres in oats equally as far advanced, and I have never seen finer oats growing in the black prairies of North Texas than the crop here. They, too, could be cut short by a late freeze or frost. But with favorable weather conditions, a tremendous crop will be harvested. You will notice that there are two varieties of wheat; the "Fulcaster," a bearded wheat, and "Bowden," a bearcless variety. This plantation is operated by the State, with convict labor, under the supervision of the Convict Board of Inspections, with Captain J. N. Machen, Warden, in charge.

Keep hog cholera out of the community—sanitation is the means.

Keep lice off the hogs.

Keep changing the sheep pasture.

Hogs are apt to stay up.

Going to get some real money out of the hogs this fall.

Diversification For The Lord Is Brother Crumpton's New Job

Rev. W. B. Crumpton retired from the Baptist ministry after many years of faithful work in Alabama, we are told, but the brethren wouldn't let him retire altogether, so they asked him to be all-around helper to Secretary-Treasurer W. F. Yarborough.

Brother Crumpton immediately felt that a good many Baptists everywhere could diversify for the Lord. Of course, diversification and the Lord's work is not confined to Baptists exclusively and a good piece of Methodist diversification, we imagine, is just as acceptable as Baptist diversification. But Brother Crumpton feels that his job is big enough if he gets all the Baptists to diversify for the Lord. And so he makes his appeal. The writer had the pleasure of furnishing a few of the "cuts" for Brother Crumpton's inspiring little booklet that is being sent out everywhere and so he is interested in this new way of working.

It is commended to you whether you be a Baptist, a Presbyterian or a Democrat. It is something new, something cheerful and something worth while.

But Brother Crumpton can tell you about it better than we can. Here is his call:

Wanted.

WANTED—Two thousand Baptist men and boys in Alabama, to plant in 1916 for missions, one ear of corn each, or one quart of peanuts, or one quart of velvet beans, or one peck of Irish potatoes, or one acre in Johnson grass, or alfalfa, or mark one pig or calf for the Lord. Now is the time of the year for volunteers to join the 1916 club.

WANTED—Two thousand Baptist women and girls who will give their Sunday eggs for missions, or give one-tenth the value of all their eggs, butter, or chickens for 1916.

WANTED—Five hundred pastors who will encourage the things named and appoint one brother and one sister in each church to call for volunteers for the 1916 clubs and report to me in Montgomery their own names, the names of the churches and the names of volunteers so that I may enroll them in a book and report the results next fall.

Blessings on all those who will respond to this call.

Secretary Yarborough puts it thus: "I wish you would take charge of Colportage, Tract Distribution, Putting Christ in the Will, Tithing and Crop Diversification."

By the latter he means getting boys and men to plant divers crops for the Lord, such as corn, peanuts, velvet beans, hay or Irish potatoes. Of course the women and girls will be encouraged to gather the Sunday eggs, or consecrate one hen to the Lord, or give one-tenth of the proceeds of sales from eggs, chickens or butter.

"Wanted" Appeal Heeded.

"I am ready to say that I will be one of the five hundred pastors who will encourage the things named in your 'Wanted' call. The committee will report to you."—H. T. Vaughn.

That is the way to respond. Now is the time to plant the crops. A few weeks more and the time will have passed for 1916. Won't 499 more pastors do as Brother Vaughn has done?

It needs to be done, it can be done, it must be done.

Pastors, I await your answers.

W. B. CRUMPTON.

Make It Statewide and Get Rid of Ticks

Mississippi has gone and done it. Mississippi has led the whole South is passing a State-wide tick eradication act.

Mississippi has made fine progress in tick eradication but as the work progressed there were some backward counties that kept on being backward and gave not much evidence of cleaning up and making the State altogether tick-free.

So some of the folks in Mississippi who want to see that State make even greater strikes than she has in the last three years got together and decided to make it "State-wide." They reasoned that the wellfare of the entire State of Mississippi was worth a great deal more than the individual opinion of some communities. Some counties didn't care whether they were "free" or not. Their not being "free" affected the cattle industry in the tick-free counties, as you know.

So the progressive people of Mississippi got together and passed a State-wide tick eradication act and now the infected counties have got to clean up whether they want to or not.

Mississippi has always been accused of being in the mire of politics. She is in pretty deep and probably will be for some time, but in matters agricultural she is ahead of some of her sister states.

Mississippi's State-wide tick eradication law has "blazed the way" for similar work in Alabama and Georgia. State-wide means getting rid of the whole thing at one time and not piecemeal as individual counties are led into the paths of agricultural righteousness. The piecemeal business is slow and unsatisfactory. The whole State voting to eradicate ticks means that Government men can go into each county and start the work and clean up in one year.

What do you think of State-wide tick-eradication?

Co-operative Associations For Shipping Are a Success

At this time about 500 associations for the cooperative shipping of stock are in operation in this country, most of them in the Ceneral West.

Most of these associations have a simple constitution and by-laws and a manager who looks after the shipments on shipping days.

An association like one of these enables the small raiser of livestock to ship with others in car-load lots to the ceneral markets. Thus he gets a better price for stock because local prices on only several head of stock are generally low.

On shipping days the stock of each man is tagged or paint-marked and the records kept by the manager so that there is no dispute over the checks when they come in.

In various communities in the South it would probably be practicable to have such associations as the expense in only a few dollars and it enables the small farmer to ship several head of stock to central markets instead of having to sacrifice it at local markets at a minumum price

SAME OLD SPRINGTIME

Same old spring time, same old music
Same old luring call and wish
Of the antic fields of clover
And to loaf somewhere and fish,
Same old vision of the river,
Same old dreaming, dreaming over
Boyhoods down in far-off places and
the sunburned, freckled faces—
And, oh, that same old springtime,
still a gift of golden graces!

Same old bubble, same old hunger
To go barefoot and to stray
Back to woodlands deep with hadows
And to grow up wild with play.
Same old sense of something tugging
At your heartstrings like a song,
Same old fond delusion hugging that
you'll come home nice and early
In that some old springtime twilight
when your golden hair was curly

Same old springtime, with its message
Of the wood and of the vale;
Same old ideas of adventure.
Colts to break and boats to sail.
Same old cheery blossoms glowing
Same old apple bloom and peach.
Same old golden music flowing,
Same old robin's nest to reach;
Same old springtimes, yes, forever in
the heart of dreams and light.
But as sweet, as sweet forever throug
the years that take their flight
—Foger McKinsey.

The smokehouse is coming back.

You can raise more hogs on an acre than you can cotton.

Why not get ready to fill the pantry full of canned peaches?

Advancing business ain't advanced none.

APRIL NIGHT

Let me be here with you, love, in the April night,
The dusk of the dew of dreams and the magic light;
With the mockingbird and the stars, and the heart of you,
The husks of the winter flown and the spring made new.

Out of a wayfaring hour to come at the last.
To this night of an April dream and to die from the past,
And to put the future away and sit here by your side,
While the world and the wars of men go out with the tide.

Ah, music of far-off things and the glory of being one
With the gift of the April dusk and the vanished sun;
To know that in joy and in hope I am here and a part
Of the hour of the violet breath in the love of your heart.

—FOLGER McKINSEY.

FIELDS OF TOIL

God, in the quiet fields of toil
Beside the plowman and the plow;
His feet like violets on the soil,
The kiss of sunshine on His brow—
Here let the morning prayer begin
Before the coulter breaks the cold—
Sow we today no weeds of sin,
But lilies of the life of God;
Here in the quiet fields of strife,
Touched with music of the spring;
And o'er our heads the wings of life
Voising where lark and linnet sing.

This man plants one thing, that another—
Plant one thing all for God, the brother—
Love and dear truth and better grace
To make this earth a better place,
More sweet with blossom than with tare,
That so wherever breaks the share
The fallow may bring forth ere long
The chorus of His mighty song:
On hill slopes and in fertile vales,
One sowing, and one temper, Lord
The seed of love before the gales,
Peace and life's trust before the sword

Folger McKinsey

JUDGE JOHN PELHAM

Candidate to Succeed Himself as Judge of the Court of Appeals in the Democratic Primary of May 9th.

Judge John Pelham was born in Calhoun County and has spent his life in this State. Judge Pelham is now completing his first term on the Court of Appeals and is the Presiding Judge of the Court. He has made an excellent record for fidelity and ability in the discharge of the duties of this high office, and is asking his fellow Democrats to endorse his record by following Democratic custom and electing him for a second term. He will appreciate your vote and influence.

Three Judges of the Court of Appeals are to be nominated.

5302 Wintrop St., Indianapolis Indiana.

"Cause and Effect"--Here Is the Cause, the Sire, Here Is the Effect, His Calves

Well, here they are; here's "the proof of the pudding."

These here calves are home raised and are out of common grade and scrub cows. At five months of age they weigh on an average, 425 pounds

The reason for this is plain—the sire. The sire of most of these calves is Sultan Boy, the magnificent Shorthorn bull whose picture is shown herewith.

The sire and these calves belong to Morton Crabb, a young Kentucky stockman who settled in the Demopolis section of Alabama several years ago got some alfalfa planted, got him the best bull he could get—a young bull—and began to grade up native stock.

Last year, a little bit later than this time, the writer was out on Morton Crabb's alfalfa and stock farm and saw the beginning of the grading up of native cattle. At that time he asked Mr. Crabb if he would not give his opinion in full of this work.

Mr. Crabb replied: "Please wait a little while. I want to see what can be done before saying much about it. I am garzing my stock on alfalfa and I want to see how that works—so far there have been no bad results. I know I have a mighty fine young bull but I want to see just what his calves will amount to."

* * *

Nearly a year has passed since that little talk and now Mr. Crabb has the proof to show for his belief in the profits that could be made in grading up native cattle with a truly fine bull. Would you want to see a prettier bunch of calves on alfalfa—or any other pasture—than those shown here? With these calves weighing 425 pound on an average, at five months old—having come through the winter on pasture alone—and with the price of "market toppers" running up towards ten cents in the central markets, you can get a good idea of the profits that are in this sort of work.

* * *

Most any stockman can do what Mr Crabb has done and is doing. Of course every farmer cannot have alfalfa pasture easily but he can have bermuda or clover or rye, oats or wheat. The two main things are the sire and the pasture. If a man has got the sire one thing is sure, he is going to have the pasture—and the calves to graze on it.

"The Cause" Below—"The Effect" Above

The importance, the value of and the profits in a well bred sire cannot be talked about too much. Under conditions at all favorable the sire will pay for himself several times in a year in twenty-five or thirty calves Pure-bred sires will gradually get rid of most of the scrub cattle and while the scrub cattle are being got rid of we will be getting cattle with bone and constitution that will put on weight fast on good pasture.

* * *

Let's profit by the work of this young Kentucky stockman. He came into the Central South unfamiliar with conditions here. Of course he knew stock and loved stock raising and he believed from the start that solid profits could be made by the combination of a well-bred sire, native cattle and good pasture.

Having shown what can be done—because he has done it—Mr. Crabb is in position to advise others. He doesn't believe that his work lies solely in doing things himself but also in inducing others to get market topping grade cattle by the use of pure-bred sires on native cattle. He believes if he can get others to appreciate the value of pure-bred sires and to back up with action this appreciation he will have accomplished something for the State to which he came to make his home.

* * *

Most Kentuckians have a belief in pasture that is deep-rooted. They never think of farming without thinking of pasture; they cannot talk farming without talking pasture. They say—and Kentucky has proved it—that pasture and livestock are the basis of all farming that ever amounts to anything. Kentuckians value the soil and you will never see a good Kentucky farmer, who has come into this territory, without plenty of pasture and livestock to keep his land from washing, to keep its fertility and to make farming pay year in and year out.

* * *

How much this doctrine of salvation needs to be preached, especially at this time when the prices of commercial fertilizers are so high. How many of our people make a wrong use of commercial fertilizers—and have been doing so for a great while. Commercial fertilizers can be made very valuable when used as a "stimulant" to a crop, making the crop start quicker and mature quicker. Herein lies their value, not only in the South but in other parts of the country.

But how many of our people have used commercial fertilizers as actual substance for making the crop. They have been doing this for years, without building up the soil with pastures and livestock. Now many of them are unable to buy commercial fertilizers now because of the price. If they had been building up their soil through nature's way at this time they would be able to buy—and pay for—the commercial fertilizers needed as a "stimulant" to the crop. It would have been better for the people and for the fertilizer manufacturers.

Let's build up our soil, good people, and get pronts while building it in the way young Morton Crabb is doing. His land today is worth more than when he bought it and it will continue to rise in value and productivity under his methods. You're doing a big work, Morton. More power to you—and more profits—in your work as a stockman and as a missionary for grading up native cattle with pure-bred sires.

IN BLOOM

It is not only flwoers that bloom
When spring throws wide the gates of gloom?
It is not only birds that sing
When breathing low on bending wing
The heavens of azure touch us here
With pinions of their vernal cheer.

Life is in bloom and love and light
The moon is blooming in the night
The heart and soul and faith of man
Bloom as alone the spirit can
When beauty in her morn of dreams
Decks the green earth with fairy fleams.

Oh, laughter is in bloom and lips
Of youth go ringing through the land
And joy on cheeks of roses sips.
And song and gladness hand in hand
Dance the new meadows of the dawn
Ere the bright drops of dew have gone

And souls bloom—from their utter night
Of doubt and danger they, too, rise.
And in the strange, soft springtime light
They mount to meet the templed skies
And castin gout the dust of fear
Put on the singing robes of cheer

Life is in bloom yea life and love;
As from the clod the green blades peep,
So the great heart that beats above
Touches the dust wherein we sleep,
And echoing t othe pipes that blow
Out on the springtime hills, we go.
—The Bentztown Bard.

Corn has been about 54 cents. Argentine wool has steadily risen in price from 6 1-5 cents a pound in 1886 to around 10 cents in 1900, and from 15 to 17 1-2 cents in recent years. The export of new clip comes normally in November, but lack of shipping has held this year's production back.

Of 1916

YEAR OF DIVERSIFICATION

Raise more corn and better corn, more forage crops, more hogs and more poultry, more produce for home canning—all we eat and more to sell. This bank believes in and fosters true diversification in Alabama.

AUTAUGA BANKING & TRUST CO.

Argentine Republic Must Feed Itself, Too

Great Interest in Pure-bred Live Stock Offers New Market to Southern Breeders Who Can Ship to the Argentine Cheaper than Breeders in the North

Argentina is a great nation specializing in extensive agriculture and allied or dependent industries.

In order to get the right picture of Argentina's agriculture, it is good to compare it with Denmark, a nation also specializing in agriculture and industry based upon it, but with an intensive development unknown anywhere else in the world. Denmark has to economize its territory; it raises more product to the acre than any other nation, and then it uses the raw product in further manufacture within its own borders, grinding wheat into flour and on into baked stuffs; turning other grains into cheese, butter, eggs and meat; distilling other products; putting everywhere its output into the most valuable form before it sells it.

No Intensive Farming.

Argentina, exactly the opposite, has vast reaches of land; it produces small amounts to the acre; it exports nearly all its product in raw or only slightly advanced state; it is a land of magnificent distances and bonanza farming, with no attempt at intensification because the time is only now beginning for that.

One Crop System.

Wheat, corn, oats and linseed have been the sole thought of the farmer. These are the "cash" crops, the ones for which transportation and the markets were ready organized. The Argentine farmer carries out the national idea and also specializes. Everything, thus far, has favored extensive, one-crop agriculture. The land has been held in vast estates. A high proportion of all the agriculture is conducted on the "share" basis, with no certain tenure of land. The thing for the man who was in the cereal-raising business (for Argentine farming is highly professional) was to get as much wheat or corn as possible out of a minimum of cultivation cost. Farming with machinery, on a large scale, is the Argentine idea.

Don't Feed Themselves.

And the typical farm is not a self-contained industry, as it is even in extensive farming in this country. The farmer buys much even of his food. In a country 96 per cent of whose product is purely agricultural or grazing, poultry-raising has not been carried on sufficiently to provide eggs for the cities, and millions of them are brought from the Northern Hemisphere at prices that would stagger a New York housekeeper. Potatoes and canned vegetables are important Argentine imports. All that comes simply from extensive specialization in the raising of certain products. And thus Argentina is becoming one of the foremost and may shortly be the foremost supplier of cereals for the world's markets.

Soil is Rich.

Argentina has a magnificent soil. There is probably nowhere else in the world so enormous an even, rolling territory covered with deep, rich humus, with few rock outcroppings and none of the troublesome mixture of boulders that occurs in our own best agricultural regions. Steam plowing is common. Cultivation and seeding does not have the labor devoted to it that even our most "extensive" farmers give. As yet there is comparatively little irrigation.

One may get the impression, from the above facts, that Argentina's agriculture is primitive, or that it is not progressive. This would be an entirely wrong impression.

Changing Now.

Argentina is steadily improving her rural industries. The territory available for them can be expanded enormously as a population settles untaken areas and as certain great national projects for irrigation are carried out. Patagonia is a coming source of world's beef, mutton and wool. Much of this coming development of cereal production and grazing must come in the form of large enterprises. Particularly, grazing in a small way will be almost impossible in the Patagonia region.

More Small Farms.

But in the older parts of Argentina, agriculture is changing. The statistics of the agricultural industry show a very interesting tendency toward smaller holdings of land as between 1902 and 1912. The estates of 12,000 to 25,000 acres in the old provinces have decreased in number some 30 per cent. Small holdings have nearly doubled.

The cultivation of corn is rapidly increasing. And while the total crop is only about an eighth of that of the United States, in recent years, Argentina exports three times as much as we do

Want Pure-Bred Stock.

There is an effective movement on in Argentina along what we call lines of "rural organization." There were 34 co-operative agricultural societies in the country in 1914 formed for various purposes, including insurance, rural loans, co-operative purchase and use of machinery, purchase and sale, and the improvement of livestock. For forty years the grazing interests of the country have been improving their herds and flocks. Last year the pedigreed cattle, sheep, horses, donkeys and pigs in Argentine registers were valued at just short of $15,000,000. The auction sales of the Argentine Rural Society at Palermo, including cattle, horses, pigs, sheep, goats and poultry exhibited, have aggregated a value of from a millio to a million and a half dollars of late years. World's records for high prices of blooded animals are frequently made at this great show, a national event.

Pigs and Poultry.

A new thing in Argentina of interest to us is the cultivation of the pig. Early in 1914 the Argentine Rural Society called a special meeting to boom the production of pork stock. North American packing interests are helping along this movement. The society is also cultivating the poultry idea among the farmers. In fact, a definite campaign for a modification of the close specialization of the Argentine farmer is on, and steadily the peculiarly Argentine economies of rural production are going to be developed. Argentina will not for long buy goods, excepting specialties, like coffee, yerba mate, etc., that cannot possibly be grown there. The public-markets idea has taken in Buenos Ayres, and an official organization of the reception and public sale of vegetables, dairy products, meats of farm making, fruits, etc.

It does not appear likely that Argentina will soon worry over intensive farming. While the value of some land is high, the economies of production seem now to indicate the continuation of large-scale farming with an increasing use of machinery. The oil fields now under improvement may bring "gasoline farming" extensively.

Princely Estates.

Argentine is the land of what may be called the millionaire farmer. So much grazing, wool production and cereal growing is on the large scale, many large fortunes and incomes are obtained from the premier industry. Country estates are frequently almost princely in domain, appointment and value. Labor is furnished by a picturesque class of native Argentines, the temporary harvest supply being supplemented by a large migration, in ordinary times, from the south of Europe, coming in the Argentine Spring and returning home in the Argentine Fall. There has been a heavy net emigration since the war began.

Wool Prices Raise.

Over 90 per cent of the world's cereals are produced in the Northern Hemisphere. The crops of Argentina, Australia and other Southern Hemisphere producers come into the market at the season of steady prices. Normally Argentina's wheat begins to be shipped early in February and moves most heavily in April. The Argentine corn flows out in June and continues strong till the end of the year. Of late years Argentine wheat has averaged a few cents below a dollar a bushel in all-round export sale. The price last year was probably higher.

SOUTHERN HEREFORD SALE

By Col. E. H. Taylor, Jr.

Thursday May 4th, 1916, at Atlanta, Ga.

50 HEAD

10 Bulls, 40 Cows and Heifers

Imported and Home Bred Herefords

A Superb Selection of Females of The Most Popular Blood

These forty cows and heifers comprise seven cows with calves at foot, three of which were imported. Twenty capital long yearling and two-year-old heifers. Thirteen lovely junior yearling heifers. THE UNION-BANNER

VOLUME V. CLANTON, ALABAMA, MAY 4, 1916. NUMBER 5.

MR. JOHN B. FARLEY WRITES TO THE VOTERS

Clanton, Ala., May 1, 1916.
Editor Union-Banner:

Please allow me space in your paper to say a few words to the voters of Chilton County.

I am a candidate for Commissioner in the Fourth District and owing to circumstances over which I have no control it will be impossible for me to see all the voters of the county before the primary on May 9, therefore I take this method of asking your support on that day.

I wish to say that if I am elected I will do my best to see that the affairs of the county are conducted on an economical basis. My several years experience as a contractor in building, I think the better qualifies me along the line of bridge and road building. I am in favor of good roads but am not in favor of plunging the county so deeply in debt to secure them at this time when there are other important matters needing attention.

Now if the people see fit to elect me to this important office I promise to faithfully attend to the duties of the office to the very best of my ability and feel sure that those who give me their support will have no reason to regret having done so. Should the voters of the county decide that I am not their choice and nominate one of the other candidates I shall do all in my power to elect him in November.

I regret very much my inability to see each voter in person and take this method of making my appeal for your support.

I have heard that the report has gone out that I have withdrawn from the race, this rumor is without foundation as I have no intention of withdrawing but will remain in the race till the people speak with their ballots on May 9.

Thanking you for what you may do in my behalf on May 9th, I beg to remain,

Yours very truly,
JOHN B. FARLEY.

J. DUDLEY COLLINS WRITES REGARDING HIS CANDIDACY

Clanton, Ala., May 1, 1916.
To the people of Chilton County:

I am now asking you to give me the nomination for Tax Collector of Chilton county, Ala., on May 9th.

You know me as a private citizen, and as an officer as I have been your Collector for three years. You know whether I have done my duty or not. If you think I have I will thank you for the nomination, promising if nominated or not, to do all I can to elect the entire Progressive ticket which will be nominated on May 9, and I further promise the people that I will do my best to do my duty and to show you every favor possible. I now thank you for past favors, hoping to receive them again,

As ever,
J. DUDLEY COLLINS.

Riley Robinson of Providence Beat 16 was here Wednesday.

W. H. Conway of Jemison was down this way Wednesday.

JUDGE REYNOLDS MAKES AN APPEAL TO VOTERS

Clanton, Ala., May 1, 1916.
Editor Union-Banner:

I ask permission to write a few lines in your paper to the people of this county.

Next Tuesday will be an important day in Chilton county, and I hope every voter will go to the polls and vote his honest convictions. Some voters say it will not amount to much so they will not take any interest in the election, but the two primaries will determine who the officers will be for the next four and six years.

Just think for a moment what the change of a few votes would have meant to this county six years ago, and two years ago a few votes would have saved our county from bankruptcy.

This has been one of the quietest campaigns I ever saw, not one word to stir up strife, no mud slinging, no candidate talking about the other, nothing being done or said to hurt any ones feeling. Prof. Moore has gone to every speaking in my car with me. We have not said anything we would not have said in the presence of each other, and in fact we have been together nearly all the time.

Now there are a few here in Clanton that will go to every defeated candidate and try and make them think that they have been mistreated. Every means possible will be done to divide the people. I see The Press has paved the way for this already, but I do not think this crowd here can fool any body.

The voters of the Republicans and Progressives have a great responsibility on them, for the ones they nominate will be the officers of Chilton County unless something happens.

Think of the condition of our county. Two hundred and fifty thousand dollars in debt. A burden on the taxpayers for several years to come, interest to be paid, a large debt past due, nothing to pay it with, certain expense will have to go on, the county will have to pay dear for what it buys because no one can tell when the bills can be paid.

The voters should pick out the best qualified men for each place, for if there ever was a time when this county needed efficient men it is now.

Now if you see fit to nominate my opponent, Prof. Moore, I am sure you will not hear any complaint from me, and I will do all I can to help elect him.

Some few have been in hopes they could get up some controversy in order to leave some scars for the general election, but I have no fight for Republicans or Progressives. I am going, if nominated, to look after the Democrats, for they will either be elected in the fall or our ticket, therefore it would seem foolish for us to chase butterflies while some other fellow was shooting big guns at us.

Remember the only hopes the Democrats have is to divide us for they have not got any chance to elect their ticket without help from our party so they will try every scheme.

Respectfully,
L. H. REYNOLDS.

(Published by L. H. Reynols, Clanton, Ala.)

THE PROGRESSIVE EXECUTIVE COMMITTEE

As required by law, the Executive Committee of the Progressive party of Chilton County is hereby called to meet at the court house in Clanton on Thursday, May 11th, for the purpose of counting the vote, and declaring the results of the primary election of May 9th. All members of the comittee in the various Beats will please take notice and govern yourselves acordingly.

W. H. GILLESPIE,
Chairman.

M. D. FOSHEE, Sec.

SPANISH JACK—For service, three miles west of Clanton, near Falakto. Jobe Mims.

From all accounts C. Reese Mullins seems to be leading in the Democratic race for Probate Judge.

(Paid political advertisement, by C. Reese Mullins, Clanton, Ala.)

LETTER OF INTEREST FROM MR. R. N. WILKINS

Billingsley, Ala., April 25, 1916.
Editor Union-Banner:

If you will please allow me the space I would like to say a few words to the voters of our county, especially to the Progressive-Republican voters. Boys, we all know that Judge Reynolds made us as good a Judge as the county has ever had if not the best one, and we know how he got beat, each of us that voted for the other man knows why he did it. If we have not already it is time for us to begin to think for ourselves.

When Judge Reynolds was in charge of the county's finances if the county owed us anything the money was ready. How is it now? The county has not owed me anything for the last few years, but if they did (according to reports) I would be a long time getting it. I understand that we had to stop the road machines the other day for lack of money to buy oil to run on. I think we ought to look at the condition from a business standpoint. If this extravagance, such as High schools, High roads, high priced officers and high tax, if this is not checked there will be a lot of us that will lose our homes on account of it, you may look out for the dipping proposition in the near future which will serve as a heavy blow of tax on most all of us. Just think what a tax it would be for a one horse farmer to be forced to lose at least 14 days out of his farm through the busy farming season to carry his cow or cows to be dipped in order to rid them of ticks and at the same time not a tick on them. Boys, if you can't make $5.00 worth of living and money each day that you work in your crop I say that you will fail to make a living by farming.

I want to say that I did not vote for the other fellow. Do we not know that if our enemy had not of scattered our votes our county would not have been so far in debt. In making arrangements for this heavy debt and high tax you who voted for them were called the trash and skum of the Bull Moose party. Look around and see if you can't see the same spirit of division at work, the Bible teaches us that there are only two spirits, one of them is the spirit of the Devil and the other the spirit of God, and it seems like the evil spirit is getting his strife under good headway. His purpose in the world is to deceive his very elects, he would rather divide us than to have a ten cent cigar. Boys, we are to judge a tree by its fruits and you shall know them by their fruit.

Just a word to Mr. R. J. Williams. Mr. Williams, the spirit of the division is delighted to have us long time Progressives quarreling with each other. I don't wish to quarrel with you, but I do think that you have waited a long time to resist what has been said of you as commissioner. Have you just lately found it out? You spoke of some rotten politicians, then you refeered to Judge Reynolds also to The Union-Banner, then why have you waited until now to complain? Have you not done about like you said the Union-Banner had done, waited until just about election to stir up strife? We believe the reason that Reynolds worked the convicts on the road by your house and other roads, proves that he is in favor of good roads, and we know that he is a man of good business. We have seen his business fruit and we want to try him again. Now Mr. Williams don't you remember the day I met you in Reynold's store when you were a candidate, Mr. W. L. Chandler introduced you to me, he told me who you were, and you told me you wanted me to vote for you. I told you I had but one question to ask you, had asked Mr. Herrod the same question. Was he in favor of issuing bonds and running the county head over heels in debt to build roads? He said that he was not in favor of it, and upon this you said you wasn't. I told you that if you went back on that I would vote for you once and never again. You may not favor the issuing of bonds, though it appears that you favor a worse thing —time warrants. If the people had submitted to the issuing of bonds they would not have had the time warrants system forced on them the same overbearing spirit did that by the rule "Do it."

In conclusion I say to the voters, keep your head level, stand together. Let us not be as the man was that said that he was chief of sinners. When he found out that he was following the wrong spirit he verily thought that he was doing God service. One of the commandments is "Let every man be fully persuaded in his own mind." Exercise your own judgment and vote for the man principly for which Christ died, equal rights to all and special favors to none.

Respectfully,
R. N. WILKINS.
